Foreword

This volume contains some of the papers presented at the 15th Winter School on Abstract Analysis held from January 18 to February 1, 1987, in Hotel "Šumava" in Srní (Bohemian Forest), submitted for publication before April 17, 1987. It is a pity indeed that a number of brilliant lectures is not recorded here. The full responsibility for the linguistic form of the papers was left to the authors.

It is a pleasure to acknowledge my indebtedness to the Department of Mathematics of the Faculty of Nuclear and Physical Engineering for organizing the Winter School, to the Faculty of Mathematics and Physics of the Charles University, particularly to its Mathematical Institute, for the traditional helpful cooperation, and to the Editorial Board of Acta Universitatis Carolinae, Mathematica et Physica for publishing this volume.

I am particularly obliged to the chairman of the Organizing Committee Vojtěch Růdl and the secretary of the Organizing Committee Eva Dontová.

Z. Frolík
