General Information

The contents of this bulletin together with the college catalogue of 1942-1943 constitute the complete information for the academic year 1945-1946.

The Accelerated Program

Three sessions of sixteen weeks each will be offered in the academic year beginning approximately on July 1, November 1, and March 1. Freshmen may enter college at the beginning of any trimester. This accelerated plan enables students to satisfy all requirements for a degree within two years and eight months.

Admission

Application for admission is made in form. A form for this purpose can be had on request.

Applicants must arrange to have an official transcript of credits sent to the Registrar from the high school from which they graduated or from the colleges attended. The arrangement must be made at such a time as to have the transcript on file with the Registrar not later than one week prior to registration. All credentials which are accepted for admission become the property of the University and are kept permanently on file. All communications regarding admission and registration should be made to the Registrar.

Admission by Certificate

Graduates of Accredited High Schools. The usual method of admission for high school graduates is by certificate of graduation from an accredited high school together with an official record of units and an official recommendation from the principal. A unit is the equivalent of a subject extending through a school year of thirty-six weeks with five recitations per week. A minimum of fifteen units is required.

In presenting the fifteen units for admission an applicant may offer either nine units distributed as follows:

<i>Subjects</i>	<i>Units</i>	<i>Subjects</i>	<i>Units</i>
English.....	3	Algebra.....	1
Language.....	2	Plane Geometry.....	1
History.....	1	Science.....	1

or ten units in four sequences, two major sequences (three units each) and two minor sequences (two units each). The sequences will be selected from the five groups of subjects listed below. Not

more than one of the required sequences may be accepted from any one group, except *Group B*, where sequences may be offered in each of two languages.

Group A. English and Speech. A major sequence must be offered from this group.

Group B. Language. The languages acceptable in this group are Greek, Latin, French, German, Italian, Polish, and Spanish. Any sequence must be in a single language and no more than two sequences will be acceptable.

Group C. Mathematics. A minor sequence in this group must be offered and must include one unit of algebra and one unit of plane geometry. For all applicants, except applicants for the pre-engineering program, a unit of physics may be combined with a minor sequence in mathematics to form a major sequence. Applicants for the pre-engineering program must present $1\frac{1}{2}$ units of algebra, 1 unit of plane geometry and $\frac{1}{2}$ unit of solid geometry for a major sequence in mathematics.

Group D. Science. Not more than one unit in any one science may be offered. Physics may not be counted toward a science sequence if it is counted in the mathematics group toward a major sequence. If biology be included neither botany nor zoology may be counted. Single half units in chemistry and physics will not be acceptable.

Group E. Social Studies. The subjects and the number of units in each subject which are acceptable from this group are as follows:

<i>Subjects</i>	<i>Units</i>	<i>Subjects</i>	<i>Units</i>
History.....	1 to 4	Commercial Law.....	$\frac{1}{2}$
American Government..	$\frac{1}{2}$ to 1	Geography.....	$\frac{1}{2}$
Economics.....	$\frac{1}{2}$	Sociology.....	$\frac{1}{2}$ to 1

The remaining units may be in any subjects counted toward graduation by an accredited high school. However, single half units in languages will not be acceptable.

Applicants who have a deficiency in their sequences not to exceed two units, and who meet all other requirements will be admitted as deficient. This deficiency, however, must be removed before admission to Sophomore standing.

Registration

Fixed dates in each session are reserved for registration and are to be found in the academic calendar in this catalogue. A late registration fee of five dollars (\$5.00) will be charged if applicants or students do not register on the prescribed dates.

Student Housing

The student residence is under the supervision of the Jesuit Fathers. All out-of-town students are required to reside on the Campus. Any exception to the rule is made only by the President with the consent of the parent or guardian.

For Veterans and their families there are ample reasonable accommodations to be had in the vicinity of the University.

Academic Expenses

All communications concerning expenses should be addressed to the Registrar.

Tuition and fees must be paid in advance and on the day designated as registration day. Attendance at classes is prohibited until all financial obligations have been completed. In special cases payment by instalments will be permitted. A refund of tuition may be claimed in the case of withdrawal or dismissal. The amount refunded, however, will be diminished by twenty per cent of the total initial amount for each two weeks of attendance. Fees will not be refunded. Application for refund must be made in writing. The amount of refund will be calculated from the date of application.

All fees are subject to change as conditions necessitate. Such changes take effect at once and apply to all students unless otherwise exempted. The expenses listed here are for the year 1945-1946.

Regular Expenses

Tuition (per credit hour)	\$6.50
Matriculation fee (payable once)	5.00
R. O. T. C. deposit (sufficient for three sessions)	20.00
Laboratory science fee (per four credit hours)	10.00
Laboratory materials deposit (partially returnable)	5.00
General fee (each session)	5.00

The R. O. T. C. deposit is partly a bond and partly a fee. Therefore, it is partially returnable.

The General Fee includes the use of all non-classroom facilities.

Contingent Expenses

Late registration (exclusive of special examinations, etc.)	\$5.00
Each special examination	2.00
Duplicate transcript	2.00
Graduation fee	10.00

Residential Expenses

Board per session	\$176.00
Room per session	48.00

Military Science and Tactics

Courses in Military Science and Tactics as given normally in the Reserve Officers' Training Corps are divided into two sections: the Basic Course of two years which is compulsory for every qualified freshman and sophomore student who is a United States citizen, and the Advanced Course of two years which is open to selected applicants who have completed the Basic Course.

For the present no Advanced Course training will be offered. The Basic Course is still being given in a modified form and consists of two years of general military training designed to give the student a background which will be valuable to him in any branch of service when inducted. The work not only will make him a more valuable soldier but will benefit him individually for any occupation.

Information for Veterans

Credit for Service in the Armed Forces

Personnel now on active duty should submit the United States Armed Forces Institute Form No. 47 when making application for credit for educational achievement during military service. Form No. 47 may be obtained from your educational officer or from the United States Armed Forces Institute, Madison 3, Wisconsin.

Veterans of World War II no longer on active duty should submit a certified copy of W.D., A.G.O. Form 100, Separation Qualification Record; or Notice of Separation from the U. S. Naval Service, NavPers 553; or U. S. Marine Corps, Report of Separation; or Notice of Separation from the U. S. Naval Service, Coast Guard 553. In the case of Naval commissioned or warrant officers, a certified copy of the Officer's Qualification Record Jacket, NavPers 305, or a statement from the Bureau of Naval Personnel covering the service to be credited should be submitted.

Upon receipt of one of the above forms, credit as recommended by the American Council on Education, Guide to the Evaluation of Educational Experience in the Armed Services, will be allowed for Armed Services Formal Service Courses and Schools for enlisted men, officers and officer candidates provided such work does not duplicate courses already credited and is applicable to the curriculum desired.

Credit for U.S.A.F.I. Correspondence Courses

Upon receipt of official certification from the Armed Forces Institute, credit as recommended by the American Council on Education, Guide to the Evaluation of Educational Experience in the

Armed Services, will be allowed for the Armed Forces Institute college level correspondence courses on the basis of the end of course test and/or subject examination.

Credit for University or College Correspondence Courses

Upon receipt of an official transcript of credit from the institution from which the correspondence course was taken, credit will be allowed for college level correspondence courses taken from colleges and universities in co-operation with the Armed Forces Institute.

Credit for Programs Conducted on College Campuses

Credit for ASTP, V-12, and other programs will be allowed upon receipt of an official transcript from the institution where the program was conducted provided the courses taken in the program are applicable to the curriculum now desired.

Non-graduates of High School

Service men and women who left high school before being graduated will be considered for admission by examination. Results of the General Educational Development examinations given by the Armed Forces Institute will be accepted in place of the university examinations usually required. Applicants who are deficient one or two units of the fifteen high school units required for admission will be able to make up the deficiency while taking other college courses.

Financial Aid

Any honorably discharged veteran who has had active service is entitled to one year of education and an additional period of training not to exceed the time such person was in active service after September 16, 1940, and before the termination of the war, but in no case is the total period of education to exceed four years.

The Veteran's Administrator will pay to any approved private or public educational institution which the veteran chooses the customary cost of tuition and laboratory, library, books, supplies, and other incidental fees up to a total of \$500 for the ordinary school year.

Application for education may be made at Xavier University or at the nearest Veteran's Administration office.

A limited number of honor scholarships will be given by Xavier University. Application for an honor scholarship should be made to Chairman, Scholarship Committee, Xavier University.

Curricula

Degree Programs

The regular liberal arts courses which lead to the degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Philosophy, Bachelor of Business Administration, and Bachelor of Literature will be conducted each session.

Pre-professional Programs

Three academic years of pre-professional liberal arts courses required for entrance into schools of dentistry, law, and medicine can be completed within two full years at Xavier University.

Students in the vicinity of Cincinnati who desire to enter the University of Detroit College of Engineering may complete the first four semesters of non-cooperative courses at Xavier University within sixteen months.

Technical Programs

Accountant. A diploma in Accounting and General Business will be conferred upon the student who completes the four-semester program consisting of Accounting, Business Law, Economics, English, Psychology and Philosophy.

Chemical Analyst. Many business concerns, such as manufacturers, dairies, wholesale grocers, hospitals, etc., need technically trained chemical analysts. This need has grown decidedly during the past years as the supply of trained personnel has diminished. Post-war reconstruction programs cannot fail to make the demand for such personnel much greater, even, than it is at present.

Xavier University offers a sixteen-month curriculum to prepare young men to enter this field. It has as its objective, the training of persons for technical occupations for which a professional degree is not required. The course of studies is designed to impart such fundamentals of knowledge and laboratory skill as will enable the student to assumed the responsibility of independent routine analysis, or chemical manipulations of some complexity with the minimum of supervision.

The program should interest all those who have completed their high school training and wish to gain enough technical skill and knowledge for positions as laboratory assistants in chemical laboratories, or for positions of supervisory character in which a back-

ground of chemistry is to be desired. The course should appeal especially to ex-service men who have become interested in chemistry but who, for some reason, do not wish to take the full schedule of courses leading to a college degree.

The program leads to a Chemical Analyst Diploma which, while not inclusive enough for a college degree, is made up of courses of strictly college level. Most of the credits obtained can be applied toward a full degree should the student decide upon such action.

Engineer's Assistant. Industry needs on an average 5.2 assistants to every engineer it employs. A diploma will be granted to the student who completes the four-semester program consisting of Chemistry, English, Mathematics, and Physics in fulfillment of the requirements for an Engineer's Assistant.

Departments and Courses

Introductory Notes

The courses of instruction are numbered in accord with a unified plan. Lower division courses are numbered 1 to 99. Within the lower division numbers, the numbers 30 to 99 generally indicate that the course is open to sophomores. Upper division courses are numbered from 100 to 199. Courses given in the first semester are usually designated by an odd number; second semester courses by an even number. Double numbers, when used, indicate that the first semester course is prerequisite for the second semester course and that both must be satisfactorily completed to obtain credit for either course. In most departments the courses are grouped in decades according to sequence, content, or some other plan of sub-division. In computing minimum requirements for a major, the Senior Tutorial Course 199 may not be counted.
