## Mayor's Report

---

In accordance with the usual custom, I herewith submit a review of the affairs of the City of Waterville for the municipal year ending January 31, 1923.

In making this report I shall not attempt to suggest any special matters which will require the attention of the incoming city officials but shall confine myself to a brief report of what has been accomplished for the people of Waterville during the year which has just come to a close.

### NEW JUNIOR HIGH SCHOOL

On March 13th, 1922, the city government authorized the appointment of a committee for the purpose of investigating the needs of additional school buildings and to make a report on same. This committee on taking the matter up with the school board found that at the beginning of the school year there would be about 489 scholars who could not be accommodated for more than one year with the present housing facilities. Due to the fact that the school board had unanimously recommended the Junior High School plan on the 6-3-3 basis this committee reported to the city government meeting on April 4th, that in their judgment the city should commence the construction of a New Junior High School building at the earliest possible date. At this meeting the following building committee was selected:

Arthur G. Picher	F. Harold Dubord	Otto N. Larsen
Harry A. Tozier	Wm. J. Murray	David P. Vigue
Mrs. Geo. D. Hegarty	Mrs. Fred W. Merrill	Mrs. Sadie Robitaille
Mrs. Ora A. Meader	Mrs. Geo. A. Johnson	

with the Mayor as chairman. Several meetings of this committee were held, various sketches of school buildings were examined, and in May, Horace True Muzzy was selected as the architect. The committee have felt that this was a very wise choice. The services of Mr. Muzzy have been of the very highest character, and as a result, the city is getting one of the finest school buildings in Maine, and one I believe every citizen of Waterville will be proud of.

The building is constructed of brick and cast stone. It has seventeen class rooms with a seating capacity of 570. A Domestic Science Department, Textile Department, Automobile & Manual Training Department, a modern gymnasium, an auditorium with a seating capacity of some over 700, stage, dressing rooms, shower baths for both boys and girls, library, principal and teachers' rooms, and is equipped with sprinkler system.

On July 11th the City Government authorized the appropriation of \$200,000.00 for its construction and I am pleased to report that when completed it will be within the appropriation, with the exception of the architect's fees. This has been financed by a bond issue of \$50,000.00 and a special three mill school tax extending over a period of five years.

The several contracts were awarded as follows:

	Amount
General Contractor, Augustus Carey & Co.....	\$144,573 00
Heating & Ventilation, Gedeon Picher Co.....	25,559 00
Plumbing, A. W. Bushey & Co.....	11,995 00
Electric Wiring, Butler Brothers.....	4,458 00
Sprinkler System, Grennell Company.....	4,225 00
Vacuum Cleaning System, Spencer Vacuum Co.....	1,703 00
Electric Fixtures, Central Me. Power Co.....	1,350 00
Electric Clock & Bell System, Standard Electric Clock Co.	1,697 00
	<hr/>
Total .....	\$195,560 00

It was hoped that this building would be completed and ready for occupancy for the spring term of school, but owing to many delays caused by freight shipments, it will be impossible to have the building finished until about June 1st.

#### COLLECTION OF RUBBISH AND ASHES

It has been the custom for several years to observe the first week in May as clean up week, but during this administration this service has been continued throughout the year, and I believe it has been a splendid service for the general public and would be greatly missed if discontinued.

#### CITY SERVICE LADDER TRUCK

In 1916 agitation was started toward improving the fire equipment and by the passing of certain ordinances, with a view of obtaining a reclassification from a C. to a B. city. It had been found that it was

almost impossible to enforce the ordinances which had been adopted, and by correspondence with the Insurance Exchange it was found that no credits had been allowed, and in order to obtain the desired rating, it would be necessary to equip our fire department with a motor driven Hook & Ladder Truck. This truck was purchased and added to the present equipment on October 1st and on the 17th day of November the New England Insurance Exchange classified Waterville as a B. city this resulting in a saving of 20% on dwelling house property and thirty (30) and forty (40) cents a thousand on mercantile property. This classification will mean a saving of approximately \$11,000.00 a year to property owners.

### STREETS AND SEWERS

The Hayden Brook Sewer has been completed during the past year at an expense of \$6,113.18, also 4641 feet of new sewers have been laid in various parts of the city. Some over 12,000 truck loads of gravel have been put on the streets throughout the city.

### CITY PROPERTY

At the beginning of the year it was found that the city stable was in a very poor condition and in very much need of repairs. The stable has been newly shingled, painted and other necessary repairs made. The buildings at the City Home have been painted inside and out. The wood sheds and stable have been put in first class repair. And at the present time the city property is in a much improved condition.

### LOCKWOOD PARK

Early in July I took the matter up with Mr. Atwood of the Lockwood Company relative to the unsightly approach to Waterville at Lockwood and Bridge Streets and have received from him the most hearty co-operation. The old dwelling houses have been removed, the location of the electric car tracks have been changed, ornamental lights have been installed, and it is the plan of the Lockwood Company to beautify this plot with shrubs and plants.

### NEW STATE ROAD

The first of September I took the matter up with the State Highway Department relative to the construction of a state road from Highwood Street to the Fairfield town line. A conference was arranged with the commission and a hearing held about the first of November. A survey for this road was authorized and the commission has taken

favorable action and this piece of road will be built in the early spring. The Chamber of Commerce, Rotary Club, Merchants' Bureau, together with many others have co-operated and assisted in bringing about this result.

### OVERDRAFTS

The total overdrafts for the several departments of the city for the municipal year ending January 31, 1923, amount to fourteen thousand nine hundred thirty-nine dollars and ten cents (\$14,939.10). These overdrafts are accounted for in the following items, which could not be anticipated at the time the yearly appropriations were made:

Increase in State Tax over 1921.....	\$5,583 17
Cost of Elections (five in 1922).....	4,304 68
Snow and Ice Removal.....	2,364 08
Common Schools .....	2,437 01
High School .....	1,394 16

### CONCLUSION

I wish to express my thanks and appreciation to the heads of the several departments for the splendid co-operation which they have given me. I also wish to thank the members of the City Council for their hearty support during the year.

Respectfully submitted,

LEON O. TEBBETTS,

Mayor.

# Municipal Property List

Based on Insurable and Present Replacement Values

## PUBLIC BUILDINGS

City Hall .....	\$133,750 00	
Furnishings .....	6,250 00	
Armory .....	8,750 00	
Furnishings .....	312 00	
Land .....	15,000 00	
	<hr/>	
Total .....		\$164,062 00

## POLICE DEPARTMENT

Police signal system.....		\$600 00
---------------------------	--	----------

## FIRE DEPARTMENT

Central Fire Station and Land.....	\$43,000 00	
Fire Alarm Station and Apparatus.....	20,000 00	
Hose 3 Station and Land.....	3,500 00	
Hose 4 Station .....	2,000 00	
Equipment, three Stations .....	22,912 40	
	<hr/>	
Total .....		\$91,412 40

## STREET DEPARTMENT

City Stable and Storehouse.....	\$2,625 00	
Lot and Dunbar Gravel Pit.....	2,500 00	
Equipment .....	13,343 97	
	<hr/>	
Total .....		\$18,468 97

POOR DEPARTMENT

Almshouse and Land .....	\$8,250 00	
Furnishings .....	1,250 00	
Stock and Supplies .....	830 00	
	<hr/>	
Total .....		\$10,330 00

SCHOOL DEPARTMENT

High School, Land, Buildings and Furnishings	\$125,625 00	
Pleasant Street School, Land, Buildings and Furnishings .....	14,500 00	
Myrtle Street School, Land, Buildings and Furnishings .....	34,536 00	
North Grammar School, Land, Buildings and Furnishings .....	31,650 00	
South Grammar School, Land, Buildings and Furnishings .....	62,680 00	
Walnut Street School, Land, Buildings and Furnishings .....	22,150 00	
Western Avenue School, Land, Buildings and Furnishings .....	5,260 00	
Brook Street School, Land, Buildings and Furnishings .....	14,450 00	
Redington Street School, Land, Buildings and Furnishings .....	13,751 00	
Grove Street School, Land, Buildings and Furnishings .....	7,158 00	
Office Contents .....	750 00	
	<hr/>	
Total .....		\$332,510 00
Carnegie Library, Land and Building.....		32,500 00
Pine Grove Cemetery (Trust Fund omitted)....		27,579 78
Chamberlain Gravel Pit.....		5,000 00
		<hr/>
Property total .....		\$682,463 15

Note:—No valuation has been placed on Sewer system, paved and permanent streets, side walks, bridges, parks and non-convertible improvements. The above inventory is the same as last year, no actual value can be placed on the New Junior High School, in process of construction, located on the site of the Pleasant St. School, but an estimate of \$125,000.00 would be about fair. Additional fire apparatus and street equipment not listed above would offset any depreciation in above list.

## Report of Assessors

January 31, 1923.

To the Honorable Mayor and City Council:

Following is the report of the City Assessors which the undersigned respectfully submit:

On July 21, 1922, we committed to F. Harold Dubord, Collector of Taxes, for collection, lists of taxes on polls, real estate and personal estate, subject to assessment for the year beginning April 1, 1922, amounting to the aggregate sum of \$406,804.75 including sprinkling tax, to wit:—

On Polls—3,900 @ \$3.00 .....	\$ 11,700.00
On Real Estate—\$9,434,500 @ 33 mills .....	311,338.50
On Personal Estate—\$2,295,720 @ 33 mills ....	75,758.76
	<hr/>
	\$398,797.26
On Sprinkling .....	8,007.49
	<hr/>
	\$406,804.75

From time to time we have submitted to F. Harold Dubord for collection, a supplemental list of taxes of Polls and Estates subject to assessment amounting to \$778.30, including the sum of \$235.50 which was brought about by Real Estate transfers.

Following are the appropriations:—

For State Tax .....	\$ 67,036.29
For County Tax .....	15,856.19
For City Tax .....	323,912.27
	<hr/>
	\$406,804.75

A great deal of trouble would be avoided if owners of real estate when selling property would file with the Board of Assessors a report of the sale together with the name of the purchaser.

Respectfully submitted,

D. H. STAPLES,

JOSEPH BOURQUE,

Assessors.

# Auditor's Report

Waterville, Me., Feb. 10, 1923.

To the Honorable Mayor and City Council:

I am submitting herewith the annual report of the revenue and expenditures of the City of Waterville for the fiscal year ending January 31, 1923, in accordance with the provisions of the City Ordinance.

The account of the New Junior High school, found in the financial report, is credited with the 3 mill extra tax levy for this purpose, and in addition a bond issue of \$50,000 was voted to take care of, in part, the construction of said school building.

I have examined the accounts of the Collector of Taxes and City Treasurer, also the receipts and expenditures of the Cemetery Committee and find them correct.

Respectfully submitted,

HARRIETTE L. HOLMES,

City Auditor.

## NEW JUNIOR HIGH SCHOOL BUILDING ACCOUNT

Received from Audet & Carr, account billiard and pool license to May 1st, 1922. (Pro rata).....	2 52

Respectfully yours,

E. E. RANDALL,

City Clerk.

# Report of Health Officer

---

Waterville, Maine, February 1, 1923.

To the Honorable Mayor and City Council:

Gentlemen:—

Herewith is submitted a comprehensive report of the activities of this department for the calendar year 1922.

The population of the city is estimated at being 13,858.

## DEATHS

Exclusive of still births of which there were 7, there were recorded 198 deaths, 121 females and 78 males during the year making a gross death rate of 14.21.

## BIRTHS AND MARRIAGES

During the year there were recorded 428 births and 166 marriages.

## SOCIAL DISEASE CLINIC

The latter part of the year the room occupied by this department was divided into smaller ones. One for an office and one for a room for a social disease clinic. Here the diagnosis and treatment of social diseases can be made for all those who cannot or will not get taken care of elsewhere.

The establishment of this clinic was made possible by the co-operation of the municipal officers, State Department of Health and the officials of the former Waterville-Winslow Health Center.

It is hoped by the establishment of this clinic that the spread of social diseases may be better controlled and the expense to the municipality in future years due to the effects of social diseases may be diminished.

This clinic will in no way interfere with the practice of physicians but hopes to work in co-operation with the physicians of the city.

## MILK

The enforcement of the ordinance relating to the tuberculin testing of cows producing milk delivered in the city has been enforced and as a result practically all the milk used in Waterville now comes from Tuberculin Tested Herds. The number of cattle tested will be found in the milk inspectors report.

## CONTAGIOUS DISEASES

The city has suffered from no epidemic during the year. What looked like an outbreak of whooping cough and diphtheria during November the first in the public schools and the latter in the private schools was checked in short order and this without closing of the schools.

The physicians have been prompt in reporting cases which fact has been a great assistance to this office.

## INSPECTIONS

There has been made during the year inspections of bake shops, bakeries, slaughter houses, restaurants, meat carts, meat markets, packing houses, ice-cream plants and other stores.

All meat rooms now in the city are in conformity to the city meat code.

Where unsanitary conditions have been found the same have been willingly corrected when attention called to them.

A number of property owners have been ordered to connect with the city sewers and a number of dwellings put in sanitary condition.

## COMPLAINTS

We consider that in the establishment of a regular rubbish collection which was instituted in the early summer the city has done one of the finest things possible. It has materially reduced the number of complaints coming to this office and has certainly reduced the number of fire hazards in the city.

## RECOMMENDATIONS

1. Early systematic extension of existing sanitary sewers.
2. The employment of a nurse to take care of the private schools and to do general work among the people of the city.

3. That when the new national plumbing code is published that this be adopted by the city.

The appended charts go more into detail of the work of this office and should be added to this report.

We wish to thank the municipal officers, physicians, public and private school officials for their co-operation, which has made possible the improvement in this department, and from which the city has materially benefited.

Respectfully submitted,

WM. JAS. YOUNG, M. D.,

City Health Officer.

# Report of Inspector of Plumbing

---

Waterville, Maine, February 1, 1923.

To Dr. Wm. Jas. Young, Health Officer:

I hereby submit my report as plumbing inspector for the municipal year.

Number of plumbers registered .....	9
Number of permits granted .....	127
Number of tests made .....	87

The plumbing code is in need of revision to bring it up to modern standards, and this revision should be made before building operations are resumed.

Respectfully submitted,

JOHN FARDY,

Plumbing Inspector.

# Sealer of Weights and Measures' Report

---

Waterville, Feb. 5th, 1923.

To the Honorable Mayor and City Council:

The following report is submitted for this department for the current year:

Number of scales tested .....	127	condemned	3
Number of weights tested .....	62	"	6
Number dry measures tested .....	37		
Number liquid measures tested....	50		
Number gasoline pumps tested ...	12		
Number milk jars tested .....	15		
Number of measurgraphs tested ...	4		

It would be a great convenience to this department and to the public at large if a large set of platform scales were owned and operated by the City.

Respectfully submitted,

E. W. CRAWFORD,

Sealer Weights and Measures.

# City Engineer's Report

---

Waterville, Feb. 7th, 1923.

To the Honorable Mayor and City Council:

Gentlemen:

The following is a general summary of the work of this department the past year:—

## NEW SEWERS

There has been a larger amount of new sewer construction the past year than in any one season for several years past.

New sewers have been constructed on the following streets:

North street .....	552 feet 12 inch pipe 2 manholes 2 catchbasins
Elmwood street .....	977 feet 8 inch pipe 2 manholes
Pleasantdale street .....	1055.5 feet 8 inch pipe 2 manholes
Elmhurst street .....	260 feet 8 inch pipe
Edgewood street .....	311.5 feet 8 inch pipe
Broad street .....	558 feet 8 inch pipe 2 manholes
Pare street .....	241 feet 8 inch pipe 1 lantern hole
Haviland street .....	350 feet 8 inch pipe 1 manhole 1 catchbasin

## HAYDEN BROOK SEWER

The west branch of Hayden Brook sewer was completed this season, 336 feet of 54 inch segment block sewer being built. This extends the sewer about 350 feet north of High street, making a total distance of 6815 feet from the Messalonskee stream. A reinforced concrete end with racks was built at the terminus, making a permanent structure. One catchbasin was built and one lateral sewer connected.

A contract for the above work was let to E. P. Witham May 2nd. A summary of the costs are as follows:

336 feet 54 inches sewer at \$13.95 .....	\$4,687.20
1 catchbasin .....	85.00
6 feet extra pipe for connections .....	6.00
1 extra fitting .....	1.68
	<hr/>
Total as per contract .....	\$4,779.88
Reinforced concrete intake and racks .....	\$ 778.39
Connecting old sewer .....	58.70
Connecting old drain .....	52.33
Grading (labor) .....	32.89
Grading material, furnished by City .....	145.59
	<hr/>
Total .....	\$5,847.78

## NEW SIDEWALKS

There has been a large amount of new macadam sidewalk construction during the past season, as follows:

## Asphaltic Concrete—

Gilman Street .....	476.66 yds.
Redington Street .....	151.55 "
Summer Street .....	137.77 "
Gold Street .....	568.71 "
Alden Street .....	255.55 "
Vigue Avenue .....	149.77 "
Temple Street .....	36.00 "

## Granolithic—

Gold Street .....	16.00 yds.
Pearl Street .....	20.00 "
Main Street .....	47.50 "
Corner Main and Temple Streets .....	10.00 "

Repairs have been to above types of sidewalks on College Avenue, Temple Street, Elm Street and Park Street.

### SPRINKLING AND SURFACE TREATMENT OF STREETS

Owing to the large amount of rainy weather at the time of the treatment of our streets, the results were bad. The oil emulsified and mixed with the surface, leaving very little for lasting results. It also rained each time the calcium chloride was applied, causing it to be wasted.

This is the first season that this chemical has been used by the City, and owing to the wet conditions the results were not as good as could have been wished.

No. 1 Asphaltic oil was used on all the streets except College Avenue, which was Tarvia treated. The Tarvia treatment is far more durable than the oil, but owing to the large difference in the cost it is a question which is the cheapest in the end.

Eighteen thousand two hundred sixty-seven gallons of oil and Tarvia, and 70,875 pounds of calcium chloride were used.

### STATE AID HIGHWAY

Owing to the laying of a new pipe line by the Kennebec Water District, along Upper Main Street the past season, no State Aid Highway was built. It should be constructed however the coming season. The laying of this pipe line has left this street in very bad shape, and a large part of the 1920 State Aid construction will have to be resurfaced and the culverts repaired.

### LOCKWOOD STREET IMPROVEMENTS

After several years of delay the changes and improvements in Lockwood Street have been accomplished.

Through the cooperation of the Lockwood Company, The Androscoggin and Kennebec Railway, The Central Maine Power Company, The Kennebec Water District and others, the street is now widened, graded and lighted according to the original plans. With the contemplated grading and beautifying of "Lockwood Park" by the Lockwood Company this entrance to the City will be one to be proud of.

### NEW STREETS

Only one new street has been accepted the past season—Pare street, running westerly from Summer street. Western avenue, the First Rangeway and Lockwood street have been relocated.

## SURVEYS

Lines have been run and surveys made on Appleton street, School street, Pleasant street, Chaplin Street, Colonial street, Sanger avenue, North street, Elmwood street, Pleasantdale street, Broad street, Elmhurst street, Edgewood street, First Rangement, Gilman street, Burleigh street, Redington street, Gold street, Vigue avenue, Summer street, Grove street, Lockwood street, Bridge street, Greenwood street, College avenue, Elm street, Winter street and Union street. The Junior High lot and the Knauff lot adjoining, also the Chapel lot at Pine Grove cemetery have been surveyed and plotted.

## RECOMMENDATIONS

Owing to the fact that College avenue from Highwood street to Fairfield is to be rebuilt with bituminous concrete, by the State early in the summer, it will be necessary for the City to build sewers from near Britt street to or beyond Preble street.

A sewer should be built from the present end of the Edgemont avenue sewer to the Messalonskee stream. A sewer will also have to be built on Harold street to College avenue.

Lockwood street should have more grading in the spring as there will be more or less settle during the winter. Also a granolithic sidewalk should be constructed along the easterly side.

After the completion of the macadamizing of the upper part of College Ave., the only really bad part of this trunk line through Waterville will be from the Elmwood Hotel to the R. R. crossing. This should be laid in concrete similar to the construction through Postoffice Square.

There is an imperative need of ordinances regarding the laying out, improving and grading of proposed new streets before acceptance by the City. At the present time there are no regulations regarding these, with the result that many of our proposed new streets are not suitable for acceptance.

I still think the City should have a good set of Assessors maps for valuation purposes. I am sure there is more or less property that the Assessors are unable to get, through their inability to properly trace and locate it.

Respectfully submitted,

E. W. CRAWFORD,

City Engineer.

## City Electrician's Report

---

To the Honorable Mayor and City Council:

Gentlemen:

The following is a report of this department for the past year:

There have been installed on our street lighting system the past year, 16 100-watt, 4 200-watt, 6 250-candlepower lamps and 7 ornamental iron poles equipped with 4 80-watt lamps each, in the following locations:

100-watt—Morrill avenue, Columbia road, Summer street, North street at Fairmount, North street at Elmwood, North street at River-view, Britt street, Dunbar court, Morrison avenue, Oak street, Wentworth court, King court, Drummond avenue (2), Greenwood street (2).

200-watt—Drummond avenue at Spruce street, Elm terrace, Dunton court, Oakland street.

250-candlepower—Cool and Oakland streets, Appleton street, College avenue at Mt. Pleasant street, Burleigh street, Boutelle avenue at Colonial street, School street.

Clusters—Seven around "Lockwood Park."

The total installation on our streets at the present time is as follows:

45	60-watt.
36	60-C. P.
24	100-watt.
7	200-watt.
99	250-watt
100½	600-C. P.
52	clusters of 4 80-watt lamps each

The Gamewell fire alarm has given good service the past year, having given proper service at every alarm.

The large number of electrical storms during the summer, caused considerable damage to the different circuits, especially to the underground cables, which necessitated considerable emergency repair work.

Some changes will have to be made in the underground at Lockwood Park, as soon as the frost is out of the ground, on account of changes in street lines.

There has been more than the usual amount of wiring inspection the past year, owing to the large amount of new building construction and repair.

I would again call your attention the need of some sort of regulations regarding wiring work in the City. As at present carried on there is more or less of such work being done by persons not regular wiremen, which is never inspected owing to the fact that this department cannot keep in touch with such work, it not being reported.

A system of licensing would probably remedy a large part of such conditions.

Respectfully submitted,

E. W. CRAWFORD,

City Electrician.

## Milk Inspector's Report

---

Waterville, Maine, Jan. 30, 1923.

To the Honorable Mayor and Board of Aldermen of the City of Waterville,

Gentlemen:—

I beg to submit the following report:—

The work of eradication of tuberculosis among cattle, started three years ago, was continued in 1922, and consisted in the inspection of dairies and the tuberculin testing of cattle under Federal and State Inspectors in co-operation with the Milk Inspector's Office. The results were most gratifying and clearly establish the need of such work being carried on.

Five hundred and forty-six (546) herds were examined and the tuberculin test was applied to 4424 head of cattle and only 31 animals were condemned. Out of these 31, it is worthy of note that 23 were tested for the first time, leaving only 8 animals condemned out of about 2,400 head that had previously been tested.

In 1920, 2,342 cattle were tested with 47 condemned, or 2%. In 1921, 2,953 animals were tested with 56 head condemned, not quite 2%. In 1922, 4,424 were tested with only 31 reactors, 7-10 of one per cent, showing conclusively that the tuberculin test yearly applied will stamp out the disease among cattle and remove a serious source of danger to human beings, principally to children who are fed on milk.

Licenses to sell milk in the State of Maine are issued by the Department of Agriculture and are subject to the following conditions:

"No milk shall be sold from a known reactor to the tuberculin test, or that shows disease of any kind. The udder and the flanks of all milch cows shall be kept clean.

Barns shall be light, well ventilated and clean. Floors, walls and ceilings shall be tight and free from dirt. Manure shall be removed from the barn and disposed of in such a way as not to be a source of danger to the milk either as a breeding place for flies or otherwise.

A milk room shall be provided that is clean, tight and well screened; no other materials shall be kept therein nor shall it be used for any other purpose than the handling of milk. The milk room shall be used from contaminating surroundings.

Bottles, cans and all milking utensils shall be sterilized each time before using, with boiling water or steam. Flanks and udders shall be cleaned directly before milking.

All persons handling milk shall have their hands and clothes clean at time of milking. No milk sold shall be handled by persons having a communicable disease such as typhoid fever, scarlet fever or diphtheria. No milk shall be strained in the tie-up; it shall be cooled immediately after being milked and stored at a temperature not over 55 degrees. No bloody, stringy or unnatural milk shall be sold."

It is the duty of the Milk Inspector to see that the above conditions are properly carried out, at least as near as possible. It is quite a proposition, if we consider that milk is sold in this city from 29 delivery Milk Wagons, 8 Grocery Stores, 4 Soda Fountains, 3 Milk Depots and 3 Creameries and that cream is also handled by two large Ice-Cream plants; these combined market the products of 546 dairies, containing 4,424 head of cattle. A large per cent of these dairy products are shipped to Massachusetts.

I have attended a State Convention of Milk Inspectors and Health Officers held at the State House, at which the following subjects were discussed:

"Tuberculosis: Its Relation to Maine Milk Supply."

"Milk Analysis and what it means to the Public."

"Municipal Milk Ordinances."

At the meeting thirty-one cities and towns were represented and Waterville was cited by State Officials as being a leader in the production of wholesome milk.

Respectfully submitted,

A. JOLY,

Milk Inspector.

# Report of Fire Department

---

Waterville, Me., Feb. 12, 1923.

To the Honorable Mayor and City Council:

I have the pleasure to herewith submit the following report of the Fire Department for the year ending January 31, 1922:

## BOARD OF ENGINEERS

Walter W. Berry .....	Chief Engineer
Luke Ivers .....	First Assistant Engineer
James C. Rancourt .....	Second Assistant Engineer
E. W. Crawford .....	Engineer

## DRIVERS

Arthur Worth, driver of Hook and Ladder Co., No. 1

———— Clark, driver of Auto Combination and Chemical

Harry LeBrun, driver of Hose Company, No. 2

Charles LeBrun, driver of Hose Company, No. 3

Wallace Gullifer, driver of Hose Company, No. 4

John Davis, spare driver

## CHEMICAL COMPANY, NO. 1

Fred D. McAlary, Captain, 7 Morrill avenue; Walter R. McAlary, Lieutenant, Central Fire Station; Harold P. Davis, 52 Silver street, Clerk; S. A. Dickinson, 11 Union street; G. D. Lovejoy, 17½ West street; Harold Morrison, 16 Gilman street; R. M. Page, 17 Brook street; J. Tuttle, Oakland street; F. H. Soper, 16 Morrill avenue; G. E. Wilbur; Harry H. Ware, 10 High street.

## HOSE COMPANY NO. 2

James Coombs, Captain, 31½ Elm street; James H. Allen, Lieutenant, 24 Pleasant street; Walter Palmer, Clerk, 10 Nash street; William F. Shaw, 217 Main street; Felix Etchie, 110 Oxford street; W. W. Harding, 9 King street; Fred Piper, 13 Western avenue; Arthur Osborne, North street; Oral Nickerson, 17 Western avenue; Alfred Groder, Oak street; Walter Austin, 7 Nudd street; Sub.: Franklin D. Gaskell, S. W. Frost, W. H. Moses.

## HOOK AND LADDER NO. 1

Edward Pullen, Captain, 17 Chaplin street; F. J. Wilson, Lieutenant, 219 Main street; John Lintern, Clerk, 19 Prospect street; Joseph Hall, 248 Main street; John Trainor, 28 Ticonic street; Robert Bean, Allen Road; Francis Bushey, 21 Chaplin street; Sebastin Bushey, 21 Chaplin street; John Smith, 17 Prospect street; Scott Linnell, Temple Court; William Hopkins, Richardson court; Joseph Moreau, 6 Nash street; Wallace West, 57 Pleasant street; Harry Rue, Spring street.

## HOSE COMPANY, NO. 3

Albert Maheu, Captain, 20 Grove street; William Pooler, Lieutenant, 13 Paris street; Fred J. Taylor, Clerk, 180½ Water street; Jos. Letourneau, 177 Water street; George Young, 15 Paris street; James Cote, 27 Paris street; Ernest York, 9 Carey Lane; Omar Poulin, 174 Water street; Vidale Gagnon, 164 Water street; Arthur Landry, 17 Paris street.

## HOSE COMPANY NO. 4

Napoleon J. Marshall, Captain, 17 Edwards street; Joseph Norman, Lieutenant, Elmhurst street; Edward S. Huard, Clerk, 53 Ticonic street; Ernest J. Marshall, 19 Edwards street; Eugene Butler, 38½ Ticonic street; William L. Huard, 53 Ticonic street; John Pooler, 14 West street; Arthur Norman, 39 Ticonic street; Aquila Bushey, Elmhurst street; J. Augustus Marshall, 14 Kelsey street. (Subs.: Ernest Pooler, Augustus Vigue.

## HORSES

There are six horses in the department: Henry and Dana, Hose 2; Buster and Billy, Hook and Ladder, No. 1; Belle, Hose 3; Harry, Hose 4.

## HOSE

No purchases have been made this year. There should be at least two thousand feet (2,000 ft.) purchased next year.

## HOUSES

Only minor repairs have been made. Hose 4 had repairs consisting of a new roof.

## IMPROVEMENTS

The purchase of a new motor Hook and Ladder Truck from the Stutz Fire Engine Company, Indianapolis, Ind. Put into service October 6, 1922.

## APPARATUS

The apparatus consists of the new motor hook and ladder truck; one steam fire engine; one two-horse hook and ladder truck; one auto combination and chemical; one two-horse hose and chemical wagon; one two-horse wagon; three one-horse hose wagons; one hand reel; one 50-foot extension ladder not carried on truck; one deluge set and other small equipment.

### RECOMMENDATIONS

In closing this report I am pleased to state that this Department has responded to 128 calls during the year; 24 box alarms and 104 still alarms and telephone calls, and the loss sustained has been comparatively small.

It gives me a lot of pleasure to state that the Class B rating which we have been trying to obtain for the past five years has been granted, the same having been accomplished by the purchase of the new Motor Hook and Ladder Truck, and the pecuniary benefit to be derived from this B rating is much more than the general public is aware of.

At this time, however, I want to say a word in warning the inhabitants of the city, that if they wish to continue to enjoy this B class rating now in effect they must continue to co-operate with the Building Inspector, and all other City Inspectors in regard to methods of construction and wiring, both in new buildings and the repairing of old ones, as it is possible to be dropped back into Class C rating at any time the occasion warrants.

It grieves me to mention the tragedy which took place at the Colby fire, but I want to enter in this report the fact that the Fire Department and its personnel worked to their utmost and cannot be blamed in any way for this terrible happening.

And just another word of warning—A tragedy a number of times the size of this one in the loss of life can take place in a score or more of buildings in this city—the settings are all there—will the owners kindly take notice.

Thanking all who have contributed to the success of the Department in the past, and soliciting their cordial support in the future, I remain,

Respectfully yours,

WALTER W. BERRY,

Chief Engineer Waterville Fire Department.

## Free Public Library Report

---

Waterville, Me., Feb. 1, 1923.

To the Honorable, the Mayor and the City Council:

The Trustees of the Public Library have attended to the duties committed to them and beg leave to report.

With deep regret they report the death of one who for more than twenty years has been an honored member of the Board, the Rev. Father Narcisse Charland. Ever loyal to the interests of the City Library, he brought to its service his fine appreciation and his excellent judgment.

The year has been the most important one in the library history of Waterville. Only one or two years have seen a larger increase in the resources of the Library, and none have approached the use and the usefulness that mark the present year.

Your Board heartily endorses the words of your Finance Committee with reference to the efficiency of the Library Staff. Not only is commendation to be given for the general conduct of the library routine, but special appreciation is due for the work in the study and research departments rendered by Miss Smith and Miss Tobey. Their thorough training and experience enables them to give aid of the first order. There is such demand on the part of pupils in our schools for this aid that some special help should be provided at the desk.

Mr. Noble continues his indispensable work as superintendent of the building and grounds, combined with work in the preparation of the books for the shelves, that is of great service to the catalogers.

### SPECIAL REPAIRS

With wise liberality your body appropriated \$1,500 for the repair and improvement of the platform, balustrade and steps in the approach to the building. This was very carefully expended under the direction of Hon. Frank Redington, Chairman of the Committee on Building and Grounds, and as a result, the granite steps have been firmly reset, the platform has been renewed, and a permanent granite curbing has

been placed around it. This is a permanent improvement of utmost value, and necessity..

#### EMMA SCATES KNAUFF BEQUEST

In the will of Mrs. Emma Scates Knauff occurs the following clause:

"I give and bequeath to the Waterville Public Library the sum of one thousand dollars (\$1,000.00) to be safely invested by the Trustees of said Library and the income to be used annually for the purpose of purchasing new books, and the principal invested is to be known as the 'Emma Scates Knauff Fund.' "

From Mr. W. A. Knauff, executor, there has been received the one thousand dollars constituting the above bequest, and it has been invested in accord with the terms of the will.

The gratitude of the citizens of Waterville is due Mrs. Knauff, always a friend and helper of the library, who has thus provided for the permanent continuance of her aid to one of the most important departments of the life of the city.

Several years ago Miss Alice Getchell left to the city a bequest of \$500 that every year provides new books of value. A bequest to the Library is one of the most effective means of permanent service to the city.

The thanks of the city are extended to all who by their gifts have added to the resources of the Library.

The Trustees appreciate the increasing sums voted by successive city governments for the Library. The increase in population in the city and in its student bodies, and the greatly enlarged demands upon the Library make yet further increase not only desirable, but necessary. The budget of expenditures for the coming year proposed by the Finance Committee, is eminently conservative. At the head of that Committee is the President of the Library, Dr. Frederick C. Thayer, who has given not only thousands of books for the use of the city, but as President and member of important committees, has given time and effort without stint for the advantage of the Library ever since its foundation. The Trustees believe that one way of showing appreciation for this splendid service is in heeding the suggestions made by the President and his Committee for increasing the efficiency of the Library.

Authorities say that a normal appropriation for city libraries is one dollar for each inhabitant. The "Maine Register" gives the population of Waterville for 1920, as 13,351. The appropriation suggested by your committee is therefore, only about half of what we should have for library privileges.

Whether the Library is appreciated appears from the following comparison:

In 1914, attendance.....	15,460	Circulation .....	39,296
Average per month.....	1,288.33	Average per month.....	3,274.66
Average per week.....	297.30	Average per week.....	755.69
In 1922, attendance.....	26,739	Circulation .....	53,353
Average per month.....	2,228.25	Average per month.....	4,446.08
Average per week.....	514.21	Average per week.....	1,026.01
Total attendance, 1922....	26,739	Total circulation, 1922...	53,353
Total attendance, 1914....	15,460	Total circulation, 1914....	39,296
Gain .....	11,279	Gain .....	14,057
Percentage of increase...	72.95	Percentage of increase...	35.77

Net increase for 1922 over 1914 of 54.36 per cent.

The reports of the Treasurer, the Librarian, and the several Committees are appended.

Very respectfully submitted,

THE TRUSTEES OF THE PUBLIC LIBRARY,

By E. C. Whittemore.

---

 REPORT OF THE LIBRARIAN

To the Board of Trustees of the Waterville Public Library:

I have the honor to submit the report of the Waterville Public Library for the year ending January 31, 1923.

Comparing the statistics of last year with those of this year we find the circulation has risen from 49,672 to 53,353, an increase of 3681, the attendance from 24,341 to 26,739, or 2398 increase. The number of books circulated has averaged 1026.01 per week and 4446.08 per month, the attendance, 514.21 per week and 2228.25 per month.

The circulation according to classes has been:

Adult fiction .....	25,742
Juvenile fiction .....	11,427
General works .....	85
Philosophy .....	250

Religion .....	378
Sociology .....	1,806
Philology .....	412
Natural science .....	756
Useful arts .....	1,179
Fine arts .....	966
Literature .....	2,810
Travel .....	1,158
History .....	1,193
Biography .....	1,455
Magazines .....	3,706

making a total of 53,353 of which 37,199 were fiction, 16,154 non-fiction.

The attendance in the different rooms has been: Reading room, 10,661, Children's room, 10,845, Reference room, 5,233, Total, 26,739.

Looking back to 1914 and comparing figures we find that the increase in circulation from that time amounts to 14,057, or 35.77 per cent. The attendance has increased 11,279, or 73.60 per cent, making the net increase of business 54.68 per cent.

Carrying out the suggestion made that we should ascertain the number of books on the shelves they were counted at the beginning of the year and the number found to be 15,548. During the year 975 have been added and 265 withdrawn, making the present number 16,258:

The year's accessions have been classified as follows:

Adult fiction .....	264
Juvenile fiction .....	184
General works .....	9
Philosophy .....	15
Religion .....	16
Sociology .....	84
Philology .....	1
Natural science .....	25
Useful arts .....	47
Fine arts .....	44
Literature .....	56
Travel .....	47
History .....	73
Biography .....	58
Reference .....	52

Of these additions 746 were purchased, 202 were gifts, 18 acquired by binding, and 9 by exchange.

Among notable books which have been acquired during the year are the set "The Chronicles of America" in fifty volumes, "The Standard Cyclopedia of Horticulture" in six volumes, three new volumes of the "Encyclopedia Britannica" and "The Encyclopedia Americana" in thirty volumes.

The same magazines are subscribed for as last year except that "Child Life" has been substituted for "John Martin's Book." As gifts we have received "Poet Lore" from the Library Department of the Woman's Club, "Association Monthly" from Girls' Work Department of the Y. W. C. A. of Portland, "House and Garden" from Mrs. W. B. Arnold "The Rotarian" from the Rotary Club of Waterville. "The Christian Register" is still contributed by the Unitarian Alliance, the "Universalist Leader" by the Mission Circle of the Universalist church, and "Zion's Herald" by the Auxiliary of the Methodist church, and this year the Women's Federation of the Congregational church has put into the library the "Congregationalist." The "Baptist" is loaned by Mr. A. M. Dunbar.

Mr. H. L. Tappan on his departure from Waterville sent us a box of thirty-one books from his library. These were very desirable books and are gratefully received.

Other gifts of books have been received from the Waterville Woman's Club, G. H. Doran, Priscilla and Frances Perkins, Southern Pine Association, Russell Estate, The family of Wilmer Atkinson, Rapid Electrotpe Company, Mrs. C. O. Murphy, Sons of Henry D. Lloyd, American Jewish Committee, Bangor and Aroostook Railroad, Phillip-Pine Association, Russell Estate, The family of Wilmer Atkinson, Rapid and Company, Smithsonian Institution, Atlantic Monthly, Rockefeller Foundation, Miss Florence Dunn, Mrs. E. W. Heath, Detroit Public Library, J. L. Ronseberger, F. E. Boothby, United States Government, Yozo Matura, Open Court Publishing Company, Carnegie Endowment for International Peace, Hurley Machine Company, M. D. Peck, R. W. Fenlason, Samuel T. Corson, John H. Yates, Jr., Dr. E. C. Whittemore, Otto Gresham, Elbert H. Gary, Dennison Manufacturing Company.

Mr. F. E. Boothby presented the Library with an oil painting, a flower piece, the work of George W. Seavey.

The Christian Science Society have been holding their services Sunday mornings and Wednesday evenings in Library Hall since the first of September. This is a temporary arrangement with them, made to accommodate them while their hall is undergoing repairs. Otherwise the hall has been used by the Daughters of the American Revolution once and by the Business and Professional Women's Club six times.

Children's Book Week, a week which is observed by libraries all over the country, and the purpose of which is to encourage books in the home, was observed here in November. A number of books were sent

us from the State Library for exhibition, and also a lot from Loring, Short & Harmon's from Portland. These together with a good number that we had recently purchased, but kept from circulation for the purpose, were displayed during the week and gave an opportunity to those who cared to do so to select books for Christmas gifts, and as a result more than twenty-five dollars worth of books were sold and went into the homes.

The story hour which was started last year by Mrs. Heath has been resumed this winter. We are indebted to those who so generously give their services to entertain the children in this way. Needless to say the hour is popular with the children.

It is readily apparent with the increase in the work called for as indicated by the figures given at the beginning of this report that the same number on the staff should not be adequate for the present work as might have sufficed at that time. Naturally work which needs to be done must be neglected. The books cannot be kept in suitable repair, the overdue books cannot be properly looked out for, so that many are lost which might be recovered if attention could be given to this work more promptly. Oftentimes when the school children are crowding in asking for help in work assigned them by their teachers too hasty attention must be given them so that we cannot do justice to their needs.

More attention should also be given to making known the resources of the library so that a larger number should be attracted to it. We should do more for the foreign element in our midst. This we feel should be a very important part of our work. We should like to make the library a center to which these people would be drawn and from which they might derive mental and moral satisfaction and enjoyment.

All this requires time and money, both of which commodities it is hard to command, but with nothing short of this, and a great deal more, should we be at all satisfied.

### REPORT OF BOOK COMMITTEE

Your Committee would pause at the beginning to express its sorrow and sense of loss at the death of their honored fellow member Rev. Father Narcisse Charland, forty-three years head of the church of St. Francis de Sales in this city.

For nearly twenty years he has been a member of this committee, giving to its work his sympathetic attention and his fine literary judgment. Until burdened by ill health and the increasing cares of his great parish, he has been regular in his attendance at the meetings of the committee and has contributed much to its fellowship and its efficiency.

The Committee continues to regard the Public Library as one of the most important elements in the educational system of the city. Pupils are sent here by their teachers to find answers to questions of all sorts and to secure information in many fields. It is the aim of the Committee to provide the best means for answering these questions, and supplying this information. Not only are reference books, technically so called, but books that make a real contribution to knowledge in any field, are sought. Our goal is a library to which no student in search of fact or information shall go in vain. This involves the accumulation of books for which there may be little current demand but which increase the wealth of the library's resource and inevitably broaden its service.

The demand for books on Business, Professions, Trades, and technical employments has been largely created by the Library, but it is constantly increasing. Something of what the Correspondence School is to many a young mechanic or clerk, the Library is to many who seek here means of training for greater efficiency in their chosen field. Just now, the Library is largely increasing its supply of business and technical books in order to meet the needs of many who would not be able to purchase the volumes for themselves.

In fiction the best of the year's output is immediately purchased. The Library provides many more books of fiction and a larger per-

centage of its entire purchases than do the best libraries in much larger cities. The difficulty seems to be to find fiction that would in any way increase the value of the Library. Books of standard value, that because of their popularity are worn out, are promptly replaced.

### CHILDREN'S BOOKS

The Children's Room Committee, the Librarians, lists of the American Library Association, all render aid in keeping the children supplied with worth-while books. A visit to the library on any afternoon after school hours will show the popularity of this room. The demand for books is always in advance of the supply.

### FRENCH DEPARTMENT

This Department should be considerably increased. Most of the young people of the City prefer books in English, but there are many people who would enjoy books in their own native French. Occasionally there are calls for books in yet other languages.

### GIFTS

The gifts of the year are reported by the librarian. They are not quite as numerous as in some other years.

The Committee would record its high appreciation of the bequest of \$1,000.00 by Mrs. Emma Scates Knauff.

There has been expended in the purchase of books during the year \$1,326.49.

In rebinding books and magazines, \$139.60.

The accessions of the year are 993.

By purchase, 767.

By gift, 199. By binding, 18. By exchange, 9. The books at present on the shelves (counted) are 16,276.

The Committee requests titles and lists of books that may be desired for study or general reading.

Respectfully submitted,

EDWIN C. WHITTEMORE,  
FREDERICK C. THAYER,  
MARY S. HEATH,  
FLORENCE E. DUNN,  
FRANK K. SHAW,  
CARROLL N. PERKINS,

Book Committee.

## REPORT OF COMMITTEE ON BUILDINGS AND GROUNDS

Waterville, Maine, Jan. 31st, 1923.

To the Board of Trustees of the Waterville Free Library:

We herewith submit our annual report.

We have purchased the necessary amount of fuel for the building for the year ending January 31st, 1923, total bills for which have been handed to the Treasurer. The coal this year cost \$10.50 per ton, purchased from S. A. & A. B. Green Co.

Last year the committee recommended a special appropriation by the city of a sufficient amount to replace the granolithic court in front of the building and to rebuild the wooden railing with concrete or granolithic forms, also, to retop some of the chimneys, and the City Government this year appropriated \$1,500.00 for the purpose, and our report is herein given.

Respectfully submitted,

FRANK REDINGTON,  
E. C. WARDWELL,  
L. A. d'ARGY,

Committee on Buildings and Grounds.

L. A. d'ARGY,

Committee on Buildings and Grounds.

REPORT OF FINANCE COMMITTEE

Waterville, Maine, Feb. 1, 1923.

To the Trustees of the Free Public Library of the City of Waterville:

The Committee on Finance presents the following as its report for the fiscal year ending January 31, 1923.

The books of the Treasurer, the various bills, his report, vouchers, and other evidence of accounts, have been carefully examined and found to be in balance.

The entire income, including a balance of \$258.10, coming over from last year, amounts to \$6,232.51, of which \$5,500.00 was appropriated by the City Government. The bills paid for maintenance during the year aggregate \$5,865.43, leaving a balance of \$367.08. It should be noticed that after the payment of outstanding bills for books and other small items, there will remain but a slight surplus.

There is not included in this report or accounting, the special appropriation of \$1,500.00, nor its expenditure by the Committee on Buildings and Grounds, all of which appears in their report under the proper heading.

Cutting the garment of a large and rapidly growing child according to the meager amount of cloth furnished for the diminutive and slow-growing one is decidedly the condition the Trustees of the Library have been compelled to face during all the years of its existence. It has been their endeavor to get the most out of the little which has been furnished. How well they have succeeded in this undertaking can, in part only, be determined by an examination of the reports of the several committees. No report can give an adequate idea of the painstaking care and earnest, interested attention which is unselfishly lavished upon this work by these committees.

The following suggestions are made for the different items of expenditure during the ensuing year.

Salaries—Librarians, substitutes and assistants.....	\$2,250 00
Superintendent of Buildings and Grounds.....	1,050 00
Books .....	1,500 00
Fuel .....	500 00
Lights and lamps .....	275 00
Library supplies .....	275 00
Periodicals .....	250 00
Water rates .....	25 00

Binding books .....	125 00
Insurance .....	100 00
Repairs and miscellaneous .....	150 00
	<hr/>
Total .....	\$6,500 00

Your committee cannot close this report without saying a word as to the compensation which our librarians receive. We only wish it was within our power to arrange for a more adequate pecuniary return for their most excellent service. We are especially fortunate in having two finely educated, thoroughly equipped, highly competent, painstaking librarians whose endowments and abilities would command a much larger compensation in other lines.

We have advanced their salaries for the following year one hundred dollars each, fully realizing that their services to this community are worth very much more, regretfully recognizing also, that with the present stipend we can do no more.

Respectfully submitted,

FREDERICK C. THAYER,  
GEO. FRED TERRY,  
FRANK REDINGTON,

Committee.

## City Physician's Report

---

To the Honorable Mayor and City Council:

Gentlemen:

I herewith submit my report as City Physician for the year ending January 31, 1923:

Number of patients attended .....	36
Number of office calls .....	24
Visits to the homes .....	63
Visits to city home .....	6
Number of deaths .....	5
Number of births .....	1

Of the five deaths, three died from apoplexy, one from pneumonia, and the other from epilepsy. One patient was taken to the hospital for operation.

In closing I wish to praise our overseer of the poor for the kind treatment and attention given to the paupers; also Mr. and Mrs. Nadeau for the sanitary condition in which they keep the city home, and the good care they give to the inmates.

Respectfully submitted,

JAMES E. POULIN,

City Physician.

# Report of Police Department

Waterville, Maine, February 1, 1923.

To His Honor the Mayor and City Council:

Gentlemen:—

I herewith submit my report of the Police Department for the year ending January 31, 1923.

Louis Levine, sale of two calves .....	4.00	
Elmer Butler for Frank Butler .....	149.00	
Alfred Giguere, sale of hog .....	35.36	
Joseph Nadeau, sale of hog .....	16.10	
Eastern Packing Co., sale of cow .....	20.00	
From State, cities and towns for wood .....	317.55	
		\$1,930.90
Total .....		
Net cost of City Home for 1922 .....		\$2,768.46

In closing my report I wish to thank the Mayor and every member of the City Government for the help given me during the year. No case has been given assistance without my personal investigation and a consultation with some member of the board of overseers. I have tried to be courteous to all whom I have dealings with. I don't think it necessary to mention the repairs and improvements made at the City Home during the year—am satisfied that the public itself will notice from the appearance of the buildings and the surroundings that the few hundred dollar increase in the cost of maintaining the home has been wisely spent. Things were in a dilapidated condition, something had to be done both inside and out, and by doing what we have done you will find that the report of the state investigators after having investigated every City Home, Almhouse and Town Farm in the State, have placed the Waterville City Home first on the list. I would recommend that a new heating system be installed and that the front porch be raised another story, this would accommodate the old people who for some reason or other find it difficult to travel up and down the stairs. It has been rather a hard year in this department, four families during the railroad strike had to be taken care of, the husbands leaving the city to find work elsewhere and not returning. In addition to this we have had seven deaths, largest number recorded in one year in this department. The daily average number of inmates at the City Home has been sixteen. This means that 19,662 meals have been served including the Supt. and matron. By deducting the amount paid out for rebuilding the sheds and painting the Home which were unusual repairs compared with previous years, we find that with an average of two more per day than last year the cost of maintaining the home is \$665.97 less than 1921. The reason for this is that everything raised there has been used in the home and under the splendid management of Mr. and Mrs. Nadeau success was assured. The seventy-five hens and two young cows that furnished eggs, butter, milk and cream which was all used in the home that were not there at the beginning of my term as Clerk to The Overseers of The Poor, are quite an asset to the Home and have kept us from the grocer many times.

The beautiful sign erected over the front driveway which reads "Waterville City Home," is a great improvement. This was donated by Mr. C. B. Kelleher, after a visit to the Home, and we wish to thank Mr. Kelleher for the donation. Once more I would state that visitors are always welcome. This is city property owned and maintained by the city and you all have access to it. Nothing pleases us more than to open the doors from cellar to attic and let you investigate conditions for yourself, then when remarks are heard you can tell them just what you have seen and not what you have heard. Please remember there

is no more Poor Farm or Almshouse as an order has been introduced and passed by the City Government changing the name to "The Waterville City Home."

Respectfully submitted,

N. J. MARSHALL,

Clerk to The Overseers of The Poor.

## City Solicitor's Report

---

To the Honorable Mayor and City Council:—

During the past year the City has been involved in two legal actions. The first was an action by the City against the town of Van Buren for pauper supplies in which the City recovered judgment for the amount of its bill. The other suit is one brought by Elijah Quimby of Madison for alleged defects of the highway on College Avenue which caused him to be thrown from his motor cycle on October 19th, 1921. This case has been assigned for trial at the May term of the Superior court at Waterville.

FRANK PLUMSTEAD,

City Solicitor.

The City of Waterville is most fortunate at this time to have in process of construction so excellent a school building as is now being built on the Pleasant Street lot. It will be possible at the opening of the schools in September, 1923, to accomplish the following improvements:

First, the reopening of the four kindergartens.

Second, reduction in the size of classes now taught by one teacher and a consequent elimination of congestion in the schools.

Third, the grouping of all the pupils of similar development and age in one building.

Fourth, by mental test and calculation the grouping of pupils of similar ability into class units for purposes of speed in the completion of work.

Fifth, prevocational training for the purpose of finding out the place of each child in life so as to give the proper preliminary training for that particular work.

The purpose of all education is aimed at the making of young people into good citizens of the State, who shall be able to get the best out of life together with the greatest pecuniary rewards for every person.

I is impossible in this brief report to go into details but there will soon be issued a Public School Report from the Department of Education which will give quite fully the plan to be followed.

It is not uncommon in these times to find business men who condemn the work of the schools; to hear regrets made public because of the things left undone by the process of education; to find the press putting the stamp of disapproval upon present day tendencies in conducting the work of the schools; but will some one find one scintilla of constructive advice from any of these sources? The world has ever had little use for the iconoclast in any department of its work, and it is always well to confine criticism to those affairs concerning which one has knowledge.

By the suspension of the kindergartens in the city and regrouping at the close of the semester the pupils, although crowded together in many instances, have been very well cared for.

The expenditures for the schools in the city have been moderate as compared with other places of corresponding size in the State, and very much less than cities of similar size in other states in New England group.

I wish to commend the work of the teachers in the system who have had much to contend with on account of large classes, and to express thanks to the Board of Education for their advice and interest in the work and to the Honorable Mayor and City Government for their support of the Public Schools.

Respectfully submitted,

WILLIAM H. PATTEN,

Superintendent of Schools.

Waterville, Maine, Feb. 6, 1923.

## Street Commissioner's Report

---

Waterville, Me., Feb. 1, 1923.

To the Hon. Mayor and City Council:

Herewith is submitted for your consideration a report of work done on streets, sewers, sidewalks, state aid highway and bridge work for fiscal year ending Jan. 31, 1923. During the year 12,386 loads of gravel have been hauled on streets and sidewalks from the city pit. The gasoline bucket loader purchased by the street department the first of the year has paid for itself. Where it would have been necessary to employ 20 or 25 men to load the trucks and teams we have been able to do the work without four men using only eight minutes to load the trucks. I have records in the office showing the number of loads of gravel used on each street and sidewalk in the city.

### SUMMARY OF WORK DONE DURING THE YEAR

#### STREETS

The following streets have been gravelled either wholly or in part: Greenwood St., Oak St., Wentworth Ct., Front St., Kelsey St., Pleasant St., Haviland St., Union St., Butler Ct., Temple St., Broad St., Cool St., Middle St., Libby Ct., Prospect St., Gilman St., Sanger Ave., Eastern Ave., Lawrence St., Campbell St., West St., Central Ave., Elmwood Ave., Sheldon Place, Seavey St., Canabas Ave., Vigue Ave., Chaplin St., Messalonskee Ave., Green St., Silver Terrace, Hathaway St., Kennebec St., Highwood St., Bushey Lane, Carey Lane, Veteran Ct., Gold St., North St., Francis St., Collins St., King St., First Rangeway, Pleasantdale Ave., Lockwood Park. Water Street has been repicked and rolled the whole length, Silver street has been picked and rolled, Main street has been repicked and rolled from Main St. crossing to Kelsey St., College Ave. has been repicked and rolled from railroad crossing to Fairfield line.

### SIDEWALKS

The following permanent sidewalks were constructed during the year:

A granolithic walk has been built in front of Waterville Furniture Store on Main St., and one on the corner of Main and Temple Sts.

A tar sidewalk on Gold from Summer to Grey Ave. A tar sidewalk on Summer from Gold to Grey. A tar sidewalk on Redington from Summer to house of Joseph Bourque. A tar sidewalk on Gilman from Middle to Burleigh. A tar sidewalk on Alden from Ticonic to Railroad crossing. A tar sidewalk on Vigue Ave., entire length.

Gravel sidewalks were built on the following streets: Pleasantdale Ave., Greenwood St., Elmwood Ave., College Ave., above Sisters Hospital, Seavey St., Columbia Road, Canibas Ave., Gilman St., Kimball St. A number of sidewalks have also been repaired.

### SEWERS

This year sewers were constructed on the following streets: North St., Elmwood Ave., Pleasantdale Ave., Elmhurst St., Broad St., Pare St., Haviland St., and the west branch of Hayden Brook Sewer has been completed. A detailed account of this work will be found in the City Engineer's report.

### CATCH BASINS AND MANHOLES

The new catch basins and manholes built this year are as follows: Catch basins—2 on Water St., 1 on Grey Ave., 1 on Bridge St., 1 on Main St. above Chaplin St., 2 on County road. A number of old ones have been rebuilt.

### CROSSINGS

A new crossing was built on Water St. and a number of them had to be raised where the streets were gravelled and rolled.

### TORNADO EXPENSE

No appropriation was made for this expense, but with the cloud-bursts of the past summer and the snow storms this winter, you can fully realize that the street department has had as bad conditions, if not worse, than the tornado to contend with.

### DRIVEWAYS

Eighty-two driveways have been built during the year, requiring an average of two loads of gravel to each driveway, these were mostly iron pipes and will last forever.

## CULVERTS

The culvert on Drummond Ave. has been repaired and put in good shape, also one on Second Rangeway.

## BRIDGES

The Ticonic bridge has been replanked with hard wood planking and also treated with tar. The Crummett bridge on Western Ave., has also been replanked with hard wood and tar put on it.

In closing my report I wish to thank the Mayor and City Council for assistance given me at different times the past year. I have tried to do all the work in my department the best I knew how and have done this as economically as I possibly could. More constructive work has been done than in the previous year and there is more to be done but I have deemed it best to leave this to the incoming administration to decide.

Respectfully submitted,

EDMOND BECHARD,

Street Commissioner.

# Pine Grove Cemetery

Waterville, Maine, February 1st, 1923.
