ACT ON IMPORT-
ANT MEASURES.

Wilson Wins Postmasters - Pleased
Under Civil Service Provision.

Holds Conference in Visit to
Capitol - Various Bills Discussed.

Washington, Jan. 29. - After a series of conferences at the capitol on practically all features of his legislative program, President Wilson told his advisers today that he believed there would be action at this season on every important measure in which he is interested. With members of the senate and house he had discussed means of preventing railroad strikes, vocational education, revenue, flood control, the general land leasing bill, the Puerto Rico bill, a measure to allow American exporters to form common selling agencies abroad, increased pay for federal employes and the placing of postmasters under civil service.

The president told Senator Poindexter he favored extension of civil service requirements to all postmasters. He previously has urged a proposal of this kind and Postmaster General Burleson has informed it in his annual report. It is expected to meet with some Democratic opposition.

Representative Sims of Tennessee, a member of the house interstate commerce committee considering the railroad program, told the president he did not believe the house would approve the president's recommendation of a section prohibiting strikes or lockouts pending investigation.

The president said he would not insist on any particular form of legislation but that it was absolutely necessary to decide on some means of preventing strikes on railroads. Administration leaders are working on a compromise measure which the president probably will endorse. It provides for an investigating board made up of representatives of both sides, as urged by the brotherhood, but adds a representative of the public.

Charges that fraud is involved in at least some of the claims to land in the West included in naval oil preserves dealt with in the general leasing bill, were made to the president by Senator Hastings of Wisconsin. The president has not finally made up his mind what stand to take.

Discussing vocational education legislation with Senator Hoke Smith, the president said he favored the bill passed by the senate over that adopted by the house.

Senator Randall told Mr. Wilson that when the rivers and harbors bill is brought up in the senate, an effort will be made to amend the administration proposal, eliminated in the house, creating a board to investigate and coordinate all improvements having to do with navigation, river improvements and irrigation.

The Webb bill for common selling agencies abroad, already passed by the house, was gone over in detail with the president by Senator Pomeroy, who told of amendments proposed to offer in committee. These amendments are designed to prevent exporters from using the combined one for foreign trade to increase prices in the United States and the other to allow the federal trade commission to investigate wrong practices and report to the department of justice.

In discussing increased pay for federal employes with a committee from the federal employes' union, presenting a petition signed with 50,000 names, the president indicated that he favored increases, as possible.

"I have been on a salary all my life," he said. "I don't want to sympathize with others in the same way."

In the midst of his legislative conferences the president was afflicted by a cold which he would shake hands. He listened with a pained expression while one of them addressed him in an Indian dialect, assisted by the interpreter. Then he smiled when an interpreter told him the Indians wanted no favors but merely desired to greet "the great white father."

REFUSE TO WORK
IN PRISON SHOPS

Appoints New Principal Keeper and
Promises to Put an End to the
Quibbles.

Trenton, Jan. 28. - Disorderly scenes continued in the New Jersey State prison today, following a visit to the buildings by Governor Edge and the members of his investigating commission. As a result twenty men, alleged to be the instigators of the trouble, were isolated in a wing of the buildings which had been abandoned. Among them was Harry Wineberg, who is said to have been in communication with a newspaper that has been criticizing conditions in the prison. Governor Edge stated that the prisoners would gain no sympathy by their actions, and that means would be taken to put down the mutiny.

The governor announced this afternoon the appointment of James H. Mulholland of Trenton as principal keeper of the prison, succeeding Richard P. Hughes, who has been in twenty years of service. He is a native of Trenton and is a graduate of the University of Pennsylvania. He is a member of the bar and has been a member of the state senate.

One of the reported cases is that of a man addicted for seven years to morphine, who was brought to Warwick Farm, where he was held for forty-eight hours later. It is said, he was able to walk. Within a few days, it was said, the treatment was such that the patient and even without his knowledge, other methods take from him to twenty-one days to destroy the craving for the drug.

While it was formerly necessary to give a preliminary treatment to patients from drugs at a hospital in this city, it is now possible to treat them at Warwick Farm. The treatment continued and to be rebuilt physically, it is now asked that he be sent to that institution without delay. Some cases now have gained five pounds in a week immediately after being received at the farm. To restore their general health and to keep them in the best of health, they are kept at the farm for sixty days, however.

Because of the simplicity and short duration of the new treatment it has been found possible, without additions to the nursing staff, to handle an increased number of drug addicts. There is now a new farm-keeper and a housekeeper who acts as nurse.

One of the main features of the new treatment, if it is the saving of money in treating drug victims. This is now a costly process because of the long period of nursing required. The new treatment, it is said, will save the state a great deal of money in the long run.

Dr. Stokes said over the telephone that he would have nothing to say on the subject until a great many cases had been observed and that he would then report to the medical profession.

PANCAKES KILL FIVE.

Breakfast Proves Fatal to Illinois Family.

Kankakee, Ill., Jan. 30. - A breakfast of pancakes yesterday caused the death of five members of the Meints family, 15 miles south of here.

The pancakes were made by Mrs. O. K. Meints, the wife of the late Meints family. She stated that the victims and grandmother of the fifth, Mrs. Meints is believed to have mixed the contents of a sack containing an arsenic compound with the flour in a grinder with a prepared pancake flour. The dead were: Fred 28 years old; Theodore 26; Irvin 21; Ming 24, and Clara, the Meints family, 7 years old.

WOMEN SYNDICATORS
PREVING UPON BERLIN

Latest Arrested, Posers as Countessess, Barons, and Viscountesses, Various Storekeepers.

Berlin, Jan. 27. - The number of female criminals who contrive to be appearing part of this Sunday afternoon with a boy, who, like myself, was raised under the ministry of Mrs. Mary Watterson in the blue grass region of Kentucky. Madame, the wife of the American ambassador, who takes a deep daily interest in the boys from home, told me that she was in the city of New York. Her husband is a number 177,378. In Fayette County, Ky., he is Alexander McClintock. His home is that of a large estate in Lexington, a blue grass farm. The place is called Longside, and it is on the Lexington-Marysville turnpike. His father and mother are at Longside waiting for him. They belong to the Breckinridge clan. Before I went to the hospital I recalled that a grand-son of John C. Breckinridge has recently come here to do some work in the embassy. I called him up and he went with me. So the afternoon in our part of King George's hospital had been a very interesting one.

We found Sergeant McClintock, precisely what a Kentucky boy ought to be. He was a fine fellow, a stone that makes the grass; something that puts love of fight into the typical Kentucky. Here in faraway London he was a boy of 23, a bit of shrapnel still in his thigh bone, though the biggest piece had been cut out, smiling as he walked. "Why did I go in?" he asked back. "Oh, I wanted to go in from the first."

That was all the why he knew. He was operated on at Boston late in November and shortly afterward brought to London. He is convalescent now and hopes that he will be allowed to spend the interval between being able to walk about and being fit for trench duty in the United States. He would like to go back to Lexington for a few weeks before taking a hand in the drive that is going to make Fritz homelike. ATTACK VALUATION WORK.

Washington, Jan. 29. - The opening attack by the railroads in what promises to be a long and bitter fight over the methods pursued by the Interstate Commerce Commission, in determining the physical valuation of railroad properties through the use of the so-called "yardstick" method, was made in the case of the Atlanta, Birmingham & Atlantic, and the Texas Midland Railways.

Commodore DeVos, president of the Texas Midland, said that the yardstick method was a "gross injustice" and that the railroads would not accept it. PREACHES ON "DRY" BILLS

Dr. Turner, at Beaufort, on State Liquor Situation.

Beaufort, Jan. 30. - Prospects for stricter prohibition laws in South Carolina were discussed by Dr. J. B. Turner at the Beaufort Baptist Church last night. The sermon dealt with the nation-wide movement for the elimination of strong drink, but special attention was given to the bills now before the South Carolina Legislature. The DuRant one-quarter-month law, based on the Virginia statute, was outlined by Dr. Turner, who has been a supporter of the most inflexible prohibitionists in and out of the Legislature, who hold that the sentiment in the State is in favor of the prohibition of liquor for medicinal purposes, and that the one-quarter-month requirement and at the same time reduce consumption of alcohol to a minimum.

After the sermon many of the congregation expressed the opinion that the time has come when the law should be made more stringent. There should be no provision for the use of liquor as a medicine. This sentiment was shared by many of the members of the congregation. It is likely that it will find expression in a memorial to the Legislature.

Sergeant, Decorated for Bravery, Says that November the ground was too hard. In the nature of things we suffer a good deal from our own artillery fire. It's part of the game and can't be helped. At 200 yards we will have got a crack run for it."

YORK COUNTY
NEWS ITEMS

Mr. Campbell Barron of Yorkville, who has been undergoing treatment at the Fennell Infirmary, Rock Hill, for several weeks, has so far improved that he will be able to walk about a little and Sunday afternoon enjoyed the sunshine on the front porch.

President Chas. L. Cobb and Dr. W. G. Stevens and others of the Rock Hill Chamber of Commerce went to Columbia, Friday, where they conferred with the York county legislative delegation in regard to the passage of a bill permitting the citizens of Rock Hill to vote on the question of issuing bonds to purchase the necessary rights of way to connect Rock Hill with the Seaboard Air Line Railway.

A little daughter of Mr. Howard Neely, who lives near Firrah church, was kicked by a mule, in her father's barn Sunday afternoon and her skull was fractured. It seems that the mule was about 4 years old, 4 years old, was punching at the animal through a crack, when it kicked at her through the crack, the animal's front teeth struck her on the head and fracturing her skull. She was taken to the Fennell infirmary Sunday afternoon, where a portion of the skull was removed. The Fennell was of the opinion last night that the little girl will recover.

The people of King's Mountain, N. C., have under way a plan to stage the Battle of King's Mountain in a dramatic form. The Drama Film and Moving Picture, it is understood, is to manage the undertaking. It is prepared to use about 350 people in the production, and preliminary arrangements are now under active consideration. It is probable that the staging of the play will be commenced within the next few months.

MANDAMUS PROCEEDINGS
AGAINST WEST VIRGINIA

Extraordinary Proceedings Without
Precedence in the History of
U. S. Courts.

Washington, Jan. 29. - Mandamus proceedings were begun today in the United States district court at the instance of the Virginia authorities against West Virginia's entire legislative assembly to compel levying of a tax to pay the Supreme Court's decision of January 19, 1916, with interest, adjudged to be West Virginia's proportion of the Virginia State debt in 1861, when West Virginia was a part of Virginia.

Papers in the extraordinary proceeding without precedent in American jurisprudence was received here today. A ruling is expected next Monday, and if Virginia is given leave to file the mandamus suit, West Virginia probably will be given no respite. Reasoning of the case may result, as West Virginia has offered claims it desires to pay to the Virginia petition, presented today by Attorney General Pollard and others, charges that West Virginia is temporizing in respect to the Virginia petition. It was filed in 1915, and does not intend to provide for payment of the judgment within the near future. Therefore, the court is asked to order the West Virginia Senate and House of Delegates, "forthwith and at the present time" to file the mandamus suit. West Virginia probably will be given no respite. FRIDAY, FEBRUARY 2

Too many people have taken it for granted that, when the war is over and conditions of production get back to normal, wages of workers will necessarily have to come down. The general experience shows the difficulty of lowering wages once they have been raised, and that why so many concerns have resorted to the plan of giving bonuses instead of increasing the regular wage by monthly comparison. A thoughtful view of the subject was that placed before the National Civic Federation the other day by Vice President Roberts of the National City Bank of New York City. The great struggle in advancing countries, he declared, was not between capital and labor but between the nations. In countries of the kind referred to, capital was increasing faster than population. It could not be made productive without labor and, consequently, labor would continue to be in demand and wages would be maintained or increased. In 1890 the manufacturing establishments of the country showed an investment of \$1,770 to each wage earner employed. In 1914 it was \$2,888. In the ten years from 1899 to 1909 the population increased 21 per cent, the number of wage earners in factories increased 40 per cent, and the sum paid in wages (not the wage rate) increased 70 per cent, while the capital invested increased 105 per cent and the value added in manufacturing increased 76 per cent. Mr. Roberts' explanation was that the workers were having better tools placed in their hands, that the industries were being made more productive and that the supply of goods on the market was being increased. This simply serves to emphasize the fact that it is not the wage rate which is all important. It is the quantity and quality of product which the worker turns out. This is why high wages often mean low labor cost per unit of production.

LESS BUSHELS—MORE MONEY.

The Government Bureau of Crop Estimates, issued recently, comparing 1915 crop yields and values under existing prices with yields and prices for the same crops on the same dates in 1916, affords the basis for an impressive exhibit for several of the staple crops listed. A little figuring shows that, although there was a decrease of 400 million bushels of wheat in 1916, the total selling value of the crop was \$18,000,000 greater than the larger crop in 1915; notwithstanding the decrease of 400 million bushels in the corn crop, it had a value of \$350,000,000 above last year's crop; the oats crop was 300 million bushels less than in 1915, it had a value of \$600,000,000 above the crop of 1915; similarly there was a reduction of 70,000,000 bushels in the 1915 potato crop, but the smaller production had a value of \$175,000,000 more than the larger crop of last year.

From this compilation it may be seen that notwithstanding there was a total decrease of over a billion bushels in the aggregate yield of these four staple crops in 1916, the higher prices obtaining gave them a market value of over \$500,000,000 more than the larger yields of the previous year at the same date. But if the higher market prices continued a short time after the government report was issued is taken as a basis of reckoning, the surplus of value would have had a market value of a billion dollars more than last year, when their combined yield was a billion bushels greater than the 1915 harvest.

Considered from another angle, how much of this billion-dollar increase in value since these crops were harvested did the producers receive as a reward for their skill and labor? Had this billion-dollar increase in the value of these four staple farm crops been realized by our six million farm owners, their average share of this advance in value would have been \$150 a farm. But those actually engaged in growing these crops in a commercial way would have had an addition to their incomes ranging from \$500 to \$1,000, to more.

The lesson in these figures is the need of better farm storage with which to take advantage of advancing crop values. When distributors are keen to get crops even before they are harvested, the farmer should be in position to store his crops and secure at least a fair share of any advance that market conditions present.

PULL FOR CHESTER OR PULL OUT.

The following article has been handed The News with request that same be published, which we take pleasure in doing.

What is the matter with our Chester Merchants?

It seems as though our Chester merchants won't handle a line of suits to measure and some of our "boasting" citizens have to buy their clothes from representatives of out-of-town merchants and agents. Is it the fault of our MERCHANTS or is it you? I think that the merchants of Chester are handling as good a line of merchandise as you can find anywhere on the Atlantic coast. Why won't our Citizens do the right thing and support our home people?

Here of late you will see out of town men go to our doctors, lawyers and prominent business men, solicit their patronage, and GET IT. IS IT FAIR?

THE MERCHANTS OF CHESTER are paying taxes to do business in Chester. The out of town man comes here to do business and it cost him nothing.

MR. MAN IS IT RIGHT? You thought it over? Are you guilty of buying OUT OF CHESTER or are you BUYING AT HOME?

Let's get together and pull for CHESTER, not for other towns. Every little bit helps or hurts.

LETTER FROM CON.

GRESSMAN LEVER.

The following letter was received from Congressman A. F. Lever yesterday.

Chester, S. C., Feb. 1, 1916.

My dear Sir:

At a conference of the South Carolina Members of the House in Congress, I was directed to issue a statement to the people of the 5th Congressional District, who are with me in representation in Congress at this time, on account of the untimely death of our late friend and colleague, Judge Finley, informing them of the pleasure of the Delegation, either collectively or individually, in serving those who may have official business at Washington.

Kindly say for the Delegation that we shall be glad to do what we can to help the stricken people of the 5th District in any way possible until this vacancy is filled.

Very respectfully,
A. F. LEVER,
Chairman of the Delegation.

WAS UNABLE TO WALK AT TIMES, SHE SAYS

To Move Around She Had To Push A Chair Before Her

HAD TRYING EXPERIENCES.

Mornings/Were Miserable For Mrs. Durham, But The Afternoons Brought Her More Comfort.

Though she had suffered with rheumatism so badly she could not walk at times during three or four years, and had been troubled a great deal with a number of other ailments, Mrs. A. T. Durham, of 8210 S. Main St., Anderson, declares that "Tanlac relieved my rheumatism and other troubles and got me in good shape in three weeks, after a lot of other medicines had failed to help me."

"I suffered with rheumatism so badly I could not walk at times," she says, "and for several hours every morning when the rheumatism was particularly bad I would have to sit in a chair after being helped from my bed, and then my muscles would get so I could move by pushing a chair before me. I generally was able to get around enough to get dinner, though I could never get breakfast."

"One of my legs was badly drawn, and I hurt all over and suffered torture. I had rheumatism badly for three or four years, but I had been in bad health for about nine years, when I began to take Tanlac. I was troubled a great deal with indigestion and headaches, and my nerves were almost 'gone to pieces.' I could not sleep well, and my system was weak, and run down and I felt tired all the time."

"The Tanlac soon got me where I could do my housework, for it quickly relieved the rheumatism and that drawing in my leg. I am strong and I feel well now. Tanlac certainly is a fine medicine for rheumatism."

"I think I very seldom ever feel a pain in my body now, so well did Tanlac break up the rheumatism."

The medicine also built up my system in general, gave me a fine appetite and relieved the indigestion. I could not eat anything hardly when I began taking Tanlac, but it got me so I could eat anything I wanted. I can sleep well now, and the Tanlac relieved the nervousness. I sure do feel fine, and the improvement in my condition is due to Tanlac."

Tanlac, the master medicine is sold by:

Kennedy Mercantile Co., Blackstock; Leitner's Drug Store, Chester; W. C. Nunnery, Fort Lawn; Republic Pharmacy, Great Falls; Monetta Mills Store, Lenoir.

Mrs. M. V. Patterson and Mrs. Mary Patterson, Jr., returned last night from Florida.

CIRCUS ELEPHANTS HAUL BERLIN TRAFFIC

Huge Animal a Curious Sight in the Snow-Blocked City. Val-unteers Clean the Streets.

Berlin.—Of the extraordinary sights seen in the snow-blocked streets of Berlin, the employment of huge working elephants for traffic purposes is certainly the strangest. These animals belong to the Hagenback Show, which is now exhibiting here. Every morning they may be seen on their way from the Letter railway station drawing heavy carts loaded with iron boilers, each weighing 35,000 pounds. No eight horses would be sufficient to move these wagons, but to the gigantic pachyderms it seems as child's play. Apparently they suffer as little from the intense cold prevailing here at present as from the tropic heat of their native country, and they wind their way along the crowded Berlin streets with almost amazing nimbleness. If they find an autobus stuck in a snowdrift, with panting, exhausted horses trying to pull it out, the working elephant lends a friendly aid, and in a trice the stranded vehicle is afloat again.

No one acquainted with Berlin in peace times would recognize it now in its white garb, since once upon a time snow was never permitted to remain more than a few hours in the streets. Now it has become a permanent whole week, and only the principal streets have been partly cleared, which means a grievous disturbance to the general traffic and responsible for the scarcity of food and fuel, of which there is such bitter complaint. Very timely, therefore, comes the appeal of the commanding General of the Province of Brandenburg, von Kessel, which the newspapers publish under the heading "Volunteers to the Front."

This document speaks for itself.

"For days snow has been falling, accumulating in large heaps in the streets and blocking traffic. Men on other times used to clear the streets within twenty-four hours are at the frontiers opposing the enemy. Who is going to do their work? Can we look calmly on as poor horses draw their last breath in a fruitless effort to move heavy loads? Those horses are drawing war material which must not be delayed. Retardation helps the enemy. Are we going to allow it?"

"Volunteers to the front: Work for the Fatherland does not disgrace, whatever it be. Every houseowner or janitor should remove the snow from in front of his property so far as to permit free traffic. Never mind the pavement now; the principal thing is to clear a way for merchandise to the potatoes. Whoever lends a helping hand serves the Fatherland. I trust no one will fail."

Kessel trusted not vainly, for about by noon-time many streets had been fairly cleared and there were thousands of work who surely never imagined of ever handling a snowy shovel. Among them were women in furs and men with gold-rimmed eyeglasses.

The hunting season, in Chester county, closed Wednesday and it is now unwise to hunt birds in this county.

A statement issued by Mr. Harry I. McCaw, of York, appeared in the Rock Hill Record of yesterday in which he stated that he would not be a candidate for Congress to succeed the late D. E. Finley.

THE COLD WAVE arrived this morning and we offer you wool and cotton blankets at extraordinary low prices. Big reduction made in both kinds. Ladies' and children's sweaters are offered at cost. We also have a few winter coat suits which we are closing out at half-price. Rodman-Brown Co.

The most phenomenal drop in the cotton market that Chester dealers ever recall, took place yesterday when futures for May opened up at 87 1/2 under Wednesday's close, which meant a drop of about 82¢ per bale. The oldest cotton dealers in the city, and that they could not recall anything like the terrific break of yesterday, even in "Cotton" days.

A card appears elsewhere in this issue from Mr. W. F. Stevenson an-

nouncing that he will be a candidate for Congress to succeed the late D. E. Finley. Mr. Stevenson is the first party to place his card before the people of the Fifth District.

THE COLD WAVE arrived this morning and we offer you wool and cotton blankets at extraordinary low prices. Big reduction made in both kinds. Ladies' and children's sweaters are offered at cost. We also have a few winter coat suits which we are closing out at half-price. Rodman-Brown Co.

That the advertisements appearing in the Chester papers are read by the public was very forcibly demonstrated last Wednesday morning. The Rodman-Brown Co., spent only \$2.50 in advertising a special sale for Wednesday morning and from this small investment they sold approximately 2,500 yards of material. No doubt, they could have sold much more if they had had it.

W. G. Smith of Orangeburg was elected State warehouse commissioner on the 16th ballot, the last of five taken Tuesday night. The general assembly deadlock began to break on the 14th ballot, and after the 15th John J. McMahan of Richland, one of the three leading candidates, withdrew leaving only J. A. Drake and W. G. Smith in the race. Mr. Smith won by a vote of 82 to 73.

FEBRUARY 30TH

FIRST PRIMARY
The sub-committee appointed by the State Democratic executive committee Wednesday morning to fix a date for the primary election to be held to choose a successor to the late Congressman Finley, Wednesday night fixed February 29 as the date for the first primary, and in case of no nomination, a second primary is ordered to be held on the 6th day of March.

A full schedule of campaign dates was arranged by the sub-committee beginning at Chesterfield on February 7 and ending at Gayton on February 17. Among the candidates for the position are: Asst. Attorney General Sapp; of Lancaster; W. F. Stevenson, of Chesterfield; J. L. Gorman, of Gayton; of Chester; E. Butler, of Cherokee and W. R. Hightower, of York.

There was considerable discussion of the advisability of holding a primary on the 6th or 7th of February. A telegram was read from Champ Clark, speaker of the national house of representatives, to Gov. Manning, urging that the vacancy be filled at as early a date as possible, in view of the fact that there will be an extra session of congress. Gov. Manning in reply urged Speaker Clark that it would hardly be possible to fill the vacancy in time to seat the new congressmen before April 1, and asked him to see President Wilson and find out when the special session would be called, and if it were necessary to speed up the election.

A sub-committee consisting of John Gary Evans, the state chairman, and members from each county of the fifth district, arranged for the primaries and for the campaign, and other details.

Mr. James H. Glenn, who was elected Mayor Pro Tem, to succeed E. B. Westrook who received an appointment on the State pardon board, on yesterday named in his resignation to take effect immediately. Mr. Glenn asked that his resignation receive immediate attention and doubtless council will appoint a successor at their next meeting, which will in all probability be next Tuesday night.

THEY ARE SHOWING a beautiful line of New Spring Waists in all the new fabrics at The S. M. Jones Co.

Candidates entering the race for Congress in the Fifth district are required to file their pledges by noon next Tuesday.

"The Last Man," the Vitaphone Blue Ribbon Feature, in five parts, with an all-star cast, including William Duncan, Mary Anderson, Corinne Griffith, Jack Mower, and Otto Lederer is the attraction at the Grandland Theatre on Monday.

Miss Kate Williams, of Rock Hill, is visiting Miss Kathleen Cornwell.

Mr. J. L. Glenn will file his pledge as a candidate for Congress in the Fifth District today.

Mr. H. H. Shannon assumed the duties of Magistrate of Chester township yesterday morning. His office will temporarily be located in the office of the county supervisor. At a meeting of the County Board Monday it will be decided whether or not Mr. Shannon will use the grand jury room as an office.

Mr. Lee Pendergrass, a former resident of Chester county died at his home in Hylton, Ark, yesterday morning. He was found dead in his bed. Mr. Pendergrass was 68 years of age and was a man of considerable wealth and in Helena was a well known cotton factor and a leader in social reform movements. He has many relatives and friends in Chester county who will be grieved to learn of his death.

Mrs. Hall Spencer, of Catawba, is spending the week-end with Mrs. Paul Coogler.

Mrs. Paul Coogler is entertaining at forty-two this afternoon in honor of her guest, Mrs. Hall Spencer, of Catawba.

Death of Mr. John R. Thompson.
The many friends of Mr. John R. Thompson, of Blackstock, will regret to learn of his death which occurred this morning about six o'clock. Mr. Thompson has been sick about ten days. On Tuesday January 23rd, he had an attack of acute indigestion from which he did not recover.

Up until a few years ago Mr. Thompson made his home in Chester where he was born and reared. Mr. Thompson was a cotton buyer and was considered one of the best cotton graders in this section of the State. A devoted father and husband and a most excellent citizen, he was a member of the Methodist church in which he was greatly interested. Mr. Thompson is survived by his wife, who before marriage was Miss Carrie Refo, five daughters and two sons. He was 60 years of age.

The funeral services will be held tomorrow morning at ten o'clock by Rev. C. C. Harbert, pastor of Bethel E. M. Church. The interment will be made in Evergreen cemetery. As we go to press the place of the services has not been decided but will probably be held either at the home of Mr. B. D. Belfo, on College street, or Bethel E. M. Church.

SPECIAL COUNCIL MEETING.

Committee from Chamber of Commerce Present—Commercial Club to Secure Carnival to Help Pay Indebtedness.

Several of the directors of the Chamber of Commerce met with the city council last Tuesday night for the purpose of discussing a proposed bond issue for the city of Chester to be used for street paving.

It was decided to secure the services of Mr. H. S. Jaudon, an experienced engineer, with offices in Savannah, Ga., and who at present is of Florida. Mr. Jaudon will make a survey of the city of Chester and when the petition calling for an election is placed before the voters the committee in charge will be in position to tell every property owner just what the improvement of streets will cost each individual property owner in the city.

The exact plans and indebtedness met yet been worked out but it is probable that the property owners will be allowed something like twenty years in which to pay their part of the improvement cost, same to be made in annual installments. This plan is being tried out in several cities and is meeting with much favor. Mr. Jaudon is expected to arrive in Chester and commence work in the next few days.

Dr. W. E. Anderson, President of the Commercial Club and other members, appeared before the council and asked that the club be allowed to bring a carnival to Chester to secure funds with which to pay off its indebtedness of the club. On motion of Mr. Gage, seconded by Mr. Frazer, the request was granted, provided the carnival pays \$250 in advance.

Will Meet Saturday Afternoon.
County Chairman James H. Glenn has called the County Democratic Executive Committee to meet at the court house Saturday afternoon at 2 o'clock to arrange for the primary at which a Congressman from the fifth district is to be nominated. The State Democratic Executive Committee has appointed Tuesday, February 20th, as the date for the first primary. The second primary will be held Tuesday, March 6th.

Death of Former Chester County Magistrate.
Wade Barnes, a well known citizen of Chester and Chester county, died at his home near Lockhart, close to the Chester county line, Tuesday morning, following a few days' illness of pneumonia. He was about 70 years of age. The funeral services and burial occurred yesterday.

For a number of years he lived in Chester county, residing in the Turkey creek section, where he was engaged in the mercantile business. He was a splendid citizen and held the warm esteem of a large circle of friends. He conducted a store near Lockhart and was commissioner of Pinckney township in Union county. Mr. Barnes is survived by his wife, who was Miss Gault of Jonesville; his mother and two sisters.

Practically every merchant in Chester has signed a petition which was presented to them the last few days by the ladies of the City League, agreeing to close their stores at nine o'clock on Saturday nights. This step is being taken by the merchants in several cities throughout the Carolinas. That there is no real need for keeping them open later than this hour is conceded by all and the closing of the stores will be especially beneficial to the clerks.

NOTICE OF EXECUTORS SALE.
Notice is hereby given that by virtue of the power conferred upon me and by the Will of John R. Coffee does disagree with many. And in these days of accurate scientific knowledge there's no virtue in appearing astonished when this truth is faced.

Caffeine (the drug in coffee, and in tea also) leaves the system in an over-worked and debilitated state, and is responsible for various serious ills and discomforts.

RUSSIANS AGAIN TAKE OFFENSIVE

Berlin Concedes Capture of Many
Trenches by Entente Armies.

The Russian offensive on the northern end of the Rumanian front has been resumed with some measure of success. New ground has been gained along the Kimpoling-Jacobeni railroad where the Russians are pushing southwestward.

Berlin today concedes the capture of a point of supply in the vicinity of Vale Putna. This town is 9 miles southwest of Kimpoling/Bukovina, and about the same distance north of Borgo Watra, near the point of the junction of the boundaries of Bukovina, Transylvania and Moldavia.

The previous advance here was effected by the Russians in a battle fought last Saturday when Tenthion positions on a front of two miles were pierced, according to Petrograd, and 1,150 men and 12 machine guns were captured.

On the northern end the Russian front the Germans again took the offensive and stormed a Russian position on the east bank of the River An, southwest of Riga, taking more than 900 prisoners and capturing 15 machine guns.

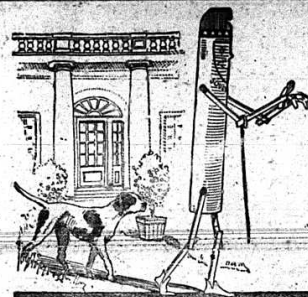

There has been sharp fighting on the Lorraine frontier on the French front. The French penetrated two lines of German trenches here, Paris reports, routing the trench garrisons and taking prisoners. Berlin records this operation as a French attack which was repulsed.

Sinking of the French transport Admiral Magon by a submarine in the Mediterranean on January 25 is announced by Paris. She was taking 950 soldiers to Salonika and 800 horses were saved. Berlin previously had announced the sinking of a hostile transport in these waters east of Malta.

Three women and a man were arrested in Derby, England, today, charged with conspiring to murder David Lloyd George the British premier, and Arthur Henderson of the British war cabinet. The case was adjourned until Saturday. The prisoners denied any knowledge of the alleged conspiracy.

The official statement from Petrograd on the fighting near the Bukovina border reports the capture by the Russians of a hostile notification east of Jacobeni, four miles south of Vale-Putna. Prisoners and booty were taken with the position.

Of the operations in the Riga district the Russian war office announces a German attack which, while checked in general, was followed by a Russian retirement of two-thirds of a mile near Kalinina on the westerly edge of the Tirul marsh.

Let's Us Good Folks Stick Together

I'm mighty glad I was born a real Southerner, just suppose I had been an Eskimo, or an Indian, or something with rings in my nose and ears!

Yes, sir—I am good and proud of my Southern birth. My mother is from Virginia and my father is from the Carolinas. I was born and raised down here among you all.

I wish you could see my home—it is so clean and bright and cheery and wholesome—the finest, whitest, healthiest tobacco factory in all the world.

I am called SOVEREIGN—King of Them All! But my middle name is Smoke, friend—and all over the South my loyal friends are with me, because

You Folks of the South KNOW good blood!
You Folks of the South KNOW good tobacco!

I want you all for my friends—every one of you. Give me a chance—see how I make good. And don't forget—

I am guaranteed by *The American Tobacco Co.*—Buy me. If you don't like me return me to your dealer and get your money back. I have said it. A Southern gentleman is known the world over for keeping his word, and I have given you mine.

TIME IS THE TEST. The Testimony of Chester People Stands the Test.

The best of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

Chester people appreciate merit, and every month see local citizens publicly endorse Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? Below is testimony such as the sufferer from kidney ills is looking for.

"Mrs. J. M. Gaines, 114 Columbia St., Chester, says: 'My kidneys were out of order. I had backaches and was dizzy and nervous. I used Doan's Kidney Pills, procured from the Chester Drug Co., and they made me feel much better.'" (Statement given March 29, 1911.)

AFTER A LAPSE OF OVER THREE YEARS, Mrs. Gaines said: "My back is now strong and I have good health. I am glad to continue recommending Doan's Kidney Pills."

Free also, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Gaines has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

CLIP THIS AND PIN ON WIFE'S DRESSER

Cincinnati Man tells how to shrivel up corns or calluses so they lift off with fingers.

Ouch! Ouch! Ouch! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called frezone when applied to a tender, aching corn or thickened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Gardui, the woman's tonic. She says further: "Before I began to use Gardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Gardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill."
