Surveyors of Wood and Lumber: Forrest E. Walker, Clifford E. Davis, Roy E. Burrows, Leonard H. Emery, Charles B. Mc-Keague, Fred B. Burnham, Stephen H. Libby, Roscoe Booth, Albert E. McLellan.

# Mayor's Address

Mr. President, Members of the Council, Ladies and Gentlemen:

Owing to the unfortunate condition of my health during the last three or four weeks, I have not been able to collect any figures that will be useful to you. Therefore, I shall confine my remarks this evening to a request for full cooperation of every member of the administration in an effort to reduce the general expenses of the city.

I had hoped that the Council and myself could have an informal talk on various subjects, as man to man, but that will have to be put off for a few days. When the regular business of the year begins, I shall confine my work to executing your orders as passed, and through the privilege of the Mayor's message, I shall report progress and probably make some suggestions, from time to time, for approval or rejection.

May I close by wishing the administration a very prosperous and happy New Year.

# Report of the Chief of Police

To the Honorable Mayor and City Council:

GENTLEMEN:—I hereby submit my report of the Police Department for the year 1933.

partinett var the year accer	
Total number of arrests,	130
Taken before court,	72
Classified as follows:	
Intoxication and disturbance,	42
Non-support,	5
Reckless driving,	5
Manslaughter,	1
Carrying concealed weapons,	1
Operating auto, intoxicated,	7
Annoying neighbors.	2
Assault and battery,	3
Robbery while armed,	1
Breaking and entering,	1
Exceeding speed limit,	4
	-72
Allowed to go free on Police Probation,	58
	_
	130
Applied for lodging,	666

Respectfully submitted,

WILLIS P. MITCHELL,

Chief of Police.

# Report of the Health Officer

JANUARY 15, 1934.

To the Honorable Mayor and City Council:

I hereby submit the following report for the year ending December 31, 1933:

The health conditions for the past year were exceptionally good.

Whole number of contagious diseases reported during the year was sixty-seven. classified as follows:

_	
Chicken Pox,	4
Scarlet Fever,	20
Diphtheria,	1
Pneumonia,	32
Tuberculosis,	4
Vincente Angina,	8
Whooping Cough,	3
Total,	67

Complaints of unsanitary conditions were very small compared with previous years.

Early in the spring I received numerous complaints from residents of Lincoln street protesting against the very unsanitary conditions there. Through the efforts of the Mayor, Health Committee and City Council, we were able to greatly relieve conditions in that vicinity. I hope that with the completion of the sewer now under construction we will be able to take care of almost all of the sewerage in that locality. I am very much pleased at progress that has been made this year to relieve conditions as this has been cause of almost continuous complaint.

The Conant street sewer is another very worthy project that will greatly relieve unsanitary conditions.

I wish we could continue the good work and take in Cumberland street and surrounding streets. That would complete all of the large projects, as far as sewers go.

I wish at this time to thank the Mayor and members of the City Council for their coöperation and courteous treatment during the year.

Respectfully submitted,

Patrick H. Welch, Health Officer.

# Report of the Superintendent of Cemeteries and Riverbank Park

To the Honorable Mayor and City Council of Westbrook:

GENTLEMEN:—The Superintendent of Woodlawn and Saccarappa Cemeteries and Riverbank Park herewith submits his annual report for the year ending December 31, 1933.

### WOODLAWN CEMETERY

#### RECEIPTS

Balance on hand January 1, 1933,	\$1,607.73	
By sale of Lots,	\$1,199.50	
Interest on Bonds,	1,457.56	
Burials,	908.35	
Monument Foundations,	179.50	
Miscellaneous,	66.00	
Total Receipts December 31, 1933,		\$3,810.91
Balance on hand December 31, 1938	3,	\$5,418.64
Expenditures		
Pay Rolls,	\$3,255.80	
Street Department,	143.00	
Weed Killer,	96.65	
Dow's Greenhouses,	49.93	
Mrs. J. Small, Gravel,	24.30	
E. W. Burbank,	15.75	
E. W. Goff Co.,	42.05	
B. G. Pride Co.,	91.75	
Miscellaneous,	119.16	
Total Expenditures December 31, 1	933,	\$3,888.39
Balance on hand Dec. 31, 1938, less	Exp.,	\$1,580.25

#### BONDS

Bonds sold previous to 1933, \$28,663.63 Bonds sold 1933, 487.50

Total received from sale of Bonds,

\$29,151.13

#### DEVELOPMENT WORK

Three hundred and seventy-five feet of new avenue laid out last year was graded and made ready for travel.

5 sixteen-grave lots were made up and turfed on the new avenue.

value \$1,250.00

10 lots were made up in Highland

Circle, value 1,540.00

\$2,790.00

#### Lots ready for sale made up previous to 1933

20 sixteen-grave lots, value \$5,000.00 28 eight-grave lots, value 4,200.00 9 circle grave lots, value 1,350.00

Total value of previous lots,

\$13,340.00

Owing to the financial condition caused by nonemployment, and the closing of the banks, the receipts from the sale of lots was much less than in 1932.

In order to give employment to as many as possible during the summer, the work day was shortened one hour, work being given to several men in the winter months graveling 1,200 feet of avenues.

A large amount of development work was carried on in the summer months along with the general care of the Cemetery.

The Trustees believed it a better policy to put any surplus that might be earned this year into labor rather than increase the balance on hand of Woodlawn Cemetery account.

#### C. W. A. PROJECT TO GRAVEL AVENUES

The Trustees were very pleased to approve the project arranged for by Mayor Jordan whereby the three miles of avenues in Woodlawn will be surfaced with a coat of gravel.

The work is giving employment to a large number of men and five trucks for a period of ten weeks. The surfacing of the avenues will no doubt relieve the impassable conditions that have always taken place in the spring when the frost comes out, and is believed to be the most important improvement ever made in Woodlawn.

I wish to thank all who have so generously co-operated with me this summer by decorating their lots with flowers which does so much to improve the looks of the Cemetery.

#### SACCARAPPA CEMETERY

	RECEIPTS	
By Appropriation,	\$100.00	
Interest on Bonds,	203.32	
Miscellaneous,	36.99	
		\$340.31
Ex	PENDITURES	
Pay Rolls,	\$286.52	
Miscellaneous,	38.01	
		\$224.53
	Bonds	
Bonds sold to December	31, 1932, \$4,016.25	
Bonds sold,	50.00	
		\$4,066.25

The new circle containing eight burial lots built last year, was seeded and fertilized early in the spring and kept mowed during the summer.

The lots in this circle are for sale to those wishing a choice family lot at a reasonable price.

All lots under perpetual care were moved regularly and many monuments righted and sunken graves filled in.

The Trustees recommend an appropriation of \$100.00 for Saccarappa Cemetery next year.

#### RIVERBANK PARK

#### RECEIPTS

By rental of houses,		\$485.00	\$485.00
	Expenditures		<b>\$100100</b>
Pay Rolls,		\$382.14	
Supplies, etc.,		98.78	
			\$480.92

Riverbank received no appropriation from the City this year. The money received from rental of houses was expended mowing lawns, maintaining flower beds, buying nursery stock, besides repairs on buildings and care of Riverbank City Dump, also supplies for the playgrounds.

The City Dump at Riverbank, which is such a nuisance and unsightly, should be discontinued next year, and a new City dump ground established at the foot of Foster Street, on land in the rear of the High School.

The Children's Playground must be maintained. I believe money can be expended in no better way than providing the children a safe place to play. A new slide should be purchased next year and some of the old teeter boards replaced with new ones. This and other improvements cannot be done with the rental from houses. The Trustees, therefore, urgently request that an appropriation of not less than \$300.00 be given Riverbank for 1934.

## Respectfully submitted,

EDWIN J. LAVERTY, Superintendent.

A. E. GREENLAW,
H. J. R. TEWKSBURY,
Board of Trustees.
E. J. LAVERTY,

# Report of the Assessors

To the Honorable Mayor and City Council:

Gentlemen: -Herewith is submitted the annual report of the Board of Assessors for the year ending December 31, 1933.

#### ASSESSED VALUATION OF THE CITY

Real Estate, Resident,

\$4,142,005.00

Real Estate, Non-Resident,

3,981,315.00

Total Real Estate,

\$8,123,320.00

Personal Estate, Resident,

# Report of the Plumbing Inspector

January 22, 1934.

To the Honorable Mayor and City Council:

Gentlemen:—There were 48 applications and permits issued for the same for plumbing work done in the year 1933.

The number of fixtures installed is as follows:

Flush closets	24
Lavatories	25
Bath tubs	17
Set trays	1
Sinks	10
Beer coolers properly connected to drainage pip	e 2
Surface traps	2
Combination sink and tray	1
Relocation of soil pipe	2
Relocation of sinks	4
Relocation of toilets	. 3

There were a number of replacements of fixtures and repairs of plumbing work which did not require permits.

Respectfully submitted,

JOHN W. OUELLETTE,
Plumbing Inspector.

# REPORT OF THE Chief Engineer of Fire Department

To the Honorable Mayor and City Council of Westbrook:

GENTLEMEN:—I wish to submit the following report for the year 1933:

#### FIRES AND ALARMS

During the year there were 141 alarms, listed as follows:

General alarms,	19
Still alarms,	104
False alarms,	2
Pride's Corner Volunteer Dept.,	15
No alarm fires,	7

### DAMAGES AND INSURANCE

Damage to buildings,	<b>\$4,943.56</b>
Insurance paid on buildings,	3,351.56
Damage to contents,	927.52
Insurance paid on contents.	756.52

To the Mayor and Committee on Fire Department I wish to extend my thanks for their kindness and assistance.

Respectfully submitted,

Edward A. Reny, Chief Engineer.

#### STORM SIGNALS FOR NO SCHOOL

Eight blasts of the fire whistle at 7.15 a.m., will be the signal for no school in the High School and grades below for the forenoon.

Eight blasts at 8 a.m., will be the signal for no school in all grades below the High School for the forenoon.

Eight blasts at 12.30 p. m., will be the signal for no school in the afternoon.

When the no-school signal does not sound at 12.30, the grades and all afternoon High School classes will be in session.

# REPORT OF Superintendent of Schools

To the School Board and Citizens of Westbrook:

I hereby submit my annual report of the public schools of our city. This report covers the year from January 1, 1933, to December 31, 1933.

#### **TEACHERS**

During the past year there have been but three changes in our teaching personnel.

Mrs. Evelyn Kair, teacher of the fifth grade in the Bridge Street School, resigned at the close of the school year in June. Mrs. Kair had been a teacher in our schools since September, 1923, and her resignation was accepted with regret.

Miss Catherine Brann, a graduate of the Junior High Course at Gorham Normal School, and a substitute teacher in the schools of the City, was elected to fill the vacancy. Miss Brann is a hardworking, conscientious teacher, and the pupils are making good progress under her instruction.

Mrs. Ann Stanford, teacher of the sub-primary grade in the Valentine Street School, resigned to retire from teaching at the close of the spring term. Mrs. Stanford was an efficient, popular teacher, and her resignation, like Mrs. Kair's was accepted with regret.

Miss Ruth Barker, teacher of the four lower grades in the Pride's Corner School, was transferred to fill the position made vacant by the resignation of Mrs. Stanford.

Miss Jerainie Nielsen, teacher of the one-room rural school at Highland Lake, was changed to the Pride's Corner School.

For many years the practice has been followed of sending young and oftentimes inexperienced teachers to our rural schools and then, as opportunity offered and vacancies occurred in the city proper, to bring them to the city schools. I do not feel that this policy has ever been fair to the children in the rural schools. They are entitled, it seems to me, to the same permanency in the teaching personnel that we are endeavoring to maintain for the children in the city schools. Also, whenever possible, they should have teachers who are familiar with the problems of the rural school and who have a special liking and aptitude for the work.

Since 1919, and until the law was changed by the last legislature, the State has been giving special training at the Castine Normal School to a selected group of normal graduates for the purpose of building up an efficient corps of teachers and supervisors for the rural schools.

Mrs. Verna Hamilton Jones, who was elected by the School Board to the position made vacant by the transfer of Miss Nielsen to the Pride's Corner School, not only has this additional training for rural school work but comes to us with a record of six years of successful teaching in the rural schools of Sanford and Falmouth. We believe that this change of policy for our rural schools will work out greatly to the advantage of those children who must necessarily receive a large part of their elementary school training in a one or two-room building.

In the High School, Paul F. "Ginger" Fraser, popular coach and teacher, resigned his position at the close of the school year in June in order to give more time to his duties as secretary of the Community Club in Westbrook. Mr. Fraser's services at the school will be long remembered by the student body. To them he was more than a successful coach and efficient teacher. They sought and received his friendship and they gave to him a loyalty which made his influence in their lives extend far beyond the narrow limits of the class-room.

Mr. Fraser's successor, G. Lawrence Gates, came to Westbrook from a very successful coaching and teaching experience at Coburn Classical Institute. Although he has been with the school but a short time, Mr. Gates has

already demonstrated his ability as a teacher-coach and we feel very certain that our teams under his coaching will give an excellent account of themselves in the years that are ahead.

Ex-President Hoover said at the Citizens' Conference on the Crisis in Education, held in the city of Washington during the last year of his administration, "Our nation faces the acute responsibility of providing a right of way for the American child. In spite of our economic, social, and governmental difficulties, our future citizens must be built up now. We may delay other problems but we cannot delay the day-to-day care and instruction of our children.

"We are now forced," he says, "to make decisions on the merits of the various expenditures. But in the rigid governmental economies that are requisite everywhere we must not encroach upon the schools or reduce the opportunity of the child through the school to develop adequate citizenship. There is no safety for our republic without the education of our youth. That is the first charge upon all citizens and local governments."

In a "Declaration of Policy" adopted by the citizens at this conference we find the following statements. "Education is a necessity not a luxury, since the growth of the child cannot be halted or postponed during an economic emergency. Therefore, educational service should be accorded a high degree of priority in determining the purposes and services which shall be supported by the States during a depression . . . . . The Conference is opposed to the shortening of the school year below the term existing previous to the depression, because such action will be a limitation upon the educational opportunities of the children, which in a long run will be neither economically nor educationally profitable.

"The teaching load should not be increased either in courses or hours beyond the ability of the individual teacher to offer a reasonable standard of instruction to each pupil, and should be adjusted in relation to the quality of supervision, the experience and qualifications of the teacher, the provisions for exceptional pupils, and the methods of grouping pupils . . . . . . School systems should weigh carefully any proposed curtailment policy with the view to securing real saving rather than to effect apparent economy that may be harmful to essential educational standards. . . . . . Maintenance costs should not be reduced below a point where resulting deterioration of the school plant would necessitate ultimately greater outlay than the original repairs would have cost."

The recommendations contained in this report seem to embody a safe, sane policy for our schools to follow. There never was a time in the history of our nation when education was so vital to us as a people; yet, strangely enough, in many sections of the county, friends of education are finding it necessary to go through the land in order to educate the people to the importance of education.

This year, more than ever, it is necessary that our citizens recognize in full the situation confronting the schools. The depression has led to a marked increase in our school enrollment, as many young people have remained in or returned to school when in normal times they would have sought work. Since 1914, general school attendance over the country at large has increased 34 per cent. High school attendance throughout the country has doubled during the past ten years. The new child labor ban will add at least one hundred thousand more students to the high school rolls this coming year.

The educational system of this country was created through the common demands of the people, and whatever responsibility there is for the expansion of the educational system must be assumed by the homes of the nation. Society, whether it has a school system or not, has to assume the responsibility of caring for its young people. This, of course, in the past has been done in a variety of ways. We know that the early manufacturing industries in this country employed a great many children. We also know that as these industries multiplied there was a steady increase in the employment of children

because machinery made it possible during the period from 1870 well up to the present day to utilize children, and in many instances to exploit them because their services could be had at low wages. This is not a fact to boast of but it is undeniable that society for a great many years provided through industry for the occupation and shelter of a considerable part of its child population. The Census of the United States shows that a very striking change occurred during the decade between 1910 and 1920. There was a marked falling off in the employment of children. Machinery had become so complicated and manufacturing operations so elaborate that it was no longer profitable to employ young children as they were employed in earlier times.

Let me cite percentages taken from the census figures of 1910. Of the total child population of the country between the ages of ten and fifteen years we find employed in gainful occupations, that is, employed for wages, 18.4 per cent. The census for 1920 shows that the percentage had fallen off to less than 9 per cent, while in 1930 we find the employment of children of the ages from ten to fifteen years had dropped to 4.7 per cent. In other words, in two decades we have had a reduction in the employment of children of the ages mentioned to one quarter; and these figures are probably typical for child employment in general.

Today, changing conditions have made it possible and even necessary to remove all children from industry. We should note that this removal of children from industry to the schools is not wholly because of the present depression. The change has been going on for more than two decades. In 1900 there were approximately half a million pupils in the secondary schools of the country. In 1930, that number had increased to approximately four and a half millions. Those who criticize increase in school costs must understand that this increase has come about largely because of the increased enrollment in the schools. Today nearly one-fourth of our total population is engaged either in getting or giving an education. Yet we are told

that ten cents a day paid by each person of voting age in the United States would pay the entire bill for public education, and that an additional two cents would finance education for those students now in private schools. Surely this is not an exorbitant sum to pay for the education of American children.

#### SOHOOL PHYSICIAN AND SCHOOL NURSE

The children of the city were saddened by the death of Dr. F. Leslie Ferren which occurred during the Christmas recess a year ago. Dr. Ferren had served the city as school physician since November, 1927, and his death was a distinct loss to the schools.

At the January meeting of the Board, Louis L. Hills, M. D., was elected to serve as school physician until the close of the school year in June. Dr. Hills made an enviable record during his brief term of office. The physical examinations of the children which were well under way at the time of Dr. Ferren's death were carried to a successful close.

An audiometer supplied through the kindness of the Ammoncongin Club, and used for the first time in Westbrook by the school nurse, under Dr. Hills' supervision, enabled us to secure a much more accurate list of the children in the schools who were suffering from defective hearing. Dr. Hills also carried through very successfully a dental clinic sponsored by the Kiwanis Club for the benefit of the underprivileged children in the city. This dental work was performed by the Club dentists, Drs. Whitney, Winslow, and Rice. A total of 104 cases were treated. The estimated value of the work was \$713.00.

I might say in connection with this clinic that, although a great deal of remedial work was accomplished, it was found necessary because of a lack of funds to refuse dental aid to a great many deserving children. It is to be hoped that the city will see its way clear again in the near future to appropriate a stated sum for clinic work each year and to have it expended under the direction of a full-time nurse in the schools.

#### ENROLLMENT AND TEACHING CONDITIONS

Our enrollment in the grade schools is thirty-one more than last year, making a total of 1,411. In the high school we have registered 456, seven more than last year. The following table shows the registration in the elementary schools of the City for the fall terms of 1932 and 1933.

TABLE OF REGISTRATION FOR FALL TERMS OF

	1997 WND 1999	)		
School	1932	1933	Gain	Loss
Bridge Street,	359	378	19	0
Brown Street,	80	82	<b>2</b>	0
Forest Street,	371	398	27	0
Highland Lake,	26	22	0	4
Pride's Corner,	64	<b>54</b>	0	10
Rocky Hill,	130	125	0	5
Saco Street,	90	82	0	8
Valentine Street,	145	159	14	0
Warren,	115	111	0	4
			_	-
Totals,	1380	1411	62	31
Net Gain,			31	

A study of the preceding table will show you that the enrollment in our large grammar schools is increasing each year. Two of the teachers in the Bridge Street building, Mr. Weir and Mrs. Marston, are teaching respectively fifty-three and fifty-seven children in their rooms. In the Forest Street building we find Mrs. Foye with a class of fifty-four children and Miss Libby with a class of fifty-six. Other rooms in each building have nearly as many pupils enrolled. This, of course, is an excessive load for teachers to carry year after year in any school system, and something should be done at the earliest possible moment to afford relief.

Perhaps there is no better way of bringing the crowded conditions in those schools home to you as parents than to remind you that while the average number of pupils per teacher for the country as a whole this year is thirty-two, the teachers mentioned are instructing daily in their classes an average of fifty-five pupils.

Teaching conditions in the high school have changed very little since my last report. The classes are large but, in spite of the crowded condition in the school, I feel that a high standard of work is being maintained. The reports coming to us from higher institutions of learning support this belief and show that the graduates of our high school are maintaining standards of scholarship in those institutions which are well above the average for the student body.

Westbrook High School, as I stated last year, enjoys the privilege of being upon the approved list of the New England College Entrance Board. This association includes Amherst, Bates, Boston University, Bowdoin, Colby, Massachusetts Agricultural College, Wesleyan, Middlebury, Tufts and Williams. Dartmouth College and Worcester Polytechnic Institute also grant certification privileges.

#### ATTENDANCE

Attendance data of general interest covering a period of several years is listed below.

Per cent of attendance for all elementary schools in 1926-27,	82.49
Per cent of attendance for all elementary schools in 1927-28,	82.47
Per cent of attendance for all elementary schools in 1928-29,	86.36
Per cent of attendance for all elementary schools in 1929-30,	83.97
Per cent of attendance for all elementary schools in 1930-31,	92 56
Per cent of attendance for all elementary schools in 1931-32,	84.82
Per cent of attendance for all elementary schools in 1932-33,	85.51

#### PER CENT OF ATTENDANCE FOR FALL TERMS

Fuel,	3,508.36	3,392.97	2,707.66	2,202.26	2,386.21	1,820.33
Conveyance,	1,412.30	1,265.50	1,220.10	1,558.70	1,460.80	1,063.50
Textbooks,	2,087.22	2,218.04	2,012.81	1,866.34	1,185.88	784.32
Supplies,	2,029.79	2,058.26	2,016.38	1,558.37	1,500.64	1,188.44
Totals,	\$66,229.95	\$65,460.13	\$65.237.99	\$65,641.40	\$60,161,32	\$52,621.41
No. of pupils,	1,249	1,253	1,330	1,384	1,380	1,411
Cost per pupil,	\$53.02	\$53.04	\$49.05	\$47.42	\$43.59	\$37.29

TABLE 3

Table showing cost per pupil in all schools based on total expenditures for 1925-1933, inclusive.

YEAR	REGISTRATION	EXPENDITURES	COST PER PUPIL
1925	1611	\$111.433.65	\$69.17
1926	1616	112,855.01	69.83
1927	1718	116,934.14	68.06
1928	1642	120.757.62	73.54
1929	1664	118,741.04	71.35
1930	1766	121,746.96	68.93
1931	1820	118,867.93	65 31
1932	1829	108,922.34	59.55
1933	1867	92,711.05	49.65

A careful study of the above tables will show:

TABLE 1—That the cost per pupil in the High School in 1933 was \$56.50, a decrease of \$5.67 per pupil over the previous year. A study of our records show that the present cost is \$32.74 less than it was in 1918, when the per pupil cost in our high school amounted to \$89.24.

TABLE 2—That the cost per pupil in the common schools in 1933 was \$37.29, a decrease of \$6.30 over the previous year. A study of our records shows this to be the lowest per pupil cost since 1919.

Table 3—That the total expenditure for schools during the past year was \$92,711.05. This is \$16,211.29 less than last year, and \$29,035.91 less than in 1930. It also shows the cost per pupil in all the schools this year to be \$9.90 less than the per pupil cost of last year, and \$23.89 less than the per pupil cost of 1928.

#### CONVEYANCE

The conveyance from the Methodist Road and Pride's Corner sections of the city, which up until the close of schools in June had been handled as separate routes, was combined and the contract for conveying the children from the above mentioned localities was let to Edgar R. Hinkley of Westbrook. Under the old plan it was necessary in the morning for the grade children to make the trip at the same hour that the high school students were conveyed. This arrangement resulted in considerable hardship for them as the grade schools do not begin until 8.45, whereas sessions at the high school open at 8 o'clock.

Combining the routes made it possible for us to have the school bus make two round trips each morning, one for the high school students and the other for the children attending the grade schools.

I feel that the city is to be congratulated on the service that Mr. Hinkley is giving. He has placed on the route a Reo School bus of the latest model, equipped with shatter-proof glass and other safety devices. It has wide, comfortable seats, and other conveniences that are found

only on busses used for regular passenger service throughout the State. The merging of these routes, in addition to giving better service to the children, will save the city approximately \$1250 a year.

#### REPAIRS, EQUIPMENT, ETO.

This year, because of the curtailment made necessary by our reduced appropriation, the money allocated for repairs has had to serve us also as an incidental fund.

During the year the work done in the schools has been largely of an emergency nature. Some of the repairs not included under this heading are as follows:

Repairs were made on the fences surrounding the grounds at the Warren, Saco, and Bridge Street Schools.

In the Forest Street building the four large rooms on the upper floor were refinished. An electric pump was installed as part of the heating system to take the place of a steam pump which was no longer serviceable. The lighting system, which was overloaded, was increased in size and the installation brought up to date.

New stair treads were laid in the Saco Street building.

Eight of the four-year-old typewriters in the Commercial Department were exchanged during the year for new machines.

#### REPAIRS MADE DURING THE YEAR 1933

Bridge Street,	\$175.31
	•
Brown Street,	26.72
Forest Street,	684.08
High School,	135.07
High School Equipment, etc.,	315.00
Highland Lake,	41.29
Pride's Corner,	28.94
Rocky Hill,	32.91
Saco Street,	171.91
Valentine Street,	18.61
Warren,	279.10

Total,

The repairs on the different buildings were as follows:

#### BRIDGE STREET

Boiler, \$27.00; plumbing, \$12.00; fence, \$70.45; carpenter work, \$25.81; tuning piano, \$2.75; glass and putty, \$9.76; miscellaneous, \$27.54.

#### BROWN STREET

Repairing clock, \$1.50; setting flagpole, \$9.00; plumbing, \$4.40; glass and putty, \$2.61; miscellaneous, \$19.21.

#### FOREST STREET

Repairing chair, \$2.00; painting upstairs rooms and halls, \$227.50; cleaning conductor pipes, \$3.40; stairs, \$40.61; Electrical, \$116.48; Fence, \$49.91; installing electric pump, \$172.06; tuning piano, \$2.75; boiler, \$11.25; miscellaneous, \$58.12.

#### HIGH SCHOOL

Repairing Monroe Calculator, \$5.00; repairing typewriters, \$8.15; mimeograph, \$2.00; plumbing, \$31.00; painting, \$4.70; boiler, \$26.03; electrical, \$4.23; seats, \$6.18; vacuum, \$11.30; glass and putty, \$14.06; tuning piano, \$3.00; new typewriters, \$227.50; new chairs, \$37.50; rent of Legion Hall, \$50.00; miscellaneous, \$19.42.

#### HIGHLAND LAKE

Plastering, \$23.63; miscellaneos, \$17.66.

#### PRIDE'S CORNER

Boiler, \$7.48; plumbing, \$16.21; miscellaneous, \$5.25.

#### ROCKY HILL

Heating, \$8.50; wiring for clocks, \$11.66; plumbing, \$6.40; miscellaneous, \$6.35.

#### SACO STREET

Fence, \$120.38; plumbing, \$18.48; stairs, \$22.00; clock, \$1.50; cutting grass, \$1.50; miscellaneous, \$8.05.

#### VALENTINE STREET

Window shades, \$7.40; clock, \$1.50; tuning piano, \$3.00; plumbing, \$3.60; glass and putty, \$2.21; miscellaneous, \$.90.

#### WARREN

Plumbing, \$28.08; roof, \$4.80; glass, \$92; new flagpole, \$43.50; fence and stairs, \$182.79; boiler, \$4.50; victrolas, \$6.50; miscellaneous, \$18.01.

#### O. W. A. PROJECTS IN THE SCHOOLS

We have been able through the money obtained from the Civil Works Administration to completely renovate the interiors of the Bridge Street, Brown Street, Highland Lake, Rocky Hill, Saco Street, and Warren Schools. The Home Economics room in the high school was refinished and a storm porch built at the front entrance of the building.

At the Forest Street building, besides the one room addition which is under construction, we have painted and varnished the six rooms and halls on the lower floor and the teachers' room in the second story of the building.

The finish on the front of the Valentine Street building was repaired, the ceiling and walls of the lower hall were painted, and the radiators throughout the building were refinished.

Three hundred feet of fence was built on the boundary line of the Bridge Street grounds

Numerous minor repairs of a miscellaneous nature not listed above have been made in the different buildings.

#### CLOSING

I feel that the past year has been one of real progress in our schools in spite of the crowded conditions which exist in some of the buildings and the difficult economic period through which we have been passing.

One hundred years ago men thought of education as a means of preserving the past, but now we think of it as a means of safeguarding and improving the future. The schools must play an important part in training our future citizens to make a wise and intelligent use of the additional leisure time which is to be theirs. They must create worthy interests and appreciations in the forma-

tive years of youth. They must, as a basis for sound health, teach the youth in our schools games which will be enjoyed throughout life. They must try to stimulate interest in the science and invention of man and the phenomena of nature. They must seek to elevate the standards of taste in music, the drama, and the world of books. They must encourage avocations that are constructive, active, creative. They must endeavor to instill a lifelong spirit of learning in the youth of the land.

You will find that the reports of the principal of the high school, the supervisors, and special teachers contain much additional information regarding the work in our schools.

In closing, I wish to express my sincere thanks to the members of the School Committee for their kindly advice and assistance, to the citizens and members of the City Government for the provisions made for the support of the schools, and to the teachers whose loyalty and cooperation have had so much to do with the success of the schools during the past year.

Respectfully submitted,

GUY V. SINCLAIR,
Superintendent of Schools.

# Instructions to Teachers in Regard to Contagious Diseases

Teachers should exercise the greatest care in the treatment of all contagious diseases. If the teacher has the slightest suspicion that any case of contagious disease has been attending school and associating with other scholars, she should immediately notify the Superintendent of Schools and the Secretary of the Board of Health, in order that the room and its contents may be disinfected with all dispatch and all necessary precautions taken to prevent the spread of said disease.

School Laws of Maine, Section 53:

"When a teacher becomes aware or suspects that any of the pupils attending his school are in a condition which renders them a source of offence or danger to the other pupils in school on account of filthiness, or because they are bearers of vermin or parasites, or have an infectious or contagious disease of the skin, mouth or eyes, he shall notify the superintendent of schools. When a superintendent of schools knows or learns that any of the pupils attending any school within his jurisdiction are affected with any of the conditions, infections, or diseases herein mentioned, he shall notify the parents to cleanse the clothing and the bodies of the children and to furnish them with the required home or medical treatment for the relief of their trouble, and he may, when he deems it necessary, exclude such children from the schools temporarily or until they may be cured. cleansed or disinfected."

School Laws of Maine, Section 54:

"Parents thus notified of the condition of their children shall forthwith have them and their clothing cleansed and shall promptly do what is necessary, or furnish them such medical treatment as may be required, to rid the children of vermin, parasite, or contagion; any parent who fails to do what is required so that the children may return to school with as little loss of time as is possible, shall be punished by a fine not to exceed five dollars for the first offence, and not to exceed ten dollars for a second or subsequent offence."

# Report of the Principal of the High School

To Mr. Guy V. Sinclair, Superintendent of Schools, Westbrook, Maine:

DEAR SIR:—To you and through you to the School Board and citizens of Westbrook, I hereby submit my annual report as principal of the High School for the year just ended.

The fall term opened September 12th, with an increased enrollment over the record registration of last year. This year during the term we registered 456 pupils and the number would have been larger if we could have accommodated the post graduates who desired to return and register in the commercial course.

Our continuous increase in registration makes it very difficult to arrange schedules for pupils according to their ability, and many times it is necessary to change portions of divisions to obtain a more satisfactory distribution both from the standpoint of the pupil and the teacher.

During this past year fewer of our well prepared pupils entered college than any other previous year, but on the other hand a very large percentage of the class went to Gorham Normal School. I believe Westbrook High School has the distinct honor of having more graduates in Gorham Normal than any other one school.

It is my firm belief that many of our boys and girls would be in college now if financial conditions did not make that impossible.

This financial depression has, however, impressed upon many the fact that they must not waste their time in preparation for the future if they are to be among the selected group to obtain positions later on.

Westbrook High opened this fall with one change in its faculty. Last June, Coach Paul Fraser resigned in order to spend more of his time as secretary of the Westbrook Community Association. It was with regret that Coach Fraser's resignation was accepted. Everyone who knows of him and of his past records as a coach, as a man

dealing with young people, and his high moral influence and character, disliked to see him sever his affiliation with the public schools.

Nevertheless, we were exceedingly fortunate in filling this vacancy by obtaining Coach Lawrence Gates who came to us highly recommended. He is a Bates graduate and has spent a part of every summer since his graduation at coaching school. During the past two years Mr. Gates has been coaching all sports at Coburn Classical Institute and has turned out very high class teams. The school and citizens are all with him.

The commercial course has the largest total enrollment of all classes this year and it has become necessary for us to give up temporarily the plan of allowing students taking the college course to select commercial subjects as extras, except in cases where divisions are small enough to accommodate them.

Parents and friends are always welcome, and in my estimation it would be an excellent plan if the parents of each boy and girl in school could visit the school at least once each term. A better mutual understanding between the teacher and the parent would be derived and I am certain both would profit by the visit. The parents are vitally interested in their children, but few of them ever meet their teachers even though most of the faculty at Westbrook High School has been connected with the school system for several years. It seems to be the opinion of many parents that pupils think they should not come and meet the teachers, but I wish we could all have more in common. Visits when pupils are doing a high grade of work are encouraging, even more so than get-togethers when pupils are in difficulties.

The definite goal for which we all strive during the school year is to forward citizenship and to help the pupils by teaching them the ways in which they may become better fitted for life through education.

Our attendance for the fall term has been 92.7% or a per pupil average attendance of 418 daily. During the fall term we had 399 cases of tardiness, far more than

there should have been, and as usual the ones who lowered our records were the pupils who live nearby. The pupils who are more remote are the most punctual and as a rule have the best attendance records. We had 186 who were not absent for any session during the term.

This is the first year we have not had tuition pupils. Four years ago when we reached the four hundred mark in our registration the school board voted to shut our doors to tuition pupils; however, those who were already enrolled were allowed to complete their courses.

The last of that group were graduated last June. It is regretable that we do not have sufficient room to take care of all who desire to come to us from other towns because many of those pupils gained a great deal, and as a rule pupils making the extra effort by getting up early, commuting and the like, try to get all they can and in many cases may influence others in the right.

The following statistics as to classes and courses show the branches of school work and the way it has been divided for the school year 1933-34.

Citizens of Westbrook have asked me from time to time if we are a class A school and questions similar. I am proud to say that Westbrook High School is meeting the requirements and approved as a Class "A" school and I have in safe keeping a certificate of "Continuance of Approval of Secondary Schools" filed with the previous ones, which has been forwarded to me from the State Department of Education of Augusta.

I am also pleased to continue to announce through this report that Westbrook High School remains upon the approved list of the New England College Entrance Board, which Association includes Amherst Vollege, Bates College, Boston University, Bowdoin College, Brown University, Colby College, Mass. Agricultural College, Middlebury College, Tufts College, Wesleyan University and Williams College. The renewal privilege is until December 31, 1937. This school also enjoys the privilege of being on the list of schools approved by Dartmouth College and Worcester Polytechnical Institute for certification purposes. This latter privilege does not expire until January 1, 1935. Students may enter any of these institutions upon presentation of a certificate from the principal showing that an average grade of 85% has been attained in the subjects necessary for entrance.

In each branch of work the school aims to keep abreast the times. We aim to prepare the group who plan to enter college to meet college entrance requirements satisfactorily and these requirements are yearly becoming more rigid. The teachers hold themselves ir readiness to assist backward pupils. Each teacher returns two afternoons each week and the rotating plan is such that a pupil may get assistance from each one if he so desires. Parents should note that afternoon work begins at 2.30 P. M., with

the exception of chorus and orchestra which begin at 2.15 P. M.

### GRADUATING EXERCISES OF THE CLASS OF 1933 WESTBROOK HIGH SCHOOL

American Legion Hall Friday Afternoon, June the sixteenth At two-fifteen o'clock (Daylight Saving Time)

Van Vleit, Leendert Waterman, Wilton Welch, Vivian E. Woodman, Paul J.

Students entering Westbrook High School for the first time: Dorothy Hunter, P. G.; Janet Richmond, Senior; John Foley, Junior; Anita Flint, Junior; Flora Gagnon, Junior; Rita Ferron, Sophomore; Eleanor Jordan, Sophomore; Marguerite Le Borgne, Sophomore; Kenneth Leighton, Sophomore.

Additional space is needed for recitation rooms, also an auditorium large enough to comfortably seat the entire school. At present we are unable to hold a long assembly in a completely satisfactory manner. Nevertheless we hold some very interesting assemblies.

During this past school year Westbrook High School was exceedingly fortunate in receiving a complete set of ten volumes of American encyclopedias. This gift was donated by Mr. and Mrs. Arthur W. Ricker, who live directly across the street from the school building.

We take a great deal for granted, especially when we consider reference work. Those at the public library always strive to assist us and oftentimes even consult the

teachers regarding books which will most help pupils with their scholastic work. A great deal of praise should be extended to all persons in the public library. Our own library is increasing and it is hoped that some time in the near future we may have a student librarian for each period when school is in session.

Respectfully yours,

MILTON A. PHILBROOK.

# Report of the Director of Industrial Arts

To Mr. Guy V. Sinclair, Superintendent of Public Schools:

DEAR SIR:—I herewith submit my ninth annual report of the Manual Training and Industrial Departments.

Manual Training is a required subject in the sixth, seventh and eighth grades. Here the pupils are taught the use of bench tools and to build small articles such as toys, book racks, plant stands, and similar projects which they are allowed to choose from a list supplied by the instructor.

Upper grade boys build useful articles ranging from skiis and sleds to tables, chairs and chests. Special attention is given to working out and developing hobbies in which a boy may evince an interest, since it is found that he will accomplish much more along such a line than when held to a set course of study.

In the High School, Manual Training is an elective study. During the first year the boys are allowed the use of the machines in their woodwork. We require them to do a certain amount of repair work on school furniture and to assist in building new equipment for the shop and school. They also use the forge shop and sheet metal equipment to a limited extent, continuing along the same lines as in the grades.

During the first two years of High School a boy has a chance to try out his mechanical ability in the school shops. During the second year he spends from two to

four hours a week in the cabinet shop and one and onehalf hours in the machine shop. If he finds that he is not adapted to that line of work, he may change to some other school course during this time.

The Junior and Senior boys are required to have twelve and one-half hours per week of machine shop, and every effort is made to give them the practical training which will fit them for a commercial shop.

Useful articles are made and sold to help defray the expense of running the shop.

Mechanical drawing is required in the Industrial Course during all four years. Seniors take, in addition, industrial mathematics and industrial science. In connection with these subjects, trips are arranged to nearby mills and industrial plants where they may see the actual use and practical operation of the machines and devices of which they are studying.

Visitors are always welcome at the shop or classroom and I feel certain that the citizens who avail themselves of the opportunity to see us at work will have an interesting visit and will leave with a much clearer idea of what we are trying to accomplish.

Respectfully submitted,

AUSTIN ALDEN.

# Report of the Music Director

Mr. Guy V. Sinclair, Superintendent of Schools:

DEAR SIR:—To you, the School Board, and the citizens of Westbrook, I present my fifth annual report of the Music Department.

"Music for every child—every child for music."

It has been the aim of your supervisor during the past year to reach the children of the public school system of Westbrook through some music activity: High School Orchestra, Girls' Glee Club, Music Appreciation Classes, and Grammar School Orchestra. It is my belief that music appreciation, through the medium of the victrola, reaches the majority who do not participate in the above activities.

With the advent of the radio into the home has come the greatest variety and assortment of music that any nation has ever been privileged to hear. The child of today has heard more famous and more infamous musicians than his grandparents heard in all their lives. To turn boys and girls loose ir this maze of music without some appreciation of that which is worth while and why, is to deny them a cultural outlook on life that will help in selecting musical friends, as one would select personal friends.

Our Grammar School Orchestra has made rapid progress during the last year and several of its members will join high school classes next fall. It made two public appearances in the spring, and played during Education Week this fall, at which time the performance was complimented by State Commissioner of Education, Dr. Bertram E. Packard.

Mr. Charles Warren of Brunswick, Maine, came to Westbrook this fall and worked with your supervisor in forming instrumental classes among the school children. He is promoter of the All Maine State Orchestra at Castine, and conductor of the Portland Symphony Orchestra. Mr. Warren teaches any of the orchestral instruments, and is an asset to a community.

We hear much these days about enforced leisure time. Even that may be put to good use, it might enrich our equipment for living. Hours of practice on one's favorite instrument, of listening to good music, of communing with good books—these are the cornerstones in the art of living.

"There's Music in the sighing of a reed; There's Music in the gushing of a rill; There's Music in all things, if men had ears; Their earth is but an echo of the spheres." In conclusion, allow me to thank the Superintendent of Schools, the School Board, and the teachers of Westbrook for the co-operation and support offered the Music Department during the year.

Respectfully submitted,

MAE D. PARMENTER.

# Report of Art and Penmanship Director

To the Superintendent, Board of Education, and Citizens:

Kindly accept my eleventh annual report.

Fine writing is a personal trade mark, a combination of mental and manual training, indicative of careful, industrious, systematic, and intelligent effort. Is not then such a subject, when correctly taught, of lasting and vital educational value to the child?

Our earliest beginnings of an educational system plainly bespeak the importance of this subject when, after years of very constructive planning, educators of of the past and present still accept the so-called three R's as a basic foundation for educational standards.

It is indeed most gratifying to receive at this time the splendid letter of commendation from a visiting expert of the A. N. Palmer School of Penmanship for the standard of work accomplished in our schools.

In the grades the child is taught to write with ease of execution, legibility, rapidity, and endurance; and to faithfully employ this style both in and out of school for all written expression.

"The great and glorious life of mankind is to know how to live to a purpose and to thoroughly enjoy the many beauties of life with exulted happiness. All other things such as labor, the toil for treasure hoarding, are at their best but mere appendices and props."

It is with this bit of sound philosophy in mind that we teach the subject of art in the grades and throughout high school. With our great gift of present day leisure,

we must teach the child a practical appreciation of the finer things in life as well as to use his mind and hands in the creation of things that will make his life richer and filled with hours of pleasant employment for self-betterment. We are ever striving to correlate this principle in our public school teaching of art.

One of the extremely interesting projects of the high school art class for this year is the study of the history of the American home from the crude log hut of the early settlers to our present day abode. The class are engaged now in the making to scale of the plans for a well-designed home of moderate cost. With this, each student is constructing a complete miniature model with all details that will include color scheme of exterior and landscaping. These designs with models will be seen at our exhibit.

It is only through the sincere fidelity of Mr. Sinclair, and the constant effort of teachers that my work for the year has been to me a pleasure and growth toward a final and lasting result.

Ansel B. Sterling,
Art-Penmanship Director.

# Report of Department of Home Economics

To Mr. Guy V. Sinclair, Superintendent of Schools:

DEAR SIR:—I herewith submit my fifteenth annual report of the Department of Home Economics.

The total registration for 1933 was 255. At the close of the year this number had dropped to 249, one less than at the close of 1932.

The girls were enrolled as follows:

Grade VI,	73
Grade VII,	73
Grade VIII,	64
High School,	39

Our program has not differed materially from that of the preceding year.

We are fortunate in having with us a graduate of Nasson Institute and a resident of Westbrook, Miss Louise Chick, who wished to do some practice teaching. She does excellent work and her assistance is greatly appreciated, as some of the classes are unusually large for one teacher alone to supervise efficiently.

Early in the year when Red Cross flour was distributed, many requests for books containing recipes for bread-making were received at the Memorial Library. Through the co-operation of this department which furnished recipes, the superintendent's office which mimeographed copies, and the librarian who attended to their distribution, these requests were all filled. It was considered a good piece of Welfare Work.

At the request of Mr. Welch, the editor, we also furnished recipes which were printed in the Westbrook Chronicle almost every week under the heading:

#### HANDY RECIPES

FURNISHED THROUGH THE COURTESY OF THE HOME ECONOMICS
DEPARTMENT OF THE PUBLIC SCHOOLS

These recipes brought much favorable comment, and we thank Mr. Welch for the publicity thus given our work.

A regular meeting of the Westbrook Woman's Club was held with us in March. With the co-operation of Principal Philbrook and his faculty an interesting program of music, readings and demonstrations was presented in the assembly room. The guests were also taken on a tour of inspection of the building.

Following this program, all assembled in the Home Economics Room where the instructor gave a talk on "Food Values and Body Needs." At the close of the afternoon a luncheon prepared by the High School Foods Olass was served, covers being laid for forty-five.

All expenses were paid by the club, and the experience gained by the pupils should prove of much value to them. It was considered one of the outstanding meetings of the club year.

On May 23 the annual dinner, prepared by the same class, was served to the Superintendent, School Committee, and guests. In planning the meal no definite limit as to the cost was set, but cost was one of the important problems considered. All were interested when it was found that the excellent, well-balanced dinner actually came to only thirty-two cents per person. It would be impossible to duplicate it, as food supplies have increased in price since that date.

This problem of planning, preparing, and serving is rated as a practical examination.

In November a dinner was served to the football team, coaches and guests. Covers were laid for thirty-five. Valuable experience was gained by a second group of girls with no cost to the city for supplies.

In clothing classes garments were renovated and special emphasis was placed on darning and patching as well as construction from new material.

In planning the budget for the year the financial emergency was considered and every expenditure reduced to the lowest terms consistent with efficient results. We were fortunate in that none of our equipment outlived its usefulness. The total expenditure for books and equipment other than the regular supplies was less than three dollars.

Every care is exercised to keep the equipment in the best possible condition. When funds permit, additions and renewals should be made.

At the close of the year the walls and ceilings received two coats of paint, thereby wonderfully improving the appearance of the room which was in real need of such attention. This was a C.W.A. project.

The courtesy and co-operation shown by school officials, teachers and citizens, have made the work effective as well as pleasant, being reflected in the interest and enthusiasm of the classes. I extend hearty thanks to them.

Respectfully submitted,

# Report of the Milk Inspector

WESTBROOK, MAINE, Jan. 1, 1934.

To the Honorable Mayor and City Council of the City of Westbrook:

Gentlemen:—I hereby submit my report for the year 1933.

In accordance with my usual practice I have visited the milk dealers of the City, and have investigated the conditions of the barns, dairies and milk rooms. In addition to these inspection visits the following work has been done.

Number of Licenses approved:

Producers,	41
Stores,	16
Total	<del></del>
Total,	57
Number of milk samples analyzed for butter	
fat, total solids, and sediment,	17
Complaints received,	1
Complaints investigated,	1

During the past year the State Department has been very active in testing milk samples in this section of the State.

In November a Community Milk Contest was held in Portland. In this contest milk samples from four representative dealers were entered. Although Westbrook won none of the prizes the scores were gratifying. The individual scores were

> 88.65% 90.80% 92.80% 93.90%

Average score, 91.54%

Respectfully submitted,

WILFRED V. TORREY,
Milk Inspector.

# Report of the City Treasurer

WESTBROOK, MAINE.

To the Honorable Mayor and City Council of the City of Westbrook:

GENTLEMENÆ—In accordance with the requirements of Section 5, Chapter 5, of the Ordinances of this City, I hereby submit the following report of the receipts and expenditures of the City of Westbrook during the fiscal year ending December 31, 1933.

Respectfully submitted,

RALPH W. MILLER, Treasurer.

January 1, 1934.

## RALPH W. MILLER, Treasurer,

# Report of the City Solicitor

WESTBROOK, MAINE, January 1, 1934.

To the Honorable Mayor and City Council:

GENTLEMEN:—This office has been very active during the year 1933. Much time and effort has been put in by myself in caring for various matters that have been presented to me by the several departments of the City.

Due to the widespread of unemployment, many matters pertaining to the Pauper Settlements of some of our residents gave this office a great amount of work and expense. In several cases the returns have warranted the time and expense. Many cases in regard to such settlements are pending at this writing.

Several suits against the City were defended. The City was obliged to start suit in three instances, and there are no cases pending in which the City is a party.

Very truly yours,

GROVER WELCH,
City Solicitor.

# Report of the Overseers of the Poor

To the Honorable Mayor and City Council:

We submit the following report for the year ending December 31, 1933.

The Almshouse and Farm have been under the supervision of Mr. and Mrs. Harry Libby. He has been a very energetic farmer and has raised on the farm three hundred and fifty (350) bushels of potatoes, six (6) barrels of carrots, twenty-five (25) barrels of cabbage, forty-seven (47) bushels of beans, and raised and slaughtered four (4) pigs and four (4) calves, all used for the inmates. Many bushels of the vegetables were sold at market.

There is an overdraft, but we had on hand lumber and cord wood which would more than offset this overdraft. A wood lot was cut during the year and this paid for from the appropriation for this department.

We have had an average of twenty inmates at all times during the past year. We have assisted four hundred and sixty-six (466) families in the outside poor department; our appropriation was fifty thousand dollars (\$50,000), and our expenses were fifty-nine thousand one hundred and five dollars and sixty-seven cents (\$59,105.67). Our receipts from the State and other towns were fifteen thousand two hundred and seven dollars and thirty cents (\$15,207.30); making a net cost of forty-three thousand eight hundred and ninety-eight dollars and thirty-seven cents (\$43,898.37).

We would be very pleased to have the public visit the Almshouse and know what we are doing.

Respectfully submitted,

Margaret E. Robichaud, Secretary.

# REPORT OF THE Sealer of Weights and Measures

To the Honorable Mayor and City Council:

Gentlemen:—I have the honor to submit the following report of my official duties as Sealer of Weights and Measures for the municipal year of 1933.

Total	No.	Scales,	ested,	158,	condemned,	7
6.6	6.6	Weights,	6.6	206,		0

Committee on Licenses.

# City Engineer's Report

To the Honorable Mayor and City Council of the City of Westbrook:

GENTLEMEN:—I herewith present a report of the engineering work done the present year.

#### HIGHWAYS, SIDEWALKS AND BRIDGES

The detailed report on street work will be found elsewhere in the City Report.

By direction of the Mayor releases from damage to abuttors due to "line, grade and drainage" were obtained and slight supervision of the work on the Conant Street resurfacing was rendered.

The work here done was a fine job of reinforced concrete resurfacing, together with a complete job of surface drainage.

This was a Federal Aid Project (No. N. R. M. 135 C), the total length being .757 miles.

#### SPRING STREET

On the assumption that Federal aid would be available for this purpose and by request of the Mayor, a survey of Spring Street from Main Street to Buxton road was made with the idea of "straightening" the lines thereof.

The present location consists of about 10 tangents or angles, and as shown by the plan submitted herewith, the proposed location would have only three.

The proposed re-location would follow the present right of way from Main Street, a distance of about 5,470 linear feet, to a point about 500 feet northerly from the center line of Stroudwater River, thence the proposed location would cross the present one three times, the remaining distance being 4,200 linear feet to the Buxton road, a total distance of 9,670 feet—1.831 miles.

The distance over which the proposed (new) location would traverse private property would be 3,200 linear feet with a land area of 3.67 acres.

There would also be left 4 parcels of land between the present and proposed street location, the value of which to the present owners would be doubtful, the combined area of which would be approximately 4.58 acres, or a total of 8.25 acres.

In addition to the necessary reconstruction of the road, a new bridge spanning Stroudwater River would be necessary, together with a new system of drainage.

This data is submitted, together with a plan (no profile), in order that the work thus far done may not be lost sight of but be available for future reference.

#### METHODIST ROAD

A survey and estimate of cost of proposed Federal aid work on the Methodist Road was made but no supervision has been given the job.

#### CUMBERLAND STREET HIGHWAY BRIDGE

Structural steel repairs and replacements at a cost of \$650 were made to the south span of this bridge in the early part of the year.

It is recommended that both the Cumberland Street and West End bridges be painted this season.

An inspection of these bridges, especially that of the south span at Cumberland Street, will show how vitally necessary this work is. (See report of the then condition of the south span of the Cumberland Street bridge, City Report, 1932, page 105.)

#### DRAINS AND SEWERS

Hardly anything in the way of sewer construction has been done. The details relating to repairs, etc., will be found elsewhere in the City Report.

#### WEST PLEASANT STREET PROJECT

In the early part of the year, by request of the Mayor and Committee on Drains and Sewers, an investigation of the stormwater disposal conditions of the drainage area tributary to West Pleasant, West Valentine, and Green Streets (and incidentally Mechanic Street) was made, the results of which were reported upon.

This report is now on file at the Mayor's office, but that the matter may not be lost sight of, the following abstract is made a part of the City Report.

The 24-inch diameter sewer in Mechanic Street at West Valentine is at times fully loaded, or more correctly speaking, overloaded, the excess flow being most of the run-off tributary to West Pleasant Street at West Valentine, which (run-off) now discharges into the Mechanic Street sewer through the West Valentine Street branch.

The above described conditions are responsible for all the flooding of land and cellars in this region and no improvement in this respect is possible until an adequate drainage system for said West Pleasant Street drainage area is provided.

The system need not be described as the plan submitted herewith shows in sufficient detail, the proposed work.

The drainage troubles described would be fully relieved by extending the pipe line only from the Boston & Maine R. R. drain along West Pleasant Street to Green Street with the short section of pipe running easterly on said Green Street.

The two Federal (C. W. A.) projects of sewer construction will be as follows:

#### CONANT STREET

Prior to the reinforced concrete resurfacing of this street (Federal Aid Project No. N. R. M. 135 C) a pipe was laid transversely across at the lowest point in said street to provide for sewers on both sides of the street.

At the time the probability of doing this work was a long distance in the future, the Federal Aid (C. W. A.) only making it possible to have it done now.

The sewer is designed for house sewage only.

A 600 linear foot 12-inch diameter section of pipe (outfall No. 23) is laid from the river to the street, into which the street sewers discharge.

The street sewers consist of 8-inch diameter pipes laid at a gradient of about .5 of 1% and have a total length of 4,075 feet.

The depth of cut varies from about 7 feet for the outfall section to a maximum of 15 feet for the street section, which depth is sufficient to care for all the dwellings along the street from the old Conant house to the Richardson and Watson houses but does not provide for the low section near the Gorham line.

At this date (March 24th) 2,110 linear feet of pipe have been laid or 45.2%.

The back filling, however, is not complete; on the other hand the deepest cut on both sides of the street has been passed so that it is possible that 45.2% of the job has been done.

#### MITCHELL AND CHESTNUT STREET SEWERS

This sewer, or sewers, by reason of the topography is divided into two sections, both of which are designed to care for house sewage only (the separate system of sewerage).

One section will care for sewage which now flows south-westerly in an open drain from Mitchell Street with an outfall (outfall No. 22) into King's Cove, so called, the other section would flow northeasterly into the present Pierce Street sewer, thence through Pierce, North, Brown and River Streets, discharging through outfall No. 19 into Presumpscot River.

The total length of both sections would consist of about 2,100 linear feet of 8-inch pipe (with manholes) laid at an average depth of about 7.5 feet.

Ledge is encountered through about 60% of the total distance at a mean depth of about 4.5 feet.

At this date (March 24th) about 704 linear feet or 33.5% of the pipe is laid and in addition thereto ledge

excavation in advance of pipe laying is partly complete for a distance of about 350 feet, so that this system may be assumed to be 33.5% complete.

Some criticism of the proposed sewage disposal into "King's Cove" has been heard, but in reply to this it should be stated that not only the sewage from the 8 dwellings located on this portion of Mitchell and Chestnut Streets but also that from a like number on Lincoln Street now have the same outfall.

By extending the present sewer a distance of about 270 feet through King's Cove, this sewage would discharge into Presumpscot River, but this would be an expensive undertaking, involving either cofferdamming or the lowering of the water surface in the river. This would involve a considerable loss of power and if this had to be paid for would be much the more expensive method.

For the reason that the normal height of water in the river at this point is such that sewage from the dwellings on Lincoln Street cannot be cared for, it will be necessary to provide a sewer here discharging into the river at Bridge Street, where the water surface is 28 feet lower than at King's Cove.

If and when this work is done all the sewage in this region, including that from Mitchell and Chestnut Streets, would be provided for.

The length of the above-mentioned sewer would be about 1,600 feet and ledge would be encountered through most or all this distance, whence the cost of the undertaking would be very large.

Respectfully submitted,

H. W. FOSTER,

City Engineer.

# Report of the Building Inspector

WESTBROOK, MAINE, January 4, 1934.

To the Honorable Mayor and City Council:

Inspector of Buildings.

# Report of the Street Commissioner

To the Honorable Mayor and City Council of the City of Westbrook:

GENTLEMEN:—I hereby submit the annual report of the Street Department for the year ending December 31, 1933.

#### BRIDGES

Upon recommendation of the City Engineer, Cumberland Street Bridge was reconstructed and made safe. Both Cumberland and Bridge Street Bridges were replanked and given a covering of bitumales to prolong their life.

#### DRAINS

The City Engineer reported three locations where ditches were unsafe and they were repaired by cobblestone gutters or by crushed stone and gravel. Seventy driveways were replaced and put in new. All principal streets were ditched by labor furnished by the Overseers of the Poor.

#### BUSHES

All bushes on State Highways, Third Class Roads and Special Resolve Roads, and many of the Town Ways were cut by Department employees and help furnished by the Overseers of the Poor.

#### FENCES

Several highway fences were repaired this year and new ones added.

#### GRAVEL

All city streets were patched where needed and the following streets were re-graveled:

200	yards	of	gravel
175	6.6	6.6	6.6
95			6.6
60	6.6		6.6
250	6.6	6.6	6.6
<b>25</b> 0	6.6		6.6
50	6.6	6.6	6.6
80	6.6		6.6
20	6.6	66	6.6
	175 95 60 250 250 50 80	175 '' 95 '' 60 '' 250 '' 50 '' 80 ''	95

One yard of gravel will cover eighty (80) square feet to a depth of five (5) inches.

#### NEW STREETS

One new street, Allen Avenue, was built with a stone base and a gravel top of a distance of 250 feet.

#### SIDEWALKS

Sidewalks were patched and repaired with stone dust where needed.

#### SNOW REMOVAL

On account of the mild winter only three hundred and twenty dollars (\$320) was credited to the City by the State for snow removal.

#### SEWERS

On account of the small appropriation no new sewers were constructed. Five (5) new catch basins and one (1) manhole were built, ten (10) catch basins were repaired and many new manhole covers and rings were used.

#### SPECIAL RESOLVE HIGHWAY

One Special Resolve Highway was constructed from County Road on Spring Street to the South Portland line. The road is eighteen (18) feet wide and two thousand four hundred and fifty (2450) feet long, being constructed of crushed stone and bitumals. The cost was sixty-six cents (\$.66) per square yard. The biggest percentage of the labor was furnished by the Overseers of the Poor.

#### STONE ORUSHER

The stone crusher being very badly in need of repair, new jaws were installed and the rest of the crusher patched up and kept running. One thousand (1000) tons of stone were crushed and used. Very many repairs are still needed.

#### STREET DRAGGING

Two heavy drags hauled by City trucks were constructed this year and approved by the State Highway Department. These drags gave good results. The road graders and drags were used at all times possible and kept the dirt roads crowned.

No oil was used but a clay binder was applied to Saco and Stroudwater Streets and proved very satisfactory.

#### STREET REPAIRS

Brackett Street Hill and Fitch Street were repaired with bitumales and so far have given good results.

#### **EQUIPMENT**

The equipment in the City Stable is five (5) horses, three (3) sets of double harnesses, four (4) single harnesses, three (3) sets of double sleds, one (1) single sled, two (2) horse dump carts, one (1) one horse dump cart, one (1) road machine, three (3) graders, seven (7) king drags, six (6) sidewalk plows and other small tools necessary to the department.

#### CITY GARAGE

Five one and a half ton Ford dump trucks, one-half ton Ford truck with one Ingersoll Rand Air Compressor, complete, mounted on some three ten foot snow blades, two eight foot snow blades, one ten ton Holt tractor, one Buffalo steam roller and scarifier, two State road drags, one acetylene welding and cutting outfit, one set taps and dies, one six ton hydraulic jack, one half inch electric drill, one radiator repair bench, complete, one portable forge and anvil, one stone crusher, one pressure pump for applying bitumales. This constitutes the equipment of the garage.

The city mechanic, Alfred Farley has kept all of the City equipment, including Street and Fire Departments in running order.

The appropriation for this department was twenty-eight thousand dollars for the year; of course this was a very large cut and required that all employees should be cut. Through the co-operation of the Street Department employees and the Overseers of the Poor an unexpended balance of five thousand dollars was returned to the City.

Respectfully submitted,

CHARLES CURTIS,
Street Commissioner.

# Trustees and Regents of Memorial Library

To the Honorable Council of the City of Westbrook:

Gentlemen:—The Trustees and Regents of the Memorial Library beg leave to submit the following report:

The organization for the year was as follows: President, Joseph A. Warren; Vice-President, Rev. H. E. Townsend; Secretary, A. A. Staples; Auditing Committee: Mayor Rufus K. Jordan, Joseph A. Warren, A. A. Staples; Purchasing Committee: Rev. H. E. Townsend, K. E. Terry.

The work of the Library for the past year is shown by the Librarian's report.

#### REPORT OF THE LIBRARIAN

To the Trustees and Regents of the Memorial Library of Westbrook:

Gentlemen:—I have the honor to submit the fortieth annual report of the Library for the year 1933.

The past year has been a busy one for the Library, although the circulation has dropped slightly from that of the previous year. This lower circulation is due partly to the fact that fewer books than usual were added during the year, and also during the months of July and August the Library was open only three days each week.

While we have had fewer additions of books, and this has relieved us of some labor in this department, the reference work in connection with the schools has increased. Both teachers and students seem to be relying on the Library more and more each year. We appreciate this opportunity to be of service.

We feel pleased that we have been able to accomplish as much as we have under the restricted budget. In order to effect the economy desired, several people, including the Assistant Librarian, have given their time gratuitously.

Bridge Street, Rocky Hill and the Valentine Street schools have requested books from the Library, to stimulate the pupils' interest in outside reading.

More than sixty books and several magazines that were past their usefulness to the Library, were given to the Westbrook Hospital.

The Librarian and Assistant Librarian attended the meeting of the Maine Library Association at Brunswick. A profitable and enjoyable session was enjoyed.

The records of the Library show that 403 books were classified and accessioned during the year.

Of this number 355 were adult and 48 were juvenile, 323 were fiction, 20 history and travel, 16 literature, 11 biography, 13 philosophy and social science, 11 useful arts and 9 reference literature.

Three hundred and forty-two books were purchased and 61 were gifts.

The total number of books withdrawn from the records during the year was 420.

The number of books rebound was 131.

#### REGISTRATION

Five hundred and thirteen applications were issued; one hundred and eleven were juvenile.

#### CIRCULATION

Seventy-two thousand six hundred and twenty-three books were loaned during the year. Twelve thousand eight hundred and seventy-one books were loaned to juniors.

#### **CIRCULATION BY CLASS**

Philosophy and religion 295, sociology 387, philology and literature 1442, natural science and useful arts 816,

music 347, biography and history 3,123, magazines 2,588, fiction 50,754, juvenile 12,871.

The average number of books loaned per day was 271.9.

Number of mail notices sent for overdue books was 582. Second notices sent, 20, and 36 calls were made to recover books.

Postals sent for books on reserve list was 550. The Library was open  $267\frac{1}{2}$  days.

# REPORT OF THE Committee on Street Lights

To the Honorable Mayor and Board of Aldermen of the Oity of Westbrook:

GENTLEMEN:—I hereby submit the following report of the Lighting Committee for the year ending December 31, 1933.

Cancel 590 lights, April 1; change the 250 c. p. of Main Street, except in the business section, to 60 c. p., April 1; add during the year forty-nine 60 c. p.

Respectfully submitted,

GEORGE J. DAIGLE, Chairman, KENDRICK BURNS, MAURICE A. SWEET, Committee on Street Lights.

## Report of the City Physician

To the Mayor and City Council of Westbrook:

Because of the large number of people dependent upon the City in the year 1933, with the epidemic of severe colds and respiratory diseases during the first four months, the year proved very strenuous for all concerned with the health of our City.

Fourteen hundred and seventy-nine house and office calls were made in addition to minor and major operations.

I appreciated the help and co-operation of the Mayor, Board of Overseers of the Poor and Secretary of the Board of Health; also I wish to mention the competent care taken of the inmates of the City Farm.

The Police Department has been courteous and very helpful during the hours when most of the City was asleep.

Much valuable assistance was rendered by the District Nursing Association, the Laymen's League, and churches of the City.

Respectfully submitted,

Frank A. Smith, M. D. City Physician.

# Delinquent List Submitted by Collector and Treasurer

Chapter 106 of the Public Laws of the State of Maine, for the year 1907.

An act for the better collection of taxes.

Be it enacted by the Senate and House of Representatives in Legislature assembled, as follows:

That on and after January first, nineteen hundred and eight, all municipal officers of the cities and towns in making out the yearly report shall cause to be printed in said report the names and amounts of all delinquent tax payers which have been committed to the collector or treasurer for collection.

The failure of non-performance of this duty shall be not less than five dollars nor more than twenty-five.

Approved March 27, 1907.
