HEAVY FIRE LOSS

The N. M. C. store house,

which contained also the shop

offices and books, and the water

tank at this place were destroyed

the store room and gained headway with such a rush that only

a desk and table and some pa-

pers were saved from the offices.

E. L. Cox and General Man-ager Ten Eyck were in the offices when the fire started. When they became aware that something was happening in the store room and opened the door, the waate was filling the whole room with blaze and the whole

by fire Sunday afternoon. The fire started in the waste in

NEW REGISTRATION NEW CALL

lowing message: ''All persons who have at-tained their 21st birthday since June, 1918, and on or before the 24th of the present month, will register on Saturday the 24th, between 7a. m. and 9. p. m. Don't confuse this with the registration in September.'' There is a call for 25 menter the 5-de

m. Don't confuse this with the registration in September." There is a call for 25 men to entrain for Camp Pike, Ark., in the 5-day period beginning Aug. 26th. The list has not been made up, but the men will be taken from the old list of regis-trants as far as possible, and bal-ance if any, made up from June registrants. registrants. the shop walls and roof wet by means of ladders and a bucket brigade. There was some danger to this building and prob-

RED CROSS

ably the wetting saved it. The loss is quite heavy, es-timated at \$7,000. Two cars of cement had been recently put in The A. R. C., the official pub-lication of the Red Cross is re-ceived by the secretary each week. All members of the ex-ecutive board, and supervisors should have one. Mr. Bennett is not always in his office, so hereafter these will be left at the work room and all interested in Red Cross work please call for a copy.

The sewing at the work room is increasing each month. By September 1st the county must have two hundred pairs of ladies' muslin drawers for the Belgian refugees completed refugees completed and ready to ship to the Denver warehouses. Of the above number Estancia will make one hundred pairs. The attendance each afternoon has increased some, but still completed. more are urged to come.

The ladies of the Catholic church will meet with the Ladies' Aid of the Methodist church to sew at the work room each Friday afternoon hereafter. Mrs. Coombs will keep all the small children at the M. E. church and entertain them. This will enable nearly every woman of either church to attend.

The following have recently joined and renewed their mem-

TION COMMITTEE

Governor Lindsey has appointdovernor Lindsey has appoint-ed Mrs. Ewing chairman of the Health and Recreation Commit-tee of of Torrance county, with Dr. Wiggins, Mrs. Parrett, Mrs. Fish, Mrs. McGee and Mrs. Romero as members of the com-mittee

mittee. The duty of this committee is to aid in every way to put before the parents the need of medical attention for the children of the county.

by having a county nurse to discover the various defects of eye, ear, throat, nose, and teeth, these troubles may be brought to the attention of the parents in time to save the child from great-ter defects later in life. This er defects later in life. This committee is to act in cc-opera tion with the Child Welfare Com-mittee of which Mrs. Garvin is chairman, in securing a county nurse and bring Torrance county up into line with other counties of the state.

Another duty is to bring our play grounds up to the standard by advising suitable playground fixtures to provide healthful

recreation. The following chairmen have been appointed by our chairman in the different towns of the

county: county: Moriarty, Mrs. Fincke: Moun-tainair, Mrs. Parton; Willard, Mrs. L. E. Hanlon; McIntosh, Mrs. Wagner; Lucy, Mrs. Wat-kins; Tajique, Mrs. Dow; Tor-reon, Jesus Candelaria; Man-zano, Rev. Gauthier; Cedarvale, Mrs. Lively: Duran, Mrs. Robert Bourne; Progresso, Mrs. C. M. Pearce; Encino, Mrs. Roy Brown.

Rumors of Political War

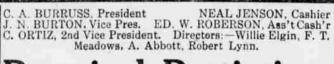

From all appearances there is Miguel county this fall. Don Eugenio Romero, who has held the position of treasurer for the past twenty years or more, can hold on no longer, because under our constitution all office holders our constitution all office holders are limited to two terms. To keep the office in the family, and as one of the sons, Don Sec-undino, wants to be sheriff, Don Cleofes, another son, who for some years has been living at Estancia. Torrance county and as that county is sure to go Democratic this fall, has decided to move here and he will be the to move here and he will be the candidate to succeed his father as county treasurer. According as county treasurer. According to the plan Secundino is to run for sheriff, Cleofes for treasurer and Lorenzo for secretary of state. The Romero family have held the important offices of the county for so long that they have have been a justificiant Don

"ROARING BILL" FINALLY ADMITS HE IS TAKING HAZEL TO HIS CABIN IN THE MOUNTAINS

Synopsis .---- Miss Hazel Weir is employed as a stenographer in the of Harrington & Bush at Granville, Ontario. She is engaged to office Jack Barrow, a young real estate agent. Mr. Bush, Hazel's employer, suddenly notices her attractiveness and at once makes her his private stenographer. After three months Bush proposes marriage. Hazel refuses, and after a stormy scene, in which Bush warns her he will refuses, and after a stormy scene, in which Bush warns her he will make her sorry for her action, Hazel leaves the office, never to return. Shortly after this Bush is thrown from his horse and killed. Publica-tion of his will discloses that he left Hazel \$5,000 in "reparation for any wrong I may have done her." Jack Barrow, in a jenious rage, demands an explanation, and Hazel, her pride burt, refuses. Hazel's engagement is broken and, to escape from her surroundings, she se-cures a position as schoolteacher at Cariboo Mendows, in a wild part of British Columbia. There, at a boarding house, she first sees "Roaring Public Wessing" a well-known character of their country. Soon star her Bill" Wagstaff, a well-known character of that country. Soon after her arrival Hazel loses her way while walking in the woods. She wanders until night when she reaches "Roaring Bill's" camp fire in the woods. He promises to take her home in the morning, but she is compelled to spend the night in the woods.

"You're learning fast," he called

back. "You'll be able to run a pack train by and by."

The afternoon wore on without bringing them any nearer Cariboo Meadows so far as Hazel could see.

Traveling over a country swathed in timber and diversified in contour, she could not tell whether Roaring Bill

swung in a circle or bore straight for

She called a halt at four o'clock. "Mr. Wagstaff !"

Bill stopped his horses and came back to her. "Aren't we ever going to get any-

He shook his hend. "They're few and far between," he said. "Don't worry, though. It isn't a life-and-death

matter. If we were out here without grub or horses it might be tough.

You're in no danger from exposure or

hunger.

knows her."

CHAPTER V.

In Deep Water. The dawn thrust aside night's som her curtains while they ate, revealing a sky overcast with slaty clouds. What with her wanderings of the night be-fore and the journey through the dark with Ronring Bill, she had absolutely no idea of either direction or locality The infolding timber shut off the out

look. "Do you suppose I can get home in "Do you suppose I can get home in time to open school?" she inquired anxiously.

Roaring Bill smiled. "I don't know," "You know where you are now,

where?" she asked soberly. " afraid I can't ride much longer. could walk if you wouldn't go so fast. Aren't there any ranches in this coun-try at all?" don't you?" she asked. "Not exactly," he responded. "But I will before long—I hope." The ambiguity of his answer did not

escape her. She puzzled over it while Silk ambled sedately behind the other horses. She hoped that Bill Wagstaff knew where he was going. If he did not-but she refused to entertain the alternative. And she began to watch eagerly for some sign of familiar ground.

For two hours Roaring Bill trampled through aisles bordered with pine and spruce and fir, through thickets of berry bush, and across limited areas of grassy meadow. Not once did they cross a road or a trail. Eventually Bill halted at a small stream to get a drink. Hazel looked at her watch. It was half past eight.

"Aren't we ever going to get there?" she called impatiently.

"Pretty soon," he called back, and struck out briskly again.

Another hour passed. Ahend of her, leading one pack horse and letting the other follow untrammeled, Roaring Bill kept doggedly on, halting for noth-

ing, never looking back. They crossed a ravine and slanted up a steep hillside. Presently Hazel could look away over an area of wood-land undulating like a heavy ground swoll at sea. Here and there ridges stood forth boldly above the general roll, and distantly she could descry a white-capped mountain range. They turned the end of a thick patch of pine scrub, and Bill pulled up in a small opening. From a case swinging at his belt he took out a pair of field glasses.

"Well?" Hazel interrogated. "Nothing in sight, is there?" Bill said of taking advantage of a woman. "If the sun thoughtfully. "If the sun was out, now. Funny I can't spot that Soda Creek trail."

Don't you know this country at

ing and washed the few dishes, night shut down black as the pit. shut down black as the pit. They taiked little. Hazel was in the grip of utter forloraness, moody, wish-ful to cry. Roaring Bill humped on his side of the fire, staring thoughtfully into the blaze. After a long period of abstraction he glanced at his watch, then arose and silently arranged her bad After that he spread his saddla

bed. After that he spread his saddle blankets and lay down.

Hazel crept into the covers and qui-etly sobbed herself to sleep. The huge and silent land appalled her.

As on the previous night, she wakened often and glanced over to the fire. Roaring Bill kept his accustomed position, flat in the glow. She had no fear of him now.

Night passed, and dawn ushered in a clearing sky. Ragged wisps of clouds chased each other across the blue when they set out again. Hazel walked the stiffness out of her muscles before she mounted. When she did get on Silk, Roaring Bill increased his pace. He was long-legged and light of foot, npparently tireless. She asked no ques-tions. What was the use? He would eventually come out somewhere. She was resigned to wait.

After a time she began to puzzle, and the old uneasiness came back. The last trailing banner of cloud vanished, and the sun rode clear in an opal sky, smiling benignly down on the forested smilling benignly down on the forested land. She was thus enabled to locate the cardinal points of the compass. Wherefore she took to gauging their course by the shadows. And the result was what set her to thinking. Over level and ridge and swampy hollow, Roaring Bill drove straight north in course producting the she received an undeviating line. She recollected that the point from which she had lost her way had lain northeast of Cariboo Mendows. Even if they had swung in a circle, they could scarcely be pointing for the town in that direction. For another hour Bill held to the northern line as a needle holds to the pole. A swift rush of misgiving seized

"Mr. Wagstaff !" she called sharply. Roaring Bill stopped, and she rode Silk up past the pack horses.

wave of despondency swept over her, and her eyes grew suddenly bright with the tears she strove to keep back. "If we wander around in the woods much longer, I'll simply be a sensation when I get back to Cariboo Meadows. "Where are you taking me?" she demanded

I won't have a shred of reputation left. It will probably result in my losing the school. You're a man, and it's differ-

"Why, I'm taking you home—or try-ing to," he answered mildly. "But you're going north." she de-clared. "You've been going north all ent with you. You can't know what a girl has to contend with where no one morning. I was north of Cariboo Meadows when I got lost. How can we get back to Cariboo Meadows by going still farther north?"

knows her." Roaring Bill looked up at her im-passively. "I know," he snid, as if he had read her thought. "But what's the difference? Cariboo Meadows is only a fleabite. If you're right, and you know you're right, you can look the world in the eye and tell it col-lectively to go to the devil. Besides, you've got a perverted idea. People ereo't so ready to give you the bad eye "You're more of a woodsman than l imagined," Bill remarked gently. He smiled up at her, and drew out his

pipe and tobacco pouch. She looked at him for a minute "Do you know where we are now?" she asked quietly.

He met her keen gaze calmly. "I aren't so ready to give you the bad eye on somebody else's say-so. It would do," he made laconic answer. "Which way is Cariboo Meadows take a lot more than a flash drum-mer's word to convince me that you're

then, and how far is it?" she demanda naughty little girl. Pshaw-forget "General direction, south," he re-

plied slowly. "Fifty miles more or less. Rather more than less." "And you've been leading me straight north !" she cried. "Oh, what Hazel colored hotly, but for the lat hazet colored hour, but for the int-ter part of his speech she could have hugged him. Bill Wagstaff went a long way, in those brief sentences, toward demolishing her conviction that no man ever overlooked an opportunity

am I going to do?" "Keep right on going." Wagstaff an-

swered. "I won't-I won't !" she finshed. I'll "Well, let's get somewhere," he said find my own way back. What devilish abruptly. "If you're too saddle sore to ride, walk a while. I'll go slower." She walked, and the exercise re impulse prompted you to do such a

thing?"

of bedding by it for her to sit on. myself. And that,"—he came close Dusk crept over the forest while he cooked the supper, making a bannock better place than Cariboo Meadows. I've got a little house back in the woods. There's grub there, and meat in the forest, and fish in the streams It's home for me. Why should I go back to Cariboo Meadows? Or you?" "Why should I go with you?" she demanded scornfully.

"Because I want you to," he murmured.

They matched glances for a second, Wagstaff smiling, she half horrified. "Are you clean mad?" she asked an-grily. "I was beginning to think you

a gentleman." Bill threw back his head and

laughed. Then on the instant he so-"Not a gentleman," he said. bered.

Bearing on His Shoulders a Canoe.

"I'm a plain man. And lonesome sometimes for a mate, as nature has or dained to be the way of flesh."

"Get a squaw, then," she sneered. "Twe heard that such people as you do that." "Not me," he returned, unruffled, "I

want a woman of my own kind." "Heaven save me from that classifi-

cation !" she observed, with emphasis on the pronoun. "Yes?" he drawled. "Well, there's

no profit in arguing the point. Let's be getting on." He reached for the lead rope of the

Hazel urged Silk up a step. "Mr. Wagstaff," she cried, "I must go back." "You can't go back without me," he said. "And I'm not traveling that way,

thank you." "Please-ob, please I" she begged for-

lornly. Roaring Bill's face hardened. "I will not," he said flatly. "I'm going to play the game my way. And I'll play

fair. That's the only promise I will make." She took a look at the encompassing

woods, and her heart sank at facing those shadowy stretches alone and un-guided. The truth of his statement that she would never reach Cariboo Meadows forced itself home. There

Meadows forced itself home. There was but the one way out, and her wom-an's wit would have to save her. "Go on, then," she gritted, in a swift surge of anger. "I am afraid to face this country alone. I admit my help-lessness. But, so help me heaven, I'll make you pay for this dirty trick! You're not a man! You're a cur-as wilcoschle. contemutible scounded!" miserable, contemptible scoundrel!" "Whew!" Roaring Bill laughed.

"Those are pretty names. Just the same, I admire your grit. Well, here

Thereafter, day by day, the miles un-rolled behind them. Always Roaring Bill faced straight north. For a week he kept on tirelessly, and a consuming desire to know how far he intended to go began to take hold of her. At last they dropped into a valley where the woods thinned out, and down the center of which flowed a sizable river. This they followed north a matter of three days On the west the valley

ind we a second for it was a plager

wall ran to a timbered ridge. Then the stream they followed merged itself in another, both wide and deep, which flowed west through a

level-bottomed valley three miles or more in width. Roaring Bill halted on the river bank and stripped his horses clean, though it was but two in the afternoon and their midday fire less than an hour extinguished. She watched him curlously. When his packs were off he beckoned to her. "Hold them a minute," he said, and put the lead ropes in her hand.

Then he went up the bank into a thicket of saskatoons. Out of this he presently emerged, bearing on his shoulders a canoe, old and weather-beaten, but stanch, for it rode light as a feather on the stream. Bill seated himself in the canoe, holding to BIII Silk's lead rope. The other two he left free. "Now," he directed, "when I start

across, you drive Nigger and Satin in if they show signs of hanging back. Bounce a rock or two off them if they lag."

Her task was an easy one, for Satin and Nigger followed Silk unhesitat-ingly. The river lapped along the sleek sides of them for fifty yards. Then they dropped suddenly into swimming water, and the current swept them downstream slantwise for the opposite shore, only their heads showing Brollers, 142 to 2 lbs..... what river it might be. It was a good quarter of a mile wide, and swift.

Roaring Bill did not trouble to en-lighten her as to the locality. When he got back he stowed the saddle and

ack equipment in the canoe. "All aboard for the north side," he pack

enid boyishly. And Hazel climbed obe-diently amidships. On the farther side, Bill emptied the On the farther side, Bill empired the cance, and stowed it out of sight in a convenient thicket, repacked his horses and struck out again. Hazel drew upon her knowledge of British Columbia geography, and decided that the big river where Bill hid his cance was he the Fraser where it debouched

must be the Fraser where it debouched from the mountains. And in that case she was far north, and in a wilderness indeed.

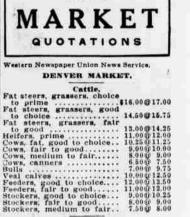

Her muscles gradually hardened to the saddle and to walking. Her appe-tite grew in proportion. The small sup-ply of eatable dainties that Roaring Bill had brought from the Meadows dwindled and disappeared, until they were living on bannocks baked a la frontiar in his frying pan, on beans and coffee, and venison killed by the way. Yet she relished the coarse fare even while she rebelled against the cir-

cumstances of its partaking, "Do you realize," she broke out one evening over the fire, "that this is sim-

ply abduction?" "Not at all," Bill answered prompt-

ly. "Abduction means to take away ry. "Addiction means to take away surreptitionsly by force, to carry away wrongfully and by violence any human being, to kidnap. Now, you can't by any stretch of the imagination accuse me of force, violence or kidnapingnot by a long shot. You merely wan-dered into my camp, and it wasn't con-

venient for me to turn back. There-fore circumstances-not my act, re-member-made it advisable for you to

all?" she said gloomily.

"I thought I did," he replied. "But I can't seem to get my bearings to work out correctly. I'm awfully sorry to keep you in such a pickle. But it can't be helped

He took up the lead rope and moved on. They dropped over the ridge crest and once more into the woods. Roaring Bill made his next halt beside spring, and fell to unlashing the packs.

"What are you going to do?" Hazel usked.

"Cook a bite, and let the borses graze," he told her. "Do you realize that we've been going since daylight? It's near noon. Horses have to eat and rest once in a while, just the same as human beings."

The logic of this Hazel could not well deny, since she herself was tired and ravenously hungry. By her watch It was just noon.

Rill hobbled out his horses on the grass below the spring, made a fire, and set to work cooking. He worked stiently at the meal getting, fried steaks of venison, and boiled a pot of coffee. They ate. He filled his pipe, while he repacked. Altoand smoked while he repacked. Altoforty minutes at the noon half. Harat now woefully saddle sore, would fain have rested longer, and, in default of resting, tried to walk and lead Sills, Roaring Bill affered no objection to that. But he hit a faster gait. enough at that. She followed till her strength began to fall. And when in spile of her determination she lagged behind, he stopped at the first water. "We'll camp here," he said. "You're about all in, and we can't get anywhere tonight, I see plainly."

Hazvi accepted this dictum as best behind. So she mounted awawardly, and Silk joited and shock her with his rotting until he caught up with his cuttar. Eiß graned over his shoulder. Bill started a fire and fixed the roll any way whatever. But I'm for home she would have none of him.

"You'll have a beautiful time of it."

he said dryly, completely ignoring her inst question. "Take you faree days to walk there-if you knew every foot of the way. And you don't know the way. Traveling in timber is confuslog, as you've discovered. You'll never see Cariboo Meadows, or any other place, if you tackle it single-handed, without grub or matches or bedding. This is a whomping hig country, A good many men have got lost in and other men have found their

He let this sink in while she sa there on his horse choking back a wild desire to curse him by bell, book and candle for what he had done, and hold-

ing in check the fear of what he might yet do. She could not escape the conclusion that Roaring Bill Wagstaff was something of a law unto himself, capable of hewing to the line of his own desires at any cost. She realized her utter helplessness, and the realization left her without words. He had drawn a vivid picture, and the instinct of self-

"You misled me." She found her voice at last. "Why?"

"Did I mislend you?" he parried. "Weren't you already lost when you came to my camp? And have I mistreated you in any manner? Have I refused you food, shelter or help?"

"My home is in Cariboo Meadows," she persisted. "I asked you to take me You led me away from there erately, I believe now." there. delibe

"My trail doesn't happen to lead to

He took up the lead rope, and went on without even looking to see if she followed. If he had made the slightest attempt to force her to come, if he had betrayed the least uncertainty as to whether she would come, Hazel would have swung down from the saddle and set her face stubbornly southward in sheer defiance of him. But such is the peculiar complexity of a woman that she took one longing glance backward, and then fell in behind the packs. She was weighted down with dread of the

unknown, bolling over with rage at the man who swung light-footed in the lend; but nevertheless she followed him

All the rest of the day they have stendily northward. Hazel had no idea of Bill Wagstaff's destination. She was too bitter against him to ask, after admitting that she could not face the wilderness alone. She knew nothing of the North, but she thought there must be some mode of communication or transportation. If she could once get in touch with other people-well,

she would show Roaring Bill. O course, getting back to Cariboo Mead ows meant a new start in the world for she had no hope, nor any desire, to teach school there after this epi-

sode. She found herself facing that prospect unmoved, however. The im-portant thing was getting out of her present predicament. Roaring Bill made his camp that

night as if no change in their attitude

had taken place. To all his efforts at conversation she turned a deaf ear and

Authorities admit that the kaiser's strength is still prodigious and that he has large reserves, but all unite in as-DIRECTS THE DRIVE serting that he has passed beyond the high point of power and efficiency and can never regain numerical supremacy, nor can he ever again have the opportunity to achieve a victory that was his two months ago. Those of his peo-ple who know the truth now admit that his ultimate defeat is a certainty. The more fearless papers of Germany and Austria do not hesitate to say this plainly. The military and pan-German plainly. The military and pan-German leaders are held responsible, and as their only hope lies in administering to the allies the crushing blow so long promised by them, it is reasonable to expect another great Hun offensive before long. That is, if Marshai Foch gives them a chance, which doesn't seem to be a part of his present plans, and the

Arrangements for the American-Japanese expedition to Siberia have been going forward rapidly and the Czecho Slovak forces over there will soon have the active support of a small but competent body of allied troops. It is announced that two regiments now in the Philippines will form part of the American contingent, and that it will commanded by Maj. Gen. William S. Graves until recently assistant chief be determined whether he will com-mand the entire expedition. At Viadi-vostok the Americans will be joined by an equal number of Japanese and probably they will first drive from the Amur branch of the trans-Siberian railway the bolsheviki and the Teuton war prisoners who were armed to aid them. Eastern Siberin would then be in the control of the allies and loyal Russians. British forces were landed at Viadivostok last week, for what purpose was not stated.

Japan has given evidence of eager-ness to do more in Siberia than merely aid the Czechs, if she has the excuse, and it is reported that Lenine now plans to declare war on the Japanese, being instigated by Germany. The suc-cesses of the Czechs have had great effect in Austria, and reports from that country tell of the desertion of about a million soldiers of the Austro-Hun-garian army. Eighty thousand of these deserters are living in Vienna and the government fears to take any step

alty announces the output of merchant ships by the allies and neutral nations for the three months ending June 30 exceeded the losses from all causes by 206,000 gross tons. The American yards are now turning out vessels with extraordinary rapidity. The launch-ing of the first one from the great government yard at Hog island was attended by President and Mrs, Wilson.

CS

Our war department's army program was partly revealed to the senate committee on military affairs by General March, chief of staff, when he appeared before it to urge all possible haste in passing the bill extending the draft age limits to eighteen and fortyfive years. Concisely stated, the pro-gram is as follows: Ninety-eight divisions - 3.920.000

en-to make up troops obtained un der existing law.

be sent to France.

Eighteen divisions-720,000 men-to be held in reserve in the United States while additional recruits are being trained.

000 men, minimum strength.

rate of 250,000 men a month until cold weather sets in, meaning over 1,000,000 more men abroad before the first of the year.

the United States can end the war by getting 4,000,000 trained troops, fully equipped, into France, and he intimat-ed that Marshal Foch is only await-ing the arrival of the Americans in full strength to hurl the entire united military strength of the allies at the Huns on the western front. This tre-mendous blow, he intimated, was due to fall next spring. The chief of staff said he did not believe it would be necessary to send the eighteen-year-old class to the firing line, but that the government wants these young men trained and in readiness. He said it would be satisfactory if the bill were passed immediately after congress resumes the transaction of business August 26. Some of the senators be lieved quicker action would be advis-able. Chairman Dent of the house milltary affairs committee, clinging to the anti and ante-war ideas that always have animated his actions, shows no desire to have the bill considered by his committee in time for early pas sage. It was stated that the sensible members of the committee, headed by Representative Kahn, probably would have to take charge of the measure. Why the small-minded Dent is not ousted from his chairmanship of this most important committee remains one

eau in that region which command the Vesle valley. The Germans, in-deed, made strenuous attempts to pre-

vent the French and Americans from crossing the Vesle, especially in the vicinity of Fismes, but numerous relatively small units forced the crossings and held onto their new positions desplte furious counter-attacks. These operations were mostly between Braisne and Fismes. Up to the close hetween of the week Marshal Foch had not tried to send any very large forces

across the river, prohably waiting un-til his artillery could drive the Huns from the nearer hills to the north The Germans were using only medium caliber guns, which was taken to mean that their heavier artillery was being placed north of the Alsne to defend that line; for there seemed little doubt that they would be forced that far north before very long. Their position south of the Alsne was sold to be really untenable though seemingly strong At the west end of the line the French and Americans were steadily pushing east along the Alsne, and at the east end immediately north of Relms the French made considerable advance between the railways running to Laon and Rethel.

The city of Fismes, which was so gallantly taken by the Americans, was an animity finder by against all attacks, though the Germans deluged it with explosive and gas shells. The machine gun and rifle fire of the Yankees was so accurate as to arouse the admiration of their allies. -- 70

Activity increased during the week

against them. Conditions in northern Russia are

very encournging. The allies have been driving the bolsheviki south from Archangel, and a new government has been established in that city embracing half a dozen districts. Volunteer de tachments of White guards are as-sisting the allies. M. I. Terestchenko. minister of foreign affairs in Keren-sky's cabinet, has been assassinated in Poltava.

Seemingly not yet quite satisfied that Zeppelins as raiders are a failure, the Germans sent a fleet of five of these monsters across to raid England last week. Their coming was signaled and they were attacked by the British nir defense before they could reach the coast. One of them was shot down in flames over the sea, its commander the noted Captain Strasser, and all the crew perishing. The other nirships fled.

- 開口 -The submarine pirates continued their depredations in the western Atlantic, torpedoing a number of mer-chant ships and fishing boats and sinking the Diamond Shoals lightship off Cape Hatterns. This last-mentioned

exploit may be part of a set plan of destroying important navigation sig-nals in order to hamper shipping. The doings of the U-bonts, however, no longer cause the allies extreme anx-iety, for it is evident they are on the decline. Addressing the house of commons, Premier Lloyd George said

150 submarines had been sunk by the in the Lys saturnt which the Germans British navy, and the British admir- of the nation, and of profiteering.

government, who were pacifists and small army and navy advocates, have seen the error of their ways long since and are doing everything in their power to help win the war, but no such light illuminates the dense mind of Dent.

of the mysteries. Other men connect

the

ed with the administration and

The house ways and means committee is still busy with the next revenue measure. Secretary of the Treasury McAdoo has informed Chairman Kitchin that he is strongly in favor of a flat war profits tax of 80 per cent, which he believes would render unnecessary any increase in the existing excess profits tax rate, and would also be found the only way to reach real war profiteering. The committee has profiteering. The committee has agreed upon a section that would call on the president to pay a tax of \$24-000 as his part of the country's financial war burden and under which the Supreme court justices, all federal Supreme court institutes, and reductation index and all state officers would be traxed. "There is a great sentiment all over the country." said Mr. Kitchin. "that no one should be exempted from which the Villable. taxation." In which Mr. Klichin speaks the exact truth.

The federal trade commission has recommended that the government take control of all the principal stockyards, cold-storage plants and warecars in order to destroy the monopoly which it declares is exercised by Swift & Co., Armour & Co., Morris & Co., Wilson & Co., Inc., and the Cudahy Pack-ing company. The commission ac-cuses these concerns of illegally and oppressively controlling and manipu-lating the ment and other food supplies

- 80 -

Raymond T. Sanchez

A BOX FROM HOME

Food savings of millions of Americans during our first year of war enabled this government to send enormous food shipments abroad for our fighting forces and the Allied nations. Our savings in cereals—out of a short crop—amounted to 154,900,000 bushels; all of which was shipped to Europe. We increased our meat and fat shipments 844,600,000 pounds. This was America's "box from home" to our army abroad and the civilians and military forces of the Allied nations.

MERICA has several excellent war time sweeteners that will be used largely during the shortage in the sugar supply.

They are maple sugar, syrups, honey and molasses and may be used in preparing des-serts and other dishes requiring sweetening. When a cup of syrup or honey is used to replace a cup of sugar the liquid in the recipes should be decreased one-fourth. One-third of a cupful of sugar is equivalent to one-third of a cup of honey, about onehalf cup of syrup and about one-half cup of corn sugar. One-fourth of a cup of sugar is equal to about one-half cup of syrup or one-third cup of corn sugar. One tablespoon of sugar is equal to one tablespoon of honey, about one and one-half tablespoons of syrup and one and one-third tablespoons of corn sugar. Sugar may be saved by the use of raisins, dates, figs, dried pears and fruit pastes used on the breakfast cereals. Fruit marmalades, butters and jellies should be used to take the place of the ordinary sweetening at a meal and not as accessories to it. Fruits may be preserved without sugar. It may be added when sugar is more plentiful. Preserving demands this year a thin syrup instead of a heavy syrup. If sugar is used one-half of the amount may be replaced by another sweetener. Drying is a means of preserving (without sugar) ap-ples, cherries, strawberries and black caps. When ready to use they may have added the needed sugar in the form of a syrup. When sugar is more plentiful fruit juices may be made into jellies or may be used as fruit juices with or without sugar, as beverages, fruit gelatins and frozen desserts. Fresh fruits supply the place of sugar in the diet. They should be used freely. Desserts where sugar is scarce may be made of gelatins, junkets, custards, puddings and cakes.

With Lands. With Which we are sharing sugar. Each Allied nation... in the matter of

sugar consumption—is sharing on nearest possible equal terms the hardships imposed by greatly altered conditions in the world sugar situation. Formerly classed as a luxury, sugar is now a war time essential. The fair

Is now a war time essential, The fair and just division of this essential is in the hands of the various Allied food controllers.

The United States Food Administration has asked this nation to observe a voluntary sugar ration of two pounds per person a month. In the other countries at war with

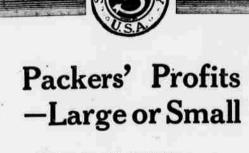

In the other countries at war with Germany sugar is one of the scarce articles on every menu-whether in the households of both rich and poor,

or in the hotels. England today has a sugar ration of two pounds per month per person. In France the ration is a pound and a hulf and in Italy it is one pound a month. And the prices in allied countries are from two to three times as high as in America.

If you go to a hotel in England or France these days and order tea or coffee they serve absolutely no sugar with it. If you want sugar you must bring it with you. In England it is allowable to use

In England it is nilowable to use one-seventh of an ounce of sugar in the preparation of each luncheon. In France many persons carry little saccharine tablets about with them for use in hotels and in England rich and poor must take their sugar with them if they wish to have sweetened tea while visiting friends.

Before the war started France had G25,000 acres devoted to sugar production. By 1917 the French sugar acreage had decreased to 180,000 acres. Today the French man or woman with a sugar card has no assurance whatever that he or she will be able to actually hay sugar. To buy it, one must first upd it

Packers' profits look big-

when the Federal Trade Commission reports that four of them earned \$140,000,000 during the three war years.

Packers' profits look small-

When it is explained that this profit was earned on total sales of over four and a half billion dollars—or only about three cents on each dollar of sales.

This is the relation between profits and sales:

Profits

Sales

If no packer profits had been earned, you could have bought your meat at only a fraction of a cent per pound cheaper?

Packers' profits on meats and animal products have been limited by the Food Administration, since November 1, 1917.

MENTS, SUFFERINGS, HOPES

AND FEARS OF MANKIND.

ABOUT THE WAR

German losses since July 15, the date when the crown prince began his last drive, were unoficially esti-mated at from 300,000 to 350,000, of which 40,000 are prisoners.

To the north of the Picardy theater the Germans have given ground on two important sectors-on the Lys sallent, northwest of La Bassee, and in the region southwest of Ypres, north of Kemmel.

The historic battle ground between Amiens and Montdidier again Thurs-day was the scene of a mighty contest. This time the British and French were the aggressors and under their fierce onslaughts in the first day's battle they penetrated deeply into the Ger-man positions over a front of more than twenty miles, reaching from the region of Braiches to the neighborhood of Moriancourt. All the objectives set for the Australians, Canadians, Eng-lishmen and Frenchmen were attained

Over a curving front of more than twenty miles the British and French troops are continuing to sweep back the Germans eastward across the plains of Picardy from the region north of the Somme, east of Morian-court, to the eastern bank of the Avre, northwest of Montdidler. As on the first day of the offensive, material progress was made Friday over the entire battle front. Many villages has enlisted in the naval reserves as a first class yeoman. were captured; the bag of prisoners was largely increased; numerous guns and great quantities of war stores taken and heavy casualties were scratch race in New York. Kahana-moku won by three feet in 20 4-5 secinflicted. The losses of the Anglo-French forces are relatively small.

On the north the British captured Morlancourt and pressed on eastward, while to the south, northwest of Montdidier, Pierrepont, Contoire and Arvillers were taken by the French, who drove in their wedge to a distance of more than eight and a half miles. The tanks, armored cars and cavalry are still working throughout the entire region, while nirplanes are soaring far behind the lines, bombing transport and troop movements and also paying particular attention to the bridges over the Somme, by which the enemy is endeavoring to escape. All behind the line the Germans are destroying ammunition depots as they quit their positions.

HAD LAUGH ON GERMAN SPY

How Charles M. Schwab Made a Monkey Out of Emissary of of Kaiser.

"Charles M. Schwab had an advenure with a German spy," said a Phildelphia editor, "a short time before we entered the war.

"Mr. Schwab went out to Chicago on some munitions business, and the spy dogged him like a shadow all the way-dogged him all over the Windy city, too.

"One evening, to fool the fellow, Mr. Schwab wrote some fake telegrams in the hotel library, and then he tore a couple of the telegrams up, scattered them on the floor and hurried from the room.

"The spy, who was, of course, right on the job, didn't follow him out right away. That was what he had expect-ed, and so after a bit he stole back on

tiptoe to take Mr. Spy by surprise. "What he saw made him smile. The spy was down on his hands and knees gathering up and putting together the

lars in the coveted yellow metal.

the British line and gained the out-skirts of Lihons. A counter attack re-stored the British line and the enemy retired to positions east and north Unofficial reports credit the British with entering Chaulnes and the British cavalry with a notable advance.

The greater progress has been made by the French from the region immediately southwest of Roye to the Oise river. Here they have driven their line well across the Roye-Compeigne road, and at Cambronne have reached the road leading from Compeigne to Noyon. Since the capture of Montdidler the French have penetrated eastward to Tilloly, a distance of about seven miles, and to Canny-Sur-Matz, more than eight and a half miles, and through the hilly region southward to the Oise have averaged gains exceeding six miles over a front of twelve miles.

The stiffening of the German defense does not, in the minds of observers on the battle front, indicate that the retreat of the enemy has ended. Rather, it is assumed, that these maneuvers are similar to those carried out over the Marne front. Aviators have destroyed all the

bridges across the Somme from the region of Peronne southward, and with the enemy's communicating lines is of the allies or dominated by their guns, the retrograde movement necessarily must be slow.

wiped out, fell to the French First army at midday Saturday. The Germans have materially stiffened their defense against the British, American and French troops on the Picardy battle front, but they have been unable to stem the tide, Although the forward push of the allies has been slowed down, they have

made important progress from the porth of the Somme, where the Amer-icans and British are fighting to-geiner, to the northern bank of the Oise, held by the French. Americans and British are pressing

In addition to its original holdings of 1,040 acres in the Warm Springs dome, near Thermopolis, the Kansas-Colorado Oil and Refining Company has acquired 320 acres in section 23, township 49, range 91 west, in Big Horn county. This latter property, the management reports, has two wells with an estimated production of from ten to fifteen barrels each of a high grade of lubricating oil, which is found at a depth of from 246 to 300 fuet.

Intensive air fighting is proceeding over the battle line. In Friday's battles thirty-nine German machines were destroyed and twenty-two driven down out of control. The British war of-fice acknowledges that twenty-three British machines are missing.

SIXTY-SIX KILLED IN HOLDUP.

Villa Followers Rob and Slaughter Mexican Train Passengers.

El Paso, Tex .-- Twenty-six passengers and forty soldiers of the train guard of fifty men were killed, and seventy soldiers and civilians wounded when the northbound train on the Mexican Central railroad was held up at Consuelo, Chihuahua, fifty miles south of Chihauhua City, Mexico, Saturday.

Time to Hit the Enemy Hard.

Washington .- While expressing the greatest satisfaction over the allied successes and the part American troops have taken in these victories, Gen. March sounded warning against overoptimism in his talk with news paper correspondents. "It is no time to talk about the war being over." Gen. Marsh exclaimed. "It is the to hit the enemy hard." Gen. 1 Gen. March paid high tribute to the Rainbow division, crediting it with decimating three German divisions, including the crack Prussian guards.

That the real Huns of the world, no natter where they may be found, must be either isolated or destroyed as completely as the Romans destroyed the Carthagenians was the declaration made by Governor W. E. Lindsey, in an address delivered at the State University at Albuquerque. "As the Rom ans destroyed the Carthagenians so that they have no descendants must the allies destroy the Huns," Gov

ernor Lindsey said.

Mrs. J. F. Mills was killed by a San ta Fé passenger train near Hagerman when the car in which she was riding with her husband and daughter was struck. The latter two were seriously injured about the head and back and it is feared internally. Another daughter in the car sustained very slight hurts.

Joseph Mahoney of Deming was appointed a regent of the New Mexico Normal School at Silver City in succession to the late John Corbett of Deming.

torn bits of fake telegram.

"Mr. Schwab, standing in the doorway, gave a loud laugh. Then he said

"What do you want to be when you ow up?" was asked of a small boy grow up?" by the visitor.

"Oh," said he, "I want to be a man, but I think mamma wants me to be a lady."-Buffalo News

REDUCING MOUSE AND RAT DAMAGE

Where Food Is Abundant It Is Impossible to Clear Premises of All Rodents.

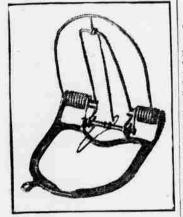

GUILLOTINE TRAP IN FAVOR

Other Devices More Simple in Con struction Are Preferable-Vienna Sausage or Fried Bacon Makes Excellent Bait.

(Prepared by the United States Depart-ment of Agriculture.)

Owing to their cunning, it is not always easy to clear rats from premises by trapping; if food is abundant, it is impossible. A few adults refuse to enter the most innocent-looking trap. And yet trapping, if persistently followed, is one of the most effec-tive ways of destroying the animals.

Guillotine Trap. For general use the improved modern traps with a wire fall released by a baited trigger and driven by a colled spring have marked advantages over the old forms and many of them may used at the same time. These

simply constructed are prefer Probably those made entirely W able. tron metal bases are not recommende

Guillotine traps of the type shown should be baited with small pieces of Vienna sausage (Wienerwurst) or fried bacon. A small section of an fried bacon. A small section of an ear of corn is an excellent balt if other grain is not present. The trig-ger wire should be bent inward to bring the balt into proper position for the fall to strike the rat in the rack. neck.

Other Excellent Baits.

Other excellent balts for rats and mice are oatmenl, tonsted cheese, tonsted bread (buttered), fish, fish offal, fresh liver, raw meat, pine nuts, apples, carrots and corn, and sun-flower, squash or pumpkin seeds, Broken fresh eggs are good bait at all seasons and ripe tomatoes, green cucumbers and other fresh vegetables are very tempting to the animals in winter. When seed, grain or meal is used with a guillotine trap, it is put on the trigger plate or the trigger wire may be bent outward and the

bait placed directly under it. Oatmeni (rolled oats) is recom-mended as a bait for guillotine traps made with wooden base and trigger plate. These traps are especially convenient to use on ledges or other nar-dow rat runs or at the openings of rat burrows. They are often used without balt.

A common mistake in trapping for rats or mice is to use only one or two

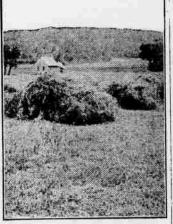

Fair Day's Work for Loading, Hauling and Putting Into Barn With Horse Fork Is About Five Tons per Man-Haul All Day.

(Prepared by the United States Depart-ment of Agriculture.)

The haying season for tame hay asts about ten days. Sometimes lasts about ten days. Sometimes when the weather is unfavorable or the acreage is large it takes longer to get the hay made. The hay grower should plan to get his hay made with in two weeks at most, if possible. If the amount of hay each machine will handle per hour or per day and the amount of labor required per ton is known, plans can be made to make a

certain amount of hay per day. It has been found that, under aver-age conditions, mowers, tedders and nge conditions, mowers, tedders and sulky rakes will cover two acres per foot in width of the machine per ten-hour day. That is, a five-foot mower will cut ten acres per day, a Guillotine Trap Made Entirely of Metal. traps, sometimes called "guillotine" traps, are of many designs, but the more simply constructed are profer fork is about five or six acres per day. A about five or six acres per day. A about five or six acres per day. A how of the barn with a hose fork is about five to some per man

ork is about five tons per man. When the haying senson comes ar able. Probably those made entrely of metal are the best, as they are more durable. Traps with the or sheet-tron metal bases are not recom-many farms in the East the best re-many farms in the East the best results are not obtained, because hay is hauled only in the afternoon. This practice lengthens the having season and thus increases the chances of damage to the hay from rain and causes hay to lose its natural "tea green" color. The hauling crew

Curing Hay in Bunch-Hay Will Cure Out Better When Loosely Bunched Than When in Swath or Windrow, but a Heavy Rain Will Wet It Clear Through.

Comtesse de Bryas is a Frenchwoman, who came to America last April to represent the American committee for devastated France, and is now en-gaged in an extensive tour of the United States, speaking about her experiences in the war-ridden districts. The comtesse's father is French, but her mother was a Philadelpilian who went to Europe when a small child and was brought up there. Her great grandfathers, George Ciymer and Thomas Willing, and her granduncle, George Read, were all signers of the Declaration of Independence, and one of them, George Clymer, was among the six who helped to frame the Constitution.-Editor's Note. By COMTESSE MADELEINE DE BRYAS.

SOMETIMES meet, in the course of my travels, people who say: "Ah, poor France! Tragic, invaded coun-try!" But to these people I would say: "No, no! You do not know your France. It is not poor France, but noble France. Not tragic trage but heads France." France, but heroic France!" I can best explain my meaning by

describing an incident which took place on the occasion of one of the recent air raids on Paris. An air raid is a nerveracking time. The newspaper accounts and the magazine stories do not tell you one-hundredth of the angulsh lived through by the people who crouch in their cellars, listing to bombs that explode close by and expecting all the time that the next missile will demolish the house over their

The favorite gathering places for civilians during air raids is in the cellars. During the raid of which I speak, one of these underground places was crowded with refugees. But they were not moping or trembling. Instead, they were not stantly joking and laughing about their predicament. They did not for one second lose their fine courage and stanchness.

nne courage and stanchness. When the bombs had ceased to fail, they came up to the street level once more. But they did not breathe great sighs of relief and thank their lucky stars for not being hit. Not they! Their eyes glowed with the fire of unquenched spirit, and they shouk their fire in the direction of the and they shook their fists in the direction of the

and they snow their firsts in the direction of the departing German airplanes. "Those fools!" they shouted. "Those fools! They think they can break us! They do not know us! Never shall we yield! Never!" This is not the only splendid exhibition of French devotion that I have seen with my own owns. The paper in the used readings are no less eyes. The people in the rural regions are no less determined in their ardor. Although nearly fifth of France has been invaded by a ruthless enemy and some portions invaded the second time, these country folk would die rather than

house estaped for the time being. But later on it was ourned by other Germans. When I found It was oursed by other Germans. When I found this woman she was working 18 hours each day was ing for the soldiers. I asked her why she worked so hard and she told me that it was because she had nothing left to her in the wide world, and the only way to keep herself from heartbreak was to be always occupied.

The conditions under which most of these pe The conditions under which most of these peo-ple have been living are horrifying. Their houses are heaps of ruins. You can hardly be-lieve the systematic way in which the Germans proceeded to destroy their dwellings. A bomb was thrown into every house along the line of march. The furniture was all broken up or burned, fruit trees were cut down, and the wells reducted. Yet when the including tide was sween polluted. Yet, when the invading tide was swept back these villagers came back at once to their former homes. This devotion of the French pensant to his little home is something which Ameri-cans can hardly appreciate. He loves it ardently; it is almost a part of him; he cannot bear to leave it.

During the time when they were struggling to rebuil their shattered homes, these peasants had to live in cellars and dugouts. Of course these places were most unhealthy and not fit to these places were most unhealthy and not fit to remain in. I once went down into a cellar in which an old couple was living. The roof of the cellar was so low that when I was seated on a little plank talking to the old people I had to stoop. The floor was entirely mud, and the water seeped in through the walls and trickled down in tiny streamlets. In the corner was the straw bed which had been furnished the old couple seven months before. It was indescribably flithy and so damp that one could twist it and wring water out of it. Yet the chief desire of the old woman was for a plate to eat off. The Germans had' destroyed their crockery and household utensils and they had only one old metal skillet, in which they cooked and from which they ate. In one village I saw a mother who had gone back to live in a little shelter which she had built for herself in the corner formed by the only two remaining walls of her dwelling. Over the top of this place she placed planks. One Mde was open to the weather. The cold, raw weather made it difficult to exist in such a place. I myself have lived in a little wooden building near the front, similar to the barracks in which the soldlers live, and I know the cruel winter weather of these parts of France. The hardship has been greatest on the little children. Oh, the poor children! They no longer play. They have forgotten all their games. They not know what it means to run and laugh and be gay. As they walk along the streets you will see them start suddenly and look over their shoulders in a frightened way. So great has been the terror instilled into them by the Germans An officer told me of seeing two little children An oncer told me of seeing two fittle chainen standing against a wall in the town of Maissin, in the north of France, one day in August, 1914. Across the rond was a burning house. When the French officer asked them why they were waiting the town of the second way in the second but o patiently, they replied that a German had shit their father and mother up in that house and had told them to wait there until they came back to fetch them.

The treatment of children during the German occupation was very terrible. Little tots of four and five, and children on up to the ages of thir-teen and fourteen, were forced to work all day for their enshwers. They were taken into the lowed to come back until seven in the evening. During all that time they were given only one meal. Their tasks were the dig pointoes, cur away the bached-wire entanglements and pick up unexploded shells. After the Germans went away there was no milk to be got because all the cows had been either killed or driven away. In one district there were 500 children who existed for months without a single drop of milk. I met one little girl who had been kept for 20 days on a dist consisting of nothing but bread and soup, the latter being watery and scarcely at all nourish-ing. The treatment of children during the German

ing. The destruction of the schoolhouses has made it impossible for the young children to gain any education. It is no strange thing to encounter **a** boy or girl of eleven who can neither read nor write. In their hideous thoroughness, the Ger-mana destroyed books, pencils, desks and all. Not a thing was left. After the American relief work-ers came into the devastated regions they estab-lished schools and built little wooden buildings in which to carry on the work.

in which to carry on the work. At one school they taid a story of a little girl who was brought in with the other children to learn to read. As soon as she discovered an old chair in one of the corners she immediately a block in and children in utter enforment and old chair in one of the corners she immediately got into it and curled up in utter enjoyment and relaxation. She could not be persuaded to get out of that chair. The teacher inquired why she was so pleased with the chair and learned that the household in which the child lived had not beneficie chairs chair since the first investor of bonsted a single chair since the first invasion of the Germans.

The separation of the children from their par-ents is another very tragic occurrence. In the months and years before they are reunited the children grow and change so that they are not recognizable to their parents when they meet again. Some of them, to be sure, wear on a chain about their names are inscribed. But this is exceptional. It is one of the confessed schemes of the Germans to divide and scatter families as much as possible. My heart bleeds for the children of France! Oh, that they should suffer this unmerited abuse The separation of the children from their par-

Oh, that they should suffer this unmerited abuse and tribulation !

and tribulation! The deportation of young girls has been sys-tematically practiced. A German officer comes to the front door of a house and orders the entire family to assemble outside on the door step. Then he picks at random a number of the younger women of the family. "I will take you . . . and you . . . and you!" he says, indicating the chosen ones with his foreinger. At this sum-mons they must leave their homes at once. They are not allowed to pack their beiongings nor to mons they must leave their beiongings nor to are not sllowed to pack their beiongings nor to carry much baggage. They are permitted only so much as they can carry wrapped in a handkerchlef. After they are taken into Germany they are put to work cultivating the fields, doing the bardest and most menial kind of labor. They are forced to live with the soldiers, and are They rudely treated by them. They can send no word to their families, and it is almost as though they were dead. The relief work in the invaded districts has been tireless. Great credit is due to the American committee for devastated France, organized by Miss Anne Morgan. Over 1,000 children have been turned over to this committee to be cared for. One of its most useful works has been in for. assisting the stricken people to leave their homes so long as there is danger from the Germans in the vicinity. Pitiful stories are told of the flight of these people. One old woman refused to be separated from her goat in transit, and would only consent to go when she could be assured another goat could be got in case her own was lost. France has been hard-tried, but she is not Never has the morale of the French people been more unshaken than it is today. broken. France hails with joy the arrival of the Americans. It is most fitting that these great sister republics should be fighting side by side in this Victory will be won; it is inhour of stress. evitable! But ah, the pain, the woe and the unnecessary degradation that have followed in the wake of the invaders! Will the world ever forthese? Can the bitter memory ever be effaced?

traps when dozens are needed. For large establishment hundreds of traps may be used to advantage and a dozen is none too many for an ordinary barn or dwelling infested with rats. House mice are less suspicious than rats and are much more easily trapped.

FIND VALUE IN SUNFLOWERS

In Regions Where Corn Does Not Thrive Crop May Be Used as Substitute for Silage,

(Prepared by the United States Depart-ment of Agriculture.)

Experiments with sunflowers to deermine their suitability for sliage are being conducted in the western United States by the bureau of plant industry, in co-operation with state experiment stations. There are indications that this crop may be specially useful in regions where the growing season is too cool for the production of large yields of slinge corn. The experiments were begun in 1917 at Huntley, Monand Scottsbluff, Nebraska, and the first year's results led the investi- day. gators to extend the work to other points this year. In 1917 the yields of sunflower silage exceeded those of corn silage in the same fields from 50 to 100 per cent. Yields of more than 20 tons per acre were obtained under irrigation. Preliminary feeding tests have indicated that the sumflower si- ly on flies, bugs, grasshoppers and the inge may be substituted satisfactorly like. for corn silage, but directly comparable results have not yet been ob-tained in sufficient volume to justify a full statement as to the comparative values of the two feeds.

should work all day, or at least start as soon as the dew is off, unless there is other more important farm work to be done.

Scarcity of labor will sometimes pre vent the hauling crew from working in the morning, if the mowing, tedding and raking are done in the forenoon. When a crew is kept at the barn for

unloading and putting the hay in the mow, the men should be kept busy all of the time, if possible. If a crew can not stay at the barn without con-siderable loss of time, the men should all work in the field, pitching, loading or hauling, two or three coming in with each load to help unload.

It is good practice to have only one day's mowing ahead of the crew haul ing or cocking. Mowers, tedders and sulky rakes should either be used all day or a full half day, whenever they work. In many methods of making hay, one or more of these machines will finish in the middle of the forenoon, and there will be place for the men operating the machines to work at having the remainder of the half

give themselves up to the fo

In a village of the devastated district I found a little old woman who was living alone. She was working at washing linen for the soldiers who were in trenches not far away. Her own house had been burned down by the Germans. she told me her pathetic story. It seems that a German officer who had a very

bad reputation for molesting the civilians had been quartered in her house. After he had been there for a few hours he went to the small stove which heated the house and opened it to put in some wood. But when he put in the stick of wood he allowed the end to protrude, so that, as soon as it began to burn, the fire blazed outward into the room. He then placed a screen near this blazing wood so that it would catch fire. The old woman saw what he was doing and knew that it was his design to burn down her house. He had slready burned a house in the next street in the same manner. Knowing that she was powerless to prevent him, and being filled with despair, she fell on her knees before him. "Sparc me!" she entreated of him. "Spare

house and allow me to live here in peace. What have I ever done to you !"

But she had hardly uttered these words when shame overcame her because she was abasing herself before a German. In another instant she

had risen to her feet. "What am I doing!" she exclaimed. "Je suis I am disgraced. I have entreated a favor perdu! from the foe of my native country.

from the foe of my native country." Then she crossed the room before the aston-ished officer and took up his gun. Placing it in his hands she told him to kill her. "I deserve no less than death," she said. "I have disgraved France by kneeling to ask a favor of one of her counter."

Probably the German officer would have killed woman, but at that moment one of his brother afficers came into the house. He must have had a more tender heart, for he took pity on the old woman and put a stop to the proceedings. So her

THE END OF THE WAR.

A soldier at Camp Grant asked a French lleu-tenant, who was there as instructor, how much longer the war would last. The Frenchman calmly answered: "Well, I am not "ure, but the tenth year will survey be the worst, and after that every seventh year will be bad."

MAKE WORK EASIER

Estancia People Are Pleased to Learn How It Has Been Done.

It's pretty hard to attend to duties With a constantly aching back; With annoying urinary disorders. Doan's Kidney Pills make work eas

er for many a sufferer. They're for bad backs.

For weak kidneys.

Here is convincing proof of merit. Mrs. Philip White, Box 66, Vaughn, N. Mex, says: "I had a bad case of kidney trouble and I thought my back would never stop aching. If I tried to bend over to wash sharp pains caught me in my back and I became awfully dizzy. My kidneys at times were in bad condition and I usually felt tired out and run down. As I had heard about Doan's Kidney Pills, I decided to try them. I received fine relief after I had taken a few doses and about one box entirely removed the trouble." Price 60c, at all dealers Don't sim-

ply ask for a kidney remedy-get

That the draft age be reduced to 18 years; but that young men under 21 be not called into active service until actually needed.

It is the government's policy to train thoroughly as many young men as possible between the ages of 18 and 21 so that they muy be equipped for most efficient military duty.

It is for this purpose the government has established a department of military training in the University of New Mexico.

Young men between the ages of 18 and 21 who enter will be regularly enlisted in the United States service. They will receive college as well as military training. Uniforms, equipment and drill under a regular army officer will be provided, as well as six weeks of intensive training at a regular army training camp at gov. ernment exponse.

The military training department opens with the regular University fail term on October 1st.
