## **Subscription Information**

The Journal of Digital Forensics, Security and Law (JDFSL) is a publication of the Association of Digital Forensics, Security and Law (ADFSL). The Journal is published on a non-profit basis. In the spirit of the JDFSL mission, individual subscriptions are discounted. However, we do encourage you to recommend the journal to your library for wider dissemination.

The journal is published in both print and electronic form under the following ISSN's:

ISSN: 1558-7215 (print)

ISSN: 1558-7223 (online)

Subscription rates for the journal are as follows:

Institutional - Print & Online: \$395 (4 issues)

Institutional - Online only: \$295 (4 issues)

Individual - Print & Online: \$80 (4 issues)

Individual - Online only: \$25 (4 issues)

Subscription requests may be made to the ADFSL.

The offices of the Association of Digital Forensics, Security and Law (ADFSL) are at the following address:

Association of Digital Forensics, Security and Law  
1642 Horsepen Hills Road  
Maidens, Virginia 23102  
Tel: 804-402-9239  
Fax: 804-680-3038  
E-mail: [office@adfsl.org](mailto:office@adfsl.org)

## **Announcements and Upcoming Events**

# **The ADFSL 2011 Conference on Digital Forensics, Security and Law**

**Richmond, Virginia USA  
May 30-31, 2012**

**<http://www.digitalforensics-conference.org>**

=====

The ADFSL 2012 Conference on Digital Forensics, Security and Law will be hosted by Longwood University and held at the Hyatt House – Richmond West in Richmond, Virginia on 30-31 of May 2012.

The ADFSL Conference on Digital Forensics, Security and Law is a unique and innovative event. It is managed by the Association of Digital Forensics, Security and Law (ADFSL).

The conference focuses on the current and expanding role of digital forensics within investigations and the courts as well as its important role within cyber security - both national as well as corporate. Topics not only include technology and evidence, but also are very much focused on how to prepare students for careers in digital forensics. Curriculum is a very important topic and the new DoD initiative on certification and Centers of Academic Excellence will be very important areas of discourse.

Conference submissions are double blind refereed and provide a forum for high quality research, communication and debate on the subject of digital forensics and directly related fields.

CALL FOR PAPERS

**ICDF2C 2012**

Third ICST International Conference on Digital Forensics and Cyber Crime  
Purdue University, West Lafayette Indiana USA, 24 - 26 October, 2012  
<http://www.d-forensics.org>

SCOPE: The Internet has made it easier to perpetrate crimes by providing criminals an avenue for launching attacks with relative anonymity. The increased complexity of the communication and networking infrastructure is making investigation of the cybercrimes difficult. Clues of illegal activities are often buried in large volumes of data that needs to be sifted through in order to detect crimes and collect evidence.

The field of digital forensics and cybercrime investigation has become very important for law enforcement, national security, and information assurance. This is a multidisciplinary area that encompasses law, computer science, finance, telecommunications, data analytics, and policing. This conference brings together practitioners and researchers from diverse fields providing opportunities for business and intellectual engagement among attendees.

We are providing a venue that not only offers chances for networking, but also high-quality training opportunities through expert speakers and tutorials on basic and advanced forensic techniques and methods of cybercrime investigation. This ICST conference is endorsed by EAI and organized in cooperation with Purdue University and the Center for Education and Research in Information Assurance and Security CERIAS).

RESEARCH PAPERS: Papers describing original unpublished research are solicited. Submissions must not be concurrently under review by a conference, journal or any other venue that has proceedings.

SUBMISSION INSTRUCTIONS: Paper submission will be handled electronically. Papers must be formatted using Springer LNICST Authors' Kit (<http://d-forensics.org/authorskit.shtml>) and submitted only through the Assyst conference management system following the instructions that can be found in the conference web site (<http://d-forensics.org/submissiondetails.shtml>).

All submitted papers will be judged based on their quality through \*double-blind\* reviewing. Authors' names must not appear in the paper.

All other submissions should be sent via email to the conference general chair ([rogersmk@purdue.edu](mailto:rogersmk@purdue.edu))

PUBLICATIONS: Accepted papers will be published in the ICDF2C 2012 Conference Proceedings and by Springer-Verlag in the Lecture Notes of the Institute for Computer Sciences, Social-Informatics and Tele-communications Engineering (LNICST) series.

Extended versions of selected papers from the conference will be invited for publication in a special issue of the Journal of Digital Forensics, Security and Law.

IMPORTANT DATES

Paper Submission: June 1, 2012  
Notification of Acceptance: August 1, 2012  
Camera-ready Version: September 1, 2012

ICDF2C is endorsed by the European Alliance for Innovation (EAI)  
ICDF2C is sponsored by ICST with the technical cooperation of Create-Net
