CITY OF GARDINER.

MAYOR'S ADDRESS,

ANNUAL REPORTS,

CITY GOVERNMENT AND JOINT COMMITTEES.

MARCH, 1900.

GARDINER:

THE REPORTER-JOURNAL PRESS.
1900.

Mayor's Address.

GENTLEMEN OF THE CITY COUNCIL:

The people have again elected us to rule over them and by that act they must believe our rule of the past year to be a just one. Politics sometimes in other cities play an important part, party lines are drawn and everything is done in the interests of the party. In our own city, politics do not enter into the affairs of the government, but all labor for the interest and benefit of the whole community.

I am pleased that most of the members of last year's government have been returned by the citizens of the different wards, and I trust that the same harmonious feeling which characterized the meetings of last year, will be present this year. Our records of the year gone by have been closed. Our official acts have been registered and whether the measures we have executed have been wise, it is for the future to decide.

Assembled as we are today to take upon ourselves the legal qualifications which are prescribed to empower us to enter upon the discharge of our duties, may we prosecute them only with the purpose of doing justice to all and injustice to none.

Nearly all of the heads of departments have kept within their appropriations. I would not sanction the expenditure of the public money without receiving its equivalent, and I believe we have received its equivalent this year. The tax rate of last year was reduced from the previous year, from

twenty mills to seventeen and seven-tenths mills, and I would be disappointed to see the rate increased this year.

A year ago in my address, I said our industrial and commercial interests had suffered from various causes, but to-day the prospects are brighter. A part of our hopes have been realized and our manufacturers are now enabled to do more business and with less expense.

For a statement of the standing of the city at the present time, you are referred to the Auditor's report.

| | | | | | | - | | |

I asked that the finance committee make a provision for the payment of the four thousand dollar bond due Oct. 14th, 1899, in the appropriation bill of that year, but no appropriation was made. The bond was paid, however, and also a six thousand dollar note dated Feb. 3d, 1897, and a temporary loan of last year of five thousand dollars.

POOR AND INSANE.

Overseers of the Poor and I think you will find a very satisfactory showing in that department. The superintendent and matron at the Almshouse have discharged their duties

in a faithful manner, and are entitled to the praise of the citizens and those who are unfortunately kept there. There are a few repairs to be made at the Almshouse and I would suggest that the government determine whether or not it would be advisable to purchase for the city some more land to be connected with the almshouse lot.

HIGHWAYS.

I learn from our street commissioner that there will be considerable expense in repairing our bridges the coming year. He estimates the cost of repairing grist mill bridge at one thousand dollars, Rolling Dam bridge at one hundred and fifty dollars and Rolling Dam bridge on Lincoln street at one hundred dollars. Perhaps the committee will figure the matter a little different. To keep thirty miles of sidewalk and sixty miles of road in repair will take a considerable amount of money if it is done as it should be. have purchased three more gravel lots for \$600, which should be provided for in the new appropriation bill. would recommend that a small appropriation be made each year for cutting down the small trees and bushes beside the That little matter would save us many dollars highway. on the snow bills.

Lumber this year will be high, and I would recommend that where it is possible, concrete walks be laid in place of using lumber. Owning as we will, plenty of gravel, it will lessen the expense of building materially. I am told also that concrete will last much longer than wood for sidewalks:

GARDINER AND PITTSTON BRIDGE.

We have received the amount due from Pittston on the bridge according to the decision of the Justice of the Supreme Court, to whom the matter was referred. There is some difference of opinion as to the amount Randolph should pay, but it will soon be determined. I wish to praise most highly the manner in which Mr. Morang has taken care of the bridge and I believe he is the right man in the right place.

COMMON.

Our Common has been well cared for the past year by Mr. John Walsh, and he has received many compliments from home people and strangers for his taste and skill in beautifying that popular resort.

PUBLIC LIBRARY.

The report of our library shows that those in charge have endeavored to keep within the appropriation. Some new books have been purchased and several old bills have been paid. The appropriation was the same as the previous year. The Finance Committee should give the association or institution as much assistance as possible.

FIRE DEPARTMENT.

We have been fortunate in regard to fires the past year. The department is in good condition and always will be as long as we have so good a man as Mr. Drake at the head. He not only knows how to look after fires and fire apparatus, but he also knows how to look after the financial end of his office and comes out within his appropriation. bas been some talk of a fire alarm system, and if anything is done you should get nothing but the best. You know better than I, whether such a thing is needed or not. August first and second the Veteran Firemen's Association of Maine will meet in our city, and something should be done to assist them in their efforts. It will bring a great many people and considerable money into town and we should encourage everything that will bring people, money and fame to our city.

POLICE DEPARTMENT.

This department has been conducted the past year in its usual excellent way. The officers have attended to their duties faithfully. At our Carnival and the Firemen's Muster they brought credit to themselves and to the city There has been less drunkenness and fewer tramps than for years.

HIGH SCHOOL.

The High School has been under the same management as last year, Prof. Powers and his assistants. The report of Supt. W. W Stetson, State Superintendant of schools, is a credit to the City.

COMMON SCHOOLS.

The State Superintendent gives some statistics concerning our schools which are highly interesting and gratifying to our people. Our schools are surpassed by few in the State and they surpass a great many. Mr. Barber, who has been our superintendent for three years has worked hard for the interest of the schools and I believe the citizens have appreciated his work. Appropriations for schools and school purposes should always be liberal.

A CITY VAULT.

My attention has been called several times to the unsafe condition of our books and papers, and I would recommend that a vault should be built for that purpose. I do not consider them safe where they are now kept, and in case of the loss of some of them by fire, the damage could never be estimated. I hope something will be done for their protection.

APPROPRIATIONS.

I believe as I did last year, that each department should have money enough to run it, and then keep inside of the appropriation, unless, of course, something unforeseen comes up.

ASSESSORS.

Today one of our assessors goes out of effice. Whatever public place you have put him in, he has done credit to himself and to our city. He comes to you the second time as a candidate for assessor and if you are wise, you will again elect John E. Cunningham as second assessor. He will do our business and do it right.

In conclusion I thank you and the citizens of Gardiner for the honor you have conferred upon me. May He, who has the All Seeing eye, who guides and controlls our Universe, guide and direct this body in the right and the interest of our city.

FREEMAN PATTEN.

Auditor's Report.

Although I have not been able to accomplish all I hoped to, I have a good deal of satisfaction in reducing taxes back of 1899 to so low a figure. Of course it is understood I cannot compel payment of 1899 taxes until October, 1900. It was a hard stint to collect 1898 taxes in eighteen months, for it presupposed the collection of all taxes back of that year, for I could not expect to settle for 1898 before previous years. "Hard times" or "good times" are, without doubt, important factors in the collection of taxes as well as other debts, and no one will deny that we have been passing through a period of hard times for several years, but it is cheering to note that there is a prospect of easier times in the near future. Respectfully submitted,

A. C. PAGE, Collector.

W. J. LANDERS, City Auditor.

In accordance with requirements of City Ordinance, Chapter XII, Sec. 5, we have examined the accounts of the several departments of the city government and find them correct and fully vouched for.

R. C. PLAISTED,

W. D. HARRINGTON, CHARLES LAWRENCE, G. D. LIBBY,

E. L. BUSSELL,

Joint Standing Committee on Finance.

City Physician's Report.

To Honorable Mayor and City Council:

I have attended three cases of confinement, one broken leg, had one hundred and forty-six office calls, and made two hundred and eighty-nine visits among city poor. Furnished medicine for some.

Respectfully submitted, W. O. COBB, M. D., City Physician. Gardiner, Me., March 1, 1900.

Report of Overseers of Poor.

To His Honor the Mayor, and Gentlemen of the City Council:

We herewith submit our annual report for the year ending March 1, 1900.

The number of inmates at Almshouse March 1, 1899, was 13; now there are 19, namely: John Reed, 80; Abijah Tripp, 71; C. H Lowell, 51; Prescott Waitt, 53; Lewis Gowell, 50; Minnie Gowell, 31; Parker Gowell, 11; Frank Gowell, 6; Eugene Gowell, 5; Lewis Gowell, 2; Patience Coy, 84; Charity Eldridge, 71; William French, 63; Louisa Connors, 61; Harriet Jacquith, 57; Carrie Sanborn, 42; John Nevills, 62; Olive M. Johnson, 21; M. S. Pickering, 65.

Only one has died at the Almshouse this year, Mary Wood, aged 62.

GEO. N. JOHNSON,
J. E. CUNNINGHAM,
D. J. LIBBY,
Overseers
the Poor.

Board of Health Report.

GARDINER, MARCH 1st, 1900.

During the past year there have been reported to the Board of Health ten cases of Scarlet Fever, three of Diphtheria, and four of Typhoid Fever. Small Pox occured in neighboring cities, and in common with other Health Boards free vaccination was offered the citizens of Gardiner. There were were seven hundred and thirty vaccinated. Quarantine regulations have been strictly enforced.

Very Respectfully Submitted, F. E. STROUT, Secretary.

Report of Superintendent of Schools.

To the Honorable Mayor, Aldermen and Common Council:

I submit to you the annual report of the condition and work of the Public Schools of the City for the school year 1899-1900.

The work of the schools for the year is a matter for congratulation both as to the quality of the work done, and the amount accomplished. A most commendable zeal has been shown on the part of both pupils and teachers, and commensurate results are to be witnessed in every department.

The spring term opened with an increased attendance in several of the schools, especially in the South Gardiner Primary, where the number of scholars exceeded the seating capacity of the room. An assistant teacher was provided for part of the term, as the regular teacher found it impossible to accomplish the work.

Several new books were introduced at the beginning of the term in the reading course. It has been my policy in the upper grades to avoid the conventional reading book, and provide a small book with sufficient matter for each term's work. This brings a fresh book to the pupil each term, and a new subject. This plan has created new interest in the general subject of reading, and proven very satisfactory in every way. The books introduced in this term completed the plan of work, and provided reading as well as instruction in Nature subjects.

This term also there was prepared for the Bookkeeping classes small books of blank receipts, checks, notes and

drafts and bill paper, so that in the course, actual business was done by the pupils with members of the class, as well as keeping accounts. Each pupil was taught how to make out a receipt and keep the stub; also how to make checks and what was the actual business use of both, a note and a draft. This work was a very satisfactory one to parents, and of large practical benefit to the pupils.

In May, the city celebrated the fiftieth anniversary of its incorporation with a magnificent carnival. Section fifth of the parade represented the schools of the city in the following order:

Chief of Division, Elliot B. Barber. Aids, G. D. Libby, Elwood Wilcox, S. D. Weeks, Gardiner Band. Then followed eleven floats, each one representing a school building, as follows: High School, Highland Avenue, Central Street Grammar, South Gardiner Grammar, Plummer Street School, New Mills Primary, South Gardiner Primary, Spring Street Primary, Winter Street Primary, Lawrence School, Libby Hill. Every one of the floats were handsomely decorated and represented some idea that was well executed. The work of preparing each float devolved on the teachers of each building and reflects great credit upon them for their taste and energy.

In the evening of the first day at the exercises in the Coliseum, a chorus of 150 voices from the Grammar Schools under the direction of the Supervisor of Music, Miss Gertrude Dinsmore, furnished part of the music for the evening. The spirited manner cellent expression of the children in their singing was most satisfactory to the great audience and elicited the hearty commendation of the Governor, who was present credit is due Miss Dinsmore for the splendid work which she did in training and managing the chorus, also in directing the singing. After the exercises, the children passed down into the auditorium, and were each introduced to the Governor by Chairman of the Board, Hon. O. B. Clason. One of the pleasant features of the evening was the fine rendering by the chorus of the flag song, words by Dr. Gertrude E. Heath, music by Miss Kate Vannah. It was a charming composition both in words and score, and was heartily applauded. The song has since been published by Silver, Burdette & Co.

On Memorial Day the children from the Grammar School formed a chorus and sang patriotic songs for the service in the Opera House. They did excellent work, directed by Miss Dinsmore, and their singing was greatly appreciated by the veteran soldiers and the large audience present.

Principal J. W. Chadwick, who had for nearly fourteen years been Principal of the Highland Avenue Grammar School, decided to go into business, and therefore in May resigned. Prin. Chadwick was a most capable teacher and thoroughly adapted to the work. His pupils were always well prepared to do the High School work, and his resignation was greatly regretted, both by the Board, the pupils of the school and their parents. Mr. L. W. Robbins, 1st Assistant in the High School, consented to take the school for the remainder of the term and did most satisfactory work.

The graduating classes from the several Grammar schools at the close of the spring term were superior in many ways to their predecessors and the graduating exercises were especially meritorious. The Highland Avenue class gave two pieces of statuary to adorn the schoolroom. The Central Street class also made a handsome contribution of the same character to the school. The South Gardiner graduating class presented the school with a set of books, the beginning of a school library.

The long vacation and the needed rest for both pupils and teachers after the year's hard work was heartily welcomed and the schools closed to open again Sept. 11th.

A large amount of repairing was done during the vacation. The interior of a number of the schools was not what it ought to have been, the walls having become soiled

or discolored. They were newly tinted, which with the pictures that had been given by the churches and other organizations of the city through the Committee on School Room Decoration, will render all the school rooms attractive and certainly brighter than they have ever been. flag pole was placed at the Libby Hill school and from the elevated position occupied by the school building the flag can be seen for a great distance. A new flag pole was also placed at the Lawrence school. A new furnace was placed in the Central St. Grammar school, and an old one thoroughly repaired. A new furnace was put in the Highland Ave. building, and the stoves and furnaces in all the buildings put in thorough repair. The Winter street school had long needed modern sanitary arrangements. The earth closet in use was a nuisance. Modern plumbing was placed in the cellar, and a new drain was built, about seventy feet long to connect with the sewer. grounds at the Plummer St school were most unsatisfactory. The land had been filled in with clay, and after a rain the school yard was a mass of sticky mud. During the vacation the grounds were given a covering of gravel about three inches deep; this soon packed, making an excellent surface which leaches the water and is hard and servicable. The South Gardiner school house was newly shingled and otherwise repaired. These and many minor repairs put the school buildings in excellent condition for the next year's work.

Nearly the same corps of teachers were elected for this year as served last. Miss Emma N. Billings was elected to the New Mills Intermediate school, in place of Miss Bertha L. Gay, and Mr. Seth Ellis Pope was elected as principal of the Highland Ave. Grammar school.

School opened Sept. 11 with a large attendance, but fortunately so distributed among the several schools as to cause no very great inconvenience in any of the rooms.

Practically the same course was laid out as for the preceeding year, and nearly the same list of text books in use.

The term was uninterrupted either by any great amount of ill health or any other unfortunate circumstances. The interest in the work by the people was especially marked, and the progress made in the several schools during the term was gratifying.

The term closed Dec. 15th for the Christmas vacation, and the winter term opened Tuesday, Jan. 2nd, Monday, Jan. 1st being a holiday. During the term but very little time was lost on account of snow storms or unfortunate weather conditions of any kind, and the schools closed with a good average attendance in nearly every room.

This year and indeed in the previous years that I have held the office of Supt. of Schools, through the generosity of the citizens and the ample appropriations made by the city government, the school department has been able to furnish its schools with all necessary books, supplies, appliances, &c. Some things desirable we have not been able to have, but the schools are well equipped for their work and in this respect will compare favorably with the best schools in the State and I doubt if any city of its size has more attractive and more appropriately decorated school rooms than ours, and school room decoration is not a mere matter of embelishment, but the character of the school room has an educative value just as truly as do books and maps. The health of the pupils has been good during the year and consequently the average attendance for the three terms is high. I have during the year visited each school twice each term, as required by law, and in many of the schools exceeded that number.

During the spring term the teachers were instructed in the work of Physical Culture by Miss Harriett Mathews of Augusta. Miss Mathews proved herself a most competent teachers and her classes were greatly enjoyed.

It seems most desirable, however, in carrying the work into the school room that a competent instructor should at least introduce the work and superintend it for some considerable time, until the work becomes familiar to the

pupils, so that all exageration of the exercises that result in laming or hurting the pupils and prejudicing parents against this phase of public school work might be avoided. The work of physical culture can be made of vast use, both in preparing the children to undertake the work of study and also in maintaining their health. If a teacher could be provided for a time to do this work, I feel confident that the regular teacher after some time could manage the work well and get excellent results from it.

The subject of drawing has received but slight attention in our schools, for what has seemed a very good reason, namely, the want of time. But I think that the time would be found for this work if there could be regular instruction given by a teacher thoroughly qualified for the work. Drawing as a study has large pedagogical possibilities and the results attained elsewhere warrant the judgment that we could profitably add this branch to our course as regular work and I hope that the way may be provided for this to be done.

The law making it possible for two or more towns to unite and engage the services of a superintendent who shall give his entire time to the work, is legislation of a most practical character. Many towns have availed themselves of this privilege and it has proven a most satisfactory arrangement. As the State pays half the salary voted by any town under this plan up to \$250, it is possible to engage a competent man at a small expense to the towns or cities so uniting. If Gardiner, Randolph and Farmingdale would form a union as made possible by this law, it would be greatly to the advantage of the schools in each place and mean but very slight additional appropriation for the item of salary, at the same time getting larger service from that officer on whom the prosperity of the schools so largely depends.

As this will be the last annual report that I shall make as Supt. of Schools, I desire to take the occasion to thank all those who have been helpful to me in fullfilling the duties

falling to me; to the citizens of the city for their many suggestions and words of appreciation; to Mayor Patten for his helpful council and practical assistance at all times; to my predecessor in this office, for the information he so kindly furnished me and for helpful suggestions in so many ways; to the School Board for its many kindnesses and its readiness ever to work for that which would tend to make better schools; to the tradesmen in the city with whom, without exception. I have had the pleasantest of relations and who by their upright dealing, good work and the first class material of all kinds furnished, have contributed a large share in helping to make good schools. I desire also to thank the teachers for their cordial co-operation in all the work undertaken and the faithfulness with which they have done the work planned for them, and I desire to remember here the many courtesies extended by the parents; also the cordial welcome ever extended by the scholars when I have visited the schools.

The report from the Principal of the High School and those of the Grammar Schools are here appended, showing the work done more in detail, also the financial report of the Superintendent. I think that the balance in favor of the department of the close of this year is the largest in the history of the schools, being \$615.88.

In laying down this office I do so with the consciousness that I have given much time and labored hard to fulfil the duties of the position and I feel warranted in saying that this labor has borne some results, in improving the course of study, accomplishing a larger amount of work in a year, and improving the quality of work in all departments. I leave the school property in excellent condition. The Gardiner schools I know will compare favorably with any in the State.

ELLIOTT B. BARBER.

HIGH SCHOOL REPORT.

To the Superintendent of Schools:

I herewith submit my report for the school year 1899 and 1900.

There were graduated in June 1899, seventeen pupils, ten of whom are now studying in colleges or Technical schools, while three have taken post graduate work in the High school. Those who are pursuing studies for which their High School course fitted them are: Hazel Berry, University of Kansas; John Bowie, Harvard University; Ernest Dearing, Scranton School of Architecture; Fred Dill, Draughting room of General Electric Co.; Ralph Hunt, Bates; Arthur Lewis, Gray's Business College; Edith Morrell, Boston Art School; Daniel Munro, Bates; James Pray, Bates; Martha Webster, Mt Holyoke College.

Seventeen were promoted to the Senior Class, and this number was augmented to nineteen by the admission of Jos. Woodword, a former member of the class of '97, and of Roy Meserve who entered on the recommendation of the Principal of Norway High School, where he had taken three years of the regular High School course. At the present time all have completed satisfactorily two terms' work of the Senior year.

Twenty-six were promoted to the Junior class, and Oakes Maxcy was admitted on testimonials from the Principal of Minneapolis High School, making twenty-seven in all; but as two have dropped out on account of sickness, there are at present only twenty-five in the class.

Twenty-one were promoted to the Sophomore class, and though some have dropped out, accessions from other classes have increased the number to twenty-seven.

Fifty-nine entered the Freshman class in September, and though six of them have left school, others have entered, and the class now numbers sixty-one.

During the year ending in March 1900, there were enrolled 169 pupils divided as follows:

| Graduates of | f 1899, | 17 |
|--------------|----------------|-----|
| Seniors, | class of 1900, | 19 |
| Juniors, | ·· ·· 1901, | 26 |
| Sophomores | ·· ·· 1902, | 27 |
| Freshmen, | ""1903, | 67 |
| Post graduat | es, | 3 |
| Specials, | | 10 |
| | | 169 |

This is I think the largest number in the history of the school. While a few of these did not remain through the fall term, all did stay the two weeks required by law for enrollment. The attendance was very good during the fall term, but the stormy weather of winter caused many who lived at a distance to be absent.

Thirty-one of our pupils come from Randolph, Farmingdale, Chelsea and West Gardiner, some of them having more than two miles to travel.

Two new courses have been added to the curriculum this year, an English Course requiring no foreign language, and a Business Course offering extended work in Commercial Arithmetic, Book-keeping, Shorthand, and Commercial Law. Eighteen pupils are now pursuing the latter course. But if this course is to be made available to these pupils a Shorthand teacher will be required daily in the future.

As the days began to shorten, the usual inconvenience of dark rooms was again experienced. This year, however, the walls and ceiling of room 1, always the darkest in the building, were repainted in a shade of yellow, which is restful to the eyes and which reflects much more light than the old and dingy blue-tinted whitewash did.

The book room back of room 1 has also been renovated and made into a light, cheerful and convenient recitation room for classes of ten. The other rooms of the building should be treated in like manner.

I wish also to reiterate my statement of last year that something should be done to provide a Physical Laboratory.

We are well provided for Chemical work, but have no facilities for the modern study of Physics.

Respectfully submitted, Wm. L. POWERS, Prin. of High School.

HIGHLAND AVE. GRAMMAR SCHOOL.

To the Superintendent of Schools:

I submit the following report of the Highland Avenue Grammar School for the school year of 1899 and 1900.

In May the resignation of Mr. J. W. Chadwick, to whose progressive policy and efficient management, extending over a period of nearly fourteen years, is due in a great measure the improved condition of the school, deprived the city of one of its ablest and most popular teachers. Mr. Robbins, however, completed the work of the term in a most satisfactory manner, and in June thirteen pupils were graduated, the exercises being held in the Methodist church, in order to give an opportunity for all who desired to attend. A bust of Lincoln and a statue of Minerva were presented to the school by the graduating class.

I began my duties as Principal in September. There were enrolled 94 pupils as follows: IX grade, 9; VIII grade, 21; VII grade, 29, and VI grade, 35. In the fall term the average attendance was 88, and in the winter term 91, the crowded condition of the rooms interfering semewhat with recitations and causing considerable discomfort in all departments. It is to be hoped that the present City Government will consider it advisable to take immediate steps toward better accommodations for this school, the capacity of the building being inadequate for even present needs.

The health of the school as a whole has been unusually good, the attendance being above the average.

The course of studies was practically the same as in the previous year. With but few exceptions the pupils have shown a commendable desire to do their work thoroughly and promptly, and, as a whole, we have made good progress. In Miss Day's department great interest has been taken by the pupils in the course of reading from nature. Her work in Language and Composition has also been in a marked degree successful.

During the winter term Miss Day established a school bank. It has prospered from the first and will uudoubtedly prove a permanent success.

Our school library is sadly in need of new books. It is my intention as soon as possible to devise some means of increasing the number of volumes—believing that the habit formed in youth of reading good books is continued through life.

I desire to express to you my sincere gratitude for your many acts of kindness and good wishes for my success; to the Board for their trust in me and ready support; and to the scholars and parents for their continued interest in the school.

Respectfully submitted, S. E. POPE, Prin.

CENTRAL STREET GRAMMAR SCHOOL.

To the Superintendent of Schools:

In June 1899, 25 pupils graduated from Central Street Grammar School, 13 boys and 12 girls, 20 of whom entered the High School in September. There were 24 promoted to the 9th grade, 34 to the 8th grade, 42 to the 7th grade.

The school year of 1899, 1900, opened with 27 pupils in the 9th grade, 35 in the 8th, 50 in the 7th, 52 in the 6th; a total of 164, one more than last year.

The work done covers practically the same ground as that of last year. The teachers still feel the need of a revised Course of Study. The last one printed is so unlike that in actual use, a teacher derives very little help from it.

Experience has proved to the teachers in the higher grades that it is not wise to place a text book in grammar

or "Lessons in English" in the hands of young pupils. We find a hazy knowledge of a subject adapted to mature minds, a hindrance to later work in it. It would be better if all teaching on this subject were oral in grades below the 7th.

During the year some progress has been made in the decoration of rooms. One picture has been placed in Miss Parshley's room by the School Room Decoration Committee this year, and one, "Washington Crossing the Delaware," in Miss Rogers' room. Through the influence of this Committee the Library Association gave a copy of Hovendon's "Breaking Home Ties" to the school.

The class of '99 gave an entertainment just before graduation, and the proceeds, \$35, were used for framing this picture and for buying statuary. The class selected a bust of Washington and two bas-reliefs of Del Robbias' "Choir Boys." These add much to the attractiveness of the principal's room, and form a pleasing memorial to the class of '99, C. S. G. S.

During the summer vacation, the walls and ceilings of the Central street building were beautifully tinted, the shingles on the roof patched, one new furnace put in, and the old one repaired.

Two other needs still exist; new single desks, and a new hard wood floor. No decorations or improvements can make really comfortable and healthful rooms until these changes have been made.

CLARA M. BURLEIGH, Principal.

March 2, 1900.

REPORT OF THE MUSIC TEACHER.

Rev. E. B. Barber, Supt. of Schools:

I take pleasure in giving to you my second annual report of the work in music.

In all the schools an earnest effort has been made to

obtain in the singing, both of exercises and songs, a full, round quality of tone, without the straining of the voice in the harsh, discordant sounds, which children are apt to give. The improvement in this respect has been very marked in some schools, where the pupils themselves are becoming critical, and do not like to hear loud, unmusical singing.

A course in the principles of music has been planned for the schools and has been begun in most of them. Definitions of the characters used in musical notation and the transposition of simple exercises from one key to another has been accomplished with success.

Marked improvement is noticable in the tacility with which the lower grades sing new music correctly. As children grow older, they become more self conscious, and hesi ate to attempt what they are perfectly capable of doing.

In the Grammar grades, special improvement has been made in those classes where the teachers have required the pupils to work as conscientiously during the music period as they require them to work during any other period. The fact cannot be disregarded that this degree of excellence is not as general as it ought to be. Still the per cent of pupils who are singing now, is larger than a year ago, and that fact is an encouraging gain.

The weekly programs of work have been given this year as last, and have been of great help in keeping classes of the same grade together.

A good deal of individual work has been done and the number of pupils in the lower grades who cannot sing is steadily decreasing.

Songs have been given from the best Kindergarten and Children's song books, and supplementary songs have been given in the higher grades. In this connection I would say that copies of song books have been placed on the teacher's desks in each building, so the teachers may be able to select such songs as they may wish to use.

Books containing songs arranged for male voices have

been purchased for the use of the boys in the Grammar grades.

Much time during the last of the spring term was spent in drilling choruses for Decoration Day, the Carnival and the graduation of the Grammar classes. We had the pleasure of using a patriotic song, written for the Gardiner school children by Dr. Heath and Miss Vannah.

The graduation music was faithfully practiced and was rendered with excellent expression. I think it better to select simple music and have it given with taste and finish, than to select difficult music which is beyond the ability of the pupils, and have it given in a crude manner.

The work of the year has been pleasant and satisfactory in many ways, though I am striving always to bring it to a higher standard.

Respectfully yours,
GERTRUDE DINSMORE.

Chief Engineer's Report.

To the Honorable Mayor and Board of Aldermen of the City of Gardiner:

I herewith submit my report of the Fire Department for the year ending March 1st, 1900:

FIRES.

March 17th. Alarm at 9.15 o'clock P. M., house of Daniel Dailey, Spring St., occupied by Augustus Wakefield and son; cause, lamp explosion; Damage to house, \$412.50; insured; damage to contents, \$1,193.00; insured. Department all out; worked 1 hour, 45 minutes.

April 8th. Alarm, South Gardiner, slight fire at Richards Paper Co. mill; no damage.

April 17th. Alarm at 4.20 P. M., fire at shingle shed of H. W. Jewett; cause, sparks from Robbins' Foundry. Damage slight, Dept. not needed.

May 10th. Alarm at 7.30 P. M. Slight fire at Joseph Libby's shop. No damage; cause, sparks from chimney.

May 19th. Alarm at 10.10 A. M. Fire at Ewer house, Spring street. Damage slight; cause, over heated stove. Dept. all out; insured.

May 27th. Alarm at 9 P. M. House of Charles Elwell, Central St. Cause unknown. Damage, \$500; Insured. Dept. all out; worked 1 1-2 hours. Extinguished by steamer.

July 6th. Alarm at 10.15 P. M. Fire at Chelsea: Alarm needless. Dept. all out; did not leave the city.

15th. Alarm at 12.30 P. M. Fire at house of Joseph McDonald, Highland Ave., corner Plaisted street. Loss,

total; cause unknown; Dept. all out. Fire extinguished by steamer. Dept. worked 1 1-2 hours; damage about \$1,500.

July 20th. Alarm at South Gardiner at 3.30 A. M. Fire at Hotel Blanchard. Cause unknown. Damage, building, \$1,500; furniture, damage \$500; insured.

Aug. 10th. Alarm at 6.45 P. M. Fire at house of Peter Cregan, West St. Alarm needless; no damage.

Oct. 4th. Alarm at 9.30 P. M. Fire at P. A. Houlehan's store, Water street. Cause, defective chimney; Loss \$1,872.00, insured. Dept. all out; worked 1 hour.

Oct. 31st. Alarm at 8.30 A. M. Fire at Tower house, Central street. Alarm needless Cause, careless placing of clothes near stove; damage slight.

Nov. 28th. False alarm at 7.15 P. M.

Dec. 13th. Alarm at South Gardiner at 10 P. M. Fire at Kindling Wood Factory. Alarm at City, 12 M. Cause, unknown; loss total. Department all out; worked 7 hours; insured.

Jan 23d. Alarm at 7.15 P. M. Cause, chimney burning out, at Woodward house, Highland Ave. Alarm needless.

Feb. 5th. Alarm at 8 A. M. Burke's saloon, Maine avenue. Cause, electric light wires. Dept all out; fire extinguished with chemicals; damage slight.

Feb. 7th. Alarm at 2 20 P. M. Fire at High School Building, incendiary. Dept. all out; not needed. Fire extinuished with chemicals by Hose 5. No damage.

DEPARTMENT HOUSES.

The different houses are in good repair except the steamer houses at South Gardiner and New Mills. These houses need considerable repairs which should be made this year.

During the past year the house of Hose 5 was moved from Lincoln St to the ('ity lot on Liberty St. This made necessary the building of a store house for the Company, making it very convenient for the Company.

APPARATUS.

Our apparatus is in its usual first class shape. Five uundred feet of new double hose has been added the past year, keeping amount of good hose up to 8,000 ft. No hose need be purchased this year. A new hose wagon has been procured for the Alert hose, also a new pung for Spear Hose, so that all our Companies are now provided with the same apparatus.

The steamer City of Gardiner has had extensive repairs made this year, and is now in first class shape. The different Companies are provided with all needful equipments.

I would recommend the purchase of an Eastman Deluge Set, as I consider it one of the most useful pieces of fire apparatus now before the public. It could almost do away with the need of the steamer on Highland avenue and vicinity, and would be invaluable for use in the business part of our city as its immense stream would hold in check any fire that we would be likely to have, and connected to a hydrant on the high levels it would increase the pressure at least one half. Our small fire extinguishers have proved their usefulness on several occasions, preventing fires in some of our most dangerous localities. Several more should be added to the Department.

The fire whistle and telephones continue to give satisfaction. I would not advise the adoption of an automatic fire alarm system. I can see no great benefit to be derived from it where men and horses are not kept in our houses, so as to be available at all times. Our firemen now get out as quickly as they could with the system. It is only when a central station with men and horses are kept that the automatic alarm The \$1,500 first cost and the does its work satisfactorily. \$200 or \$300 yearly cost for care would be much better spent in keeping up the present effective Department, and in increasing our water supply. Our loss by fires this year shows larger than usual owing to the total losses. Donald house on Highland avenue could not be saved owing to the pressure being so low on the hydrant that no effective

work could be done until the arrival of the steamer. The Hotel Blanchard, South Gardiner, almost total owing to the inability of the steamer company to get water on account of the tide being unusually low at the time. The Kindling Wood Factory at the same place, although furnished with every equipment for preventing and extinguishing fire, and in spite of the efforts of the firemen was a total loss, caused by the construction of the building and nature of business. We were also unable to learn anything about the amount of insurance paid, bringing our loss up to more than the real total loss.

The best teeling prevails among the firemen, and all strive to do their whole duty. An examination of their work in saving property for the last five years will show I think as effective as any department in this State.

I wish to extend the thanks of the Department to His Honor Mayor Patten and the members of the City Government for their support on all occasions.

Respectfully submitted,

C. M. DRAKE, Chief Engineer.

CHIEF ENGINEER'S FINANCIAL REPORT.

C. M. Drake, Chief Engineer, in account with City of Gardiner, March 1, 1900.

Respectfully submitted,

C. M. DRAKE, Chief Engineer.

City Marshal's Report.

To the Honorable Mayor and Board of Aldermen of the City of Gardiner:

I herewith submit my annual report of the business transacted in the Police Department for the municipal year ending March 1st, 1900.

Whole number of warrants were 392.

Intoxication, 340.

Assault and battery, 4.

Threatening bodily harm, 1.

Affray, 1.

Larceny, 16.

Disturbing peace, 2.

Search and seizure, 2.

Libel and monition, 2.

Keeping open shop on Lord's day, 2.

Driving in excess of contract, 1.

Single sale, 1.

Vagrant, 13.

Entering and stealing, 1.

Fornication, 1.

Loitering around depot, 2.

Resisting officer, 1.

Violating City Ordinance, 1.

Search for stolen goods, 1.

Of these during the year there were

Committed to jail, 74.

Sent to Togus Home, 95.

Sent out of County, 86.
Put on probation, 49.
Paid fines, 69.
Acquitted, 6.
Bound over to Superior court, 6.
Cases dismissed, 8.
Carried to Insane Asylum, 4.

Injured persons cared for, 3.

Lodgers at station, 361.

Teams recovered, 1.

Arrests for out of town officers, 5.

Lost children found and returned, 2.

Stolen property recovered, \$450.

Stores found open and cared for, 32.

Goods left out and cared for, 10 times.

Females arrested, 6.

There has been a great falling off of the number of tramps from last year. This has occurred mostly since last spring. From June very few have applied for lodgings. If this state of things continues, the tramp will make but small showing in our next report, for more than one-half of the lodgers reported were put up during March and April of 1899. During March, 1899, seventy-five were cared for, while this month but twenty-eight have applied so far, and this is usually the busy month. I think people can congratulate themselves that the tramp is passing away.

The past year has been one that has called for an unusual amount of work from the Police Department, owing to our Carnival and Muster, but it was attended to without assistance from outside, and with little extra cost to the city. That the police were unable to protect all persons from sharpers on the day of our great parade, is not against them, as the demands on our small force was so great that the starting of the parade gave to the thieves an opportunity. But they were soon located and driven from our city. At times like the past it is not good judgment to

rely wholly on a local force. A few experienced officers should be employed.

No complaints have been made to the pelice but have been promptly attended to, and in nearly every case the guilty person arrested and brought before the court.

The stations are in good repair and the appropriation sufficient for all purposes.

I would recommerd some regulation about people on Water Street placing bundles of hand bills before their stores, as boys and careless people tear them down and they cause most of the loose paper that disfigures our street.

I would also recommend a separate ordinance forbidding the riding of bicycles on our sidewalks and on the Common under a penalty of at least two dollars and costs. The present section of Chapter XXIII, Sec. 7, places bicycles in the list of teams, hand carts, wheelbarrows, &c., and ends with "so as to prevent or incommode the passage of persons," making it a question of incommoding some one when it should positively forbid. Also one ferbidding the racing of teams upon our streets under a fine of five dollars. The present section of the same Chapter simply says "on the run or other immoderate speed." Racing should be specified, as two truck teams could race and endanger the public without immoderate speed.

The business of the Department has been conducted economically and the appropriation was sufficient for regular expenses. I know of no extra expense that will occur this year. Respectfully submitted,

C. M. DRAKE, City Marshal.

CITY MARSHAL'S FINANCIAL REPORT.

Respectfully submitted,

C. M. DRAKE, City Marshal.

City Solicitor's Report.

To the City Council of Gardiner, Gentlemen:

Business in my department has been quiet for the past year, and outside of the settlement of the bridge claim, due from Pittston, nothing of note has transpired. Several important matters concerning the interests of the city have been submitted to me, and also many matters of minor importance. The question of how much Randolph is to pay on the bridge is unsettled, but will soon be decided. The matter of valuation on property of Kennebec Heat & Light Co. will soon be determined. I would advise that the assessments be made very carefully, and every little legal detail be followed, especially in making the entries upon the valuation book.

Very respectfully,

WILL C. ATKINS, City Solicitor.

Vital Statistics.

Deaths registered in the city of Gardiner for the year ending December 31, 1899.
