# President Proclaims June 28th as National War Savings

Washington, D. C., May 30, 1918.

A Proclamation By the President of the United States:

This war is one of nations, not of armies, and all of our one hundred million people must be economically and industrially adjusted to war conditions if this nation is to play its full part in the conflict. The problem before us is not primarily a financial problem, but rather a problem of increased production of war essentials and the saving of the materials and the labor necessary for the support and equipment of our army and navy. Thoughtless expenditure of money for nonessentials uses up the labor of men, the products of the farms, mines and factories, and overburdens transportation, all of which must be used to the utmost and at their best for war

The great results which we seek can be obtained only by the participation of every member of the motion, young and old, in a national concerted thrift movement. I therefore urge that our people everywhere pledge timmselves, as suggested by the Secretary of the Treasury, to the practice of thrift, to serve the Government to their all ost in increasing production in all fields necessary to the wirning of the war, to conserve food and fuel and useful materials of every kind, to devote their labor only to the most necessary tasks, and to buy only those things which are essential to individual health and efficiency, and that the people, as ellence of their loyalty, invest all that they can save in Liberty Bonds and War Savings Stamps. The securities issued by the Treasury Department are so many of them within the teach of every one that the door of opportunity in this matter is wide open to all of us. To practice thrift in peace times is a virtue and brings great benefit to the individual at all times; with the desperate need of the civilized world today for materials and labor with which to end the war, the practice of individual thrift is a patriotic duty and a necessity.

I appeal to all who now own either Liberty Bonds or War Savings Stamps to continue to practice economy and thrift, and to appeal to all who do not own government securities to do likewise, and purchase them to the extent of their means. The man who buys government securities transfers the purchasing power of his money to the United States Government until after this war, and to that same degree does not buy in competition with the Government.

I earnestly appeal to every man, woman and child to pledge themselves on or before the 28th of June to save constantly and to buy as regularly as possibly the securities of the government, and to do this as far as possible through membership in War Savings Societies. The 28th of June ends this special period of enlistment in the great volunteer army of production and saving here at home. May there be none unenlisted on that day.

## FINDS IT EASY TO BE A "WOMAN"

Mexican Poses as Fair Cloak Model and Dupes Many Lovers.

### HAS MANY PICTURES

Mementoes of Conquests Held by "Gertrude," Who Finds Build Better Fitted for Feminine Than Masculine Robes.

El Paso, Tex.-The most remarkable case of masquerading on record is that credited to "Gertrude" Garcia, twentythree years old and of Mexican parentage, who successfully gulled department managers of San Francisco, El Paso, Tex., and other cities; beguiled scores of lovers; hoodwinked the police and even posed as a cloak model in exclusive women's establishments, demonstrating how easy it is for clothes to make the woman.

But "Gertrude" failed to fool one man, Immigration Inspector E. M. Marnell, on duty at the international bridge at El Paso, when he attempted to come across the American boundary from Juarez with a passport signed "Maria" Garcia. A dazzling frock, high-heeled shoes, the latest twist in coiffures, penciled brows, jet ear pendants and a stray dimple were not sufficient "camouflage" to fool the keeneyed inspector, and "Gertrude" and two of her latest admirers and dupes were

Garcia's Amazing Dual Life.

The exposure brought to light the amazing dual life led by Genobeba Garcla, born in Zacatecas, Mex., who first entered the United States in the guise of a woman in 1915, accompanied by a man who posed as her husband. Garcia's face is as smooth as a child's. It never has known a razor. His habits, physiognomy, deportment and appearance are those of a woman. His hands are small and tapering and he walks with a feminine stride, due probably to the constant wearing of high-heeled shoes, examining physicians state.

"It will be difficult for 'Gertrude' to make a living as a man," was the report of immigration service physicians, "because of the peculiar mannerisms

Mexican Had Many Admirers.

Trunks which Garcia attempted to get across the Mexican border at the time he was apprehended contained quantities of feminine attire. They also contained pictures of many men, who, Garcia explained with a smile, had been admirers of his and who never had penetrated his disguise. Garcia told the immigration officials that many of his conquests were made while he was posing as a cloak model in shops at El Paso, San Diego and San Francisco.

### SPARROW HAWK GETS CANARY

Yellow-Feathered Songster Escapes in City From Cage and Falls Prey to Hawk.

San Francisco.-A Chinese woman and her three little children came marching proudly up Kearny street. They carried a cage and a canary.

At Commercial street the door of the cage came open and the bird flew out. It lighted on a wire overhead. Pedestrians gathered around and place in the courtroom here. helped the woman and the children try to coax it down.

The canary hopped about and defied them for a while. Then all of a sudden it fluttered down toward the walk. But it was not quick enough. Before it alighted a sparrow hawk swooped down from somewhere and grabbed it.

There was a squeak and a flutter of wings almost within reach of the people on the sidewalk. Then the hawk with its prey flew down Commercial other negro. Frank was found guilty reet and was gone.

### MAN SLEEPS WHILE **HIS BEDDING BURNS**

Decupant of Next Room Finds Him Stretched Out Like Brunhilda.

Newton, N. J .- He slumbered deeply and loudly in his room at the Waldmere hotel. After a little a cigarette butt that he had dropped ignited the mattress. He continued to sleep, while little flames ran along its edge and the room filled with smoke.

The man in the next room began to choke and traced the fire to the door of the slumberer. He entered to find the mattress afire, with its occupant

stretched calm and still like Brunhilda on her pyre-only Brunhilda did not snore.

The intruder picked up the pitcher and emptied its contents on the modern Rip Van Winkle, who stirred, muttered drowsily, and slept again. The fire was out, to all appearances, and the rescuer left, pursued by the snores of the rescued.

Five hours later the man in the next room appealed to the management. "He's afire again," he complained,

and I can't wake him up." It took two strong men to rouse him sufficiently for him to slide off the burning mattress.

### <del>\*</del> HUG BY PRETTY GIRL ENDS IN LOSS OF \$130

San Francisco.-A long hug by a pretty girl cost Charles Smulters, of this city, \$130, and the fact that the young woman was beautiful does not console him in the least. \*Smulters told the police that he was walking down the street when the "fair young thing" threw her arms about his neck babbling terms of endearment with vehemence. Smulters struggled a half block before he could break from her embrace.

Then he discovered that his wallet was missing.

### <del>•••••••••••</del> THOUGHT SHE BURIED SON

Georgia Woman Treated to Sensation When She Meets Him In Atlanta.

Atlanta, Ga .- All the sensations associated with the miracles of olden times have been experienced by Mrs. Rosa Holley Whitehead of Atlanta, who recently attended, as she thought, the funeral of her son, Aubrey Whitehead in Louisville, Ky. After the ceremonies Mrs. Whitehead returned to Atlanta and met her son, who is in perfect health. The cause of the curious mistake was the result of a remark made by Aubrey, which was overheard, that he "would end it all in the river." The body of a man was found in the Ohio river and young Whitehead disappeared. There was great resemblance in the body to young Whitehead. A Louisville undertaker is wondering who is going to pay for the expensive funeral.

## EXPERT'S TRIBUTE TO WESTERN CANADA SOIL

That there is good reason for the wonderful crops of grain grown in Western Canada, which have made thousands of former residents of the United States wealthy, is not always given the thought that it deserves is quite apparent. But that there must be a reason is quite evident. Probably more than one-but the one that requires emphasis-is that the soil is of the nature that will produce good crops. It was not long since that the farmer selected his land in the most haphazard way. He need not do so today. He will select it on the soil analysis plan. Soil from Western Canada was submitted to Prof. Sievens, soil physicist of the State College of Washington, at Pullman, Wash. His report should no doubt further encourage settlement in Western Canada. It reads as follows:

"We have analyzed this sample and find that it runs high in lime, very high in potash, phosphorus and in nitrogen; that it has a splendld supply of organic matter and is in the best of physical condition. There is nothing wrong with this soil from the standpoint of crop production, and I am satisfied that it will give splendid results wherever put under cultivation."

It is soil like this properly worked, and on scientific lines, as is the rule today, that gives the opportunity to quote the experiences of farmers who have increased their incomes from \$500 to \$30,000 in two seasons, and whose story would read as fol-

"I have threshed altogether 7,000 bushels of No. 1 Northern wheat from 200 acres, which went from 24 to 56 per acre-sod breaking 24, spring plowing 36, back setting 56 bushelsthe average being 35 bushels per acre." The newspaper giving an account of this man's experience says: "When he

disposed of his 1,600 acres from north of Brooks, Alta, to four Oak Harbor men, he was worth \$30,000. Two years ago he came here with \$500 and a few

It is the soil of Western Canada, and the knowledge of what it will do that brings to Canada the hundreds of settlers that are daily arriving at the border. A growing enthusiasm for the fertile prairie lands of Western Canada is spreading all over the continent. This enthusiasm is the recognition of the fact that sufficient food could be produced on these prairie lands to feed the world. From the south, east and west, hundreds of men, too old for military service, are pouring into Western Canada to take up land or to work on the farms. A great many of the incoming setflers have arrived at such central points as Calgary, Edmonton, and Lethbridge, Alberta, and at Regina, Moose Jaw, and Saskatoon, Saskatchewan. Judging from the bulk of their household effects, the number of their horses and cattle, and the quantity of implements they are bringing with them, most of the new arrivals also seem well blessed with the

Reports from North Portal, Saskatchewan; Coutts, Alberta, and Kingsgate, British Columbia-the principal gateways into Western Canada from the United States-Indicate that the present influx of farmers is in such volume as has not been witnessed for many years. From Vancouver, British Columbia, people are going to the prairies for summer farm work, many with the intention of taking up land themselves at the end of the summer.

The influence of this tide of farmer settlers on greater food production will be more readily appreciated when it is considered that the average settler takes up at least twice as much land as he has hitherto been farming-and land which, acre for acre, produces better and larger crops.-Advertisement.

# GERMAN ATTACK HOW MRS. BOYD AVOIDED AN

STRONG RESISTANCE BY AMERI CANS AND FRENCH CHECK . ENEMY ON TWO WINGS.

### AMERICAN SHIP SUNI

CAPTAIN AND SIXTEEN OF CREW ARE MISSING-CHIEF MATE AND FIFTEEN LANDED.

Western Newspaper Union News Service.

With the American Army in France, June 10 .- Attacks by the Germans in the Marne sector have again been repulsed by the Americans, who inflicted heavy losses on the enemy. The French repulsed two attacks against Hill 204, west of Chateau Thierry, the first at 10 o'clock Saturday night, and the second at 3 o'clock Sunday morning, French troops captured a wood south of Buzziares. A new German division, the Fifth Grenadier Guards, was identified by the Americans.

Washington, June 10 .- The Ameri-

can steamer Pinar del Rio was sunk by a German submarine seventy miles off the coast of Maryland Saturday morning. One of her boats, with the captain and seventeen members of the crew, is missing; another, with Chief Mate Orkes and fifteen men, landed at the Manteo life station on the North Carolina coast, about fifty-five miles below Norfolk, Va., it is announced from Norfolk. A brief dispatch to the Navy Department announcing the sinking did not say whether the ship was shelled or torpedoed. Hope is held that the missing boat has been picked up by some passing vessel or will turn up at some point along the coast. Until last night the raiders had not been reported as showing themselves since the Norwegian steamer Vinland was sunk off the Virginia capes last Wednesday.

The armies of the crown prince of Bavaria are again hitting the allied line in a new offensive, with Paris apparently their objective.

Between Montdidier and Noyon, over a front of about twenty miles, preceded by a heavy bombardment with shells and noxious gases, the enemy's initial maneuver evidently has in view the bending back of the allied front toward the towno f St. Just on the northern wing and toward the railroad junction of Compeigne on the southern flank, getting astride the Oise river and driving southwest toward the French capital.

The French troops are resisting the impact with their usual valor, but the Germans on their right and in the center have been able to penetrate the line for distances ranging from twothirds of a mile south of Montdidier to relatively two and a half miles at Ressons-Sur-Matz, in the center. Thence to Noyon, however, the allied line is holding strongly.

If success should rest with the enemy on the new battle front it might badly affect the stability of the line of the defenders from the Oise to the Marne and compel a falling back westward from the Oise to the region of the Marne northwest of Chateau Thierry in order to straighten out the deep salient that would then project eastward, with the Solssons sector as its apex.

The allied commanders, it is asserted, were not taken unawares by the new offensive. Comparative quiet prevails in the region of the Marne and on that portion of the line in Flanders held by the British.

VIEW OF SOLAR ECLIPSE.

Shut from View by Clouds at Denver, But Observed at Baker, Ore. Denver.-Heavy clouds which spread

across the sky in deep fold brought disappointment to thousands in Denver who were anticipating observing the total eclipse of the sun June 8, and particularly to the scientists and savants who had unlimbered their telescopes in Chamberlain observatory at Denver University.

Baker, Ore.-Untimely twilight, fast followed by a deeper darkness, swept over a strip of the Northwest fifty miles wide when the solar eclipse, foretold by men who have reduced the movements of astral bodies to an exact science, came to pass.

The expected results of plunging the world into darkness as of night were observed. Birds sought their nests and chickens went to roost, A gloom as deep as that at 10 o'clock at night enveloped the favored strip of country at the moment of totality. Electric lights were turned on indoors and street cars and automobiles had their headlights burning.

## Bridging the Gap From Steer to Steak

Live stock is raised on the farms and ranches of the West.

Meat is eaten in the large cities of the East, and by our boys in France - thousands of miles away.

The day of transporting live animals from ranch to seaboard and overseas has passed. There was too much waste. The modern packer locates his large and specialized plants in the producing regions. He ships the dressed beef in refrigerator cars, and holds it in his own refrigerated branch warehouses until delivered to the retailer. For shipment to foreign ports, he transfers the meat to refrigerated

By means of his nation-wide organization the modern packer maintains a continuous flow of meats to all parts of the country, so that each retailer gets just the quantity and quality of meat his trade demands, and at the time he wants it.

Swift & Company recently shipped 1,000 carloads of meat products in one week to our Armies and to the Allies.

Bridging the gap from ranch to consumer can be done successfully-and at low unit costs and profits-only by large business organizations.

Swift & Company's profit on meat, always so small as to have practically no effect on prices, is now limited by the Government to about 2 cents on each dollar of sales.

The Germans were cleared out of Veuilly wood by the Americans.

The Germans continued to bombard the French capital with their longrange guns on June 7. British airmen brought down 336

Germans in less than three weeks, up to June 2, of which 283 were totally destroyed. The Italian army is improving both

in morale and material, according to Maj. Gen. Eben Swift, head of the American military mission to Italy. The allies' stonewall of resistance is

still opposed to the Germans on the battle front from Soissons to Chateau Thierry. Nowhere is the enemy making progress.

Torpedoing of the Harpathian brought the German sinking record on the Atlantic coast to fourteen-six steamers and eight schooners, with a loss of thirty lives.

British casualties reported during the week ending June 7 were: Officers killed or died of wounds, 208; men, 4.258; officers wounded or missing, 753; men, 27,425.

Owing to the terrible casualties inflicted upon it, the Prussian guards division has been withdrawn by the German high command from the battle. The German losses are becoming heavier daily.

The fighting Thursday night northwest of Chateau Thierry raged with great flerceness for five hours. The Americans captured Bouresches and entered Torcy. Twenty-five Americans in Torcy engaged and drove out 200 Germans and then withdrew to the main line on the outskirts of the

OLD PRESCRIPTION

FOR WEAK KIDNEYS

Have you ever stopped to reason why it is that so many products that are ex-tensively advertised, all at once drop out of sight and are soon forgotten? The

reason is plain—the article did not fulfil the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like

an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says, "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend,

almost every case it shows excellent re-sults, as many of my customers testify.

No other kidney remedy that I know of has so large a sale."

According to sworn statements and verified testimony of thousands who have

used the preparation, the success of Dr. Kilmers' Swamp-Root is due to the fact that, so many people claim, it fulfils al-

most every wish in overcoming kidney, liver and bladder allments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

### What is Castoria

ASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhœa; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. IMPORTANT NOTICE

PRESIDENT OF THE UNITED STATES PROCLAIMS FRIDAY. JUNE 28, 1918,

NATIONAL WAR SAVINGS DAY

GOVERNORS AND MAYORS MAKE SIMILAR PROCLAMATIONS

MEETINGS WILL BE HELD IN EVERY COMMUNITY TO SECURE SUBSCRIPTIONS FOR WAR SAVINGS STAMPS

Pursuant to the proclamations of the President of the United States and the Governor of this State, I, War Savings Director for New Mexico, acting under the authority of the United States Treasury Department, have called all tax-payers and wage-earners to meet on Friday, June 28th, to give their subscriptions for War Savings Stamps. In rural communities and the smaller towns and cities, meetings will be held in the school houses at 2 p. m.

The school or precinct officers will conduct the meeting in each school house, keeping a record of the proceedings and reporting the names of all persons present and the amount of War Savings Stamps subscribed for by them. The names of absent persons, and of those who refuse or neglect to subscribe, with their reasons for so doing, will also be reported.

War Savings Stamps (which are United States Government Bonds the same as Liberty Bonds) can be paid for during any month in the year 1918, but it is intended that subscriptions will be signed for them on June 28.

The price of each War Savings Stamp depends upon the month during which it is bought. During June each stamp will cost \$4.17. In July each Stamp will cost \$4.18, and so on, one cent more each month during 1918. On January 1, 1923, the Government of the United States will redeem all War Savings Stamps at \$5.00 each, no matter during which month in 1918 they were bought. They cost less during the early months in 1918 than during the later months because the person who buys earlier has loaned his money to the Government for a longer time than if he should buy later.

By way of illustration, note the following table:

COST OF WAR SAVINGS STAMPS

DURING JUNE, JULY AND AUGUST, 1918

remark at a little	Cost in June	Cost in	Cost in August	And Are Wort on Jan. 1, 192	
1 Stamp	.\$ 4.17	\$ 4.18	\$ 4.19	\$ 5.00	
20 Stamps		83.60	83.80	100.00	
50 Stamps		209.00	209.50	250.00	
100 Stamps		418.00	419.00	500.00	
200 Stamps		836.00	838.00	1,000.00	

The law provides that no person can hold in his own name War Savings Stamps exceeding \$1,000 maturity value. War Savings Stamps, however, may be purchased for other members of the family, including minor children.

The money invested in War Savings Stamps is not a gift, or a donation, but is a loan to the Government. It will all be paid back with 4% compound interest. If, because of some serious financial reverses, or calamity, it should be necessary to get your money before January 1, 1923, you may do so by giving ten days notice to any Money Order postmaster, in which case you can get what you paid for the Stamps, with interest to date of payment. The Stamps are free from all State and Local taxes; when registered at the postoffice they are insured against loss; they are backed by all the property in the United States; they cannot fall in value below the price you pay; they are as convenient and as well paying an investment as has ever been offered by our Government.

A definite quota of War Savings Stamps has been assigned each school district and community, which will be announced at each meeting on June 28th. The Government of the United States expects all the citizens of every precinct, school district and county to subscribe for its quota and to pledge themselves to save and economize to help win the war.

It is to be hoped that the subscriptions taken at the meetings in your county will show you and your neighbors to be loyal Americans to whom our Government, in this hour of need, does not call in vain.
