Mr. Bell, I heard

every word you

said-distinctly!"

75th Anniversary 75 Years of Service to the Nation

= 75 Years of Telephone Progress =

On March 10, 1876, in a boarding house in Boston, the telephone carried its first intelligible sentence. Alexander Graham Bell was about to try to send his voice over a new transmitter he had devised. His assistant, Thomas Watson, was in another room, holding a receiver to his ear. Suddenly, Mr. Bell upset the acid of a battery over his clothes. He called out, "Mr. Watson, come here; I want you!" An instant later Watson burst into the room, shouting, "Mr. Bell, I heard every word you said-distinctly!"

N THE 75 YEARS since then, the Telephone industry has grown up to transform our everyday pattern of living. For millions, the telephone has become an indispensable aid-in business, government, the home, the farm, and in maintaining family and community ties.

These 75 years have brought an amazing parade of advancements in communication -switchboards, cables carrying hundreds of wires on poles or underground, the vacuum tube, the dial system, coaxial cable and microwave radio relay for transmitting hundreds of simultaneous calls or television

... and the Telephone was born! programs, telephone service to ships and

> Today America has 62% of the world's telephones and enjoys the most and the best telephone service in the world . . . another great achievement of American ingenuity under a system of free enterprise and individual incentive and reward.

> Each year the telephone becomes more useful, and more essential to the prosperity and security of the nation. Today it unites the country, playing a vital role in mobilization and production for defense.

Here in the South, more than 52,000 skilled employees and nearly 31/2 million Southern Bell telephones are on the jobmore than twice as many as we had when times as many Long Distance circuits. In all, we have built more than \$670 million worth of new facilities in a little over five years, and we're still busy at the job.

All this growth-and maintaining the financial strength to keep on expandingwill be increasingly important to the South and the Nation in the days ahead. - Southern Bell Telephone and Telegraph Company.

"THAT LITTLE GAME"

FRIDAY - SATURDAY

DER FIGHT IN TAME THE WEST!

RUPTURE Expert Coming to Mayfield and Paducah again

GEO. L. HOWE Well-known expert, of Indianapolis will personally demonstrate his method without charge at the Hall Hotel, Mayfield, Thursday, March 15 from 1 p to 6 p. m. and at the Irvin Cobb Hotel, Paducah, Friday, March 16 from 11 a. m. to 6 p. m. Evenings by appointment. Ask for Mr. Howe at desk.

Mr. Howe says the Howe method contracts the openings in remarkably short time on the average case, regardless of the size or location of the rupture and no matter how much you lift or strain and puts you back to work the same day as efficient as before you were ruptured.

The Howe Rupture Shield has no leg strap; waterproof, sanitary, practically indestructible and can be worn while bathing. Each shield is skillfully molded and fitted to the parts under heat which gives perfect fit and satisfaction. Large and difficult ruptures following operations especially solicited.

Do not overlook this opportunity if you want gratifying results. Mailing address P. O. Box 5233 E. Michigan St. Station, Indianapolis 1, Ind.

Prevent Forest Fires

It's easy for a farm dog to develop bad habits. It's almost as easy for you to break them. Here are some pointers on how you can help convince your dog himself that he shouldn't fight with other dogs or scare horses. The instructions are from the informative Purina Farm Dog Book on how to care for and train the farm dog.

chewed up the neighbor's pet.

You can separate fighting dogs
quickly by pouring water over them.
Or, if water is not available, just
reach for one hind leg, preferably
the one of the aggressor, and lift
him up in the air. If you have help
available, the hind legs of both dogs
about the lifted at the same time
water pistol, fill it with water and
carry it along on your ride. If he
tries his tricks again, a squirt in the
face will help cure him. A handful
of small pebbles can be used instead of the water pistol.

Discipling the dog from horseback
with a long whip is not advisable should be lifted at the same time with a long whip is not advisable to prevent either one being tem- since it may scare the horse and porarily at the other's mercy. Don't try to pull them apart by their collars. After the fight has been stopped, take steps to prevent been stopped, take steps to prevent Purina dealers. similar occurrences in the future: first, see that the collars of both parties fit pretty snugly. Then the them together by their collars quite tightly. Leave them that way for at least several hours. To be so close to each other with-

HOUR OF DECISION.

For a certain proud young father, this is a red letter day, and rightfully so! Certainly few events in his life hold greater significance for man than the hour when at last he beholds his first-born, a tiny, fragile, human being, but just then the most important person on earth.

But on such a day the new father should pause for

GAS is FINE in The Furnace -- not in Your Stomach

If your stomach burns "like fire" it means your food turns to gas instead of digesting. So you are in misery with bloat

Benton people say they are free of stomach gas since they got CERTA-VIN. This new mediine digests food faster and better. Taken before meals it works with your food. Gas pains go Bloat vanishes Contains Vitamin B-1 to enrich the blood, give you pep and make nerves stronger. Miserable people soon feel KENTUCKY different all over. So don't go on suffering. Get CERTA-VIN

A new line National Defense

Nature gas is used in the production of hund cae a military products such as anti-aircraft searchlights.

The New York Times early this year gave its readers a new line on national defense.

The Times reported that one of the nation's major gas pipe lines, Texas Gas Transmission Corporation, was moving swiftly to meet the growing need for natural gas for military and peace time operations by asking the Federal Power Commission to authorize a \$42.3 million expansion program.

The newspaper explained how the expansion planned by Texas Gas whose personnel operate the Company's compressor station and pipe line facilities near here—would add an additional 200 million cubic feet of natural gas a day to supplies already moving to high-priority customers in the mid-west.

"The Company", said the Times, "hopes to complete its program before the end of this year . . . The new facilities would bring the system's capacity to over 900 million cubic feet of gas

a day. "In addition to supplying present customers in Louisiana, Arkansas, Mississippi, Tennessee, Kentucky, Indiana and eastern Illinois, Texas Gas will be able to sell 95 million cubic feet of gas a day to the Ohio Fuel Gas Company, a subsidiary of the Columbia Gas System, serving Dayton and Cincinnati."

For Texas Gas, this new line on national defense is part of the continuing effort oy the Company and its employees to meet the constantly expanding need for more and more natural gas.
