Newsletter of the Colorado Native Plant Society

“. . . dedicated to the appreciation and conservation of the Colorado native flora”

Volume 29 Number 4

WORKSHOP EDITION

September - October 2005

2005-2006 COLORADO NATIVE PLANT SOCIETY WORKSHOP PROGRAM

Mignon Macias, Workshop Committee Chair

Another Colorado Native Plant Society workshop season is upon us. This year, as always, there are many people to thank for sharing interesting topics. There are six workshops scheduled for this season, beginning in November and running through May. They will take place in Boulder, Denver and Fort Collins.

Upcoming workshops will address the following topics:

Onagraceae - *Oenothera*, *Calylophus*, and *Camissonia*
Front Range Vegetation Zones and Rare Plants
Beginning Plant ID

Registration Information

Workshops will be announced throughout the winter season in newsletters and emails. **Registration is mail-in only and requires payment at the time of registration.** The fee for members attending a workshop is \$12 per session. Non-members pay a one-time fee of \$27 for a workshop session plus annual CONPS membership. The registration fee is non-fundable. To register, please include workshop title, your name, email address, mailing address, telephone number and address label.

For those of you who have credit for the cancelled workshop last season, please send in your registration requests, note your credit, and reference the cancelled workshop title.

Payment

Make your check PAYABLE TO CONPS and mail to
Mignon Macias, Workshop Coordinator
CONPS
5447 Blackhawk Rd.
Boulder, CO 80303

Please DO NOT write the check to Mignon Macias. For those of you who must cancel at the last minute, we appreciate your contribution to CONPS and ask that you email or call Mignon Macias at mignonmacias@mindspring.com or 303.249.2977, so she has an opportunity to fill your spot.

Workshops

CARE AND FEEDING OF YOUR MICROSCOPE

Leader: Richard Kline

Location: Foothills Nature Center, Boulder

November 12, 2005

Time: 9 am - 3 pm

Bring your microscope and have it tuned up. You will learn about function, adjustments and how to maintain your microscope for optimal performance. Richard will also discuss accessories for microscopes and have some available.

COLORADO MOSSES

Leaders: Ron Wittman and Paula Lehr

Location: Univ. of Colorado - Boulder, Ramaley Building

First Session: December 3, 2005

Second Session: December 4, 2005

Time: 9 am - 3 pm

Back by popular demand! Join Ron Wittmann and Paula Lehr as you explore mosses. Learn how to shift gears from the more familiar methods of looking at flowering plants to those used for mosses. Several references will be available including a manuscript, *Moss Primer*, that tells how to recognize the easy mosses, and how to collect and preserve them. There will also be an opportunity to look at some amazing moss specimens.

BASIC GRASS STRUCTURE

Leader: Dr. David L. Buckner

Location: Foothills Nature Center, Boulder

First Session: January 14, 2006

Second Session: January 15, 2006

Time: 9 am - 3 pm

Basic grass structures and their unique terminology will be demystified. Based on a few simple rules of floral organization, the major groups of grasses (tribes) will be explored and examples discussed and illustrated. And, of course, grass and grassland ecology will be discussed.

More workshops in upcoming newsletters.

Society Announcements

Board of Directors

At the Annual Meeting, members elected five new board members, as well as the Society Officers. A summary of the Annual Meeting and information on Society Award recipients will be in an upcoming issue.

New members of the Board of Directors are

Boyce Drummond, Fort Collins
Dick Fisher, Steamboat Springs
John Proctor, Walden
Denise Wilson, Golden
Steve Yarbrough, Wheatridge

Officers elected for 2005-2006 are

Leo Bruederle, President
Dave Anderson, Vice-President
Kim Regier, Secretary
Naomi Nigro, Treasurer

Committee Chair Recruitment

Ivo Lindauer is stepping down as Chair of the **Field Trip Committee**. The duties include setting up the Field Trip schedule for the upcoming season. The Chair does not have to lead field trips unless he or she desires. For more information or to volunteer, please contact Ivo Lindauer, 970-285-1112, or Leo Bruederle, 303-556-3419 or Leo.Bruederle@cudenver.edu. The Board is also recruiting for **Chair of the Sales Committee**. April Wasson will be moving out of state, but has agreed to continue until a replacement is identified. Please contact April for details on the duties, 303-763-7679 or apriladw@earthlink.net.

The Board expresses deep gratitude to both Ivo and April for their work on these committees, both of which are extremely important services of CONPS. We wish April well on her new venture, and hope to see Ivo at Society activities in the coming years.

Chapter News

The Fort Collins Chapter has a new president. Denise Culver takes over from Annette Miller, who has served so well for a number of years. The Board thanks Annette and welcomes Denise.

The Southeast Chapter is recruiting for Chapter President. The position duties could be shared between two members as Co-

Presidents, if desired. Please contact Doris Drisgill (719-578-1091, Ddrisgill@cs.com) or Liz Klein (eklein@kiowaengineerings.com, 719-633-5927) if you are interested.

The Denver Chapter is currently recruiting for the next two-year term (September 2006 - September 2008) as Metro-Denver Chapter President. Please contact current president, Naomi Nigro, for more details, 303-366-6033.

Book Reviews

Wild at Heart: Snowmass Village, A Natural History Guide
Janis L. Huggins

Wild at Heart includes history, trails, color photographs, geology, plants, birds and mammals. It has a grand layout, with interesting and unusual kinds of information, including the most extraordinary photographs of birds you have ever seen! A book to take with you when you go to the music festivals in Aspen. Janis has had a love affair with Snowmass for many years. A sumptuous book for such a small area, but useful far beyond the village. The wealthy folks of Aspen must be thanked for their support of at least 23 such books covering one of the jewels of Colorado's natural areas.

Book Review by Bill Weber

Xeriscape Colorado: The Complete Guide
Connie Lockhart Ellefson and David Winger

There is a great deal of practical information in this book, the result of much "hands on" experience by the authors, Connie Lockhart Ellefson, a civil engineer, and David Winger, a specialist with the Denver Water Department. Both have authored previous books on xeriscape gardening.

In addition being a good "how to" book with chapters on planning and design, soil analysis and improvement, irrigation, mulching, maintenance, and practical turf areas, this book is filled with color illustrations of landscapes that have successfully incorporated drought tolerant plants and xeriscape techniques.

Native plants are discussed as a natural part of the xeriscape garden. Sections on appropriate plant choices include lists of ornamental grasses, ground covers, flowers, shrubs, trees, and vines. *Xeriscape Colorado* contains a wealth of ideas, expressed both in words and photos. The landscapes shown (with before and after photos) are sure to inspire the reader to try out new plants and landscape plans in their yard, reducing water use and increasing the color and beauty.

Book Review by Jan Loechell

Bouteloua curtipendula (Michx.)
Torr. var. *curtipendula*

DENVER NATURAL AREAS PROGRAM - A SENSE OF PLACE

Denver Chapter Talk, February 22, 2005

Gayle Weinstein

Summary by Debra Barringer

Did you know you don't have to leave Denver to find excellent examples of native grasses, flowers, shrubs and trees? I thought this talk by Gayle Weinstein, City Naturalist, was important to review for the membership because so few people are aware of the great natural resources that are available right within the City of Denver. The Denver Natural Areas Program (DNAP) is in its sixth year and is important because people associate city open areas with groomed parks, soccer fields, and ball diamonds. Residents, especially new arrivals living in this semi-arid area, need to realize what was here before western expansion and what beauty the natural plants can provide. Gayle described this as a "sense of place". Also these natural areas are home to many birds and other wildlife species and help purify runoff water from all manner of industrial sources.

Gayle's talk began with a brief history of the changing role of parks. Since the 1800s, sustainable (natural) areas were replaced with landscaped and planted areas people were more familiar with coming from Europe and the eastern U.S. Things began to turn around in the '60s and '70s, but truly natural areas are relatively new in the city system. Finally, the concept of "xeriscape" was born in the 1980s and education on native, easy to grow vegetation, in concert with water conservation, was introduced. Since the '90s, there has been high interest in butterfly gardens, wildflowers, prairie grasses, and weed awareness that carries from private gardens to the city parks system. Materials to create these types of plantings are much more available now commercially and for retail. This awareness was just in time to meet accelerating growth, loss of open space, and water use in the metro area.

The DNAP provides a "sense of place" in pockets throughout Denver (see www.denvergov.org/natural_areas for map of sites and other information). These contain remnants of the shortgrass prairie and foothills shrublands habitats that were here before European-American settlement. The DNAP staff and volunteers have worked hard to restore native plants to parcels that contained weed invasions and other introduced species. DNAP areas are primarily in four stages of impacts from those supporting good native species stands, to impacted areas under active restoration, to areas identified as potential natural areas and needing protection. Some of their methods include using selective mowing, heated water to control weeds, and goats as weed-eaters on parcels. They are planting shrubs to discourage prairie dogs from going onto private land. Gayle described these as "win-win" situations where no harsh chemicals or land disturbance are necessary to achieve results that satisfy the public and wildlife. A recent Nature Conservancy magazine article mentioned a book on that topic entitled *Win-Win Ecology: How the Earth's Species*

Can Survive in the Midst of Human Enterprise by Michael Rosenzweig, 2003 (*Nature Conservancy*, Spring 2005, Vol. 55, No. 1, "The City Wild").

DNAP goals include educating the public to appreciate these hidden gems of nature within the city, and to promote land stewardship by changing the mindset of open land as storage dumps or groomed lawns. Future goals include working with Urban Drainage to naturalize channelization of creeks and restore stream banks. They could use your help as a volunteer or to call or write a letter of support for their efforts to your City Council members and the mayor. Get out and enjoy your sense of place in Denver!

Babi Yar Natural Area,
Denver, Colorado

Society Announcements - continued

Society Research Grants Awarded

The CONPS Research Grants Committee is pleased to announce the grant recipients of the 2005 Steinkamp and Marr Funds. **Lynn Moore** has received grants from the Steinkamp Fund for her surveys, "Demographic monitoring of *Astragalus deterior*, Cliff Palace Milkvetch, Mesa Verde National Park, Southwestern Colorado" and "Mapping and Census Survey of *Townsendia glabella* A. Gray, Mesa Verde National Park, Southwestern Colorado." **Michelle DePrenger-Levin** received a grant from the Marr Fund for research on "Phylogeny Reconstruction of *Carex* Section *Scirpinae*." **Christina Alba** also received a grant from the Marr Fund for her study, "Prairie dogs and harvester ants as disturbance agents on the shortgrass steppe: implications for habitat heterogeneity." The results of their research will be published in a future issue of *Aquilegia*.

Jan Loechell, Chair, Research Grants Committee

AQUILEGIA DEADLINE - NOV. 15

Submit contributions for Vol. 29, No. 5 by Nov 15, 2005. Articles less than 1000 words are especially welcome. Previously published articles submitted for reprinting require permission. Submit via e-mail or on disks as an MS Word or rtf document. See page 7 for additional information.

CHAPTER NEWS

Boulder Chapter

Monthly meetings are the on the second Thursday of the month at 7 PM at the City of Boulder Open Space and Mountain Parks offices in the north building conference room, 66 South Cherryvale Road. From South Boulder Road, go south on Cherryvale 1/10 mile and turn west onto a lane to the offices. Contact Tommi Wolfe, scanescan@comcast.net or 303-682-1208.

October 13 Renowned Botanist and Colorado Plant Legend. Dr Bill Weber will reflect on his life and the mentors that made all the difference along the way.

November 10 Forest Ecology and Fire. Merrill Kaufmann, Forest Ecologist.

December 8 Ponderosa Pine Odyssey. Join Dianne Andrews on a journey that explores the biogeography and ecology of ponderosa pine and the forest communities where it grows. Along the way we will also consider our own odyssey in North America as it affects the fate of ponderosa pine ecosystems.

January 12 The Subversive Life Form - Overview of the Ecological Role of Grasses in Steppe and Woodland Ecosystems (Tentative). David Buckner.

February 9 Boulder Open Space and Mountain Parks Vegetative Mapping Project. Megan Bowes.

March 10 Topic TBA.

April 13 Topic TBA.

May 11 Annual Picnic and Wildflower Hike to celebrate the spring!

Fort Collins Chapter

Month meetings are held **Wednesday** at 7 PM at the Gardens on Spring Creek, 2145 Centre Ave., Fort Collins. Dinner with the speaker will be at 5:15 pm at The Rainbow on Laurel St. Please contact Denise Culver the day before if you will join us for dinner, dculver@lamar.colostate.edu or 970-491-2998.

October 5 The Gardens at

Shambhala Mountain Center. Jim Tolstrup.

November 2 Plant Name Stories. Ron West.

December 7 Carnivores and Carex in North Park Wetlands. Carex Queen, Denise Culver, and the Sultan of Sedge, Joe Rocchio.

Metro-Denver Chapter

Monthly meetings are held September through April at 7 PM in the Waring House Main Room (unless otherwise noted) at the Denver Botanic Garden (the mansion just south of the main entrance on York Street). To enter, head south on York past the Gardens main entrance. Make an immediate right into parking lot that says "Staff Parking." Members are invited to join speakers at 5:30 PM for pizza at Angelo's, 620 East 6th Ave (between Pearl and Washington) in Denver. For more information, contact Chapter President Naomi Nigro, 303-366-6033, or email naomi4CoNPS@hotmail.com.

October 25 Front Range Native American Ethnobotany. Meg Van Ness, U.S. Fish and Wildlife Service.

December 6 Rare and Endemic Plant Species of the Southwestern United States. Juanita Ladyman, Ph.D.

January 31 An Overview of Colorado's Wetlands. Dennis Buechler.

February 28 Saving Table Mountain: Advocacy Success. Don Parker.

March 28 Monitoring Sclerocactus mesae-verdae. Janet Coles.

April 25 The Wonderful World of Common Names. Ron West, Resource Planner/Ecologist, Boulder County Parks and Open Space. Denver Botanic Gardens, Location TBA.

Plateau Chapter

Members will be meeting Saturday, November 12 to plan for the upcoming year. For more information, contact Chapter President Jeanne Wenger at 970-

256-9227, stweandjaw@acsol.net or Program Chair Lori Brummer at 970- 641-3561, lbrummer@gunnison.com.

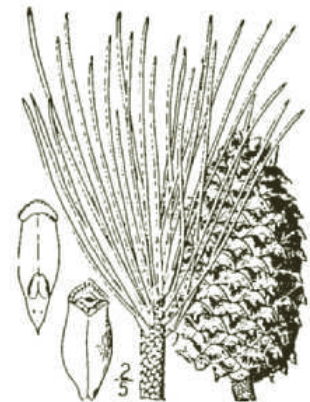

Southeast Chapter

Activities are scheduled throughout the year and often held at the Beidleman Environmental Center, on Caramillo St., just north of Uintah and off Chestnut in Colorado Springs. The chapter is recruiting for the office of President. For chapter information or to volunteer, contact Liz Klein, eklein@kiowaengineeringcs.com, 719-633-5927 or Elsie Pope, 719-596-4901.

November 16 Significant Trees. Andy DeNaray. Meet at 7 pm at the Beidleman Environmental Center for the talk, dessert potluck and a brief business meeting.

Southwest Chapter

For news and activities, contact Chapter President Sandy Friedley at 970-884-9245 or by e-mail at friedley@mydurango.net.

Pinus ponderosa P. & C. Lawson. USDA-NRCS PLANTS Database / Britton, N.L., and A. Brown. 1913. Illustrated flora of the northern states and Canada. Vol. 1: 57.

Aquilegia via Email

Aquilegia is available via email as an Adobe document. File size is typically 2-3 MB and fast internet connections are needed to download or view it. Send your email address to Eric Lane, eric.lane@ag.state.co.us, or Alice Guthrie, molly82@earthlink.net.

Colorado Native Plant Society

Aquilegia

The Colorado Native Plant Society is a non-profit organization dedicated to the appreciation and conservation of the Colorado native flora. Membership is open to all with an interest in our native plants, and is composed of plant enthusiasts both professional and non-professional.

Please join us in helping to encourage interest in enjoying and protecting Colorado's native plants. The Society sponsors field trips, workshops, and other activities through local chapters and statewide. Contact the Society, a chapter representative, or committee chair for more information.

Schedule of Membership Fees

Life	\$250
Supporting	\$50
Organization or Corporate	\$30
Family or Dual	\$20
Individual	\$15
Student or Senior	\$8

Membership Renewal/Information

Please direct all membership applications, renewals, and address changes to the Eric Lane (Chair of Membership), Colorado Native Plant Society, P.O. Box 200, Fort Collins, CO 80522. Please direct all other inquiries regarding the Society to the Secretary at the same address.

Aquilegia is published four or more times per year by the Colorado Native Plant Society. This newsletter is available to members of the Society and to others with an interest in native plants. Articles for *Aquilegia* may be used by other native plant societies or non-profit groups, if fully cited to author and attributed to *Aquilegia*.

Articles not exceeding 2000 words in length and shorter items fewer than 500 words in length, such as unusual information about a plant, are especially welcome. Previously published articles submitted for reprinting require permission. Camera-ready line art or other illustrations are also solicited. Please include author's name and address, although anonymity may be requested. Articles submitted via e-mail or on disks (IBM preferably) are appreciated. Please indicate word processing software and version; if possible, submit as an RTF (rich text format) file.

Please direct all contributions to the newsletter to:
