CHARLES GREEN LECTURE

Jon Bing, a leading Norwegian scholar in the field of computers and the law, will present the Third Annual Charles Green Lecture in Law and Technology at noon on Tuesday, Sept. 25, in Room 101. Students, faculty and staff are invited to attend.

Immediately preceding the lecture, an open reception will be held from 11 a.m. to noon in the rear lobby outside Room 101. All students are invited to attend the reception.

Professor Bing's topic, "The Problem of Finding a Precedent: Analogy and Artificial Intelligence," will raise issues about computers, robot lawyers, the European legal union of 1992 and legal philosophy. He will compare civil law and common law approaches to legal reasoning in the context of computer models of the law. Special focus will be placed on the use of computers to find and apply prior cases to new legal problems. He will describe the research at the Norwegian Research Center for Computers and Law using computers to store information about cases as a group of attributes. He also will address the implications of artificial intelligence to reasoning by analogy in the areas of comparative law and jurisprudence.

A professor of law at the University of Oslo, Bing co-founded the Norwegian Research Center for Computers and Law at the university in 1970. In 1984, he was awarded a chair in "legal informatics" by the Norwegian parliament. His work has emphasized issues of data protection, legal protection of computer programs, data bases and integrated circuits, and telecommunications law. He has written and co-written

COMMUTER RAIL SCHEDULES

Metra has announced tentative changes in schedules for commuter trains on the Milwaukee North Line, which runs from Union Station in Chicago through the northern suburbs to Fox Lake.

The proposed schedule changes could have both positive and adverse effects on students taking evening classes who travel on the Milwaukee North Line. Currently, late evening trains depart on that route from Union Station at 6:55, 8:20 and 10:05 p.m., and 12:25 a.m. Under the proposed schedule, trains would depart at 6:35, 7:35, 8:35 and 10:35 p.m., and 12:26 a.m. While that schedule would allow students who have finished classes by 7:30 p.m. to catch a train earlier than under the current schedule, students who take classes later in the evening might have a longer wait for a train.

The planned implementation date for the new schedule on the Milwaukee North Line is Oct. 29. Comments on the proposed new schedule may be submitted before that date to Metra, Passenger and Information Services, 547 W. Jackson Blvd., Chicago, IL 60606; telephone 312-322-6770.

The topic of the article can be anything of a European legal nature and should be approximately 4,000 to 5,000 words in length. Interested students should pick up a copy of the requirements from the ILS bulletin board outside the cafeteria. If you have any further questions, come to the meeting or contact Cynthia Cervini by leaving a note on the student activities office door or a message on the ILS machine at ext. 5879.

Careers Day: The Fourth Annual Chancellor Kent International Law Society Careers Day is set for Friday, Oct. 26. More information will be posted in the next week, so stay tuned. We will also need some volunteers to help with the mailings. If you are interested, drop your name in that ever popular envelope on the door to Room 226.

If anyone wants to attend but cannot come up with the registration fee, special arrangements may be made on a case-by-case basis.

If you are interested in participating in efforts to reorganize the foundation, please contact Brian Kalata by e-mail (BKALATA) or at locker 137 on the second floor.

FROM THE EDITORS

Starting this week, the "Law School Events Calendar"
 will run as a regular feature in every issue of The
 Record. The Calendar will list upcoming events with
 open attendance that are sponsored by the law
 school or by official student organizations. As an
 addition to the items that already run in The Record,
 the Calendar will serve two purposes for students and
 their organizations:

First, if your organization is planning an event, the
 Calendar will help you by providing a quick reference
 to other events already scheduled at the law school.
 In this way, it will be easier to avoid conflicts between

activities that otherwise might compete for attendance.

Second, the Calendar will help you, as individuals, to plan ahead to attend your choice of the many informative programs offered by the law school and student organizations. These programs can be important adjuncts to your class work, and I urge you to attend many of them.

To have their events added to the Law School Calendar, sponsors must contact the Office of Administration and Finance in Room 302. After that office makes room assignments, events will be added to the Calendar.

We hope the Calendar will help you to organize your time at the law school more efficiently and productively.

Law School Nightmare No. 162

You have written the definitive paper. Your research was on target; your logic was flawless. This is an "A" paper. You get your grade -- it's a "D". Somewhere between the flawless logic and the on-target research you forgot to check your grammar.

When writing papers, spell-checking isn't enough. A word can be spelled correctly and still be out of context or the wrong tense. Sentences can be too long and poorly punctuated.

Fortunately, Kentnet has three writing analysis tools - RightWriter, Grammatik and Correct Grammar - which can spot errors like these and offer suggestions for improvement. Each program is designed to analyze writing for conformity to standard rules of grammar, style, usage and punctuation. To access the writing analysis tools, login to Kentnet. At the Main Menu, select **D) Student Productivity Tools**; select **F) Writing Analysis Tools** from the Student Productivity Tools Menu; then select one of the writing analysis programs.

Try them all, then choose the one that "feels" right to you. Remember: use one before turning in any assignment to avoid Law School Nightmare No. 162.

How do I convert Framework documents into WordPerfect documents?

To "EXPORT" a Framework document to WordPerfect

- 1) load the Framework document onto the desktop, then select it;
- 2) open the DISK MENU and select EXPORT
- 3) from the EXPORT Submenu, select F. WordPerfect.

The document is exported to your floppy diskette in WordPerfect format (the document will have the same name as the original Framework document but with a .WP extension). The original Framework document remains unaltered.

Exit Framework as you normally do, then select WordPerfect from the Student Productivity Tools Menu. Once in WordPerfect, retrieve your converted document. You can edit it, select different laser fonts -- treat the document as if it were created originally in WordPerfect.

I've never used E-Mail before. Help!!!!

Here are a few E-Mail basics:

The E-mail "carrier" for Profnet and Kentnet is PostMaster. PostMaster is activated when you login to Kentnet. During the login process, if you have any new mail in your "mailbox", your new mail folder is opened to display its contents. The word .EW is beside any mail that has not been read since your last login.

After you login to Kentnet, PostMaster remains on the job -- monitoring incoming mail. If someone sends you E-Mail while you are working at your computer, an inverse text message bar flashes on the bottom of the screen to alert you to new mail arrivals. You must clear the message to continue working. To clear the message, press the CTRL and ENTER keys simultaneously. To open your mailbox press the ALT and M keys simultaneously.

Once your new mail folder is open, the highlight bar will be on the last message sent to you. To read that message, press the ENTER key. To read the next message in your folder, press the → key; press the ← key to read the previous message.

When reading a message, you can send a reply by pressing the F2 key. The To:, From:, on Server: and Subj: fields are already filled in. Type your message in the message area, then press F10 to send it.

To originate a message, start PostMaster by holding down the ALT key and pressing the M key. Press F1 to bring up a blank message template. Type the login name of the recipient in the To: field. A Profnet (faculty/staff) or Kentnet (student) login name is the first letter of the first name and the first 7 letters of the last name (there are no spaces between first and last name letters). Type in the correct server in the on Server: field, fill in the Subj: field, then type your message. To send the message, press F10.

To exit PostMaster, press the ESC key; it will close any open message (E-mail sent to you); clear a reply or new message from the screen (E-mail you sent); or close the new mail folder and return you to the place you were at before opening your "mailbox".

PostMaster gives many on-screen prompts and messages to guide you through operations. If you need additional help, call the Computer Center Help Line at x6802.
