FROM INTERIM DEAN STEINMAN

As part of our efforts to build on the strengths of the law school, I have created a committee to consider issues relating to the recruitment, retention and support of our minority students and other distinct groups within the student body such as women, and gay and lesbian students. Professor Kling has agreed to chair the committee. Associate Dean Chapman, Professors Deutsch, Harris, Laser, Malin and Hablutzel, and Deans Herman and Saunders also will serve on the committee. We will invite students from a broad spectrum of student organizations to become members of the committee. Once the student members have been identified, their names will appear in the *Record* so that you may convey to them any concerns, thoughts or suggestions within the scope of the committee's mission.

CONSTITUTION WEEK PROGRAM

Judges Ilana Diamond Rovner (a 1966 Chicago-Kent graduate) and Ann C. Williams of the U.S. District Court for the Northern District of Illinois will discuss the federal judiciary at a special Constitution Week program from noon to 1 p.m. on Tuesday, Sept. 18, in Room 101.

The Commission on the Bicentennial of the United States Constitution has designated the week of Sept. 17-23 of every year to commemorate the role of the Constitution in our daily lives. In addition, 1990 is the bicentennial of the establishment of the federal judiciary, which marked the beginning of this country's dual system of free and independent state and federal

courts. Since then, the courts have played a key role in interpreting and applying the Constitution.

All faculty and students are encouraged to attend this program commemorating the roles of the Constitution and the federal judiciary.

FACULTY NEWS

Professor Abbott's article "GATT and the European Community: A Formula for Peaceful Coexistence" will appear in the Michigan Journal of International Law (Vol. 12, issue 1, scheduled for publication in Novem-

ber). The article analyzes the relationship between the international organization governing international trade (the GATT) and the European Community (as one example of a regional organization governing trade) in light of the evolution of the GATT toward the regulation of so-called "new areas" (trade in services, investment and intellectual property). The article proposes a legal mechanism for evaluating the validity of EC measures which are potentially incompatible with GATT rules.

Professor Abbott is also co-editing a symposium issue of the *Chicago-Kent Law Review* with Professor Stefan Riesenfeld of the University of California-Berkeley School of Law. The symposium involves a comparative study of the roles of parliaments/legislatures in the treaty-making process. The symposium will include contributions from authors in Brazil, England, France, Italy, Germany, the Netherlands, Switzerland and the United States.

SPECIAL EVENTS

Charles Green Lecture

Jon Bing, a leading Norwegian scholar in the field of computers and the law, will present the Third Annual Charles Green Lecture in Law and Technology at noon on Tuesday, Sept. 25, at the law school. Students, faculty and staff are invited to attend.

Professor Bing's topic, "The Problem of Finding a Precedent: Analogy and Artificial Intelligence," will raise issues about computers, robot lawyers, the European legal union of 1992 and legal philosophy. He will compare civil law and common law approaches to legal reasoning in the context of computer models of the law. Special focus will be placed on the use of computers to find and apply prior cases to new legal problems. He will describe the research at the Norwegian Research Center for Computers and Law using computers to store information about cases as a group of attributes. He also will address the implications of artificial intelligence to reasoning by analogy in the areas of comparative law and jurisprudence.

A professor of law at the University of Oslo, Bing co-founded the Norwegian Research Center for Computers and Law at the university in 1970. In 1984, he was awarded a chair in "legal informatics" by the Norwegian parliament. His work has emphasized issues of data protection, legal protection of computer programs, data bases and integrated circuits, and telecommunications law. He has written and co-written

numerous books on legal information and decision systems.

COMMUTER RAIL SCHEDULES

Metra has announced tentative changes in schedules for commuter trains on the Milwaukee North Line, which runs from Union Station in Chicago through the northern suburbs to Fox Lake.

The proposed schedule changes could have both positive and adverse effects on students taking evening classes who travel on the Milwaukee North Line. Currently, late evening trains depart on that route from Union Station at 6:55, 8:20 and 10:05 p.m., and 12:25 a.m. Under the proposed schedule, trains would depart at 6:35, 7:35, 8:35 and 10:35 p.m., and 12:26 a.m. While that schedule would allow students who have finished classes by 7:30 p.m. to catch a train earlier than under the current schedule, students who take classes later in the evening might have a longer wait for a train.

The planned implementation date for the new schedule on the Milwaukee North Line is Oct. 29. Comments on the proposed new schedule may be submitted before that date to Metra, Passenger and Information Services, 547 W. Jackson Blvd., Chicago, IL 60606; telephone 312-322-6770.

The foundation raised money through the students, faculty and alumni and is based on a students-funding-students concept. The Chicago-Kent Justice Foundation has not been active for more than five years, and this year we are trying to reactivate it. If you are interested in participating in helping to reorganize the foundation, please contact Brian Kalata by e-mail (BKALATA) or at locker 137 on the second floor.
