The program is timed specially for the com-munity "busy people" and for teachers whose schools do not close until Friday, June 14. The Institute begins at 3:30 P.M. on the 14th and ends the evening of the 18th of June. Daily sessions run from 3:30 to 9:30 P.M.

The Institute, featuring the "Chal-lenges for the '80's", will offer such nationally known figures as Alice S. Rossi, sociologist and authority on women's role; Will Herberg, noted lecturer and civil religion author; Albert S. Sabin, outstanding medical researcher and microbiologist; C. Delores Tucker, authority on Black women in politics; Philip R. Adams, noted art critic; Madeline C.

Hunter, renowned educator; Jayne B. Spain, Vice-chairperson, U.S. Civil Service Commission and businesswoman: James C. Bostain, lecturer on communications problems; Jack Anderson, nationally syndicated reporter; and Ashley Montagu, anthropologist and author.

Community **Resources** Workshop

JUNE 17-JULY 12

Xavier University will host the 1974 Queen City Community Resources Workshop. The workshop is offered in conjunction with the University of Cincinnati, Miami University, and the Greater Cincinnati Chamber of Commerce.

Enrollment is limited to school personnel selected by the Workshop Trustees and acceptable to the student's Graduate School.

Four credits are granted, but the amount of such credit accepted for graduate degrees is left to the discretion of each institution. Applicants should inquire to the school at which they plan to register. Applications for appointment can be requested from the Queen City Community Resources Workshop, Greater Cincinnati Chamber of Commerce, 55 Central Trust Building, Cincinnati, Ohio, 45202, or by calling the Education Center, Cincinnati Public Schools, 369-4044.

Workshops In Science Education

Dr. Napoleon Bryant, Jr., Assistant Professor of Education and highly acclaimed science educator, will direct science workshops in Elementary Science Curriculum Projects and Intermediate/Junior High Curriculum Projects.

Science Curriculum Improvement Study (SCIS), Elementary Science Study (ESS), Science-A Process Approach (S-APA), and Science-Understanding Your Environment (S-UYE) will be studied in the elementary science workshop.

CAMPUS HOUSING!

With the possible gasoline shortage for this summer, the University is prepared to assist students in the organization of car pools. The University will make available in the various University offices names and addresses of students attending the Summer Sessions. The individuals will make their own contacts to form pools. This service will not be available for the various short-term programs and Intersession.

University housing and board will be available for students who choose to meet the energy crisis by this manner.

SUMMER VARIETY

An extensive variety of courses are available during the Summer Sessions at the University this summer," stated Dr. Milton Partridge, Summer Sessions, Xavier University.

"The schedule includes courses at the graduate and undergraduate level-both day and evening-an enlarged Intersession, short-term workshops and institutes. We feel that we are offering an excellent summer opportunity for many people."

The offerings include an extensive selection of courses for degree students, course options for anyone in the community interested in continuing education, and courses for the high school junior or senior of above average ability.

"The out-of-town student, home for the summer, will find many courses acceptable for transfer to his college or university," added Dr. Partridge.

Dean Raymond McCoy, Graduate School, pointed out also that "The Summer Sessions offer a golden chance for the professional educator, the Master of Business Administration candidate, and for the Master of Arts and Master of Science candidates."

"For teachers whose schools do not close until Friday, June 14, two Intersession courses are especially attractive. One, starting in the afternoon of June 14, is Challenges for the '80's. In the week of June 17 is the Workshop: Children's Books and Related Media for the '70's. During the week of July 22 two workshops (School Community Relations for the Principal and Group and Interpersonal Dynamics) and an Institute (America, A Society in Crisis) will be offered."

Individuals may register as special students if they do not wish to pursue a degree program. Any person holding a bachelor's degree registers through the Graduate School of the University, while anyone without a college degree registers through the University's College of Continuing Education.

Intermediate Science Curriculum Study, Levels I, II, and III will be emphasized in the intermediate/junior high science workshop.

The workshops will be offered the first three weeks of the Summer Sessions from June 17 to July 5 and will meet 21/2 hours daily.

Both workshops will provide "handson" experience with program materials and in working with children.

Each workshop carries three graduate or undergraduate credits.

STUDY ABROAD

Xavier University is offering a 4-week and an 8-week opportunity for Spanish Study in Bogota, Columbia, during the Summer of 1974.

A 6-week program at the University of Vienna, Lake Wolfgang (Strobl), is also available. Partial scholarships are funded for the Austrian session.
