Mr. John Allen Chalk

Dear John Allen:

Thank you for your comments on my letter to A. L. Haddox regarding the Herald of Truth television films. I felt that Brother Haddox received it very well.

During the past several weeks, I have written other letters to brethren concerning the emphasis on the Caucasian in our brotherhood supplies. Among them was a letter to Jim Wilburn concerning the "Now That I Am A Christian" series, and a letter to Jule Miller concerning the Jule Miller film strips.

The other day I ordered a set of what I thought were integrated film strips from Jule Miller. However, instead of being integrated, they were all black people. I recognize that in many places the unfortunate situation exists where brethren (black or white) would use these films advantageously. However, our needs here in Stamford are totally different, and I agree with you that we need to press for a realistic presentation of the Gospel in this regard.

May God bless your continued work with the radio as well as your new endeavor in Atlanta.

Yours for the King,

James G. Pounders
