March 1, 2010

Dear Brooks Residents,

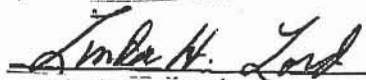

Are you as surprised as we are that it is now 2010? Once again we look back over a year of changes. First of all we thank Dan Mulcahey (Jimmy) for his unsurpassed contributions to the Town Office. His service as a Selectperson from 2008 to the fall of 2009 was marked by the dedication and seriousness of purpose for which he is well known. Dan still spends hours on updating tax maps and remains an invaluable contributor to the operation of the Brooks town office. We also want to recognize our outstanding Volunteer Fire Department. The amount of time these men and women spend in training and fighting fires is remarkable. How Bob Tuthill did this for 61 years, we'll never know. Thank you to each and every one of you for your service and dedication under the leadership of Chief Jeff Archer, Assistant Chief Roscoe Kenney and First Officer Paul Muir. Many others in town volunteer in a number of civic organizations and boards that enrich life in Brooks and make this a really special place to live. We honor each one of you and thank you!!

What has changed in Brooks since March 2009? Here's a partial list:

- Hundreds of books have been contributed to the second floor of the town office. They have been organized and are ready for you to browse and borrow. Drop in and see for yourself!
- Waldo County Superior Court has settled the law suit of *Town of Brooks vs. Clifford Bennett*. The abandoned town road between Veterans' Hwy (Rte 7) and the South Brooks Cemetery has a public easement and may be used by all.
- This year the fire station belongs to the town of Brooks. **We have made our last payment!!**
- The road bond has contributed to complete paving on 7 roads: School St, Jewell St, Hall Hill Rd, Reynolds Rd, Morgan Pitch Rd, Valley Rd and Payson Rd. Partial pavement was done on Littlefield Rd, Lang Hill Hwy (Rte 203), Kenney Rd, Underpass Rd, By-Pass Rd, Skyscraper Hill Rd and Arsenauld Rd.
- Although this has nothing to do with town government, the Delmont Clark property is central to our village. The Newforest Institute has purchased this property and anticipates a variety of uses. A farm stand will be set up there this summer.

On behalf of Barbara Moody, Tom Bennett and Jane McLaughlin we thank you for the privilege of serving you, the people of Brooks, the heart of Waldo County.

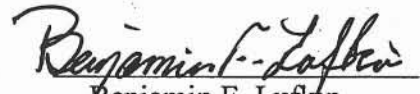

Sincerely,

Linda H. Lord

2010 Report of the Brooks Fire Department Officers

Hello Citizens

We are happy to say it has been another safe year for our fire department. During the past year our fire department has been working on hydrant repairs. Unfortunately, due to weather and surprise overruns in our operations budget for truck repairs and maintenance we have only been able to replace one hydrant and purchase parts for four others. This was done with the assistance of a small grant from the US Forest Service and budgeted funds from the town. Our intent is to get the four hydrants we have parts for operational during 2010. In making the hydrants operational we are working towards our goal of changing the ISO rating of our town. This lower rating would result in better insurance rates for homeowners in the town of Brooks.

Along the same note our Waldo County Fire Association has been meeting with the Insurance services office to work towards the measures it will take to lower the homeowner insurance ratings in Waldo County. This is turning out to be quite the task and is an ongoing project that will be involved and take awhile. We will have further updates as it develops.

We have started a Junior fire fighter program in which minors 16 to 18 years old can join the fire department and attend all the trainings and meetings that the adult fire fighters attend. The juniors however are limited on actual emergency scenes. This program was developed around the Bureau of Labor and Standards model. We can not say enough good things about the juniors, what they are doing and the hard work they are putting in towards their training. This has been a welcome supplement to our fire department and has raised the interest among our youth towards the department and surrounding community. Anyone interested in hearing more on this program please stop by at the station and we will gladly answer any questions. —

A lot of time has been spent this year on maintenance to our parking lot, painting the interior of the station, washing siding, washing truck bays and floors of the building, putting a metal roof structure over the stations outdoor standby generator. This work was accomplished by a special work release program where inmates from the Waldo County corrections facility with an overseeing corrections officer did the work for our fire department which relieved some firefighter man hours. This program was responsible for 80 plus man hours in labor at no cost to our town. It was a job well done.

Our current roster is made up of 17 adults and 4 juniors all with varying degrees of training. In 2009 all fire department members that operate/drive emergency vehicles to incidents have had EVOC(Emergency Vehicle Operations Course) which was a requirement of our newly developed driver/operator policy. This program requires operators/drivers to show they have the skill and knowledge to operate each truck in the department and also know the laws and protocols that apply to these vehicles. This course was taught by Maine Fire Training and Education and is a 16 hour course.

Along with the hydrants we purchased this year we have also acquired several more pagers with funding from a grant by the Volunteer Fire Assistance Grant and also through the WCEMA(Waldo County Emergency Management Agency). We are still lacking about 3 mobile radios and we would like another grant opportunity to make this purchase a reality. Over the last 2 years we have worked toward upgrading communications to meet the federal regulations that are coming in 2013. To date we are on track toward this goal.

We are embarking on huge fundraising events over the next several months which will go towards the purchase of additional vehicle rescue equipment. In 1999 the Brooks fire department made the purchase of our Power hawk systems (Jaws of Life Tools) which was the start of our rescue equipment for our extrication team. In addition to the Jaws Unit we would like to add ice/coldwater rescue equipment and suits in order to perform a safe emergency rescue. Currently only Belfast, Searsmont and Unity have these capabilities in our area. The time of response is currently 20 plus minutes and we would like to see this improved.

We would like to take a moment and reflect on the incident that happened in our town on August 30, 2009 when the Clifford family was in a serious accident and the fire fighters and ambulance services of Brooks responded and assisted in rescuing the family and in particular a 9 year old Hannah Clifford who was pinned beneath the family van. Our volunteer departments worked together to lift the van and remove Hannah from beneath it. These heroic measures did not go unnoticed through out the county. Scott Story, sheriff of Waldo County along with Lieutenant Jason Trundy, and Sargent Dale Brown awarded the following members of the Brooks Fire Department the Meritorious Service Award for their actions that day:

Roscoe Kenney
Louis Brown
James Coulsey
Clayton Ellis
Bryan Menard

With deep regret we would like to announce that after 31 years of dedicated service to our fire department and town Robert Tuthill officially retired from our roster. Bob you will be missed and thank you for all you have done over the years. You are an inspiration to all of us.

In closing we would like to thank the hard work and dedication of all our fire fighters and the sacrifices of their time they and their families make to ensure the safety of our community.

Sincerely,

Jeffrey K. Archer-Fire Chief
Roscoe Kenney-1st Assistant
Paul Muir-2nd Assistant

CHIEF DEPUTY
Robert B. Keating

To the Citizens of Waldo County

Inside you will find information regarding our recent activities in your communities as well as some statistics from 2009 county wide. Our staff has worked very hard over the last year to respond to the requests of the citizens of Waldo County as well as be proactive in many areas of Corrections and Law Enforcement.

We are proud of the opening of the new Maine Coastal Regional Re-entry Center and know that this is a huge step forward in progressive corrections. Simply warehousing individuals and later putting them back in our communities with no more tools than what they came in with will certainly lead to more crime and more victims. By providing individuals with the tools to go back into society and gain employment, housing, positive relationships, mentoring and support for issues that led into our system, we are making our communities a much safer place helping to mend the tear in our social fabric.

Our Patrol Division has been extremely busy and has recently received some new tools to assist them in providing services to your communities. The receipt of a federal grant to upgrade the video recording units in our cruisers will assist them in making strong cases for prosecution and are a great tool in our ability to train new officers and make them more effective in performing their duties. We recently got together with the Belfast and Searsport Police Departments and received a grant for two speed boards and a mobile intoxilizer unit in an effort to address speeding and OUI violations on our roads.

Our Detective division has conducted some outstanding investigations over the last year, leading to the arrest of several individuals for felony violations as well as the recovery of thousands of dollars of stolen cars, guns, jewelry, and other property as well as the seizure of thousands of dollars of drugs and cash. Their expertise in conducting more forensic investigations into the more serious crimes has been a huge asset to the citizens of Waldo County.

Our Civil Division will have wrapped up 2009 with yet again a record year for service of civil papers to include another record year of serving foreclosure notices. While this work is our statutory obligation, we take no pleasure in it and look forward to the time when we have none to serve.

Please feel free to contact this office at any time, after all, we are YOUR SHERIFF'S OFFICE and we work for you, THE CITIZENS OF WALDO COUNTY.

Sincerely,
Sheriff Scott Story

Dear member Town,

Enclosed you will find the financial statements from our audit for FY 2009-10, spreadsheets describing our budget, sales credit and assessment for the fiscal year 2010-2011, and a bill for your portion of our operating budget.

The following describes recent changes at the center to better serve our Member Town Residents and briefly describes universal hazardous waste, sales revenue and our first scheduled household hazardous waste (HHW) collection day.

Change #1:

I felt it was important to call other brokers and mills to find the best pricing on our commodities. I subsequently have made an agreement with Returnable Services, Inc. of NexCycle (their parent company), letting our membership with Maine Resource Recovery Association (MRRA) expire. This gives the best prices on our commodities.

Returnable Services Inc. has accounts over all of New England. They provide a secure service for bottle bill material and purchase commodities like ours as well. Currently, they bring us an empty trailer and we fill it at our leisure with differing material types. When it's full I schedule a pick-up and they bring us another empty trailer to swap. This change has opened up a large amount of warehouse floor space and has permitted us to begin to accept more material types. Other benefits include no-cost glass recycling, co-mingled #3 - #7 plastics recycling and containers supplied by Returnable Services, Inc. for the transportation of our glass. They are impressed by the quality of our final product which gets us a premium price per ton. This was not always so in the past. They will also provide us with the large gaylord boxes we use for material storage at no charge.

Change #2:

We plan on accepting mixed rigid plastic this spring. These materials are plastic lawn furniture, plastic children's toys and swimming pools, plastic buckets and barrels etc. I will continue to investigate the possibilities of accepting agricultural plastics, shrink/stretch films and plastic grocery bags.

Change #3:

We have made some recent changes in accepted materials and minor changes in our current fiber sorts. The following explains these changes.

- **#2 natural plastic jugs** (milk, vinegar, washer fluid bottles primarily. **NO CHANGE**)
- **#2 colored plastic jugs** (mostly detergent bottles; there are other containers which fit the "bottle" description which we accept with this sort. **NO CHANGE**)
- **#1 plastic RECENT CHANGE** The newly accepted containers are #1 clamshell containers, #1 egg cartons and any other #1 container and/or rigid packaging. We are also adding all rigid containers with the identifiers #3 through #7. One exception: #6 polystyrene (Styrofoam like) meat trays are NOT accepted.
- **RECENT CHANGE** All fiber sorts are the same with two minor changes. Our newspaper sort is now **ONLY** newspapers and includes all material which accompanies the newspaper (glossy ads, etc.). Magazines, phone books and the like **NOW** go with the mixed paper sort.

Universal Hazardous Waste

Universal Hazardous waste (UW), especially TV's, has increased significantly since last year. It is most important all residents are aware that we continue to accept any "electronic" device and ALL

Vital Statistics-2009
