EXPLOSION EN MONTEREY.

De Monterey, nuevo Leon, con fecha reciente comunican lo siguiente:

"Arrojados á la eternidad en un parpadear, once empleados de los Ferrocarriles Nacionales de México, fueron víctimas de una terrible explosión en los patios locales á temprana hora de la mañana. Hay dos hombres, más, que, gravemente lesionados, se encuentran en estos momentos entre la vida y la muerte. Son los muertos: G. S. Monaghan, maquinista, Manuel Fernandez, mayordomo nocturno; Francisco Palacios, ayudante; Pedro Garza y Santiago Cárdenas, mecánicos; Agapito Martínez y Porfirio Padron, ayudantes; Juan Montes, ayudante de maquinista; dos hombres no identificados. Los lesionados gravemente, son Catarino Pérez y Manuel Hernández, inspector.

Se cree que los lesionados morirán también. Sobre pasadas de vapor, con una presión que no podía resistir, la caldera de la máquina, número 2758, cuya válvula de seguridad no quería funcionar, por estar ya vieja y en mal estado, hizo explosión despedazándose en millares de fragmentos, añadiendo una catástrofe horrible á la numerosa lista de desastres ferrocarrileros.

Ninguno de los que pudieran dar informe exacto de lo que sucedió antes de ocasionarse la explosión, vive ya, pero de los informes recogidos de fuentes diversas y más ó menos dignas de crédito, resulta que se habían hecho prevenciones, al salir la máquina de la casa redonda, donde sufrió las últimas reparaciones, de que estaba útil para servicio. Alimentado el fuego durante tres cuartos de hora, el manómetro marcaba apenas veinticinco libras de vapor cuando debía registrar doscientas.

Habría caminado la locomotora algunas docenas de yardas de la casa redonda, cuando el maquinista advirtió algún defecto en la válvula y el manómetro. La válvula de seguridad arrojaba una espesa nube de vapor y no manó braba con regularidad, por lo que el maquinista no atrevió á emprender con su tren la ruta hacia C. Victoria. Tratóse de arreglar la válvula y al intentar efectuarlo se sucedió la terrible explosión. El frente de la máquina, la caja del fuego y parte del tanque volaron en pedazos á distancia de más de cien pies, llevando consigo los cuerpos del maquinista y de una porción de hombres que habían venido de la casa redonda para ayudar en la reparación.

Al mismo tiempo la parte delantera de la máquina voló á igual distancia en dirección de la vía ocasionando la muerte de varios otros hombres. Hoy se ven tres montones de despojos en el lugar donde se efectuó la catástrofe: el primero lo forman los restos de la despedazada caldera y trozos de rieles arrancados de la vía; los otros dos son masas de hojas de acero, doblado en caprichosas formas irregulares. Estas hojas de acero, de media pulgada de espesor, están dobladas y ajadas como si fueran de pébil cartón.

UN CRIMINAL MONSTRUOSO.

Ultimamente se ha estado ventilando en la ciudad de Kansas la causa de un Dr. Hyde á quien se acusa de varios asesinatos tan perversos y tan desalmados que bien se puede creer que no podrían acontecer ni entre los pueblos más barbaros. Segun aparece, este doctor en el ejercicio de su profesión, mató á sus pacientes en lugar de curarlos, y demostró claramente el grado de barbarie á que puede conducir un hombre que carece de moralidad y religión y que es incapaz de sentir remordimientos ni abrigar escrúpulos de conciencia. Es probable que aún cuando sea convicto y hallado culpable de los crímenes de que le acusan, logrará escaparse de todo castigo y se burlará de la justicia humana, del mismo modo que por medio de sus actos se ha burlado durante su vida de la justicia divina.

EL PROF. DREWS Y LA VIDA DE JESUCRISTO.

"La controversia acerca de si positivamente existió alguna vez el Cristo bíblico, ha provocado una notable demostración de la fé Cristiana en Berlín.

El Domingo pasado, los principales agrupaciones protestantes, arreglaron una grande demostración en masa para protestar contra las heréticas opiniones del Prof. Drews. Horas antes de que principiase la sesión, el Circo Winter, donde tuvo lugar, estaba cercado por una multitud de veinte mil hombres y mujeres que á gritos pedían se les permitiera la entrada, logrando escabullirse al interior solamente 5,000 de ellos. Los demás se reunieron en sesión en las afueras del circo. Los predicadores, excitados sobre manera improvisaban arengas á las turbas. Al concluir, la turba multa se unió para cantar el famoso himno de Lutero "Ein feste Burg ist Unser Got," y luego, formando en procesión, marcharon á través del río hacia la catedral Real donde principiaron un nuevo coro de himnos.

Tan pronto como se dió fin á los servicios regulares, los manifestantes pidieron permiso á las autoridades de la catedral, para organizar un culto especial de gracias, por la gráfica evidencia de la firmeza de la fé, que evocaron los eventos del día. Las autoridades lo concedieron. En media de cinco minutos se llenó hasta el último rincón de la Abadía Westminster, de Berlín, quedando fuera diez mil fervidos creyentes. El Capellán del Emperador, Dr. Dryander, peroró un elocuente sermón, congratulando á la Iglesia y dando gracias á Dios por el frenético entusiasmo con que la capital del imperio se unía para rechazar las teorías de Drews.

Dícese que los directores de los templos se sorprendieron positivamente ante la magnitud y fervor de los manifestantes, y creen autorizados para estimar el hecho como una convincente prueba de que el Cristianismo y el temor en Dios tienen raíces profundas en los corazones de los alegres habitantes de Berlín. Las Autoridades religiosas juzgan que esta demostración en una piedra en la historia de la Iglesia de Berlín, que perlarán y alcanzará resultados en el lejano porvenir.

LA NEMESIS DE LOS MALOS OFICIALES.

Diariamente vienen reportes de varias de las ciudades populosas del oriente anunciando que los abusos y malversaciones de este ó aquel oficial público han salido á luz, á pesar de que muchos años ha estado trinchera en el puesto y que figuraba en primera línea como hombre de prominencia é influencia. Las diferentes ofensas de que han sido culpables durante los tiempos de su predominancia son muchas y muy variadas y denotan que la impunidad aunque dure mucho no dura para siempre, y que por fin se llega la hora y día en que tienen que pagarlas todas juntas. Esto enseña que los malos oficiales están expuestos á cada momento á que se descubran sus malos procederes para que sufran la vergüenza y el escarnio que tan ricamente han merecido. La justicia es la Nemesis que inevitablemente trae el castigo de la maldad.

ALZA EN LOS PRECIOS DE LANA.

Boston, Mass.—No hay mucho trato en el mercado local de lana, pero los precios han subido algo, pues los vendedores rehusan hacer más rebajas. La lana lavada bajó de precio y se cotiza en 37 centavos, y se pagan 31 y 32 centavos por lana encartada y la cuarterona vale de 29 y 30 centavos. Lana fina mediana de los 63 á 64 centavos cuando estaba cardada, y parte de la nueva trasquila de Arizona se vende á 60 centavos bajo el mismo pie. Los tratantes locales se están obteniendo de comprar lana en el oeste en la creencia de que los precios por la nueva trasquila tendrán presto merma.

MERMA EN POPULACION.

Un diario de Santa Fé, de fecha reciente, publica un artículo que nos parece muy bien fundado respecto á la merma en la población hispano-americana que ha ocurrido en aquella ciudad en los años últimos. Atribuye esa circunstancia al gran número de defunciones que casi uniformemente ocurren cada invierno, las cuales, dice, que exceden al número de nacimientos, y también á la circunstancia de que muchas personas, en particular jóvenes, se han ido á otros lugares donde pueden ganar la vida con más comodidad. Añade el citado periódico que la población americana en Santa Fé se ha duplicado durante igual período de tiempo. No hay razón para dudar de la exactitud de las opiniones que emite sobre el asunto, y esto se puede ver por lo que está sucediendo en todas partes del Territorio en ese mismo particular, lo cual viene á ser causa de que la población hispano-americana no muestre el aumento que debería mostrar. En primer lugar, cuando hacen treinta ó cuarenta años se pobló Colorado, una multitud de gente de la parte septentrional del Territorio y principalmente de los condados de Rio Arriba y Taos se fué á establecer allá causando una gran merma en la población normal de Nuevo México. Despues han ocurrido epidemias periódicas de viruela, difteria, fiebre escarlantina y otras enfermedades que han causado una mortandad espantosa entre los niños. Aún con tantas pérdidas la población hispano-americana en el Territorio ha tenido un aumento regular, mas no tan grande como podría haber sido sin las grandes rebajas de que hemos hecho mención. No hay duda que estas pérdidas podrían haber sido evitadas con un poco de cuidado y atención adecuada á los niños en sus enfermedades y por medio de precauciones para evitar que el contagio de las epidemias se propague, pero esto no se ha hecho en la mayoría de casos y las consecuencias han sido funestas. Por lo que respecta á Santa Fé y otras poblaciones del Territorio, es muy natural y hasta inevitable que cuando crece allí la población tenga que irse mucha gente á otras partes por no haber allí trabajos é industrias para darles ocupación lucrativa. Sin embargo, en lo general, ha habido aumento en la población hispano-americana y no hay razón para temer que vaya á menos porque si unas localidades han tenido rebaja otras han tenido aumento, particularmente en regiones recién pobladas.

CHASCO REGULAR PARA MUCHOS.

No solamente en las grandes ciudades que gastan humos de metropolitanas en las regiones más populosas de la Union, sino tambien en los pequeños villorios de Nuevo México que toman el aire y el nombre de ciudades, hay probabilidad de que el resultado del censo salga muy atrás de los reclamos que se hacen. En esto no se perderá mucho y aún se puede ganar algo desvaneciendo ilusiones y quimeras que tenían embargado el ánimo de muchos. Aunque indudablemente la mayoría de las poblaciones y plazas más populosas del Territorio no mostrarán el aumento anticipado, sin embargo, no cabe duda que el conjunto de la población en todo Nuevo México enseñará mucho adelanto sobre el censo de 1900. Esto está de manifiesto por el hecho de que el Territorio ha crecido mucho durante los diez años pasados, pudiendo como puede agregarse á la cifra de los habitantes los de muchas poblaciones y comunidades nuevas que no existían ni de nombre cuando se tomó el otro censo. A esto se puede agregar el aumento natural en los condados antiguos, que es regular en todos ellos y considerable en algunos. Teniendo esto en cuenta hay razón para confiar en que el total de población en el Territorio será tal que dará satisfacción plena en su resultado general, aún cuando en lo particular salgan chasqueadas algunas plazas.

NO SE PUEDE CONTENTAR A TODOS.

El nuevo gobernador, Hon. W. J. Mills, está justificando plenamente las esperanzas que su registro como juez superior y la buena opinión que se tenía de su carácter como ciudadano y como hombre público, habían inspirado al pueblo. En el puesto de ejecutivo del Territorio amigos y enemigos políticos no pueden menos que rendir tributo á su fidelidad y á su celo por el bien público y por la estricta observancia de las leyes que son la piedra fundamental de su administración. La opinión general es que el Gobernador Mills no solo concluirá como ha empezado, sino que será el candidato lógico del partido Republicano para gobernador cuando el territorio sea admitido como estado. Sin embargo, á pesar de todo esto, en negocio de la distribución del patronio oficial ha causado desagrado en ciertos lugares, no por culpa del Gobernador sino á causa de la imposibilidad de satisfacer muchas ambiciones, á la vez con uno ó dos empleos que hay á mano. Este disgusto será pasajero por la sencilla razón de que nadie se tomará el trabajo de aplicar y satisfacer á los disgustados, los cuales forzosamente tendrán que serenar su espíritu conturbado y resignarse á lo inevitable. Por lo que toca al pueblo, su deseo es que un gobernador obre conforme á los dictados de la equidad y de la justicia, y en este particular el Gobernador Mills está dando plena satisfacción.

HABRA CAMPO PARA ALGUNOS.

Cuando Nuevo México sea estado (y todo indica que no tardará mucho en serlo) los hombres que por su posición y calificación tienen derecho á aspirar con alguna posibilidad de obtener los altos puestos, no tendrán necesidad de dirigir todos

á la vez sus miras y sus ansias á mísera posición de delegado territorial, sino que aparte de todos los empleos de estado que serán electivos, contemplarán en tontanza dos posiciones de senador de los Estados Unidos y dos de diputado al Congreso, de manera que algunos estadistas podrán obtener buenas colocaciones. Naturalmente, los dos partidos políticos que militan en Nuevo México tendrán que entrar en competencia para adquirir estas posiciones, pero como ambos reclaman tener seguridad de la victoria, la incertidumbre del resultado no amengua en manera alguna lo codiciable del premio que se trata de alcanzar. Al fin de todo, los que ganen y vayan á representarnos en el Senado y Cámara serán ciudadanos de Nuevo México y seguramente procurarán hacer todo el bien posible á sus constituyentes. Aún más que eso, como serán cuatro en las dos cámaras, y tendrán cada uno su voto, de ahí resultará que serán consultados y atendidos mucho más de lo que á la fecha lo es un delegado territorial. Por ese lado el estado de Nuevo México tendrá una posición muy ventajosa y podrá meter mano en el erario nacional con amplitud y llaneza.

Nos comunican que la viruela en French, está extendiéndose de una manera muy alarmante en aquel lugar.

JUEVES 5 DE MAYO DE 1910.

La miel del estado está atrayendo moscas y moscones de dentro y fuera del territorio.

El caso misterioso de asesinato ocurrido en Santa Fé prueba que los muertos no hablan.

Nuevo México necesita algunos archi-millonarios de aquellos que tanta avaricia despiertan en el oriente.

La política está en descuento para todos aquellos que no han tenido oportunidad de sacar provecho de ella.

La milicia de Nuevo México se está disciplinando y estará lista para cuando venga la esperada guerra con el Japón.

Los hombres públicos que han sido pesados en la balanza y hallados faltos se hallan en la situación del león sin colmillos que ya no mete miedo a nadie.

Bienaventurados los que han hambre y sed de empleo si al triunfar su partido encuentran oportunidad favorable de obtener una buena colocación.

La convención constitucional de Nuevo México se aproxima, y es tan inevitable que no podrán impedirlos los enemigos más acérrimos del estado para Nuevo México.

Algunas de las plazas industriales y emprendedoras de Nuevo México no dormirán mientras se toma el censo sino que harán que rinda la población lo menos ciento por ciento.

Para mantener incólume la doctrina de Monroe los Estados Unidos tendrán en último término que sostener sangrientas guerras con Alemania y otras de las grandes potencias de Europa.

La tributación de honores regios al ex-presidente Roosevelt en Francia, Alemania y Austria demuestra que los extranjeros aceptan sin vacilar la valoración que hace de Roosevelt la gran mayoría de sus compatriotas.

Algunos estados de la Unión son tan afortunados en Nuevo México que han logrado establecer aquí colonias permanentes de empleados los cuales están tan aferrados a sus puestos que ni con palanca pueden ser removidos de ellos.

El nombramiento del Gobernador Hughes de Nueva York como juez de la Corte Suprema de los Estados Unidos, renueva de la arena presidencial a uno de los candidatos más formidables y populares del país para el puesto de Presidente.

Según se sabe hay muchos políticos en el Territorio que desean con vicia ansias que se aplique el pasaje de la ley de estado hasta el año que viene a fin de que pueda haber elección territorial en el presente año. Por supuesto sus móviles son desinteresados y patrióticos.

En opinión de muchos que han venido a residir a Nuevo México este es un mal país, inferior a todos los demás del mundo conocido. Esto no quita el que generalmente aquellos que se van del territorio a otras partes vengan al fin recordando a sus antiguos querencianos.

Ha muerto Mark Twain, el humorista americano, cuyo mérito ensalza hasta las nubes los literatos americanos. Sin embargo, los peritos en literatura opinan que vale más un capítulo de Cervantes que todas las obras juntas de Mark Twain, y agregan que este es muy inferior en mérito a Dickens, Thackeray y otros escritores ingleses.

La fecha que se señala para la terminación del canal de Panamá es el año de 1915, en cuya época se propone celebrar una gran exposición internacional en San Diego California, que será como el apogeo del regocijo inspirado por la terminación de tan grande obra.

Respecto a los buques aereos se reportan muchas hazañas maravillosas que diariamente están haciendo caminando por los aires, más también ocurren con frecuencia desastres que demuestran que todavía falta mucho para que el hombre pueda decir con verdad que tiene el dominio del aire.

Los ataques contra la tarifa proteccionista están muy en razón en ciertos puntos y muy fuera de ella en otros, pero al fin traerán una rebaja radical que disminuirá las ganancias de los fabricantes y monopolistas y que al mismo tiempo cerrará las fábricas y manufacturas y dejará sin ocupación a millares de hombre en todas partes de los Estados Unidos.

Desde tiempos inmemoriales los tejanos han pretendido ejercer una especie de soberanía sobre Nuevo México, y aun han tratado varias veces de conquistar el territorio por medio de las armas. A la fecha no han desistido todavía de su pretensión, pero están empleando otros medios menos ruidosos pero más efectivos para establecer su dominación.

El Hon. Antonio Joseph fué un hombre muy honrado, y como representante de Nuevo México en el Congreso jamás hizo traición a los intereses de sus constituyentes sino que les sirvió fielmente y de buena fe durante los diez años de su servicio congressional. Esto, y sus cualidades como ciudadano particular, constituyen su mejor título a la gratitud recordación del pueblo de Nuevo México.

Parece que el Presidente Taft y su administrador general de correos se proponen poner el servicio postal bajo las reglas del servicio civil, resultando que los estafeteros de tercera y cuarta clase no podrán ser nombrados si no haber pasado antes la debida examinación. En cuanto a los estafeteros de primera clase estos serán inamovibles y no podrán ser relevados del empleo mientras presten buen servicio.

Ahora se está abogando con mucha fuerza en pro de la enseñanza manual en las escuelas públicas. Esto nos parecería muy bien si se tratase de que tal enseñanza fuese dada en escuelas dedicadas exclusivamente a trabajos manuales, pero en lo que toca a las escuelas públicas no hay duda que esa mezcla resultaría en que los muchachos no aprendiesen a leer ni trabajar y en que perdiesen su tiempo, pues hay un adagio que dice que quien mucho abarca poco aprieta.

FASE NUEVA DE BRYAN.
Parece que el famoso agitador William Jennings Bryan, después de haber figurado de Demócrata, Platista, Populista y Campesino del Pueblo, ahora tiene en mira el proyecto de ponerse al amparo del Pabellón Prohibicionista y hacer nueva campaña como candidato presidencial de una nueva combinación que ostente como piedra fundamental de su programa la prohibición absoluta de la venta y fabricación de licores embriagantes. No hay para que decir que es un nuevo ardid del astuto político para reunir bajo una sola bandera al partido Demócrata, al Prohibicionista y a todas las agrupaciones dispersas que andan en busca de nuevas alianzas y combinaciones. Es posible que si sus planes fructifican Bryan podrá formar una agrupación formidable.

LE GUSTA DE PROFESION.
El viaje triunfal de Theodore Roosevelt a muchos de los puntos principales de Europa, donde ha sido recibido como igual por las reatas coronadas casi si en vez de ser un simple ciudadano americano fuese un príncipe de sangre real, demuestra el alto prestigio de que disfruta la gran República Americana en todas partes del mundo y principalmente entre las grandes potencias de Europa. Naturalmente Roosevelt está en sus glorias en medio de la pompa y ostentación que él hace el papel de la figura central. Góstate de profesión el gran ceremonial de las demostraciones públicas y preciso es confesar que los honores que recibe le convienen como al hombre más popular de los Estados Unidos, y uno que fué por siete años Presidente de la gran República. Así, pues, no tenemos reparo en agregar nuestros parabienes a los del mundo entero y diremos al grande hombre:

Ilustre señor Teodoro
Cuya fama no desdoro,
Pues que su eco sonoro
Se oprime donde quiera;
En su audacia inaudita
Gran admiración excita
Y de promesa precita
De que volverá al poder.

EL IMPERIO DEL LIBRO Y LA FIGURA DE LA MEMORIA
En el último congreso celebrado en Clermont Ferrand, la Asociación Francesa para el progreso de las ciencias han llamado especialmente la atención de dos trabajos, uno es el del profesor Paul Appell, de la Sorbona; el otro el del eminente químico y físico inglés, Sir William Ramsay.

El profesor Appell ha elegido como asunto de su trabajo, la enseñanza de las ciencias y la formación de la que puede llamarse espíritu científico.

Según este sabio, lo que se llama enseñanza integral, esto es, la sistematización de todos los conocimientos humanos a fin de que los alumnos alcancen éxitos brillantes tanto al obtener el grado de bachiller, como los diplomas universitarios adolece en Francia de gravísimos defectos puesto que tiende a desarrollar y fatigar la memoria y no a despertar la curiosidad científica, el placer puro y desinteresado de la investigación. Para el profesor Appell, el "hombre ciencia" no es el "hombre que sabe," sino el hombre que a sus conocimientos auna la actividad científica ó sea una curiosidad siempre alerta una paciencia infatigable y sobre todo iniciativa constante en la investigación de la verdad.

Y la enseñanza en Francia no está planteada en forma que desarrolle estas aptitudes.

El sistema de exámenes tal como se practica, constituye una prueba de memoria del alumno no un aforo, ni siquiera un sondeo de los conocimientos que posee realmente frutos de observación y de la experiencia.

El mal se extiende desde las escuelas de instrucción primaria hasta las más altas escuelas especiales y es de apremiante necesidad según M. Appell el comenzar a oponerse a esa tendencia.

La solución que propone el profesor Appell consiste en reorganizar por completo las universidades cambiando los métodos de enseñanza y en sustituir los dos ó tres últimos cursos que ahora pasan los liceos (institutos) por curso especial de preparación para entrar en una nueva clase de establecimiento entre instituto y la universidad. En estas nuevas escuelas se enseñará a los alumnos a estudiar a observar a experimentar, y según el trabajo que hagan durante todo el año, no por quince minutos de preguntas y respuestas, se podrán apreciar la capacidad y aptitudes de los alumnos, elegir los que han de seguir adelante en sus estudios aun aconsejar la dirección que deben tomar éstos, con mas seguridad de éxito.

LA ESCUELA.
Desde que la cultura logró emanciparse de las trabas que durante siglos la tuvieron incoherente y sujeta, encadenada en una sola invariable y mezquina dirección, "la escuela" disputó el primer puesto en importancia, a los elementos de prosperidad, tras de los cuales corren los pueblos todos, acertando unas veces y otras errando.

En la escuela, donde antaño se instruyó el niño a medias y vacilante en alguno ó algunos de los ramos del saber humano establecidos por las autoridades precedentes, el joven de nuestros días aprende amplia, grata y armónicamente, a conocer y explotar sus propias aptitudes, a la vez que se familiariza con los procedimientos de sus antecesores, repitiéndolos y analizándolos bajo la prudente dirección de un sabio y experto guía.

En la escuela, donde antaño se iniciaba el niño desde sus primeros y vacilantes pasos, en las maravillas de lo desconocido, antes que darse cuenta de sí mismo y de este mísero habitáculo, se ha invertido el programa, sabiamente y después de iniciarse en el mundo concebible y fenomenal, se le prepara para mayores, más amplias y abstractas concepciones metafísicas.

En dos palabras: en la escuela, donde antaño se instruía a un joven para utilizar sus aptitudes; haciéndolo erudito, hoy se "educa un joven para formar hombre útil," explotando armónicamente todas sus peculiares cualidades.

Por eso es hoy la escuela es un templo consagrado a la cultura y al progreso, el maestro es un funcionario público de altísima estimación y la educación pública es la más elevada función política.

ESPUMA DE JABON PARA CAZAR MOSQUITOS.
Un lector de cierto periódico extranjero ha descubierta, casualmente, un excelente sistema para cazar mosquitos. Estando leyendo una noche, invadido la habitación un enjambre de mosquitos le obligan a suspender la lectura. El lector pensó entonces en el papel cazamosca y como no lo tenía, se le ocurrió hacer mucha espuma con una pastilla de jabón de lavado, y poner sobre la mesa, bajo la lámpara unas hojas de papel cubiertas con la referida espuma, con la cual embudó también la lámpara alrededor del mechero. La idea dió resultados excelentes. A los quince minutos todos los mosquitos estaban pegados a la espuma.

La Edad de la Mujer
se encuentra a menudo en discordancia con su apariencia. El dolor y el sufrimiento aumentan los años, al grado de que muchas mujeres parezcan más viejas de lo que son.
Muchas mujeres han evitado el dolor usando regularmente el Cardui y conservan su juventud y su belleza.

La Sra. Annie Vaughan, Raleigh, N. C., tomó el Cardui y dice:
"Estaba enferma casi de muerte, pero al fin mi hermana me persuadió a tomar el Cardui. No había tomado y botellas cuando ya me sentía bien y fuerte."
Pruébese el Cardui. Es para mujeres. Sus cualidades tónicas reconstituyentes le devolverán a Ud. poco a poco la salud. A miles de mujeres les ha impartido provecho permanente.
Tome Ud. Cardui.
De venta en todas partes.

NO TIENE PARALLO.
De nuestro apreciable colega "El Mensajero," de Phoenix, Arizona, tomamos lo siguiente: "Margarita Ibarra de unos 15 años de edad, de familia humilde, pero jóven y relativamente bella, que proporcionaba cuantos goces le era posible en su posición; es decir la música y los espectáculos gratis. La noche del día 13, sin el previo permiso de su mamá, con una tía suya se fué de paseo por la ciudad de Guaymas, regresando á su casa cerca de las nueve. Su mamá, la Sra. D. Guadalupe Mendivil de Ibarra la recibió como vulgarmente se dice, con cajas destempladas, dándole una regañada que cantó el credo. Margarita impresionada con la reprensión materna, pasó á una pieza contigua, se bañó con un litro de petróleo y se prendió fuego. Cuando ocurrieron á darle auxilio ya era tarde: las ropas y su pelo habían sido consumidas por las llamas y ella estaba materialmente carbonizada. En medio de los más atroces dolores falleció otro día á las 7 de la mañana.

AZOTES A UN MINISTRO
"El permanecer firme en su determinación de no permitir cantar en el coro de su iglesia á personas divorciadas, ocasionó al Dr. M. E. Dodd, pastor de una grande y elegante iglesia Bautista de Paducah, Kentucky, ser azotado y golpeado por Charles Graham, un prominente cosechero de tabaco.

Durante los servicios de aviva miento, el pastor solicitó personas q' voluntariamente quisieran cantar en el coro. Mrs. Graham, dama que antes de ser casada con su presente esposo se divorció de su primer marido, envió su nombre, ofreciendo sus servicios como cantante. Mr. Dodd le manifestó que con arreglo á su interpretación de las escrituras, ella no estaba divorciada espiritualmente de su primer marido, por cuya razón él no podía permitirle que cantase en el coro.

Mr. Graham encontró al ministro y en seguida lo atacó. Dodd tenía una Biblia y algunos otros libros debajo del brazo y no opuso resistencia. No obstante que su rostro mostraba las señales de los golpes, el pastor ocupó su lugar en el púlpito y dirigió los servicios.

LA DECADENCIA DE LA RAZA LATINA.

Se ha puesto muy de moda entre escritores de Inglaterra, Alemania y los Estados Unidos. Discurren acerca de la supuesta decadencia de la raza latina, atribuyéndose á sí mismos y á su propia gente todo el adelanto y progreso que en los tiempos modernos ha hecho el mundo en civilización y conocimientos. Inglaterra se considera acreedora á la mayor parte del mérito á causa de su progreso industrial, sus inventos y colonias; Alemania alega de su parte las ideas y sistemas filosóficos que ha propagado; el paso que los Estados Unidos ponen de manifiesto el espíritu emprendedor y admirable desarrollo que han caracterizado el siglo y cuarto de su existencia y el sistema de gobierno libre que ha servido de ejemplo y estímulo á las demás naciones del globo. Todas tres tienen razón hasta cierto punto, más sus diversos reclamos no prueban ni con mucho que tengan ningún grado de superioridad sobre las demás naciones de la raza latina, porque lo cierto y positivo es que de estas dimanan todo lo que saben. Los que duden esto deben estudiar un poco de historia y hallarán que la Italia con sus poetas, escritores y artistas en la época del Renacimiento, fué la que inició y lanzó la nueva civilización que ha dado por fruto los progresos y adelantos modernos; que España con su descubrimiento de América, y sus prodigiosos labores que llevó á efecto en su exploración y colonización, abrió un campo muy vasto y ensanchado á la vista del género humano é hizo posible el prodigioso crecimiento de las ciencias y de las ideas que han venido después; y en fin, que Francia con el papel predominante que ha hecho durante todas las épocas de la historia moderna y con lo que ha contribuido á ilustrar é iluminar al espíritu en humano en todos los ramos de la ciencia y del saber ocupa un lugar segundo á ninguno en la marcha del progreso.

Y si eso no ha de bastar para emborbotar sus flcos. Les tentemos que aprontar á aquel que logró inventar esos mensajes sin hilos, que nombre supieron dar á Marconi y sus pupillos, con resultados sin par. En mucho modos y estilos que han podido utilizar.

Así, la raza latina á rivales desatna. Que mostrando orgullo necio. La miran con menosprecio, fingiendo ser superiores. Sin ser por eso mejores, sino en soberbia y orgullo. Falta que tienen de suyo. Las naciones presuntuosas que no juzgan bien las cosas, y el conformes no están. Los que alegan decadencia, mostrándonos la ciencia que siguen con tanto afán. Dumont, Bleriot y Paulhan. Por los aires transitando, cual un pájaro volando, y haciendo proezas famosas que por lo nuevo y pasmosas. Todo el mundo está admirando.

EL TEOLOGO Y EL SOFISTA.

En los tiempos en que había ban aún los animales se encontraron una vez en un camino y trabaron amistosa conversación un Asno y una Zorra. El primero tenía un aspecto venerable, calaba anteojos y tenía fama de teólogo profundo. La segunda demostraba en su habla y sus modales la proverbial malicia y vivacidad de su género. Versó la plática sobre los costumbres de antes y las del tiempo actual, lamentándose el Asno de la intolerancia y ranciedad de los antiguos que se mantenían riendo y se odiaban mutuamente por cuestiones de religión. Alabó en seguida su época aprobando el espíritu liberal que todos mostraban, y la poca importancia que se daba á la diferencia en dogmas y creencias. Atribuyó esto á la mucha ilustración que se había diseminado entre todos los animales dándole á conocer que todos caminaban á un mismo fin aunque por distintos caminos. Escuchaba la Zorra atentamente el discurso de su venerable protagonista y cuando hubo terminado, dijo: "Concuerdo en todo cuanto ha dicho Vd. sobre el asunto, pero también creo muy posible que el espíritu liberal de que Vd. hace mención significa que si unos á otros dan importancia á sus respectivas creencias porque en resumidas cuentas nada creen."

RENDIMIENTO DE GRACIAS A NUESTRO DIGNO MAESTRO DON APOLONIO SENA

Muy respetable Señor mío y cumplimentado Preceptor. El presente rendimiento, de que mis tristes é insignificantes circunstancias me permiten tributar al honor y mérito de Vd. á que justamente está intitulado. Por mi parte es merecedor á ella tanto por sus dignos portos cuanto por sus atentos cumplimientos, así á la justa predilección que por ella ha manifestado al público, las numerosas reproducciones, que desde la época en que Vd. ha sido el preceptor de nuestro Distrito, han venido haciendo reproducciones en que dicha empresa ha sido analógica; y mucho más habiendo tenido parte en la elegante exhibición, á la que yo y un número acompañado asistimos. Esigiendo y recibiendo del honor de Vd. nuestra juventud una educación esmerada y concienzuda en la que restaurando en todos sus esfuerzos el pensamiento del autor debería de ponerse á la altura, de los conocimientos actuales esta es la tarea que hemos pretendido y deseado desempeñar, y que nos honreamos haber llevado á cabo. Para ello hemos tenido á la vista la ante dicha exhibición publicamente presentada por nuestro preceptor, y enforzada y desempeñada por sus alumnos, y por las muchas instrucciones y aumentos de educación que hemos juzgado útiles en el desempeño de sus deberes; son los que consideramos más elegantes y adecuados en estos últimos tiempos modernos.

Ahora pues, sale este nuevo rendimiento de gracias completamente de los mejores agradecimientos tanto por los directores de este distrito como por los padres y madres que han tenido la bondad de confiar sus mejores tesoros en manos de tan amable como fiel servidor, que con aquel cariño ha mostrado toda su energía y habilidad para con sus pupillos de este distrito, enseñando desde el más chico hasta el más grande las reglas mejores que es principalmente el temor á Dios, en segundo lugar la ciencia de urbanidad y en tercer lugar lo que ahora se necesita más en el territorio en general que cada un padre y madre debe de enseñar y aplicar en sus hijos el idioma inglés que es la ventaja más rica del mundo, en lo que hoy pueden hacer la vida con mas comodidad, así supliéndole a nuestro querido y viondoso maestro dispensarme mis tan grandes é insignificantes equivocacos este es un razonamiento de rendidas gracias por sus ilustres cumplimientos que desearía ser un cierto Salomon, un Aristoteles, ó un Emilio Castelar, para por medio de elocuencia dar á Vd. tan merecidas gracias, á las cuales su caracter y el desempeño de sus deberes lo intitulan y es merecedor, de ellas.
