## SUPERINTENDING SCHOOL COMMITTEE.

F F HASKELL, Chairman, term expires March, 1913

B C BAKER, term expires March, 1914

R A BLACK, term expires March, 1915

SULLIVAN, MAINE, March 1, 1913.

### *To the Members of the Superintending School Committee and the Citizens of the Town of Sullivan;*

I present herewith my sixth annual report of the condition, progress and needs of the schools of Sullivan.

Our teachers for the spring term were the same as last year with exception of Miss Perkins at the Centre who resigned a few days before the beginning of the term on account of illness, Mrs. Baker being engaged to take her place. At the close of the spring term Miss Estes resigned on account of approaching marriage; Miss Thompson to enter Castine Normal school; Miss Leavitt secured a better position; Miss Clark to enter Gorham normal school and neither Miss Coffin nor Miss Stinson cared to return to teach the combined Bridgham high schools. This necessitated an entire change of teachers with the exception of Mrs. Baker at the Centre and Miss Hayey at Tunk.

In engaging new teachers we have endeavored to secure trained teachers as far as possible and by the statistics of teachers it will be seen that we have had the largest number of trained teachers in town this year we have ever employed at one time. We believe those who have been in actual touch with the work accomplished in these schools have already seen the wisdom of this policy. Our teachers have been very successful as a whole and we have never employed a corps of teachers whose professional zeal and enthusiasm have been more commendable.

All things considered our schools are very well graded at the present time and our grades compare favorably with those of towns considered to have well organized school systems. The coming and going of scholars to and from our schools have given us frequent opportunity for comparison with the grades of other towns and we have found this very favorable to our schools. We know of but one pupil entering our schools who was able to enter a

higher grade than that from which the pupil came and usually new pupils have difficulty in doing the work of the same grade, it being often necessary to place such pupils in a lower grade. On the other hand our pupils have always been able to enter the same grade and sometimes a higher one in other towns.

The grade requirements have been practically the same as last year, most of the grades accomplishing the work with little difficulty and some doing advanced work. As our grades are so well advanced some have inquired why we did not introduce the eight grade system but this would not be practical with our present school year as the few towns in this State maintaining an eight grade system have a school year of thirty-six or more weeks each year which gives them about the same number of weeks of school in eight years as we have in nine. In addition to this the towns maintaining such a system usually have a large number of scholars in one building so that it is possible to have a teacher for every grade or at least for two grades which of course makes more rapid progress possible. From these facts it will be seen that it would be unwise to adopt such a system for our schools under present conditions.

**BRIDGHAM HILL SCHOOLS.** The two Bridgham hill schools were combined at the beginning of the fall term and while this arrangement met with an emphatic protest from the people of this district the first week of the fall term we believe the school statistics will clearly show the justice of this action and prove that two schools could not have been maintained in this district without an unwarranted expense in proportion to the enrollment. We have had an excellent school in this district since the combination but of course one teacher cannot do the same amount of work as two. While it is never pleasant to feel that there is dissatisfaction in any community with the school privileges, we cannot but admire the progressive spirit of the people of this district and their interest in the welfare of their scholars. We believe where there is a will there is a way and if the people of this district will have a little patience doubtless there will be a way to better satisfy their ambition for first-class school privileges.

**PROMOTION AND NON-PROMOTION.** The promotion and non-promotion of pupils at the close of the school year is a problem which troubles conscientious teachers as much as any other school problem in which the welfare of the scholar is directly concerned. It is a very easy and pleasant duty to promote a pupil when there is no question of fitness but the opposite cases are where the difficulty comes. Before the graded system was well understood many parents with the best of intentions were anxious for the regular promotion of their children regardless of their fitness, evidently

measuring their educational advancement wholly by the grade in which they were enrolled, whether they were fitted for the grade or not. In the past few years parents have given more thought and attention to this matter and consequently there has been little complaint on account of non-promotion. Pupils are placed in the grade in which in the best judgment of teachers they will receive the greatest benefit and a little consideration of the matter will convince anybody that there can be no object or advantage to any teacher to refuse promotion to a deserving pupil. In fact most of the injustice comes from the other direction because of the promotion of unqualified pupils by teachers who lack rigidity of the spinal column to such an extent that they are afraid to take a firm stand on any question where there is likely to be a difference of opinion and because of this same unjust promotion by unprincipled teachers who rank all A's and promote every pupil in order to please unthinking parents and add to their popularity, something which such teachers cultivate with much care for the purpose of concealing their deficiency in the real qualifications of a teacher. Such teachers do many pupils a lasting injury and instead of being their friends are exactly the opposite.

The per cent. of non-promotions was not large last spring and with few exceptions parents showed excellent judgment in the matter. An effort is being made to reduce the number of such cases by giving retarded pupils more individual work but there will always be a certain per cent. of non-promotions in spite of all efforts.

**ATTENDANCE** We have had a slight decrease in average attendance this year caused by the prevalence of whooping cough in several schools last fall and also from the fear of diphtheria which kept quite a number at home for a time. The number of scholars attending school in this town in proportion to the school population is large but the per cent of attendance to enrollment is not so satisfactory. This per cent should be at least ninety which makes an allowance for the absence of one pupil out of ten for every day in the school year, surely not an unreasonable average to expect. With no disturbing influences we trust this per cent will be reached next year. Your attention is again called to the roll of honor for attendance which has been kept the same as last year.

The Tunk school has fallen below the average attendance of eight this year and a vote of the town will be necessary to legally continue the school. We recommend that the school be continued.

**SOME RECOMMENDATIONS** We recommend that the National School Record System be adopted for the schools of this town next year. This is an index card system for keeping a record of every common school pupil from the time of entering to leaving the common school. It is a very practical system

and is being adopted all over the country, many Maine towns having already adopted it. The expense would be small for this town.

Parent-Teacher Associations have recently attracted notice by the good work they have done in behalf of better school privileges and we see no reason why such an association or associations could not be successfully organized in this town. Owing to the large territory it would probably be best to have more than one association in this town. For full particulars regarding these associations address the State Educational Department asking for the pamphlet, "The work of Parent-Teacher Association," which will be sent free.

#### REPORT OF SUPERVISOR OF MUSIC.

##### *To the Superintendent of Schools:*

I submit herewith my second annual report of the work in music.

We have been somewhat hampered during the year by sickness among the pupils and changes in the teaching force. Taken as a whole, however, the schools have made fairly good progress. The work of the primary grades has been markedly in advance of that done last year, the tone quality having been greatly improved and good progress made in sight reading. In these grades we have encouraged the teachers to conduct individual recitations, believing that music lessons should be conducted along the same lines that makes for self independence in language or any other school subject. Some of the intermediate and grammar grades have been advanced to two-part music and the West Sullivan grammar school we have begun the study of the bass clef.

The high school has maintained its standard this year with an encouraging increase in interest. A male quartet has been organized, which is already quite a credit to the school. In the future we expect to give an operetta, the proceeds of which will be to discharge the debt on our piano.

I fully appreciate the support given me by the teachers and school officials and the interest which the public has shown in this department has been very helpful to me.

Respectfully submitted,

LAURA C. RUSSELL,

Supervisor of Music.

**HIGH SCHOOL.** The public high school has been severely criticized for its failure to retain a larger proportion of its students until graduation and without doubt there is cause for this criticism as statistics will go to prove that in the average high school a large number from each entering class leave school without completing their course. Our school has made a decided advance in this respect in the past few years and the

large number graduating from the school each spring in proportion to the size of the school shows that we have a relatively high record in this respect. Last spring a class of ten were graduated this being an exceptionally large class for a high school in a town of this size. The graduates were as follows: Hollis W Bragdon, Ruth W Bragdon, Lawrence L Bunker, Vera A Gordon, Earl E Hayey, Douglas M Milne, Mary M Milne, Lawrence E Orcutt, Alton Robertson, all from the English course.

We began the new school year with new teachers, Mr Edward I. Linscott being engaged as principal and Miss Mildred Mansfield as assistant, both teachers of experience. It is hardly necessary to make special mention in this report of the progress of the school as the many favorable comments indicate that the public in general are familiar with the good work being accomplished. The enrollment has been about the same as last year, the entering class being of good size as the accompanying table will show.

#### ENROLLMENT BY CLASSES AND COURSES.

Totals,		18	8	14	9	49

#### ENROLLMENT OF TOWN AND TUITION SCHOLARS.

TOWN SCHOLARS.		TUITION SCHOLARS.	
North Sullivan,	10	Hancock,	12
West Sulliyon,	4	Gouldsboro,	7
Sullivan Harbor,	5	Sorrento,	2
Sullivan Centre,	2		
Ash District,	2		
Bridgham Hill,	4		
Tunk Pond,	1		
Totals,	28		21

Two distinct changes have taken place in this State the past year which effect class A high schools and add to the advantages which they already offered.

First, beginning with last fall a new law took effect which requires all students who enter Maine normal schools to be graduates of class A schools. This law gives the normal schools of the State an advanced standing by insuring them with a better fitted and more mature class of students while at the same time it recognizes class A schools as schools of

a standard grade. It is very evident that students living in the vicinity of such a school have a distinct advantage in this respect as they can fit for normal school right at home without additional expense.

Second, during the past year the University of Maine has made a new rule regarding entrance requirements by which regular graduates from Class A schools may enter the University without examination. This action on the part of our State University again recognizes the efficiency of Class A schools by considering them as proper fitting schools and it gives the boys and girls of towns maintaining such schools the opportunity of fitting for college in their own town with the added assurance that they will be permitted to enter the University of Maine without examination if they wish to enter that institution. Formerly it was necessary for a student with college aspirations to go away from home to attend some preparatory school at an expense almost as large as going to college and this fact of expense alone prevented many from taking a college course which was a condition much to be regretted as it isn't necessary to say that many students with limited financial resources are among the most promising and deserving students. We are pleased to report that seven of our graduates have already been admitted to the University and five of this number entered last fall. The future standing of the school from the standpoint of the University of Maine at least depends to a great extent upon these students and we trust their records will be a credit to themselves and their school.

This year a dormitory has been established in connection with the school and while we had some hesitation in taking the responsibility of establishing a dormitory we are pleased to report that the plan has been a decided success. By having a convenient and comfortable boarding place with very reasonable rates for board and with the students under the direction of the teachers we have been able to attract students, who, would under other conditions attended school elsewhere. Now that the plan has proved successful we hope that this is but the beginning in developing our high school into a regular boarding school for students in this vicinity. There are a large number of students attending fitting schools from the surrounding towns and with the right management we shou'd be able to increase the large number which we already have enrolled in our school. Of course the benefits from this class of students in the way of tuition are obvious as an examination of the school accounts will show and in this connection your attention is called to the table below which amply demonstrates the standing which our school has attained in the opinion of people in surrounding towns during the past few years. These students have not been obtained without effort on our part but the fact that we had something to offer in the way of school privileges has made it possible to obtain this large number of tuition scholars. Of the one hundred seventy-seven high schools in the State

According to the last report, only six received more tuition than we have received this year, these six being Auburn, Caribou, Farmington, Gardiner, Old Town and Portland, which shows that we are making something of a record in this respect.

#### TUITION STATISTICS FOR FOUR YEARS.

YEAR	NUMBER OF TUITION	RECEIVED FOR
	SCHOLARS	TUITION
1909-10	6	\$60 00
1910-11	13	158 88
1911-12	16	350 00
1912-13	21	710 50

**REPAIRS AND IMPROVEMENTS** The repair and improvement of school buildings are receiving special attention this year from our State superintendent and he has asked all superintendents to make special mention of these important matters in their school reports for this year. While we gave considerable space to these subjects in our report two years ago we are glad to call your attention to them again this year. The most extensive repairs this year have been on the interiors. The West Sullivan primary and intermediate rooms have been much improved in appearance and lighting by painting the walls and ceilings. The Ash district and Tunk schoolrooms have been greatly improved by paint, paper and general repairs. All the other buildings have received attention in the way of minor repairs.

As it is granted by everybody that it is only a matter of good business and economy to keep our school buildings in good general repair it is not necessary to make extended comment on the subject. However, we are anxious to call to your attention the most important matters of proper heating, lighting and ventilation of our schoolrooms, also to out-buildings and school grounds. In the construction and location of school buildings little attention was given to such matters until recent years and consequently there is not a common school building in town in which a great improvement could not be made in these important matters which concern the health, happiness and morals of our school children. From lack of space we are unable to state the exact conditions of the various buildings in all these particulars but we offer for your inspection and consideration the accompanying table which is very similar to a report of these conditions which the State superintendent has requested all superintendents to fill out and return to him.

Explanation: A indicates excellent; B fair; C poor; D very poor.

# WARRANT.

## STATE OF MAINE.

HANCOCK, ss

To Oakman Bunker, constable of the town of Sullivan, in said county, GREETING:

In the name of the State of Maine you are hereby directed and warned to notify and warn the inhabitants of said town of Sullivan, qualified by law to vote in town affairs, to meet at K. of P. hall, in said town, on Monday, the tenth day of March, 1913, at ten o'clock in the forenoon, to act on the following articles, to wit:—

- Art 1 To choose a moderator to preside over said meeting.
- 2 To choose a town clerk for the ensuing year.
- 3 To hear report of the selectmen.
- 4 To choose three or more selectmen.
- 5 To choose three or more assessors.
- 6 To choose three or more overseers of poor.
- 7 To choose town treasurer for ensuing year.
- 8 To choose road commissioner or commissioners, for a term of one year.
- 9 To see if the town will vote "yes" or "no" upon the adoption of the provisions of chapter 112, of the public laws of Maine, for the year 1907, as amended by chapter 69, public laws of 1909; also chapter 21, public laws of 1911, and chapter 183, public laws of 1911, relating to the appropriation of money, necessary to entitle the town to State aid for highways, for year 1913.
- 10 To see if the town will raise and appropriate in addition to the amounts regularly raised and appropriated for the care of way, highways and bridges, the sum of \$400, being the maximum amount which the town is allowed to raise.
- 11 To see if the town will vote to authorize its superintending school committee to join with other towns for the purpose of employing a superintendent of schools in accordance with the provisions of sections 40 to 45 inclusive of chapter 15 of the Revised Statutes.
- 12 To see what sum the town will raise for the salary of superintendent of schools for the ensuing year.

- 13 To see if the town will vote to continue the school at Tunk Pond as recommended by the superintending school committee.
- 14 To see how much money the town will raise for the repair of roads and bridges.
- 15 To see how much money the town will raise for the repair of sidewalks.
- 16 To see how much money the town will raise for Memorial services
- 17 To see what action the town will take in relation to the collection of taxes.
- 18 To choose a collector of taxes.
- 19 To choose a member of superintending school committee.
- 20 To choose all other necessary town officers.
- 21 To see how much money the town will raise for support of poor.
- 22 To see how much money the town will raise for support of common schools.
- 23 To see how much money the town will raise for support of free high school.
- 24 To see how much money the town will raise for free text books.
- 25 To see how much money the town will raise for repairs of school buildings.
- 26 To see how much money the town will raise for incidental expenses.
- 27 To see how much money the town will raise to pay principal and interest on town notes.
- 28 To see if the town will allow Wm. R. Martin to work out his tax on road leading from his house to the house of James Ash.
- 29 To choose a trustee for York Hill Cemetery for a term of three years.
- 30 To see if the town will appropriate a sum of money to reimburse Alex Petrie for the whole or any part of the medical expenses incurred for the sickness of his mother. Such sickness being caused by an injury received while travelling on the town way.
- 31 To see if the town will authorize the selectmen to hire a sum of money not to exceed \$2,500 to pay teachers' salaries and other town bills until taxes are available.
- 32 To see what action the town will take in relation to selling or moving jail.

33 To see what action the town will take in relation to the Lewis Hodgkins pauper case.

34 To transact any other business which may come before said meeting.

The Selectmen hereby give notice that they will be in session at K of P hall at nine o'clock in the forenoon for the purpose of correcting the list of voters.

Given under our hands at Sullivan, this first day of March, A D 1913,

E. E. BRAGDON,

J. B. HAVEY,

E. W. DOYLE,

Selectmen of Sulliyen.

A true copy.

Attest:---OAKMAN BUNKER, Constable.
