## Preface

### Volume 68, Issue 1

Alexander Kurz

#### Abstract

This volume contains the proceedings of the Workshop on Categorical Methods for Concurrency, Interaction, and Mobility (CMCIM) held in Brno, Czech Republic, on August 24, 2002 as a satellite event to CONCUR 2002.

For online-information see http://www.cwi.nl/cmcim/. The workshop consisted of the five refereed contributions present in the proceedings and an invited lecture by Eric Goubault with the title "A category-theoretic study of the coordination of concurrent processes". The programme committee consisted of

Samson Abramsky (Oxford)

Thomas Hildebrandt (Copenhagen) Alexander Kurz (Amsterdam) Ugo Montanari (Pisa) Prakash Panangaden (Montreal) Horst Reichel (Dresden) Jiri Rosicky (Brno) Bob Walters (Como)

We are grateful to everybody who submitted a paper and to the outside referees for their support. We are also indebted to the organisers of CONCUR 2002 and, in particular, to Antonin Kucera who suggested to organise the workshop and who arranged the local affairs. Finally, we thank Mike Mislove for his work as a Managing Editor of the ENTCS series.
