ALL JUDGES RE-ELECTED.

No Opposition to Chief Justice - Judge George Received the Entire Vote. The State published the following account of Tuesday's elections in the legislature.

The election passed off quietly yesterday. There was not the excitement which excited any real sympathy interest and that was the selection of a trustee for Clemson college. It was rumored that Chief Justice, Pope removed, that Chief Justice, Pope removed, that Chief Justice, Pope removed.

Senator Warren of Hampton was nominated against Judge James Aldrich and Senator McIlwain of Laurens was nominated against Judge C. K. Hugh of Abbeville. The returns were elected by overwhelming majorities. The vote indicated that the legislature was disposed to make no changes. There was a similarity in the vote for Senators McGowan and Warren which excited some comment. The only judge who had been defeated for re-election in recent years was Judge H. J. Pollock. Senator H. J. Pollock in the election yesterday no speeches were allowed but Mr. Pollock in a very few words paid a handsome tribute to Judge R. W. Taylor who was again elected.

The joint assembly was convened at 11 o'clock by Senator Manning, who presided with dignity over the elections. The first place to be filled by the elections was that of chief justice of the state supreme court.

Chief Justice J. H. Hudson nominated Chief Justice J. H. Pope to succeed himself. Mr. Taylor of Newberry being the only nomination. There were no other nominations. The chair declared that 146 votes had been cast, all for Judge Pope.

Senator Walker nominated Judge C. G. Dautler to succeed himself in the first circuit, the nomination being seconded by Mr. Brantley. There was no other name placed in nomination, and the vote was unanimous.

For the selection of judges of the second circuit, Mr. J. Belton Watson nominated Senator E. F. Warren of Hampton. This was seconded by Dr. Whitley, representing the opposition. Judge James Aldrich, the incumbent, was nominated by Col. J. B. Clay of Aiken, and this was seconded by Senator W. E. Johnson.

As Numerous as Colonels.

An assiduous and painstaking reader of the World writes to us from Buffalo to protest against the exuberance of the military spirit which pervades the city. He says that there are so many colonels in New York. "We country people," he complains, "can swallow that they constitute a large percentage anywhere from 20,000 to 50,000 - but when it comes to crediting almost everybody to that class it goes beyond our containing capacity."

We regard this as a captions and ill-natured criticism, which has its inspiration in a certain provincial ignorance of the manners and customs of New York. In this city the term "militarism" is a courtesy title which belongs to everybody who succeeds in escaping arrest on a charge of violence. Even in those unfortunate cases the victim is entitled to the designation of "former military officer."

Each section of the country has its own courtesy titles which custom and tradition confer. Just as every district has its own "Colonel," so every citizen of Maine, with pronounced views about the weather and the constitution, is a "quire." In Indiana every body is a "Judge" who has been a justice of the peace or a candidate for justice of the peace, or who has aspired to any other office of profit and trust. We once heard an Englishman speak of a "Judge" who meant our distinguished and passionate friend Albert J., the only non-born American who ever succeeded in winning a judgeship in this Chamberlain world.

In New York we are neither squires nor colonels nor judges, but millionaires. If we come from Pittsburgh or Chicago we are called "millionaires" on our personal property we are millionaires. Those of us that ride on the ferries in going to and from our work are millionaire yachtsmen. We are called in a city which is suspected of having illicit relations with a pool room we are millionaire brokers.

Reporters confer these titles freely and generously as part of the duties of metropolitan existence, precisely as one member of Congress alludes to the gentleman from such and such a state, whether he consider the aforesaid colleague a gentleman or not.

Measured by the sordid, materialistic standard of the day, the word "millionaire" may be only a few hundred or a few thousand citizens of New York, who have accumulated a million dollars in more or less tainted money. But in the balance of the money-changers.

The Grip. "Before we can sympathize with others, we must have suffered our sufferings. No one realizes the suffering attendant upon an attack of the grip, unless he has had the actual experience. It is a dread disease that causes so much physical and mental agony, or which successfully resists medical aid. All danger from the grip, however, may be avoided by the use of Chamberlain's Cough Remedy. Among the thousands who have used this remedy, not one has ever been troubled again with the grip."

Hardman-Wylie.

An event looked forward to with much interest for some time has been the marriage of Miss Lizzie Henderson, daughter of Dr. J. W. Henderson, Miller Wylie. This happy affair was consummated last evening the 24th inst. at 8 o'clock at the home of the bride's parents, Col. and Mrs. Thomas Hardman. Their elegant new home was most artistically decorated. The color scheme of white and pink was carried out in every detail. On entering the reception room an array of smiling and a profusion of pink roses were seen. The electric lights added a soft brilliancy on the fairy like scene.

At 8 o'clock the soft strains of Mendelssohn's wedding march caused a hush to fall over the entire audience, and soon the ribbon bearers came slowly down the hall, Master Nora Hardman, dressed in pure white broadcloth, and little Miss Lolla Polhill in pink silk with a large bouquet of white carnations in her arms. Next came the groom and his best man, then every Wylie, who was best man, then the bride and her bridesmaid, and her sister, Miss Dolly Hardman, maid of honor. The bride was dressed in the white Eolian crepe or white silk. Her bridal veil hung gracefully to the edge of her train and was caught back by a cluster of orange buds. She carried an immense shower bouquet of bride roses tied with white ribbon.

The couple advanced to the center of the room and stood under an arch, composed of snail and white roses. They were met by Rev. J. S. Mills, pastor of the Presbyterian Church, who in beautiful and impressive ceremony made them one. After congratulations, most delicious refreshments were served, and the colors pink and white were followed in the less gorgeous and stately Miss Hardman is the second daughter of Col. Thomas Hardman, and possesses all those lovely graces and traits which go to make a perfect lady. She is a graduate of the West Female College. Her friends here very reluctantly give her to our sister state, S. C.

Mr. Wylie is the eldest son of Mrs. Wylie, who is the late Dr. J. W. Wylie, a native of Chester county, S. C., and is a rising young physician of the city of Chester. He is a young man of fine character and sterling worth. He is associated with his father in the practice of medicine, and has already gained reputation not only in his own town but also in the entire South.

The presents were both numerous and costly. Beautiful china, cut glass, silver and a handsome sum of gold money being prominent in the list. The bride couple, accompanied by his mother and brother, returned to the home of the groom Thursday at one o'clock, followed by the best wishes of a host of friends. This home of the bride and her adopted state also. May their lives be full of sunshine and happiness in the heart-felt wish of all who knew them. About 120 or 200 guests were present to bid them good speed on their wedding journey.

Nothing is more in demand than a medicine that cleanses the system, purifies the blood and restores the vitality. It is just what you need to cure stomach and liver troubles. Try them. At the Chester Drug Co. and Johnson & Guy's Drug Store, 256, guaranteed.

Good for South Carolina. A St. Louis judge has adopted the rule when he is to punish a man for drunkenness of suspending the sentence if the prisoner will sign the temperance pledge, says the Nashville Advocate. He requires the pledge to be for one year, and that the prisoner shall from time to time report to him. If he violates his pledge the fine and imprisonment immediately take effect. The result of this humane and sensible measure has been the reformation of a number of victims of the habit. When a man has been used in keeping sober for a year, he usually sees not only that he can, but that he ought to make the condition permanent. A most excellent judge, we commend his example to other Exchanges.

A Great Fertilizer. Elsewhere we print the advertisement of the F. S. Royger Guano Co. and call the attention of our readers to the same. The Royger fertilizer is the people are the largest of the independent manufacturers remaining in the world. It is a most wonderful success in their sales. "Farmers" have been induced to buy this fertilizer, and we are told that the sale of brand of fertilizer in the south. Owing to the fact that they are so popular everywhere they are sold. They claim to be the original fertilizer in the South. It is sold in Norfolk, Va., Barbours, N. C., two factors in nearly every town in the south. These fertilizers are made of the best material and it is their interest to consider Royger fertilizer before making any purchase.

Mr. Sease is also an applicant.

The result of the election for trustees of Clemson college last night was as follows: D. A. Sease, 110; W. D. Evans, 106; M. Mauldin, 104; A. T. Smyth, 99. Total number of votes cast, 124; necessary to a choice, 60. The three first named were elected.

There was no opposition to the re-election of Capt. E. M. Blythe of Laurens and Maj. J. J. Sease of the Citadel board. They are both incumbent members of the board.

The last election was that of trustees of the State Colored college. Dr. Wm. L. Lowman and Capt. J. B. Bradham were re-elected. They are on the present board and there was no objection to their re-election.

A Grim Tragedy is daily enacted in thousands of homes, as death claims, in each one, another victim of Consumption or Pneumonia. The result of the failure to cure is a tragedy treated, the tragedy is averted.

Illiteracy in New York State. New York, Jan. 22. - The amazing statement is made in a report just issued by the state commissioner of education, that "there is one New York county (Clinton) remote from any large city, in which the proportion of illiterate voters is greater than in any state in the union. Madison and Dixon lines and east of the Rocky mountains. Indeed, there are whole states in the far south in which there are more illiterate voters than in any county of illiterate voters."

Senators Left the Gallery.

Washington, Jan. 25. - Senator Tillman introduced a resolution today directing the committee on immigration to investigate charges of unfair treatment of Chinese aliens, traveling in the United States by means of the immigration service. The resolution provided that it had been shown that the Chinese boycott of American goods could be traced to the treatment of Chinese coming to the United States, and that Wu Ting Fang, the former Chinese minister to this country, was a leader in the boycott movement. When the resolution was referred a number of visiting Chinese, and a secret of attaches of the Chinese legation were in the diplomatic gallery. They departed the moment a request for permission to be seated in the gallery was denied.

Purge the Rolls.

The legislature should pass a bill requiring the registration rolls in all the counties to be purged of the names of the dead and of those who are disqualified. Nearly every county in which the dispensary has been voted on has had to enroll on the petitions for elections half as many names as those registered voters. It is time to qualify for an election. In Chester county the people were kept out of an election because of this fact. The State.

Small Fire at Springstein.—There was a slight fire in the dye room at the Springstein mills Friday afternoon, but fortunately the blaze was extinguished before any damage resulted. Intense heat results from the friction of the machinery in this department, and it is probable that some of the light inflammable lint which floats around the room was ignited. The fire was extinguished before the arrival of the fire department.

Another Lowryville Girl.—We have received some more good news from Lowryville. This was corn and tomatoes and peas, and was put up in glass jars. It was perfectly preserved. This shows again what a girl can do, and she is—or maybe she was only in her first year. Twenty years ago this writer was very specially interested in the young people of Lowryville. That set-are no longer children but it does no good to see the children's children doing well.

"The next feature of the programme was the senior oration by Mr. E. Grier Carson, of Gastonia, N. C., who spoke on 'The Cry for Freedom,' tracing its results far into the nation's history and showing its kinship with the triumph of right and law. He happily touched upon the recent conflict in the Far East, showing that the downfall of aristocracy was the result of this innate spirit of freedom in human breast. The speech was carefully thought out and forcefully delivered."

Double Passenger Service.—The following information with regard to double passenger service on the C. & N. W. railway is published in the Gastonia News:

"The news learns that the C. & N. W. railroad is considering the matter of putting on permanently a double passenger service. The road put on last summer for several months a train that went north Saturday afternoon and returned Monday morning. This was pleased with the arrangements and it anticipates putting on this additional service in April and making it daily including Sunday. This would greatly increase the facility of the road to handle its passengers, and the people along the road would be delighted. The C. & N. W. deserves and has the good wishes of the people along its route. It has always given its patrons all the service that its business would justify. The road expects a greater summer travel this coming season than ever before. In addition to travel to Blowing Rock the road has extended its passenger service to Pigeonport. There is already a good summer hotel at Wardlaw and the road is figuring on building a first-class resort hotel at Edge-mount. A mist freight and passenger already makes daily trips to Edge-mount."

Mrs. Maggie Garvin, who has been spending some time with relatives in and near Blackstock, spent last night with her brother, Mr. S. B. Lathan on her return to her home at Sharon, S. C.

### Chester Boy Promoted.

In referring to a projected business change in Augusta, the Chester boy that city speaks in very complimentary fashion as follows about a former Chester boy:

Mrs. F. L. Wood will, on February 1, succeed to the position of manager of the Augusta office of the Postal Telegraph company, vice Mr. Maren H. H. Duvall, resigned, according to an official announcement made by Superintendent T. R. Rusk yesterday.

Mr. Wood has been connected with the local office of the Postal about ten years, coming to Augusta from Columbia, where he was employed by the Associated Press, his boyhood home being at Chester, S. C. He is considered a very expert telegrapher and is a versatile operator as well, having filled a number of different positions with the Postal. At present he is manager of the telegraph office of the Carolina Lumber, and prior to this position, he was traffic clerk at the Postal office. His promotion to the position of manager was recommended by Mr. Duvall in his letter of resignation and immediately after the announcement of Mr. Duvall's resignation all eyes instantly turned toward Mr. Wood as his logical successor. The announcement of Mr. Wood's appointment to this position was the occasion of great congratulations, both by the officers and men of the Postal force and by the public generally, for there is no more capable or highly esteemed young business man in the city. He is exceedingly popular with a large circle of friends. Besides his great talent in the telegraphic business and a marked executive ability that insures the successful administration of the affairs of the office, Mr. Wood is a Christian gentleman of high moral character, being a steward of St. John's Methodist church, of which he is a valuable and enthusiastic member.

### Live Stock Association.

Through the kindness of Mr. R. A. Love we have been invited a program of the annual meeting of the South Carolina Live Stock Association, which is to be held in Columbia on the 8th and 9th of February. An attractive program has been arranged, and some of the speakers are men of the highest national prominence. The topics selected for discussion are very timely ones, and any one attending the session of the body can't help but be benefited. There will also be general discussions on subjects of more interest to the farmer, such as the question of stock judging and the like.

Mrs. J. B. Atkinson and baby, of Spartanburg, who have been spending some time with relatives at Alendale, arrived yesterday evening to visit Mr. Atkinson's parents, Col. and Mrs. E. T. Atkinson.

#### Marshall Field.

Much could be said commendatory of Marshall Field. His death here in New York gives opportunity to speak with freedom. He was one of America's greatest private citizens. His fortune—his immense fortune—was not acquired by any of the several means of juggling so distinctively peculiar to modern finance. It was made in the legitimate channels of commerce. It was the result of his earnings of an hour; it was the fruit of a life time. The beginning was at zero. Slowly the man grew, slowly his business grew. Much time was spent in the acquirement of knowledge of what he was about; much time in the study of men. Application, unswerving integrity, concentration upon the one thing marked the whole course of his career. Without seeking fame, it ultimately came to him until the name of this American merchant was familiar around the world. His early choice of a location had its bearings on his later success. He entered the west and it grew up around him. That was a fortunate circumstance, but in all the course of his career was the element of chance. His motto was to treat all men honorably; to understand in its detail every transaction. His principles were sound, his capacity for knowledge of affairs great. He was a man who was not only universally paying him the deserved tribute of saying that he was a good man and a good citizen—New York Commercial.

#### Dangers of a Cold and How to Avoid Them.

More fatalities have their origin in or result from a cold than from any other cause. The fact alone should make people more careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effectual medicine in use for this disease. It acts on nature's plan, soothes the cough, relieves the lungs, opens the secretions and aids in restoring the system to a healthy condition. Sold by all Druggists.

#### Wofford College Boy Killed by Negro.

Montgomery, Ala., Jan. 25.—A special to The Advertiser from Florida, Ala., says: Grady Miller, the 16-year-old son of Dr. E. Miller, a night porter and killed by the negro porter of the Lake View hotel. There were no eye witnesses to the shooting, but the pistol shots were heard. A search was made and nearly was found the negro in a dying condition. He lived long enough to say that he and Miller had engaged in a pistol duel. There is no way to ascertain the cause of the tragedy.

Young Miller was at home for a few days from Wofford college, S. C., where he had been attending school.

#### How to Prevent Bilious Attacks.

One who is subject to bilious attacks will notice that for a day or more before the attack he has a heavy, coated tongue and feels dull after eating. A dose of Chamberlain's Stomach and Bowel Tablets when these first symptoms appear will ward off the attack. They are for sale by all Druggists.

#### STATE NEWS.

Thomas F. Davis was shot and killing his brother-in-law, Henry Peale, at Peale's home, near the state line in Marlboro county, last Friday night. It is said that Davis was drunk at the time of the shooting. Peale, who killed the whole family. Mrs. Peale tried to reason with him, but he raised his gun, with a threat to kill her. At that moment he was shot in the head and was standing near, watching Davis's actions, shot him dead.

Mr. J. C. Holstein, of McCormick, a member of the State constitutional convention, died in the Augusta city hospital Tuesday morning at 8 o'clock, having been brought to the city yesterday in a serious condition from a gunshot wound. Mr. Holstein was accompanied by Dr. R. M. Fuller, of McCormick, who was with him until the end came, and escorted the remains to Mr. Holstein's former home at Statesburg this afternoon.

In the United States circuit court in Charleston Tuesday an order was taken making the Southern railway a party to the suit of the Union and Buffalo mills against the Union and Glenn Springs railroad for reelevation and foreclosure of a mortgage. The order was taken on the motion of the Southern railway and was granted.

Columbia was Tuesday decided upon as the next meeting place of the Interstate National Guard association. Its competitor was Chicago.

Saturday afternoon about 3 o'clock Johnnie Stepp accidentally shot and instantly killed Sam Whitener near Union. The boys, both of whom were white, were out hunting several others. Stepp threw his gun, which seems to have been cocked across his shoulder, causing it to discharge, the load striking Whitener in the head and blowing it almost in pieces.

Carroll Hall, a negro boy, was killed by a Southern train at Greenville Tuesday. The boy was on his way home from school and was holding an umbrella, which probably prevented him from seeing the approaching train, as it was backing about the yard.

Iron ore was exhibited in Greenville Tuesday which was found in the mountains above Greenville, and analyses as high as 60 per cent and not less than 43 per cent. The ore was exhibited at the University of the city, which has options extending across an entire ridge which is fourteen miles in length.

Mr. E. B. Rock, who some twenty years ago was agent of the Southern Railway at Rock Hill, and who was a very popular man, was killed Friday night in the Seaboard wreck near Atlanta. His body was following the Hill Monday morning and interred in Laurelwood cemetery.

Mrs. Daniel Morgan.

We were filled with feelings of profound sorrow yesterday when we were apprised of the death of Mrs. D. Y. Morgan. She had been ill some time since, but recently, however, her health seemed to be somewhat improved. And it was apparently regretted that she would regain her wonted health and strength. Yesterday, while walking by her own home, she prepared dinner, she took sick suddenly and lived only a few minutes thereafter. She was about 68 years old. The funeral services were held at the Presbyterian church of which she was a member, and were conducted by Rev. J. E. Jones. The interment was in the cemetery at the above named place. Mrs. Morgan is survived by her husband and the following children: Mrs. Frank Bogleware, Mrs. S. L. Weir, Mrs. John Gladden, and Mr. S. H. Morgan, of Longtown, Mrs. T. Robinson, of Texas, Mrs. J. Robinson, of Brington, Tenn. We extend our sympathy to the bereaved ones in this great affliction. Longtown Cor. Fairfield News and Herald.

#### Bermuda Yarns.

I will relate the Bermuda yarn, as told me by a Union county man. You know that Lockhart cotton mills are built in the middle of a bermuda grass patch. As in all public places, there are always a lot of idle men, so to while away the time, they think they have to tell yarns. Here is the one that was told on this occasion: A Union county man told that his father was a better fisher than any bermuda grass roots. The chair was used until the parts all came to pieces. The chair was used for years, and he used to go on a hillside and the roots took hold. He grew and covered the hillside with bermuda grass. To get the better of the Union county man, Home told this yarn. He said that his father had a bermuda grass patch in which the grass was half leg high, and he set fire to it and the smoke settled on the opposite hill and covered the hill with bermuda grass. It was unanimously voted that Home had told the best yarn and the crowd to stop listening.

Home, you have a host of friends over in your native county, and we would like to know if you have an old yarn or two.

For any disease of the skin there is nothing better than Chamberlain's Salve. It relieves the itching, soothes the burning sensation instantly and soon effects a cure. Sold by all Druggists.

#### DANGER IN DELAY.

Kidney Diseases Are Too Dangerous for Chester People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, limbo, urinary troubles, dropsical swellings and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills.

Dr. E. C. Lloyd, of the Wilson Street Dispensary, Rock Hill, S. C., says: "I know the merits of Doan's Kidney Pills and I recommend them very highly. I got a box and used them for a bad back which has given me a great deal of trouble. I did not know that it was due to any derangement of the kidneys until I saw the advertisements for Doan's Kidney Pills describing and explaining the cause of the trouble. They relieved my back almost immediately and it has not bothered me since using them."
