The S. S. Committee elected Mina M. Coburn Superintendent of schools in the spring of 1914, and she held the office until December when illness caused her to resign.

On Dec. 7 I was elected to fill the vacancy caused by her resignation and from that time on I can report the working of the schools and the accounts for the entire year as taken from the Order Books. Five of the schools commenced the day I was elected and the remaining two one week later. Excellent work was done for eight weeks, when we were obliged to close the schools for lack of funds. This term ought to have been four weeks longer. The school year was thirty weeks, ten in the spring, twelve in the fall and eight weeks in the winter.

We ought to have twelve weeks in each term or thirty-six in a year. There are two good reasons for it, first: We have a nine year course of study so if children enter school when five years old they complete the course and are ready for High School when fourteen. We have heard many people complain because our scholars have not mastered their studies before they enter High School. This is due in some extent to the short school year. If they lose six weeks in one year, in the entire course of nine years they lose fifty-four weeks or one and one half years work. Second: It is a great loss to the teachers to teach only thirty weeks in a year and be out of work the remainder. The best teachers will go where they can get the most, or in other words, will take into consideration the length of term as well as the pay per week. This is a very important matter for if we would have good schools we must have the best teachers we can get for a reasonable sum and we must keep them. I hope you will give this matter careful consideration, and raise a sum of money sufficient to run the schools and not be obliged to close them when they are doing excellent work. In regard to the appropriations for another year. I recommend that we raise \$1000.00 for the support of schools, \$100.00 for books and \$150 for repairs and supplies. In conclusion I wish to thank both teachers and parents for their co-operation in this work.

Respectfully submitted
