***Social Pedagogy***  
***as a transnational phenomenon***  
5th to 6th September 2017

# State of Social Pedagogy in Spain

David Herrera-Pastor  
University of Malaga  
(Spain)

In Spain

# **Social Pedagogy or Social Education**

What is it in Spain?

It is the pedagogical task developed in the social sphere.

## Division

**School Pedagogy**

**Social Pedagogy**

Education System

“Disaster box”

Different types of focus:

**Social Pedagogy**

Very wide scope of Work

In Spain specific qualification on Social Pedagogy started at the beginning of 21st century

=> Social Education Degree

No university training before => Until then (teachers, social workers, psychologists, ...)

No specialists on the field

Nowadays, many professionals working on the social  
sphere without a specific qualification

The training process in the Social Education Degree is in a initial stage

Now, approximately 15 years after, it is getting consistency

Nevertheless:

Many aspects need to be improved

Most structures in the faculties are still focused on the School Sphere

Thank you very much!
