DEPARTMENT OF ART

JANICE M. GLOWSKI, Gallery and Museum Director

Artistic Exhibits and Performances

Otterbein and the Arts: Opening Doors to the World, with Diane Nance and Provost Martinez-Saenz. Conceptualized a 3-year arts initiative aimed at enriching the international education curriculum through global arts programming. Chile and Cuba were gateway countries for 2015-16. With graphic design intern for the Museum,

Savanna Daily, developed the initiatives branding, logos, and print materials.

El Tanque, by Carlos Martiel. Janice Glowski and Juan-Sí Gonzalez (Curators), Miller Gallery, Otterbein University, January 2016. The performance and video (now in Otterbein's permanent collection) were commissioned and produced by the curators and Otterbein's Museum and Galleries. The work spoke to the An Island Apart exhibition's theme of exile, prisoners of conscience, and the role artists in socio-political spheres.

External Grants and Fellowships-Primary Investigator

National Endowment for the Arts (NEA), for *An Island Apart: Cuban Artists in Exile* exhibition and related programming (\$28,000). This is Otterbein University's first NEA grant.

Ohio Arts Council (OAC), to support Cuban artist-in-residence, Juan-Sí Gonzalez, at Otterbein in Spring 2016. The residency resulted in an installation in the Fisher Gallery called *Cartographies: Reconstructing Human Displacement*. (\$3,436)

Service/Leadership in the Profession

Continued to conduct medical home visits to geriatric patients during time off.

Taught a high level pathophysiology course to physician assistants at a professional school over the summer.

Teaching Innovations

Continued to create worksheets and allow students to work on them in class. Students like to learn this way to solidify what is taught in lecture.

Worked jointly with the Academic Support Center and a visually impaired student in my INST class to discover new ways to support her learning, like personally narrating movies to tell her what she cannot see.

directed, Dr. Davenport music directed and led the three piece combo orchestra from the piano. The cast included two voice faculty, four students, and an alumni guest artist.

Served as music director for Otterbein Summer Theatre's production of *The All Night Strut*, and led a three piece combo orchestra from the piano.

Presented the Otterbein Singers in concert with other Otterbein ensembles in October and December. The October concert featured a performance of *Jubilate, Jubilate!*, an anthem by Dennis and Sarah Davenport which was commissioned at Church of the Master by the children of Jim and Carol Shackson in honor of their parents' 50th wedding anniversary. Following the performance at the October choral concert, the work was performed by the combined forces of the Otterbein Singers and the Church of the Master Chancel Choir at a Sunday service.

Chautauqua, instrumental work by Davenport, was performed at the Fall Faculty Showcase in August 2015 with alumnus Evan Hughes on alto saxophone and D. Davenport on piano.

Presented the Otterbein Singers in a concert called British Invasions, featuring theatre and popular music from England that has proved popular in the United States, including excerpts from the works of Gilbert and Sullivan, Andrew Lloyd Webber, songs by the Beatles and Adele, a song from Monty Python's *Spamalot*, and ending with *Bohemian Rhapsody* by Queen.

KAREN L. ECKENROTH, Associate Professor *Artistic Exhibits and Performances*

Acted as Music and Stage Director of the Otterbein University Opera Scenes program, November 2015. One of these scenes was featured on Otterbein's annual Department of Music Collage Concert in October.

Acted as Music and Stage Director of the Otterbein University Opera Workshop's production of "The True Story of the 3 Little Pigs" by Wallace Earl DePue with the composer in attendance, April 2016. This is a

potential future outreach project to local Elementary Schools.

Served as Producer for the Opera Theatre premiere production of "First Encounters: Berthe Morisot meets Edouard Manet" by Dennis Davenport.

Conducted the Otterbein Women's Chorale for Otterbein's International Music Concert, February 2016.

Sang the Mezzo-soprano solos for Otterbein University Choir and Westerville Symphony's performance of "Missa Cubana" by Jose Maria Vitier as part of the Otterbein University Cuban Music Festival, April 2016.

JENNIFER MERKOWITZ, Associate Professor *Artistic Exhibits and Performances*

Les Crapauds de la Fontaine (The Toads from the Fountain) for bass clarinet and electronic sound was commissioned by the Third Practice Electroacoustic Music Festival at the University of Richmond, VA. The world premiere was performed by Andrea Cheeseman in November 2015, and the Ohio premiere was performed at Otterbein by recent music graduate Andrew Kovaleski in April 2016. Future performances of the piece are scheduled in November 2016 at the Electroacoustic Barn Dance at the University of Mary Washington, VA, and at Appalachian State University in NC in March 2017.

EXTERNAL GRANT AWARDS - OFFICE OF GRANTS AND SPONSORED PROGRAMS

Otterbein faculty and administrators have received grants totaling \$175,204 since our last update in March 2016. Ranging widely from research to academic studies to community education, these grants support the mission of Otterbein, enhance faculty achievement and student learning, and strengthen social justice in the central Ohio community.

TARA CHINN, Business Affairs/Facilities
Ohio Bureau of Workers Compensation,
Otterbein University request for a Scissor Lift
(\$11,474)

Otterbein University received funding for an intervention to increase safe practices and injury prevention from falls in our facilities by the purchase of a scissor lift. The lift will be used to reach work areas located at or in elevated spaces in need of building repair and inspection at heights where a worker is lifted into the proper working position by a propelled lift. The use of a scissor lift can make the completion of these tasks more efficient, and often times safer, by eliminating the use of an extension ladder or stepladder placed in a riskier and undesirable position. Specific job tasks include: changing light bulbs, ballast and any repairing of structure related to times to our indoor recreation center and basketball-volleyball auditorium; repairing, replacing and installing new plumbing; installing telecommunications infrastructure; putting up banners; fixing windows and gutter repairs.

MELISSA GILBERT, Center for Community
Engagement
The Columbus Foundation/ Franklin Park,
Community Garden Grant (\$2,000)

Through these grant funds, the Otterbein Community Garden will take significant steps in sustainability and institutionalization. We plan to purchase bulk supplies to better facilitate the nurturing of the soil at the garden and will also be hosting garden events to raise awareness not only about the garden, but also about issues of hunger in our community.

The Columbus Foundation / Westerville Sunrise Rotary, The Promise House: Addressing Youth Food Insecurity in Westerville and Garden (\$3,858)

To meet the needs of under-resourced youth on campus and in the community, Otterbein University will provide a new community resource center and free community cafe at The Promise House beginning in the summer of 2016. The Promise House will address key socioeconomic barriers students face while in college. Promise House Student Coordinators will offer a series of services to help their peers succeed, including a campus food pantry, free cafe, Ohio Benefits Bank counseling, peer advocacy, and educational workshops. In order to "pay it forward," the Promise House student members will also: 1) volunteer as mentors to local youth, 2) provide youth programming at The Otterbein Community Garden and USDA summer feeding programs, and 3) harvest and donate fresh fruits and vegetables grown during the summer season to both the local food pantry and The Promise House.

Faculty Achievements Report, October 2016

TERRY HERMSEN, Professor, Department of English
Ohio Arts Council, *"The Most Beautiful Cemetery in Chile" Reader's Theater* (\$1,000)
Otterbein University will present readers theater performances in Mansfield and Oxford, Ohio of "The Most Beautiful Cemetery in Chile," by Chilean poet Christian Formoso. Dr. Hermsen and two of his colleagues, along with current Otterbein students and alumni, serve as translators, scriptwriters, and actors, and will participate in post-performance talkbacks.

DIANE ROSS, Associate Professor, Department of Education
Fulbright Scholar Program, *Flex Grant for Sub-Saharan Africa* (\$22,850)
Dr. Ross received the Fulbright grant to understand how the multilingual digital collaborate, African Storybook Project (ASP) can be used with young adolescent girls as an intervention strategy to help them define identity, improve developmental assets, improve sexual reproductive health awareness and increase retention in school through P7. In cooperation with Nile University (Arua, Uganda), P4, P5, and P6 teachers will be identified and trained to use the digital literacy collaborative, ASP, as a medium to improve reading, writing, and personal empowerment. Quantitative data will be collected on retention. Qualitative analysis will include stories, interviews, and classroom observations. The Fulbright Program aims to increase mutual understanding between the people of the United States and the people of other countries, and it is the flagship international educational exchange program sponsored by the U.S. government.

NATHANIEL TAGG, Associate Professor, Department of Physics
National Science Foundation, RUI: Neutrino Experiments at FermiLab (\$147,496)
Neutrino oscillation experiments have revealed some of the most profound surprises seen by particle physics in the last half-century. As we prepare for the next-generation long-baseline neutrino oscillation experiments, we must understand both detector technologies and neutrino-nuclear cross sections in order to make future experiments successful in understanding the nature of the neutrino and its role in the structure of the universe. Dr. Tagg will continue participation in the MicroBooNE and MINERvA experiments currently running or being commissioned at Fermi National Accelerator Lab (near Chicago, IL). Funds will support summer salary for Dr. Nathaniel Tagg and two summer interns each year for three years, plus funds to support travel, equipment, and research materials.
