Made Known On Application.

Entered at the Clayton Post Office as second class matter.

Twelve notable organ recitals are scheduled for the Lewis and Clark Exposition. The recitals will be held in the Auditorium where a \$10,000 pipe organ will be set up.

What, with tornado's, cyclones and floods in many parts of the country, have not the people of this part of New Mexico cause to be thankful? We have a little wind 'tis true, but nothing to compare with Texas, Oklahoma and Kansas, here we have as healthy a country as there is in the world, no extreme weather, no storms, no floods and no pestilence of any kind. Is it any wonder when a man moves away from here that it is only a short time until you see him return, satisfied that there is worse places than Union county.

Mr. W. W. Schlecht the government engineer in the reclamation service who has been looking over the feasibility of a site for the storage of water on the Cimarron river, was in town over Sunday and stated to a representative of this paper that he had found no better site on the river than the one already picked out near Kanton, but stated that there would be nothing done this year, as it will have to be determined whether the flow of water in the Cimarron river under normal conditions, would justify the expenditure of the amount of money that would be needed to put in a dam at that place.

It is absolutely necessary that every good citizen should interest himself in the government of his country. He should have a voice in shaping the policy of his party, and it is of vital importance that he be heard in choosing men as candidates who will truly represent his party. In any country the party which is nearest the people is the most useful, and will live the longest. To keep the party near the people, the people must interest themselves in the party. The Democratic party is, and always has been the peoples party. To keep it true to the faith of its founders and true to the best interests of all the people, every democrat must be vigilant.

### University of New Mexico.

The University Campus is situated on the mesa a short distance east of Albuquerque. The view of the valley of the Rio Grande and the mountains is most beautiful and inspiring. A more favorable location for health and out of door recreation could scarcely be found.

### University Environment.

Albuquerque, the county seat of Bernalillo county, is pleasantly situated in the valley of the Rio Grande. It is easily reached from any part of the Territory, being centrally located on the lines of the Atchison Topeka and Santa Fe and the Santa Fe-Pacific Railroad, and the Albuquerque East, (under construction.) The climate is very even and the air so bracing that students unable to pursue their studies in other climates, may do so here and improve in health at the same time. On account of its climate and altitude, the city is much frequented as a health resort.

Albuquerque is a modern city, with a population of about 12,000, having electric light, a free public library, good streets, a variety of good mercantile and manufacturing establishments, four banks, two daily newspapers and other accompaniments of modern civilization.

Albuquerque is an educational center, besides the University there are many schools of different kinds including an excellent system of public schools.

During the year many musical and literary entertainments are given, and the large and refined audience that patronize these, give unmistakable evidence of the culture of the citizens. The student who enters the University is at once surrounded by an educational atmosphere that cannot do otherwise than exert a refining influence and stimulate him to effort. Albuquerque is a city of churches almost every religious denomination is represented. These all gladly welcome the students to their religious and social life. The University of New Mexico offers the best of advantages for a thorough college education under the most healthful climate conditions and at small cost.

### Cabin That Roosevelt Lived In.

The log cabin in which President Roosevelt lived for three years while he was a rancher has been placed in the Agriculture building at the Lewis and Clark Exposition as a part of the state of North Dakota's exhibit. The cabin was taken apart and the pieces numbered, so that it could be put together again exactly as it was when the President lived in it as a cowboy. It stands near the south wall of the Agriculture building.

It was in 1883 that Mr. Roosevelt went to North Dakota and purchased the Maltese Cross ranch a place on the Little Missouri River eight miles south of the town of Medora. On taking possession Mr. Roosevelt changed the name to Chimney Butte, on account of a chimney-shaped butte a short distance away. The rough cabin which he bought with the ranch was the future President's only home for nearly three years and in it he lived the life of the cowboy.

In the cabin there will be exhibited also a number of interesting mementos of the President's life at that period. An old straw hat, which Mr. Roosevelt wore when he went to the ranch, but which was discarded shortly afterward as unsuitable to the kind of life he must lead, was found in an old sack in a corner of the cabin, and will be shown to visitors at the Western World's Fair. Other relics include the President's old gun, his "chaps," boots and the war bag in which he stored these articles when he gave up his cowboy life.

### Losses of Sheep.

According to the statement of the winter losses of the sheep in the United States as compiled by the bureau of statistics, under the authority of the Secretary of Agriculture. The average loss from exposure was 3.1 per cent, and from disease, 2.5 per cent, the total losses from all causes being 2,498,767, condition 95.8 per cent New Mexico heads the list in losses, the number being 331,383. Montana being second with 327,060, loss. In loss by exposure, New Mexico also heads the list the percentage being 8.7

Don't forget that Clayton is going to celebrate the 4th, of July

### KENTON BREEZE.

This is the first time I ever corresponded for a paper, but here goes.

Mrs. W. T. Hughes was in town shopping Tuesday.

Mrs. Paul Mann and son of Clayton are the guests of Mrs. Lumpkins this week.

S. S. Stamford of Woolard is here visiting his homestead in the Klondike neighborhood.

Robert Murry was in town Tuesday talking race horse.

R. Q. Palmer editor of the Clayton Enterprise was circulating among friends here Sunday and Monday.

The Kanton Telephone Co. is now chartered and expect to be talking to Clayton within the next ninety days.

John Tanner delivered eight head of steers, Monday to Ralph Curry for 14.18-22 dollars per head.

The Government dam surveyor is in our burg again this week.

Mrs. E. G. Freeman is visiting at the Giles ranch this week.

The Cimarron Supply Co. are treating their store building to a shingle roof.

The Saints closed their meeting Monday night with a foot washing.

Henry Beerley our Kanton blacksmith was married Sunday to Miss Anna Hack by Rev. Locke. Henry had his house complete and furnished waiting the bride.

Bennie Cleming the ice man was on our streets Tuesday with ice and fresh vegetables.

When Mrs. Drew returned from Clayton she found two of her chickens imprisoned in a post hole almost dead from hunger but a few doses of Liquezone was administered and they are now out of danger.

We understand that W. F. Lumpkins has completed the road that leads out of Kanton Canyon and connects with the Clayton and Kanton road this will be a great convenience to people living up in that part of New Mexico.

The people of Kanton are glad to see Mr. and Mrs. Lumpkins assuming the proprietorship of the hotel here again. They are thorough hotel people and you will find the best this market affords on their table.

D. W. Snyder, was over from his sheep ranch Sunday. He is highly pleased with the prospects of this lambing season.

Henry Beerley, of Kanton, and Miss Anna Hack, of Garrett, were married last Sunday in the presence of only a few friends at the residence of A. C. Locke, Rev. Locke officiating. Mr. Beerley has been in the blacksmith business here for sometime and acquires all the traits of a good citizen and a thorough wide-awake business man. The bride came to Garrett only a short time ago, having lived with a sister since her arrival to that place. She is in every way a worthy and estimable lady. They will make Kanton their future home. We extend best wishes.

Geo. Hubbard and Chat Malm drove some cattle over to the Curraupa Saturday.

Wm. Madden has two friends visiting him from Las Animas, whose names we failed to learn.

The daily papers reports that Toga is afraid to meet the Russian fleet, but will devote his time to guarding home ports, but as there is so many reports sent out, little credence is given this one.

### Pay Less; Dress Better

These are the days in which a wise man will keep his eagle eye on his umbrella.

The chances are that Prof. Suddard's harmless Fourth of July powder will prove charmless to the American boy.

It is pleasant to remember also that Mr. Joseph Jefferson got some praise before it was too late to do him any good.

As 10,000 mules will be used in the Panama canal work Missouri may feel that it is going to be adequately recognized.

Two French generals have arranged to fight a duel, but as yet the price of court plaster in Paris hasn't been advanced.

The New York scientist who claims he can restore cats to life ought to be urged to adopt the motto "Let well enough alone."

A woman at San Jose, Cal., went crazy after visiting a clairvoyant. Ordinarily people go crazy before they visit clairvoyants.

Wonderful is the spirit of reform. A New York policeman has resigned his place on the force "in order to maintain his self-respect."

The sultan of Turkey is perplexed at the conduct of his rebellious Arabs. They began hostilities without sending out any ultimatum.

Oregon and Washington are disputing over their boundary line. Otherwise, with a few trifling exceptions, the country is at peace.

The whole art of winning baseball games is still summed up in that brief sentence of advice to batsmen: "Just put 'em where they ain't."

Wall street prices continue to indicate that the professionals have good reasons for believing that the public has been emptying its stockings.

There should be no surprise over the character of the news coming from Borneo. Some of the wild men are acting as war correspondents.

A woman was fined at Milford, county Donegal, Ireland, recently for having eleven pigs in the house. And it was her house and they were her pigs.

Mme. Modjeska says she has indignantly refused an offer of \$1,750 a week to go on the vaudeville stage. Hetty Green will regard that as sheer madness.

The originator of the rural free mail delivery system died in Connecticut the other day, and the newspapers have not found out his name. What is fame, anyhow?

Astronomers report that the winter on Mars has been apparently a mild one, so that if there has been a coal strike there probably there hasn't been much suffering.

Nancy Carnegie has furnished an answer to the question the advent of the automobile has caused us to worry about, namely, what shall we do with our ex-coachmen?

Dr. Seymour of Chicago says that people who use no soap are healthier than those who do. But how in the world did the doctor get so many non-users to confess their crime?

An Arizona farmer says wheat stalks are sure to be six feet long out there this year. This is the first indication that Kansas is beginning to lose her best people by emigration.

Senator Proctor complains of maple syrup that it doesn't taste as it did when he was a boy. And perhaps the senator might find that even green apples haven't that delicious flavor they used to have.

It is said that the emperor of Germany is fond of collecting neckties and scarfs of all ages and of all countries, and has already a collection of more than 18,000. But a great many things are said.

The seventeen-year locusts, as we learn from the esteemed Richmond Times-Dispatch, are due again this spring. They will have to come early if they expect to hold their own with the every-year insect pests.

If the horticulturists at the University of Pennsylvania succeed in cultivating the insectivorous drosena dichlomo's appetite for mosquitoes, there's no doubt what will be the popular piazza plant this season.

The Boston Globe wants to know "What is woman's ideal pet?" It used to be the little stranger in the cradle, but, of course, we have progressed considerably since those old-fashioned days.—Cleveland Plain Dealer.

"Women are far less graceful than men," said Dr. Arnold of New Haven to an audience of Columbia students. But it makes a difference, doesn't it, doctor, whether the women are in a drawing room or are running to overtake a car?

NEW MEXICO NEWS SUMMARY

Will Remain at Albuquerque.

An Albuquerque dispatch of May 11th gives an interview with E. P. Ripley, president of the Atchison, Topeka & Santa Fe Railway Company.

Relative to a dispatch from Fort Worth, Texas, in which Mr. Ripley is credited with saying that when the Belen cutoff is completed and the road extended from Belen across the Rio Puerco to a junction with the Santa Fe Pacific, the big shops now at Albuquerque will be moved to Belen, he denied the article in toto.

Mr. Ripley stated that the Belen cutoff undoubtedly will be completed and in operation within a year and its construction simply means that it will take the overflow from the New Mexico division through Raton and the Gloriet mountains and furnish a line for a certain section of territory in the Southeast which is now reached now except by a long and tedious detour via Newton, Kansas.

As a further denial of the Fort Worth dispatch, Mr. Ripley stated positively that the New Mexico division will remain on the main line and instead of reducing or removing the shops from this city, the capacity of them will be greatly increased during the next year.

Las Vegas Gets Sanitarium.

A Las Vegas dispatch of May 9th says: This city has been selected as the site for the National Fraternal Sanitarium. The magnificent Montezuma hotel, three stories in height, and containing 400 rooms, with the hot springs, grounds of 1,000 acres and the productive farm, a property which cost a million dollars, and which has been given by the Santa Fe company to the National Fraternal Sanitarium Company. Announcement is made to-day from St. Louis that the gift has been accepted and that the largest sanitarium in the world will be established.

Citizens of Las Vegas have given the company several hundred acres of land, and a score or more of cottages. The Las Vegas grant has presented thousands of acres of land surrounding the hotel grounds, so that the company will own and control a large area of land that cannot be used for commercial purposes.

The sanitarium company will expend \$50,000 in refurbishing the hotel, which will not be utilized for patients, but will be open to the public. The patients will be placed in tents and cottages.

The company has the assurance of the co-operation of many orders in the United States in its fight against tuberculosis.

Former Governor Stevens will make the formal announcement of the selection of Las Vegas as the site for the sanitarium at a banquet at the Planters' hotel to-morrow evening.

New Incorporations.

Incorporation papers were filed with the territorial secretary at Santa Fe May 9th as follows:

Alameda Water Company of Roswell, capitalization, \$7,200; incorporators, William F. Wells of Los Angeles, William B. Gatewood, Wendall M. Reed, Carl M. Bird and John T. Carlton; directors, Carl M. Bird, Wendall M. Reed and William A. Gatewood.

Western Parent Crude Rubber Company of Santa Fe, capitalization, \$100,000; incorporators and directors, Ishmael Sparks, Harvie Duval, Morton C. Miller, John Howard Vaughn, A. B. Renchan and H. B. Cartwright of Santa Fe.

Winter Grocery Company of Santa Fe; capitalization, \$3,000; incorporators and directors, Thomas S. Winter, R. L. Winter and E. A. Mecke.

On the 11th incorporation papers were filed by the Roswell Canning Factory, the incorporators being Charles E. Tannehill, Joseph Morrison, J. W. Poe, W. S. Praeger and Lewis D. Fort of Roswell. The capitalization is \$10,000 and the headquarters Roswell. The directors are G. W. Medley, R. F. Barnes, R. P. Bean, W. S. Praeger, H. F. Smith, L. O. Caffey, C. E. Tannehill, J. P. White and Lewis D. Fort.

Care for Starving Stock.

C. E. Belden of Hopewell, New Mexico, has written the State Bureau of Child and Animal Protection some encouraging news.

In the winter when the stock in Colorado along the New Mexico line was suffering Agent Harry B. Kerr, in investigating the situation, found that stock over the line in New Mexico was in a condition equally bad. He took the matter up with Governor Miguel A. Otero and Attorney General George W. Pritchard of New Mexico. This attention resulted in arousing public sentiment, and nearly 200 horses were rescued and cared for by the citizens, although there was no law compelling them to take this action.

Mr. Belden writes that the last of the stock so rescued has been sold and that the receipts paid the expense of keeping the entire lot. Some few were claimed by their owners, but in the majority of instances the horses were sold without claimants.—Denver News.

A Roswell dispatch of May 9th says: Cowmen from Lincoln report that Rosario Emilio, a young Italian, had been convicted on the charge of killing Antonio Carrillo, a young Mexican woman. The verdict of the jury was first degree murder, and Emilio has been sentenced to hang July 2d. The young woman had been married, but was separated from her husband. The Italian had been paying her some attention and it was claimed that when she started out on a trip in the mountains west of Roswell, he followed her and assassinated her near the public road.

Howard Chenoweth was on Saturday, the 8th inst., at Silver City, in the Third Judicial District Court for Grand County, convicted of murder in the second degree, the jury having returned the verdict after a deliberation of twenty-four hours. The case was heard before Judge Frank W. Parker, the territory being represented by District Attorney Turner of the Third Judicial District, and W. B. Childers of Albuquerque. The defense was conducted by Attorney James S. Fielder. The crime for which Chenoweth was convicted occurred in Silver City on August 28, 1904. Howard Chenoweth and Mark Kennedy, two cowboys of the Diamond A outfit were engaged in a drunken brawl when the ranch foreman, Pat Nunn, interfered and got a severe bullet wound from Chenoweth as reward. When the bullets began to fly City Marshal James Kilbourne came running up to interfere and Chenoweth fired at him point blank. Constable Rodriguez was also badly wounded by Chenoweth who was so infuriated by liquor and passion that he was shooting at every man in sight. Deputy Sheriff Murray made his appearance as Kilbourne fell and as Chenoweth aimed his six-shooter at Murray the latter fired and Chenoweth dropped. He was painfully wounded and for weeks his fate hung in the balance.

Encouraging Crop Report.

The crop bulletin issued May 9th by the United States Weather Bureau in Santa Fe for New Mexico is very optimistic. It says that the soil continues in excellent condition for plowing, seeding, planting and the growth of crops. Practically all the available valley land is being brought under cultivation and moisture is abundant, the rivers and creeks and even arroyos running full and but little or no irrigation being required.

The early sown grain is growing finely, and in the southern valleys the first crop of alfalfa is being cut, while in other portions of the territory the crop is almost ready for cutting.

Range grasses are growing well, and cattle, horses, sheep and goats are generally in good condition, only in northeastern counties reporting poor range and losses of cattle and sheep.

Fruits continue very promising, apricots, peaches, cherries, plums and early apples setting fruit abundantly, with little or no apparent harm from the frost, although the daily average temperature has been four degrees below the normal during the past seven days, and the frosts extended as far south as the Pecos valley, but doing little damage.

A Roswell dispatch of May 9th says: Brakeman W. A. Gossett met with a railroad accident last night at Eldora in which one of his legs was cut off. Hopes are entertained for his recovery.

Criminal Assault at Folsom.

A Folsom dispatch of May 7th says: Excitement is running high this evening on account of a brutal assault made by Juan Tucero at 10:30 o'clock this morning upon the person of the nine-year-old daughter of Henry Southern, foreman of the bridge work on the Colorado & Southern railway.

Chenoweth Convicted.

Howard Chenoweth was on Saturday, the 8th inst., at Silver City, in the Third Judicial District Court for Grand County, convicted of murder in the second degree, the jury having returned the verdict after a deliberation of twenty-four hours. The case was heard before Judge Frank W. Parker, the territory being represented by District Attorney Turner of the Third Judicial District, and W. B. Childers of Albuquerque. The defense was conducted by Attorney James S. Fielder. The crime for which Chenoweth was convicted occurred in Silver City on August 28, 1904. Howard Chenoweth and Mark Kennedy, two cowboys of the Diamond A outfit were engaged in a drunken brawl when the ranch foreman, Pat Nunn, interfered and got a severe bullet wound from Chenoweth as reward. When the bullets began to fly City Marshal James Kilbourne came running up to interfere and Chenoweth fired at him point blank. Constable Rodriguez was also badly wounded by Chenoweth who was so infuriated by liquor and passion that he was shooting at every man in sight. Deputy Sheriff Murray made his appearance as Kilbourne fell and as Chenoweth aimed his six-shooter at Murray the latter fired and Chenoweth dropped. He was painfully wounded and for weeks his fate hung in the balance.

Encouraging Crop Report.

The crop bulletin issued May 9th by the United States Weather Bureau in Santa Fe for New Mexico is very optimistic. It says that the soil continues in excellent condition for plowing, seeding, planting and the growth of crops. Practically all the available valley land is being brought under cultivation and moisture is abundant, the rivers and creeks and even arroyos running full and but little or no irrigation being required.

The early sown grain is growing finely, and in the southern valleys the first crop of alfalfa is being cut, while in other portions of the territory the crop is almost ready for cutting.

Range grasses are growing well, and cattle, horses, sheep and goats are generally in good condition, only in northeastern counties reporting poor range and losses of cattle and sheep.

Fruits continue very promising, apricots, peaches, cherries, plums and early apples setting fruit abundantly, with little or no apparent harm from the frost, although the daily average temperature has been four degrees below the normal during the past seven days, and the frosts extended as far south as the Pecos valley, but doing little damage.

A Roswell dispatch of May 9th says: Brakeman W. A. Gossett met with a railroad accident last night at Eldora in which one of his legs was cut off. Hopes are entertained for his recovery.

At Las Vegas on the 12th inst. James Scott of Raton was found guilty of making and uttering counterfeit coin, whereupon his partner, Robert Stanley, pleaded guilty. The crime was committed in Raton.

The annual commencement exercises of the University of New Mexico were held at Albuquerque May 12th in the Elks theater. Chancellor E. Benjamin Andrews of the University of Nebraska, delivered the baccalaureate address to a class of twelve graduates, one of whom, Thomas Bell, secured a Rhodes scholarship. The last year of the university has been the most successful in the history of that institution.

J. T. Wayne, a rancher of Baer Springs, eighty-five miles west of Roswell, visited that city a few days ago riding a five-footed horse. In spite of the unnatural leg the horse is a good saddle animal and is fleet footed. The horse was raised in the mountain country west of Roswell and is six years old. The extra foot has grown out on the right fore leg and protrudes on the inside. The fifth foot is perfectly formed.

In the fourth annual territorial track and field meet at Albuquerque May 10th, in which teams from all the educational institutions in the territory participated, the College of Agriculture and Mechanic Arts at Las Cruces carried off the honors, scoring 66 out of 108 points. Several records were broken. The winners retain the silver cup permanently, having held it for two years in succession. The meet was largely attended and the most successful ever held.

A Roswell dispatch of May 10th says: The new passenger automobiles arrived here to-day and a daily passenger line will be established between here and Torrance, a distance of 100 miles, connecting with the Rock Island, Santa Fe Central and El Paso & Northeastern; also a daily line between here and Artesia, a distance of forty miles. The "Gray Devil" and "Red Demon" are machines of twenty-four horse-power. The company will be known as the Roswell Automobile Company.

Mrs. J. L. La Driere, wife of a prominent architect of Albuquerque, was taken to the territorial asylum at Las Vegas on the 10th inst. The unfortunate woman had been out of a private sanitarium at Battle Creek, Michigan, about a year and was supposed to be cured, but she became violently insane suddenly. She is the mother of four bright children and her affliction is deeply deplored as she was one of the leading women of the city, being a member of several prominent clubs and church societies.

The resignation of William C. Barnes of Las Vegas, as a member of the cattle sanitary board, was recently accepted by Governor Otero, and William C. McDonald of Carizozo, Lincoln county, was appointed to succeed him. Mr. Barnes will remain secretary.

Incorporation papers have been filed at Santa Fe by the Burro Chief Copper Company, the incorporators and directors being Thomas S. Parker, Catherine J. Parker and Arthur S. Goodall of Silver City, which is the headquarters of the company. The capital stock is \$100,000.

Summer Normal School.

If the work of the summer session of the Normal University at Las Vegas is carried out in accordance with the bulletin that has just appeared announcing the program of studies, teachers and students generally will find the summer school interesting and profitable. This enterprising institution is taking hold of the educational situation in New Mexico in a manner that is sure to bring success. The faculty of the summer session will consist of six members from the faculty of the regular session, and it is their purpose to meet the needs of the greatest possible number of teachers and others. The session will begin June 19th and continue eight weeks, closing August 11th. Tuition will be entirely free. Classes will be formed in all branches required for any grade of teacher's certificate. Special advantages are offered those desiring certain lines of work. For example, those who wish to take out a first grade certificate will have an opportunity to take algebra, botany, zoology and advanced pedagogy. According to President Vert's view of the matter, even eight weeks constitute too short a period in which to make perceptible progress in these branches with only one recitation a day. Accordingly, those pursuing these branches will have an opportunity to take two recitations a day in any two of these studies, thus being able to do sixteen weeks' work in eight weeks.

This feature of the summer work of the Normal will commend itself to a large number of prospective teachers who recognize the fact that the county institute, which is in session only two weeks, affords practically no opportunity to prepare for this grade of certificate. At best, nine or ten recitations in such branches must be considered, from the viewpoint of thorough education, as chiefly a farce.

No less important is another feature of the work of the summer session, namely, the wide range of subjects in the theory of the art of teaching. There will be three classes a day in pedagogy in which the aim will be to lead the student to a general knowledge of the problems involved in teaching and managing a school. In addition to these, however, there will be an observation class and several classes in method of teaching one of the common branches. The observation class will consist of primary children under the instruction of one of the model teachers of the training school. The students enrolled in the summer session will have an opportunity to observe this work, and at the close of each day's session what was observed will be carefully reviewed and discussed by the teacher in charge, thus making the instruction concrete and directly helpful.

The advantages offered those expecting to teach in rural and small town schools are quite as great as those open to others. Several classes will be organized in each of the common branches and the method of instruction and the character of the work covered will be adapted to the needs of the teachers of these schools.

The bulletin is very explicit in every particular and makes it clear that the Normal University is sparing no effort to cover the whole field of preparation of teachers for the public schools, including the city, town and rural district.—Santa Fe New Mexican.

Inspecting the Forts.

Lieut. Gen. Adna R. Chaffee, chief of staff of the United States army; Gen. C. F. Humphrey, quartermaster general, and Capt. Grote Hutcheson of the general staff, were at Albuquerque May 11th, en route to Fort Riley, Kansas. General Chaffee has just completed a tour of inspection of the military posts of the Southwest and said: "Our tour has taken us to Whipple Barracks, Fort Bayard, Fort Bliss and Fort Wingate, and at every place we found the posts in splendid condition. At all I shall recommend improvements. At Fort Wingate a railway between Wingate station on the Santa Fe and the fort, ten miles distant, will be constructed at once at a cost of probably \$100,000. This will do away with heavy expense of freighting supplies overland to the military post."

New County Seat.

An Albuquerque dispatch of May 6th says: The people of Bernalillo, eighteen miles above this city on the Santa Fe railroad, are rejecting over the fact that that town, according to a recent legislative act, to-day became the county seat of Sandoval county. Since the creation of Sandoval county by the Legislature two years ago, the town of Los Corrales has been the county seat. It is located off the railroad. Tonight Bernalillo is celebrating with a ball, bonfires and red fire.

ONE DAY'S TORNADES

MANY SECTIONS ARE VISITED

Kansas Towns Suffer Severely—Destruction and Loss of Life at Mount Pleasant, Texas.

Valley Falls, Kans., May 14.—A tornado here at 5:30 yesterday afternoon did much damage to property. The German Evangelical church, five dwelling houses and many farm buildings were destroyed. The residence of Jesse Freeland was among the buildings destroyed. Mrs. Freeland and two of her children were injured, but not fatally. The tornado later struck Nortonville, but nobody was seriously injured.

McPherson, Kan., May 14.—A small tornado struck the residence part of McPherson yesterday afternoon, demolishing several small buildings. At the same time another tornado was seen northwest of the city. It damaged farmhouses. On account of the rural telephone lines being put out of business, the full extent of the damage could not be learned.

Mayetta, Kan., May 14.—A school house was demolished and ten farm houses more or less damaged by a tornado that visited this place yesterday afternoon. The telephone lines were broken by the wind and no particulars can be obtained of damage north of here. The tornado lifted a mile north of this city and went northeast, tearing off the tops of trees.

Topeka, Kan., May 14.—A tornado yesterday afternoon at Alta Vista unroofed a number of houses and did considerable other damage. The storm crossed the Rock Island track only a few hundred feet ahead of the Golden State Limited, which was going at full speed. A number of telegraph poles were blown down.

Salina, Kan., May 14.—A small tornado struck yesterday afternoon at Lindsborg wrecking two residences and numerous barns and outbuildings. The two daughters of J. O. Orndorff were hurt in the destruction of their home, but will recover. These young women were at Marquette, thirteen miles distant, Monday night, when a tornado destroyed part of that town, killing thirty persons, and they had a narrow escape.

Junction City, Kan., May 14.—An inch of rain fell here yesterday, causing more or less damage. In the southeastern part of the county a small tornado wrecked several small buildings and damaged fruit. As far as known no one was injured.

Mount Pleasant, Texas, May 13.—A terrific tornado passed two and one-half miles southeast of here this afternoon. One person was killed and many were injured. The tornado first struck the earth at a point southwest of the city, and for a few moments it appeared as if the town would be destroyed, but the twisting funnel turned in an almost easterly direction and after proceeding a mile, went to the east. The path of the tornado was half a mile wide, and the country for three miles was cleared of every residence, barn and fence.

Mrs. Gerald was killed. The fatally injured are: Two sons of Mrs. Gerald, Mrs. A. T. McDowell, J. L. Suggs, Mrs. Luther Tabb.

FORT COLLINS TRAGEDY.

Robert Miller Resists Arrest and is Shot by City Marshal.

Denver, May 14.—A News special from Fort Collins last night says: Robert Miller, proprietor of the City Bottling Works, while resisting arrest was shot and instantly killed this afternoon by City Marshal William M. Richart.

Mr. Richart was given two warrants this afternoon against Miller, one a charge of selling liquor and the other keeping a disorderly house. Mr. Richart asked Deputy Sheriff Whitaker and Mike Meredith to accompany him and assist in case of trouble. The three entered the bottling works, on North College avenue, shortly after 4 o'clock. Richart stated his business and inquired for Miller. Miller was in a rear room, and came to meet the marshal. The warrant for selling liquor was read to him and accepted. Miller then announced his intention of going with the marshal and securing bail.

Mr. Richart, however, pulled a second warrant out of his pocket, and told Miller that he had another warrant charging him with keeping a disorderly house, and that it was his duty to search the place for liquor. Miller refused to allow the search to proceed, and stated that while willing to be arrested on the charge of selling liquor, that his establishment should not be searched.

Marshal Richart then started behind the counter for the purpose of securing bottles supposed to contain certain liquor, and was struck in the face by Miller with his fist. Richart drew his revolver and said: "Now, Mr. Miller, I am here as an officer, and as such it is my duty to search this house, and I will do so, but you must stop this funny business as I want no trouble."

Miller, who, while an aged man, was remarkably quick, seized a beer bottle and struck Richart across the brow, inflicting a deep gash three inches long. He struck at him a second time, missed as Richart staggered back, missed as Richart staggered back, missed as Richart staggered back, missed as Richart staggered back, missed as Richart staggered back.

Will Richart was recently elected city marshal in a remarkably hot campaign between the license and anti-license parties. He ran independent of either party, and was elected by a vote of three to one. He has for several years been a deputy sheriff, and is regarded as one of the best officers the county ever had. No one regrets the shooting more than he.

Robert Miller came to Fort Collins about twenty-five years ago, and has for twenty years been in the bottling business. He made no secret of selling liquor, and was fined several times for the offense in the District Court. About eight years ago he was convicted of selling liquor and fined \$1,200 by Judge Bouton, and the fine was suspended during good behavior. Fourteen indictments were recently given against Miller, and the warrant issued to-day leading to his arrest and death was the result.

WEATHER FORECASTS

LONG RANGE PREDICTIONS DOLE

No Legitimate Basis for Estimates Based on the Moon's Phases or Position of the Planets.

The chief of the Weather Bureau has recently placed before the public a pamphlet entitled Long Range Weather Forecasts, by Prof. E. B. Garriott, that is full of interesting things to one who is a seeker after the truth regarding these delusions. A great many things in it are worthy of further publication but we wish, at this time, simply to give its conclusions:

1. That systems of long range weather forecasting that depend upon planetary meteorology; moon phases, cycles, positions, or movements; stellar influences, or star divinations; indications afforded by observations of animals, birds, and plants, and estimates based upon days, months, seasons, and years have no legitimate basis.

2. That meteorologists have made exhaustive examinations and comparisons for the purpose of associating the weather with the various phases and positions of the moon in an earnest endeavor to make advances in the science along the line of practical forecasting, and have found that while the moon, and perhaps the planets, exert some influence upon atmospheric tides, the influence is too slight and obscure to justify a consideration of lunar and planetary effects in the actual work of weather forecasting.

3. That the stars have no appreciable influence upon the weather.

4. That animals, birds, and plants show by their condition the character of past weather, and by their actions the influence of present weather and the character of weather changes that may occur within a few hours.

5. That the weather of days, months, seasons, and years affords no indications of future weather further than showing present abnormal conditions that the future may adjust.

6. That six and seven-day weather periods are too ill-defined and irregular to be applicable to the actual work of forecasting.

7. That advances in the period and accuracy of weather forecasts depend upon a more exact study and understanding of atmospheric pressure over great areas and a determination of the influences, probably solar, that are responsible for normal and abnormal distributions of atmospheric pressure over the earth's surface.

8. That meteorologists are not antagonistic to honest, well directed efforts to solve the problem of long range forecasting; that, on the contrary, they encourage all work in this field and condemn only those who, for notoriety or profit or through misguided zeal and unwarranted assumptions, bring the science of meteorology into disrepute.

9. That meteorologists appreciate the importance to the world at large of advances in the period of forecasting and are inclined to believe that the twentieth century will mark the beginning of another period in meteorological science.

Very Moderate Wages.

An advertiser in the Wimbledon (Eng.) Gazette wants "a lad about twenty; must be a churchman, of good education, who can drive a horse and cart, assist in the stable and garden (melons and cucumbers), milk cows and understand pigs; must be accustomed to wait at table and of gentlemanly appearance; early riser and teetotaler; good references required." The wage of this person is to be \$50 a year, but he must lodge out and furnish his own meals, except dinner.

Opening of the Uintah Indian Reservation.

The Uintah Indian Reservation in Utah, containing 2,425,000 acres of arable land, to be opened up for settlement on September 1, 1905, is described in a pamphlet just issued by the passenger department of the Denver & Rio Grande Railroad company. A valuable map, showing the country to be opened up and the various routes by which it can be reached, is published for the first time in this pamphlet, which may be obtained by addressing General Passenger Agent S. K. Hooper at Denver.

The biscuits mother used to make.

Their virtues, we can never doubt them; And yet we can't forget the things That father used to say about them.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 3/4-pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 oz." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

The Extreme Penalty.

Justice David J. Brewer made an address not long ago at Haverford. After the address there was an informal little reception, and very interesting it was to hear the justice talk.

A Haverford boy said to the learned man during the lull in conversation: "Will you please tell me, sir, what is the extreme penalty for bigamy?" Justice Brewer smiled and answered: "Two mothers-in-law."

If you would make your money last you must earn it first.

"He who takes wot isn't his'n. Wen he's cotched must go to prison."

## LIEUTENANT BOWMAN.

## IN FORTY-EIGHT HOURS PE-RU-NA CURED HIM.

### Cold Affected Head and Throat—Attack Was Severe.

Chas. W. Bowman, 1st Lieut. and Adj. 4th M. S. M. Cav., writes from Lanham, Md., as follows:

"Though somewhat averse to patent medicines, and still more averse to becoming a professional affidavit man, it seems only a plain duty in the present instance to add my experience to the columns already written concerning the curative powers of Peruna.

"I have been particularly benefited by its use for colds in the head and throat. I have been able to fully cure myself of a most severe attack in forty-eight hours by its use according to directions. I use it as a preventive whenever threatened with an attack.

"Members of my family also use it for like ailments. We are recommending it to our friends."—C. W. Bowman.

### Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. It can be used any length of time without acquiring a drug habit.

No woman can reform a husband by the continuous lecture process.

## TEA

Tasting tea is a whole occupation; coffee another. The taster picks-out your tea and puts the price on it.

In every package of Schilling's Best Tea is a booklet: How to Make Good Tea.

The young man parts his hair, but the bald man has parted from his.

## NATURE'S ESSENCE.

Extracted From Forest Plants

Nature's laws are perfect if we obey them, but disease follows disobedience. So straight to nature for the cure, to the forest; there are mysteries here that we can fathom for you. Take the bark of the wild-cherry tree, the root of mandrake, stone root, queen's root, bloodroot and golden seal, make a scientific, non-alcoholic extract of them with just the right proportions and you have Doctor Pierce's Golden Medical Discovery. It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this vegetable extract and alterative of the greatest efficiency.

Just the sort of spring remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of PUBLIC APPROVAL and has sold more largely in the past forty years than any other blood purifier and stomach tonic. The refreshing influence of this extract is like Nature's influence—the blood is bathed in the tonic which gives life to the blood—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated during the winter. Doctor R. V. Pierce, the founder of the Invalids' Hotel and Surgical Institute, and a physician of large experience and practice, was the first to make up an alterative extract of roots, herbs and barks, WITHOUT A PARTICLE OF ALCOHOL OR NARCOTICS, which purifies the blood and tones up the stomach and the entire system in Nature's own way. The Golden Medical Discovery is just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the constitution the stomach is apt to be "out of kilter" after a long, hard winter; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. If you take this NATURAL BLOOD PURIFIER AND TONIC you will assist your system in manufacturing each day a pint of rich, arterial blood, that is stimulating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue." Dr. Pierce's Golden Medical Discovery cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. Dr. Pierce's Golden Medical Discovery STANDS ALONE as the one medicine for stomach, liver and blood disorders that has the ingredients printed upon the wrapper of every bottle leaving the great laboratory at Buffalo, N. Y., which cure in nature's own way; not only does it STAND ALONE in respect to its ingredients but also as the only spring tonic and reconstructive which absolutely contains no alcohol.

"I was taken with a severe cough, weakness in my back, a 'glimmer' over the eyes, had a bad breath and stomach was out of order," writes H. Gaddis, of 1425 South Tanna Avenue, Tacoma, Wash. "I felt sluggish, did not care for anything, had no life, it was almost misery to move, appetite very poor. I read Dr. Pierce's Common Sense Medical Adviser and went right away and purchased two bottles of his 'Golden Medical Discovery,' and before I had taken all of one bottle I felt better. If any doubt the truth of this testimonial they may write to me."

## VERY RICH PEOPLE.

### Estimate of the Wealth of American Multi-Millionaires.

Henry Clews has made an estimate of the wealth of a number of millionaire capitalists of the United States, in which he places John D. Rockefeller first and Andrew Carnegie second. This is the table he has formulated:

John D. Rockefeller, \$500,000,000; Andrew Carnegie, \$115,000,000 given away, leaving \$250,000,000; William Waldorf Astor, chiefly in real estate, \$200,000,000; John Jacob Astor, \$175,000,000; Gould family, of which George Gould's personal fortune represents \$55,000,000, \$150,000,000; Marshall Field, \$100,000,000; Blair estate, \$100,000,000; W. K. Vanderbilt, \$80,000,000; Russell Sage, \$80,000,000; D. O. Mills, \$75,000,000; William Rockefeller, \$75,000,000; J. Pierpont Morgan, \$60,000,000; James J. Hill, \$60,000,000; Henry H. Rogers, \$50,000,000; Henry Phelps, \$45,000,000; John D. Archibald, \$40,000,000; James B. Haggin, \$40,000,000; James Henry Smith, \$35,000,000; W. H. Tilford, \$20,000,000; James Stillman, \$15,000,000; George F. Baker, \$15,000,000.

Mr. Clews admits that his list is by no means complete, but says that it undoubtedly contains the names of the very richest men in the country.

Prominent among the well known capitalists who are not included are the members of the so-called Rock Island "crowd"—William H. and J. H. Moore and D. G. Reid and W. B. Leeds—nor does the name of Senator W. A. Clark, Henry C. Frick, John W. Gates, Norman B. Ream, the William C. Whitney estate, P. A. B. Widener, the younger Vanderbilts, Mrs. Hettie Green, nor any of the other notably rich women of the country.

### New York's Building Boom.

With plans for new building valued at more than \$2,000,000 filed April 26th, all records of the kind for New York City were broken except in a few instances, when plans for a great hotel or office building were recorded. Of the same mentioned the most expensive building reaches the figure of only \$300,000, and the plans include twenty-two six-story brick apartment houses and tenements.

So far this year plans have been recorded in Manhattan alone for 645 buildings, valued at \$33,732,732. A year ago at the corresponding time plans had been filed for only 343 buildings, valued at \$18,677,010.

## GIRLS CAUSE TROUBLE HELD UP THE SHERIFF

### MEMBERS OF THE BOARD RESIGN

Disagreement in Regard to Colorado Industrial School for Girls—Expected Change of Management.

Denver, May 16.—Following is the Republican's version of the Industrial School difficulties:

All of the five members of the board of control of the State Industrial School for Girls have resigned, not just three of them as stated yesterday. The resignations have been in the hands of the governor for the last week and he will appoint a new board to reorganize the work at that institution.

The members of the present board are Mrs. Martha Taft, Mrs. J. B. Hunter, Mrs. Harriett G. R. Wright, Robert M. Golder, all of this city, and Dr. Josephine Peavy of Colorado Springs. The dissolution of the board is the result of abolishing corporal punishment, as stated yesterday, and the trouble has been brewing for some time. Mrs. Taft, Mr. Golder and Dr. Peavy are a majority of the board and they are opposed to inflicting corporal punishment. Miss Emma Page is the superintendent and she is a disciple of Solomon, whose wisdom was interpreted by the Indiana pedagogue when he said: "No leikin, no learkin." The minority of the board, composed of Mrs. Hunter and Mrs. Wright, sides with the matron.

Starting with this disagreement, the trouble grew until, it is said, one member at least went around peddling scandalous tales about other members. The majority have been ready to resign for some time, and have an entirely new head, but it has been impossible to budget the minority. Governor McDonald was able to use some sort of hypnotic influence and finally secured the resignations.

Since corporal punishment has been abolished, it is alleged, there has been lax discipline at the institution, as well as numerous escapes, and it is charged by the majority that the matron takes that way of demonstrating that the place cannot be properly conducted without plenty of whipping.

The law requires that there be three women on the board, and how Governor McDonald will make it up is a problem. It has been suggested that he name a board which will agree to put the management of the school practically under the direction of Dr. Paddelford, the superintendent of the boys' school at Golden. Dr. Paddelford has made such a fine record in the work that a competent matron working under his supervision would, it is argued, make a success of the girls' institution.

### Fighting Moro Outlaw.

Manila, May 16.—Fierce fighting has been going on the last two weeks on the island of Jolo between the outlaw Moro chief, Pala, with 600 well-armed followers, and troops under the personal command of Maj. Gen. Leonard Wood. Pala's losses thus far are 300 killed, while those of General Wood are seven killed and nineteen wounded. Pala and his remaining followers, in accordance with Moro tradition, prefer death to capture.

General Wood, with detachments from the Fourteenth cavalry, the Seventeenth, Twenty-second, Twenty-third infantry, and constabulary scouts, and driven Pala and his followers into a swamp which has been surrounded.

Pala was a noted slave trader and warrior when the Americans occupied the islands. Later he escaped with his followers to the island of Pala Sekar, near Borneo. One of Pala's leaders deserted and took refuge in the British settlement at Lahad. Pala, discovering his whereabouts, landed with a following and demanded of the British magistrate that he turn the deserter over to him. The demand was not complied with and Pala ordered a massacre. Twenty-five persons, including several British, were killed. Pala escaped to the island of Jolo and organized the present uprising. It is reported that the Borneo authorities requested General Wood to apprehend Pala, dead or alive, and turn him over to them.

### Drunken Man Runs Amuck.

San Diego, Cal., May 16.—Armed with rifle, revolver and dirk, each of which he used with deadly dexterity, a madman ran amuck in this city yesterday, killing two men, a boy and a woman, wounding two other persons, and finally blowing off the top of his own head and dying within a few minutes. Three of the victims lived in the same house with the slayer. The fourth person whom he killed and the two who were wounded resided half a mile away, and in their house that the maniac took his own life.

The man who enacted this ghastly tragedy was W. P. Robinson, about forty years of age, of powerful build and some education. The precise causes which led him to wholesale murder may never be ascertained. It is known, however, that he was a heavy drinker, that he was intensely interested in the Nihilist movement in Russia and that against two or three of his victims he fancied that he had some petty grievance. On the other hand, he is said to have been ordinarily a good-natured man and inclined to be generous—one of the last persons likely to take life. The general supposition is that drink and brooding over Nihilism brought on an attack of homicidal mania.

### Southern Baptists for Union.

Kansas City, Mo., May 16.—One of the last acts of the fifteenth annual gathering of the Southern Baptist convention, which adjourned sine die last night, was the adoption of a resolution instructing its officers to represent it in the convention of Northern Baptists at St. Louis, "with a view of closer fellowship." The convention, which begins at St. Louis to-day, will be the first joint gathering of these two bodies, representing the Baptist churches of the North and South, ever held.

It will, it is said, be the greatest gathering of Baptists that has ever met in this country.

### BOLD CRIPPLE CREEK OUTLAWS

Sheriff Bell and Deputy Held at Point of Revolvers Until Aid Comes.

Denver, May 16.—A Republican special from Cripple Creek last night says:

James Warford, Walter Kenley and John Chapman, three men recently discharged from the county jail, held up the sheriff and his deputy, Thomas Underwood, about midway between the county jail and the sheriff's office at 11:30 o'clock this morning.

Sheriff Bell had ordered the arrest of Chapman for carrying concealed weapons. The sheriff took a revolver from him and ordered Deputy Underwood to take him to jail. On the way the man drew another weapon, turned on the deputy, and told him to throw up his hands. Sheriff Bell went to see what was the trouble, when he was held up by James Warford. Warford is the man who shot and instantly killed Chris Miller and the Liebo, two Western Federation leaders, at the polling place in Goldfield, November 8th. Kenley is said to have been a former partner of Tom Horn.

With the officers covered, the three men marched them toward the county jail, telling them they wanted the guns that were taken from them. They changed their minds, however, and backed away, keeping the officers covered. They passed up Bennett avenue and started toward Anaconda.

Within a few minutes a posse had been formed and went in search of them. They were located near the Gold Bond property, and after a shot or two had been fired in the air, they were ordered to throw up their hands. Kenley returned the fire, standing in the open, but Warford stumbled and fell down a steep hill, nearly cracking his skull.

Seeing that they were surrounded, they threw up their hands and surrendered, but not until Underwood, who arrested Kenley, had hit the latter over the head with a gun. When told that he ought to be killed, he remarked to the sheriff:

"It's up to you."

Three revolvers were taken from Warford and two each from the other two men. They were brought back to the city and taken to the county jail, surrounded by a strong force of deputies. Had any of the posse been injured, this trio of desperadoes undoubtedly would have met summary vengeance.

Warford and Kenley were released recently from the county jail. Warford was tried on a charge of murder, but the jury disagreed and the case was dismissed. Chapman and Kenley were charged with robbing an assay office, but it was believed impossible to convict them, also.

Thomas Scanlan, a partner of Chapman and Kenley, was sentenced by Judge Seeds to-day to ten months in the county jail, to pay a fine of \$500 and to stand committed until the fine is paid. Scanlan was convicted of a brutal assault upon C. F. Perkins in Victor last October.

A charge of resisting an officer and assault with intent to kill will be placed against the trio and there will be no delay in bringing them to trial.

### Building Gift Increased.

Denver, Colo., May 16.—Simon Guggenheim has doubled his recent gift to the State School of Mines by approving plans for a building which will cost approximately \$100,000. A telegram to this effect was received by President Victor Alderson yesterday, and read in the class rooms amid wild cheers of delight from the students.

A short time ago Mr. Guggenheim, out of gratitude for the birth of a son and heir, made a gift to the school of \$50,000. This money, it was stipulated, was to be used in the erection of a building in honor of his baby. The design and plans for a building were left entirely to the board of trustees. The board has had a plan drawn, but it was found that according to this plan the building would cost nearly \$100,000.

The plan was forwarded to Mr. Guggenheim in New York City. The telegram yesterday stated that it was perfectly satisfactory, and that the donor would stand good for the increase in cost.

The new building will be known as Guggenheim hall. It will be two stories and basement, with a tile mansard roof. In a tower on the center will be placed a large clock that can be seen all over the grounds.

### Twenty New Dentists.

Denver, May 16.—At the commencement of the class of 1905 of the Colorado College of Dental Surgery of the University of Denver, held last night at Trinity M. E. church, twenty graduates received the degree of doctor of dental surgery and to-day are full-fledged practitioners. The principal address of the evening was delivered by James H. Pershing, Dr. W. T. Chambers, dean of the college, gave an address to the class on the "Nobility of the Dental Profession." The degree D. D. S. was conferred upon the graduates by Chancellor Henry A. Buchtel, and Dr. A. L. Whitney, secretary of the college, awarded the prizes for the best scholarship.

The first prize, \$20 in gold, was awarded to V. W. Laughlin for the highest general average in the senior class, and second prize, a fine set of dental instruments, was given to C. A. Monroe for excellence in operative dentistry.

### Garcia Wins Contest.

Denver, Colo., May 16.—A Trinidad dispatch says: Eugene Garcia is the legally elected clerk of Las Animas county. Judge R. R. Ross has so decided in the County Court in the contest case brought by Garcia against J. U. Vigil, who has been holding the office.

The opinion holds that the election in the Fourth ward was illegal; that the Republican judge was absent from his post of duty; illiterates not sworn were improperly assisted, the returns were illegally made, and unsworn and unauthorized persons were allowed to act as clerks.

### English Motor Vehicles.

Motor vehicles for carrying or hauling heavy loads are now so much used in England that their operation is closely guarded by government supervision. United States Consul Mahlin at Nottingham has made a report on the subject. "Hitherto," says he, "the legal weight limit of an empty motor car has been three tons. Now it is raised to five, with an increase in the legal joint weight (unladen) of a motor car and trailer from four to six tons. Heretofore there has been no legal weight limit to the load on a motor car, but the new regulations aim to prevent excessive loading. The total weight of car and load is limited to twelve tons. The weight borne on any axle shall not exceed eight tons."

### The Homeless of London.

A census of the homeless of London, made on a recent night, revealed a total of 2,481 in the streets, on staircases and under arches. Of these, 2,169 were men and 312 women. In the common lodging houses and shelters that night there were 26,690 persons, of whom 21,254 were single men, 1,688 single women, 357 married couples and thirty-four children under ten years of age.

### Were Good for Both.

Pauiding, Miss., May 15th.—(Special)—In this neighborhood men and women alike are telling of the great benefit they have received from the use of Dodd's Kidney Pills and it frequently happens they are the means of curing members of both sexes in the same family. Take the case of Mr. and Mrs. F. Erby. The latter voices the sentiment of both when she says:

"My lips cannot express too much praise for Dodd's Kidney Pills. I suffered with Backache and Female weakness for four or five years and I feel that I have been wonderfully helped by Dodd's Kidney Pills. My husband, too, was a sufferer for five years from a weak bladder and they also cured him."

Dodd's Kidney Pills make healthy kidneys. Healthy kidneys mean pure blood and good health all over the body. No woman with healthy kidneys ever had female weakness.

Teacher—Johnnie, can you give us a sentence including the words, "bitter end?" Johnnie—Our cat ran under the porch and the dog bit 'er end.

### QUICK RESULTS.

W. J. Hill, of Concord, N. C., Justice of the Peace, says: "Dodd's Kidney Pills proved a very efficient remedy in my case. I used them for disordered kidneys and backache, from which I had experienced a great deal of trouble and pain. The kidney secretions were very irregular, dark colored and full of sediment. The Pills cleared it all up and I have not had an ache in my back since taking the last dose. My health generally is improved a great deal."

FOSTER-MILBURN CO., Buffalo, N. Y. For sale by all dealers, price 50 cents per box.

The amputated leg of a Denver man has started to grow again, and the Denver Post man asks, "What do you think of that?" Frankly, we think it's a lie.—Washington Post.

## TEA

There's plenty of money to smooth the little difficulties that happen; they do happen.

Your grocer returns your money if you don't like Schilling's Best.

Father—You must consider every penny. College Boy—I will; here are twelve letters asking for money; you can take them now and save the postage.

"Dr. David Kennedy's Favorite Kennedy" says my life! I had dyspepsia and kidney disease. Dr. Kennedy's Favorite Kennedy, Park Place, N. Y. \$1 a bottle.

Many a fellow sidesteps a banana skin only to be tripped up on a lie.

### When Your Grocer Says

he does not have Defiance Starch, you may be sure he is afraid to keep it until his stock of 12 oz. packages are sold. Defiance Starch is not only better than any other Cold Water Starch, but contains 16 oz. to the package and sells for same money as 12 oz. brands.

## Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you. How can he know, where it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how can you expect purity and uniform quality?

## LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get one full pound of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.)

(Save the Lion-heads for valuable premiums.)

### SOLD BY GROCERS EVERYWHERE

WOOLSON SPICE CO., Toledo, Ohio.

**PERSONAL MENTION.**

Jeese Sharp of the Clayton Coal Co. spent Sunday with his relatives out on the Tramparas;

Mrs. Iola Stillwell of Canadian, Texas; accompanied by Master Loren Boggs, passed through Clayton Monday enroute to the Cimarron valley to visit Denver Boggs and family

F. B. Drew and wife spent a couple of days in Clayton the first of the week.

Miss Ethel Guyer left Tuesday for Beaham on a visit to her sister. Mr. H. W. Patton of Woodward, Oklahoma is filling her place in the post office.

Wm. Robert, of Meade, Kansas is around among our stockmen buying cattle.

L. F. Enslay came in from Trinidad Monday night, and went out to his ranch Tuesday.

W. B. Stickney of Kansas City is in our midst buying cattle.

Mrs. Ralph Mann of El Paso Texas, is here on a visit to her parents, Mr. and Mrs. Knapp.

Leroy Lambert came in Saturday morning from San Francisco, California; and went out to the Tramparas to visit his mother, Mrs. Lou Sharp.

North Blanks, of the Eastern part of the county was in town Tuesday.

Chas. Sanford and Robert Miller of the Cieneguilla were in town Monday.

Paris Mansker of Dalhart, Texas was visiting Clyde Mann the first of the week.

Mrs. M. W. Easum, and little daughter, of Amarillo, Texas, came up last Sunday morning for a visit with husband and father, Mr. M. W. Easum who has charge of the plastering of the Sanitarium and addition to the hotel Eklund.

John King, of Folsom, was in Clayton Wednesday attending to business matters.

O. P. Easterwood and Bob White are out on the Cimarron this week.

Prof. Carnes was down to Dalhart last Saturday, on business.

J. M. Dean returned Monday, after accompanying his family to Lancaster, Texas. Jim says the country is flooded in that section crops of all kinds being considerably damaged, wheat and oats a total failure, streams reported higher than for forty years past, by old settlers.

Mr. Milligan and wife, from Garrett, Okla. were trading in Clayton Wednesday.

W. C. Snell, foreman of the X. L. ranch was in town Tuesday.

Dud and Tom Snyder's herd of steers arrived yesterday. They will hold east of town a few days waiting for a buyer.

Miss Clara McAlister, who has been conducting a series of services for the Saint's church at Kenton, passed through Clayton Wednesday enroute to her home at Grand Junction, Colo.

Nestor C. de Baca jr., son of Francisco de Baca, of the Tramparas, returned the first of the week from Pueblo, where he has been attending school.

Dr. Slack was called to Texline Wednesday to treat a wound in the foot of John Temple, caused by stepping on a rusty nail.

Fred Knapp from the Currumpas, was in after supplies Wednesday.

E. W. Clapp, of Lordsburg, N. M. grand chancellor of the K. of P. lodge of this Territory was visiting the lodge at Clayton Tuesday.

Mrs. Jas. Goode went to Folsom Saturday where she was summoned to the bedside of her husband who was ill. We hope to see Jim up and all O.K. again soon.

Simon Bitterman went to Trinidad yesterday.

Mrs. A. W. Thompson is, we are glad to state, slowly improving.

Chat Malm, of Kenton, was in the city yesterday.

Mrs. Van derwert has been quite ill but is improving.

Toba Pitts and wife were up from Texline to see the show Friday night.

Roy Eddy chaperoned a number of Texline bloods to see Rip Van Winkle last week.

Jack Harly is here in charge of a J. J. wagon waiting for a herd of steers to be delivered by the Bell Co. It looks natural, but uncommon of late, to see a cow outfit in Clayton, but rest assured we are glad to see them.

A. C. Thompson, and Bob Mansker, accompanied Athol Thompson who is in very poor health, to Pueblo, last Tuesday to place him in a private sanitarium.

Geo. Sparr accompanied the grand chancellor of the K. P. Lodge as far as Folsom, Wednesday. He then visited the lodge at Texline before returning home. George reports a jolly good time with the exception of the mode of transportation furnished.

**Local Briefs.**

Lay in your summer supply of coal while the Clayton Coal Co. is selling at \$5.50 per ton. Hasting Lump.

As election of school directors draws near the friends of G. L. Marsh are urging his candidacy. Mr. Marsh having all the qualifications necessary, besides having taught school a number of years would make a good director.

Roy Lackey had the misfortune to lose his fine Cleveland Bay stallion a few days ago. The horse's death was caused by a rattle snake bite.

Don't sell your products until you have asked for bids from the new firm of Floersheim Blackwell Co., for they are paying highest prices.

Stock trains on the C. & S. are plentiful these days, lots of stock going north.

Between here and the Currumpas a great many of the cattle are almost hairless with itch, scab or something else. It might be profitable for the stock owners to use a good preparation of hair restorative before the frosty nights of next winter begins.

The band boys have ordered nice uniforms and will be prepared to appear on the fourth of July in proper fitting.

Some of our sheepmen are elating a saving of ninety five per cent of the lambs. With prices elevated on sheep as at present this looks good.

Don't purchase your supplies until you have visited the new store of Floersheim Blackwell Co. who have succeeded the Lawrence Mercantile. They are offering good goods at inviting prices.

W. S. Potter has opened up a general real estate and live stock commission business in Clayton. You will do well by listing your property with him. When listing property be sure to give correct description and also prices. Prices will be kept private. Mr. Potter will keep his buggy and team here ready to drive out anywhere on short notice. He will keep a man in the office to transact all business in his absence.

Tom Gray returned Wednesday from Folsom where he has been to inspect some cattle that were being shipped, while there Tom gathered two cars of cattle that were in a wreck that occurred the first of the week a few miles above Folsom. Two stock cars containing eighty head of cattle went in to the ditch and only one cow killed, the balance all escaping through openings made by the smash up.

J. R. Gober, Amarillo, Texas; B. W. Patton, Woodward, O. T. W. H. Sinclair, Trinidad, Colo. H. T. Pockham, Beaver Okla. Duncan McDougal, Camp Sater; John Pugh, Camp Sater; W. E. Stickney, Kansas City; F. D. Drew and wife, Kenton, Okla. W. W. Schlecht, Washington D. C. were registered at the Hotel Eklund last Sunday.

Rev. B. F. Freeman requests us to announce that his regular appointments, first and third Sundays of each month at the Methodist church will be filled.

The Clayton public school will close next Friday.

A meeting of the citizens is called for a play night, at the court house, for the purpose of nominating a school director for this precinct. Meeting at 8 o'clock.

A woman and little boy arrived in town Tuesday, with music and song and proceeded to gather in the loose change. Clayton is O. K. when we have street fakers musicians, songsters & c. along with a weeks vaudeville, matinee & c.

We thought that little scoundrel "Cupid" had left these parts, but it seems he is back again and working over time. In these windy times it is hard to tell where his darts are hitting, but we have heard a couple of oh's go up as if the parties had been stricken with ophthalmia and we hear that some of them have been stricken with a change of heart.

A Guymon girl came up the street Tuesday dragging three flat irons for an anchor and was overheard softly singing: "Oh the wind the wicked wind, that blows our skirts knee high, but thanks to the blessed same old wind, it blows dust in the bad man's eye" —Guymon Herald.

Talk about hard times in Clayton, we noticed a man on the street last Monday selling \$5.00 bills for \$2.50 then cut them down to a dollar apiece, and it seemed that there were only about three men in the crowd that wanted to increase their per capita, at the poor fellows expense, but—did they? Men of ordinary intelligence to.

Rev. S. B. Culp, pastor of the Christian Church in Dalhart tendered his resignation last Sunday as pastor to take effect the First Sunday in August. He will attend the National convention of the Christian church in San Francisco California the last of August and spend September visiting relatives and friends in the East before locating with another church. —Dalhart Texan.

Under past and present conditions in New Mexico, the stock industry has been more or less a gamble; conditions that would lead to winter feeding would make it an industry with sure returns year after year and a much greater help toward prosperity.

**Notice**

Dr. Albert J. Caldwell, whose practice is limited to the Eye, Ear, Nose and Throat, will be in Clayton, May 24th and 25th, at the office of Dr. J. C. Slack.
