THE UNIVERSITY OF MAINE: ITS GROWTH, DEVELOPMENT AND PURPOSES

A Radio Talk from WGBX by President H. S. Boardman

No. 1

It is my purpose to give in a series of short talks, a brief outline of the circumstances leading up to the creation of the Land Grant, or state, colleges and in particular the University of Maine, together with a discussion of some of the problems with which we are confronted, and a statement of our ideals and hopes, for the future.

The early colleges of America were for the purpose of training men for the ministry and were largely patterned from the English institutions of the seventeenth century. Harvard College, established in 1636, was the first of these, and may be cited as a typical institution of the class which prevailed for many years. Many of the early settlers of our country were from Oxford and Cambridge Universities and it was very natural for the first college founded in their midst to be moulded from those institutions. The development of Harvard and other similar colleges proceeded, however, along lines independent of the mother institutions and if one cares to study early American education he will find very little *real progress*, as we now measure it, until the middle of the nineteenth century. To be sure much was accomplished by the colleges of the early days, but the curricula were narrow, the students upon entering were little more than children, and the field from which to draw was limited. At first the product was of the clergy, but soon those preparing for teaching, business, law and medicine appeared, all taking as their basic courses the study of Greek, Latin, Philosophy and Mathematics. Schools of law and medicine were developed later. These colleges and professional schools were open to any one who could pay the price and meet the entrance requirements. The poor man or even the man in fairly comfortable circumstances usually could not afford a *liberal education*, and even the farmer or the mechanic, who could afford the price, felt that his son would be out of place in a college environment.

From these early colleges and professional schools, grew our great privately endowed universities which today are known throughout the world. These are universities in the true sense of the word and are famous for their culture, breadth of vision, wide range of curricula, educa-

tional influence, and the many men and women who have become powerful factors in all walks and professions of life at home and abroad.

PRESIDENT H. S. BOARDMAN

Up to the present time we have been speaking of privately endowed institutions. We now come to a new departure, for some time during the middle half of the nineteenth century, and a considerable period before the Civil War our newer states began to establish institutions supported and regulated by themselves. These were called state universities. In most cases they were for the purpose of adding higher education to the school system. The state university was, therefore, the crown of the public school system. These institutions were from the first much more liberal than their predecessors, but they did not recognize any special obligations to the industries or to the industrial classes. Their establishment was, however, a distinct step in advance in recognizing the sciences, and they have played an important part in the development of present day education. The state university idea was not popular in the East, especially in New England on account of the abundance of privately endowed institutions, and today we find only two states in New England

with state universities—Maine and New Hampshire. Vermont has a university but during the past few years very little state support has been given and it is now essentially a private institution.

In the late fifties a movement appeared in favor of having the National government support higher education, and a bill was passed by Congress, "to promote the liberal and practical education of the industrial classes." It was vetoed by President Buchanan. The friends of the bill, however, headed by Senator Justin S. Morrill of Vermont, were not to be so easily discouraged; and after a hard fight a similar bill was passed three years later and signed July 2, 1862 by President Abraham Lincoln, and a national system of education with new ideas and ideals was made possible. This bill, popularly known as the "Land Grant College Act," provided that each state which claimed the benefit of the Act should support and maintain at least one college where the leading object should be "without excluding other scientific and classical studies and including military tactics, to teach such branches of learning as are related to agriculture and the mechanic arts—in order to promote the liberal and practical education of the industrial classes in the several pursuits and professions of life."

The Land Grant Act was accepted by the Legislature of the State of Maine March 25, 1863. Governor Cony in addressing the Legislature at that time made the following remarks:

"While among the sciences to be taught, it is declared that the leading object is to teach those relating to agriculture, and the mechanic arts, the language of the act making the grant, declaring specifically that it is not its purpose to exclude other sciences, is pregnant with the conclusion that the design was to establish institutions of learning of the highest order, for its scope is as comprehensive as its whole spirit is liberal."

It was not until 1868 that the institution was ready to begin its work. The intervening five years were full of interesting events. Notwithstanding the fact that the State had officially accepted the Act and pledged its faith, there was much opposition to the creation of a new institution

and an honest belief that it would fail. Colby College, then known as Waterville College, Bowdoin, and Bates, each endeavored to have the new institution combined with itself, and many plans were proposed for this purpose. It appears that the offer of Bowdoin was very nearly accepted as she agreed to provide buildings, which could not be made available from the Land Grant funds. Their conception of the main purpose of the Act, however, did not satisfy the commission and finally Orono was selected as the home of the new institution. That the institution would have a short life was believed by many, and that the three existing colleges were of the same belief is exemplified by a remark made by a faculty member of one of the Maine colleges, as reported from an authentic source, to the effect that he did not approve of connecting the new college with any *existing* institution, but if the State had determined to bury it, his institution could give it a more decent burial than any of the others. This remark was not made with any animosity, but expressed an honest conviction.

During the period from 1868 to 1897 the Maine State College of Agriculture and Mechanic Arts had its existence. The time came when the friends of the institution believed that it would be possible to render a greater service to the State if the name were changed to University of Maine. Accordingly the legislature of 1897 made this change. No new charter was given, for the original one, together with the privileges implied by the name university provided ample opportunity for growth, expansion and development. That Senator Morrill, the father of the Land Grant College Act, did not have a narrow conception of the function of the State colleges is shown by a letter dated nearly thirty years after Congress made these institutions possible. He said in part,

"It is a joy to me to know that the Land Grant Colleges in nearly every state are fully meeting the original purpose, as well as public expectations, and are offering an American system of liberal education to the great masses of our people formerly limited mainly to the instruction offered by common schools and academies.... Arts and Sciences have been vastly extended and multiplied, and special learning is every where demanded and early rewarded. The Land Grant Colleges by no means exclude classical branches of education, and they should be supplied.... *A son of a farmer or of a mechanic who desires a liberal education preparatory to some different vocation from that of his father should be able to find it in the land grant college of his state and should not be subjected to the inconvenience and increased expense of*

seeking for it in a distant state."

Such were the high ideals of Senator Morrill and could he have lived until today he would have seen his hopes realized in ways of which he never dared to even dream.

The State of Maine owns an institution which must fulfill the function of the Land Grant College and which also is privileged to extend its activities into that more extensive realm offered by the possibilities of university service. It is for the people of the State to say how far this service shall go and how extensive shall be its range. I believe, however, that we are all unanimous in the firm conviction that quality must come before quantity and what is done must be well done.

MAINE MAN MENTIONED FOR GOVERNOR OF NEW HAMPSHIRE

H. Styles Bridges of Concord, New Hampshire, a native of West Pembroke, Maine, and a graduate of the University of Maine, is prominently mentioned by the local press of New Hampshire and by Boston papers as a candidate for the Republican nomination for Governor in New Hampshire.

Mr. Bridges was for a time County Agricultural Agent in Hancock County and since going to New Hampshire several years ago has served as Secretary of the New Hampshire Farm Bureau Federation, Editor of the Granite State Monthly, and is at the present time an official of the New Hampshire Investment Company and associated with ex-Governor Robert P. Bass in a business capacity. He has also been prominently identified with the Gubernatorial campaign of 1924 and the Senatorial campaign of 1926, and served as Director of the Speakers' Bureau for the Republican State Committee.

Mr. Bridges is active in the Maine Alumni circles and is serving as Secretary-Treasurer of the University of Maine Alumni Association of Southern New Hampshire.

MAINE IN TURKEY

Maine's three grads in Turkey, Helen and Lee Vrooman '18 and Ruth R. Crockett '25, write enthusiastically of their work and experiences. For three years now these alumni have been instilling Maine spirit and loyalty into the young Turks who come under their influence.

International peace, team work and sound character are being particularly emphasized because these together with agricultural problems appear to be the outstanding needs.

Altho teaching is the regular work of our alumni they have in addition organ-

ized and are conducting clubs and contests which aim to bring out the desired features. This extra work calls for funds which were not available from the colleges by which they are employed.

To meet this need a Maine In Turkey Association was organized which aims to foster Maine ideals in Turkey thru these grads. For two years Maine alumni, faculty and students have sent money. Last year \$700 was sent, part of which is being used for salaries of our three representatives, but most of it is to be used for club work, purchase of athletic equipment, peace prize essay scholarships and agricultural educational and experimental work which is badly needed. The students on the campus have raised nearly six hundred dollars this year for Maine In Turkey. The Association has issued an attractive leaflet—a copy of which will be sent to any alumnus who may desire one.

1912 CLASS PLANNING ITS 15th ANNIVERSARY

The officers of the 1912 class consisting of "Chuck" Woodward, president; June Kelley, vice-president; Maurice Jones, treasurer, and Arthur Deering, secretary, are already busy making plans for the 15th anniversary reunion of their class, June 10-11-12.

In fact at commencement last spring those few 1912 men present met and discussed informally suggestions for this year. In the group were Maurice Jones, Ben Kent, Phil Hussey, "Frankie" Darrel

Present plans include, in addition to regular events, an informal get-together Friday night, June 10th—Class luncheon, Saturday noon—Alumni Banquet and Hop that night. The following day a program is being planned that will excel anything enjoyed at the 10th Anniversary of this class in 1922. Details of this will be announced later.

What suggestions have you that will help the committee in working up a program? Send them to your secretary. Write him you are going to be present. Do it now.

OBSOLETE ADDRESSES, CLASS OF 1921

We would appreciate any information which might help in locating any of the following:

Cooley, Leland R.; Pelletier, Emile J.; Bragg, Conrad R.; Cote, Joseph J.; Flynn, Daniel J.; Kelleher, James W.; Klubock, Benjamin; MacSwain, Mahlon J.; O'Connell, John E.; Schweitser, William P.; Tarbell, William E.; Vasconcelos, Samuel; Wolfe, Donald H.

THE BANGOR FIRE

A fierce fire starting in the Coe Block on Columbia, Feb. 13th, threatened for a time to duplicate the disastrous fire of 1911, which so many Maine men recall so well. It burned through to Main St before it was checked.

History surely repeats itself for when the fire was at its height the Maine R.O. T.C. (cadets in ye olde days) were called out to guard the burning city.

The plant of the Burr Printing Co. was destroyed in the fire. This explains a late issue. The University Press on the campus is now doing the printing.

The Maine Campus describes the fire as follows:

"In response to a call from the Bangor police, Major Glover mobilized the R.O. T.C. about 12:15 A.M. Monday morning. It was thought that enough furnishings and wares from the burning stores would be saved to make a guard necessary from possible scavengers.

"The dormitories and fraternity houses were quickly emptied of R.O.T.C. men. They appeared at the waiting room anxious to know what the rumpus was about. On being told, they all became highly anxious to seek fame among the flames, so to speak. Passing motorists were held up and a few men were lucky enough to get rides down to Bangor at once. The majority had to wait for a truck and a special car.

"When the unit arrived on the scene of action they found that the only things saved were a few desks and chairs, also a penny weighing machine. Since their services were not needed for guarding the things saved, they wandered around the scene of conflagration. Some, knowing something of the adventures of the R.O.T.C. during the terrible 1911 fire, were heard describing vividly to their lesser informed companions the way in which the detachment kept off throngs of hobos by means of bayonets for three days and four nights. One of the features of the morning was a bakery celebration on Cross Street. The windows had been broken in and the proprietor told the men to help themselves to cookies but not to touch cream puffs and the like for fear of glass. Good advertising according to several of the fellows.

"The unit had to walk to Otis Street to get the car back to the University and after a short delay reached their beds at four o'clock."

THE STUDENT-FACULTY-ALUMNI BANQUET

The *Alumnus*, as it goes to press, just missed having, as a feature, the Student-Faculty-Alumni Banquet. Held this year on February 25 at the Bangor House a

delightful custom of recent years is perpetuated.

Robert P. Clark '15 was toastmaster. Judge William R. Pattangall '84 was alumni speaker. Dean Paul Cloke of the College of Technology was the faculty speaker. Edward M. Engel '27 represented the student body at the speakers table. Two hundred were in attendance.

A fine orchestra from the University played during the evening and special entertaining features were interspaced throughout the program.

THE ALUMNUS NEEDS YOUR ADVICE

Fellow Alumni:

"The Alumni Association should make some real effort to make known to all Maine alumni the work and achievements of our more prominent alumni."

So said Hosea Buck, alumni trustee of the University, in his last annual report. Many other alumni have recommended the same thing when asked how the *Alumnus* could be improved.

The Maine *Alumnus* is owned and published by the General Alumni Association of the University of Maine. It is therefore the property of Maine alumni individually and collectively. What they wish it to be it will be.

Many Maine alumni deserve a sketch or an article descriptive of their lives and accomplishments. It is absurd however to leave the selection of them to one individual and consequently as editor of your paper I am going to ask you to write me concerning alumni whom you believe should appear in our "Who's Who." As the town moderator said "Nominations are now in order."

Sincerely,
Robert P. Clark.

THE WINTER TRACK MEETS

On Wednesday, February 2nd, Forest A. Taylor '27 was our sole representative at the Milrose Athletic Club events at the New Madison Square Garden, New York. He ran unplaced in the 2 mile invitation scratch run, pitted against America's best distance runners. He showed to fair advantage but had not reached top form on account of short period of training.

At the Boston Athletic Association games, Saturday, February 5th, our Varsity 1 mile relay team competed in a triangular run with Boston University and New York University; our team drew the second starting position.

Winfield Niles, by clever sprinting attained the all-important pole position at the first corner, and holding it until just beyond mid-way through his relay and

was passed by his competitors; he showed true racing form by drawing to even terms at the end of his relay.

Fred Thompson ran the second leg of the race, and though defeated by the Boston University member, his heat opened up a fair gap upon the New York University team, who had badly messed up the passing.

Byron Porter ran a very steady relay and managed to maintain his distance, having held his own against the other members.

Captain Dan Torrey ran as our anchor man, and as usual, his dependable performance was duplicated, and though plainly outrun by a better team, finished a full 15 yards behind Boston University, and about the same distance ahead of New York University.

Roy Hobson, Captain of the Track team competed in the pole vault, in which all men were scratch. He made a very creditable showing, clearing 12 feet upon the indoor surface. This performance would generally be good enough to be within the prizes, but with Sabin Carr of Yale vaulting a height of 13 feet 7 $\frac{5}{8}$ inches and Paul Harrington of Boston A. A. and Laddie Myers, formerly of Dartmouth and now of Chicago A. A. pressing Carr to this great height, Capt. Hobson's meritorious feat was overshadowed.

LOCAL ASSOCIATIONS VISITED

An increase in interest in local alumni associations throughout the country has been noticeable this winter. Several cities where little has been done in recent years have reorganized. A new association has been formed in Presque Isle.

President H. S. Boardman and "Bob" Clark, alumni secretary, made a ten day tour in this month on which which they visited Worcester, Mass., Hartford, Conn., Philadelphia, New York, Schenectady and Providence. Boston was visited on a previous trip.

Meetings are scheduled already for Augusta, Lewiston, Berlin and Manchester.

1927 TRACK SCHEDULE

April 30	Maine vs. New Hampshire at Durham
May 7	Maine Interscholastic at Orono
May 14	Maine Intercollegiates at Orono
May 21	New England Intercollegiates (location undecided)
May 27	National Intercollegiates at New York

COMMENCEMENT 1927

As years roll by Commencement makes a greater and greater appeal to Maine alumni to return to the Campus of their college days. This year's appeal has already been felt. Alumni from far and near are making their tentative plans to be in Orono, for at least Alumni Day, June 11th.

The feature of last Commencement was the inauguration of Harold S. Boardman, '95, as president of the University. Class frolics were sacrificed that the first alumnus of Maine to become its president might be started off on his new duties with a real boost from his fellow alumni.

The features of this year's Alumni Day will be carefully planned class reunions and with University co-operation, a home coming, welcome back tone will predominate.

Class Secretaries are already at work. We approve of their early publicity for it takes some advance planning for most of us to take a holiday.

While the policy at Maine is for reunions every five years, the fact that your class does not reunion this year should not keep you away. Get the "back for Commencement"

habit, you will always find old friends and a good time at Orono.

Maine Men Making Good as Electrical Engineers

One of the recent publications to appear from The Technical Press is the "Radio Amateur's Handbook" by F. E. Handy, U. of M. '24. Mr. Handy graduated from the Electrical Engineering course and was prominent in amateur radio work while in college. While in college he carried on communication with amateur radio operators in Europe and was heard as far away as Australia. Since graduation he has been active in the American Radio Relay League of which he is Communications Manager, and has also been doing editorial work for Q S. T. a progressive radio journal.

The last copy of "The Electric Journal" contained an article by Donald F. Alexander, U. of M. '23 on "Accessories for Large Induction Motors." This is a very comprehensive article and gives valuable information on this phase of the subject. Mr. Alexander has made a remarkable record since graduation and is now in responsible charge of large induction motor design for the Westinghouse Electric & Manufacturing Company. One of his latest products is an 8,000 h p induction motor for the Ford Automobile Company.

At the recent annual meeting of the American Institute of Electrical Engineers a paper was presented by Arthur E. Silver, U. of M. '02, entitled "Standardization of Voltage Ratings for A. C. Power Systems and Equipment." This is a very timely subject along the lines of standardization as urged by Secretary Hoover. Mr. Silver is one of the chief engineers of the Electric Bond and Share Company located in New York City. When in college, Mr. Silver was a half mile runner and held the University record in that event.

In another paper on "The Losses in Synchronous Machines" by Messrs. Lafoon and Calvert, acknowledgement was made of the work last summer of P. E. Watson, a Senior in the department of Electrical Engineering. Mr. Watson spent last summer with the Westinghouse Electric & Manufacturing Company on research work with the above gentlemen. The results showed very creditable effort on the part of Mr. Watson.

At this same meeting, at which the University was represented by Dean Cloke and Professor Barrows, the following alumni were in attendance: A. E. Silver '02; C. A. Mayo ex-'09; H. H. Beverage '15; H. P. Sleeper '15; R. T. Pierce '15; L. G. Sawyer '15; Park Elliott '15; D. B. Perry '18; R. M. Kendall '19.

Several of these men have become nationally prominent in their respective lines, for instance, "The Beverage Antenna"; "Pierce Method of Measuring Power"; "Sleeper, Protection Engineer"; are terms often heard in the electrical industry.

Department of Education and Vocation of the University Club, Boston, Mass.

The University Club, Boston, Mass., announces the establishment of a Department of Education and Vocation.

The purposes of the Department are:

- (1) To create a wide range of informative sources regarding occupational opportunities
- (2) To inform recent graduates concerning opportunities for placement and replacement.
- (3) To offer a counselling service to recent graduates on their vocational problems.
- (4) To assist, where requested, in arranging vocational conferences at the colleges.
- (5) To collaborate with similar agencies, with personnel and employment departments, and with college placement bureaus in securing and disseminating information, which shall be accurate and current, regarding the character of requirements for successful participation in business and industry.

In cases where direct placements are made by the Department, a small fee will be charged. The major portion of the expenses for maintaining the Department, however, will be borne by patrons of the work.

For full information address Stanley C. Lary, Director, Department of Education and Vocation, The University Club, Boston, Mass.

TO ALUMNAE

Sister Alumnae,

Won't you plan to come back for Alumnae Day—the 12th of March? It will be the last day of the basketball tournament so that you can see the finals played. In the evening we shall have the alumnae-varsity game, followed by an entertainment which will include good things to eat.

This is our first Alumnae Day. Can't we do as well as the men? We promise you a mighty good time but we need you to help make it.

Harriet Weatherbee

Alumna Member of the Girls' A.A.

THE WINTER CARNIVAL

Maine's Winter Carnival week, a vacation period for many, but the occasion for pleasurable social functions for the larger number, passed off with the usual degree of success. Out door contests were carried out with some regard for schedule for old winter settled down again and afforded plenty of snow for snowshoe and ski events.

The Carnival program was most interestingly opened at the Chapel on Thursday night when the most successful play, Captain Applejack, was presented by the Maine Masque under the direction of the Department of Public Speaking. The affair was largely attended in spite of the heavy storm of the evening and much enthusiasm was expressed over the fine work of the players. The cast was given in last week's issue and all acquitted themselves most creditably.

Intra-Mural events were run off in front of the Library and Balentine beginning Friday morning and several interesting contests occurred. The big cup went to Phi Eta Kappa in the event.

Friday evening the Carnival Ball was the big social event of the week and was largely attended and a most enjoyable affair. The music was by Karl Rhode's orchestra of Boston and while not the finest that has been heard on the campus, rendered very pleasing music for the whole affair.

The Carnival was brought to a close Saturday evening by the fraternity "at homes", nearly all of the fraternities having many guests and carrying out an interesting dance program for the evening.

In the open intercollegiate competition Saturday Maine defeated Lee Academy, Colby and Bowdoin in the ski and so called winter sports events. The scores were Maine 17, Lee 15, Colby 3, Bowdoin 1. The races held a part of the morning and early afternoon program.

Colby '29 of South Paris was the star of the day for Maine, winning the long seven mile ski cross country grind, placing second in the mile and being a member of the Maine relay team. Lowell of Lee had two first places for the day in the snowshoe cross country. The Colby team defeated Maine in the dual matched relay.

UNIVERSITY BROADCASTS WEDNESDAY EVENINGS

WGBX, radio station of the University of Maine, is broadcasting educational programs every Wednesday evening from 7:30 to 8:30.

Last year musical programs were also broadcasted, but the fact that those listening in could get good music from any number of other stations led to the adoption of the educational program.

COMMENCEMENT REUNIONS

Led off by the class of 1872, which celebrates the 55th anniversary of its graduation this June, eleven classes will hold reunions at Commencement next June. 1922 will come back for the first time and they will be the youngsters of the occasion, and are promised a wonderful time.

The class Secretaries of the reunion classes are as follows:

1872	E. J. Haskell	541 Brighton Ave., Woodfords
1877	S. W. Gould	Skowhegan
1882	W. R. Howard	Belfast
1887	J. S. Williams	Guilford
1892	E. W. Danforth	468 Medford St., Somerville, Mass.
1897	W. L. Holyoke	675 Yadkin St., Kingsport, Tenn.
1902	H. E. Cole	320 Second Ave., Pittsburgh, Pa.
1907	E. J. Wilson	15 Clough St., Lynn, Mass.
1912	A. L. Deering	University of Maine, Orono
1917	F. O. Stephens	21 Academy St., Auburn
1922	I. M. Rusk	West Townsend, Mass.

FORMER TRUSTEE DEAD

Hon. Frank E. Guernsey of Dover-Foxcroft, former trustee of the University, died at the Massachusetts General Hospital, January 1st. Death was immediately due to heart failure, and followed a considerable period of ill health.

Mr. Guernsey was a native of Piscataquis county and practiced law there since 1890. He served as a representative to the Maine legislature and to the State Senate. He was an impressive speaker, and was successful in both business and political affairs, being an officer in several industrial enterprises and a member of the 60th to 64th Congresses from the Fourth Maine district.

He is survived by Mrs. Guernsey and son Thompson, who graduated from the University last June and is now studying law at Harvard.

1927 FOOTBALL SCHEDULE

September 24	Fort Williams at Orono
October 1	Rhode Island State at Orono
" 8	Connecticut Aggies at Storrs
" 15	Open
" 22	Bates at Lewiston
" 29	Colby at Waterville
November 5	Bowdoin at Orono
" 11 or 12	New Hampshire at Orono

PHILADELPHIA

The annual banquet of the Philadelphia Alumni Association was held at the Manufacturer's Club, Broad and Spruce Streets, Philadelphia, Pa. on Thursday evening, February 10, 1927. Our Association was very fortunate in being able to have President Boardman and Alumni Secretary Clark with us again this year. For most of the local alumni, it was the first meeting with President Boardman since he had officially assumed the duties of his office.

Following the dinner, Secretary Clark gave an informal talk on alumni matters, and conditions of athletics and student affairs at the University. This was followed by a talk by President Boardman on the conditions and prospects of the University. Both talks were very interesting, and well received.

Our genial President L. G. Paine of the class of 1885 served as master of ceremony for the occasion.

While the attendance was not as large as could be desired, on account of sickness of our members, and conflicts with other engagements, those present enjoyed a very pleasant evening, and were well repaid for attending the banquet.

The following is a list of the members present:

L. G. Paine '85, A. W. Drew '90, G. S. Frost '98, M. B. Downing '99, J. A. Hayes '00, C. H. Lombard '00, H. C. Pritham '01, M. Ross '01, E. A. Stanford '06, W. A. Fogler '09, G. M. Carlton '18, C. E. Springer '18, L. R. Douglass '20, R. G. Conforth '20, H. F. Ray '22, H. K. Modery '25, R. W. G. Morrison '25, A. R. Chapman '25, W. Knight '25.

W. A. Fogler
Secretary & Treasurer
Philadelphia Alumni Association
2301 Market St.
Philadelphia, Pa.

STUDENTS TO STUDY UNIVERSITY PROBLEMS

President Boardman has started another innovation at Maine. He is inviting the student body to study some University problems and to report what they think about it.—But let him speak for himself.

"There appears to be a desire among the thinking men of the undergraduate body to study some of the problems connected with the University with the end in view of presenting constructive criticism as seen from their viewpoint. The six men appointed for this investigating committee are Clare W. Brown '27 and Robert F. Scott '28, representing the College of Technology; Cyril G. Cogswell '27 and John Mahoney '27, representing the College of Arts and Sciences; and Henry O. Trask '27 and Ralph J. Swift

'27, representing the College of Agriculture. I heartily agree with this desire and stand ready to co-operate in every reasonable and proper way. I firmly believe that many problems of the institution with which the students are closely associated must, in order to reach a real solution, be studied by them and be solved by them. It appears that more sympathetic relations can be attained between students and teachers and between students and the administration by some such activities. I am therefore asking six undergraduates if they will form the nucleus of a committee on student investigation and research, with the suggestion that they select six more from the Junior class in order to make the committee self perpetuating."

FRESHMAN TRACK MATERIAL

The following is what a student reporter thinks of our freshman track material. We quote from the Campus:

"Among the athletes working out with renewed effort after the Christmas holidays are a large number of freshmen. Performance in class relay and the pumpkin meet show that the team which will carry the 1930 banner in track next Spring will be a very able one.

"Among the most promising in the sprints are Maxim, last year's captain at Lewiston High, Pickard, captain of Huntington School's fast relay outfit, and Berenson from Chelsea (Mass.) High School.

"In the quarter mile, "Charlie" Hardy of last year's crack Hebron scintillaters, will be among the leaders.

"Miller of Brewer High is perhaps the best bet in the middle distance runs. He is known for his ability as a half miler.

"Richardson, who led the freshman cross country pack last fall will be the biggest bet in the mile. Richardson comes to us from Lee Academy and promises to be a real star.

"In the hurdles, Jones of Portland High is a sure place winner. Jones is also a high jumper of no mean ability as is Wescott of Hebron fame and "Chet" Moore of Wilton Academy. Wescott not only high jumps but is among the best when it comes to broad jumping. Last Spring Wescott had the misfortune to break his leg but he is back in the running again this year and is going even better than before.

In the pole vault we find a real star in Harding, also of Hebron Academy. Harding has done some remarkable jumping this fall, and will, in all probability, continue his good work thruout the winter and spring seasons of track.

"In the weights, "Judd" Files, last year's

Hebron captain will no doubt, be the best bet in both the shot and hammer. He is the holder of all interscholastic shot-put records in the state and was recognized as one of the best school boy shot putters in New England. He will have a close second in the weights in "A1" Winterbottom of last year's Edward Little High School team."

INTERCOLLEGIATE ALUMNI HOTEL PLAN DEVELOPING FAST

During the past two months twelve new hotels have been added to the list of Intercollegiate Alumni Hotels which are serving throughout the country as headquarters for alumni activities in their respective communities.

The Intercollegiate Alumni Hotel Plan, as has been reported in a previous issue, is sponsored by the alumni organizations of more than eighty colleges and universities throughout the country. The Intercollegiate Alumni Extension Service, Inc., the central organization which has been created to carry out the plan, reports that traveling alumni are already beginning to make good use of the card indexes containing the names of resident alumni, which are on file at every designated hotel. Many alumni have also written in expressing their pleasure at finding the current issues of their alumni publications awaiting them upon their arrival at these hotels

Several of the Intercollegiate Alumni Hotels have set aside a definite place in

which the alumni publications are kept on file.

Alumni secretaries generally have instructed their local club officers to cooperate actively with the aims of the Intercollegiate Alumni Hotel plan, thereby insuring the concentration of alumni affairs at the designated hotels. In several cities small alumni clubs of a size insufficient to maintain a separate association have combined to form "intercollegiate local clubs" founded on mutual territorial interests.

There are now forty-five Intercollegiate Alumni Hotels scattered throughout the country in what promises soon to become an imposing array of focal points for the combined alumni activities of America's foremost institutions of higher learning.

BASKETBALL

The Basketball season up to date has been one of misfortune for the U. of M. Varsity. Starting the season with the ineligibility of Fitzhugh, who had been expected to star at center, and the loss of Capt. Hanscom, who was at Forestry Camp, the team lost to Norwich and Dartmouth by close scores on their first trip before Christmas.

In January the team was further handicapped by Hobbs, flashy forward, leaving college and the sickness of "Speed" Branscom, but with a small squad the team plugged along and won half of their home games, winning an especially brilliant game from Massachusetts Aggies in an overtime game, 29-25.

Branscom and Epstein have been the leading scorers with Kamenkovitz excelling in floor work.

The rest of the schedule calls for games away from home with Harvard, Connecticut and Rhode Island, and the team hopes to make a good showing.

The Freshman team have had an in and out season, at times looking good and other times mediocre. A four game trip through Aroostook closes their season, and this is the first time a Maine team has invaded this section. Capt. Abbott, a former Hebron star, and Millington, a forward, should be valuable assets to Coach Brice's Varsity next season.

The Annual Interscholastic Tournament held March 10, 11, 12th is attracting more attention than ever before, and with the games played on the new floor in the Indoor Field, and with greatly increased seating capacity should eclipse any past effort.

Pres. Lowell of Harvard says in his annual report "that our educational system should be not more restrictive but more selective."

RELAY TEAMS LOSE AT LEGION GAMES

Both relay teams representing the University of Maine at the American Legion Games at Portland, Feb. 18th, were defeated.

The one mile relay team running three hundred and ninety yards each were barely nosed out by the Bowdoin flyers. The race was very close indeed. Niles, running lead off man for Maine, gained a slight lead which was held by Thompson, who ran second. Porter took the baton from Thompson and led his man for the first lap. On the second time around there was a miniature collision on one of the corners and Porter lost his balance along with five yards. He gained his equilibrium again, and made up three yards of the loss. Captain Torrey, running anchor started off in a cloud of dust and was about to pass his man, when he stumbled and met with the same misfortune as Porter. Although he fought hard all the way to the tape he was unable to pass his man and Bowdoin won by a fraction of a second.

The second relay, a two mile affair, was more of a runaway than anything else. Bates led all the way gaining a lead of a lap and a half over the Maine team.

1927

COMMENCEMENT

June 9th to 13th

Alumni Day June 11th

This is homecoming day for all Maine alumni. What could be finer than a June day on the Maine campus, with a program arranged for your especial benefit and with scores of former classmates and friends to enjoy it with. Come back!

Reunion Classes

This is reunion year for eleven Maine classes: 1872, 1877, 1882, 1887, 1892, 1897, 1902, 1907, 1912, 1917, and 1922. Never miss your class reunion.

Come Back for Commencement

Alumni Personals

WEDDINGS

Ex-'17—Cards have been received by friends in Bangor announcing the recent marriage of Clyde A. Benson and Miss Harriette W. Heisey on January 1, 1927 at Portland. Mr and Mrs Benson are residing at 62 Coyle St., Portland.

'21—Fried H. Brown and Miss Irene L. Millard were married June 26, 1926 at Jacksonville, Florida. Mr and Mrs Brown are residing at 1342 Dievel Ave., Miami Beach, Florida.

'22—Helena M. Derby and Howard A. Reed were married December 25, 1926 at Bangor. Mr and Mrs Reed are residing at Millinocket.

Ex-'22—Alice Harmon is now Mrs. J. Millidge Dyer. Mr and Mrs Dyer are residing at 3 Fairmount Terrace, Wakefield, Mass. Mr Dyer is in the Foreign Exchange Department of the Shawmut Bank of Boston, Mass.

Ex-'22—Harold H. Hopkinson and Miss Hazel Z. Reed were married January 17, 1927 at Fort Fairfield. Mr Hopkinson is Assistant Treasurer with the Frontier Trust Company of Fort Fairfield.

'23—Millard E. Libby and Miss Pearl Gerish were married December 25, 1926 at Old Town. Mr and Mrs Libby reside in Milford, but at present Mr Libby is with the Lincoln Pulpwood Company at Princeton.

'24—Doris Gonyer and William G. Springer were married October 22, 1926 at Waterville. Mr and Mrs Springer are residing at Frankfort, where Mr Springer is Principal of the High School and Mrs Springer is his Assistant.

'24-'25—George E. Lord and Miss Sara L. Quincy were married recently and they are residing at Farmington, where Mr. Lord is County Agent.

'24—Alice B. Noonan and Donald O. Neal were married July 17, 1926 at Danforth. They are residing at Danforth for the present.

'24—Philip T. Oak and Miss Louise H. Matern were married December 30, 1926 at Whiting, Indiana. Mr Oak is with the Standard Oil Company of Whiting, Indiana.

ENGAGEMENTS

Ex-'20—The engagement of Kathleen M. Snow to Warren E. Hill has been announced recently.

Ex-'20—The engagement of Edwin S. Turner and Miss Gretchen Reinhardt has been publicly announced to friends.

'23—The engagement of Donald F. Alexander and Miss R. Marjorie Cook was announced recently. Mr Alexander has been employed with the Westinghouse Electric and Manufacturing Company at East Pittsburgh, Pa. since his graduation from the University of Maine, specializing in electrical design of large alternating current motors for steel-mill and

At last—a Long Felt Human Want is Filled by the Invention of this Great Necessity—Dr. Farrington's

Portable Reading Table For the Lap Conserves and Prolongs the Life of YOUR Eyes!

Here is the helper you have always needed. It saves your eyes—conserves your energy—permits concentration with real relaxation and absolute comfort. The FARRINGTON supports books, magazines, reading matter, typewriter, writing materials, etc., at just the right angle to insure correct vision, regardless of position.

Sit right—read right—feel right

Think what this means! Comfort, enjoyment, greater mental and physical energies. Greater facility for the mechanics of reading and writing. Genuine relaxation. The Farrington allows you to assume a comfortable position when reading, writing, etc.

Students Delight In Its Use

Prof. E. L. Eaton, University of Wis., says: "It is a joy to read a book of any size, resting easily in a rocking chair. Thousands will now have a new joy reading while resting."

Men, Women and Children SHOULD HAVE A FARRINGTON

You can not afford to go longer without this remarkable device for the conservation of your vital forces. It will help everyone who reads, writes or works. It is indispensable to invalids, sick folks and shut-ins.

NATURE DEMANDS ITS USE

- Prevents Eyestrain
- Insures Correct Posture
- Conserves Mental Energy
- Permits Greater Concentration
- Conserves all Vital Forces

IDEAL GIFT FOR ALL AGES

You couldn't buy a more practical gift than the Farrington. It is light, (weight, less than 44 ounces), handy, durable, portable, collapsible and adjustable to any position. No skill required for handling. Should last a lifetime.

- STYLES AND PRICES**

How Is Your CREDIT?

YESTERDAY—
life insurance agents
were considered a bore, a
time consuming nuisance.
That prejudice has disap-
peared now.

Today, if you ask a
banker about your credit,
he asks you about your
life insurance.

But, though you may
have enough insurance
to satisfy your banker,
you may not have exactly
the right arrangement of
policies to secure you and
your dependents the max-
imum of future security.

A John Hancock agent
is a specialist in security
for the future, the founda-
tion of mental serenity.

Ask him to come in.

A STRONG COMPANY, Over Sixty Years
in Business. Liberal as to Contract,
Safe and Secure in Every Way.

MAIN FEATURES OF THE INTERCOLLEGIATE ALUMNI HOTEL MOVEMENT

Interested alumni can secure from a clerk at the desk of each Intercollegiate Alumni Hotel an information leaflet which describes in detail the Intercollegiate Alumni Hotel movement.

At each Intercollegiate Alumni Hotel there will be maintained a card index of the names of all the resident alumni of all the participating institutions. This will be of especial benefit to traveling alumni in locating classmates and friends.

The current issues of the alumni publications of all the participating institutions will be on file at each Intercollegiate Alumni Hotel.

Reservation cards will be available at the clerk's desk in each designated hotel and at the alumni office in each college or university. These reservation cards will serve as a great convenience to travelers in securing advance accommodations.

The managers of all Intercollegiate Alumni Hotels are prepared to cooperate with individual alumni to the fullest extent and are also prepared to assist in the creation of new local alumni associations and in the development and extension of the activities of those already formed.

HIS FAITH unconquerable, his passion for work irresistible, his accomplishment not surpassed in the annals of invention, Thomas Alva Edison has achieved far more than mankind can ever appreciate. February eleventh is the eightieth anniversary of his birth.

Wherever electricity is used—in homes, in business, in industry—there are hearts that are consciously grateful, that humbly pay him homage.

GENERAL ELECTRIC
