Celebrate Curiosity  
@  
Greenwood Library

We believe in the power of recorded information to add breadth and meaning to one's life.  
We strive to provide value-added physical, virtual, and intellectual environments that connect our users with historical and current information in order for them to help change lives for the better.

Strategic Priorities

**Develop** information literacy programs that contribute to academic endeavors and lifelong learning.

**Expand** collections, particularly in electronic formats, to meet the needs of students and faculty.

**Support** the university's QEP, R.E.A.L. Inquiry, which uses the development of research skills and the practice of research as a vehicle for improving students' critical thinking, information literacy, and communication skills.

**Enhance** physical and virtual spaces to ensure a range of environments that are conducive to learning, teaching, collaboration, and solitary work.

**Offer** the most up-to-date technology hardware and software to meet user needs.

**Provide** faculty and students a convenient opportunity to make their research and creative work accessible online in an institutional repository, which will afford greater visibility for individual scholars, elevate the academic profile of the institution, and preserve the university's digital content.
