Crop Acreage, Yields and Production in South Dakota, 1926 - 1960

- Ray F. Pengra and  
Rex D. Helfinstine

The tables presented in this pamphlet were printed from IBM cards punched with data supplied by the South Dakota Crop and Livestock Reporting Service, Mr. Roy Potas, in charge. Their excellent cooperation is acknowledged.

Tables were made up for 13 crops for each county in South Dakota; and for each of 7 different economic areas by combining the data for the counties within each area. The pamphlet is thus prepared in 13 parts, one part for each crop as follows:

- Part A - Corn
- B - Winter Wheat
- C - Durum Wheat
- D - Other Spring Wheat
- E - All Wheat
- F - Oats
- G - Barley
- H - Rye
- I - Flaxseed
- J - Alfalfa
- K - Wild Hay
- L - All Hay
- M - All Tame Hay

Contents:

The tables in this pamphlet are assembled in the following order:

State  
Economic Areas  
Counties, alphabetically arranged
