# THE GALLERY

2009

# **INTRODUCTION**

The Gallery is an art publication that showcases a collection of original works created, designed, and produced by Rowan University's art students. The work ranges from six different areas of study: 3D Artwork, Graphic Design, Illustration, Painting, Photography, and Printmaking.

Every year, the concept and design for the publication is a clean slate for the team to develop and produce. After the success of last year's box concept, this year's team decided to push the envelope just a little further with a combination of elements including a view-master, and a DVD, which includes a short film about this year's production, and for the first time ever... examples of student animation work! Enjoy!
