FROM

THE SECRETARY OF THE INTERIOR,

COMMUNICATING,

In answer to a Senate resolution of March 19, 1874, information in relation to the number of Indians captured or killed by United States troops during the year 1873.

FEBRUARY 1, 1875.—Ordered to lie on the table and be printed.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., January 29, 1875.

SIR: On the 19th day of March, 1874, this Department received a resolution of the Senate in the following words:

That the Secretary of the Interior be, and he is hereby, directed to communicate to the Senate any information in his possession or that may be attainable through Indian inspectors, superintendents, and agents, as to the number of Indians, including women and children, who have been taken as captives or killed by United States troops during the year 1873, and particularly under what circumstances so captured or killed, and upon whose order or for what cause, and whether or not upon their reservations, as well as the tribes to which at the time they severally belonged. Also the number and description of citizens and soldiers killed by Indians during the same period. Also that he make like inquiry for the six months ending June 30, 1874, and report to Congress in December next.

In answer to said resolution, I have the honor to transmit herewith a copy of a report from the Commissioner of Indian Affairs, dated the 27th instant, with the accompanying statement, containing such information as the Department has been able to collect in relation to the subject.

Very respectfully, your obedient servant,

C. DELANO,
Secretary.

The PRESIDENT OF THE SENATE.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, D. C., January 27, 1875.

SIR: I have the honor to acknowledge by reference the receipt of a copy of a resolution passed by the United States Senate March 19, 1874, calling for a report relative to the number of Indians taken captive or killed by the United States troops; and the number of citizens and soldiers killed by Indians in the year 1873; also the same information covering the six months ending with June 30, 1874.

The copy of the resolution was received on March 20, 1874, and a circular was immediately prepared calling for the desired information and mailed to each inspector, superintendent, and agent in the Indian service.

A copy of this circular is inclosed herewith.

The replies came in tardily, and many of those to whom the circular was addressed delayed responding till the termination of the whole period covered by the resolution, and it seems to have taken some time thereafter for some of the agents to obtain and forward the desired information. A few have not yet made returns.

But such returns as have been received have been collated and tabulated, and the results are transmitted herewith.

The degree of accuracy in the several statements has been incorporated in the tabulation.

	In 1873.	Six mos. of 1874.
According to the reports there were:		
Indians captured by United States troops	227	73
Indians killed by United States troops.....	405	158
Citizens killed by Indians.....	44	36
Soldiers killed by Indians.....	48	3

The copy of the resolution is returned herewith.

I have the honor to be, very respectfully, your obedient servant,
EDW. P. SMITH,
Commissioner.

The Hon. SECRETARY OF THE INTERIOR,

(1874—No. 2.)

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, D. C., April 1, 1874.

SIR: The resolution hereto appended, passed by the United States Senate March 19, 1874, and calling for information relative to the capturing and killing of Indians by United States troops on the one side, and of citizens and soldiers on the other, is so explicit as fully to explain itself. In order to enable the Department properly to comply with its requirements, you will use due diligence to ascertain all the facts contemplated by the resolution within the limits of your official jurisdiction, and make special report of them to this Office as soon as ascertained.

Observe that the resolution contemplates two different reports, the one to cover all the cases which occurred during the year 1873, and the other those occurring during the six months ending June 30, 1874, and each to furnish the following facts:

1. The number of Indians, including women and children, who have been taken as captives, or killed by United States troops, and particularly under what circumstances they were so captured or killed, and upon whose order, or for what cause, and whether or not they were upon their reservations at the time; also the names of the tribes to which they severally belonged.

2. The number and description of citizens, including name, age, and sex, and of soldiers killed by Indians during the same periods; also, as far as possible, the names of the tribes to which such Indians belonged.

You will give diligent attention to this matter, and furnish in every case, as far as may be practicable, the exact dates of the facts and occurrences you may have to report.

Very respectfully, your obedient servant,

Commissioner.
