DURHAM, NH – New Hampshire residents have become somewhat more positive in their assessment of Donald Trump's performance as president. Approval of his overall job performance, handling of the economy and foreign affairs, and his personal favorability have all increased since February, with the largest gains among Independents. More than half of Granite Staters say the Mueller investigation is a serious matter that should be fully investigated and few support President Trump firing Robert Mueller.

These findings are based on the latest **Granite State Poll***, conducted by the University of New Hampshire Survey Center. Five hundred and forty-eight (548) randomly selected New Hampshire adults were interviewed in English by landline and cellular telephone between April 13 and April 22, 2018. The margin of sampling error for the survey is +/- 4.2 percent.

Presidential Approval

Granite Staters are more positive in their assessment of Donald Trump's performance as president and his approval now nearly equals the levels of support he enjoyed early in his tenure; 41% approve of Trump's performance as president, 52% disapprove, and 7% don't know or are unsure.

**Presidential Approval - Donald Trump**
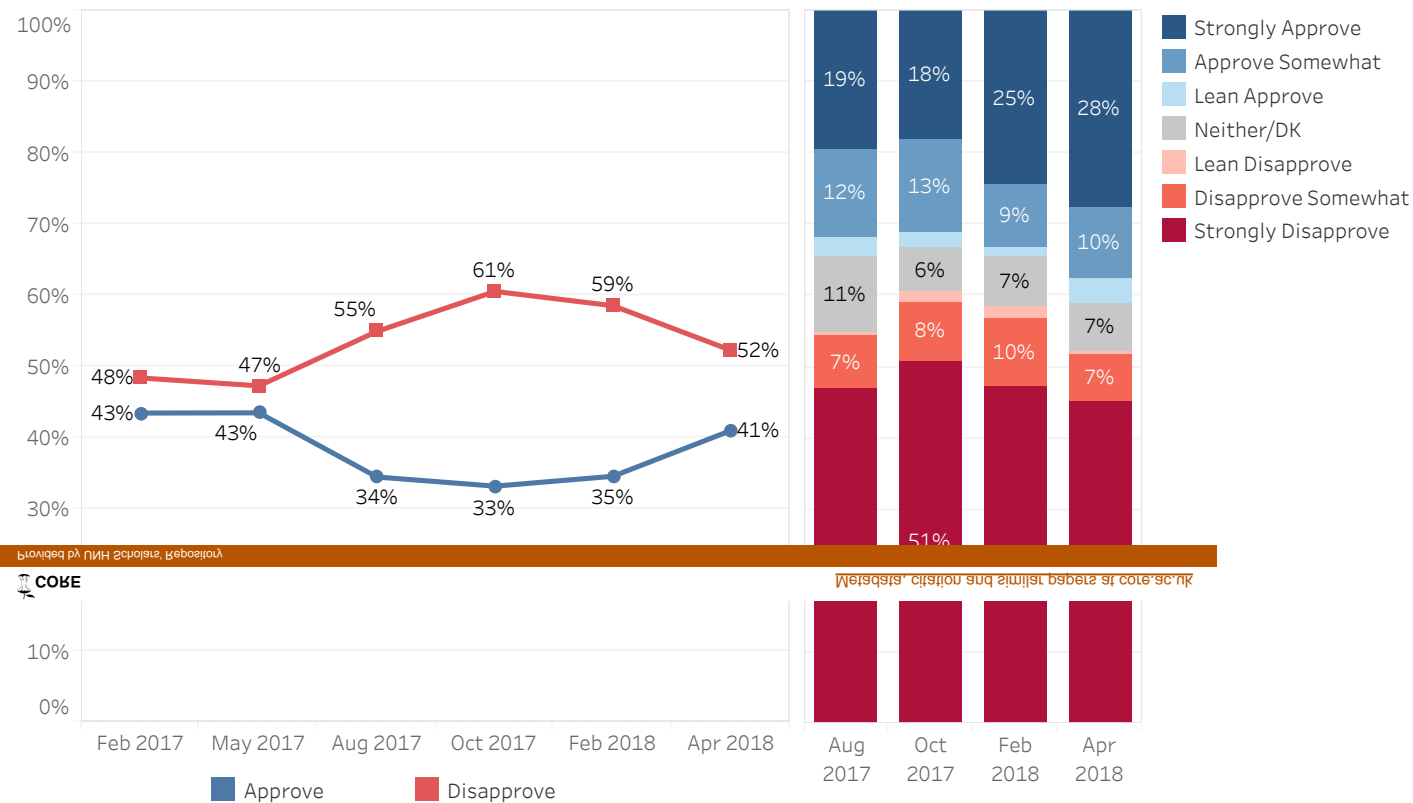

* We ask that this copyrighted information be referred to as *the Granite State Poll,* conducted by the University of New Hampshire Survey Center.

Approval of President Trump continues to be closely tied to partisanship. Seventy-nine percent of Republicans approve of Trump's job performance, unchanged since February 2018 (80%); 42% of Independents approve, up from 33% in February, while 8% of Democrats approve of Trump's performance as president, unchanged since February.

Those who voted for Trump in 2016, conservative talk radio listeners, self-identified Republicans, self-described conservatives, *Union Leader* readers, and those who attend religious services once or twice a month are most likely to approve of Trump's performance. Those who voted for Hillary Clinton or did not vote in 2016, self-described liberals, self-identified Democrats, NHPR listeners, Connecticut Valley and Seacoast residents, *Boston Globe* readers, those who have completed postgraduate work, and those aged 18 to 34 are least likely to approve of Trump's performance.

Economic Approval

Approval of President Trump's handling of the economy among New Hampshire residents has increased somewhat since February: 49% of respondents currently approve, 43% disapprove, and 8% neither approve nor disapprove or don't know. Approval of Trump's handling of the economy is higher than at any previous point in his presidency.

Trump Approval - Handling the Economy
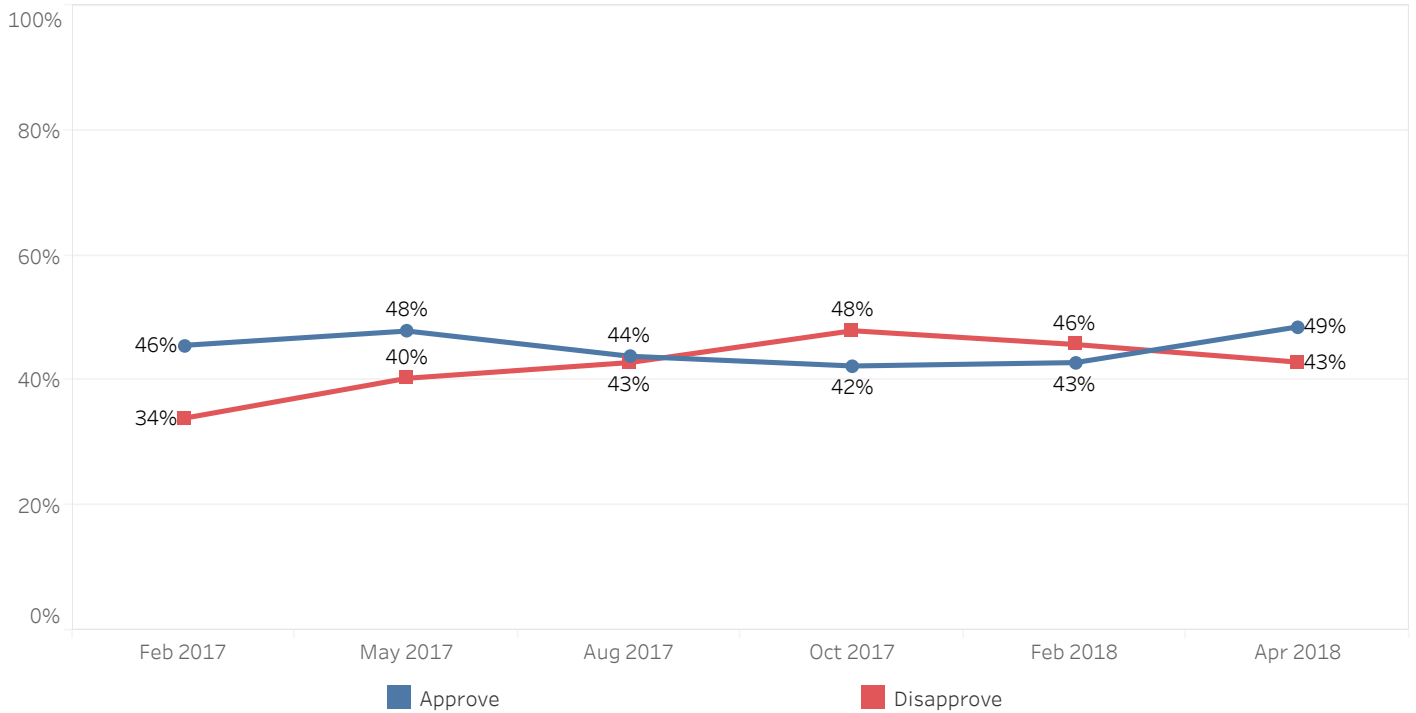

The vast majority of Republicans approve of Trump's handling of the economy (84%). Six in ten Independents (60%) approve of Trump's handling of the economy, a considerable increase since February (44%), while Democrats (13%) remain much less likely to approve.

Economic Approval - by Party ID
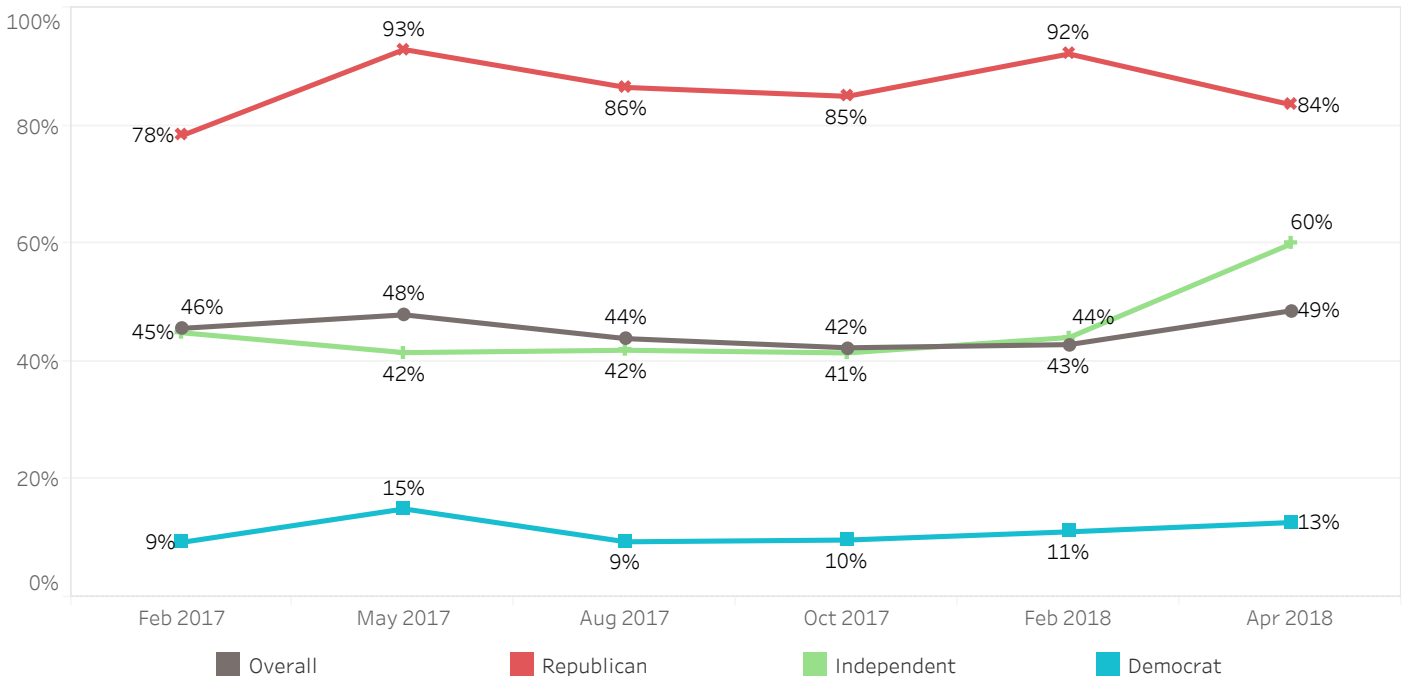

Foreign Affairs Approval

Granite Staters opinion of Trump's handling of foreign affairs has also increased somewhat since February but New Hampshire residents continue to have a lower opinion of Trump's handling of foreign affairs than his handling of the economy. Currently, 42% of New Hampshire adults approve of how Trump is handling foreign affairs, 51% disapprove, and 7% neither approve nor disapprove or don't know.

Trump Approval - Foreign Affairs
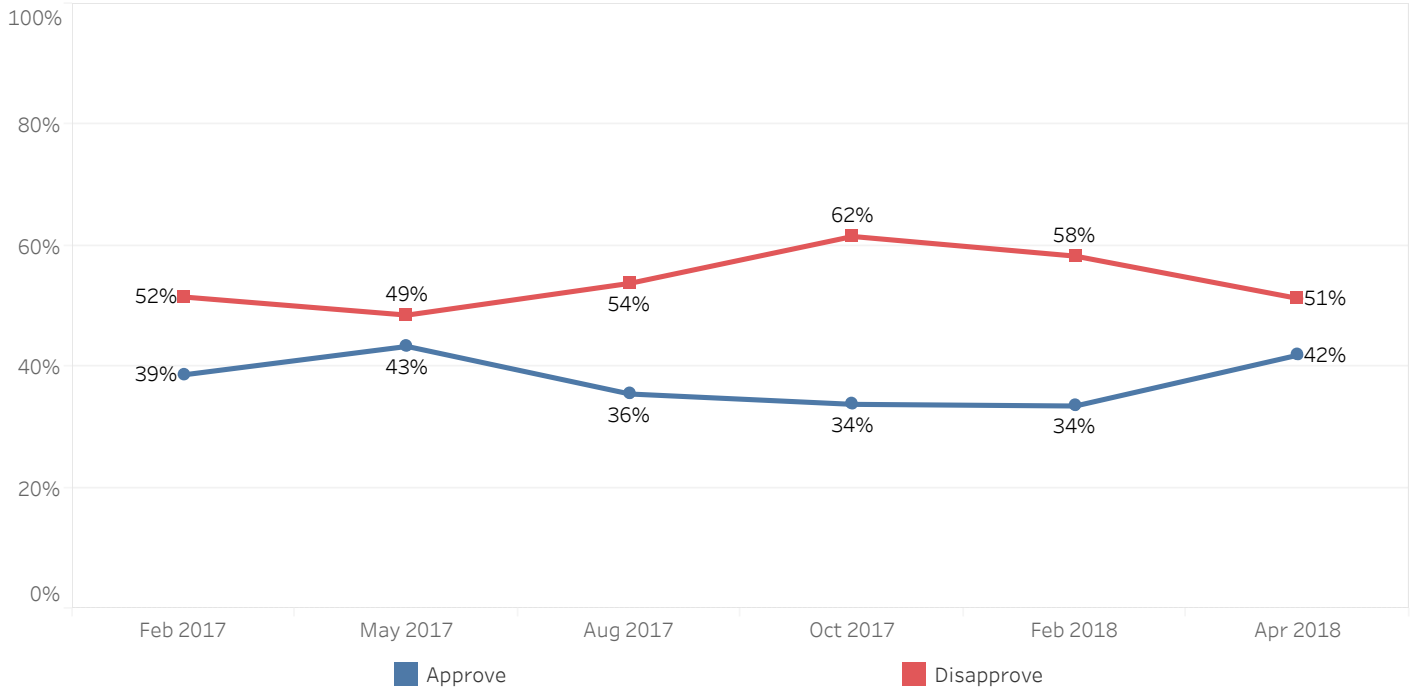

Seventy-nine percent of Republicans approve of Trump's performance in foreign affairs, while 45% of Independents agree, up from 32% in February 2018. Approval of Trump's handling of foreign affairs among Democrats remains very low (8%).

Syria

Granite Staters remain divided in their opinion of how President Trump is handling the situation in Syria. A slight plurality (44%) approve of Trump's handling of Syria, 38% disapprove, and 18% are neutral, not sure, or don't know. Support for Trump's handling of Syria is virtually unchanged from New Hampshire residents' opinion on the issue in May 2017 (44% approve, 41% disapprove). Republicans (69%) are far more likely than Independents (49%) or Democrats (21%) to approve of Trump's handling of the situation in Syria.

Approval of Trump Handling
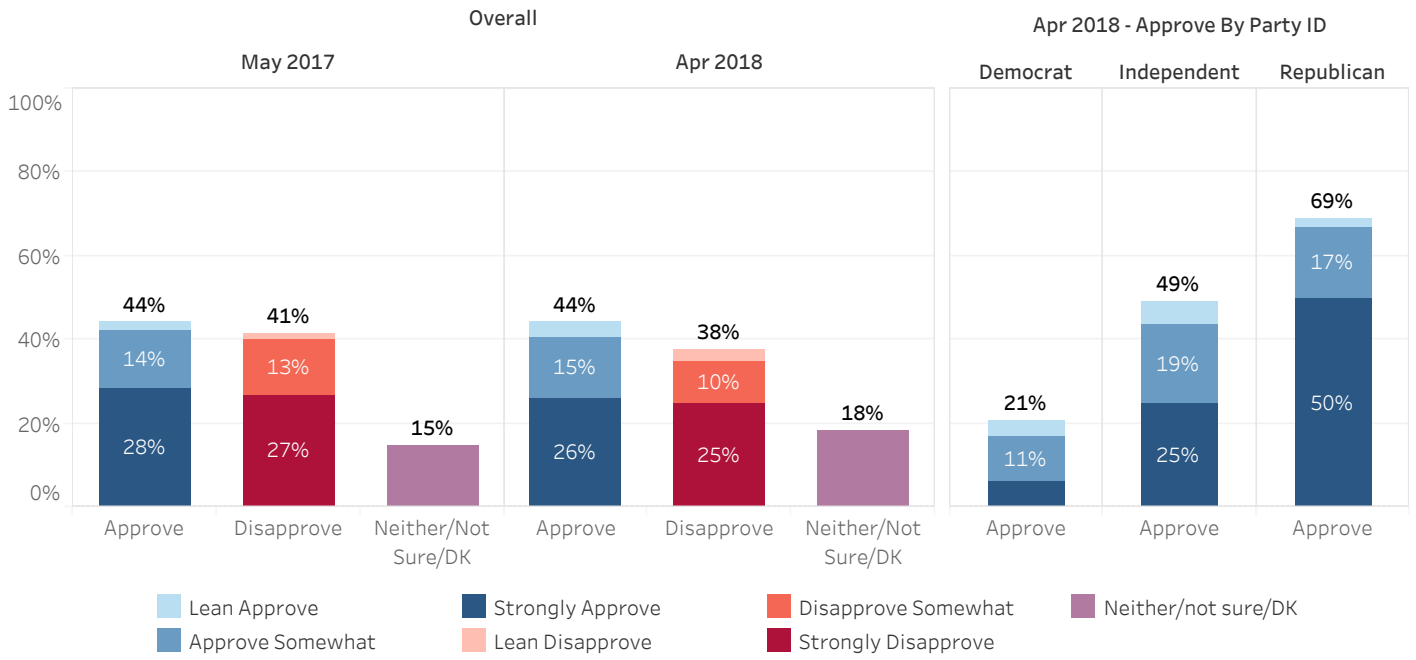

Just over half of New Hampshire residents (57%) support the removal of Syrian President Bashar al-Assad, 13% oppose Assad's removal from power, and 30% are neutral or don't know enough to say. Opinion about removing Assad from power is unchanged since May 2017 (58% support removal, 15% oppose).

Unlike most current issues, opinion on removing Syrian President Assad is not closely tied to partisanship: 65% of Democrats, 56% of Republicans, and 50% of Independents support Assad's removal. However, support for the removal of Assad has slightly increased over the last year among Democrats (58% in May 2017, 65% in April 2018) but has slightly declined among Republicans (64% in May 2017, 56% in April 2018).

What US Should Do in Syria

Although a majority of New Hampshire residents (57%) support the removal of Syrian President Bashar al-Assad from power, Granite Staters are divided on what specifically the US should do in Syria. When asked which comes closest to their opinion on what should be done in Syria, 29% would like the U.S. to conduct diplomatic talks, 24% want the US to conduct air strikes, and 8% each would like to arm opposition forces or send in ground troops. Fourteen percent would like no US involvement at all, 3% say they would like a combination of these strategies, and 14% don't know or are unsure. Opinion on what the US should do is largely unchanged since May 2017.

Self-identified Republicans and self-described conservatives are more likely than others to prefer the US conduct air strikes, while self-identified Democrats and self-described liberals are more likely to prefer the US conduct diplomatic talks.

US Heading in Right Direction or On Wrong Track

Overall, New Hampshire residents continue to be pessimistic about the direction of the country but are slightly more optimistic than in late 2017. Thirty-eight percent of New Hampshire residents think things in the country are going in the right direction while 54% say things are seriously off on the wrong track and 8% don't know or are unsure.

Right Direction – Wrong Track
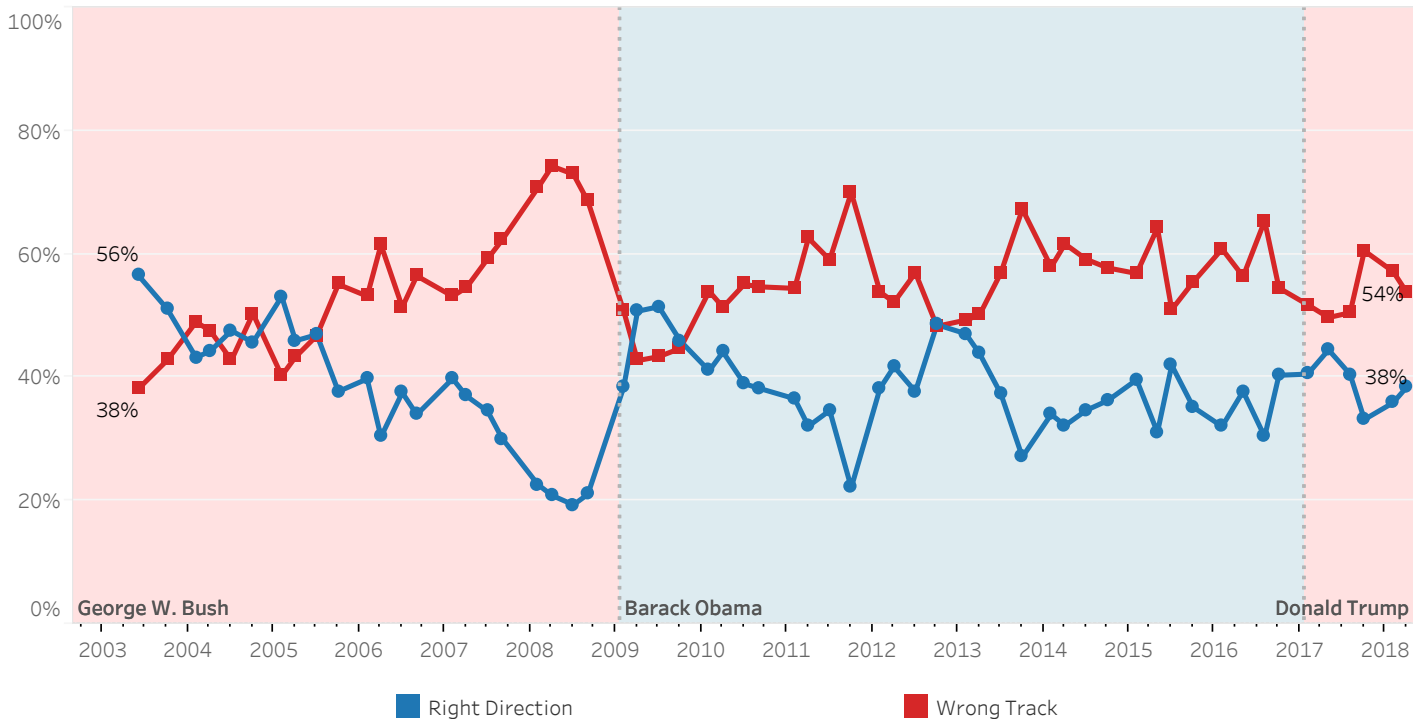

Opinion about the direction of the country remains closely tied to partisanship. Seventy percent of Republicans believe the country is headed in the right direction but only 37% of Independents and 11% of Democrats agree. Belief among New Hampshire Independents that the country is headed in the right direction (37%) remains higher than in October 2017 (30%).

Granite State Poll Methodology

These findings are based on the latest Granite State Poll, conducted by the University of New Hampshire Survey Center. Five hundred and forty-eight (548) randomly selected New Hampshire adults were interviewed in English by landline and cellular telephone between April 13 and April 22, 2018. The margin of sampling error for the survey is +/- 4.2 percent. These MSE's have not been adjusted for design effect. The design effect for the survey is 1.2%.

The random sample used in the Granite State Poll was purchased from Marketing Systems Group (MSG), Horsham, PA. MSG screens each selected telephone number to eliminate non-working numbers, disconnected numbers, and business numbers to improve the efficiency of the sample, reducing the amount of time interviewers spend calling non-usable numbers. When a landline number is reached, the interviewer randomly selects a member of the household by asking to speak with the adult currently living in the household who has had the most recent birthday. This selection process ensures that every adult (18 years of age or older) in the household has an equal chance of being included in the survey.

The data have been weighted to adjust for numbers of adults and telephone lines within households. Additionally, data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response. Due to rounding, percentages may not sum to 100%. The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions.
