## Win the War!! Feed the Fighters!

Harvest the Crops - Save the Yields

On the battle fields of France and Flanders, the United States boys and the Canadian boys are fighting side by side to win for the World the freedom that Prus-sianism would destroy. While doing this they must be fed and every ounce of muscle that can be requisitioned must go into use to save this year's crop. A short harvest period requires the combined forces of the two countries in team work, such as the soldier boys in France and Flanders are demonstrating.

## The Combined Fighters in France and Flanders and the Combined Narvesters in America WILL Bring the Allied Victory Nearer.

A reciprocal arrangement for the use of farm workers has been perfected between the Depart-ment of the Interior of Canada and the Departments of Labor and Agriculture of the United States, under which it is proposed to permit the harvesters that are now engaged in the wheat fields of Okla-homs, Kanasa, Iowa, North Dakota, South Dakota, Nebraaka, Minnesota and Wisconsin to move over into Canada, with the privilege of later returning to the United States, when the crops in the United States have been conserved, and help to save the enormous crops in Canada which by that time will be ready for harvesting.

# **GAINED TEN POUNDS**

Taniac Has Sure Done Wonders for Me," He Writes-Expresses Desire to Help Other Sufferers.

Remarkable indeed is the experience of Antonio Lopez, residing in Roubideau, Colorado, as related by himself in a personal letter to Tanlac headquarters. His plain convincing statement follows exactly as it was written:

Roubideau, Colo., Aug. 25th, 1917. Mr. G. F. Willis, Tanlac Distributor.

Dear Sir: I want to write and tell you what Tanlac has done for me. I have been sick for twenty-five years and have not been able to eat any supper for five years, neither could I eat any vegetables or fruit because I would cramp so in my stomach.

I am sixty-five years old and before I started taking Tanlac I had gone down until I only weighed 138 pounds. After taking three bottles of Tanlac I have gone up to 148 pounds (gained ten pounds). I can eat a hearty supper, vegetables and fruit without the slightest of pain or gas troubling me.

Tanlac has sure done wonders for me and as I hope it may do the same for other sufferers. You can use this letter if you wish.

Yours truly.

ANTONIO LOPEZ. There is a Tanlac dealer in your town.-Adv.

The Swiss Socialists have been informed that, owing to violation of neutrality by Sweden, the much discussed conference at Stockholm has been definitely abandoned.

More than 500 carloads of whisky, champagne and other wines, valued at \$3,500,000, were dumped into the bay at Guaymas, Sonora, under orders of the state authorities.

The reply of the central powers to the peace note of Pope Benedict, says a Vienna dispatch begins by declaring that they regard the papal proposals as a suitable basis for peace negotiations.

The military rebellion in Russia, led by Gen. Korniloff, has proved one of the shortest in history. It lasted seventy-two hours, according to dispatches from Petrograd. It was a bloodless bubble.

German soldiers taken by the French in the recent fighting told their captors that the kaiser has decreed a reward of 300 marks and three months' leave for the first German capturing the first American soldier.

A curious feature of the Russian situation is that, despite the disaffection in part of the army, loyal units are attacking the Austro-German armies at many points on the front and have gained important ground on the Bukowina frontier.

other day," writes a Canadian major, "that there is a new style in trench letters. The censor's duties have been reduced by many per cent. The soldier now has the sense of the situation engrained in his thinking. He sees through the need of keeping quiet even on matters that call for some criticism. There is more humor and matter-of-factness about his letters. One of my men, who can't write very well, was telling me the other day that one letter a week is all that he can summon up his courage to write, and he gave this as a reason: "The people at home don't, can't understand life here. We have got to go through it. Why tense them with anxieties-they have enough to put up with in pacifists and political grumblers.' And I think he is right. Don't you?"

# Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

## **Convincing Proof of This Fact.**

Ridgway, Penn. - "I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not light as I have a little boy three years old." - Mrs. O. M. RHINES, Ridgway, Penn.

#### Mrs. Lindsey Now Keeps House For Seven.

Tennille, Ga.-"I want to tell you how much I have been benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited ".--Mrs. W. E. LINDSEY, R. R. 8, Tennille, Ga.

#### Women Drive War Automobiles.

Between 150 and 200 women soon will be driving military motor cars behind the French front.

Women have tried since the beginning of the war to enlist in the automobile service. The Club Feminin Automobile was the center of this group, and it had secured the signatures of several hundred of the thousand women in Paris who hold licenses to drive motor cars. The passive resistance of the different war bureaus held them pack until now.

The women are obliged to enlist for three months and to agree to submit scrupulously to military rules and dissipline. They will in the beginning ceplace motor ambulance drivers in the foreign sanitary sections who are transferred to other services. Later on they may replace men in other auomobile sections.

#### "Wife a Good Sport."

W. S. Desmond, a carpenter of Huntington Lake, Cal., is above the selective draft age limit, but he wanted to join the army.

He told his wife. She objected. He offered to match pennies with her. She agreed. He suggested heads, stay at home, tails got to the front.

They matched and tails won. Desmond enlisted in the field artillery. "My wife's a good sport," he told the recruiting officer.

#### Nitrogen From Air.

The production of nitrogen from the air in Germany, which was only 30,000 tons in 1913, has been so successful that 300,000 tons were so produced in 1916, and It is expected that 320,000 will be produced this year. According to the Frankfurter Zeltung, the cost is only six cents a kilogram.

edly be used more widely.

Heretofore the most valuable product of the fishery has been the oil which is extracted from the jaws of the porpoise, and is worth about \$20 gallon. It is universally used for lubricating watches and other very del-Icate mechanisms. The body blubber is also valuable. Attempts to manufacture fertilizer out of the carcass have falled because of the distance from a fuel supply.

The porpolse are taken at Hatteras in seines, operated from the shore, and it is probably the only place in Amer-Ica where this has ever been done successfully. During the fall, winter and spring many porpoises are seen off the South Atlantic coast, and at Hatteras they come within a few hundred yards of the surf. They are taken by spreading seines about 200 vards outside the surf lines. As soon as the porpoises have come inside the seines, they are dragged ashore. Often a whole school of these sea creatures is taken in a single haul.
