### Radicals Talk

#### Of Henry Ford For President

Chicago, July 9.—The executive committee of the national labor party is meeting to decide whether to amalgamate with the committee of forty-eight, the National Non-Partisan League, the Single Taxers and other liberals in launching a third party.

The committee of forty-eight convention opens tomorrow.

Henry Ford is favored for the presidential nominee by Michigan delegates.

Lafollette is still leading but is silent whether he would accept.

The question of a name of a party for the new party will come up. The committee of forty-eight favors either the Liberal party, the American party, or the People's party.

(Note—This conglomeration of radicals, outlaw laborites, bolsheviks, reds, anarchists and generally un-patriotic, pro-German and pro anything-not-American, is just what this sentence implies it to be.)—Roswell Daily Record.

### BANKS DO GOOD WORK

The banks of the country deserve great credit for the educational work they are doing to guide the public along conservative and constructive lines.

Leading financial institutions are encouraging industrial development and preaching the work and save doctrine as the logical remedy to bring about normal conditions.

Some of the best reading matter of today is found in bank publications dealing with current problems. This is free to the public and has great educational effect from the standpoint of showing the reasons for abnormally high prices and the remedy.

The truth the banks are teaching is that our national prosperity rests on a sound industrial system and ability of our people to create new wealth through production and saving.

Ed Keegan left Monday for the harvest fields north of Clovis

The little baby boy of Mr. and Mrs. J. G. Chambliss fell off a trunk Saturday evening and broke his arm. The little fellow is doing nicely.

### FARMERS MUST PREPARE TO STORE GRAIN

Bumper crop prospects are especially good in western states. Another cause for rejoicing on the part of the farmer is the highly improved labor situation. From nearly all districts come reports of adequate farm labor for harvesting in the large crops with urgent demands for food stuffs.

A note of optimism adds to the joy of life for our great citizen, the American farmer. But it is only good common horse sense to look ahead and prepare for difficulties which may arise before the crop is marketed.

The only visible cloud on the horizon is the transportation situation. The railroads are deplorably in need of equipment. Further, congestion, due largely to strikes, past and present, not only of railroad employees, but of longshoremen, truck drivers, etc. has tied up large quantities of cars.

The car building companies of the country have an order for the railroads, 48,000 cars. Few of these will be delivered in time to help in the grain movement. There is a shortage of at least 250,000 cars.

Farmers must consider the temporary storage of grain. Because of the high cost of sacks and handling, the sacking of grain is rapidly being done away with.

Terminals, elevators, railroad equipment, etc. are equipped for bulk handling of grain. Progressive farmers either already have or are now preparing to handle their grain in bulk.

To aid the farmer in economically equipping himself with temporary bulk storage the bureau of markets of the U. S. government, has, after a detailed study of the farmer's needs, prepared plans for a temporary grain bin which may be built for various capacities.

These grain bins are moveable and so simple of construction that any farmer with ordinary tools on the farm can build one in a day without skilled help.

The material can be purchased at any retail lumber yard and can be paid for out of saving on sacks the first season.

The U. S. government bureau of markets or the nearest lumber yard will furnish plans free of charge, showing the construction of one of these bins. These cuts and accompanying explanations are so simple and explicit that it is not necessary for the builder to be able to read a blue print in order to construct his grain bin according to government plans.

### THE OUTLAW STRIKE

The outlaw strike is, without question, the most effective weapon, and so at this time the favorite weapon of "red" propaganda in the United States.

Not all of the outlaw strikers, probably only a relatively small per cent of them are reds themselves, but, they are "tools and dupes" of the reds and abettors of revolution in the U. S.

Courtesy is the rubber tires of business.

It begins to look as though old John Barleycorn will have to pack up his bag and take his forlorn hope to the Committee of forty eight.

### CURES THAT DO NOT CURE

Numerous industrial and political doctors, self-appointed, have come forward with remedies which they prescribe as certain to end the sugar shortage and to restore prices to their former low levels. It is noteworthy that few if any of these solutions are based upon the familiarity with the sugar situation. Most of them make the fundamental error of treating the present situation as artificial and purely temporary, whereas it is the natural and inevitable result of conditions that have been six years in the making and that it will require at least an equal length of time for their mending.

The lowering of prices must come either from restriction of consumption or expansion of production.

Increased production and encouragement of sugar beet industry in the west is one sound remedy--restricting consumption is an artificial remedy which is in a measure responsible for present situation as it automatically curtails production and prolongs the days of scant supply.

Kolehak is quoted as saying: he will give part of Russia to Japan. What would you do to a man who wanted to give you a horse's head?

Lost 65 Pounds in Weight and Had to Give Up Work. Has Been Well Since Using Doan's

"Being exposed to extreme heat when working as an engineer, and then going outdoors to cool off, caused my kidney trouble," says Karl Goring, 8513 N. Oranney St., Philadelphia, Pa. "In cold weather and when it was damp, my joints and muscles would swell and ache, and often my limbs were so badly affected it was only with great misery I was able to get around. For a week I was laid up in bed, hardly able to move hand or foot."

"Another trouble was from irregular and scanty passages of the kidney secretions. I became dull and weak and had to give up my work. Headaches and dizzy spells nearly blinded me and I went from 265 to 200 in weight. Nothing helped me and I felt I was doomed to suffer."

"At last I had the good fortune to hear of Doan's Kidney Pills and began taking them. I soon got back my strength and weight and all the rheumatic pains and other kidney troubles left. I have remained cured."

## BUSINESS CONDITIONS IMPROVE

### CREDIT SITUATION SECOND HALF OF YEAR IS STILL UNDER STRAIN.

### CAR SUPPLY BIG FACTOR

### BANKERS WORKING TO PREVENT CRISIS IN AUTUMN; BUYERS WARY.

Western Newspaper Union News Service.

New York, July 12.—The turn into the second half of the year has been accomplished by some cheering events for business and finance, although many difficulties, long present, have not been lessened. The general credit situation remains in a state of strain, and it is certain that throughout the summer bankers will act with a single eye to the prevention of a really acute position in the autumn.

The very fact that the loan market of all varieties of accommodation will be guided conservatively speaks for the avoidance of some tension in the crop moving period, and the hope is expressed in banking quarters that the taking of time by the forelock may avoid so extreme a burden upon credit as was feared a month ago.

Knowledge that the underlying situation of credit had not been altered at all by the satisfactory completion of the midyear settlement seemed last week to warn the speculative following of stocks that surface conditions should not be trusted too far.

Sentiment favoring a relatively easy money situation was not sufficiently strong to lull the lurking idea that there might be numerous occasions during the summer when a quick "run up" of the call rate would be embarrassing to persons carrying long lines of stocks.

The business and industrial outlook is decidedly mixed, considering the major lines of production and distribution. Commodity prices, as a whole, declined in June, as compared with the May level, but the movement was highly irregular. Textiles, breadstuffs, live stock, hides and leather declined, while coal, coke, building materials and chemicals, together with important provisions which play a vital part in the cost of living.

To a degree recessions of activity in some directions are offset by a heavy demand in others, which tends to confuse the outlook. Thus, the evidence supplied by closing textile mills tells of a depression in this field far more important than seasonal slackening would bring about, while at the same time the consumption of articles used in construction work, steel, cement, lumber, etc., is overtaking the producers.

A survey of current conditions require allowance by reason of persistent railroad congestion. Pig iron production in June was at a rate of 5,000 tons per day in excess of the May output, which indicates active operations of steel plants, but lack of adequate transportation facilities is causing a great amount of finished material, and iron as well, to be piled in mill yards until it can be moved.

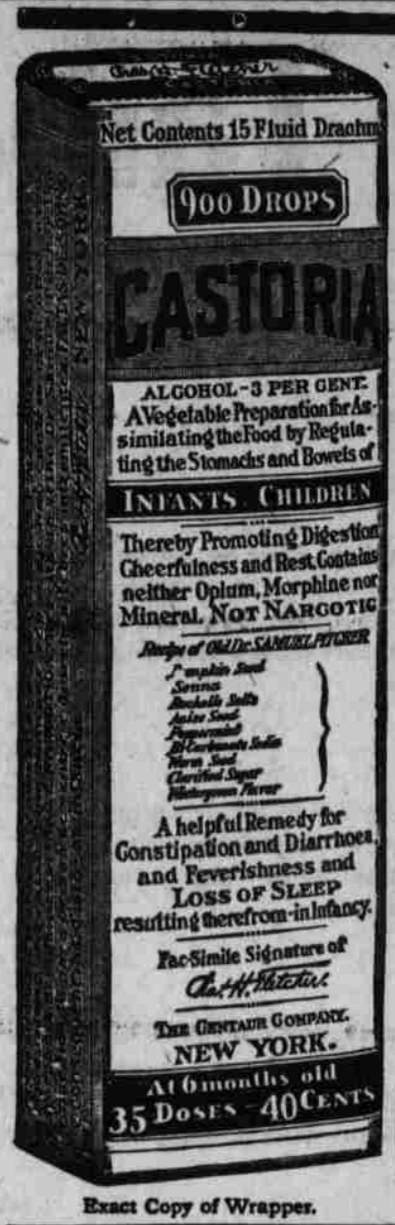

Whether or not July reinvestment funds, derived from interest and dividend payments, is the main factor in the market just now, the demand for investments has been substantially more active this month than last. The Swiss government loan of \$25,000,000 and the offering of \$80,000,000 Armour & Co. bonds last week were quickly taken up, and the success of the undertakings foreshadows more in the near future.

It is expected that the requirements under which railroads may obtain permission from the Interstate Commerce Commission to float loans will shortly be clarified, for several of the leading companies have new borrowings under consideration.

Protests Innocence on Gallows. Santa Fe, N. M.—Elbert W. Blancett, convicted of the murder of Clyde D. Armour, went to his death calmly and still protesting his innocence. The gallows trap was sprung, Blancett's neck was not broken by the fall. He was unconscious immediately and pronounced dead in ten minutes. Blancett was convicted of the murder of Armour, Oct. 23, 1916, while the two were on a motor trip in Armour's car from Denver to the Pacific coast.

Negro Clears Innocent Man. Dallas, Texas.—Green Hunter, alias James Brown, negro, who was legally hanged here for attacking a white woman at Hale station, Friday, May 28, confessed and admitted that he was guilty of another attack on a young white girl for which Ben Perry, negro, is serving the eighth year of a life term imprisonment sentence.

Offer Poles Protection. Spa, Belgium.—If the Poles consent to retire within the natural frontiers of Poland, the allies will give them all possible assistance in the event of their being attacked by the Bolsheviks. This announcement was made here. The allies have sent a proposal to the Russian government for an armistice with Poland on condition that the Poles retire within their natural Polish frontier and that, if the Bolsheviks attack the Poles within these frontiers the allies will come to Poland's aid.

Sweet Girl's Affection Must Have Been Very Comforting to the Old Gentleman, Yes!

The blushing girl leaned over her father's chair and put her arm around his neck.

"You dear old papa!" she cooed, "You've been very good to my little girl since her engagement."

"I'm always glad to make my sun-beam happy," murmured father fondly. "I want you to think sometimes of your foolish old father and remember that he did everything he could to make home pleasant for you before you left him in his lonely old age."

"Oh, you dear, sweet man! What would you say if I didn't leave you, after all?"

"Eh!" exclaimed the startled old man.

"How can I be so selfish after you have been so good to me; and done everything for me?" said the girl tenderly. "I don't care so very very much for George. I'm going to tell him it was all a mistake, and that he can find somebody else, for I'm always going to stay at home with you."

And then you can always give me nice things!"

### HIS DESTINATION NO OBJECT

As Example of Perfect Freedom From Care, Colored Boy Would Be Hard to Beat.

Sitting in the rear end of a day coach on a jerkwater road in Texas, my end of the car being a smoker for white passengers and the front end being reserved for the accommodation of colored persons, I—looking through the open door of the dividing partition—saw the conductor stop in the aisle alongside a half-grown negro boy who had boarded the coach at a flag station.

"I ain't got no ticket, cap'n," I heard the darky say. So saying, he hauled a handful of silver dollars out of a pocket and extended the hand, its palm covered with coins.

"Well, then, where do you want to go?" asked the conductor.

### FOUR CHILDREN DRIFT 25 HOURS

Youngsters Have Thrilling Experience in Row Boat on Lake Erie.

### BOY OF 9 IS HERO

Prayers of Male Passengers Mingle With Sobs of Women as Steamer Picks Tots Up 30 Miles From Shore.

Detroit, Mich.—With the prayers of 1,500 male passengers mingled with the sobs of hysterical women, four children who had been adrift in a small row boat for more than twenty-five hours in Lake Erie were rescued by the steamer City of Toledo 30 miles from shore.

The children drifted from Lakeside, Mich., at 9 o'clock Saturday morning, and while they were far from land two of them who got out of the boat were rescued by 9-year-old Merwin Daso, one of the party.

The children are: Robert, aged 3; Richard, 6, and Merwin, 9, sons of Merwin Daso of Toledo, and Violet Sperry, their first cousin, 11 years old.

**Tells of Experience.**  
Squatting on the second deck of the steamer, the hero of the adventure told the passengers just how it happened. They started out from Lakeside with a broken oar and two sticks, intending to push themselves along the shallow shore. Soon they were a long way out, he told the passengers, and with a wind blowing they could not get the boat headed back for Lakeside.

Late in the afternoon Violet conceived the bright idea to get out and push the boat.

She could not touch the bottom, of course, and Merwin was afraid she was going to drown. He finally succeeded in pulling her back into the boat.

Saturday night "Boh" got into trouble. He insisted in prowling about the flat bottomed craft and fell overboard. Merwin at once plunged into the lake and keeping one hand on the boat caught Bob by his rompers and pulled him back in.

**Merwin Takes Command.**  
As it began to get dark they all became frightened, but Merwin decided to take "command," and ordered the others to go to sleep, telling them he would wake them up after he had "done the watch."

During the night "Dick," Violet and little Bob took turns at watching for ships.

With the rising of the sun Sunday Merwin decided to take off his under

**SOLD TWO PINTS, HIT HARD**  
Virginia Judge "Makes Example" of Business Man, Fining Him \$3,000.

Danville, Va.—Recorder P. J. Haizlip of Spray found himself a prominent man after fining J. S. Martin, a business man of that township, just across the Virginia line, \$3,000 for selling two pints of liquor a few days ago.

In delivering his opinion the recorder said that the time has come when an example must be made that it may act as a deterrent. No jail term was included, and the court modified the drastic penalty by asking that if it could be successfully shown that the accused's creditors would suffer as a consequence, the fine would be cut to \$2,000. This has not been done.

Martin at first denied, then confessed selling liquor to traveling men.

### Seal Tips Boat; Girl and Youth in Bog

Los Angeles, Cal.—Two hours in the grip of a bog after a hard swim for their lives when their canoe was capsized by a seal in the waters of a canal at Naples, and being rescued finally when almost exhausted, is the experience of William J. Prentiss of Boise, Idaho, and Miss Marie Marten of Oakland. Their cries for help were unheard by passing motorists on the Long Beach-Seal Beach road, 500 yards distant, and it was only when Howard and Stephen Henderson, fishermen, saw the overturned canoe and heard faint shouts that rescue came.

### "DEAD" MAN IN TIME TO STOP FUNERAL

Findings Parlor Cleared, Ready for Corpse and Family Sending Invitations.

New York.—Peter Keenan, a New York city watchman, arrived home one night recently just in time to stop invitations for his funeral being sent out. He found his wife in mourning and the parlor cleared of furniture for the reception of his corpse.

The preparations for a funeral had been caused by the fact that a few hours previous, his brother, Thomas, had identified the body of a man who had dropped dead as being Peter

The body was taken to an undertaker to be prepared for burial. Meanwhile, Thomas, who took charge of the funeral arrangements, started out to notify Peter's employer, a contractor, of the sudden death of Peter. When he opened the door of the watchman's shanty, he was confronted by Peter himself.

"Is that you, Peter, or is it your ghost?" asked Thomas, accompanying his query with a kick at the other's shins.

Peter let out a howl which convinced Thomas that he was still alive and in good health. Thomas then explained the death of Peter's double, and the two brothers hurried home to call off the funeral.

Gen. Alvaro Obregon, in a statement at Nogales, Ariz., regarding reports of revolts in parts of Mexico against the de facto government, said the revolting generals are former Carranza adherents who fear punishment by the present government on graft charges. The revolts, the general said, are confined to two or three local sections and are regarded as a bluff, preceding flight of the revolting parties to the mountains as fugitives from justice.

**Simply Worn Out**

**How Many Women Are Like This?**  
Can anything be more wearing for women than the ceaseless round of household duties? Oh! the monotony of it all—work and drudge; no time to be sick; tired, ailing, yet cannot stop. There comes a time when something "snaps" and they find themselves "simply worn out," and to make matters worse, have contracted serious feminine disorder which almost always follows the constant overtaxing of a woman's strength.

**Then they should remember that there is no remedy like Lydia E. Pinkham's Vegetable Compound—the experience of these two women establishes that fact:**

**Cedar Rapids, Ia.—**"After the birth of my last child I had such painful spells of what would unfit me entirely for my household. I suffered for months and the doctor said that my trouble was organic ulcers and I would have to have an operation. That was an awful thing to me, with a young baby and four other children, so one day I thought of Lydia E. Pinkham's Vegetable Compound and how it had helped me years before and I decided to try it again. I took five bottles of Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and they have cured me. Now I do my own household work, washing and ironing and sewing for my family and also do sewing for other people. I still take a bottle of Vegetable Compound every spring for a tonic. I recommend your medicine to others who have troubles similar to mine and you can use my letter if you wish."—Mrs. PAUL PAPERKUS, 1325 Stone St., Sandusky, Ohio.

**Sandusky, Ohio.—**"After the birth of my baby I had organic trouble. My doctor said it was caused by too heavy lifting and I would have to have an operation. I would not consent to an operation and let it go for over a year, having my sister do my work for me as I was not able to walk. One day my aunt came to see me and told me about your medicine—said it cured her of the same thing. I took Lydia E. Pinkham's Vegetable Compound and used Lydia E. HOW FAYETTE COUNTY PEOPLE ARE SAVING

Fayette County, Texas, is a community of homes and large families. Its inhabitants are proving that it is also a community of thrift, saving and safe investment and disproving the theory that large families are an obstacle to saving. These facts are clearly shown by reports to the Savings Division of the Treasury from residents of foreign birth and extraction who have pledged themselves to save - systematically a certain sum before the end of this year and invest it in government securities. John Baca, with 12 members in his family, heads the list with a pledge of \$500 between now and Dec. 31. Josef Stryk and J. Smolik, each responsible for the support and happiness of 7 citizens and F. L. Herzik with 4 in his family have each pledged themselves to buy \$100 worth of War Savings Stamps before the new year. Josef Stanny has a household of 10, but he declared himself both able and willing to save and invest a like amount. In the \$50 column are Frank Buzek, John Michal and John Mikulik Sr., all with families, while John J. Novak with 8 and J. Horlica with 11 dependent upon them are going to save \$10 each. What are you going to save?
