# SUPERINTENDENT'S REPORT.

---

*Fellow Citizens :*

In accordance with the laws of our State and the usual custom, it becomes necessary for me to submit the following report :

There were enrolled April 1st, 1902, 98 pupils.

Whether or not the standard of our schools has been raised, the interest on the part of pupils awakened, you, as intelligent citizens, are able to decide, and no words of mine are necessary to explain the condition of our schools at the present time. We have had the past year twenty-two weeks of school in each school in town, two weeks more in each school than ever before under the present system, and with but few exceptions, under the instruction of first-class, experienced teachers. All bills are paid and \$243.91 undrawn of the school money, and the coming year, under judicious management, twenty-four weeks can be had. We think with the meagre appropriation for schools it should be so managed as to do the most possible good for our pupils. After all that has been done by our State, by our educational societies and journals, there are still a few who do not put an adequate value on education. It should be remembered that the future destiny of our country depends on the boys and girls who fill the benches in our schoolrooms to-day.

There are yet difficulties in the way that retard the progress of our schools. One of the most frequent causes of trouble is want of co-operation between parents and teachers. They

seem to have forgotten that the world moves on, and that the style of teaching in vogue during their childhood has given place to new and improved methods. Education has kept pace with other things. New methods, new appliances, in fact, the whole paraphernalia of the schoolroom is, or should be, different from that of sixty or one hundred years ago.

There seems to be a disposition on the part of some to find fault with all teachers. The children are not slow to catch the same spirit, watch for some imperfection which they feel encouraged to report at home as soon as they see or imagine they see it. Thus it is that the faults and not the excellences make the first impression both at school and at home, and the teachers to make a success under such circumstances must be very fortunate.

Thanking you for the interest you have manifested in our schools during the years I have served you as Superintendent, I beg a continuance of the same be extended to my successor, feeling confident that with your assistance the standard of our schools can yet be raised.

## FREE HIGH SCHOOL, BERRY MILLS.

A term of Free High School is now in session at Berry Mills, under the instruction of Mr. E. A. Roys, Bates, '04. He is a competent and able instructor and a good term's work is assured. As the school is not yet closed, am unable to report the attendance, etc. The expense of same will be found in the financial statement.

Respectfully submitted,
