# Northwestern College and Academy

## Invites Young Men and Women To Share A Full New Year

• STUDY • FELLOWSHIP • LEARNING • CAMPUS LIVING • CHRISTIAN WORSHIP • GOOD FUN

STILL TIME TO ENROLL

Two-Year  
Junior College Dept.

... provides a complete offering for young people seeking preparation for a satisfying career.

Courses and complete study-sequences are offered in English, languages, speech, mathematics, social science, Bible, dramatic literature, education, psychology, economics, commercial & business courses, vocal and instrumental music, athletics, home economics and shop.

Training at Northwestern provides the perfect background for advanced university work; for an immediate entry into the teaching profession; for entry into a business occupation; and for the important role of parent.

Four-Year

High School Dept.

... with a 70-year old tradition of service to the community, and to those of Reformed faith throughout the midwest, offers again a full four-year high school course with a distinctive Christian flavor.

All of the usual and necessary courses are available in the Academy department: biology, physics, social sciences, Bible, mathematics, shop, English, literature, dramatics, instrumental and vocal music, commercial and business courses, athletics, home economics.

Careful guidance is given each student in his or her registration and class-work, and valuable individual attention continues throughout the year. Pupils find special advantages for today, and for life, in Academy associations with others from Christian-pledged families.

## Northwestern Offers Purposeful Opportunities... Preparation for Productive Living

### A Growing Student-Body...

Study at Northwestern is being accepted by an increasing number of families and students throughout the United States as a logical and profitable mid-way step between high school and professional training in the universities. This fall's freshman class is expected to be the largest in the history of the school.

Many students come from homes affiliated with the Reformed church; but a welcome is also extended to the growing number of young people who come to Northwestern from other denominational backgrounds.

### A Beautiful Modern Campus...

The Northwestern College physical plant has been renovated, remodeled, redecored within the last few years, and an ambitious building program now underway is transforming the campus into one of Iowa's most beautiful small college settings.

Latest addition to the facilities is the new, three-story Science Hall addition now in full use. Heemstra Hall, new campus dormitory, also built since the war, provides a convenient, comfortable home-away-from-home for women students.

Other construction is planned for the future to meet the needs of the growing student body.

### A Complete College Offering...

Northwestern offers a rounded two-year college program in the liberal arts field. Students planning a career in teaching may take here the specialized work required for their state certificates—others may take the courses basic to advanced work in other professions—all receive a broad acquaintance with the liberal arts through the general studies program, and through campus extra-curriculars in which most students participate actively.

Church-affiliated, Northwestern continues to provide each student with the opportunities and inspiration for spiritual growth, reverence, and constructive citizenship.

### A Fully-Accredited School...

Northwestern college is a member of the North Central Association of Colleges and Universities.

Accreditation by the Association testifies to Northwestern's high standard for scholarship, instruction, student services, and equipment. The college has had state accreditation since its founding 25 years ago, and has been accredited for teacher training for many years.

North-Central Association membership enlarges the value of Northwestern's training—in assuring that all college credits earned here will be accepted without question, at full value, by any college or university in the United States.

### A Sample Of Northwestern's Program

... A Corner In The Curriculum Laboratory. Where Future Teachers Are Introduced To Modern, Effective Teaching Aids

### Opening Week - 1955

- Monday, Sept. 5—Faculty meets
- Tuesday, Sept. 6—Freshman orientation begins
- Wed., Sept. 7—Registration begins for all students
