Fall 2017 Enrollment Report – The University of Maine System

INTRODUCTION

The following report provides summary information regarding enrollment at the University of Maine System for the 2017 Fall Semester. All data reported is as of the census date, October 15, 2017.

Notes:

1. Some totals may not appear to sum correctly due to rounding (e.g., percentages).
2. USM graduate student figures include the University of Maine School of Law.

Data Source: PeopleSoft Database; the University of Maine System; 10/15/2017.

Distance Education Credit Hours by Mode and Campus	32
Total Semester Credit Hours by Mode	32
Distance Credit Hours by Mode and Degree Level	33

Fall 2017 Enrollment Report – The University of Maine System

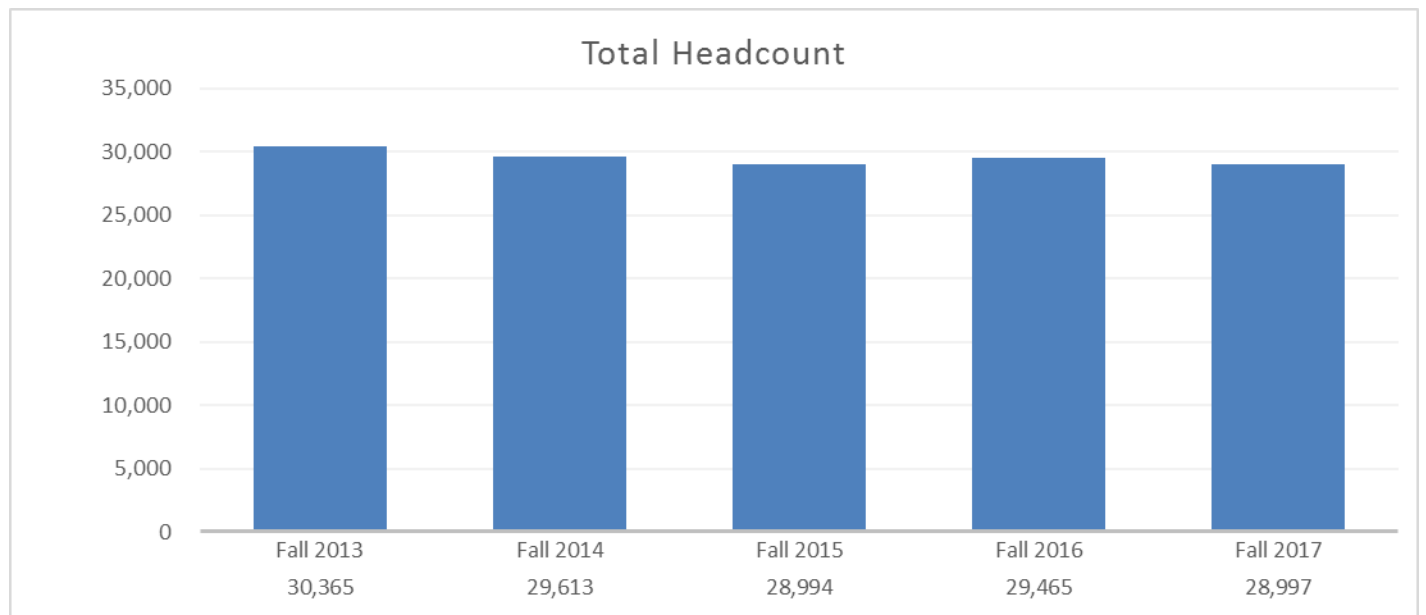

HIGHLIGHTS

- Compared to Fall 2016, undergraduate credit hours are down slightly (-0.6%) across the system. USM, UMPI, and UM experienced increases in undergraduate credit hours compared to last fall, while these credit hours declined at UMA, UMFK, and UMM. In the case of UMFK, however, this was the first decline in undergraduate credit hours in the past five years.
- For the first time in the past five years, credit hours among Early College students experienced a decline (an 11% drop across the system). Similar trends were apparent with respect to total headcounts. The one-year decline in both undergraduate credit hours (specifically non-degree undergraduate credit hours) and headcount is almost entirely attributable to this drop in Early College. Only one institution (UMF) saw growth since last fall in Early College. Early college credit hours are 3.7% of total undergraduate credit hours.
- Graduate student credit hours increased 2.8% since Fall 2016 (a second year of consistent growth). UMF witnessed the strongest and most consistent growth in graduate student credit hours (although such credit hours only account for 3.2% of UMF's overall credit hours this fall). Graduate credit hours grew at both UM and USM since last Fall.
- There has been significant growth in credit hours among out-of-state students (up 52% since Fall 2013, 16% since Fall 2016) and NEBHE students (up 13% since 2013, down 4% since Fall 2016). Meanwhile, credit hours among in-state students declined 12% over the past five years (3.8% since 2016). Credit hours and headcounts have declined substantially at the Associate-degree level, driven largely by the elimination of two-year degree programs across the system in recent years.
- The number of First-time students entering in Fall 2017 increased 2.5% over 2016, returning to levels not seen since Fall 2013, while transfer-in students are down compared to both 2016 and five years ago.
- Compared to either a year ago or five years ago, there are now more Black/African American, Hispanic/Latino, Asian, and multi-racial/ethnic students enrolled in the UMS, mirroring a trend being reflected nationally. The total number of white students declined nearly 1% since last year and 6% in the past five years, while the total number of American Indian/Alaskan Native students has dropped by 8% since Fall 2016 (and by nearly 22% in the last five years).
- The delivery of credit hours continued to shift toward Distance Education—toward Distance Online in particular, which grew by more than 2% since last year (while all other forms of Distance Education declined). Traditional campus credit hours declined only slightly over the past year (by 0.2%), and have declined by 5.6% over the past five years. Distance online represents 86% of all distance education and 17.2% of all credit hours.
