## What are Eco Reps?

{ee-koh repps}

Paid student ambassadors that are your resource for sustainability events, news, and lifestyle tips.

## WELCOME TO ITHACA COLLEGE!

We're so glad to have you join our community! At IC, we value sustainability and believe our students have the opportunity to make lifestyle changes that will help shape what our planet's future looks like. Our staff and students have provided a number of tools to help you make those changes and become a part of the campus sustainability conversation. You can start making a difference today by using some of the tips below!

**Turn off the tap while  
brushing your teeth**

**Turn off the light  
when you leave a room**

**Challenge yourself to finish  
showering before the timer  
runs out**

**Ditch the plastic  
water bottle - opt for  
reusables**

**Be mindful of the  
carbon footprint your  
meals have**
