### To the Inhabitants of Jackman Plantation

We submit herewith the Annual Report of the financial condition of the Plantation of Jackman for the fiscal year ending, March 1st. 1943.

Included in this report are those of the Selectmen, Overseers of the Poor, Road Commissioner, Treasurer, Auditor, Health Nurse, Superintendent of Schools and the complete audit for the year ending March 1st, 1942.

The Plantation Officials have co-operated at all times and have done their best to keep all expenses at the lowest possible minimum in spite of the many unforseen circumstances which have arisen, that were not anticipated at the beginning of the last fiscal year. The Overseers of the Poor have completed a very trying year being faced not only with the higher cost of living, and the difficulties in securing the necessities for the Paupers, but with much sickness and death. They were obliged to give up the Food Stamps which had been a great help but was discontinued on February 1st, for the duration.

In the "all-out war effort" which has added many extra burdens and responsibilities on Plantation Officials we wish to take this opportunity to thank any and all Inhabitants who may in some way or another contributed in easing the tasks set before us, whether it was in Civilian Defense, in Rationing, in Collection of Scrap, in Selective Service Registrations or in any of the many tasks assigned us, all your services have been and are greatly appreciated.

The Life of the Plantation will no doubt encounter a difficult year ahead just as will the Civilian Population; however with the splendid support and cooperation of its Inhabitants we feel its work will be agreeable and beneficial to the community at large.

May we take this opportunity to thank all Inhabitants for their every consideration and fine support during the past year. We also wish to pay high tribute and dedicate our every effort and service to the many boys who have left us to serve in some branch of the Armed Forces. The Plantation is indeed proud of them and their records and glory in any honor they may attain.

Respectfully submitted,

RALPH J. LETOURNEAU EDWARD H. GILBERT LEONARD J. HALL

### Report of Overseers of Poor

#### PAUPER ACCOUNT

Due to unforseen circumstances that arose during the year you will note that the Overseers of the Poor were forced to overdraw this account a substantial amount. Sickness and death of three town plaupers augmented the cost to a great extent, plus the higher cost of living which affected some of our town cases similarly. However in the face of these emergencies the Overseers of the Poor, have tried to keep all expenses at a minimum and respectifully submit the following report to the Inhabitants of Jackman Plantation.

#### AID TO DEPENDENT CHILDREN

Appropriation	\$ 156.00	
Paid State Treasurer	\$	206.33
Amount overdrawn	50.33	

This account was overdrawn due to the fact that the Larochelle family was placed on to Aid to Dependent Children on September 1st, 1942; thereby relieving the Town Pauper Account. The overdraft was taken care of through the Miscellaneous account.

Because of the many demands made upon them this year, this has been a most unusual year for all schools. I am glad to say that our teachers have met these demands promptly and efficiently. Rationing, Salvage drive, Stamps and Bond sales, new courses, Schools at War Program, and High School Victory Corps have been handled efficiently and well by teachers and pupils alike. At the same time the regular class work has been kept going as usual.

We were sorry to lose (Miss Siteman from the High School but were very fortunate to obtain Mr. Ernest Fuller to teach the English Course. Mr. Fuller has had wide experience in school work and has made a place for himself in the school and community.

After a short interval in the Fall we were glad to welcome Mrs. Alice Hennigan Moore again to the Primary room.

Principal Erskine runs the school efficiently and is a kindly, able administrator. Miss Curtis, loved and respected by townspeople as well as pupils, teaches a commercial department that functions—one of which we can be proud.

Mrs. Johnston in the Grammar grades knows the needs of each pupil and administers to them thoroughly and efficiently.

Although I am as yet a newcomer to the town, I have found that Jackman has what it takes to make a good school—a group of lively, alert pupils and good teachers to guide them. Let us try to keep this situation from year to year since a good education is now needed more than ever before in the history of our country, if we are to preserve our present form of government and our ideals.

#### SCHOOL LUNCH

Because of the lack of a suitable place for serving, the School Board thought it wise not to continue the Lunch Program this year. With surplus commodities still available, I feel that some effort should be made to provide a suitable lunch room near the school so that pupils may avail themselves of its unquestioned benefits.

#### REPAIRS

On the whole the school building is in good general repair. There have been repairs of a minor, routine nature, such as a windbreak for the front porch, an asbestos shield over the furnace, etc. The windows of the Station School have been boarded up to protect the glass and the inside of the building.

About the same amount of money should be raised for repairs this year as it is cheaper to keep a building in repair all the time than to wait until some big job needs to be done.

#### ESTIMATES

It is difficult to estimate costs in a time of rising prices. No one needs to remind you of the increase in cost of living. Fuel will cost more. Supplies will cost more. Every effort will be made to keep cost down consistant with good educational practices but I am sure that the citizens of Jackman wish to maintain their schools at the present levels of efficiency. In order to do this I feel certain it will be necessary to raise considerably more than last year.

The amount asked for has been approved by the School Board and the Budget Committee.

Respectfully submitted,

GLENN M. ROBINSON

## Report of High School Principal

To the Superintending School Committee and Citizens of Jackman:

Herewith is my second annual report. School opened Sept. 8th with an enrollment of fifty pupils.

Resident 31, Tuition 19, Boys 32, Girls 18

First year	Girls	6	Boys	13	Total	19
Second year	Girls	2	Boys	5	Total	7
Third year	Girls	1	Boys	2	Total	3
Fourth year	Girls	9	Boys	11	Total	20
Post Graduate			Boys	1	Total	1

College Preparatory Course	4
Commercial Course	6
General Course	40

Only those taking all college subjects offered and those taking all commercial subjects offered are classed as straight College Preparatory or straight Commercial students. Those taking a combination of both are classed as General students.

Three pupils have moved from town recently and three have left school making the present enrollment forty-four pupils.

Jackman High School has participated in the Schools at War Program. A High School Victory Corps has been formed with an Adult Advisory Committee consisting of Supt. Glenn Robinson, Mrs. Ralph Letourneau, Mrs. Thomas Nichols and Mr. Alfred Heald. This Corps has collected twelve tons of scrap, over two thousand old keys for the Keys for the Bomber Drive and has sold \$623.80 worth of War Savings Stamps and Bonds. The pupils and teachers in both Grammar and Primary Schools have made substantial contributions in both the Key and War Savings and Bond Campaigns. It is planned in the future for

high school pupils to sell stamps and bonds throughout the entire Jackman area the last week of each month. Thus far this sale has been limited to pupils in the high school building only. The School Cashier sells each Wednesday morning to pupils. On Feb. 10th \$268.90 worth of stamps and bonds were sold. For the weekend of the Key Drive, Jackman led the state.

Some changes have been made in the curriculum to meet war time conditions. These changes have been strongly recommended by the State Dept. of Education. Preflight Aviation and Elementary Physics have been introduced as new courses. A sincere attempt is being made to give a practical training which will be of real benefit to each boy and girl. A physical Fitness Program will be added also.

The School Fair, Play, and Winter Carnival have been very successful. Much credit is due Langdon Holden for the excellent help with boys basketball. The boys have done very well.

Attendance has been very good. As yet no epidemics have interrupted the work. Most parents seem to realize the value of 100% attendance and that the loss of even one half day's schooling can never be wholly recovered. In the case of sickness or other real emergency, teachers are glad to assist pupils in making up work. Naturally, for unnecessary absences, you cannot expect teachers to put in extra time and work for pupil makeup work. Most parents send written excuses giving exact reason for absence promptly.

Good progress has been made in the various subjects and pupils are realizing more and more the value of serious work as preparation for their adult life. Opportunities for good paying jobs abound for those who have really worked hard on their school subjects. Parents in a few cases can help a great deal by encouraging pupils to get to bed at a reasonable hour during the school week. A well rested pupil derives much more benefit from school work. Most educators are agreed that it pays very well for parents to check up on pupils' evening activities although under modern conditions it is not easy. pupils are a likeable and well disposed group with considerable energy and enthusiasm-valuable assets if used wisely. It is our aim to try to fit them to earn good livings and to become good law abiding citizens with respect for organization and authority. They will have their share in a big job-the building of a different and better world.

Mr. Ernest Fuller, the only new teacher in the high school has had excellent training and experience. Both Miss Curtis and Mr. Fuller are doing splendid work and are working for the best interests of the pupils. Teachers' days, always full, now more than ever, are packed with details to look after due to various war time duties. All additional activities are accepted cheerfully.

The Superintendent and School Board have been very helpful.

Parents and townspeople have been cooperative and very generous in supporting the school.

I wish to express my thanks to those mentioned above and also to the many others who have in so many ways helped the school during the past year.

Signed:

M. M. ERSKINE

Principal Jackman High School

## Report of Public Health Nurse

Do you know how to use your public health nursing service?

Let us review what it may give your community.

If you or any of your relatives or friends are expecting to be a mother in the near future, get in touch with the nurse. At this time, she will weigh the expectant mother, take her temperature and discuss various phases of health and answer the many questions that arise during this period. If her physician wishes it, her blood pressure will be checked each month.

After the baby is born the nurse will continue her visits to help the mother with feeding problems, habit training, nutrition, and advise on immunizations. When this child becomes a school child, it is hoped that he will be a happy, healthy one.

In the schools, the nurse helps the teachers and superintendent plan the school health program. She will plan to do the audiometer tests (hearing tests) every other year. The teacher will do the vision tests and then the nurse will retest those children who show any marked defect. The teacher, in her daily observation of the school child, notes signs and symptoms. These are discussed with the nurse, who then visits the home to discuss plans with the parents for having the child seen by the family physician.

The clinic service offered by the State Department consists of a Crippled Children's Clinic and Pediatric Clinic. In this area, these clinics are held in Waterville. The children are referred to these clinics by the family physician and are examined by specialists and their recommendations are sent back to the local physician. These services are free.

Various other projects may be had as smallpox, vaccination clinics, diphtheria toxoid immunizations and tuberculin testing. Child Health Conferences may be held and each child is given a physical examination by a physician paid by the State Department. Each section is given the opportunity of using the x-ray

clinic yearly and here those persons having a positive tuberculin test may be x-rayed for \$1.00. Laboratory services are available.

Health pamphlets on every phase of health may be had on request. Films of many health topics are available free of charge for school programs or local clubs.

This year the American Legion Auxiliary again very efficiently sponsored three Child Health Conferences where forty-three children were examined by a physician. Smallpox vaccinations and diphtheria toxoid was offered at these conferences and also at the immunization clinic. Tuberculin testing was done this year at the convent. The audiometer (hearing) tests were done at both the convent and public schools. There is no permanent health committee but Mrs. Thomas Nichols has been very helpful as Chairman for the Auxiliary. Such a permanent committee would greatly benefit the community by directing the health program and interpreting health needs to the nurse. Miss Bryant, dental hygienist, and the nurse met with the school board to discuss plans for a dental health program in the schools but no decision was reached. An x-ray clinic is scheduled for this spring. The routine home visits have been done as usual this year.

More than ever before, with the war emergency, each individual should take advantage of every opportunity for acquiring and keeping maximum health. Make your community health needs known. The nurse is in Jackman for one week each month. You may get in touch with her by writing her office in Skowhegan or leaving word with the town clerk, asking her to call the next time she is in town.

MISS VERA CONNER.

Public Health Nurse

## Report of Audit

To the Inhabitants of Jackman Plantation:

Following instructions from your Selectmen, I have made an examination and audit of the books and records of your Plantation for the municipal year ended February 28, 1942.

The following Exhibits and Schedules cover the result of my audit.

Exhibit A-Comparative Balance Sheets

B-Treasurer's Cash Statement

C-Collector's Report

D-Summary of Plantation Accounts

Schedule 1-Reconciliation of Treasurer's Cash Balance

2-Uncollected Taxes

3-Analysis of Changes in Net Debt

4-Overdrawn and Unexpended Balances

5—Abatements

6-Accounts Receivable

7—Trust Funds

8-Notes Payable

9-Bonds

Although it means additional expense to the Town for registered mail, I would recommend that your Treasurer make deposits at more frequent intervals, and that each deposit cover a specific group of receipts, so that the account can be more easily reconciled at the end of your fiscal year. It has been, and now is, the practice to cash checks for different people, thus eliminating the necessity of sending currency through the mail. Banking is done at Guilford. Deposits have not been made until sufficient outside checks have been cashed to avoid depositing currency. Even if it does cost more, your Auditor believes the above recommendation should be carried out.

I HEREBY CERTIFY that to the best of my knowledge and belief this Report properly reflects the true financial condition of your Municipality on the above date.

Respectfully submitted,

JOHN L. THOMAS
Public Accountant
