## GOVERNOR DE BACAS DEAD AFTER A LONG ILLNESS; LINDSEY IS NEW RULER OF STATE

**Chief Executive Passed Away Yesterday Afternoon at St. Vincent's Sanitarium in Santa Fe; Pernicious Anemia Cause.**

**BURIAL WILL TAKE PLACE IN LAS VEGAS THURSDAY**

**Body Will be Taken to the Capitol Building Wednesday, Where It Will Lie in State; Both Houses to Take Proper Action.**

**By Associated Press.** Santa Fe, N. M., Feb. 19.—Washington E. Lindsey, Republican of Portales, Roosevelt county, is now governor of New Mexico, having been sworn in in the supreme court room at 10 a. m. today by Justice C. J. Roberts, succeeding E. C. de Baca, Democrat, whose death occurred at St. Vincent's Sanitarium here at 3:29 p. m. yesterday, as the result of a prolonged illness with pernicious anemia.

For some time peacefully that for several minutes it was thought the governor merely was sleeping. With him at the time were his wife, his nurse, two sisters of charity, Archbishop J. B. Pitaval, of New Mexico, and his private secretary, Miss Clara Green. A hour later Lindsey was summoned to a short time previously, saying he wanted to do some work. He made a number of appointments Friday.

While going over executive business with Miss Olson, the governor's resignation became so difficult, she was called and Lindsey was taken to the hospital where they watched the spark of life burn lower but none of them was able to say afterward just when it flickered out.

**Ill for Long Time.** Governor de Baca has been ill for some time, failing health forcing him to take only a minor part in the campaign for his own election last fall. Barely a score of persons attended his inauguration, which was held in his room in a local sanitarium early last January.

Governor de Baca soon after nomination by the Democratic party for the highest state office, went to a hospital in Los Angeles where strenuous measures were taken to combat the disease from which he was suffering. When word came from New Mexico that there was serious doubt whether he would live, Lindsey was notified. He immediately took the train to Santa Fe to take the oath if he had to be carried there on a stretcher. Physicians warned him that he ran serious danger of shortening his life if he left the hospital, but he disregarded those warnings. The strain of the trip told on him severely and further heroic treatment was resorted to. He weakened steadily until he finally gave up his grasp of affairs, a stand which he said to have lessened his chances of recovery.

**A Native New Mexican.** Governor de Baca was 52 years old and a native New Mexican. He gained his education in the public schools of San Miguel county and the Las Vegas College. He gained greatest prominence prior to his assumption of the lieutenant governorship in 1912, as editor of an influential Spanish newspaper at Las Vegas.

When Mr. de Baca assumed the lieutenant governorship he had to preside over one of the most bitter partisan campaigns ever conducted in New Mexico. He was able to gain the friendship and sincere respect of all members of that body, and at the same time, made a record for efficiency and integrity under most difficult conditions which was a large factor in winning him the gubernatorial nomination last fall.

His friends point to the fact that William C. McDonald, governor when Mr. de Baca held the subordinate position, thought it not beneath him to run for the lieutenant governorship. Mr. de Baca was about to vacate on the same ticket.

**Body to Lie in State.** The body of Governor de Baca will be taken to the executive mansion this afternoon at 9 a. m. Wednesday and will be removed to the main corridor of the capitol building, where the remains will lie in state until 12 p. m. A special train will then leave bearing the body to Las Vegas, where burial will take place on Thursday.

The house of representatives is not at this time in session and will be officially notified of the governor's death, recessing until 2 p. m., which both houses are expected to adopt resolutions and take other appropriate action.

The new governor is a prominent attorney, formerly active in the progressive party in New Mexico, who has recently held no state office.

**Clark Succeeds Lindsey.** Mr. and Mrs. W. E. Lindsey, as seen as they heard of Governor de Baca's death, called upon Mrs. de Baca and her children at the executive mansion to express their sympathy. John S. Clark of Las Vegas will succeed Mr. Lindsey as president of the senate. Mr. Clark has been acting as lieutenant governor since de Baca's resignation. He is a native of Albuquerque and was variously spoken of as his probable successor. It is also said that Mr. Clark will be

Essequiel Cabeza de Baca

**CROSS LINE TO HUNT DUCKS; THEIR GUNS AND \$1,000 TAKEN**

**By Associated Press.** Yuma, Ariz., Feb. 19.—Three duck hunters, supposed to be Americans, who crossed the border into Sonora, were reported today to have been seized yesterday and held for a five-mile confinement and about \$1,000 taken from them. The men are returning here. Col. Richard H. Wilson of the Fourteenth infantry is investigating.

## ZEPPELIN CAMPAIGN AGAINST LONDON NOT PROFITABLE; WILL BE ABANDONED, BELIEF

**Germany Finds Air Raids on English Capital Have Not Been Successful; Ban It Put on This Method of Warfare.**

**PROVINCES TO BE STORM CENTERS IN THE FUTURE**

**Attacks May be Waged Against Rural Districts Because of the Absence of Air Defenses in Those Localities.**

**By Associated Press.** Geneva, Feb. 19.—(From a staff correspondent of the Associated Press.)—The Zeppelin campaign against London has been found to be unprofitable. The cessation of German air attacks, on last British metropolitan after the latest appearance of the big dirigibles, over the city last fall has been due not to fortuitous circumstances, but to the deliberate determination of the German leaders to abandon these attacks, as has long been done in the case of Paris.

The correspondent, who was then in Berlin, was informed from a trustworthy source a few days after the final London raid of the decision to send no more Zeppelins and sister ships of the Schenckel type against London. Air raids against England, the correspondent was told, will not be abandoned entirely. They will be directed against the provinces instead of London.

The predominant reason for the decision to discontinue attacks on London against the provinces instead of strength and efficiency of the air defenses of the city.

It may be interesting in this connection to record a bit of unwritten history of the war. In the early days of the conflict when the air raids were just beginning, President Wilson caused to be conveyed to Emperor William and the German government a personal and unofficial message which set forth that airship and airplane raids upon populous cities were looked on with disfavor by the American people, and contributed largely to stirring up anti-German feeling in the United States. In view of this, the wisdom of their discontinuance was suggested.

**ENGLISH HAVE A PLAN TO GUARD VESSELS WITH MASK OF SMOKE**

**New Device Perfected by Chemists and Scientists Is Calculated to Obstruct View of the Enemy for Several Hours.**

**By Associated Press.** Baltimore, Feb. 19.—The Donaldson Line freighter Lakonia of Glasgow, provided with the new smoke device of the British admiralty to render shipping immune from submarine attacks, arrived at this port yesterday.

The ship also carries a three-inch gun mounted astern and several trained gunners to man it. According to one of the gunners today, the new device, perfected by British chemists and scientists, can generate enough smoke in several minutes to mask a vessel from the enemy's view for several hours.

The Lakonia encountered no enemy craft on the trip to this port but she was twice chased for several hours on the last outwards-bound voyage, first by a ship thought to have been the commerce raider Vindex and again by a submarine in the bay of Biscay. The Lakonia escaped because of her superior speed.

**Judge Sanborn Orders Verdict for Defense in Harvester Case**

**By Associated Press.** Chicago, Feb. 19.—Judge Sanborn, in the United States district court today took the government's case against former officers and sales agents of the Independent Harvester company of Plano, Ill., from the jury and instructed a verdict for the defendants. The court held that the government had failed to prove that there was any intent on the part of the defendants to defraud purchasers of stock in the company.

## GENTLEMEN, LET'S HAVE SOME ACTION ON THE WATER QUESTION

It has not been ten months since the voters of Albuquerque voted a bond issue for a waterworks system, but apparently we are no nearer to acquiring or building a plant than we were the day the election was held. It is true that estimates covering the value of the present plant have been made, one set by engineers employed by the city and another set by an engineer hired by A. H. McMullen, head of the Water Supply Company. But the figures submitted in the final report are so far apart that there does not appear to be much hope of the Water Supply Co. and the city getting together on the matter.

It is likewise true that the mayor called a mass meeting of the citizens about a month ago to obtain expressions of opinion as to whether to buy or build. There was only a corporal's guard present, so no meeting was held. This would seem to indicate that the people of Albuquerque do not care much what course is pursued in the matter, which places the mayor and council in rather an embarrassing position.

The Herald has of the opinion last spring when the question was being agitated, which opinion it has not had occasion to change, that the city should accept the proposition of Mr. McMullen, made in the spring of 1915 which was, in brief, that until 1919 the rate to small consumers would be placed at a minimum of 25 cents a

thousand gallons of water, with a service charge of 75 cents per month. The larger amount that to be 30 cents per 100 gallons. We are also of the opinion that the present plant cannot be reproduced for the amount the city has offered Mr. McMullen. It must be remembered that all the material entering into the construction of a water plant has advanced in price during the last year or two, and, furthermore, that should the city decide to build there is no assurance as to when enough material can be gotten to put in a system of waterworks, all factories being crowded to capacity and many of them having orders booked months ahead.

If the proposition of the Water Supply Company had been accepted the average family using 2900 gallons a month would have been saving \$1.85 monthly on its water bill for the last two years, or more, the minimum charge now being \$1.80. This saving of \$1.85 would have meant a great deal to hundreds of families in the city.

The mayor and council should do something, one way or the other, in this matter without further delay. They must buy the franchise in operation or accept Mr. McMullen's proposition for a renewal of his franchise.

Gentlemen, get busy. Why delay the matter longer? The citizens of Albuquerque have gone on record as favoring a municipal water plant and its incumbent upon you to carry out their wish without further delay.

**FUNSTON ANNOUNCES PLANS FOR SENDING GUARD UNITS HOME**

**50,000 Troops Have Been Divided Into Two Contingents Each; Four Weeks Will be Required to Move First Contingent.**

**By Associated Press.** San Antonio, Tex., Feb. 19.—The general plan to be followed in sending all national guard organizations home from the border for muster out, in accordance with war department instructions, was announced by General Funston today. The 50,000 troops to be mustered each, including approximately 25,000 men and units embraced in the first contingent have been arranged in four groups.

It is estimated that four weeks will be required for the movement of these four groups, after which the home going of troops in the second contingent will be commenced.

Organizations placed in the first group of the first contingent will begin departing within the next few days, according to headquarters. Troops of the border states, Texas, New Mexico and Arizona, General Funston announced, would be the last to be released.

In addition to the list of organizations given out at El Paso today, the following are included in group one: Fourth Illinois infantry; troop B, Wisconsin cavalry; troop 2, Kansas cavalry; Second Iowa infantry; two companies, Wyoming infantry; First Indiana infantry and battery D, field artillery; Third District of Columbia infantry and troop A, cavalry; Second Florida infantry; battery A, New Hampshire field artillery, and field hospital number 1, battery C, New Jersey field artillery; First New York cavalry; Tenth infantry and brigade headquarters; company A, California engineers; Second Arkansas infantry. The second group includes the following organizations in addition to El Paso list: Sixty-ninth New York infantry and Third Third field artillery; First and Third Tennessee infantry; First battalion and battery B, Virginia field artillery.

El Paso, Tex., Feb. 19.—Announcement was made at district headquarters today of the assignment of national guard troops in the district to the groups which will be sent home as soon as transportation can be furnished by the quartermaster department.

The composition of these groups, in the order of their expected departure from the border, is as follows: Group 1—Colorado, batteries B and C, Connecticut, batteries E and F, District of Columbia, battery A, Georgia—First battalion of field artillery, Kentucky, Third infantry headquarters, together with field hospital number 1, and logistic headquarters, North Carolina logistic headquarters, North Carolina logistic headquarters and the Second infantry, South Carolina, Second infantry.

**No Irregularities Found in Papers of Distinguished Party**

**By Associated Press.** Halifax, N. S., Feb. 19.—The examination of the papers and effects of Count von Bernstorff, former German ambassador to the United States, and his suite, on board the Scandinavian American line steamer Frederick VIII, is nearing an end, it was announced today. The ship has been detained three days.

No irregularities have been detected in connection with the former German ambassador's papers, while the cargo has been found free of contraband.

**PERSHING AND STAFF LEAVE FOR SANTA FE WEDNESDAY EVENING**

**By Associated Press.** El Paso, Feb. 19.—Major General John J. Pershing announced today he would leave here Wednesday evening on a special car attached to the Santa Fe train for Santa Fe, N. M., to attend the celebration in his honor to be held there Thursday. He will be accompanied by Lieut. J. L. Collins and Lieut. Martin C. Shallenberg, aides de camp. Major J. L. Hines, assistant adjutant general of the El Paso district; Captain W. C. Reed, district intelligence officer, and Lieut. George S. Patton, General Pershing's aide, will return Friday evening.

## GERMAN SUB IS SUNK AFTER FORTY-MINUTE FIGHT WITH STEAMER OFF FRENCH COAST.

**French Freighter Guyane, Reaching New York Today, Brings Word of a Battle Had With U-boat on January 22.**

**SHOT FROM STEAMSHIP HITS DIVER SQUARELY**

**Underwater Boat Is Seen to Collapse and in Course of Half an Hour Disappears Entirely; No Americans Aboard.**

**By Associated Press.** New York, Feb. 19.—In a forty minute battle between a German U-boat and the French line steamer Guyane off the coast of France, on January 22, the submarine was sunk, according to officers of the freighter, which arrives here today from Bordeaux.

The Guyane was one day out from port. At 8:30 p. m. Captain Rousselet said the U-boat was sighted some distance to port and apparently endeavoring to cross the freighter's bow to stop her. The submarine fired a shot which fell short and the Guyane then turned sharply to starboard so that her big 66-millimeter gun, mounted at the stern, could be trained on the approaching vessel.

The submarine fired a second shot which fell considerably short and a third which struck the water close by the freighter.

Meanwhile the Guyane's gunner had sent one shell, which failed to hit but struck very near its mark. A second shot from the Guyane, Captain Rousselet said, hit the U-boat squarely and the underwater boat was seen to collapse.

At the end of a half hour the submarine disappeared. The freighter's officers said they had no doubt but that the U-boat was lost.

The Guyane, a steel vessel of 2,888 tons net, carried thirty-seven men. There were no Americans aboard. She brought a general cargo of about 1,000 tons.

**Belgians and English Had a Secret Pact to Advance on Germany**

**By Associated Press.** Berlin, Sunday, Feb. 18 (By Wire- less to Sayville, Feb. 19.)—The Norddeutsche Allgemeine Zeitung published detailed Anglo-Belgian agreements regarding the landing of British troops on the continent and their transport on Belgian railroads into Belgium, says an Overseas news agency article today.

"The documents had been exchanged between the British and Belgian military authorities. They were found in the Brussels archives and furnished detailed proof that in 1906 the entangled plans of mobilization against Germany had already been arranged between the Belgian and the British army."

## Second Elevator Will be Built in Clovis in the Near Future

**Clovis, N. M., Feb. 19.—Cash Ramey, J. W. Wilkinson and Lester Stone announce that they have about completed arrangements for the erection of a 25,000 bushel elevator, the second to be erected in this city. The contract will stipulate that work on the elevator begin at once, it being the intention to have the plant in operation by June 1, so as to take care of this season's grain crop.**

Lester Stone will be manager of the new concern. He is an elevator man of considerable experience, having had charge of the elevator now running here but severed his connection therewith last spring owing to a change in management.

It is the intention of the promoters to put in a 50-barrel flour mill in the near future and arrangements therefor will be made when the elevator is built. Curry county is becoming famous as a producer of wheat, and it is believed that a flouring mill here will be a paying investment.

**Without Taking Into Account Direct Contributions from Banks, the Mark Set by Bonar Law Has Been More Than Reached.**

**By Associated Press.** London, Feb. 19.—The new money subscribed to the new British war loan is at least 1700,000,000 exclusive of contributions from the banks, Andrew Bonar Law, chancellor of the exchequer, stated in the house of commons today.

Mr. Bonar Law said the number of applications received for the war loan on the last day was so large that 200,000 or 300,000 were not dealt with and the result would not be known until next week.

"I am glad, however," the chancellor said, "to be able to say the loan has succeeded to a greater extent than I expected, but not greater than I hoped. I hope, however, that what I have just said will not encourage exaggerated estimates which might create the danger that what I consider amazing financial efforts of this country would be minimized when the actual figures were known."

When I was asked what amount of new money I considered necessary to make the loan a success, I stated a figure which was larger than I expected, but not than I hoped. That figure was 1600,000,000. Without taking into account direct contributions from banks which it is desirable to avoid, that figure already has been exceeded. The excess will certainly amount to 1100,000,000."

**Subscriptions to British War Loan Exceed Estimates**

**Colorado Asks That Mustering Out Place of Guard be Changed**

**Denver, Feb. 19.—The state legislature this morning adopted a joint resolution petitioning the war department to muster out the Colorado national guard at the state rifle range at Golden, instead of at Fort Russell, Wyo., as provided in orders from the department.**

The resolution points out that mustering out at Fort Russell will wear a hardship on the men, many of whom would be still far from home and that the mustering out in Colorado can be conducted with no additional expense.

At the suggestion of Governor Genter both houses of the legislature adopted a resolution on the death of Gov. de Baca of New Mexico.

### INDIVIDUAL PRIZES LEADING FACTOR IN NEXT STATE FAIR

Funds heretofore expended for County Awards to be cut for single exhibitor; debts to be avoided, is plan.

If the plans for the next New Mexico state fair, which are just beginning to sprout, are not stunted in their development, the money to be expended for individual prizes will exceed that of any previous year. Although cups and sweepstakes will still be a goal for county rivalry, much of the money which heretofore has gone to

them will be awarded to individual exhibitors.

According to C. E. Beyer, secretary of the state fair commission a number of national societies have already promised to donate cups and cash prizes, the most prominent being the American-Hampshire Sheep association, the American-Oxford Down Record association, and the Percheron Society of America.

County Agent H. C. Stewart and Professor Paulson Garcia of the state college, experts in agriculture and horticulture respectively, have given their word to assist in making the display in their departments a success. Those who acted as superintendents of various departments last year have again volunteered their services.

It is the intention this year to keep out of debt. If the bill which is now before the state legislature providing an appropriation for the state fair, passes Secretary Beyer believes the old debts of 1914 and 1916 can be cleared, a good fair given and a clean slate prepared for 1918. As soon as the new fair commission is appointed by the new governor, the commissioners will cooperate with secretary Beyer and efforts to secure prizes for individual exhibits will be pushed in earnest as well as other phases of the work. The program books have already been started and it is hoped to have them ready for distribution by the middle of April.

### Garcia Too Wise to Resist Miller Twice

Fernando Garcia, one of the two men Police Sergeant N. M. Miller was accused of abusing in the charges preferred against him by Alderman Clyde Tingley, was arrested again by Miller last night. He was sentenced to fifteen days in the city court today.

Garcia resisted search when Miller arrested him the first time. Last night when taken into custody he made haste to promise he would "be good." He was drunk.

Following his first arrest Garcia was sentenced to thirty days. The sentence expired Saturday.

### Pickford Production Is Coming to Pastime Friday and Saturday

The next Mary Pickford picture to be released by Arcturaf will be "The Pride of the Clan" which has just been produced under the resourceful and artistic direction of Maurice Tourneur, the French producer. All of the scenes are Scotch and Mary Pickford plays the part of a lassie with a will of her own and a charm that pervades every incident of a story and unusually human story. It is said to present the best natural ex-

terior settings that have ever been seen in a Pickford production.

Will be shown at the Pastime Friday and Saturday.

### Council May Fill Two Vacancies at Meeting

City council is scheduled to meet in regular session tonight. In addition to a mass of routine matters and the water question, the aldermen face consideration of a successor to Dr. H. L. Hunt from the Fourth ward and a successor to Fire Chief J. W. Burnett. Alder Harry Dennis, Driver Chuck Anderson and former Capt. Fred Russell are mentioned as possibilities in connection with the chiefship. A. L. Martin, former Councilman John Lee Clarke and A. G. Simms are among those mentioned as possible choice for the vacant seat of the Fourth ward.

### Christian Scientist To be Here Thursday

The Christian Science Society of Albuquerque has engaged Paul Brady, Society C. S. of Portland, Oregon, to lecture on Christian science in the city next Thursday evening at the high school auditorium. Mr. Brady is a member of the official board of lecturers of the Mother Church, The First Church of Christ, Scientist, in Boston, Mass. The lecture will commence promptly at 8 o'clock and the public is cordially invited to attend.

### Red Haired Basket Ball Team Takes on Name of Firebrands

A team composed of red headed basket ball tossers has just been organized in the Y. M. C. A. and have issued a challenge to the first "Y" team for a game on the evening of George Washington's birthday.

The new team will be known as the "Firebrands" and the players will step on to the court dressed in flashy red jerseys. Those who make up the team are "Red" Barrett, "Red" Jones, "Red" (F. O.) Barton, "Red" (Harold) Barton, and "Red" Truancy.

### TOO LATE TO CLASSIFY

WANTED—Man for position on delivery wagon. Apply at Parr's Market.

FOR RENT—Nifty furnished room for light housekeeping, modern. 210 North Fourth.

FOR SALE—One Jersey heifer, 2 years old, fresh; 1 Holstein junior 16 months old. Inquire Spindle Hardware store or 1190 North Second.

### YOU'RE BILIOUS! LET "CASCARETS" LIVEN LIVER AND BOWELS

Don't Suffer Headache, Constipated, Sick With Bile, Bad and Stomach Sour.

Get a 10-cent box now. You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascares, or merely forcing a passage every few days with salts, cathartic pills or castor oil? Cascares work while you sleep, cleanse the stomach, remove the sour, indigestible fermenting food and food wastes, take the excess bile from the liver and carry out of the system all the accumulated waste matter and poison in the bowels.

A Cascares tonight will straighten you out by morning—no laxative box, 25c. Buy three weeks' supply—our stomach sweet, clear and bowels regular and head clear for months. Don't forget the children. They love Cascares because they taste good—never gripe or sicken.

### WOMEN CAUGHT IN RAIDS ON SALOONS ARE SENT TO JAIL

Two of Them Sentenced; Cases of Other Five Continued; Proprietors to be Tried on Disorderly House Charges.

Pursuing a relentless policy against vice throughout the county, the sheriff's office followed a raid on two saloons Saturday night with criminal action against the proprietors. The latter, Louis del Brain, of the Gold Star saloon, 910 York, and Hercules Garcia, of the Grand saloon, Barajas, were charged before Justice of the

Peace W. W. McCallan with keeping disorderly houses.

Two of the women caught in the raids were sentenced to 10 and 30 days respectively in the county jail today. Another of the seven women caught will be tried tomorrow morning. The other four who are out on \$25 bonds, will be tried Wednesday afternoon.

Garcia will be tried tomorrow morning and del Braine Wednesday afternoon. The raids were headed by Under-sheriff Dick Wootton. The women are alleged to have been found in rooms adjoining the saloons. Other raids were planned, but when the undersheriff and his raiders reached the places no women were in sight and Sabbathical calm reigned in the bar-rooms. The stir made by the descent on the Gold Star and the Grand is supposed to have tumbled a warning to the other places.

### Shotgun-toting Negro Is Held for Grand Jury

Walter Cannon the negro who pointed a double-barreled shotgun at Lee Thomas, another negro, Friday night has been held for the grand jury on a charge of assault with a deadly weapon.

### R. R. BROTHERHOOD AUXILIARY GREET'S CHIEF INSPECTOR

Mrs. Frederick Turner Is Entertained With Automobile Party and a Dinner; On Official Tour of Western Cities.

Mrs. Frederick Turner, chief traveling inspector of the Grand International Auxiliary of the Brotherhood of Locomotive Engineers, spent the day here Saturday. Mrs. Turner is on a tour of western cities to inspect officially and address the women's branch of the B. of L. E. This society numbers more than 25,000 women in America, and many thousands in other nations, and is the engineers' organization as the home and church of the men's order. Mrs. Turner has been greeted by

judge and city officials in every town she visited in New Mexico. She was honored with banquets and receptions.

The cordiality of the engineers' womenfolk in Albuquerque was not behind that in other cities.

After an all-day business session of the Auxiliary, with the entire membership of the order present, the honor guest was taken on an automobile ride to places of interest, and later a finely appointed dinner was served at the home of Mrs. D. T. E. Myers, Mrs. J. H. Holman, president of the local chapter of the Grand International Auxiliary, and the local officers assisted Mrs. Myers in entertaining.

Mrs. Turner left the same evening for Las Vegas and Colorado cities.

In addition to the ordinary forms of life insurance the Equitable makes a specialty of the following:

Insurance to protect business firms and corporations.

Group Insurance, by which employers protect families of employees.

A flexible contract which can be converted by the Insured into an Ordinary Life, Limited Payment Life, or Endowment Policy.

A Bond giving the investor an income for his declining years.

A new policy is offered under which the insurance is DOUBLED if death results from ACCIDENT. This policy also embodies the following advantages if the person whose life is insured becomes totally and permanently disabled:

1. Thereafter the Equitable will carry the insurance—The Insured will have nothing further to pay.
  2. The Equitable will pay the Insured an annual income for life equal to one-tenth of the face of the policy.
  3. Upon the death of the Insured the full amount of the insurance will be paid to the Beneficiary or double the amount if the death is due to accident, without deduction of amount of the income paid to the Insured while living.
- See the policy for conditions and details.

The Annual Report embodying the Financial Statement, verified by Public Accountants, and further details regarding the Equitable's policies will be sent to any address on request.

Silks of Merit!

Reduced to, a yard \$1.79

Rosenwald's

Special Extraordinary!

High Grade Dress Goods, reduced to, a yard 89c

A FEBRUARY FINAL CLEARANCE INCLUDING MOSTLY ALL WINTER MERCHANDISE

This is the last month in the season for the sale of winter goods. It is a month that must take out every vestige of merchandise that has been associated with winter and without consideration of former prices.

Spring Is Coming

Through the open window occasionally there comes a warm breeze, as soft as a June zephyr. It comes from where—from the future telling us that Spring is knocking at our door.

Closing Out Some New White Undermuslins

A special group that has been reduced to odd sizes and one and two of a kind. The variety is great and we are quite sure that you will find many things to please you, but our real reason for this price disposal is to rid the stock of odds and ends.

The Sale of Boys' Wash Suits at \$1.69

We explained it all Saturday. Suffice it to say that there is splendid choosing for today. \$1.69 is little enough for boys' wash suits of any sort. It is remarkable for wash suits of this sort.

Middies and Norfolk—all white, white with trimmings in colors, blue and then a variety of stripes. All sizes.

Winter Mackinaws, Overcoats and Suits—two pair trousers—and Sweaters are reduced a third and in some cases more. Hats and Caps at prices unbelievable.

Fashionable Ready-to-Wear and Intrinsic Savings

Business in the Ready-to-wear Department is sustained. Business at high pressure, because bargains are as thick as beeswax. This ready-to-wear clearance is the cause. It strikes us that the opportunities here ought to appeal to Albuquerque women of a practical turn of mind.

See Them Today in Our Ready-to-wear Department—Second Floor

Challis Reduced to 49c a Yard

Challis—time out of mind a favorite material for blouses, kimono, sarongs, house-dresses, children's wear, etc. The sale of Challis is here. 49c All wool. Reduced to, a yard.

Clearance of Children's Dresses at 49c

Most interesting and charming of styles—a piquancy about them that is elusive and will not be put down in words. In the group at 49c there are frocks of most excellent gingham with long or short sleeves. In another group there are gingham dresses of better quality but still reduced in price. You should see these. Second Floor

A Sale of Boys' Clothing Second Floor

To buy these clothes is true economy, because they have no equal in wear or appearance. These high type suits and coats are made for boys whose parents realize the wisdom of getting merchandise that lasts and the false, penny-wise policy of hunting "bargain clothes," which by their very nature are unable to stand up under the mildest sort of hard usage.

Mackinaws, Overcoats and Suits—two pair of trousers with some—and all Sweaters are reduced. Second Floor

The Underwear Section Offers Some Special Prices

Underwear purchased before Clearance and marked at Clearance prices—certain lines have been reduced for this special selling event TOMORROW.

HERE ARE THE SPECIAL PRICES

Table listing various underwear items and their prices, such as 'Outing Flannel Pajamas, per garment .90c' and 'Underwear, a garment .40c'.

Other Reduced Prices in Our Neckwear and Glove Section

Boatneck Caps reduced to, each .30c. Bowtie Caps reduced to, each .10c. Ladies' Neckwear reduced to, each .40c.

Our Sale of Women's and Men's Shoes All on Tables

Do you follow our shoe advertising? In case you do you are aware that there have been going on in this department. This is to inform you that there shall be no let-up. We are clearing the shoe-house, lock, stock and barrel. These are the values for today.

Table with two columns: 'TABLE NO. ONE Ladies' Shoes in assorted leathers' and 'TABLE NO. TWO Men's Shoes in many different and most choice and many styles'. Prices range from \$1.95 to \$2.95.

MEN! YOUR CHOICE OF ANY SUIT IN THE HOUSE \$12.95

THE FATHERLAND IN DISGUISE.

The Fatherland, heretofore recognized as the mouthpiece of Germany in this country, has changed its name to The New World, the transformation coming about immediately after the United States severed diplomatic relations.

In announcing the change in name of his publication the editor says in part: "In Germany, a publication named Uncle Sam would not be popular at present. A publication named The Fatherland may seem objectionable to many, especially to Americans of German descent who desire to emphasize that their allegiance is to America solely."

"The New World is not the mouthpiece merely of the German Americans, but of all Americans who believe in maintaining the Declaration of Independence, and who, remembering the advice of George Washington, abhor an entangling alliance with the ancient enemy of the United States."

Advertising did it. Strasburg, O., a village of a few less than a thousand souls according to the 1910 census, boasts the biggest country store in America, the business done therein during the year 1916 totaling \$145,000.

Mercantile in small towns often advance the argument that they are unable to keep business from going to the cities, when those cities are easy of access.

ers, owning the store in question, has proved that such an argument is illogical. Within a radius of thirty miles of Strasburg there is Canton, a city of 75,000 inhabitants, and Massillon, a city of 15,000 inhabitants.

The store was started by the Garver boys' father, twenty-two years ago he turned the business over to his sons. The father's business was that of an ordinary country store.

Later on a newspaper was established in Strasburg and the Garver Brothers immediately began making liberal use of its columns. They also used the columns of papers twenty miles away.

"We advertise," the Garver Brothers say, "for the same reason the farmer uses phosphates and lime. The fertilized sections yield greater returns. What the farmer calls the process of cultivation of his crops we call the giving of service."

Garver Brothers are firm believers in the use of printer's ink. "Page advertisements bring results," they say. People living at a distance drive to the store in rigs and autos to take advantage of bargains advertised.

All New Mexico bows its head in grief today over the death of its chief executive, Governor Ezequiel Cabeza de Baca. While those who were familiar with the nature of the malady from which Mr. de Baca was a sufferer knew that there was no hope for his complete recovery and that sooner or later he would be compelled to answer the final summons, still it was hoped that the blood transfusions to which he submitted from time to time might prolong his life even to the extent of permitting him to fill out the term for which he was elected.

The indomitable will power displayed by Mr. de Baca during the last few months of his life was remarkable. Had he been able to remain longer in Los Angeles, whether he went shortly after the election for treatment, he might have been able to prolong his days. But when a question arose as to the possible consequences that might follow in case he was not present in the state capital to take the oath of office, at the prescribed time, he relieved a tense situation by announcing that he would return to New Mexico and be sworn in on the designated date if he had to be carried on a stretcher.

Had he survived he undoubtedly would have made an excellent record as governor. He was a man of high ideals, absolutely honest and upright and one who could not be swayed from his chosen path of duty.

American Liner St. Louis, Which Will be Held in Port Indefinitely

Germany has denied protection and the United States has refused to give advice to liners as to sailing in the blockaded area. The St. Paul is also affected by the order of the International Mercantile Marine.

The government cannot give advice to private persons as to whether or not their merchant vessels should sail on voyages to European ports by which they would be compelled to pass through waters delimited in the declaration issued by the German government on January 1, 1917.

of Austria without being warned, was in favor of letting them say their own thing and suffer the consequences.

Charlie Chaplin, the man whose movie antics have brought him a fortune, as subscribed \$125,000 to England's war loan.

The audience stout America, says a newspaper account of a recent meeting. We'll bet that after the first verse not many of the audience participated in the singing.

Newspapers in schools. Newspapers are beginning to be used in rural schools as substitutes for text books, more especially furnishing content reading in place of library books and magazines.

Hand holding in hospital. Gen. Sir Sam Hughes threw a bombshell into the Canadian parliament the other day, when he declared that his volunteer auxiliary hospitals in which the Canadian wounded are being treated are largely maintained by means of the "hand holding" given the patients chiefly in "hand holding."

The cost of a cough. A parent German statistician has calculated that a patient who coughs once every quarter of an hour for ten hours expends energy equivalent to two hundred and fifty units of heat, which may be translated as equivalent to the nourishment contained in three eggs or two glasses of milk.

Henry hauls baggage and all other things. He comes at your calling as bats on their wings. His motto is promptness; his service is free. Whenever you want him just phone NINE-THREE-NINE.

hence the desirability of restraining cough within safe limits, especially when it is due to irritative reflexes such as are excited by laryngitis and pharyngitis.—From the Medical Critic and Guide.

PROVIDES FOR CITIZENS FIRST. The progressive little republic of Germany has taken a decidedly advanced step to provide for the needs of its people and has prohibited the exportation of all wheat or flour after the next crop has been harvested.

THE UNFORGIVABLE AFRONT. Now she hates one of her oldest friends. Yesterday she was downtown with this friend and just before noon she said to the other lady, "Well, I am going over here and catch my car."

PREVENTION BEATS CURE. The spread of scarlet fever and other diseases in Chicago caused Health Commissioner Robertson to issue a series of contagious disease don'ts. They follow: "Don't forget that you should keep a child at home and away from other children if the child is sick in any degree."

GRANT COUNTY MINERS BUYING BURRO GRANDE COPPER STOCK

Probably the Best Indication of the Value of "The Burro Grande Copper" Stock is the Fact that the Miners of Tyrone, Hurley, Santa Rita and Silver City are Buying It and Buying It in Quantity—These Miners Know the Property and Know It Well.

Never has a Copper Stock from New Mexico been brought out under such a showing as has The Burro Grande Copper Co. Telegrams and letters have been pouring in on us from all over the Southwest from miners and investors who want to participate with us in the initial offering of the OWNERSHIP AND PUBLICITY POOL STOCK of this new company.

15c-50c

This may not be good mathematics, but it is true in this case. You can get a part of our first offering of 250,000 shares at 15 cents per share, if you ACT NOW. The next offering will be made at

50c Per Share Now 15c

Write us immediately regarding this offering, or better still, wire us to reserve the amount that you want to take and follow with your draft to cover same. We must serve notice that this offer may be withdrawn at any time.

Will be Listed on New York and Boston Curbs as Soon as Mine Development Has Been Financed

The Burro Grande Copper property has been favorably reported on by Mr. Theo. W. Carter, an eminent mining engineer of Silver City, New Mexico. It is located in the same mineral district as the famous Burro Mountain copper property of the Phelps-Dodge interests, and the sensational Austin-Amazon mine, which has developed into a paying property from a mere prospect in sixty days. We believe we have a bigger and better mine than the Austin-Amazon and we want you to help us prove it.

The Burro Grande Copper Company already has a fourteen foot ore body exposed in a fifty-five foot shaft, practically at "grass roots" and enough shipping ore in sight to justify the employment of miners in getting it on the dump and to the smelters. We don't have to look for an ore body. We already have one. Shares in Burro Grande will have a par value of \$1.00, full paid and non-assessable. Get in now and don't have to regret that you didn't this time next year. The copper mining industry has not yet begun to "boom."

EL PASO, TEXAS

BILL IS INTRODUCED TO WAGE WARFARE ON PREDATORY ANIMALS

Proposal Is Before Legislature to Turn the Work Over to the U. S. Biological Survey; Bounty System Is Not Efficient.

Special Correspondence to The Herald. Santa Fe, N. M., Feb. 19.—A departure in legislation affecting an important part of the economy of New Mexico is house bill No. 220 introduced by Alvin Garcia, a farmer of Polvadera, N. M.

It refers to the stamping out of predatory animals and pests that endanger live stock, and has the backing of the New Mexico Cattle and Horse Growers' association and the State Game Protective association, and is said to have official endorsement from the New Mexico Wool Growers' association.

The bill would replace the entire bounty system as practiced in New Mexico, after all bounties now outstanding had been paid.

It would give to the inspector in charge of the United States biological survey in the district including New Mexico, the sum of \$15,000 annually to be spent in animal and rodent extermination.

Expert Trappers. Part of the system would be the employment of expert trappers, who would go about a systematic cleaning up of wolves and coyotes, the revenue from hides being used to cover any deficiency in the fund on account of insufficient tax levies.

Poisoning of such pests as prairie dogs would be operated on a statewide scale. It is claimed that government experts can kill off 85 to 90 per cent of the prairie dogs at an expense not to exceed 5 cents per acre.

A number of means would be employed by the biological survey, the above being typical. They are ready to take up the work without additional overhead expense. The money would therefore be practically all expended in New Mexico.

Damage From Animals. The annual loss of cattlemen from wild animals in this state, according to statistics, is \$500,000. Sheep men lose each year a million and a quarter dollars from the preying of wild animals on their flocks. Prairie dogs cause an estimated loss of twice the total of the above amount, or about \$2,500,000 a year.

Bounty Law Failure. Advocates of the new bill point out that bounties have not served to exterminate the enemies of stock in New Mexico. Since 1909 the amounts that have become due on account of bounties increased from \$24,948.27 to \$42,012.72.

The well known fact that all New Mexico counties are behind in the payment of bounties is pointed to as another reason for abolishing the bounty system. Mora county alone is in arrears on July 31, 1916, a balance in the bounty fund, in amount \$352.82. Chaves county owed \$24,839.22 for bounties, and Colfax \$24,692.27. Other

counties owed amounts also in the thousands, the total for twenty-four counties being \$62,613.43.

The total cost of bounties to the state for the year ending last July, if all claims had been paid would have been \$271,764.54.

This expense would become unnecessary under the new system is the claim of its advocates.

It has been the custom of associations as well as individual owners to offer rewards in addition to state bounties, and the claim is made that fully two-thirds of the killing of predatory animals that has been done has been in instances where additional rewards of this character have been offered.

The figures on which the above claims are based were compiled by the New Mexico Cattle and Horse Growers' association under the direction of J. W. Miller, the secretary. The same authority states that the valuation of sheep in the state for the year 1916 was \$7,876,917 and of cattle \$37,472,443.

Test of Bill. The predatory animal bill which is a short one, and of interest to cattle and sheep men and hunters in the state is printed herewith in full:

Section 1. That there is hereby appropriated annually the sum of \$18,000 or as much thereof as may be necessary for the purpose of eradicating predatory animals, coyotes, lynxes, bobo wolves, mountain lions, prairie dogs, rodents and all other destructive animals, under the supervision of the United States bureau of biological survey within the state of New Mexico.

Sec. 2. That all funds so appropriated shall be expended under the direction of the inspector in charge of the United States bureau of biological survey in the district including New Mexico on itemized vouchers approved by the said inspector in charge and shall be transmitted to the state auditor, who after auditing the same, shall issue his warrant against the appropriation herein provided.

Sec. 3. That all pelts and skins of animals caught by persons whose salaries or expenses are paid from the appropriation herein made shall be the property of the state and shall be turned over to the secretary of sheep sanitary board to be sold to the highest bidder at times and places most convenient, and all revenue so obtained shall be placed to the credit of the appropriation herein made.

And in the event that the said appropriation is not filled by the state levy, the amount necessary to make up the said sum of \$18,000 shall be obtained from the revenue received from the sale of pelts and skins as provided in this section.

Sec. 4. That section 1330, 1331, 1332 and 1333 of the New Mexico annotated statutes, codification 1915, are hereby repealed on and after January 1, 1919; but all valid and approved claims for bounty outstanding January 1, 1919 shall be paid by the counties and the tax levy authorized by section 1330 above mentioned, repeated herein shall continue in effect until all such claims shall be paid.

U. S. Expert to Speak Before New Mexico Good Roads Meeting

Special Correspondence to The Herald. Las Cruces, N. M., Feb. 19.—The office of public roads at Washington, recognizing the importance of the fourth annual convention, which meets at Santa Fe, New Mexico, Friday and Saturday, February 23 and 24th has detailed one of its leading lecturers to address the convention on the new federal good roads law.

Francis E. Lester, president of the association, is expected to arrive today from the director of the office of public roads that C. H. Sweetser would arrive at Santa Fe from Washington to address the convention on Friday, February 23rd. The legislature now in session is planning ways and means for complying with the federal requirements necessary to take advantage of the federal appropriation and Mr. Sweetser in addressing the convention will set forth the best methods for meeting the federal requirements so as to take advantage of its liberal terms.

New Mexico's share of the federal road fund for the coming year will approximate \$175,000. With the necessary amount to match this to be made by the state, the fund will amount to \$350,000.00 for the building of federal roads in New Mexico. Supplemented by state and county funds, this will ultimately yield a considerable larger sum to be applied to the building and maintenance of the highways selected with the cooperation of the state highway commission to be improved.

The federal government requires that all roads built with federal aid shall be constructed in a thorough manner and properly maintained, and plans already drawn by State Engineer French cover these requirements in detail.

Delegates from every county in the state have signified their intention of attending the road gathering in Santa Fe this week. The particular subjects to be considered by the convention are the matters of road legislation, which is now being discussed by the legislature, and it is expected that the convention will express in quite definite terms for the benefit of the legislature what the tax payers of the state desire.

The program for the convention now almost complete includes addresses by the leading road boosters of the state representing every section.

Premature Explosion Of Shot at Oakview Mine Causes a Fire

By Associated Press. Trinidad, Colo., Feb. 19.—The premature explosion of a shot at the Oakview mine of the Okadale coal company near La Veta last night, ignited a pocket of gas and caused a fire which resulted in small damage. A few members of the Sunday night shift were in the mine at the time. None were injured.

Curry County Grand Jury Finishes Work; Eleven True Bills

Special Correspondence to The Herald. Clovis, N. M., Feb. 19.—The Curry county grand jury has completed its duties in connection with the present term of court and has been discharged. The following is the report of the inquisitorial body:

Clovis, N. M., Feb. 15, 1917. Honorable John T. McClure, Judge of the Fifth Judicial District sitting within and for Curry county.

We the grand jury, empaneled at this February, 1917 term of the district court for the county of Curry, submit the following report:

We have investigated all matters coming before us, or brought to our attention and have found and returned into open court 11 true bills and two no bills.

We have made careful investigation as to those matters the court especially charged us, upon which we returned indictments in our instance where we found a violation of the law.

We find no violation of the compulsory school law in Curry county, and find the schools throughout the county in good condition.

We caused to be appointed committees to examine the various county offices, and find them all satisfactory. The records neatly kept and everything in first class condition and we commend the officers for the condition of their respective offices.

We recommend that a woman's cell be placed in the jail for the confinement of women prisoners. We also recommend that the board of county commissioners of Curry county furnish the county treasurer with the necessary supplies for his office.

We wish to thank the district attorney's office for its prompt and efficient services rendered the grand jury during its labors. We also wish to thank the sheriff's office for its efficient service and promptness in securing witnesses in attendance before the grand jury. We wish also to thank the court for the courteous treatment to us.

Thus, having completed our labors, we respectfully ask that we be discharged.

THE GRAND JURY, E. T. JERNIGAN, Foreman.

Attest: C. C. FORD, Clerk. The following true bills were returned: Clarence Smith, practicing medicine without a license. Lloyd Moore, forgery. Luther Rogers, refusing to receive prisoner into custody. John Moore, forgery. Felix Herbert and Harry Neal, selling liquor to minor. David Cranfill, selling liquor to minor. Roy Jones, selling liquor without a license. W. H. Becker, handling a deadly weapon in a threatening manner. J. N. Pritchett, obtaining money under false pretences. George B. Moss, murder. No bills were found against I. C. Tucker and John McGrew.

Valencia Co. Teachers To Meet in Los Lunas Saturday, March 10

Special Correspondence to The Herald. Los Lunas, N. M., Feb. 19.—The Valencia County Teachers' Association will meet in the public school building here on Saturday, March 10. The following is the program:

- 10 a. m. 1. Meeting called to order. 2. President Frank Sanchez. 3. Invocation Rev. Father A. Dochey. 4. Roll call. 5. Address of welcome. 6. Response to address of welcome Miss Sarah Bach. Mr. B. S. Sanchez. 7. Address "Education" Mr. Boleslo Romero. 8. Address "Education" Mr. Saturnino Baca. 9. Music Los Lunas School. 10. "Public School Efficiency" C. H. Gooch, Mrs. Florence Mack. Prof. H. G. Bach. 11. Business meeting. 1 p. m. 1. Music Los Lunas School. 2. Address, State Sup't of Public Instruction Jonathan H. Wagner. 3. Address Hon. J. M. Luna. 4. Music Prof. J. de J. Lopez's School. 5. Address Mr. A. A. Romero. 6. "Our Course of Study" Prof. Adelino Sanchez, Miss Alicia Sanchez, Prof. A. Sanchez. 7. Credits for attending county teachers' association. Mrs. Letha Nash. 8. Reception to visiting teachers. Los Lunas people.

BACKACHE IS A WARNING. Albuquerque People Should Not Neglect Their Kidneys.

Backache is often nature's most frequent signal of weakened kidneys. To cure the pains and aches, to remove the lameness when it arises from weakened kidneys, you must reach the cause—the kidneys. If you have pain through the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy.

Doan's Kidney Pills have been proved good and are especially for weak kidneys. Doan's have been used in kidney trouble for over 50 years—Read Albuquerque testimony.

J. M. Vickrey, plumber, 1094 N. Eleventh St., Albuquerque, says: "I don't hesitate to recommend Doan's Kidney Pills for backache and kidney trouble. In my case they brought immediate relief from backache. I know of another case where Doan's Kidney Pills brought positive relief from backache, due to weak kidneys."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Vickrey had. Foster-Milburn Co., Props., Buffalo, N. Y.

In case we have war with Europe, we are in favor of sending the violins and cornet players to the front first.

Store Open Evenings

Nearly 50 Wonderful Piano Bargains 7th ANNUAL Clearance IN FULL BLAST

Note these Huge Reductions on Standard, High-grade Pianos and Player Pianos—And Act Quickly!

We were mighty well pleased with the big response we had to our opening announcement of this sale last week. Thursday, Friday and Saturday were great days for business—simply wonderful—and if the selling keeps up as rapidly as it started, this stock is likely to be sold out completely in another week. For the benefit of those who might not have seen our former ads we again repeat the warning that our stock this year is not nearly so large as it has been on similar occasions in past years. This in itself should be entirely sufficient for prompt action on the part of prospective buyers.

This great special player Piano offer has taken Albuquerque by storm. To see and hear one of these beautiful instruments is to immediately want it for your very own—even if you had to pay twice the price—and at the astonishing low price of

\$397.00

they are selling like the proverbial hot cakes. It is a regular \$750 value. Always has sold for \$750—and will be sold for \$750 after this sale.

\$10 Cash, \$10 Monthly

pays for one. We include absolutely free, a handsome bench to match, a liberal supply of music rolls, delivery and tuning for one year.

LOOK Only \$219.00 For This Brand New \$400 Upright Piano.

\$5.00 Monthly pays for it—you don't even have to pay anything down right now if you don't want to. Stool, delivery and one year's tuning Free.

USED PIANOS, \$86, \$98, \$135, \$154, \$161 and so on

Out-of-Town Buyers

Round trip railroad fare allowed to all out of town purchasers up to one hundred miles. If you can't call at store, write us for complete list and descriptions of pianos on sale. Any piano sent subject to approval.

F. A. Martin Piano Co. 206 W. Gold Ave. Albuquerque, N. M.

APPLICANTS FOR HOMESTEADS UNDER NEW ACT SHOULD SEE THAT LAW IS COMPLIED WITH

Department of the Interior, General Land Office, Santa Fe, N. M., Feb. 13, 1917. Editor of The Evening Herald, Albuquerque, N. M.

Dear Sir:— In order that a clear understanding may be had of the act of December 29, 1916, known as the section homestead law, we have prepared the following extracts from the regulations of the department, and if you will run them in your paper as a matter of news, I am sure your subscribers will be glad of the opportunity to read same.

Up to the present time we have received a little over 2,000 applications under this law, and under regulations recently received we must reject all applications heretofore filed or may be filed that are not on the application blanks approved by the department, or contain substantially the same statements, and each application must be accompanied by a petition to have the land designated under the section law, and all petitions that do not conform to the regulations must be amended so as to meet all requirements. Under these instructions, this office must send out letters to all applicants whose applications are not regular, and allow 30 days for the filing of proper applications and petitions. These letters will be sent out just as soon as we are able to do so, but of course we will appreciate it if persons who have filed imperfect applications and petitions will have same prepared and filed at once, as this will not only save this office the writing of a great many letters, but will get quicker action for the applicants, as we can then forward all papers to the department for consideration immediately on receipt of correct applications and petitions.

**Lands Subject to the Act.** The secretary of the interior is authorized pursuant to application, or otherwise, to designate unreserved public lands in any of the public-land states, as stock raising lands, but it does not include lands in national forests.

The lands to be designated are those the surface of which is, in the opinion of the secretary of the interior, chiefly valuable for grazing and raising of forage crops, which do not contain merchantable timber, are not susceptible of irrigation from any known source of water supply, and are of such character that 640 acres are reasonably required to support a family. The classification will be made, so far as practicable, so as to exclude lands that are not chiefly valuable for grazing or raising forage crops, either because too valuable for such use, or too poor for such use. Lands which are capable of producing valuable crops of grain or other food cereal or fruit are not subject to designation, being, if otherwise subject to entry, disposable under the 160- or 320-acre homestead law. Lands of such arid or poor character that they are worthless or fit for occasional grazing in connection with large areas of other land are not subject to designation. No lands which contain water holes or other body of water, needed or used by the public for watering purposes will be designated. Whether the land will or will not support a family, is not guaranteed in any manner by the designation of the land as subject to this act. The homesteader himself must take the burden of accepting the land, and for that reason he should be very careful when making

ing examination of the land and be sure to locate government corners, or other well defined monuments, and see that he is getting the kind of land that will support himself and family.

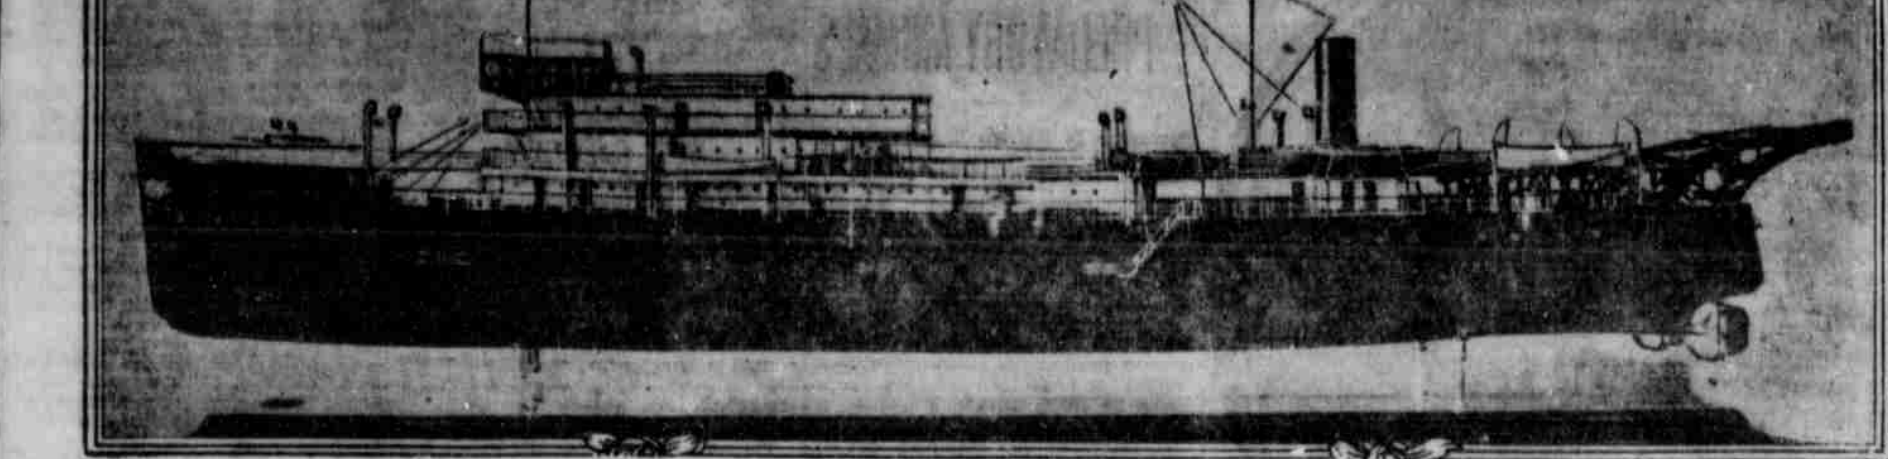

**Fees and Commissions.** For a tract not within the railroad grant of 40 acres, \$6.50; less than 81 acres, \$8.00; 120 acres, \$14.50; 160 acres, \$16.00; 200 acres, \$17.50; 240 acres, \$19.00; 280 acres, \$20.50; 320 acres, \$22.00; 360 acres, \$23.50; 400 acres, \$25.00; 440 acres, \$26.50; 480 acres, \$28.00; 520 acres, \$29.50; 560 acres, \$31.00; 600 acres, \$32.50; 640 acres, \$34.00; and any amount of excess area over 640 acres and less than 680 acres, must be paid for at rate of \$1.25 per acre.

For a tract within the railroad grant of 40 acres, \$5.00; less than 81 acres, \$11.00; 120 acres, \$13.00; 160 acres, \$15.00; 200 acres, \$17.00; 240 acres, \$19.00; 280 acres, \$21.00; 320 acres, \$23.00; 360 acres, \$25.00; 400 acres, \$27.00; 440 acres, \$29.00; 480 acres, \$31.00; 520 acres, \$33.00; 560 acres, \$35.00; 600 acres, \$37.00; 640 acres, \$39.00; and any amount of excess area over 640 acres and less than 680 acres must be paid for at rate of \$2.50 per acre.

**Qualification for Entrymen.** Any person qualified under the general laws to make homestead entry (that is, who has not exercised his right, or who is entitled to restoration of his right under the general provisions of law) may make a stock-raising homestead entry for not exceeding 640 acres of unappropriated, surveyed land in reasonably compact form, which has been designated by the secretary as above indicated. If not designated at time of tendering his application, he must file a petition to have said land designated, and the petition must conform with the regulations hereinafter explained. A person who has perfected, or has pending, an entry or entries initiated since August 29, 1890, under the desert land, timber or stone, or preemption laws for 320 acres in the aggregate is disqualified from making any kind of an entry under the act. If he made entries for not more than 160 acres they do not affect his rights under this act. If he has entered under any of above laws more than 160 acres, but approximately 40 acres less than 320 acres, he is entitled to make an original or an additional entry, but the tract entered hereunder (which in no case must exceed approximately 640 acres), together with the land entered under other laws, and his prior unperfected homestead entry or entries, if any, must not aggregate more than 640 acres. In other words his total under the homestead laws must not exceed 640 acres, and the total of all entries under the agricultural laws must not exceed 800 acres.

**Compactness of Entry.** No entry, nor any claim comprising an original and an additional entry under this act, shall entirely surround an unappropriated tract of public land, nor shall it be more than two miles in length if there be available land which could be taken and reduce the length. An entry may not include two separate tracts, even though they corner, unless each adjoins an original entry, except where entry is made under section 3 of the act, and the homesteader is able to secure land adjoining his former entry for only part of the area he is entitled to take.

**Additional Entries.** Any person, otherwise qualified, who has made a homestead entry for less than 640 acres, which shall be

Model of Submarine Depot Used as Mobile Supply Base; the Germans Are Supposed to Have Several of These.

designated under this act, (regardless of whether he owns or resides on same) may make an additional entry under this act, provided he has completed his term of residence or will have completed same within six months from date of his application for the additional entry, which fact should be stated in his application at time of filing same. The additional entry may be made within a radius of 20 miles of his original entry, if the lands in his original and his additional entry or entries shall be designated as stock raising land. He is entitled to make an additional entry for an amount, which with that of his original entry shall not exceed 640 acres. Such entries may include two inchoate tracts if one of them is contiguous to the original entry. But he will not be allowed to secure a tract contiguous to his first entry unless he first enters all available vacant land adjoining his original entry. If he applies for land inchoate to his original entry he must either make an affidavit, or include the statement in his application, that he is entering all unappropriated, unreserved land contiguous to his original entry, or that there is no such land contiguous to his original entry. The same limitation as to compactness of form will be enforced as with respect to original entries above explained.

**Proofs on Entries.** The entries herebefore explained may be perfected by proofs submitted within five years after date of allowance of same, by showing compliance with the provisions of the three year homestead law, except that expenditures for improvements must be shown instead of cultivation. The entryman must show he has actually used the land for raising stock and forage crops for not less than three years, and that he has made permanent improvements upon the land having an aggregate value of not less than \$1.25 per acre, and tending to increase the value of the land for stock raising purposes, and that at least one-half the improvements must be placed on the land within three years after date of allowance of the entry.

Residence must be continued for at least three years, subject to the privilege of five months' leave of absence each year. Credit on residence period will be allowed of military service in time of war, as on other homesteads. There must be a habitable house on the land by time of proof, but the value of the house will not be credited on the \$1.25 per acre expenditure required.

If the entry compliance with such original entry, the 640 acres. If final certificate has issued on the first entry, it must be shown by a certificate from the proper recording officer of the county in which the land is situated, or by satisfactory abstract of title, that the applicant has not transferred any interest in the land sought to be reconveyed, and that there are no liens, unpaid taxes, or other encumbrances charged against it. Moreover, reconveyance of the land must be made by deed executed by the entryman, and also by his wife if he be married, in accordance with laws governing the execution of deeds for the conveyance of real estate in the state in which the land is situated. The deed of reconveyance should accompany the application, but should not be recorded until directed by this office. On acceptance of an application of this character, the deed will be returned for recording and selling in your office before the entry is allowed.

Where proof has been submitted, but final certificate has not issued, the relinquishment must be accompanied by an abstract of title or certificate of recording officer, as above specified. Where the former entry for land already designated under this act has not been perfected and is relinquished, you will allow the application for entry under this act, if no other objection appears. Where final certificate has issued on the former entry you will promptly forward the application and accompany papers for consideration by this office.

The land relinquished or reconveyed will not become subject to other appropriation until the next entry is allowed, and if an order for allowance thereof be made by this office, its receipt in the local office will operate to restore to the public domain the tract originally entered.

An application under this provision of the law may be accompanied by a petition for designation under the act of the land sought and of the tract covered by the former entry, as hereinafter explained. Proof on an entry allowed under this section is governed by the same rules as though it were an original entry under this act.

**Petitions for Designation.** Any person qualified to make an additional entry under this act may file an application to enter a compact body of unappropriated, unreserved, surveyed public land of the character described, which has not already been designated under this act, accompanied by a petition for designation for the relinquishment of such land, and of the tract included in any former entry. For information as to data to be furnished in petitions, see circular 523.

The filing of an application for entry of land though accompanied by petition for its designation, confers upon the applicant no right to occupy the land sought. No settlement or improvements should therefore be made until after designation of the land.

**Rights for Adjoining Land.** Under section 5 of the act any person who, as the holder of a homestead entry or as patentee thereunder, is entitled to make additional entry under this act has a preferential right to enter lands lying contiguous to his original tract and designated as subject to the act, said right extending for a period of 90 days after the designation takes effect. This right is superior to the right of entry accorded to a person who has filed application for entry of the land under this act accompanied by petition for its designation. However, before a designation has been made the land is subject to entry under any other laws applicable thereto unless there is preference for such application and petition.

Where there is conflict between an application for a tract by a holder of adjoining land, claiming a preferential right, and an application by one asserting the right of entry, the latter will allow the former, subject to the usual right of appeal. Where there is conflict between the applications of two or more persons claiming such preferential right of entry we will offer the expiration of the 90-day period, forward all the papers to the general land office for consideration. That office will thereupon make an equitable division of the different subdivisions among the applicants, so as to equalize as nearly as possible the areas which the different applicants will have acquired by adding the tracts thus allotted to those originally held or owned by them. An appeal will be allowed from the action of that office.

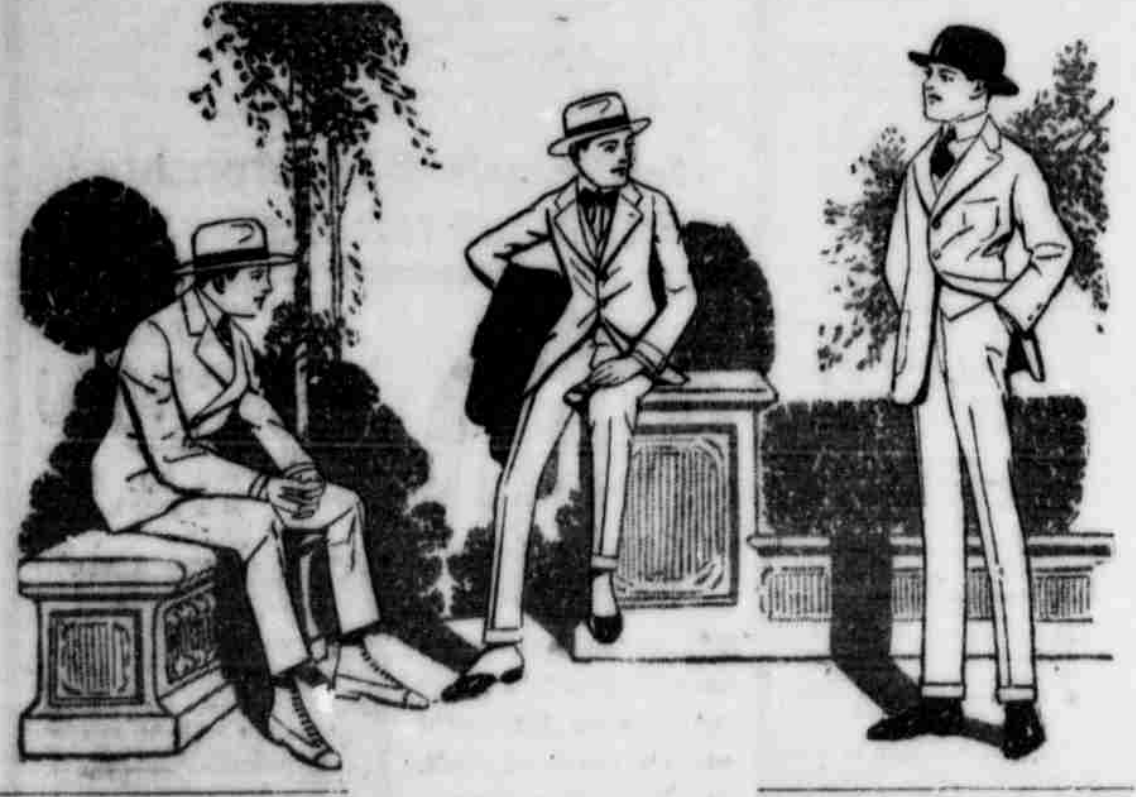

Where there is but one subdivision adjoining the lands of two or more entrymen or patentees entitled to exercise preferential right of entry, and seeking to assert same, said subdivision will be awarded to that person who has filed application therefor with an intention of such right.

other minerals in the lands so entered and patented, together with the right to prospect for, mine, and remove same; also that the coal, and other mineral deposits in such lands shall be subject to disposal by the United States in accordance with the provisions of the coal and mineral land laws in force at the time of such disposal. Mineral applications and coal declarations to purchase the coal or other mineral deposits in lands entered or patented under the act, reserved as provided in the act, will, if all else be regular, be received and filed at any time after the homestead entry has been received and allowed of record, provided, that the lands or the coal or other mineral deposits therein are not at the time withdrawn or reserved from disposal.

**Driveways for Stock.** The reservation of driveways for stock, provided for in section 10 of the act, will be considered on application of parties interested, on recordation of entries, or on the reports of agents of this department. Lands withdrawn for driveways for stock or in connection with water holes can not thereafter be entered, and all applications to make entry for land so withdrawn, whether filed before or after the withdrawal, will be rejected.

**Miscellaneous Provisions.** No credit will be given for any expenditure for improvements made prior to the designation of the land under this act. Proofs on entries under this act must be submitted within five years after the dates of their allowance, and no such entry is subject to condemnation. Every person applying for entry under this act who has heretofore made an entry or entries under the homestead laws must furnish a description thereof or such data as will enable this office to identify it or them. Very respectfully, FRANCISCO DELGADO, Register, U. S. Land Office.

**GERMANY'S FAMINE YEAR.** When I left for the United States in September, I left behind me a distressing picture of the famine-stricken German people. It was as though a child's mouth had been filled from the chest of the nation. Everywhere were brighter faces, brighter colors, and brighter smiles.

THINGS THAT NEVER HAPPEN

The Markets

Wall Street. New York, Feb. 19.—Stock market trading broadened and initial gains were supplemented in the increased activity of the first half hour, dealers embracing many of the obscure specialties. Rails also caught up with the general movement, especially coalers, Chicago and Alton, Missouri Pacific and Southern Railway preferred. Reasoning for profits exerted the customary deterrent effect, reaction ranging from 1 to 2 points in equipment and shipping, with a concurrent diminution of business. Advances from industrial centers reporting slowing down of operations because of coal and car shortages also induced some selling. Bonds were irregular.

Chicago Board of Trade. Chicago, Feb. 19.—Dipsy, ending of the crop of neutral shipping had a dull afternoon, 196 1/2 on wheat. In this connection, special notice was taken of reports that the Dutch government would open plans for one hundred thousand barrels of flour on Wednesday. Provisions of improved railway conditions tended also to lift the market. Opening prices, which ranged from the same as Saturday's finish to 1 1/2 higher, with May at \$1.74 1/2 to \$1.74 3/4, and July at \$1.75 1/2 to \$1.75 3/4, were followed by material gains all around.

Government bonds steady. Railroad bonds irregular. Time loans firm. 60-day and 90-day, 3 1/2 to 4 per cent; 3 months, 4 to 4 1/4 per cent. Call money, steady. High, 2 1/2 per cent; low, 2 1/4 per cent; ruling rates, 2 1/2 per cent; last loan, 2 1/2 per cent; clearing bill, 2 1/2 per cent, offered at 2 1/2 per cent.

New York Metal. New York, Feb. 19.—Electrolytic copper showed considerable weakness today. The spot and nearby market was nominal in the absence of orders, while supplies available for the second quarter were also said to be pretty well cleaned up with quotations more or less nominal at \$34.90 to \$35.00. Leading agencies reported a better demand for third quarter at \$34.90 to \$35.00.

New York Cotton. New York, Feb. 19.—Cotton futures opened steady. March, 12.79; May, 13.02; July, 13.19; Oct., 13.79; December, 14.58.

Chicago Produce. Chicago, Feb. 19.—Butter—steady. Creamery, 22 1/2 to 23; Eggs—lower. Receipts, 2,187 cases. Firsts, 19 1/2 to 20; ordinary firsts, 20 to 20 1/2; at mark, cases included, 16 to 18 1/2.

Kansas City Produce. Kansas City, Feb. 19.—Butter—Creamery, 42; fresh, 40; seconds, 37 to 38; 36 to 37. Eggs—Fresh, 37 to 38. Poultry—Hens, 18 to 19; roasters, 15 to 16; turkeys, 24.

Chicago Livestock. Chicago, Feb. 19.—Hogs—Receipts, 10,000; market, 21.00; 22.00; 23.00; 24.00; 25.00; 26.00; 27.00; 28.00; 29.00; 30.00; 31.00; 32.00; 33.00; 34.00; 35.00; 36.00; 37.00; 38.00; 39.00; 40.00; 41.00; 42.00; 43.00; 44.00; 45.00; 46.00; 47.00; 48.00; 49.00; 50.00; 51.00; 52.00; 53.00; 54.00; 55.00; 56.00; 57.00; 58.00; 59.00; 60.00; 61.00; 62.00; 63.00; 64.00; 65.00; 66.00; 67.00; 68.00; 69.00; 70.00; 71.00; 72.00; 73.00; 74.00; 75.00; 76.00; 77.00; 78.00; 79.00; 80.00; 81.00; 82.00; 83.00; 84.00; 85.00; 86.00; 87.00; 88.00; 89.00; 90.00; 91.00; 92.00; 93.00; 94.00; 95.00; 96.00; 97.00; 98.00; 99.00; 100.00.

**A Matter of Business**  
If you have a building worth a thousand dollars you insure it. You insure your life for the benefit of those dependent upon you. **YOUR EYES ARE PRICELESS.** You and yours are absolutely dependent on them. Certainly it is unwise to allow eyestrain and its resultant evils to imperil them just to save the small expense. It's so easy to be safe.

## Sweet Oranges and Tangerines

Insist on the orange with the Blue Sticker—a little stamp on each individual orange. They are the best oranges grown in California—as sweet as sugar, and cost you no more than an ordinary orange.

### Ask for the Blue Sticker

#### COMING EVENTS.

A new gymnasium class in the preparatory department will be organized at the Y. M. C. A. Wednesday afternoon.

The Fortnightly club meeting has been postponed until February 27, when a miscellaneous program will be given at the University of New Mexico and will be open to the public.

Alamo Review, No. 1, Woman's Benefit Association of the Macabees, will hold a meeting at 2:30 o'clock tomorrow afternoon in Odd Fellows' hall. Lunch will be served—visiting members cordially invited.

St. John's Guild will entertain with a birthday tea on Tuesday afternoon at the home of Mrs. F. B. Howden, 509 Park avenue. Every one cordially invited.

The Rotary club will meet tonight to discuss a proposed bill to change the form of city government to a combination of commission and manager.

Mineral lodge of the Knights of Pythias will observe the fifty-second anniversary of their organization tonight. A banquet will follow. Friends as well as members are invited.

There will be a regular meeting of the Brotherhood of American Yeomen tomorrow evening. Arrangements will be made for the state convective meeting.

The Woman's Missionary society of the Central Avenue Methodist church will meet at the home of Mrs. R. C. Howell, 110 South Arno street, Tuesday afternoon at 3 o'clock.

The meeting of the Lady Catholic Foresters has been postponed from this evening until tomorrow evening at 8 o'clock at St. Mary's hall. There will be an installation of officers.

#### Annual Statement of The Equitable Life Indicates Good Year

The annual statement of the Equitable Life Assurance society of the United States gives evidence of the company's continued progress. Increases are shown in new insurance, outstanding insurance, assets and surplus. The interest rate for the year increased and the mortality rate and expense rate decreased. The payments to policyholders in 1916 aggregated \$38,315,422, making a total since organization of \$1,100,050,839. The insurance on the company's books now amounts to \$1,607,089,581, an increase for the year of \$77,203,000. The new insurance paid for totaled \$209,706,988, covering 130,000 lives. Of 6,241 domestic death claims paid during the year, over 98 per cent were settled within one day after receipt of the proofs of death.

Maximum—48.  
Minimum—22.  
Range—25.  
At 8 a. m.—26.  
South wind; partly cloudy.

The bride went into the kitchen of their new home and returned shortly carrying a rolling-pin and a flat iron, which she laid beside her twin bed.  
"What in the world are you doing?" asked the astonished groom. "You aren't afraid I'll beat you, are you?"  
"I am not afraid of anything," answered the bride. "I have not the least suspicion that you will ever be anything but sweet and kind to me. But I am a firm advocate of preparedness."—Paterson Press Guardian.
