Summer Choral School Termed Exciting and Significant

The first Summer Scholarship Choral School, held at St. Norbert College the past summer, was "the most exciting and significant thing that's ever happened to our music department," according to Dudley Birder who directed the school.

Working with 32 high school juniors, 16 boys and 16 girls, Birder and other members of the St. Norbert music department faculty put the scholarship winners through an intensive six weeks of theory, sight singing, piano, voice and chorus.

Selected from more than 100 applicants who auditioned, the 32 high school students received full scholarships which were contributed by Green Bay area individuals and businesses. The students absorbed in six weeks what is normally taught to college freshmen during a ten-week term. However, they had no other subjects to study and concentrated as many as 12 hours a day on music.

"It's difficult to measure the results," Birder noted, "but the average student we had this summer was better than the average college freshman. Most of these kids came here with the idea of majoring in music in college. Twenty-five of them are now more

firm in their music futures, but seven found out that they didn't enjoy it as much as they thought they would or it was too difficult, so really they won't come to college and waste a year finding out that they weren't designed to major in music."

"The purpose of the program," Birder explained, "was to give talented high school juniors the opportunity to experience vocal training to prepare themselves for college. Most high school music is considered recreational and it's geared to the average student. As a result the talented student has never been challenged until he gets to college."

What about the future of the Summer Scholarship Choral School? "Since we got the money locally for the first school," Birder answered, "we can't go back to the same people. I'm preparing presentations to National Foundations in hopes that one will sponsor the program next summer. It would really be a shame if we can't continue the Choral School."

Should the funds be available next summer, Birder will like to include scholarships to eight high school choral teachers as well as 32 high school juniors.

Annual Alumni Giving Goes To Class Agent System

The Class of 1967, prior to graduation in June, unanimously approved a program which has led to a class agent system of annual alumni giving for all classes.

Members of the Class of '67 favored a precedent-setting plan whereby its class gift would be in the form of a five-year pledge to a special gift fund. The money is being deposited in a De Pere bank.

The class members attending Homecoming in 1972 will then decide how, when and where the money will be applied in the St. Norbert College development plan. The Class of '67 will not be solicited for participation in the annual alumni fund drives during the duration of the pledge period. An agent will keep the class informed of the status of the fund.

Informed of the decision by the Class of '67, the national officers of the St. Norbert College Alumni Association approved a similar class agent system for previous classes.

Agents have already been appointed in some classes and have written to their class members explaining the new system in more detail. Jim Nault, national president, is contacting prospective agents for the remainder of the classes.

Each agent authors a series of class letters designed to attract annual financial support from classmates. The program's goal is an immediate increase both in the number of alumni contributors and the amount of gift income from alumni sources.

Last year approximately 11 percent of St. Norbert alumni contributed to their alma mater. Thus far 39 percent of the Class of '67 has contributed under the new system.

Dr. Beno in Vietnam

Dr. Thomas Beno, '43, the first Green Bay physician to participate in AMA Volunteers for Vietnam, is now in that country on a two-month tour of duty treating civilians who face an acute shortage of doctors.

Only nine other Wisconsin physicians have volunteered since the program was initiated in mid-1966.

Dr. Beno said he applied after hearing some of these former volunteers address the Wisconsin Surgical Society of which he is a member.

"The Vietnamese have about 1,000 physicians," Dr. Beno said, "but about 800 of them have been drafted into military service. That only leaves a couple hundred physicians for all the civilians."

"Most of the men feel it's the greatest thing they've ever done," he commented, "although it's not easy to drop everything for two months. In fact, the whole

program is having trouble recruiting enough volunteers right now. They've gone through those originally interested."

This will be the surgeon's second experience treating, besides common Oriental diseases, the casualties of war. He served as an Army surgeon in Korea in 1953.

Dr. Beno wants to help Vietnamese civilians, he said, because he believes that "apparently our (American) medical needs are met in Vietnam."

He is stationed at Can Tho Hospital, 80 miles southwest of Saigon, on the Mekong River.

Peace Corps Worker Missing

Raymaker

Mark Raymaker, '65, U.S. Peace Corps volunteer, is missing and assumed dead in African Tanzania's Masailand, after an intensive two-week air and ground search failed to locate him.

Mark was on vacation from his regular post but volunteered to help on a three-week inoculation campaign among the primitive Masai people 200 miles northeast of Dar Es Salaam.

The incident occurred when Mark and two companions went out on a hunting expedition. Mark separated from the other two and later did not return to camp. It was feared that he was killed by a lion.

In a tribute to Mark, the Peace Corps director in Tanzania described Mark as a "lively, active, challenging person."

He was, the official said, the kind of a teacher who did much more than just teach. He was an organizer of a full medical inoculation project which 50 volunteers are still conducting in Masailand, inoculating Africans against tuberculosis and polio and vaccinating them against smallpox.

Mark also did much public health work around Malangali, near Iringa, where he taught history at a secondary school.

The recipient of a Beecher scholarship, Mark had planned to attend law school at the University of Wisconsin at Madison after his return to the States.

The Liberal Arts College In American Education

By Dr. Manning M. Pattillo

(Dr. Pattillo is president of the Foundation Library Center in New York City and a past vice president of the Danforth Foundation. He delivered the following address at St. Norbert College Commencement Exercises, June 11, 1967.)

This afternoon the members of the Class of 1967 become alumni of St. Norbert College. St. Norbert is, of course, a liberal arts college, that is, an undergraduate institution offering instruction primarily in the arts and sciences. It began as a college for men in 1898, becoming co-educational in 1952. For more than two-thirds of a century St. Norbert has served its students, the Church and the nation well. I should like especially to congratulate the College on the leadership it has given to the movement toward the reorganization of the boards of trustees of Catholic colleges in the United States. St. Norbert has shown the way for many other colleges. It was among the first to see the value of electing devout laymen to the governing board and to major administrative positions. It has reflected the best thought of the Second Vatican Council without resorting to the extremes and the sensationalism of some colleges. You who are graduating today have good reason to be proud of your college and the contribution it has made to American life. Give it your loyal support.

But St. Norbert College is not merely a product of late nineteenth and twentieth century America. It belongs to the time-tested tradition of Christian liberal education that goes back some fifteen centuries, coming down through the palace and monastic and cathedral schools to the medieval universities and on to seventeenth century colleges at Oxford and Cambridge and the continental centers of learning. At its best it is a broad and general education emphasizing the arts of thought and communication and the principles which should govern personal and public affairs. It combines learning in the fundamental academic disciplines (by which we mean those fields of knowledge that underlie all others) and in the Christian religion, the aim being to cultivate the humane person. If there is a single word that describes the highest aspiration of liberal arts colleges for their graduates, that word is probably "wisdom."

This college has its roots not only in the tradition of Christian liberal education but more particularly in the Norbertine abbeys of Europe — those centers of Catholic culture which have combined prayer, study and service since the twelfth century.

In the United States the liberal arts college has been the basic unit of higher education. Sometimes it has been a division of a university — usually called the

college of arts and sciences; more often it has been a separate institution, described as a liberal arts college or simply a college. Most of the colonial colleges were transplantations of English colleges. Harvard, for example, was patterned after Emmanuel College, Cambridge. In the second half of the nineteenth century, some of these colleges became universities by adding graduate and professional schools, but the college has remained as the core of our system of higher education.

In the short time we have together this afternoon I wish to direct your attention to some of the more significant changes that are taking place in American education and consider what they mean for the liberal arts college. I shall speak of four trends in particular.

1. *Higher education is going through a period of tremendous growth and popularization similar to that experienced by secondary education earlier in the century.* Both the number of students and the percentage of young people of college age attending colleges are increasing rapidly. College enrollment has doubled in the last decade and will probably double again in the next. The task of somehow accommodating this influx of students is enormous.

The effects of this phenomenon on undergraduate education are far-reaching; many of them are indirect. For most private colleges one of the effects is greater selectivity of students. An institution confronted with more applicants than it can accept does not have to admit the student who is clearly unfit. This means that the level of achievement in many colleges is being raised. Heavier demands are being placed on students, both in amount and quality of work.

Most Growth at Public Schools

The growth in student population is leading to the establishment of new institutions on a wide scale. The new colleges are primarily tax-supported. Local junior colleges are being set up in many communities, and new state colleges and universities are being organized. Thus, the private sector in higher education, though growing, is becoming a smaller fraction of the total higher educational enterprise. Most of the enlargement is taking place in public institutions both old and new. It is hard to say what the long range implications of this trend will be, but it does upset the historic balance between public and independent education. Both tax-supported and privately supported institutions make important contributions to the public welfare, and it is essential that our dual system of higher education be maintained and strengthened. This goal should be promoted by sound public policy which recognizes the indispensable role of non-governmental institutions.

With the rapid movement of both faculty and students from one college or university to another, with the very large student bodies in some universities, and with the development of state-wide systems of high

Very Rev. D. M. Burke, president of St. Norbert College, left; and Dr. Neil Webb, administrative vice president, center; chat with Dr. Pattillo prior to commencement exercises.

education, we are witnessing a subtle change in the character of institutions. They are tending to lose their individuality. I have the impression, as I visit colleges and universities of different types, that large segments of higher education are being "homogenized," so to speak. There is a trend toward sameness. This, I think is unfortunate. The diversity in American education is one of its most cherished assets. We must take steps to preserve it. Also, the preoccupation of administrative officers, governing boards, and often faculties with the logistical problems involved in providing physical facilities, staff, and money for a greatly enlarged enterprise often divert attention from curricular and instructional interests, indeed from the welfare of students themselves. The sheer managerial job of supplying education on such a large scale is likely to obscure questions as to the *kind* of education to be offered. This happened in secondary education during the period of tremendous growth of public high schools. The examination of many educational questions was deferred until the pressing task of simply providing for pupils was in hand. There is real danger that this may happen in higher education, too. The small college with its emphasis on individuality, is one of the bulwarks against the hazards of bigness in education.

2. *Colleges are now operating at an accelerated tempo.* Administrators, faculty members, students — all are trying to do too much. Competition is becoming more intense all along the line. Life seems so hurried on campuses today. The pace is becoming more like that of business and industry. Every force impinging upon colleges and universities seems to be working in this direction. The administration of colleges and universities is far more complicated than it once was. The pressures on students are greater. Psychiatric difficulties are probably more numerous. Scholars struggle to keep up with the enormous expansion of knowledge.

What does this mean for the liberal arts college? It has dispelled the easy-going, country-club atmosphere characteristic of campus life at an earlier time. Collegiate education is now a serious business, and we

can be thankful for that. But we must see to it that we protect a valuable ingredient in the long tradition of liberal education — the reflective, the judicious, the philosophizing aspect of liberal learning at its best. To some extent, American activism has invaded the thoughtful climate of collegiate life. This is not bad if we can, at the same time, emphasize the thinking and deliberating activities of students.

The colleges of an earlier time had their weaknesses. For some students they offered three or four years of genteel irresponsibility. At their worst they were pedestrian, uninspiring and remote from real life. Yet they had their virtues as well, and there is every reason to preserve their virtues in our own colleges, while rejecting their vices. One of their virtues was that, for the earnest student, they offered an opportunity for unhurried reflection on fundamental matters under the guidance of broadly educated men.

3. *We are witnessing, in higher education today, an unprecedented insistence on freedom.* In some respects this is good; colleges should be places where inquiry flourishes, where students and faculty reason about matters which most people take for granted. In other respects, however, the current trend is unfortunate; too often freedom is interpreted as lack of restraint, as license to do as one pleases regardless of the right and sensibilities of others.

Most Urgent Problem

At a time of social and religious ferment it is especially important that church colleges develop guidelines for the exercise of freedom. We have already observed the plight of several American universities badly damaged by their failure to deal wisely with this problem. It is imperative that institutions define the proper limits of public debate and social behavior. In my judgment this is the most urgent problem facing Catholic colleges today. I predict that in the years ahead Catholic institutions will encounter this problem acutely in two forms: (1) the questioning of church authority and teaching on the part of some faculty members and (2) student protests against institutional authority and discipline. It is important that each college formulate principles which it can apply when specific cases arise, and the principles should allow a large measure of freedom. This should be done ahead of time; it is too late when emergencies confront us. The Second Vatican Council has provided a model for the orderly discussion of fundamental questions. There is much that colleges can learn from the example and the actions of that memorable gathering.

We need to view student conduct in a broader context. *With the praiseworthy emphasis these days on legal rights, on social equality and on stripping away hypocrisy — all good things in themselves — we may neglect other values — decorum, propriety, taste, good manners, prudence.* When students in a Pennsylvania college disrupt chapel with political demonstrations; when a self-appointed committee of students in a college not far from here demands that the president allow it to review and evaluate the salaries of faculty members; when a movement in defense of obscene

language can be launched and taken seriously in a great university, then something has gone wrong. What is lacking is a sense of appropriateness. We need to restore balance and perspective and respect for the sensibilities of others. This is an important function of liberal education.

Our colleges are not alone in experiencing occasional outbursts of immoderate behavior. It is a characteristic of contemporary culture. We see it in advertising, in politics, in public entertainment and in the literary world. But the liberal arts college should be one of the primary agencies for defining sound standards of taste and manners — for preserving what Sir Ernest Barker has called the traditions of civility. 4. Many colleges and universities are emphasizing specialized competence at the expense of preparation for general leadership. No one wishes to disparage the achievements of technical scholarship nor the value of training students for essential occupations such as the priesthood, teaching, business, the health professions, and a host of others. The public welfare requires that we have well-trained practitioners in a wide variety of professional fields.

Philosophical Knowledge

The danger, however, is that specialized and professional interests may crowd out the broader aims of liberal education. Cardinal Newman, a great interpreter of liberal education, writing in the mid-nineteenth century, stressed what he called "philosophical knowledge," by which he meant an understanding of principles and relationships. The St. Norbert College statement of purpose refers to "a broad basic education . . . aimed at producing a well-rounded person capable of enjoying his humanity; and who, though competent in a special knowledge, is not circumscribed by it." One of the classic statements on the subject is that of John Stuart Mill in his "Inaugural Address" at the University of St. Andrews in 1867. He said:

Men are men before they are lawyers, or physicians, or merchants, or manufacturers; and if you make them capable and sensible men, they will make themselves capable and sensible lawyers or physicians. What professional men should carry away with them from a university is not professional knowledge, but that which should direct the use of professional knowledge, and bring the light of general culture to illuminate the technicalities of a special pursuit. Men may be competent lawyers without general education, but it depends on general education to make them philosophic lawyers.

While it is useful to know what great thinkers have meant by liberal education in times past, this is not the main point I want to make. We are not primarily interested in maintaining the purity of a traditional idea of collegiate education. A more compelling argument for liberal education is simply that the world today badly needs people educated for broad leadership — people with vision and sensitivity and wisdom. We must have liberally educated men and women in

public life. Only they are properly equipped for leadership at the highest level. The failure of American higher education at this very point has been well described by John W. Gardner, Secretary of Health, Education, and Welfare, and formerly President of Carnegie Corporation, an educational foundation. Dr. Gardner put it this way:

Most of our intellectually gifted young people go from college directly into graduate school or into one of the older and more prestigious professional schools. There they are introduced to — or, more correctly, powerfully indoctrinated in — a set of attitudes appropriate to scholars, scientists and professional men. This is all to the good. The students learn to identify themselves strongly with their calling and its ideals. They acquire a conception of what a good scholar, scientist or professional man is like.

*As things now stand, however, that conception leaves little room for leadership in the normal sense; the only kind of leadership encouraged is that which follows from the performing of purely professional tasks in a superior manner. Entry into what most of us would regard as the leadership roles in the society at large is discouraged. As a result the academic world appears to be approaching a point at which every one will want to educate the technical expert who advises the leader, or the intellectual who stands off and criticizes the leader but no one will want to educate the leader himself.**

At its best the liberal arts college is preeminently the school for leadership. How does it prepare for leadership? By doing a few important tasks well. What are those tasks? To see that its students can read, write and speak well. To give them some knowledge of history — especially the history of ideas. To help them understand the methodology of science and the significance of scientific discovery to human welfare. To immerse them in a few of the enduring works of literature. To cultivate in them a layman's appreciation of great art and great music. To instill in them a sense of the appropriate in social and personal relationships — that is to say, an understanding of what is in good taste. To encourage them to grapple with the perennial problems of mankind and to think about these questions with some precision. To help them arrive at a considered faith — a faith that has something to say about the inescapable realities of life — good and evil, joy and suffering, death, history, God. Isn't this what we expect of the Christian liberal arts college? And isn't this what we hope today's graduates have learned in their four years at St. Norbert?

*John W. Gardner, "The Anti-leadership Vaccine," *Annual Report for the Fiscal Year Ended September 30, 1965* (New York: Carnegie Corporation of New York, 1965), pp. 9-11.

Alumni Class Notes

Your classmates and fellow alumni would like to hear about you . . . your job, family additions, transfers, promotions, participation in civic and religious affairs. Write to your class secretary who will forward the information to the Alumni Office or write directly to: Alumni Office, St. Norbert College, West De Pere, Wisconsin 54178.

The Rev. Rowland De Peaux, O. Praem., is teaching French at St. Norbert College.

James Sesil has been promoted to general sales manager-foundry division of the Brillion Iron Works, Inc., Brillion, Wis.

'49 Earl R. Miller
1057 Division
Green Bay, Wisconsin 54303

Don Charles, an accountant for American Can Co., has been transferred to the company's New York office.

Lt. Cmdr. Oliver Simon is serving with the U.S. Navy in Vietnam.

Robert Vandenberg has been named manager for a new American Can Co. plant to be built at Medina, Ohio.

'50 Fred J. Wakeman, Jr.
1230 Sunset Drive
Wausau, Wisconsin 54401

John J. Miesbauer has been named Internal Auditor for Wisconsin Finance Corporation. Jack and his wife live in Shawano with their five children.

The Rev. Paul Vanden Hogen spoke at the three Catholic Rural Life Days held in the Green Bay Diocese.

Maj. Arthur Fehrenbach has been selected to attend the Air University academic instructor course at Maxwell Air Force Base, Alabama. He is an assistant professor at the Air Force Institute of Technology's School of Systems and Logistic at Wright-Patterson Air Force Base, Ohio.

Eugene Gillis has been named casework director for all diocesan apostolate offices in the Green Bay diocese.

Mr. and Mrs. Frank Linsmeier opened their sixth Montessori school, in Green Bay, this past year. The others are located in the Milwaukee area with a seventh slated to open in Menomonee Falls, Wis. this fall.

William McWey recently participated in an advanced speech training program held by his company, Chas. Pfizer & Co., Inc. He lives in Green Bay.

'51 Don Johnson
515 Karen Lane
Green Bay, Wisconsin 54301

The Rev. Norbert Manders, O. Praem., is in Bolivia preparing for missionary work in Lima, Peru.

The Rev. John McLaughlin is pastor of St. Augustine's parish at Wausaukee, Wis.

Sister M. Madonna (Schmelzle) has been named supervisor of the Green Bay Diocesan Schools. She had been the founder and principal of St. Bernadette Catholic School in Appleton, Wisconsin.

The Rev. Charles Urban, O. Praem., has been reassigned to Daylesford Priory.

'52 Pat Smithwick
Caledonia Drive — RFD #1
Huntington, Long Island,
New York 11743

The Rev. Frederick Becker, O. Praem., is teaching at Premontre High School, Green Bay.

The Rev. Xavier Colavecchio, O. Praem., has been granted a leave of absence for post-doctoral studies in theology at Fordham University.

Frank Pirman received a grant from the National Science Foundation for eight weeks of further study in zoology at Illinois Wesleyan University, Bloomington, Ill., this past summer. Frank is on the faculty at Preble High School, Green Bay.

Dr. Vincent Winter was elected president of the Thursday Optimist Club in Green Bay. Dr. Winter is a practicing orthodontist.

Majors Robert Welch, Robert Morrissey, James Bukoski and Herschul Braspeninckx, '57, recently completed the 18-week associate course at the Army Command and General Staff College, Ft. Leavenworth, Kansas. The course is designed to prepare officers for duty as commanders and general staff officers in divisions or logistical commands.

'53 Ray Crim
1243 Loch Drive
Green Bay, Wisconsin 54304

V. M. McCabe has been promoted to electric service coordinator in division operations headquarters at Oshkosh, Wis. for Wisconsin Public Service Corp.

Ralph Schuh has been appointed superintendent of the Edwards Consolidated School in Edwards, Illinois. Ralph lives in Peoria.

'54 John Olejniczak
3 S. 430 Osage Drive, V.V.
Glen Ellyn, Illinois 60137

Jim White won the Brown County golf championship in a sudden death playoff. Five foot putts on the last two holes enabled him to become the first repeat winner in the tourney's history.

Bob Wilson is teaching biology at Green Bay West High School. He also serves as an assistant to head football coach Jerry Dufek, '55.

Rush Niles has retired after 23 years as head football and track coach at Bonduel High School, Bonduel, Wis.

Maj. William G. O'Leksy, presently serving as director of the U.S. Army Adjutant General School's data processing department, Fort Benjamin Harrison, Indiana, recently received the Distinguished Instructor Award.

'55 James Ritchay
1581 Boland Road
Green Bay, Wisconsin 54303

Harry Baeten, member of the biology

department at St. Norbert, has received his doctorate degree in zoology.

Rolf Schafer is on the staff of the Commission of the European Economic Community in Brussels, Belgium.

Bob Bugalski has been named basketball coach at Cabrille College in California. He formerly served as varsity coach at Watsonville High School.

Donna Haanen was recently appointed casework supervisor for the Green Bay Apostolate office. Donna lives in Green Bay.

Army Doctor (Maj.) James Van Straten received the Legion of Merit in ceremonies this summer in Vietnam. The medal, the second highest for meritorious service that the Army gives, was awarded for his guidance at Duy Tan General Hospital in rebuilding the medical facility, making it one "of the best Vietnamese Armed Forces' hospitals in South Vietnam."

'56 John Delmore
600 - 68th St.
Kenosha, Wisconsin 53140

Maj. Reg Barlament, on leave in Green Bay before going to Korea, equaled the Mid Valley Golf Course record of 34.

Peter Kiefer has been appointed vocational counselor at the Community Service Center for the Mentally Retarded in Green Bay.

Maj. Richard Neitzel received the Bronze Star Medal and the Army Commendation Medal for "outstanding meritorious service" during ceremonies in Vietnam recently.

Patrick Reidy was named a new zone lieutenant governor of the Wisconsin district of the Optimist International Clubs.

'57 Thomas J. Kiedinger
612 Randall
De Pere, Wisconsin 54115

Dave Kuckuk, his wife and five sons are living in Bloomington, Ill. where Dave is employed by Boy Scouts of America.

Maj. Jim Meidl is stationed at Ft. Benjamin Harrison where he is a plans officer in the Adjutant General School.

Jim Vanden Boom has been transferred to American Can Company's New York office. Jim was recently honored by the Bishop's Charities Committee in Green Bay for his work as editor of the Charities football game program.

William Geenen is superintendent of schools in the Village of White Lake, Wis.

The Rev. Simeon Adriansen, O. Praem. is teaching at Premontre High School, Green Bay.

James Siebers has been appointed casework supervisor of the Appleton, Oshkosh and Neenah-Menasha Apostolate office. Jim lives in Kimberly, Wis.

The Rev. Roman Vanasse, O. Praem. is teaching at St. Norbert Abbey.

'58 Robert J. Nejedlo
4956 Hull St.
Skokie, Illinois 60076
Vernon V. Romanesko
1831 N. Harriman
Appleton, Wisconsin 54911

Norb Coonen has been named Director of Research and Development for paper products of American Can Company.

Capt. Norm Jarock is attending Rensselaer Polytechnic Institute in Troy, New York. He is pursuing a master's degree in mathematics.

Mike McCormick is a health inspector for San Bernardino County, Calif. He and his wife, Barbara, have four sons.

Employers Mutual has transferred Larry Nelson to Green Bay. He is a sales representative.

Maj. Leigh Chase recently was awarded the Joint Service Commendation Medal for meritorious service while serving as Army Intelligence Staff Officer at Headquarters, Joint Task Force Two, Sandia Base, New Mexico.

Len Wagner, sports writer and columnist for the Green Bay Press-Gazette, received the St. Norbert College Achievement Award for Outstanding Service in Journalism at the annual publications banquet.

Jim Nault, national president of the St. Norbert Alumni Association, has been transferred to American Can Company's New York office.

Paul Noack has been named head basketball coach at Marquette High School, Milwaukee, where he formerly served as assistant coach in several sports.

Ben Vanden Heuvel has been promoted to felt sales manager for Appleton Mills, Appleton, Wis.

Noel Kohn, territory representative at Xerox Corporation's Mountainside branch, was graduated recently from the company's National Sales Development Center in Fort Lauderdale, Florida. Noel and his wife and two children live in Trenton, N.J.

This summer Pat Pflieger received a traineeship from the Bureau of Handicapped Children in Madison.

Ron Simono is head of the counseling program at the University of North Carolina. Ron received his Ph.D. in counseling and behavioral studies from the University of Wisconsin in 1965. He and his wife, the former Karen Ouradnik, '60, and their two sons live in Charlott, N.C.

Mike Bird, who reports he's "still single," works for Mutual of Omaha Bene-

fits Dept. and travels throughout the state of Wisconsin.

John Madigan was recently promoted to Army major at Ft. Eustis, Va., where he is serving with the U.S. Army Transportation School Brigade.

Gerald Fire is an instructor and acting chairman in the Theology Dept. at Seton Hall University. He was also married this summer to the former Patricia Wimmer. The couple will make their home in South Orange, New Jersey.

William Sinclair received a grant from the Bureau for Handicapped Children for eight weeks of study in special education at Wisconsin State University, Oshkosh, Wis. this past summer. Bill is a teacher at West High School, Green Bay.

John Gaie was honored with an award from the Northeast Wisconsin section of the American Chemical Society for "unusual achievement in the teaching of chemistry," based on the outstanding performance of three of his students in a competition with students from more than 75 high schools. He teaches at Premontre in Green Bay.

The Rev. Rock Braasch, O. Praem., is teaching at Premontre High School.

Richard Domrath is a clinical psychologist at Winnebago State Hospital, Oshkosh, Wisconsin and this fall also joined the faculty at Wisconsin State University-Oshkosh as an assistant professor in psychology. He and his wife, Geri, have three children.

Bernard Engebos took time out from his job as a mathematician at White Sands Missile Range, New Mexico to earn a master's degree in mathematics from New Mexico State University in May. Back at work, he is doing research in the ballistics of unguided rockets. Bernie also presented a technical paper at a National Ballistics Conference in El Paso, Texas last year. He and his wife, Kathryn, have two children.

Paul Holtermann is acting manager for a Montgomery Ward store and is living in Decatur, Illinois with his wife and three daughters. He operates a ham radio as a hobby, and is also a member of the National Guard.

John Kane has been promoted to the post of plant supervisor-costs for the Wisconsin Telephone Company at the firm's office in Milwaukee.

Joseph Franke won an eight-week grant from the National Science Foundation for further study. He spent this past summer studying genetics at Fisk Uni-

versity, Nashville, Tenn. Joe teaches at Southwest High School, Green Bay.

Donald Radosevich has joined the Muchin and Muchin law firm at Manitowoc, Wis. He was formerly assistant city attorney at River Falls, Wis.

The Rev. Campion Schroeder, O. Praem., is teaching at Bishop Neumann High School, Philadelphia.

Don Vanden Houten had the opportunity of hearing his original compositions played by the St. Norbert College Band at a spring concert. He also did all the arrangements for the Chamber Singers' Pops Concert on May 25.

Mary Kaster represented the University of Wisconsin at the 20th Triennial Mortar Board convention at Purdue University in May. She is president of the Madison chapter.

Ron Newhouse is Minnesota Resident Manager for Home Mutual and Homestead Insurance Companies. He and his wife and their three children live in Burnsville, Minn.

After receiving a master's degree in computer science from the University of Wisconsin, Larry Buch is now employed by Dow Corning Corp. in Midland, Mich.

Capt. Brian Cundiff has received the Distinguished Service Cross.

Dave Gritt is chairman of the Foreign Language Department at Custer High School in Milwaukee. He and his wife, the former Betty Smith '61, have two children.

Mrs. Barry Wetherington (Sharon Seeman) and her husband are living in the Panama Canal Zone where he is assigned as an Air Force pilot.

James Yuenger received the Golden Key award of the Illinois Mental Health Department for a series of six articles he wrote for the Chicago Tribune on the Illinois mental health program. He is a member of the Tribune staff.

John Berenz, a sales representative for the Pfizer Laboratories Division of Chas. Pfizer & Co., Inc., participated in an advanced speech training program sponsored by the firm.

Donald Derozier was awarded a Ph.D. in clinical psychology from the University of Kansas in June.

Mr. and Mrs. Ed Koch (Sue Palmer, '63) have adopted a daughter, Jodi Lynne.

Capt. Ronald A. Schroeder is now stationed at Lowery Air Force Base in Colorado.

Capt. and Mrs. Jim Weber (Jan Aga-

maite, '62) are living in England where Jim is stationed at Fauld, near Manchester. The Webers have three children.

Michael Fitzpatrick has been awarded a \$5,000 grant from the National Science Foundation to participate in an academic year institute at State College of Iowa, Cedar Falls.

Dr. Roger Herold has been named coordinator of extended services for the school of education at Wisconsin State University-Oshkosh. He is also serving as executive secretary of the Fox Valley Curriculum Study Council.

Dominic Forgianni received a \$5,000 two-year assistantship in education and administration at Indiana University.

Janet Messmer is teaching French in the Waukesha, Wis. school system.

Marine Cpl. Thomas Shepeck has been wounded in Vietnam.

Fraters Adrian Urian, Leonard Putz, David Lawler and **Brother Brian Zielinski** are teaching at **Bishop Neumann High School** in Philadelphia.

Fred Woulf has joined the U.S. Air Force.

Carol Bouchonville is teaching in elementary school in Ashwaubenon, near Green Bay.

Fraters Delbert Curran, Cronan Mac Carthy, Dismas O'Conner and **Kilian Steck** took their final vows and were received into the Norbertine Order by **Abbot Killeen** on August 28th.

James Duffy is an employment counselor with the Marinette office of the Wisconsin State Employment Service.

John Hartz is teaching American history and coaching freshman football and basketball at **Sturgeon Bay, Wis. High School**.

Michael Hass was recently commissioned a second lieutenant in the U.S. Air Force upon graduation from **Officer Training School** at **Lackland Air Force Base, Texas**.

'68 **Fraters Aquinas Brown** and **Stefan Mokrohisky** took their final vows and were received into the Norbertine Order by **Abbot Killeen** on August 28th.

Deaths

Raymond C. Ford died in April in Green Bay.

James W. Bergstrom died in Neenah in May.

'16 **Msgr. William Kiernan** passed away last May. He had been the first director of charities for the Green Bay Catholic diocese and first pastor and founder of **Annunciation parish, Green Bay**.

'20 **Msgr. Franklyn J. Kennedy** passed away in June in Milwaukee.

'24 **Charles P. Dufek** died in Milwaukee in May.

Paul Maloney died following a heart attack at **Tucson, Ariz.** in August.

'28 **Father Peter Schwamb** died suddenly in May in **Beaver Dam, Wis.**

The Rev. **John Jolin** died August 14.

'30 **Robert C. Martin** died in **De Pere**.

'33 The Rev. **Peter A. Duerr** died unexpectedly in **Green Bay**.

'34 **Sylvester Daanen** passed away in **Green Bay**.

'36 **Alice Lefebvre** died in **Green Bay**.

'38 The Rev. **Benedict Demerath, O. Praem.**, died Aug. 15 in **Cottonwood, Idaho**.

'40 **Father Ed O'Connell**, pastor of **Little Flower Church, Myrtle Grove, Florida**, died suddenly on **March 3**.

'42 The Rev. **Bernard J. Quigley, O. Praem.**, passed away **June 7** at **Daylesford Priory, Paoli, Pa.**

'44 **Thomas S. Hanson** died last **June** in **Green Bay**.

'52 **Loy Zambrowicz** passed away in **Green Bay** after a short illness **August 24**.

'65 **1st Lt. Charles L. Johnson** died in a **Vietnam hospital**. He was wounded by a direct hit on his tank as he neared the end of a two week search and destroy mission.

Marriages

'58 **John Kautzer** to **Faye De Tennis**. At home at **1542 Charles Street, Green Bay**.

'59 **Dr. Aloysius Choe** to **Diane Steidler** at **Mandan, North Dakota**.

Paul DeTennis to **Betty Bressers** at **De Pere**.

'60 **Jerome O'Keefe** to **Janet Schubring**.

At home at 835 Christiana Street, Green Bay.

'62

Frances Elders to Peter Herrick at Lanham, Maryland.

William Matzke to Susan Huguet. At home in Ashland.

Ronald Williams to Joan Coopmans at Green Bay.

'63

Yvonne Rouse to Jose Ferrer at Green Bay. At home at Rio Tiber #19, Apt. 4, Mexico 5, D.F.

Thomas Sager to Sharon Lang in Wauwatosa.

David O. Thiel to Gail Gerdenier. At home in Ripon.

'64

Marilyn Denil, '66, to Philip F. DeGreef. At home at 2423 Deckner Avenue, Green Bay.

George Doncheck to Jean Peterik at Two Rivers. At home at 709 Wisconsin Avenue, Kewaunee.

Gloria Griep to Larry Yeoman at Two Rivers. At home at 706 Elm Street, Burlington, Iowa.

Lt. Theodore Menard, Jr. to Doris Smith in a military ceremony at Fort Bliss, Texas.

Joan De Bauche, '65, to Kurt Rothe. At home at 105 Cummings Street, Apt. 8, Delavan, Wisconsin.

Mary Jo Thomson to William Diedrick at West De Pere.

'65

Ann Augustine to John Abbott in West Chester, Pennsylvania.

Thomas Brophy to Suzanne Natvig. At home at 7129 West Moltke Court, Milwaukee.

Peter Brusky to Alice Fuhrmann at New London.

Bernard Diederich to Judith Neuman at West De Pere.

Kurt Jacobs to Terry Tuesburg. At home at 2060 Pauline Boulevard, Ann Arbor, Michigan.

Carol Kaiser to Gary Watson. At home at 514 Wyckoff Road, Ithaca, New York.

Kenneth Kavanaugh to Jill Poepke. At home in Kaukauna.

Judith Seidl, '66, to David Maes at West De Pere.

Paula May to Michael Culligan at Green Bay. At home in Madison.

Irene Wanke to Randolph Perkins. At home at 3120 R Street, N.W. Apt. 25, Washington, D.C.

Mary Victoria Evans, '66, to Ensign Robert Rader at Green Bay. At home in Norfolk, Virginia, where Bob is serving aboard the USS Denebola.

Richard Rankin to Rosemary Sandrick at Whiting, Indiana. At home in Tempe, Arizona.

Lt. John Wildenberg to Arlene M. Laundre at West De Pere.

'66

Rebecca (Becky) Berger to Donald Lak at Omaha, Nebraska. At home at 810 Jane's View, Apt. 22, Papillion, Nebraska.

Mary Kay DeBoth to James N. Basten at De Pere.

Dennis Detry to Eve Donarski. At home in Oshkosh.

Rita Smith, '67, to Philip Gerlach at Ontonagon, Michigan on April 22nd.

Charles Helfert to Karen Connaughty. He is majoring in theater in graduate school at the University of Wisconsin.

Norman C. Meyer to Sharon Koutsky at Elkhorn.

Clyde Nead, Jr. to Lee Callahan at Appleton.

Peter Sink to Jeanette Van Ess. At home in Milwaukee.

Karen Vanevenhoven to David Thiel. At home at 623 Missouri Street, Lawrence, Kansas.

Norbert Tomashek to Nancy Malley at Two Rivers.

Elaine Barrett, '67, to Bernard Vandenberg. At home in Trenton, New Jersey.

Ann Goring to Peter Tollaksen, in November, 1966.

'67

Nancy Neville, '68, to William Baye at Green Bay on August 12.

Jerome Brunette, Jr. to Shirley Kumbalek at West De Pere.

James Duffy to Margaret Pliska at De Pere.

Roger Hodek to Ruth Best at Two Rivers.

Robert C. Lally to Jennifer McClone. At home in Milwaukee.

Jerald Noel to Judith Schnitger at Jefferson.

Catherine Ostermann, '66, to Thomas J. Callahan at Green Bay.

Priscilla Johanski to Walter Culver in De Pere.

Jan Ostermeier to Barbara Ley. At home in Oshkosh.

Dianne Raue to Capt. William Keller. At home in Pensacola, Florida.

Elizabeth Braun, '69, to James P. Schauer at Ripon.

Cassandra Hammes, '66, to Allan Scherer in Green Bay.

Thomas N. Turriff to Joanne Klusmeyer at De Pere.

John Vandehey to Jeanne De Cleens at De Pere.

'68

Virginia Skortz, '67, to Ralph Baeten at Green Bay.

Michael Landreman to Janet Coenen. At home at Combined Locks.

Timothy Morrissey to Karen Conrad. At home in Anchorage, Alaska where he is stationed with the Air Force.

Theresa Tonon to Stanley Van Der Wegen at Green Bay.

Births

'48

To Mr. and Mrs. Vincent Zehren, a son.

'53

A son to Mr. and Mrs. Roy D. Shackelford.

'55

To Mr. and Mrs. Lowell Georgia, a son. She is the former Mary Kay Donovan, '57.

'56

A daughter to Mr. and Mrs. Grant Bourgeois. She is the former Jean Vande Hei, '57.

To Mr. and Mrs. Patrick Reidy, a son. She is the former Ann Rebman, '66.

To Mr. and Mrs. Leo Zehren, a daughter.

'57

To Mr. and Mrs. **Michael Quigley**, a son.

'58

To Mr. and Mrs. **Joseph Fierst**, a daughter.

To Mr. and Mrs. **Leonard Wagner**, a daughter.

'59

A son to Mr. and Mrs. **Joseph Pozza**.

To Capt. and Mrs. **Paul F. Sinkler**, a daughter.

A son to Mr. and Mrs. **Ervin H. Lindsay** in April.

'60

To Mr. and Mrs. **Jack Kane**, a daughter.

To Mr. and Mrs. **Robert J. Skaleski**, a daughter.

A daughter to Mr. and Mrs. **Clayton Smits**.

'61

To Mr. and Mrs. **Jerome Blink**, a daughter.

To Mr. and Mrs. **Robert Lepp**, a son.

A daughter to Mr. and Mrs. **Edward Stenger**. She is the former **Barbara J. Tobias**.

'62

To Mr. and Mrs. **Dennis McGuire**, a daughter. She is the former **Sandra Lardinois**, '63.

A daughter to Mr. and Mrs. **Chuck Dinardo**, in April. She is the former **Sharon Burke**.

'63

A daughter to Attorney and Mrs. **Dan Aschenbrener**. She is the former **Beverly L. Ford**, '61.

To Mr. and Mrs. **Pete Coenen**, a son.

To Mr. and Mrs. **William Richie**, a daughter.

To Mr. and Mrs. **Harold Nehring, Jr.**, a son. She is the former **Barbara Hyska**, '63.

To Mr. and Mrs. **Michael Wisneski**, a daughter. She is the former **Carol "Kay" Yuenger**.

'64

A daughter to Mr. and Mrs. **Timothy Killeen**.

A daughter to Mr. and Mrs. **George Hartmann**. She is the former **Sharon Biebel**, '65.

'65

To Mr. and Mrs. **Robert Cikanek**, a daughter.

'66

To Mr. and Mrs. **Gerald Berner**, a daughter. She is the former **Christine Libal**.

ALUMNI CLUB EVENTS

The Los Angeles and San Francisco Alumni Clubs held dinner-meetings in July, the Northern California people meeting at the Cabana in Palo Alto and the Southern California alumni gathering at the Charter House in Anaheim.

Wayne Vander Putten, director of alumni relations who was in California to attend the American Alumni Council National Conference, showed a film on St. Norbert College. Entitled "The Case for the Small College," the film was produced by WBAY-TV in Green Bay and shown on that station.

San Francisco alumni

Los Angeles alumni

Alumni in the Minneapolis-St. Paul area gathered at Mr. Joe's on September 16 after the football game between St. Thomas and St. Norbert.

Coach Howie Kolstad and athletic director Mel Nicks were guests of the Twin Cities alumni.

Los Angeles alumni

Los Angeles alumni

The Milwaukee Alumni Club is meeting September 28 for a tour of the Miller Brewing Company and the Chicago Club will hold a dinner meeting at Jimmy Wong's North on September 30.

Neil Webb, administrative vice president of St. Norbert, will speak at the Chicago gathering and the half-hour film on the College will be shown at both affairs.

Science Building Will Open Soon

The dream of a new, modern science building with ample facilities for all, on the St. Norbert campus, is finally about to come true. This fall the \$2.8 million structure housing the biology, chemistry, psychology, physics, mathematics and geography departments will open for classes. The inclusion of a science library and a computer area will enable the building to function as a real science center.

In space and facilities the new science building will present a dramatic contrast to the old science annex, a "temporary" barracks-like structure erected in 1947. Dr. Harold Baeten, assistant professor of biology said there would be about 20,000 square feet — one entire floor — allocated to the biology department in the new building as compared with the 7,000 square feet which it now occupies.

In addition a greenhouse covering 1,200 square feet will be located on the top floor. An all-glass and aluminum enclosure, it has sectioned-off areas for simulating tropical or desert conditions.

Biology will also have eight teaching labs, as compared with the present three, and a lab for each of the five faculty members in the department.

"We now expect to have more seniors in research projects," Dr. Baeten predicted.

The chemistry department will also feel the beneficial effects of an adequate number of laboratories. "The main thing is elimination of the double schedule," Lawrence Motiff, professor of chemistry and chairman of the department pointed out. "We used to have two different classes in one lab. That involved changing chemicals and equipment constantly. Students have had to double up in general chemistry, working in pairs rather than singly. Now they need not do this." In addition there will be one lab each for organic, physical and analytical chemistry plus an instrument room, a darkroom, a cold room and a seminar room. "We can now offer bio-chemistry which we couldn't before," Motiff said.

Add Oscilloscope

The physics department will move from its present crowded quarters in the basement of Berne Hall to an area about double in space. The Rev. Sebastian Schalk outlined plans for the purchase of new equipment, aimed mainly "to improve the curriculum for advanced courses." We are getting another oscilloscope, sometimes called the physicists's TV set, which plots graphs of electrical variations and is a general purpose instrument. We will also purchase a large electromagnet to study strong magnetic fields." Fr. Schalk added that course content was being changed and equipment was being added to place more stress on electronics.

There are also plans for an eventual observatory on the top floor of the building where a dome and telescope will be installed.

Psychology is another department which will double its teaching and research area. Seventeen sound-

proof testing booths on the ground floor will be used for individual student experiments in sensation and perception, motivation, learning and problem solving. The booths have one-way glass to permit observation of subjects or for the instructor to observe students conducting experiments.

"The psychology department has always encouraged original research from students and has never used cook book experiments. The courses in experimental psychology, psychological research, and experimental neuro-physiology will be particularly benefitted," Dr. Thomas Grib, department chairman, said.

Surgical rooms for experiments on brain function along with animal rooms are on the penthouse floor. It will no longer be necessary to drive animals to a Chicago hospital because of lack of these facilities.

Private offices and a seminar room will be welcome additions to the mathematics department according to the Rev. Jerome Tremel, chairman.

"The tools of a mathematician are peace and quiet and a good brain," Fr. Tremel pointed out. "That's why these private offices are a real blessing. We never had them before. They will provide a center toward which our mathematics students can gravitate."

Additions to the geography department include a seminar room, new tables, each equipped with a map under glass, and new audio-visual equipment.

Modern Decor

The decor of the science building is as up-to-date as its facilities. Color it vibrant and you have the picture. Instead of drab, "institutional" colors the eye is treated to splashes of bright orange, mustard yellow, deep blue-green — to name just a few — the minute a door is opened.

"In planning the building our thinking was, we're dealing with young, exciting people, let's have the building reflect them," explained the staff architect for the firm which designed the building.

The largest lecture hall, with a capacity of more than 500, is done in a combination of green and gold. Vinyl seats in green, yellow, gold and charcoal black are arranged in a pleasing random design. Twin lecture halls seat smaller groups of about 100 each. One has a vivid shade of burnt orange on its entire back wall; seats here are dark brown, red orange and off-white. In the other the backdrop is a deep blue-green with seats of red-orange, yellow and gray. The halls are steeply banked to give students in the back rows as good a view as those in front.

In faculty offices one wall — the smallest one — is painted a strong color and is balanced by three walls of off-white. Bright colors also make long corridors seem shorter.

James Cagle, a member of the St. Norbert art department faculty, sat in on color planning sessions. "The colors are very conducive to a learning situation, as well as exposing the students to colors that work well together," he said. "Color systems date, but we feel these will be current for a long time."

Over and above the obvious advantages of more space and improved facilities, is the great opportunity of communication among the science departments when they are all under one roof.

Driving Simulator

"Simulator," according to the dictionary, means "... a laboratory device that enables the operator to reproduce under test conditions phenomena likely to occur in actual performance."

Mel Nicks, driver instructor at St. Norbert College, used one of only three driving education simulators in the state for his teaching students last term. Its big advantage, according to Nicks is that "you don't kill anybody when you're learning to drive under hazardous conditions."

Since most college students already know how to drive, the machine — which costs \$26,000 — is being used to show future teachers how to use the equipment. It is expected that simulators will have widespread use in future high school driver training programs.

By means of a wide, full color movie screen placed in front of the "car" the beginning driver experiences all the illusions of actual road conditions — city driving, freeway driving, parking, even adverse weather conditions. The student driver sits in a perfect replica of a car complete with seat, dashboard, floor pedals and steering wheel.

Mel Nicks points out the mechanics of the Simulator to a coed.

When the projector mounted behind the student is turned on, it throws on the screen in front of him typical driving situations and the student is on his own in coping with them. He has the sensation of being directly involved in whatever is going on on the screen.

How well he does is scored by a computer behind him which records his mistakes for the benefit of his instructor. Areas labeled brakes, steering, signals, lights and speed light up whenever the learner makes an error.

At the same time what is called an "immediate feedback panel," located on the front of the car, also

notifies the driver of his mistakes under whatever conditions he happens to be driving. This enables him to see instantly what he is doing wrong and to correct it.

"The simulator is regarded as something of a breakthrough in driver education. Research shows that groups who have used the simulator transfer their training better to actual driving than those who have not," Nick said.

The simulator is similar to those used in World War II to train pilots and, more recently, those used by astronauts in the space program. Students can practice in extreme conditions of driving in complete safety, and can operate their car without the direct assistance of the instructor, thus learning to make decisions on their own, to rate their own ability and improve it.

The simulator was loaned to St. Norbert College by an insurance company.

Alumnus Pilot Shot Down And Rescued Second Time

Lt. Cmdr. Demetrio Verich, '55, U. S. Navy jet fighter pilot, narrowly missed death a second time in a year when he was shot down and rescued in North Vietnam recently.

A year ago Demetrio was shot down on his first tour in Vietnam with the carrier *Oriskany*. That time he was picked up just off the coast with Red mortar shells dropping into the water all around him. This time the coast was 40 miles away and his luck seemed to have run out.

However, after a night hiding out on a North Vietnamese hillside, a helicopter lifted the pilot to safety with Communist fire zipping around him while other pilots drove off three MIG 21s.

Later, Demetrio told a news conference in Saigon that he landed on a steep hillside covered with brush, tangled trees and vines that rose 30 feet overhead. A few hundred yards downhill he could hear firing and North Vietnamese calling to each other. "I lay low and covered myself up with branches," he said.

At dawn the American planes returned, and finally a helicopter. Immediately the Red gunners opened up on the planes and the helicopter.

While other U.S. fliers drove off the MIGs the helicopter pilot neared the downed flier and lowered a long cable to him, after Demetrio fired a rescue flare up through the brush. The first time he tried to grab the cable it slipped out of his hands and helicopter crewmen brought it up empty. The second time, Demetrio said, "I grabbed it and hung on for dear life."

Demetrio had an appointment to the U.S. Naval Academy at Annapolis, Md. after graduating from high school and two years' study at St. Norbert, but he was so interested in flying that he went to the Naval Air Base in Pensacola, Fla., instead.

There, he qualified for his Navy wings and eventually got into jet fighters. He is a Navy veteran of 16 years.

Parents Association

By Bernie Gigot

Past President

St. Norbert Parents Association

The average parent sighs with relief when a son or daughter goes off to college — no more PTA or Home School meetings, fund raising projects like candy sales, bazaars or endless work. But gradually as the months pass, the feeling of a loss of contact with other parents and the sources of information that bound parent and school sets in. Suddenly, the student never seems to know the answers to questions like "What activities are available for you on the campus? or When can we visit the college? and What is expected of you at the college?" Because of such situations, parents associations are being formed throughout colleges in the Midwest and other areas.

In 1963 a group of parents from St. Norbert College met to organize what today is known as the Parents Association of St. Norbert College. This organization is complete with a constitution, by-laws, a governing board and college representation to correlate activities in agreement with the college calendar. The main objective of the Parents Association of St. Norbert College is to promote a closer relationship among parents, faculty, administration, students and alumni of the College.

The Parents Association has chosen not to infringe upon activities of the College's Board of Administration but to devote its efforts in socially making parents a part of the campus, to see them through a few activities each year and to make them feel a part of the college chosen by their son or daughter.

To further explain the activity of this organization it would probably be wise to briefly outline the typical activities in a year. To start with, membership is automatic to the parent or guardian of any student at St. Norbert College. There are no dues or fees of any kind. All activities are designed for the parents to view the College from their own viewpoint rather than that of their student son or daughter.

Sponsor Four Functions

At the present time the Association has assumed the responsibility for four functions during the school year. The first is Freshman Parents Orientation Day and is usually held on the Sunday prior to freshman registration. During the day members of student organizations assist incoming freshmen in settling their quarters and in becoming physically oriented to the campus. Toward the end of the day the parents assemble in the auditorium at which time the Director of Student Personnel, Academic Dean, Business Manager and President of the Student Senate briefly address incoming freshman parents on four questions — "What assistance is available to my son or daughter on the campus? What is expected academically? What financial assistance or payments are required? What activities are available to the new student?"

Gigot

The second activity comes in the form of the Dads Day Knightly Kaper where the parents are invited to spend an entire day on campus on Dads Day. This activity requires a modest fee and is sole means of financing all projects. Invitations are sent to all parents inviting them to attend a football game followed by an Association-sponsored cocktail party, dinner and dance. In short, from the time of arrival at 1:00 P.M. there is continuous entertainment for the parents on campus until midnight.

The third activity is completely in the hands of the Student Senate except for the payment of bills incurred. True to the name we continue as parents and pick up the bill for expenses and provide an informal reception at the end of the day. This in no way matches the activities of the Student Senate which organizes what is known as Parents Day and is usually held the first Sunday in May. In general, this day brings into view the accomplishments of the College year. All departments are open, awards are presented and all accomplishments of the ROTC Department and personnel are passed in review. It is a happy and memorable day.

The final activity of the year is a reception for members of the graduating class, their guests and the faculty, and is held just prior to graduation. In fact, it has become the assembly point for the graduation ceremony. Again, it provides another opportunity for parents to meet and renew old acquaintances.

During the last few years a surplus in the treasury has permitted further activity. Parents and the Association have been able to present two cash awards on Honors Day — to the graduating student who scores the highest in the Graduate Record Exam and to the student who has contributed most to college life while at St. Norbert College. During the past year the Association presented a check in payment for new equipment for the new student health center. Much equipment is still needed to provide the necessary health services and this gift initiated the program by providing an examining table, lamp, desk and cabinet.

Although our purpose at St. Norbert College is not to act as a fund raising organization, funds sometimes are available to us and we have placed them in activities or services that benefit your sons and daughters. All of these activities are directed by a governing board of nine parent couples, invited to membership by the President of the College from the geographical area serving the student body. Officers are elected from this board and consist of a husband and wife co-presidency, vice-presidency, treasurer and secretary. To enforce a program of continuation each year, new board members are recruited from incoming freshmen and sophomores. A member of the faculty serves as a board member to assist the parents in timing their activities with the school calendar. The directors of student personnel and development also serve on the board to assist and advise the board in attaining its objectives.

I have read of many Parents Associations in many colleges throughout the country and feel that the purposes outlined by the governing board of this association make the St. Norbert Parents Association the finest of any school in the country. As a result there exists on this campus a closer relationship among parents, students, faculty, administration and alumni.

With the 1967-68 school year upon us, a new Board is preparing programs for the year. The "welcome mat" is out to all new members of this fine organization.

New Board Members of Parents Association

Very Reverend D. M. Burke, O. Praem., President of St. Norbert College, has appointed 17 couples to the Board of Directors of the Parents Association.

Officers for the 1967-68 school year are Mr. and Mrs. Robert Mallon, Green Bay, presidents; Mr. and Mrs. Peter Schumacher, Green Bay, vice presidents; Mr. and Mrs. William Jauquet, Green Bay, secretaries; and Mr. and Mrs. Quentin Willems, De Pere, treasurers. Others named include Mr. and Mrs. D. J. Barber and Mr. and Mrs. Casey Kolb, both of De Pere; Mr. and Mrs. Leonard Liebmann, Mr. and Mrs. Bernie Gigot, Mr. and Mrs. Francis Denis, Mr. and Mrs. Richard Lison and Mr. and Mrs. Clarence Nier, all of Green Bay.

Out-of-town couples appointed are Mr. and Mrs. James Delaney, Hartford; Mr. and Mrs. M. Goring, West Bend; Dr. and Mrs. L. Pauly, Sheboygan; Mr. and Mrs. Edwin C. King, Glenn Ellyn, Ill.; Mr. and Mrs. Gilbert Trier, Ironwood, Mich.; and Mr. and Mrs. Fred Kant, Milwaukee.

Cundiff Awarded DSC

Captain Brian H. Cundiff '61 has received the Distinguished Service Cross, the nation's second highest award for bravery, for extraordinary heroism in Vietnam. The award was made while he served as a company commander with the 1st Infantry Division. The citation reads, ". . . Capt. Cundiff distinguished himself by exceptionally valorous actions during an attack by a numerically superior Viet Cong force. The Viet Cong began a barrage of 400 mortar rounds on Capt. Cundiff's company. As the devastating shelling decreased, the insurgents launched a ferocious human wave attack which outnumbered the American battalion three to one.

Wave after wave of insurgents penetrated the battalion with mortars, machine gun and rifle fire. Capt. Cundiff, unrelenting to the overwhelming firepower of the enemy, engaged in fierce hand-to-hand combat, killing six Viet Cong. Although he was wounded three times, he continued to fight and rally his force. He moved among his men and mustered an effective defense which finally succeeded in repelling the enemy. Still refusing medical aid, he called for artillery support and air strikes, then commanded a massive counterattack that pushed the Viet Cong back. Capt. Cundiff's inspiring leadership and dauntless courage were an inspiration to his men and led to one of the most decisive actions of the Viet Cong conflict."

Brian is married to the former Mary Lou Brunette '63. He is now assigned to the Army's Career Course at Ft. Benning, Georgia.

Alumni, Parents Help Admissions

By Clarence Kriesa
Associate Director
of Admissions
St. Norbert College

In the past few years several colleges and universities have conducted surveys to determine what brought the students to their respective colleges.

At the top of the list was the influence of alumni, parents and friends. The old adage, a satisfied customer is the best advertising, holds true for the college and university just as it does in the commercial world. Alumni, parents and friends probably do more unsolicited advertising for St. Norbert College in the course of their daily lives than any organized plan by our admissions staff.

Many colleges seek the help of alumni to represent the school in specific College Days in their immediate

area, by personal follow-up of prospective students and by organized gatherings.

The alumni and parents of St. Norbert College have participated in these activities and we hope will continue to do so. The admissions staff does not want alumni and parents to concern themselves with the mechanics of admissions. Their media are the character, atmosphere and environment of the college, such as what are the educational aims of the school, what type of young people attend St. Norbert College, where do they come from, what does St. Norbert offer educationally.

Most alumni and parents are able to answer these questions with assurance. We hope they will continue to send us names of boys and girls they feel would make good St. Norbert students, and that they will continue to take an active part in counseling the prospects they have in their respective areas.

The Admissions Office has an obligation to keep you informed of the constant changes at St. Norbert, both physically and educationally. This is being done by publications sent to both groups.

The Parents Association is, by its nature, closely related to the College. Through meetings on the campus and through the interest of their children, the parents have become well informed about St. Norbert College. The parents are the most important participants in the final decision of where to attend college. We have the responsibility of including them in our counseling program.

We would like to invite alumni, parents and friends to use the Admissions Office for any information, advice or help we can give. We will appreciate any suggestions you may have.

Financial Aid At St. Norbert

By Jack Sylvester
Director of Financial Aid
St. Norbert College

While most institutional, state and federal authorities are convinced that the family of an individual capable of profiting from a college education is primarily responsible for the fiscal commitment required in achieving that goal, they nevertheless realize that for many families such additional economic burdens simply cannot be absorbed.

Recent state and federal legislation is designed to assist in reducing the financial handicap which in the past often precluded access to higher educational goals for students whose families were not economically independent.

In keeping pace with current trends, the administration of St. Norbert College has instituted an Office of Financial Aid with a full-time director to administer and coordinate the many financial aid programs now available.

Financial aid is offered to students in as attractive a package as is possible under the circumstances. A sincere attempt is made to balance gift aid, such as

Sylvester

grants and scholarships and in some cases National Defense Loans, with self-help, such as assistancies, employment and loans.

Financial aid is distributed to students in several ways.

Assistancies are generally reserved for qualified upperclassmen with specialized academic, major or departmental skills.

Employment is considered as any work which does not require specialized academic, major or departmental skills. The College prefers not to give employment to freshmen during their first term or until they have proven their capability to do satisfactory academic work.

Grants are of three types. Institutional grants are remissions of part of the tuition cost for students with specialized skills in athletics or music. Wisconsin Tuition Grants are outright gifts to qualified Wisconsin residents and Educational Opportunity Grants are outright gifts to students whose families are severely handicapped financially.

Loans in most cases bear no interest to the student borrower while he is in school and three percent commencing nine months after leaving school or graduating. The National Defense Student Loan carries a 50 percent forgiveness factor for those entering the teaching profession.

Scholarships are awarded by St. Norbert College to students who have demonstrated their ability to do superior work at the college level.

Many colleges and universities are united in the conviction that financial aid programs exist primarily to assist those students who, without such aid, could not attend the college of their choice. St. Norbert College subscribes to this philosophy. Every effort is made to achieve uniformity and equity in the allocation of financial aid funds.

Financial aid has been of primary assistance to almost half the student body at St. Norbert College. Last year financial aid to St. Norbert students totaled nearly one-half million dollars. Amounts granted, as well as the ratio of gift aid to self-help, are based on maintenance of specific academic standards and the financial strength of the individual's family.

Responses to specific questions may be had by writing directly to Director of Financial Aid, St. Norbert College, West De Pere, Wisconsin 54178.

Class Reunions Set For Homecoming Weekend

Three class reunions have been scheduled in conjunction with the Oct. 27-28 Homecoming weekend.

The Class of '57 will meet informally Friday night, Oct. 27, at the Town and Country Club for any members who are in the area. The following morning the Class of '57 will attend Mass at 9:30, Brunch at 10:30, brief program at 11:30 and then leave for Minahan Stadium in time for the football game.

The Classes of '17 and '42 will gather for cocktails and dinner Friday night, tour the campus Saturday morning and attend the game in the afternoon.

★ ★ ★ ★ ★

The Homecoming parade will leave the campus at Noon on Oct. 28. The game between the Green Knights and Northern Michigan University begins at 1:30 p.m.

The Fifth Quarter, Dinner and Dance will be held in the evening.

If you haven't received details on class reunions or Homecoming by Oct. 2, please contact the Alumni Office.

Grid Outlook

If Knight football coach Howie Kolstad can come up with a couple of offensive linemen, the 1967 grid picture should be as bright as a year ago when the Green and Gold posted a 7-1-1 record. Only one regular, co-captain John Trinitopoli, returns to the interior line.

On the other hand Kolstad lists his defense and the offensive backs as strong points. The defense has seven starters back from a year ago and there are letterman replacements for three other positions. Three of four backfield starters return.

1967 SCHEDULE

Sept. 16	at St. Thomas	7:30 p.m.
Sept. 23	at St. Cloud	2:00 p.m.
Sept. 30	FERRIS	7:30 p.m.
Oct. 7	WESTERN ILLINOIS	7:30 p.m.
Oct. 14	at Whitewater	7:30 p.m.
Oct. 21	at Oshkosh	8:00 p.m.
Oct. 28	*NORTHERN MICHIGAN	1:30 p.m.
Nov. 4	UNIV. OF WIS.- MILWAUKEE	1:30 p.m.
Nov. 11	HILLSDALE	1:30 p.m.
	*Homecoming
