AUDITOR'S REPORT.

Bluehill, Maine, February 10, 1922.

I have examined the accounts of the municipal officers of the town of Bluehill, as detailed in the foregoing report. I found the accounts correct, the books neatly and systematically kept, and a sufficient voucher on file for each disbursement.

Respectfully submitted,
FORREST B. SNOW, Auditor.

TOWN CLERK'S REPORT.

January 1, 1921, to January 1, 1922.

Births recorded, 24 females, 17 males; total	41
Deaths recorded, 23 females, 20 males; total	43
Marriages recorded	24

Of the 48 persons married, 33 were residents of Bluehill, 1 of Brooklin, 1 of Brooksville, 1 of Buxton, 1 of Cincinnati, O., 1 of Jackson, Tenn., 1 of Lincoln, 3 of Penobscot, 1 of Princeton, 1 of Rockland, 3 of Surry, 1 of Unity.

DOG LICENSES.

Dog licenses issued: Females capable of bearing young, 3. Females incapable of bearing young, 4. Males, 51. Total, 58. Dog tax collected, \$70.00.

Respectfully submitted,
H. A. SAUNDERS. Clerk.

REPORT OF THE
SUPERINTENDENT OF SCHOOLS.

Superintending School Committee:

William E Wescott,	term expires March, 1922
Thomas I. Hinckley	term expires March, 1923
Nellie M. Douglass,	term expires March, 1924
(Resigned Sept. 3, 1921)	

Officers of the Board:

William E. Wescott, Chairman.
E. L. Linscott, Secretary.

Superintendent of Schools,
E. L. Linscott.

Attendance Officers:

Walter Stover, William Wescott, Wilbur Wardwell.

To the Superintending School Committee and Citizens
of the Town of Bluehill:

I herewith submit to you my annual report as superintendent of schools of Bluehill.

At the last session of the legislature, so many new school laws were passed, differing in some instances so very radically from those existing before that time, that it seems proper in beginning this report to take up this new legislation and discuss it somewhat at length, that some of the statements and recommendations made later may be understood.

The first law which I well explain is the new school fund law, which deals with the apportionment of the school fund. This measure was based on the best educational principles its sponsors could devise, and is designed to help those towns having difficulty in main-

taining adequate schools. Its main provisions are that the State school fund shall be apportioned on the basis of school census as of April first next preceding, and of attendance and teaching positions.

Approximately 38 per cent. of the new fund is apportioned on school census at the rate of \$3 per census scholar; 31 per cent. of the fund is apportioned to towns on account of teaching positions at \$100 a position. By teaching position is meant any position in public elementary and secondary schools filled by class-roomteachers. If a town contracts with an academy, the town receives an apportionment for teaching positions in proportion to the number of pupils residents of the town.

Approximately 20 per cent. of the fund is apportioned on aggregate attendance, which is the total number of days attendance for one year of both elementary school pupils and of high school pupils resident of the town supporting such high school or contracting with an academy. The rate per pupil per day on this estimate is .0179.

Under the new law, a town may raise a single amount for both elementary and secondary schools for the following purposes: Teachers' wages and board, fuel, janitors' services, conveyance, tuition and board of pupils, text-books, reference books and school supplies; in fact, for practically every school expense with the exception of repairs. The amount received from the State school fund may be used as a credit to a joint fund or to any other funds out of which the expenses I have mentioned are met; also, transfers may be made from one fund to another as conditions may require.

Another law provides for the improvement of sanitary conditions in school building toilets. This requires that before September 1, 1924, all school buildings shall be provided with toilet facilities that shall meet one of the following minimum requirements:

1. Flush water closets.
2. Chemical closets.
3. Outbuildings connected with the main building by a covered, ventilated passageway.

SCHOOL YEAR.

All the schools in town have had a school year of thirty-three weeks, with the exception of the grammar school, where we plan to have thirty-six weeks this year. I will explain the reason for this. When Miss Douglass was engaged as principal of the school, she was hired at a yearly salary, which is the custom in every large town and city, and so was assured of a definite amount regardless of the number of weeks. Obviously, under this arrangement, it would cost the town no more, except for the extra fuel and janitor service, to have a school year of thirty-six weeks in this school, than it would to have one of thirty-three weeks.

The grammar school now has a larger enrollment than it has ever had before. There are pupils there from many of the outlying districts, as well as from other towns. Their preparation is varied, so that it is no easy task to make them ready for entrance to the academy in two years, especially if the years are but thirty-two or thirty-three weeks in length. Either we must have thirty-six weeks, or return to the nine-grade system. The work has progressed splendidly in this school under Miss Douglass' instruction, and an increase of three weeks in the school year will be most profitably passed.

SCHOOL EXHIBITION.

Owing to the spasmodic outbreaks of scarlet fever in the primary and intermediate rooms, it was not deemed advisable to give the annual school exhibition last year, but we plan to hold it this year. Many of

the outlying schools had worked faithfully on their exhibits all through the year, and had prepared their part of the program, consequently the children were disappointed when the affair was not given.

Some of the very best papers and exhibits will be saved and placed on exhibition at the meeting of the Hancock County Teachers' association which convenes here next fall, so that the children now have an added incentive to make their work as neat as they possibly can. Some of the best numbers on the program at the exhibition will be chosen for the convention.

TEACHERS' INSTITUTE.

About the first of May, as soon as the traveling is good, it is proposed to hold a teachers' institute here in Bluehill, which every teacher in the union will be expected to attend. There will be general sessions, group sessions, teaching exercises, addresses by members of the faculty of some of the normal schools and officials from the State department of education. The sessions will be open to everybody, and it is hoped that many of the parents will avail themselves of the opportunity to hear the discussions.

JUNIOR HIGH SCHOOL.

In my report last year, I spoke of the advantages of a junior high school—that it gives the upper grades a longer school year, renders the transition smoother from grades to high school, brings pupils of high school age under conditions more suitable to their age, thereby preventing much of the dropping out when the age limit is reached, and since the work is departmentalized, senior high school teachers also teaching in the junior high school, special teachers handle the subjects for which they are best fitted.

I was speaking of the matter to a member of the State department recently, and he heartily approved of the idea, and made some suggestions as to the

proper method to work out the arrangement in this town most advantageously. He recommended taking the seventh and eighth grades from the building they are now occupying (where the lighting arrangement is very poor and, from the construction of the building, cannot, without a great deal of expense, be improved), to the academy building, where the large recitation room to the right as you enter the schoolhouse would easily accommodate the thirty-five pupils. By a proper arrangement of the seats, the light would come from the left and rear, making the lighting arrangement very nearly standard.

This would give six grades in the building and four teachers. Inasmuch as the secondary and elementary funds are now received from the State in one sum, there would be no complications arising where junior high school teachers teach in senior high schools and vice versa.

TRACK MEET.

On May 20, athletes from all the surrounding high schools gathered at Mountain Park to compete in athletic events for medals and a splendid silver cup presented by Principal Buckmaster of Brooklin high school to the high school in this district which should get the largest number of points two years in succession. The cup is of such a size and value that any college in the State would be glad to give it a prominent place in its trophy room.

I arranged the meet with the purpose in mind of fostering all forms of clean athletics, of giving every boy an opportunity to take part in some athletic event and thus get the benefit of the exercise and the discipline derived from contests of this nature, and also to inculcate a spirit of fair play which would inspire a boy to do all in his power to win for himself and school by every fair means, but if by chance he should lose to a better man, then, without any feeling

of resentment whatever, concede the spoils to the victor.

In this last respect, even my fondest expectations were exceeded, for the one outstanding feature of the whole affair was the good fellowship which prevailed. It was the cleanest contest or series of contests that I ever saw. Not once for the day was an official's decision questioned, and any ruling that was made was accepted, without comment, by the athletes.

Bluehill-George Stevens academy, with a well-balanced team, won the meet with 65 points. Brooklin high school was second with 38 points, Brooksville high third with 24, Sedgwick fourth and Sullivan fifth. Ray Bowden of B. G. S. A. won the individual cup, with 21 points, and Chester Flye of Brooklin was a very close second with 20 points.

The meet was such a success that it will be held again this year, with new features added, including a banquet for athletes and officials at the close of the contest, and some events added to the meet in which the girls may take part.

I wish to thank the directors of the Hancock County Fair association for their kindness in allowing the use of the park.

REPAIRS.

It will be seen that the repairs account is overdrawn this year, which is contrary to our usual policy, but it is easily explained, and under the circumstances we feel justified in overdrawing. As I mentioned in the first part of this report, the law requires us to attend to our outbuildings before September 1, 1924; therefore, as we have a large number of schoolhouses and only three years in which to attend to the matter, it behooved us to make a start right away, otherwise the whole expense would come at one time. So we took two schoolhouses this year where the outbuildings had to be repaired anyway, and arranged them

so they now meet the requirements of the law. The buildings which we took this year were the Grindleville school, at an expense of \$100, and the Witham school, at an expense of \$175. If it hadn't been for this special work, our repair fund would not have been overdrawn.

Hinckley school—At this school a new platform was built for the porch, the building was painted, and minor repairs made.

South Bluehill—The school grounds were graded, rocks removed, loam hauled, etc., so that now the children have a fine playground.

Witham—One side of the schoolhouse was shingled and the outbuildings moved to within ten feet of the schoolhouse, repaired, and a covered, ventilated passageway built in accordance with the requirements of the law.

East Bluehill—At this building general repairs were made and playground apparatus installed. A set of reference books was furnished the school.

Mines—The chimney was repaired and general repairs made.

The usual amount was expended for cleaning the buildings and outbuildings, insurance and supplies.

Some necessary repairs for the coming year: Improving sanitary conditions of several schoolhouses, for which we are recommending a special appropriation; Village schoolhouse should be painted; Morgan's Bay schoolhouse and woodshed should be shingled, also other repairs made.

BLUEHILL-GEORGE STEVENS ACADEMY.

The following teachers have had charge of the work in the academy this year:

A. S. Turner, Bates college, principal—Science, French and English

Hilda Packard, Farmington normal—English, history and teachers'-training course.

Mildred C. Hinckley, U. of M.—Latin and mathematics.

The State inspector of high schools recently visited the school, and reported that the work was progressing very satisfactorily, but that there were many things needed in order that the best results may be secured. He also made some suggestions regarding changes in the courses offered.

In the first place, the academy, with an enrollment of from sixty to sixty-five students, has no library whatever, no encyclopedias and no reference books. Even in Brooklin and Sedgwick high school, with an enrollment of thirty and forty-two students respectively, we have libraries. The one at Sedgwick has reached considerable proportions, having a large number of books, several sets of reference books and encyclopedias, as well as a reading table with eight or ten of the best magazines and periodicals each month.

The present arrangement, with the laboratory in one of the recitation rooms, isn't the best, but the way the building is constructed, it cannot very well be improved upon without considerable expense. However, it was suggested that one or two regular laboratory tables be purchased and some other special equipment be supplied.

For the past few years the trustees of the Bluehill academy and the George Stevens academy have found it difficult to meet the actual running expenses, such as instruction, fuel, janitor, repairs, insurance, etc., and consequently have had no funds with which to furnish necessary equipment.

The whole solution of this difficulty is the fact that the town is appropriating for high school tuition considerably less than one-half the amount it would be necessary to raise were there no academy here (with its income on its invested fund to use for the expenses), and consequently necessary for the town to

support a high school. It is also one of the reasons why our rate of taxation for school support is only .0079, when the average for the State is .01037. Some of the towns in this county, Franklin, for instance, with a valuation less than half that of Bluehill, has a rate for school support of .0164—over twice that of this town. The municipal tax rate of Bluehill is .035; the average for the State is .03815.

If the town were to run a high school for its fifty resident students, providing it owned a building to start with, it would cost for instruction, fuel, insurance, repairs and janitor service, at the very least calculation, \$4,500 a year. Of this amount it would receive from the State as a high school, \$500, making it necessary for the town to raise \$4,000 at least. In this district the town of Brooklin, with an enrollment of 25-30 students, raises \$2,300 for instruction, fuel and janitor service in its high school.

In view of all this, it seems that the recommendation of \$2,000 for tuition of the resident students in Bluehill-George Stevens academy is very modest.

For a number of years the academy has maintained a teacher-training course as the third course, and for so doing might receive an additional \$500 from the State, provided the school maintained an average of sixty students for the year, and that there were at least twelve students taking the course. The interest on the invested fund was also taken into consideration.

The course was not recognized by the State in any special way, as its graduates can get a permit to teach for only one year, and must then take the examination for a certificate the same as graduates from the two other courses. In fact, I think the graduates from the college preparatory course have a better foundation for teaching than those do who graduate from the English or teacher-training courses. The proximity of this town to a normal school where regular sessions and summer sessions are held, is another

reason why the training course here is unnecessary. Another argument against it is that it interferes with the work in the village grades, where the student teachers must do their observation work and actual teaching.

So, in view of these facts, it would seem wise to discontinue the training course at the end of this school year, and either introduce an industrial course or, by a readjustment of the subjects now offered, a third course could be arranged.

The principal's report follows:

BLUEHILL-GEORGE STEVENS ACADEMY.

PRINCIPAL'S REPORT.

February 11, 1922.

To the Superintendent of Schools of Bluehill, and the Trustees of Bluehill-George Stevens Academy:

I have the honor to herewith present my second report as principal of Bluehill-George Stevens academy for the portion of the current school year ending February 11, 1922.

Miss Hilda N. Packard and Mrs. Mildred C. Hinckley, as first and second assistants, respectively, have served faithfully and efficiently in their capacity, taking the same subjects as last year, with but one or two exceptions. At present, Miss Packard teaches first and second-year English, English history, general science, first-year geography and teachers'-training. Mrs. Hinckley teaches the four classes of Latin, and the geometry, senior mathematical review, and the first-year ancient history. I am teaching the three classes in French, third and fourth year English, first-year algebra and chemistry.

School commenced September 12, with an enrollment of sixty-five students, twenty-five boys and forty girls. Up to the present date we have lost four boys, one of whom was transferred to Ellsworth high school, while the other three voluntarily discontinued their attendance during the fall term. Two boys and six girls come from other towns, and are counted as tuition pupils.

In accordance with the expressed wishes of the trustees, the curfew regulation has been observed, as last year. There are points in favor of the regulation, and I think the general results have thus far been good.

ENROLLMENT BY CLASSES, COURSES AND SEX.

Courses.

Classes Year		Coll. Prep.	Eng. Sci.	General	Teachers' Training	Totals by Classes	
1	Boys	1	11	0	0	12	
	Girls	4	6	0	1	11	23
2	Boys	0	2	1	0	3	
	Girls	1	5	0	3	9	12
3	Boys	0	2	1	0	3	
	Girls	3	0	0	11	14	17
4	Boys	0	2	0	0	2	
	Girls	5	0	0	2	7	9
Total							61
Totals by Courses:							
Boys			1	17	2	0	20
Girls			13	11	0	17	41
			14	28	2	17	61

The foregoing tabulated form shows the enrollment by classes, courses and sex clearly enough, I think, to be easily understood. It brings out several rather striking facts regarding the popularity of courses as the students have named their preferences. For example only one boy is taking the college preparatory course with Latin, and that boy is a freshman from outside the village. The English scientific course is more evenly divided, having seventeen boys and eleven girls. The two boys classified under the head of the general course are boys who lack certain work required for graduation in either of the other courses, but who may make up enough points for graduation in other subjects. The teachers'-training course numbers no boys, but does include seventeen girls.

In the first selection of a course, the parent should be especially interested. In my opinion, the pupil should present evidence to the principal that it is his parent's wish that he enroll in a course, and certainly any change of studies or in his course should be subject to the approval of the parents and the principal.

The necessary new texts have been secured for use in several of the classes, but, whenever possible, the older texts have

been made to serve. New laboratory materials have been supplied for use in the chemistry class.

A chemical hood arrangement has been recently installed in one of the windows of the laboratory room, for use in the chemistry class. By this arrangement, poisonous and disagreeable gases resulting from certain required experiments are conducted out of doors, and with reasonable care they cause no discomfort to the members of that class, or to the remainder of the school.

For the reading room, the National Geographic Magazine, the Review of Reviews, American Magazine, Popular Mechanics, Pathfinder, Youths' Companion, American Boy, and the Saturday Evening Post have been provided by subscription from the pupils.

There is still the lack of up-to-date reference books for all the classes, and at this date there is no library collection available for exclusive school use.

During the fall term, one of the summer residents, Mrs. Weston, ordered from the United States Historical society, ten large engravings showing various American Colonial landmarks, and presented the engravings to the academy, with the request that they also be used for exhibition purposes in the other schools of the town when desirable. The collection is now in the book-room of the academy, but should be properly framed, or otherwise preserved, for the use of the schools.

For the fall term the attendance, for fourteen weeks, was more than 96 $\frac{1}{2}$ per cent. of the total enrollment.

During this year, as last year, the academy teachers have tried to keep the scholarship grades as high as possible, by devoting considerable time to makeup work with those students who have either failed in their work, or who have lost time because of sickness. We realize our limitations of time and strength, however, and must conclude that the responsibility for attending to this work must rest mainly with the pupil, since it is for his or her ultimate good that our time is thus spent. Attendance at the academy and membership in its classes is a privilege, and should be counted an honor, and we think that if the pupils realized this more definitely, they would take more actual pride in the marks of rank they show to their parents.

The usual rank cards are given to the students every half-term, and as these require the signature of the parent or guardian, to indicate that he or she has examined the grades of the child, we feel sure that the parent or guardian knows the progress the child is making. In addition to this, and to further

acquaint the parent or guardian with the child's rank, in case the pupil's rank is below passing or but slightly above, warning notes have been sent to them at the end of every fourth week following the closing of the ranks for the regular report cards. Beneficial results have seemed to justify the extra time it requires to prepare these warning reports. We believe that, to secure best results in the child's school work, nothing in the school itself can take the place of the right home influence and continuous encouragement on the part of the parents.

We wish to thank the citizens of the town for their interest in the school, as manifested by the more frequent visits. They are welcome at all times, either for the purpose of inspecting the work of the school or for conference regarding the work of any pupil in whom they may have an interest.

In conclusion, I wish to thank the superintendent of schools, the trustees, and the people of Bluehill for their assistance and hearty co-operation during this part of the school year.

Respectfully submitted,

ADIN S. TURNER, Principal.

GENERAL REMARKS.

At the end of the spring term the Billings school was discontinued, as there were only three children to attend. One of these children attends grammar school here in the village, another the Wescott school, and the other in the Witham district.

There are several small schools which have not maintained the required average this year, among them the Hinckley, Witham and Grindleville schools. As the children are small, we recommend that these schools be continued.

The Village Improvement Society, through its committee on education, has taken a great deal of interest in the schools this year. It has contributed toward the purchase of playground apparatus for the Village school, and during the winter term has paid for one lesson each week in music, taught by Mrs. W. L. Robison, in the grammar, intermediate and primary rooms. In behalf of the schools, I take this opportunity to thank the society for its help shown in such a

tangible manner, and to assure the society that it is greatly appreciated.

Another organization which has come to the aid of the schools throughout the State and nation is the Red Cross. I can cite a number of instances in this district during the past year where the Red Cross has purchased shoes and rubbers and warm clothing so that the children could go to school. It has also furnished food for the noon-day lunch in those schools where a hot lunch is served and the children unable to bring money for the purpose.

In conclusion, I wish to thank the members of the school committee for their helpful advice and co-operation, the selectmen and other town officials for their kindness and support, and the citizens for the splendid attitude they have always shown in all matters pertaining to the schools. For this moral support I am deeply grateful.

Respectfully submitted,

E. L. LINSOTT,

Superintendent of Schools.

RECOMMENDATIONS.

In accordance with our usual plan, we have made a budget for the coming year, placing a conservative estimate on the cost of each item connected with the schools and the estimated receipts. We recommend the following amounts to be expended under the different accounts for the ensuing year:

Common schools	\$4,500
Repairs	1,000
Repairs (improving sanitary conditions)	600
Text-books	875
High school	2,000

We are recommending \$500 less for common schools than was appropriated last year; the same amount for text-books. I have already explained the new law requiring us to attend to our outbuildings, under pen-

alty, so we are recommending \$600 for this special purpose, planning to take the Village schoolhouse and the East Bluehill building this year. If there should be any money left from the regular repair fund, we will use it to improve sanitary conditions at one of the other schoolhouses. The \$600 which we are recommending may not be enough for the work at these two buildings, in which case it will have to be supplemented from the regular repair fund.

WARRANT.

HANCOCK ss.

STATE OF MAINE.

To Walter E. Stover, a Constable in the Town of Bluehill in said county,

GREETING:

In the name of the State of Maine, you are hereby directed to notify and warn the inhabitants of said Town of Bluehill, qualified by law to vote in town affairs, to meet in town hall in said Bluehill on Monday, the 6th day of March, A. D. 1922 at 10 o'clock in the forenoon, to act on the following articles, to wit:

- 1 To choose a moderator to preside at said town meeting.
- 2 To choose a clerk for the ensuing year.
- 3 To hear and act on the report of the town officers for the past year.
- 4 To choose selectmen, assessors and overseers of the poor.
- 5 To choose a collector of taxes.
- 6 To choose a treasurer.
- 7 To see if the town will vote for one or more road commissioners.
- 8 To see if the town will fix the compensation of the selectmen, assessors, overseers of the poor, collector of taxes, treasurer, road commissioners, labor and teams on highway, by written ballot.
- 9 To choose all other town officers.
- 10 To see what sum of money the town will raise to defray current expenses.
- 11 To see what sum of money the town will raise for the support of its poor.
- 12 To see what sum of money the town will raise for repairs on schoolhouses.
- 13 To see what sum of money the town will raise for school supplies and text books.
- 14 To see what sum of money the town will raise for high school.
- 15 To see what sum of money the town will raise for common schools.
- 16 To see if the town will vote "Yes" or "No" on the question of appropriating and raising money necessary to entitle the town to State aid road, as provided in section 19 of chapter 25 of the revised statutes.

- 17 To see if the town will appropriate and raise the sum of \$533 for the improvement of the section of the State-aid road, as outlined in the report of the State highway commission, in addition to the amount regularly raised for the care of ways, highways and bridges, the above amount being the maximum which the town is allowed to raise under the provisions of sec. 18 of chap. 25 of the revised statutes of 1913.
- 18 To see if the town will raise money, and what sum, for the maintenance of State-aid highways during the ensuing year, within the limits of the town, under the provisions of section 17 of chapter 25 of the revised statutes.
- 19 To see if the town will vote to raise a sum of money to repair the Morgan's Bay road from the A. B. Leach residence to the Surry line.
- 20 To see if the town will raise \$500 to be expended in connection with the special resolve money received from the State, to finish the work begun on the Sedgwick road.
- 21 To see if the town will vote to fill in the waterway of the bridge at the Salt pond at Parker Point, provided the golf club would pay one-half of the cost, not to exceed \$800, and the selectmen and golf club could agree on specifications.
- 22 To see if the town will raise a sum of money to fill in the waterway of the bridge at Salt pond at Parker Point.
- 23 To hear and act on the engineer's report of the falls bridge.
- 24 To see if the town will vote to raise a sum of money to be expended on the Falls bridge, and what instruction it will give the selectmen in regard to the same.
- 25 To see if the town will raise \$350 to lay the dust in the village streets, provided the Village Improvement Society will raise \$150 for the same purpose, for the season of 1922.
- 26 To see if the town will raise \$610 to pay for patrol work.
- 27 To see what sum of money the town will raise for repairs on roads and bridges.
- 28 To see if the town will raise a sum of money for improvements in both cemeteries.
- 29 To see if the town will vote to raise \$120 to pay the rent of Bluehill academy.

- 30 To see if the town will vote to raise a sum of money to pay mothers' pensions.
- 31 To see if the town will vote to raise a sum of money to pay J. M. Snow's note and interest.
- 32 To see if the town will vote to raise a sum of money to fight forest fires.
- 33 To see what sum of money the town will raise for snow breaking, Memorial day, sidewalks, fire company, street lights.
- 34 To see if the town will vote to raise money to locate and purchase land suitable for cemetery, or choose a committee to report at next town meeting.
- 35 To see if the town will vote to discontinue the cross road in Seaside cemetery, leading by the Binder and Merrill burial lots. This land to be used for burial purposes.
- 36 To see if the town will accept the list of jurors as revised by the selectmen, town treasurer and town clerk.
- 37 To see if the town will authorize the school committee to make a contract with the trustees of Bluehill-George Stevens academy for the tuition of secondary pupils.
- 38 To see if the town will authorize the selectmen to make a temporary loan of \$4,000 if necessary.
- 39 To see if the town will vote a sum of money to build or buy a scow for the purpose of transporting gravel for road building.
- 40 To see if the town will vote to continue the schools at Grindleville, Hinckley and Witham districts.
- 41 To transact any other business that may legally come before said meeting.

The selectmen hereby give notice that they will be in session at their office at nine o'clock in the forenoon, on the day of said meeting, for the purpose of revising and correcting the list of voters.

Given under our hands this fourteenth day of February, A. D. 1922.

AUSTIN T. STEVENS,
WILLIS H. OSGOOD,
FRED S. HINCKLEY,
Selectmen of Bluehill.

A true copy. Attest:

H. A. SAUNDERS, Clerk of Bluehill.
