TWENTY-NINTH YEAR.

CARLSBAD, NEW MEXICO, FRIDAY, JULY 29, 1921.

NUMBER 34.

EAGLE DRAW TO BE FIXED BY STATE

The bad strip of road known as Eagle Draw south of Artesia on the Lakewood-Artesia road, will be put in first class condition by the state, it was reported to the Carlshad Chamber of Commerce yesterday by W. F. McIlvain at their regular luncheon held at the Palace Hotel. This good news to all of Eddy county is the direct result of a trip recently made by Mr. McIlvain to Santa Fe, where he learned that the money now being paid in as gas taxes is being placed in an emergency fund to be used in cases of this kind, when he promptly put the proposition before the state officials with the result as stated above. This will also take one of Artesia's most vital points away from arguing that the road to El Paso should not be worked.

Mr. McIlvain also said that the federal highway commission had designated the road to El Paso via the point of the Guadalupe mountains to Van Horn and to El Paso as a federal highway which means that the road will be put in proper condition for travel and especially to accommodate tourists wishing to see the Pecos Valley. Mr. McIlvain said this will mean more to Carlshad and Eddy county than the building of any three railroads as Clovis can route at least 60 per cent of the tourist travel through Eddy county when this outlet is provided and Roswell can also route a good number this way. As it is at present there is no outlet for tourist travel from Eddy county, so they are not routed this way. The county commissioners of whom Messrs. Howard and Watson were present, were thanked by Mr. McIlvain for their help and co-operation in securing the road to El Paso and for their efforts in behalf of other roads in the county. Mr. McIlvain closed his remarks by calling attention to the fact that the location of the next encampment for the Boy Scouts of New Mexico and Arizona which will be a camp of about 4,000 boys, is in the hands of Bert Rawlins, of this city and it is up to the Carlshad Chamber of Commerce to show Mr. Rawlins they have the best camp grounds and offer the best inducements if Carlshad hopes to be selected by the Scouts. He asked that the proposition be thought over and any suggestions be made to the directors, who will act on the proposition at their next regular meeting.

County Commissioner Howard was the next speaker but he "passed the buck" to Commissioner Watson who responded briefly with a pledge to do anything possible for the betterment and upbuilding of Eddy county. Mr. McAdoo, who is now one of the owners of the Owen-McAdoo Drug Co., of this city, responded to an invitation to speak with a word of appreciation for being a citizen of Carlshad and a member of the Chamber of Commerce and assured the club it would ever find him ready and willing to help in any way possible for the betterment of Carlshad.

Judge Atkinson, of Artesia, was present and said he was in hearty accord with the Eagle Draw proposition and closed by expressing faith in the good to be accomplished by organizations such as the Carlshad Chamber of Commerce.

Rupert P. Asplund, of the state tax commission was asked by President Hubert for a speech. Mr. Asplund said he fully realized the value to a city of an organization such as the Chamber of Commerce and where there are a few faithful workers eventually many more will become interested along the same line. He said a luncheon at the noon hour was the best time for business men to get together as it did not require

time from work, recreation or rest. He further said that depressions pass as well as prosperity and that he had been trying to convince the county commissioners for the past few days that the republicans will straighten everything out in a few months and restore "normalcy", which was greeted with much skeptical laughter.

Mr. Hepworth of Manhattan, Kan., who is here in an effort to bring an alfalfa mill into the Pecos valley, told at length of some of the possibilities and opportunities of the Pecos valley. He said that an alfalfa mill held out wonderful opportunity for feeding cattle which range on both sides of the Pecos before they are sent to market. At the present time cattle are often sent from here to Kansas or other states where they are unloaded and fattened and then reloaded for market. With an alfalfa mill, all these cattle may be fattened in the valley. He also said that every ton of alfalfa shipped out was so much land being sent away which would in time have to be replaced by fertilizers. This would not be so with feeding operations conducted on the farm.

Ned Godby, of Peoria, Ill., next told the club of the tennis tournament to be pulled off here on Aug. 14th, when a loving cup will be presented by him to the winner of the singles and he suggested that two racquets be given the winners of the doubles. This suggestion was acted upon after a short talk by Mr. Linn and a committee appointed to get the money to buy the racquets. All towns up and down the valley are going to compete for these trophies. By request of President Hubert, Mr. McIlvain explained the organization of the Associated Charities. The different lodges and churches of the city have been assigned a quota to pay to the United Charities and the membership fee placed at \$5.00 for individuals. In this way it is hoped enough money may be raised to take care of all who need aid in the city and surrounding territory. Business men are requested to refer those asking for help to the United Charities where their wants will be investigated and relief granted if they are worthy. This organization also prevents help coming to the same person from different sources.

W.H. Craig then proposed a vote of thanks to Messrs. Linn, Toffelmire and Morris for their services in fixing up the display for the picture taken at the swimming pool, everyone promptly standing in favor of the motion.

Bert Rawlins brought the luncheon to a close after announcing that seven Boy Scouts received appointment to the federal training camp together with two cavalrymen.

SWIMMING RACES AT POOL THURSDAY

The rain materially affected the attendance at the swimming pool yesterday afternoon although a fair sized crowd braved the threatening weather and was present. Everything had been fixed in good shape for the panoramic picture which was to have been taken, but the rain falling at the time rendered that impractical, altho Photographer Davis had made all preparations for the event. If a sufficiently large crowd assembled this afternoon the picture will be taken.

The long race was won by Etienne Bujac, with Dink Matheson second and LaVelle third.

The race across the river had three entrants, Stuart Armstrong, Edward Purdy and Patty Collins. Armstrong won the race.

The young ladies race of 150 yards was won by Miss Adella Bujac, Miss Elizabeth Albritton coming in second. Little Louise Oliver and Emily Hardy raced for a distance of fifty yards, the former coming out ahead.

The Boy Scouts were on hand with hot coffee and sandwiches which found a ready sale and were very grateful to the swimmers after their efforts in the cool water. Arrangements are being made for another bout in the early future, when it is hoped the weather will prove more favorable. Prizes will be given the successful contestants, by the Boy Scouts.

CARLSBAD PROJECT MAY SECURE AN ALFALFA MILL.

Mr. Hepworth, of Manhattan, Kan., has been in the city for the past two weeks interesting the farmers and business men of the valley in a proposed alfalfa mill to be situated at Otis. Last Tuesday evening a meeting of the haygrowers of the valley was held in the Chamber of Commerce rooms for the purpose of discussing the proposition, which meeting was well attended, thereby showing the keen interest the farmers are displaying in securing the mill.

Mr. Hepworth proposes to bring a mill he now owns in Kansas to Otis and have it in operation in about a month's time if the farmers of this vicinity will take \$10,000 worth of stock in his company. Said stock to be paid for in hay at \$5.00 per ton minimum for number one; \$5.50 per ton for Standard and \$5.00 for number 2, baled and delivered at the mill. After getting an expression of approval from the farmers present, Chairman Hubert was instructed to appoint a committee to secure the subscriptions for \$10,000 worth of stock while the whole proposition is being investigated. The committee which will be guided by legal advice in the matter, is composed of Walter Craft, C. D. Rickman and Louis Lang. The committee is now busy taking subscriptions and will report at a meeting to be held in Commercial Club rooms Saturday, July 30.

An alfalfa mill will furnish a market for all off-grade hay raised in the valley besides making it possible to carry on feeding operations before livestock from this section is placed on the market. The chance to get this mill is an exceptional one in that it does not require any money but may be paid for in hay. The farmers are making most of their opportunity and it is very probable the mill will be in operation some time in September.

SCOUT NEWS.

Scouts Stanley Blocker, Pat Higgins Ray Fry, D. Weldon, Jesse Lockhart, received appointment from Troop 1 to the Citizens Military Training Camp at Fort Logan, Colorado, and the jolly bunch left Thursday night in company with Matheson, Bloxom and Bogelin of the Cavalry. The lads will have a great trip, receive good training and have all expenses paid by the government.

Scouts Thomas and Toffelmire will be in charge of the bath house from now on as Scout Higgins is attending the training camp.

Next year Boy Scouts of West Texas and New Mexico will hold an encampment, and arrangements are being made for the holding of same. The place has not yet been selected and the matter will be put up to the Chamber of Commerce of each city and offers from them received and acted upon. Carlshad will be hard to beat as a suitable place for such a meeting: Plenty of shade, fine swimming and splendid water. Let's all pull for Carlshad.

The scouts enjoyed a visit from Messrs. Minter and Yates, of the Reclamation Service. Both gentlemen complimented the scouts on splendid condition of the Club Room and the behavior there.

A letter from Scout Executive G. G. Everman, of El Paso, the great scout leader in the west, states that in the summer camp at Dripping Springs, sixty Camp Fire girls are in attendance with the regular Boy Scouts and the girls and their leaders are proving first class campers. Carlshad girls should get in line, work up a good camp here. Leaders are needed. Who will volunteer?

Scout Leslie Ward is very sick at Sister's Hospital after an operation for appendicitis. Hope to report him better soon.

Scouts Fancher and Luther Bell and John R. Joyce spent several days in Roswell this week.

Scouts of Troop 1 are indebted to Mrs. John Lucas for a set of fine Indian Clubs.

Scout John Owen Aken was in from the ranch for a few days. He reports the ranch in good shape and cattle doing fine.

Last Sunday a tennis tournament was held in this city between Pecos, Roswell, Hagerman and Carlshad. The Browning brothers, from Pecos carried off the honors of the match with Roswell second and Carlshad third. Play was continued throughout the day before large crowds of interested fans. It is planned to hold a big tournament on August 14 when players from the same places together with other towns will compete for a loving cup given by Ned Godby to the winner of the singles and two tennis racquets to the winners of the doubles. The racquets will be given by the Commercial club. The home players who participated in the contests last Sunday were: Morris, Etter, Godby, Marquis, Lang and Perry.

Miss Roberta Henderson, the nurse from Malaga, has been engaged professionally at the B. A. Nymeyer home, taking care of John Draper the grandson, who has been quite ill. We are glad to know that he is convalescing rapidly at this time.

A bee is noted for two reasons, one being that he makes better honey than the sugar trust and the other that while a very little chap he can lift a 100-pound man ten feet into the air.

THE MOHAIR INDUSTRY

An extensive campaign for the purpose of acquainting the public with the mohair industry and the uses to which mohair products may be put is being planned by the Mohair Growers Association, made up largely of goat raisers in New Mexico and Texas.

"The general public has no idea of the quality and purposes of mohair as it is now produced," said R. E. Taylor, New Mexico president of the association. "A large variety of articles that the average person would call silk are made from mohair, such as the Persian rugs which are made in this country, plush for Pulman seats, shawls, wigs for theatrical purposes and even Santa Claus whiskers."

Mohair goat raising is a profitable business. The animals are exceptionally hardy. They subsist on underbrush and acorns and grow fat on a range of mountainside where other animals would starve to death. Except in cases where mohair is to be used in the making of fine shawls, wigs, etc., the goats require little attention. Usually one Mexican, employed at small wages, looks after a large herd.

The animals are sheared every nine months and each time the yield is large. They generally are sheared in the spring, which permits them to grow a new crop of wool through the summer and fall and be amply protected for the next winter.

Where special attention is given the growing of mohair the greater care is given the goats. They are washed regularly during the period of growth of the wool. Often it requires several months to get ten it requires several months to get a growth started. Sometimes it is necessary to clip the animal four or five times before the wool is glossy enough. In washing the animal it is soaped carefully, then dipped into a vat of clear water and rinsed. The wool is not rubbed with the hands or by any other means except when the soap is applied. After the soaping process the animal is caught by the back of the neck and the tail and churned up and down in the water. Each time he is lifted up the action of the water on the soapy wool straightens it out and untangles it. When all the soap is rinsed out the goat is put down to shake itself like a dog and dry. The wool then appears perfectly clean and in its curly natural state. There always is a ready demand for this clean wool, and the high price which it commands well repays the owners for the trouble of keeping the goats clean, and for the additional shearing that are necessary.

Approximately 200 million dollars' worth of silks are imported into the United States each year, according to Mr. Taylor. It is the aim of the Mohair Growers' Association, in the waging of its educational campaign, to bring about the substitution of home grown mohair products for this imported silk.

NEW MEXICO GAINS CONGRESSMAN BY NEW BILL IN THE HOUSE.

Washington, July 29.—Reappointment legislation providing for a house of representatives of 450 members as compared with the present membership of 435 was agreed upon last night by the house census committee.

Under the reappointment legislation two states, Maine and Missouri, would each lose a member and sixteen states would gain members as follows:

California 4; Michigan and Ohio 3 each; New Jersey, New York, Pennsylvania and Texas 2 each; and Arkansas, Connecticut, Georgia, Illinois, Massachusetts, New Mexico, North Carolina, Oklahoma and Washington 1 each.

The census committee at the last session reported out a bill providing for a house of 483 members but the house voted to amend the bill so as to hold the membership to the present 435. The measure did not pass the senate.

MONSTER FREAK EGG PRODUCED BY ROSWELL HEN.

Roswell, N. M., July 21.—An egg measuring seven and a quarter inches around the small way, and nine and a quarter inches the long way is on display in the chamber of commerce windows. It was laid by a Plymouth Rock hen owned by Mrs. W. H. Allison, who lives north of the city. The egg has a perfect shell, with the exception of a small hole through which may be seen another perfectly formed egg inside the larger shell. In all the long years of poultry experience in the Pecos valley this is the greatest freak yet produced.

Little Frances Ryan, daughter of H. F. Ryan, celebrated her third birthday anniversary at the home of her grandparents, Mr. and Mrs. L. G. Ryan, in north Carlshad, last Friday afternoon from four to six. There were about twenty children present and the usual good time was enjoyed. The children played on the lawn and were assisted in their games by Misses Dorothy Ryan and Inez Jones. Afterward they were treated to ice cream in cones and Sunshine cake. Favors of stick candy were given each little guest.

COMMENCEMENT OF SUMMER EIGHTH GRADE PUPILS.

The Eighth Grade Commencement was held Tuesday morning, a small number of interested parents and citizens being present at the Crawford Theater for that event.

The young folk had decorated the theater with the class colors of green and white in a very tasteful manner. Their motto, "Watch 'em Climb" done in green letters, on a white background, was prominently displayed on both sides of the stage. Contrary to the usual custom, the motto read from bottom to top, instead of from top to bottom, thus illustrating the position taken in climbing.

The class entered preceded by Rev. Geo. H. Givan and Professor Donley their teacher. Mrs. A. A. Kaiser, being called away owing to the death of a sister. They made a beautiful appearance, the girls in their dainty organdy frocks, and carrying arm bouquets of the class flower, the Shasta daisy. A special program had been arranged and was carried out as follows:

March.....Miss Elizabeth Albritton.
Piano Duet.....Misses Albritton and Purdy.
Address to Class.....Rev. Givan.
Piano Solo.....Mrs. Frank Kindel.
Presentation of Diplomas.....Professor Donley.

Benediction.....Rev. Givan.
In his address to the class the speaker emphasized the three characteristics necessary to make a boy or girl successful in school and life as being "Ambition, Determination and Concentration," and illustrated each by incidents that have fallen under his own observation during a number of years spent in the school room. The address was one of the best heard in Carlshad on a similar occasion, in the opinion of those who were present, and could hardly fail to have an effect on the lives of the children who heard him and gave rapt attention to every word.

The graduates were Laura Louise Barnett, Lura Bell, Ruth Callison, Kos Farris, Francis Horne, Mildred Hutchinson, Viola LaVelle, Kate Love, Audrey Middleton, Edrie Miller, Lawler Nelson, Eleanor Patterson, Tom Pope, Frank Runyan, W. C. Stephenson and Juanita Woerner.

We venture the prediction that the Summer Eighth grade pupils will be heard from, not only in school but in life, and we are intending to "Watch them Climb."

ASSOCIATED CHARITIES HOLD EXECUTIVE MEETING.

A meeting of the Executive Committee of the recently organized Associated Charities was held at the Chamber of Commerce rooms in the Armory, Monday night. At that meeting plans were formulated and suggestions given that will lead to making the organization what it is designed to be a business project, conducted in a business like manner. A publicity campaign will be put on at once and every person in the city will find out through the papers and otherwise, what the Associated Charities stands for and its methods of work.

A number of cases have been reported as destitute and have been investigated and assisted. It looks now as though these demands would increase as the year advances and the idea is to have all charitable persons donate through the association, turning down all persons who may pass subscription papers, or seek to obtain any money for the help of the needy except through the association.

As all business men know there is never a week and hardly a day that a collector is not around for some needy person or persons. By refusing to donate to anything except through the regularly appointed channel, the business men and the public will be spared much annoyance and the needy will be taken care of. Any person knowing of cases of destitution has only to report to the investigating committee when they will be looked after and their wants supplied. By this manner there will be no duplicating of charity and still the poor will be cared for. This last should take precedence of every other, for our Master said, "The poor ye have always with you," and "he that giveth to the poor lendeth to the Lord."

A clipping from a Kansas City paper gives the following account of the drowning of Miss Myrtle Blakeley, under date of July 23:

"While bathing in Cottonwood River, near Plymouth, Miss Myrtle Blakeley 31, of Madison, a student in the State Normal school, was drowned. Miss Blakeley waded into a deep hole. A friend who tried to rescue her narrowly escaped drowning."

Since the above was written Mrs. Hatfield has had a letter from Mrs. Kaiser in which she says that her sister was taken from the river in ten minutes from the time she drowned and that every effort was made to resuscitate her but physicians think heart failure must have caused her death as all efforts were in vain. The funeral occurred Wednesday.

Mr. and Mrs. George McClure came in yesterday afternoon on the train from the north, from Tyler, Texas, where they have been attending business college.

CAVALRYMEN GIVE DUTCH LUNCH TO BUSINESS MEN.

Troop B, N. M. N. G. Cavalry gave a Dutch luncheon to the members of that organization and the business men of Carlshad last Wednesday evening at the Armory. A large number of the Troop was present as that was a regular drill night and Capt. West talked to the boys on the importance of attending drill and working to make the cavalry troop the finest in the state. F. E. Hubert, president of the Carlshad Chamber of Commerce, then talked to the cavalrymen and assured them they had the backing of the club and the business men of the city in their efforts to make a first class cavalry organization out of Troop B. Next was an eloquent speech by Major E. P. Bujac, who cited briefly the place of honor held by old Troop B and told the boys it was up to them to attain similar honors for the cavalry troop. After the conclusion of the Major's remarks the Dutch lunch was enjoyed by all and after civilians as well as soldiers indulged in indoor target practice the gathering broke up at a late hour.

MASONS ATTENTION!

A number of local Masons are planning to go to Artesia next Thursday evening, August 4, to meet with the Masonic brethren of that Lodge. A series of joint meetings of lodges in the 13th Masonic district has been arranged to promote fraternal relations between the members of the several towns and to better carry on the work outlined by the recently organized Masonic Service Association of the United States. A feature of the meeting at Artesia will be an address by Victor L. Minter, Past Master of Eddy Lodge No. 21, relative to the conference recently held at El Paso which was attended by Andrew L. Randall and Francis E. Lester, Grand Masters, respectively, of Texas and New Mexico. At the regular communication of Eddy Lodge No. 21, held last evening, a committee was appointed to prepare a program for the entertainment of visiting lodges who will meet with the local lodge in the near future.

CAMPFIRE GIRLS TO CAMP.

Plans are about completed for the camp of Campfire Girls, which under the leadership of Mrs. I. J. Stockwell, will leave for their outing next week, Wednesday. The girls will wear white hats and white Middy blouses and wear khaki bloomers. A number of the mothers of the girls will accompany them to their destination at McKittrick Springs. Cots, bedding and eatables in abundance will be taken along. Mrs. Stockwell has taken all the various drills and folk dances and will teach them to the girls in her charge and they have made plans for the presentation of a play to be given early in September and will be heard from in the various activities of the town from time to time. Sunday August 7, will be "Visitors Day" at the camp and all will be cordially welcomed.

Eddy County Hospital has been a busy place the past week, and "Aunt Sallie" and her assistant have been kept on the jump. Three operations performed in one day beside the care of other patients, was enough to keep two women busy. Mary Rice, a little girl, was brought down from Hope last Tuesday with a broken leg. This is the third time the same limb has been broken in the last fifteen months. This time it was caused by a fall while crossing a ditch in the vicinity of her home. Masters William Tom Cowden and Hershel Hervey, the latter of Loving, were relieved of bad tonsils and adenoids Tuesday of this week. A major operation was performed on Miss Sallie Moore, and she is recovering nicely, as are all the others. Mrs. D. W. Young, of Lake Arthur, who has been so seriously ill is better today.

Wm. H. Mullane and family returned to their home west of the city this morning after a six weeks visit to various points of Arizona. They came home by way of El Paso, and brought with them two daughters, Grace and Della, of Mr. and Mrs. Jim Mullane, who will remain here until time for the opening of school in September. Mrs. Mary Barnes and niece, Miss Nell Sweeten, both well known here, who were with the Mullanes, on their visit to another sister, at Skull Valley, left there for Long Beach, California, where they will spend the summer.

COMMUNITY MEETING.

The Community worship will be held at the Airline Sunday evening at eight o'clock. Rev. George H. Givan will deliver the sermon. Hymns that all the congregation can sing will be a feature of each service. Special music to be selected. A cordial invitation to all the people to attend these meetings.

LOCAL NEWS.

J. W. Tulk, after a rather extended stay in town, for him, left Sunday night for the ranch, going as far as Roswell on the train.

Mr. and Mrs. Ural Boyd came in Tuesday from Cloco, Texas, and are now at home to their friends in this city, who are wishing them all sorts of happiness.

Judge Robinson formerly of this city, but now living at Tulsa, Oklahoma, where he occupies the position of assistant City Attorney, was in town the early part of the week coming via automobile accompanied by his wife.

Mr. and Mrs. Melvin Bearup and two children, came in Sunday night from their ranch in Dog Canyon, and remained here until yesterday afternoon transacting business. The children are growing rapidly and are in excellent health a natural result of their life in the mountains.

A farmer from Hope was on the streets Wednesday with a two-horse wagon full of apples and Damson plums. He says that while there are not any pears in that section of the country as there have been in other years, there are plenty of apples and will be a good crop of late plums and prunes. He expects to make the trip every two weeks during the season and seems to have no difficulty in disposing of his fruit at a good price.

A FAREWELL PARTY

Previous to her leaving for her home on the ranch, Miss Kate Love entertained a few of her classmates and others at the home of Mr. and Mrs. Jones, on Halagueno street where she has been boarding and attending school this summer.

The party was given Friday night and the young people present enjoyed themselves by playing old-fashioned games until a late hour when they were treated to ice cream and two varieties of cake. They all pronounce the party as one of the happiest of the season and hope that Miss Kate may return next year and have another pleasant party. Guests were Misses Eva Thomas, Grace Brown, Alta Angol, Margaret Hitson, Juanita Cooley, and Kate Love; Brown, Walter Beach, Carl Brown, Wallace Vest, Martin Hubbard, Harold Kersey, James Beals, William Mercer, Harry Shiveley and Master David Berry.

Mr. and Mrs. G. L. Montgomery and Mr. and Mrs. H. E. Cawley started last Thursday on their vacation which they had planned to spend at Valley Ranch near Santa Fe. Upon their arrival at Roswell they learned that the father of Mrs. Cawley, Mr. Destrey, was very ill, and that the family had been telephoning here in an endeavor to locate her. Mr. and Mrs. Cawley therefore stopped at the family home and Mr. and Mrs. Montgomery gave up their plans and after a stay of a day in Roswell, returned on the evening train to their home in this city.

W. R. Hegler and Green McComb from near Frijoles were in town and are making arrangements to build a small school house midway between the two homes. They will employ a teacher from Paris, Texas, the same one who taught at the Hegler ranch last year. Mr. Hegler has three children of school age and Mr. McComb has two. The new arrangement will solve the problem of their education in a very satisfactory manner and might be followed in a number of instances with good results.

Our attendants at Silver City Normal began to arrive home last Saturday night. Mrs. F. R. Zimmerman, Miss Vera Vest, Miss Eopa Cooper, Miss Frankie Cox, and others from Lovine, Misses Josie and Annie Mae Donaldson, and Harriet Rose. Others remained until later in the week. All speak of the excellent school this year and say it was much better attended than for many years.

Miss Beatrice Hays, daughter of Mr. and Mrs. Dick Hays, after a pleasant visit with her parents in this city, left for Kansas City, Tuesday night, where she is employed as a stenographer. Miss Hays enjoyed every minute of her vacation with home folks, who had planned outings galore for their daughter.

Willoughby Hegler was in from his home at Frijoles, Texas, coming the first of the week and leaving as soon as he had transacted some urgent business. His two daughters, who had been visiting their aunts and uncles on the Plains, accompanied him to their home.

Mr. and Mrs. John Reed and children were in from their ranch home on Black River last Saturday and had the usual tale to tell of fat cattle and fine pastures in their section of the country.

Mrs. Blanche Watson is a business visitor from Mineral Wells, Texas, this week, coming in Saturday night on the train from the south.

GOOD ROADS MOVEMENT IS BRINGING RESULTS; 800,000 MILES OF HARD HIGHWAY CONSTRUCTED SINCE 1880

The growth of the good roads movement in the United States and Canada since its organized inception in 1880, and with the great stimulus it received in the periods immediately following the advent of the automobile and the appearance of the motor truck has been so rapid, so extensive and so effective that highway construction today constitutes one of the greatest, if not the greatest, problems in American economic life.

There are now 1,702 organized agencies actively and directly pleading the cause of good roads. The agitation, to date, has brought about the construction of 310,000 miles of surfaced highways—raising the highway mileage of the United States to 2,478,552 and that of Canada to 255,000.

The automotive industry, fourth largest in the country, with 368 manufacturing plants capitalized at \$120,378,643 and employing 325,000 workmen; having an annual output of 2,205,197 passenger cars and trucks valued at \$3,594,814,620 and supplemented as it is, by 1,900 firms producing auto parts valued at \$300,000,000 a year, together with 1,000 firms manufacturing annually 35,000,000 tires valued at \$1,000,000,000, is absolutely dependent upon highway improvement for its stability and upon increased road mileage for greater expansion. In addition 35,000 distributors of automobiles are involved as well as 45,800 dealers in automobile accessories and 35,000 dealers in tires. So great, too, has the road building in-

THERE'S MORE THAN A CHANCE FOR YOU TO WIN IN NEW MEXICO.

"The sunshine state with its vast areas of fertile land, its unsurpassed climate, the favorable growing seasons with a wide range of crops—makes success a certainty."

"The fertility of the soil is provided; water for irrigation abundant, whether coming from artesian wells pumped wells, or from gravity canals, whatever the source, it is available in unlimited quantities, all of which makes the land very productive."

"New Mexico is a land of the sky, with mines, forests, mountains, valleys and plains."

"More than 400,000 people live there now. Room for thousands more. You can raise alfalfa, all the grain crops and fruit."

"You can graze cattle and sheep."

"You can dry-farm or irrigate."

"The long growing seasons in the irrigated valleys of the Pecos, Portales, Rio Grande, Mimbres and Northern New Mexico have created flourishing communities, with good local markets."

"Here you can engage in farming on a large or small scale, under most favorable conditions."

"Folder on New Mexico mailed on request."—From "The Earth" for July.

Tom Middleton and Seibey Cox were down from the mountains the first of the week making arrangements for the camp meeting which begins at Queen, the 30th of this month.

dustry become, in consequence of the demand for improved roads, that there are now 7,500 contracting firms engaged in actual construction work. The roads are now traversed by 9,211,255 licensed cars and trucks of which 3,000,000 are used on the farms. These cars consumed 3,200,000,000 gallons of gasoline last year. Prior to 1880, when Amos G. Bateholder, late chairman of the executive board, American Automobile Association at Washington, with H. S. Earle of Detroit and other pion-

eer advocates, organized the League of American Wheelmen and began a systematic campaign, a good roads enthusiast was looked upon with undisguised amusement as something of a "nut"—a loquacious, but, no doubt well meaning person who might be seen but not heard. Usually he was promptly "sat down upon" by the lugubrious taxpayer.

Opposition gradually melted away however, as the campaign became more fully organized and extended. Since 1880 more than \$2,000,000,000 has been spent for highway improvement in the United States and Canada. More than \$1,300,000,000 is now available, and \$1,500,000,000 additional will be necessary to carry out projects under contemplation. And yet, with all this, only a beginning has been made. Billions must be expended before the country has anything like a highway system adequate to the traffic needs.

The great demand for good roads and the progress made in road building has evolved many types of hard surfaced roadway, of which the bituminous are in great general use. The popularity of these types, especially those of the sheet asphalt, the asphaltic concrete and asphaltic macadam, is due to their long wearing qualities, resiliency against traffic impact, dustlessness, noiselessness, cleanliness and low cost of upkeep. Brick and concrete roads have also developed with the agitation as have the wooden and granite block types. The most recent available figures give 2.11 per cent of the surfaced roads of the United States as being of gravel, 25.22 per cent as of macadam, 17.16 per cent as of sandclay, 1.98 per cent as of asphalt and other bituminous materials, 3.91 per cent of concrete and .62 per cent of brick. The figures for the asphaltic and brick types—a total of 16.53 per cent show the extent to which the city types of pavement have been adopted in the rural districts. The wooden block and the granite block types do not appear to have progressed as yet beyond the city boundaries.

According to figures compiled by the federal bureau there are now 22,030 miles of federal aid roads in the United States. These have cost \$361,946,868. Latest figures compiled by the Asphalt Association, New York, show that \$243,678,712.36 were made available in 569 new highway bond issues by states, counties, townships, road districts and municipalities in May and June this year. This makes \$1,343,678.36 now available for road work in the United States during the next two years.

WORRYING.

Worrying is a real and exceeding injurious bad habit, a habit that is acquired and grows on the victim.

Who hasn't seen or known dozens of women and some men who were chronic worriers, and most of them react in their physical health to the vice of worry.

A fit of anger or a spell of worry, envy or jealousy—which are forms of worry—often will cause more physical fatigue than a hard day's work for the body. Worry has a strong influence on the body.

"Take it Easy," mentally, no matter if your problem is a hard one. When the pressure gets too much for you, drop the problem for a while and turn to something else.

"Forget it." It's hard to do but you can learn to do it just as you learned to read and write.

Hurry is worry. Start early to do what is before you without the strain of hurry and rush. If at all possible, you'll not be fagged out and can do better work all along the line.

Don't rush home in the evening after work. Take your time and you'll eat a better supper and sleep more soundly.

Above all for the sake of physical fitness don't brood over your problems and troubles. Don't indulge in self pity. When you feel this "com-

LOCAL NEWS.

Miss Zeta Willis left the first of the week for Black River, where she has a number of friends and will visit there for a couple of weeks.

Miss Hazel Harrison of Black River was in from there the first of the week visiting friends and shopping with our merchants.

Reagan Middleton was brought down from the mountains the first of the week and was a very sick man. His illness was caused presumably by eating an apple that had been sprayed and which poisoned him. A physician treated him for some days before getting control of the trouble.

Miss Ann Mallard returned Sunday afternoon from a short stay at her home in Lubbock, Texas, where she went to attend the funeral of her brother. She reports her mother, who is an invalid, as able to sit up a little when she left home.

The Misses Anderson, who were guests of Mrs. Raymond Livingston, for about a month, left for their homes in Arkadelphia, Arkansas, a week ago. The young ladies were enthusiastic over their pleasant visit and made many friends here who will gladly welcome a return.

Melvin Bearup, one of the young goat men of the Guadalupe spent the first part of the week in town, a business visitor.

DROWNED AT EMPORIA, KANSAS

Mrs. A. A. Kaiser received a wire last Saturday evening telling of the death by drowning of her sister, Miss Myrtle Blakeley, which occurred some time Saturday. The wire gave no particulars and none are available up to this time. The young lady had taught in the schools at Loving some years ago and was a highly educated and cultured young woman. She was a graduate in music from a prominent school in Kansas, and her untimely death is one of the mysteries that cannot be explained. Mrs. Kaiser left on the train north Sunday night for Emporia and has announced her intention of remaining with her mother until time for the opening of school here. The mother's home is at Madison, Kansas. Much sympathy is felt and expressed by Carlsbad friends toward Mrs. Kaiser as it is known that an especially deep attachment existed between her and her sister.

E. M. Morris, who lives on the Galton place west of town and attends to various market gardens in that neighborhood, has just returned from a trip to the old home at Stillwell, Oklahoma, getting in Saturday. Mr. Morris says he found crops in fine shape everywhere he went with the exception of a small strip between Oklahoma City and South McAlester, where the crops had suffered from the drought. He says, however, that he thinks farmers in that section of the country are feeling the financial stringency even more than those in this county. The most favorable thing in that section is the fact that farmers raise almost their living in their gardens, and also raise chickens, hogs, etc., which makes them sure of a living even though the money is scarce. His sister-in-law, Miss Martha Harrison, returned with him and will remain here for at least a couple of months and perhaps longer. Mr. Morris is a man who never fails to say a good word for New Mexico and Eddy County and says he likes this place better than any place he has ever lived.

Troop 3 of the Boy Scouts, which is the troop composed of Spanish-American boys, will play the boys of Troop 2 at the Ball Park, tomorrow afternoon, the game to be called at 2 o'clock. Two games have previously been played by the same boys, and this is to be the deciding game, as each troop has one game to its credit.

Mrs. J. W. Armstrong is enjoying a visit from her brother, Dr. E. L. Morton, wife and their young son, John Donaldson Morton. Before her marriage to Dr. Morton, Mrs. Morton was Miss Veda Cummings and graduated from the Carlsbad High School in 1911. Dr. Morton is the present mayor of Mortonville, Kansas.

BURGETT WRITES FROM WASHINGTON

In a recent letter from John E. Burgett, well known newspaper man recently with the Advocate, who is now in Washington, D. C., says that he is permanently located at that place, having gone there from Columbus, Ohio, by auto with Mr. and Mrs. Coll. The Coll's visited with his parents at Grove City, Ohio, for several days and while there met Fred Brainard who also visited with the Burgetts. They attended several base ball games while there and saw Fred in action and Burgett says if Columbus had three or four Brainard's that the race in the American Association would be a settled fact. He says Fred pulled some of the greatest plays ever seen on the Columbus field and hit the longest home run ever poked on that diamond.

He states that the soldiers bonus bill was practically killed by the order of the president but said to tell the boys that Senators Jones and Bursum both voted right, opposing recommitment. They both think that the bill will be brought up again soon. They are both friends of the ex-service men and believe they will do all in their power to get them justice. He says there does not seem to be much friction among these two men despite their opposite political views.

After he gets settled he will get out a "Washington Letter" each week which will be used by newspapers the country over. —Artesia Advocate.

The local Lodge of Rebekahs held a pleasant and profitable meeting last Monday night, when two candidates were initiated into the mysteries of the degree and afterward a social hour was spent with homemade ice cream and wafers for refreshments. A membership and attendance contest was decided upon and two ladies, Mrs. Hattie Mercer and Mrs. D. R. Vest were appointed captains. The contest is to run until the close of the year, and it is hoped by this means to increase the attendance as well as the membership of this very excellent order.

Boy Scouts of Troop No. 2 were obliged to hold their ice cream fete in the room formerly occupied by the Boston store, because of the rain and threatening weather. However, as it was, they made about \$25.00 which is a nice little sum to be added to their treasury.

WEEKLY REPORT ON CROP CONDITIONS IN NEW MEXICO

Although good rains have fallen elsewhere, ranges in the southern and southwestern part of the state are not improving rapidly. It is shown in the bulletin by the federal weather bureau for the week ending Thursday. The report says of conditions of crops, ranges and livestock throughout the state:

The week was warm, partly cloudy and favorable. Local showers occurred daily, mostly light although some heavy local downpours were reported. Southwest and a few western districts are still needing more rain. Range and stock are generally good to excellent, except in the southwest district where both are slowly improving. The harvest of wheat, oats and barley continues in northeast counties, and threshing is under way in southern counties. The spring grain in north, corn, beans, kafir, milo and fodder crops are doing well generally. Early roasting ears are coming to market in southern valleys, while the crop is tasselling in central districts. The fruit crop is poor generally, but early apples are being marketed in the lower Rio Grande also beginning of cantaloupe shipments. This cantaloupe crop promises well in both quality and quantity.

The difference in conditions is very great in several localities, the bulletin shows:

Agricultural College—High temperature and light showers. Alfalfa and truck crops are good, range still very poor. Cantaloupes ready for shipment.

Black Lake—Good weather during the week and crops are looking fine.

El Paso—Ranges and cattle in good to excellent condition. Corn is fine and some early roasting ears are being marketed. Pickling and shipping of pears has begun with about one fourth normal crop. Irrigated crops (not including fruit) promising good yield.

Bland—Stock is looking better but range continues rather poor, a plentiful supply of weeds with rains much needed. Alfalfa good. Garden stuff, much behind usual season. Creeks are very low.

Roswell—Stock good, range good, to excellent. Farm crops excellent, some corn tasselling. Early apples are being marketed. Threshing of small grain is in progress. The week was dry with rising temperatures and generally favorable. Alfalfa harvest was not interrupted by rains.

Truchas—Planting all done. Alfalfa, spring wheat, oats and field peas are coming on nicely.

Chimayo—All crops are growing finely on account of favorable weather and good showers. Stock is in good condition and range is good. First cutting of alfalfa generally rather poor.

Lakewood—Favorable week, with good growth of vegetation. Range and stock in good condition. All crops doing well.

Hermosa—Moderate temperature and light showers—a favorable week. Corn is doing well. Range improved but needing more moisture.

NOTICE

TO MY CUSTOMERS

Beginning August 1st, 1921, all accounts must be paid by the 10th of each month or further credit will be denied. Please do not compel me to give further notice, as I am simply adopting the method used by other business concerns of the city.

U. S. Market

DAN LOWENBRUCK, Prop.

Mrs. John D. Cantrell is enjoying the visit of her sister Mrs. George C. Haseltine and little daughter Phyllis Mae of Fort Stockton, Texas, who came in from Fort Worth, Texas, where she has been visiting her daughter, Mrs. Hubert McGee.

Arthur Mays was in from his ranch Monday of this week attending to business of various kinds.

A "ROOK PARTY," Saturday night the home of Miss Zeta Willis was the scene of what has been described to us as a delightful party. Six couples were invited and played that ever popular game of "Rook" and were regaled on delicious home made cake and cream at the close of the evening's entertainment. Those fortunate enough to receive invitations to the party were Misses Lillie Mae Nelson, Velma Regnier, Lurline Mahan, Vera Marjorie Nornhauser, Elizabeth Hoag, and Gladys Regnier; Messrs. Wilmer White, Lester Nelson, Leslie Abel, Everett Beach, Charles C. Eaker, Edward Walterscheid, and Lyman White. Mrs. Hannah always turns the house over to her daughter's guests and Friday night was no exception to the general rule. Mrs. Nornhauser assisted the hostess. Mrs. Hannah, in serving.

Mrs. A. R. Seder and three children arrived in Carlsbad last Monday from Minneapolis, Minnesota, and are guests of the family of Judge and Mrs. Grantham. Mrs. Seder's parents, and will remain here for six weeks or two months.

Love in a cottage beats jealousy in a mansion.

NOTICE OF FORECLOSURE SALE.

Notice is hereby given that in Cause No. 3250 on the civil docket of the District Court of Eddy county New Mexico, wherein J. R. Jameson is plaintiff and K. S. Lykins and Mollie Lykins are defendants which is a foreclosure of a certain mortgage upon the land and real estate hereinafter mentioned and described, judgment was rendered and entered on April 30, 1921, in said court in favor of the plaintiff as follows:

- (a). For the sum of \$1145.83 principal and interest on promissory note No. 9372;
- (b). For the sum of \$48.02 principal and interest on interest coupon note No. 6;
- (c). For the sum of \$46.83 principal and interest on interest coupon note No. 7;
- (d). For the sum of \$824.15, same being the total sum of taxes and assessments paid by the plaintiff, J. R. Jameson, on the land and real estate hereinafter mentioned and described;
- (e). For all costs of this suit and for all costs and expenses of

sale in connection with the foreclosure of said mortgage and the proceedings relative thereto and for the sum of \$110.00 as and for attorney's fees;

(f). That said mortgage be foreclosed against and upon said land and real estate according to law and the rules and practice of said Court and that said land and real estate be sold to satisfy said judgment and for costs and general relief;

(g). That in event said land and real estate shall sell for more than enough to satisfy said judgment, costs and fees, the surplus shall be paid over to defendants K. S. Lykins and Mollie Lykins.

That the amount due (exclusive of the costs and expenses of sale) with interest as provided in said judgment to August 2, 1921, the date of the sale hereinafter mentioned is \$2195.17.

That the undersigned Charles H. Jones was in said judgment appointed Special Master to sell the following described land and real estate situated in Eddy county, State of New Mexico, and described in and covered by said mortgage to-wit:

South Half of the Southwest Quarter of Section Twelve (12), Township Twenty-three (23) South, Range Twenty-seven (27) East of N. M. P. M., containing 80 acres, according to the Government Survey thereof, together with all water and water rights thereto attached, or in any-wise appurtenant, and all rights to stock in the Peecos Water Users' Association appurtenant to said land.

Therefore, the undersigned will on August 2, 1921, at ten o'clock A. M., at the South Front Door of the Court House (old building) in Carlsbad, Eddy county, New Mexico, offer for sale the above described property to pay off and discharge said judgment and all costs of said suit and of this sale actually accrued and to accrue to the highest and best bidder for cash, and any surplus received over and above money sufficient to pay said judgment and costs will be paid over to the Clerk of the above named District Court to be by him held subject to the order of said court. The terms and conditions of said sale are that the purchase price at such sale shall be paid in cash.

IN WITNESS WHEREOF, I have hereunto set my hand at Carlsbad, Eddy county, New Mexico, on this 7th day of July, 1921.

CHARLES H. JONES
Special Master.

The Stamp Of Edison's Genius

is clear and unmistakable. It places Edison's Amberola so far above "talking machines" and ordinary phonographs that there is no comparison. You don't have to be a musical expert to realize that the Amberola is the world's greatest phonograph value. Anyone who likes music cannot fail to note the tremendous difference.

EDISON'S NEW DIAMOND AMBEROLA

has such a pure, musical tone, that once you've heard it, no metallic sounding phonograph or shrill "talking machine" will ever please you again. The genuine Diamond Point Reproducer does away with needles. The practically indestructible Amberol Records outlast ordinary fragile records by many years!

Name your own terms and learn how surprisingly easy it is to own an Amberola, thanks to Mr. Edison. NOW—can you refuse to visit our store and listen to the Amberola? Come right away—don't forget—please.

Star Pharmacy

Suppose Your House Burned Tonight

The first thing you would do, would be RUSH to the nearest phone and give the alarm to the fire department. The time for alarm is BEFORE this actually happens. Why not RUSH to the Insurance Office of W. F. McIlvain and get this Protection against loss of your household goods, personal effects or your business stock? WE OFFER PROTECTION AT A MODERATE COST, and TODAY is the opportune time to secure Adequate Insurance.

The mail order houses make millions each year, but they do not pay any of the home town taxes.

Our suffragettes have not smashed windows like they did in England but they have smashed a lot of false impressions, many precedents and quite a few hearts.

The liberal religious creeds that are abolishing hell had better let up. As long as we have food trust combinations and grafting politicians we are going to need a little hell in our business.

And now Henry Ford says that God willing he will again be a candidate for the U. S. Senate. Somebody ought to inform Henry that God is not mixing in Michigan politics.

This is sure getting to be some rapid age. A fellow does not cross the street any more without being in danger of getting his pistol or flask pocket full of tin Lizzies.

It must be a waste of time for a tax collector to fool around after a man who keeps up with all the new records for his phonograph.

J. E. Lavery and wife are visiting at the home of their daughter, Mrs. L. H. Perry, at Spur, Texas, and will probably spend a month or six weeks there.

CARLSBAD CAPE.

We have purchased the Carlsbad Cape and will not be responsible for any debts previously contracted by this concern.

We will be open for business Saturday, August 6th, and invite the public to eat at our Cafe.

JOE AND FRANK.

FISH HATCHERY.—New Mexico is building a fish hatchery to cost about \$30,000 that will produce about 3,000,000 trout annually. It is located at Valley Ranch, near Santa Fe.

A GOOD WHEAT CROP.—It has been a good year for wheat in Oklahoma. Threshing is in progress, and the yield will be around 40,000,000 bushels from approximately 2,500,000 acres.

Clayton Miller has taken another relapse and has been quite ill for several days at the home of his mother in the west part of town. An operation was necessary and has been performed and it is likely that he will soon be around again.

Washington, July (By Associated Press.)—Further credit for harvesting and marketing the coming cotton crop will be extended in whatever amount is legitimately required, it was announced tonight by the federal reserve board and the governors of the reserve banks of Richmond, Atlanta, St. Louis, Kansas City and Dallas.

The announcement was made after a meeting of the governors of the reserve banks in the cotton growing sections to formulate a uniform policy on cotton loans for orderly marketing of the new crop. It was decided that credit would be extended either directly to member banks by the reserve banks or indirectly to non-member banks through the member banks.

"In order," the announcement said, "that the discounts facilities of the federal reserve banks may be made fully effective, it will be necessary that member banks in the cotton states place their loaning facilities freely at the disposal of cotton producers and dealers in their respective localities with the knowledge and assurance that the federal reserve board and the federal reserve banks recognize the urgency of tendering all proper assistance to these important interests during such abnormal times."

ADVERTISING AND BUSINESS

Advertising and business are close partners. They are responsively sympathetic. In the times of the years ago advertising was good in periods when business was good, and if there was a panic advertising slumped. Now there is less indication that business affects advertising in as great a degree as advertising affects business. In the old times merchants, for example, advertised in the local papers liberally when business was high, spirits high, cash plentiful and when they "felt that they could afford to spend the money with the newspapers." But that era has passed.

Business men put their first-rank business judgment, sense, skill into their advertising campaigns; for on these advertising campaigns depends the volume of their business. Competition is sharp; if business is good they advertise to keep it so and to get their own share and a little more if possible of what's doing in the trading line; if business is "off" then they realize the absolute necessity of advertising for a number of good reasons: The people, they know, are then eagerly looking for the best places and the best prices; the business is not plentiful enough to go around with two or three liberal helpings and they resort to attractive, intense, emphatic advertising to get the largest possible proportion of what there is in sight.

In the old times the business man put advertising into the business system only when he thought the system was strong enough to stand it. Nowadays he feeds his business a regular diet of advertising to keep its circulation normal, its strength vigorous, its growth steady; he gives it the extra treatment when he finds that a tonic or a stimulant is most required.

Business men are coming to the same view of advertising as an element, a vital, everyday, regular, steady element in business.

IMPROVE THE LIVESTOCK

There is no time like the present for improving the general classes of livestock on New Mexico farms. Much has been said and written about improvement that can be effected by the use of purebred sires of good individual quality. Prices of breeding stock are lower than they have been for years. It is true that money is scarce in general, but it is doubtful if there are many bankers in the state who will turn down a loan requested by a customer for the purpose of buying a high grade boar, ram or bull. Good sires of all classes of stock can be purchased in New Mexico.

ALFALFA SEED FROM EAST AFRICA.

The following imported seeds arrived at the port of New York during the week ending July 2: 65,000 lbs. of alfalfa from East Africa, 22,000 lbs. of red clover from Germany; 73,000 lbs. of crimson clover from France; and 16,500 lbs. of rape from Holland.

FOR SALE:—Collapsible and adjustable dress form; can be adjusted any size from 32 to 46 inches. Owner is leaving town and does not wish to take it with her. Inquire at this office.

Wilson Jones came down from Roswell Sunday night and remained here until Monday when he returned to his work. He is in the employ of the Bonney Electrical Company and looks as though the air of the upper valley agreed with him.

Mr. and Mrs. Edgar Williams and baby and Mrs. William's father, Mr. Finlay, of Carlsbad, attended the barbecue given by Mr. and Mrs. Jim Williams, Wednesday. —Lovington Leader.

WHEN THE BELL COMES IN.

Editor Pecos Enterprise, Pecos City, Texas.
 Dear Fellow-Sufferer:—
 This morning as I came down town I stopped at the office of the secretary of The Chamber of Commerce. The handsome young Adonis who presides over the affairs of the fair city was out chasing Billionaire Oil Investors and 10,000 acre land buyers. I found a bottle marked "Oil from Bell well, Vintage of 1920, Bottled in Bond, Stamped in the Bottle and Blowed in the Cork." Looking about me very slyly to see that no prohibition enforcement officer was near I thirstily drained a pint down the large opening in the front side of my face. It tasted like my Ford smelt. It made a gusher out of me, for 15 minutes. Ltr I committed the following atrocity:
 Uncle Ben and sister Julia
 Will not pay you what is due you,
 Everybody tries to sue you,
 And the others try to do you,
 And what's left are bound to Jew you,
 The mosquitos bite and chew you,
 And the weather tries to stew you,
 Old friends say they never knew you—
 But we'll all sing hallelujah,
 When the Bell comes in.
 For a small consideration
 We could stand our poor relation,
 (Though they are no small equation,
 And they are a large vexation.)
 Since we'll startle all the nation,
 And awake the whole creation,
 As we join the jubilation
 When the Bell comes in.
 Ah, then we'll mix it in our bread,
 On our hot cakes for a spread,
 Or shampoo our old bald head,
 Drink it when we go to bed—
 To the babies 'twill be fed;
 We'll yell to wake the dead,
 And we'll paint the old town red.
 When the Bell comes in.
 P. S.—Now that it's out of my system I feel like an empty can of Zerolene, or Benzene or Gasoline, but I'll doubtless feel "oil" right—
 When the Bell comes in.
 Joel Frank Hedgpeth.
 Alias Bro. Joe.

LIMIT TO ALL THINGS

A full page illustrated editorial in the Sunday Hearst papers shows the god of war labeled "Japan" dragging our Columbia by the hand. This is in reply to a cartoon in the New York World showing the god of war dragging Uncle Sam by the hand, but is labeled "Military Expenditures." The World's illustration is apt and has sense. That of the Hearst papers is silly and lacking sense. The idea that Japan, a little nation with less than half the population of the United States, occupying a country about the size of our state of Texas, dragging America around is so absurd that no one more than half-baked could conceive it. The editorial accompanying the picture goes on to say that Japan is building one of the largest and best navies in the world, nearly bankrupting herself in doing it; that it is but natural that whoever owns such a machine will in time want to use it, as a man owning one of the finest automobiles would want to take a ride in it; that therefore we should build a bigger and better array of battle-ships. By the same logic, then, when we get this super-navy built we will want to "take a ride in it." Germany also "took a ride," and anybody else taking any similar "rides" is going to fetch up just where Germany has, whether it be Japan or anybody else that gets the swell head.

We are now spending three-fourths of our national income for war, past, present and future, and taxing every man, woman and child outrageously to do it. Our war preparation and maintenance is costing us in taxation now enough to build the great Panama canal three times each year, which is enough in ten years to irrigate all our deserts, build good roads everywhere, or buy and pay for every railroad line in the country. We should be prepared for eventualities, yes, but we should not be crazy over it as is Willie Hearst and as was Kaiser Bill.

SLEUMBER PARTY.

A slumber party was what they called it but the neighbors realized there was very little slumbering done by the girls of Mrs. R. E. Platt's Sunday School class who gathered at her home last Wednesday for that purpose. There were eight of the girls present to enjoy the delicious picnic style supper which was served on the lawn before going to the picture show. After the show the girls returned to the lawn and romped and played until a very late hour. Next morning after breakfast the girls departed saying they never had attended a more wonderful party than the one given by their beloved teacher.

Miss Aline Dalmont has returned from her vacation which she spent in Plainview and Fort Worth, Texas. She returned Tuesday and on Wednesday was fixing her position in Joyce Pratt's office.

There are two kinds of girls in the world: The girl who works and the girl who gads. Commend us to the former. Work lends dignity to her. The girl who gads, God bless her, combines the useful and ornamental. She might gad about, roll on a sofa, gossip and read story books, but she prefers to be of some account in the world and goes out as stenographer, teacher, saleslady or housekeeper and bravely makes her own way. Such are the salt of the earth and of such is the kingdom of Heaven.—Exchange.

Mrs. R. M. Thorne and daughter, Agnes, are spending the week in Roswell.

Mr. and Mrs. J. V. Linum and daughter of Hobbs, are in the city, coming for medical treatment for the daughter. They were accompanied by their guest, Ray Hansy, of El Paso.

Melvin Bearup and family have spent the week in town from their goat ranch in the mountains. The six-year-old daughter, Celeste, will attend school here this winter, stopping with the family of her grandparents, Dr. and Mrs. A. A. Bearup.

The family of Lee Middleton are among the fortunate ones who will attend the camp meeting at Queen, Lee coming in from his work on the road to take them up in their car.

Mr. H. Harrison daughter Hazel, also Zeta Willis left for Rattlesnake Spring ranch Tuesday, Zeta going to enjoy swimming, horse back riding and fishing and all the other ranch sports with Hazel.

The ladies of the Maccaebes to the number of thirty have Mrs. Claude Hackney one of their members, who is leaving soon to make her home in Carlsbad, a very delightful surprise and handkerchief shower yesterday at her home. Mrs. Hackney has been the very efficient pianist for the W. B. A. for the past year and a most devoted member and her going is much regretted by the entire membership. A shower of beautiful handkerchiefs were given Mrs. Hackney, and a pleasant afternoon spent with games and music. At the close delicious ice cream and several kinds of cake were served.—Roswell News.

J. B. Leek made a trip to the Fred Nymeyer ranch last Sunday and was accompanied on the return by his wife who has been spending a week there and their daughter, Miss Wardle, and the Misses Hegler. Wm. Lock, who had been at the ranch was not there when his son arrived, but was spending a few days on the Fred Leek ranch at Kermit, returning via train later in the week.

Mrs. W. K. Jones and Jess Plowman and wife were up from Malaga Saturday, Mrs. Jones coming for some dental work and others on business with our merchants. They tell us that the large crop of peaches and plums on the Hoag place are all disposed of persons coming from Lakewood to purchase fruit.

Mr. and Mrs. Ed Lamb were down from their home at Artesia the latter part of the week. Mrs. Lamb says that she likes to live at Artesia very much but she also likes to know what Carlsbad people are doing, and consequently she subscribed for the Current while here.

THE METHODIST CHURCH.

Sunday School will open at nine-thirty-five. Some special readings and recitations by several pupils. Subject for the morning sermon: "The Consolations of the Christian Religion." All persons not worshipping at other churches will find a warm welcome at the Methodist church. No worship at the evening hour.
 GEORGE H. GIVAN
 Pastor.

LOCAL NEWS.

William Washington was in from his ranch on Black River yesterday.

Mr. and Mrs. Julian Smith and non-in-law and daughter, Mr. and Mrs. Victor Unruh, came in from Cisco, Texas, arriving here Monday night. They tell of some pretty speedy traveling over the fine Texas roads.

The mother of M. E. Riley and Mrs. Nat Hiller of this city died at Montrose, Colorado, last Tuesday, according to a telegram received here Wednesday morning. The lady was quite old and had been practically an invalid for some years. None of the relatives from here attended the funeral. Many friends of Mrs. Hiller and Mr. Riley feel deepest sympathy in their bereavement.

Our Welding holds. WEAVER'S GARAGE.

Rev. J. C. Jones, presiding elder of this district of the Methodist church was in town at night Wednesday and occupied the "Prophets Chamber" at the Methodist Parsonage. He was on his way to look after the business of the church at Pecos, Texas, and will return Monday to his home in Roswell. Mr. Jones tells us that Bishop DuBose, who will preside over the next session of the New Mexico conference which will be held at Artesia, the first week in October, will spend one night in Carlsbad, en route to the conference. He will hold services at that time and as he is one of the many very eloquent preachers of the Southern Methodist church, the announcement of his presence will bring out a record congregation. Methodists especially will anticipate his coming.

Our Welding holds. WEAVER'S GARAGE.

The members of the local Lodge of American Yeoman pleasantly surprised Mrs. B. A. Carder at her home on North Canyon street last Friday night. Mrs. Carder had just returned a few days previous from a vacation trip to points in the northern part of the state, and the surprise was designed to welcome her home. They carried refreshments along and at the close of the evening indulged in dancing to the music of the piano. About twenty-five were present.

DIED IN EL PASO.

A telegram received here Wednesday told of the death of R. C. ("Bob") Rowse which occurred the day previous in El Paso, where he went about a month ago and entered a hospital expecting to take a special treatment, but the disease was too far advanced to allow a trial. Mrs. Rowse and little Grace Evelyn left here Monday morning and reached El Paso a few hours before the end came. The remains were taken to Mt. Pleasant, Texas for burial, accompanied by the bereft wife and daughter, the relatives of Mrs. Rowse residing there and interment being made at that place.

Mr. Rowse and family came here in August of last year; he worked for George Beckett in his barber shop until his health became so bad that he was unable to work at his trade when through the kindness of Mr. Beckett and others he was enabled to go to El Paso and his last days were passed in comfort at one of the hospitals of that city. No one dreamed that the end was so near when he left Carlsbad. The little family made many friends while living here who are sorry to learn of the death of this young man who was but twenty-eight years of age, and extend sincere sympathy to the wife and daughter whose love for "Daddy" was very beautiful and touching.

Charles Shepard and J. B. Kipling spent the first of the week in the beautiful, coming by automobile from their home at Roswell on a business trip.

Misses Marjorie Leland and Catherine Cummins accompanied J. Q. Cummins on a business trip to Carlsbad Tuesday, returning to their homes in Roswell the evening of the same day.

J. C. Todd and wife left for the mountains Wednesday. Mr. Todd has just gotten over a spell of fever at Eddy County Hospital and it is thought his convalescence will be hastened by the cool bracing air of the highlands.

Hershel Lucas wife and baby are visiting the family of Mr. and Mrs. George Lucas in Carlsbad. Their home is in Breckenridge Texas, but they are planning on a trip to Wyoming before returning there.

Miss Madeline Bates came down from Roswell Wednesday of this week and will probably remain in town for a couple of weeks visiting with old time friends. Miss Bates has but recently returned from Berkeley, California, where she has been in school and this visit is made before she begins her work as secretary to Colonel Wilson, at Roswell Military Institute.

Leah Ward, the youngest son of Mr. and Mrs. William Ward, continues very ill at Sisters Hospital.

BORN:—Thursday morning at Eddy County Hospital, a baby daughter was born to Mr. and Mrs. Charles Tucker. The little girl has not been named yet but has received a warm welcome from her parents, aunts and other relatives and best wishes for her success in life are now in order.

Melvin Bearup, while in from his goat ranch this week made a trip to the R. E. Taylor ranch about forty miles from town, out near the point of the mountains. He says that Mr. Taylor's goats are worth going many miles to see, he having five hundred of the finest animals to be found anywhere. Mr. Bearup purchased two fine animals to add to his own excellent bunch.

Claude Brown son of Mr. and Mrs. W. G. Brown, returned to his home in this city Wednesday coming from a training camp at Spokane, Washington, previous to which he was attending school at Los Angeles, California.

A house guest in the family of E. S. Kirkpatrick, is Mrs. J. F. Chaplin, of Waco, Texas, a friend of long standing of Mrs. Kirkpatrick, and who will remain for a couple of weeks with her.

Green McComb was in from his ranch home Monday and with him came Brantley Hamblen who had been spending the last several days on the ranch. This was Brantley's first stay on an honest-to-goodness ranch and to say that he enjoyed the occasion would be putting it mildly.

Mr. and Mrs. Frank Cummins, of Artesia, are again in the city. Mr. Cummins is a driller and has been working on the well on McKittrick.

Mr. and Mrs. Scott Etter and Mr. and Mrs. Wrenn, who have been rusticated on the west coast, returned to their homes in this city the first of the week. They report a pleasant trip and a delightful stay in California.

Miss Sallie Moore, a trained nurse who has been engaged in her profession at Sherman, Texas, for some time, came in Tuesday afternoon and is at the Eddy County Hospital for treatment and rest. Miss Moore's relatives reside at Hope.

Baseball enthusiasts in Carlsbad are looking forward to the coming of the team from Pecos who will play the home boys two games, one on Sunday and the other on Monday next. Some good snappy games are expected and a large crowd of interested spectators is looked for.

A picnic, honoring Mr. and Mrs. Grant Mann, was held Tuesday afternoon, west of the river bridge. The friends all had a swim previous to spreading supper on the grass and a merry time was the result. The families of C. C. Sikes, J. D. Hudgins and W. F. McVain, were present, and a Mr. Frank of Denver.

J. C. DeMoss came down from Dog Canyon Wednesday, forty miles on horse back, to meet a daughter-in-law whom he had never seen and whom he was expecting to make them a visit at their home in the mountains. He found a belated telegram stating that she would not be here until a later date. The lady has always lived in the east and has an experience awaiting her of life on a goat ranch in the mountains that will be unique to say the least.

A spring board which has been added to the equipment at the Carlsbad Light and Power Company lake is being utilized by the many young folk who frequent that popular place, and is proving quite an attraction.

Rev. J. D. Terry of Dayton, and R. M. Allison of Roswell, were in town yesterday coming from their respective homes and after spending a few hours in the city left for Queen, where the camp meeting will begin tomorrow. Rev. Moon will go up Monday and will assist in the meetings which will continue over two Sundays. This annual camp-meeting has been held for several years in succession and is looked forward to with a great deal of pleasureable anticipation from one year to another. A number of Carlsbad people have signified their intention to attend some time during the meeting.

Mrs. R. M. Thorne has an excellent vegetable garden and is justly proud of her vegetables. She says her corn and beans are exceptionally fine to say nothing of her other vegetables and her flowers, she combining the ornamental with the useful. A little good natured strife exists between our amateur gardeners in regard to their products which only serves to make matters interesting.

Alfalfa and Hogs Make Profits Sure

Hereford, Texas, July 15, 1921

STATE NATIONAL BANK,
Carlsbad, N. M.

Gentlemen:—I have yours of the 12th and am enclosing herewith a folder of hogs which will give you the data you are looking for. By changing the prices of grain and hogs to correspond with present markets the figures are good today although this was written sometime ago.

The hog is the BEST MONEY the farmer ever had or will ever have. Even during the past two years the man who grew his own pigs and fattened them on his own grain has made good profits; and you know profits have not been easy to make for sometime.

I have just finished feeding 400 head and in spite of a market \$1.50 under what I paid for stockers, I made a little money. NO OTHER LIVE STOCK WILL DO THAT. I have always been strong for hogs and after several years' experience breeding and feeding, I have had no occasion to change my mind.

Very truly yours,

D. L. McDONALD,

Mr. McDonald is an expert on irrigation farming.

This is his experience — what is yours?

WE BELIEVE IN DIVERSIFICATION.

Feed a portion of your crops to Livestock.

Yours for more dollars per acre,

LOCAL NEWS.

Ed Toner, cattle inspector, was called to Lakewood Tuesday night on business and returned Wednesday.

Conductor C. H. Shannon, of Roswell, was shaking hands with old time friends in this city, where he formerly resided, his present home being in Clovis.

Mrs. Richmond, mother of Mrs. Madona, who resides some seventy-five miles southwest of town is in from the ranch and is taking treatment from a local physician.

Engineer A. A. Calum and wife are spending their vacation at Albuquerque, leaving for that place Saturday and expecting to be away about two weeks.

"Uncle Irv" Osborne, after being confined to his room for some weeks was able to walk about a little on the sidewalk, in front of his home Monday morning. Hopes are entertained that he will soon be able to be about as formerly.

Our Welding holds.
WEAVER'S GARAGE.

George Pendleton was in town Friday and Saturday, coming from the ranch of Colonel Williams, near Artesia where he is employed as foreman and while here was looking after the shipment of some 300 big steers which were shipped from the ranch to Kansas City, Saturday.

Mr. Tucker, manager of the Joye-Fruit dry goods store in this city, left for a short stay with friends in El Paso, going Saturday evening.

MOTORISTS ATTENTION! Take a can of WITE KAT SOAP with you or keep it in your Garage. It takes off Dirt and Grease without water or with water if you prefer. Handy on the road. Works like magic. We sell it. 35 cents per can.
ROBERTS-DEARBORNE HDW. CO.

OZARK TRAILS MONUMENT COMPLETED.

The monument erected by the Ozark Trails at the intersection of Fox and Canyon streets, has been completed and presents a quite imposing appearance to the stranger or pedestrian towering as it does over twenty feet above the base. When the lights are put in place and lit it will make this very important street as light as day. The lettering has not been put on but after the concrete has dried the names of the various towns through which the trail passes will be painted on and the work will be done.

Miss Mae Middleton accompanied by her friend Miss Verna Mae Taylor, arrived in Carlsbad from school at Silver City, getting in Tuesday night. The young ladies left Silver at the same time as the other Carlsbad students, but stopped in El Paso for a short stay with friends on their way home.

Mr. and Mrs. R. E. Taylor left in their automobile for San Angelo, Texas, where Mrs. Taylor has a sister who is very ill, and whom she will visit for awhile.

Mrs. Jack Halbert, who has been in Carlsbad for about six weeks convalescing from an operation, will leave tomorrow night for Roswell and will again take up her work in that city.

Misses Frances White and Alma Morton, of Artesia, passed through here Tuesday night en route to their homes from Silver City, where they had been attending Normal.

Miss Myra Richardson of Roswell, was in town Tuesday leaving for her home on the evening train, after attending school at Silver City, the past term.

The family of George Williams came in from their ranch Monday and spent the day, leaving for the ranch again in the evening. They have spent all the time since the close of school at their ranch.

IMPROVED UNIFORM INTERNATIONAL

Sunday School Lesson

By Rev. P. B. FITZWATER, D. D.,
Teacher of English Bible in the Moody Bible Institute of Chicago.
(©, 1921, Western Newspaper Union.)

LESSON FOR JULY 31

SAUL TEACHING AT ANTIOCH.

LESSON TEXT—Acts 11:19-30.
GOLDEN TEXT—A whole year they assembled themselves with the church, and taught much people.—Acts 11:26.

REFERENCE MATERIAL—Acts 4:42; I Tim. 2:8-7; II Tim. 2:2.

PRIMARY TOPIC—Carrying Help to Jerusalem.

JUNIOR TOPIC—Saul Helping Others in the Christian Life.

INTERMEDIATE AND SENIOR TOPIC—Entering Upon a New Career.

YOUNG PEOPLE AND ADULT TOPIC—A Year's Teaching in Antioch.

When God was about to launch the missionary enterprise among the Gentiles, He arranged for a new religious center. Antioch was admirably adapted for such a center. The upper classes were Greeks and used the Greek language. The government officials were Romans and used the Latin tongue. While the masses were Syrians, sprinkled among them were Jews who had come for commercial purposes; also travellers from all parts of the world were in evidence.

I. A Religious Awakening at Antioch (vv. 19-21).

1. The occasion (v. 19a). The persecution at Jerusalem scattered the disciples abroad. This God permitted in order to separate them from the home people at Jerusalem.

2. The preachers (v. 19a). They were ordinary men and women, not officials, but they were filled with the yearning desire for lost souls and witnessed of the Lord Jesus in the power of the Holy Ghost.

3. What they preached (vv. 19b, 20). They preached the "Word" and the "Lord Jesus." All who preach the Word will preach the Lord Jesus; for He is its center. The real reason why there are not conversions today is the failure of ministers to preach the Word.

II. Barnabas Sent to Inspect the Work at Antioch (vv. 22-24).

This was a wise selection.

1. The character of Barnabas (v. 24). He was a good man. It is highly important in sending a man to follow up a work of the Spirit that his character be good. He not only must be of an unblemished character, but his sympathies must be broad. He must be capable of entering into full appreciation of the things about him. Much mischief often results from sending injudicious men to look after the Lord's work. He was full of the Holy Spirit. This is an essential qualification for pastoral work. Only a Spirit-filled man can appreciate the workings of the Spirit of God. He was also a man of great faith.

2. Work done by Barnabas (v. 23). He gladly endorsed the work and earnestly exhorted them to steadfastly continue in the faith, clinging unto the Lord. There are many allurements to tempt young Christians. The rejoicing of Barnabas shows that he was a man who could rejoice in the work of others. He did more than inspect the work; for many people were added unto the Lord. Doubtless he preached.

III. Barnabas Brings Saul (vv. 25, 26).

The work grew to such an extent that help was needed. Barnabas had the good judgment to seek Saul for this important work. Barnabas knew that the bringing of Saul would mean his taking a secondary place. It is the duty of Christian leaders to seek out men who are qualified for the Lord's work and bring them from their places of obscurity, setting them to work in the Lord's vineyard. There are many men in obscurity which it requires a Barnabas to bring forth.

IV. The Disciples First Called Christians (v. 26b).

They were not called Christians in derision, as is so often asserted. It was a consequence of Saul and Barnabas teaching there for a year that they were called Christians. The name was a consequence of the teaching. In all Saul's teaching he showed the unique relation which the Christian sustains to Christ. Since the body closely resembles its head, Christ, they were called Christians.

V. The Church at Antioch Sends Relief to Jerusalem (vv. 27-30).

The Holy Spirit through Agabus made known a great dearth throughout the world. This came to pass in the days of Claudius Cesar. Every man according to his ability determined to send relief unto the brethren which dwelt in Judea. They made up money for the poor saints at Jerusalem and sent it by the hands of Barnabas and Saul. This act not only proved the genuineness of the work at Antioch, but it emphasized the fact that there is no division between Jew and Gentile.

Christ's Blessing.

From Heaven Christ sends down a blessing. He communicates His nature to us, and so we learn how we are to live, and how we are to let Him live in us; and we see somewhat of what we might be if we had faith, and hope, and love, to bear the weight of the glory.—H. Mansell.

Where Love Reigns.

"The best way to cultivate love in your heart is to enthrone Jesus there—for He is love, and, where He is, love reigns."

CHRISTIAN & CO.

FIRE, AUTOMOBILE AND SURETY

Madam Middleton and daughter, Miss Beale, accompanied Mrs. Sallie Shattuck to the mountains Monday and will stay there until after the camp meeting closes.

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Theford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive. Get a package from your druggist today—Ask for and insist upon Theford's—the only genuine. Get it today.

LOCAL NEWS

J. H. Graham was in from his home at Lovington Mouday of this week.

Miss Lorene Powell returned the first of the week from an extended visit to friends in Roswell.

Mrs. Ohie Thayer came in from her ranch in the mountains, arriving Friday with a load of apples and pears, and remained over Sunday.

Scibey Cox, of Dog Canyon, has purchased the place of Mat Safford in that section of the country and was in town the first of the week looking after the transfer of his new property.

Mrs. F. E. Little and daughter, Nannie Ervin, returned from a six weeks visit in Texas, getting in Saturday evening. We are glad to note that Mrs. Little's health is much improved by this change.

Mrs. Dillard and three children and Miss Lou Anderson, arrived in the city coming overland from Silver City, leaving there Saturday and arriving here Tuesday morning at five o'clock. They report a fine trip with scarcely any car trouble.

If you are in the market for a used car, it will pay you to stop and see the fine lot for sale or trade at the OHNEMUS SHOPS. "Can Fix It."

IF YOU LIKE HIM LET HIM KNOW IT.

If with pleasure you are viewing any work a man is doing, If you like him or you love him, tell him now:

Don't withhold your approbation till the parson makes oration. And he lies with snowy lilies o'er his brow.

For no matter how you shout it, he won't really care about it; He won't know how many tears-drops you have shed.

If you think some praise is due him, now's the time to slip it to him; For he cannot read his tomb-stone when he's dead.

More than fame and more than money is the comment kind and sunny.

And the hearty warm approval of a friend;

For it gives to life a savor and makes you stronger, braver.

And it gives you heart and spirit to the end.

If he earns your praise bestow it, if you like him let him know it; Let the words of true encouragement be said;

Do not wait till life is over and he's underneath the clover.

For he cannot read his tomb-stone when he's dead.

—Selected.

A man has just died in England and left \$6,000,000 and the government took \$1,000,000 of it as a death tax. If a fellow was to die over there many times he would go broke.

DO YOU HELP OR HINDER?
Rev. George H. Givan.

Possibly the greatest problem of life is how to help and not to hinder. Not just once in a long while, but to always help and never hinder. The difficulties along the pathway of life are full enough for any soul to overcome, and by far too numerous and difficult for the thousands upon thousands that go down in defeat and failure. And possibly they go down not only because they are weak, but because no one stands by to give them help in time of stress and storm. However strong and ambitious any man or woman may be a little help or a little boost from some warm friend always inspires them to something greater.

If this is true of the strong how much more is it also true of those who are weak. Many a weak and timid soul is blighted and ruined and lost forever simply because a stronger has not given help when help was needed most. It is your mission in the world to help and not to hinder. Just how and when to help, each individual must work out alone. Another may tell you how but telling is always easier than doing. I am my own lord and master and as lord and master I must see to it that I never in any known possible way hurt or hinder any one else. But as my own lord and master I must see to it every moment of my life that all I do and all that I shall say shall be done and said with deliberate intention to help and not to hinder.

The destructive agencies to human life, reputation and character are so strong, so innumerable and so active in the world that nothing else than a man of iron can resist and over come them. The weak and timid soul must have the assistance of the man of iron. To hurt or hinder a weak and timid soul is to crush it to earth to rise no more. Why not call it murder in the first degree?

The human race is so bound together that no man can live to himself. His influence goes out constantly to build up or tear down other lives. One may not be conscious of it but nevertheless it is true. Every thought, every word and every deed is either a blessing or a curse to mankind at large, and the more so the closer the relationship. Just as the law of magnetism or gravity has influence in proportion to the mass of magnitude, and inversely as to the square of distance apart, so in the same proportion influence helps or hinders, blesses or curses, builds up or tears down as it may happen to be good or bad, pure or impure, holy or unholy.

But after all it is and should be and must ever be the bounden duty of one to see to it that the fountain springs of life are clean, and then the stream of influence must also be clean and wholesome and helpful wherever it may flow. Which do you intend to be: A magnet that will draw and bless and help, or a stumbling block that will curse and hurt and forever hinder? It is just with you and you may answer the question to yourself and in your manner of living just as you will.

FACTORS WHICH INFLUENCE THE MARKETING OF ALFALFA HAY.

While supply and demand are the principal factors which determine the market price of a product, there are a number of other factors which may be of considerable importance to the individual producer or shipper of hay. Size and weight of bale, prospective market, grading, and the manner of inspecting grades are character of inspection, existing at among the more important of these factors, say marketing specialists of the bureau of agriculture.

The preference for bales of a certain size and weight is so marked in some of the important markets that premiums ranging from 50 cents to \$2 per ton are paid for bales of the size and weight desired. Bales may be roughly classed as small, medium and large in size. The small and medium sizes are sometimes designated as one-quarter and one-third bales. The small bales are made in a perpendicular press and are 14 or 16 by 18 inches, variable in length but usually about 16 inches long. Medium bales are also made in a perpendicular press and are 17 or 18 by 22 inches and about 36 inches long. Large bales are usually made in box presses and are about 19 by 22 by 46 inches.

The weight varies considerably, even though the bales are of the same size as hay is pressed under varying conditions and by balers having a wide range in tension. According to the department's marketing specialists hay should be pressed sufficiently tight that the wires will hold well and so that the required weights can be loaded into the cars. Difficulty is experienced in some sections in loading cars to the minimum weight because the hay is pressed too loosely. Some producers and shippers assert that if the hay is pressed more compactly it will heat and mold. This will not occur however, if the hay is properly cured, as is proved conclusively by the practice in the Pacific coast markets of compressing alfalfa into bales containing six cubic feet and weighing about 225 pounds.

Aside from these things the size and weight of the bale should be made to conform as nearly as possible with the ideas of the buyers. There may be several reasons why buyers prefer a particular sized bale. Storage space, convenience in handling, economy in feeding and precedence are some of the factors usually considered by the buyer when determining his preference as to the size and weight. Preference for any particular size of bale usu-

GATES TIRES

Made in the West by American Workmen

A REAL TEST—

It is our firm opinion that the Gates Super-Tread Tire will outlast any other tire on the road, but you can prove this to your own satisfaction.

Put one on your car opposite any other tire and you will then see what it means when we say that the Super-Tread Tire is made for Western roads.

After all it's only reasonable that the wider and thicker tread will give you more miles, and it will.

C. J. WALTER
Phone 354K Carlsbad, N. M.

ally prevails over a considerable territory. Generally speaking, New England and the principal large eastern markets, together with the Pacific coast markets, prefer the medium bale. The central western markets prefer the medium bale, and the southwestern markets prefer the small bale.

The character of the inspecting service varies considerably in different markets. Besides various methods now generally designated warehouse, car-floor, plug, and bale inspection there is a difference in applying the grades. Some inspectors give the entire car-load the grade of the poorest quality of hay found in it. Other inspectors endeavor to apply an average grade.

Some of these practices are hardly fair to the shipper but so long as they exist the shipper must meet the situation in the best manner possible. Uniform loading is probably one of the most important methods of obtaining satisfactory grades.

In some sections the alfalfa meadows are allowed to stand until they contain a large quantity of weeds and grass. In other sections other grasses are sown with the alfalfa for hay. When loading any mixture the greatest care should be exercised to have the hay loaded into one car all of the same degree of mixture. This suggestion applies also to hay of different quality because of bleaching or damage. Bleached hay is given at present a lower commercial grade than hay which is not

bleached, notwithstanding the fact that some producers and consumers of alfalfa are of the opinion that slight bleaching does not damage the feeding value of the hay.

Many shippers make the mistake of thinking that a few bales of off-grade hay will not hurt the grade of a car but will be accepted along with the good or at only a small discount. Unless the market is very strong the hay usually will be accepted only at a heavy discount, and frequently the whole car will be rejected. If the car is accepted it will be taken only at the price value of the poorest hay found in the car.

For best results in marketing alfalfa bureau of markets officials caution shippers:

To ship bales of size and weight desired by buyer.

To ship grades desired and not to include hay or other grades or mixtures.

To load cars uniformly.

To insist upon official inspection certificates which show the actual grade of the hay in the car if cars are officially inspected by regular inspectors located at important markets.

NOTICE FOR PUBLICATION 046695

Department of the Interior, U. S. Land Office at Roswell, N. M., July 5th, 1921.

NOTICE is hereby given that Samuel D. Orser, Sr., of Loving, N. M. who on February 17th, 1920, made homestead entry No. 046695,

for Lots 1 and 2; E 1/4 NW 1/4; Section 31, Township 23-S, Range 28-E, N. M. P. Meridian, has filed notice of intention to make final commutation Proof, to establish claim to the land above described, before Dover Phillips, U. S. Commissioner, at Carlsbad, N. M. on the 11th day of August 1921.

Claimant names as witnesses: Elmer Yarbrow, Earl Donaldson, Eugene Donaldson, Charlie White, all of Loving, N. M.

FALL FASHIONS

SHOWN ON REQUEST

Initial Arrivals in Correct Interpretations of New Fall Fashions

SUITS

The propitious time for making an advance selection is now! while the style modes possess the markedly different. Fall adaptations of the tailleur are many, long coated and shorter lengths developed from the season's best offering in materials among which are Moussyne, Yalama and Tricotine. -- All Horne models of the finest quality--ranging from \$45 to \$65.

DRESSES

Different? yes, but how fascinating is the new careless silhouette predestined for Fall--the loose sleeve and uneven hem-line are very compatible it would seem, as they are both seen on many of the authoritative models, a majority of which are enhanced in beauty by beads and embroideries.

MILLINERY

Indescribably lovely are the NEW FALL HATS. They are designed expressly to reflect the varying Millinery modes for Fall. Hats of Velvet as complement to the new suit.

One-Half Price

The Farmer and Stockman are taking their losses and the Merchant must take his.

"The farmers comprise forty per cent of the country's population and we cannot keep on with them earning much less in proportion than other people; either the others must come down or they must advance. That is fundamental." Extract from an address made by Secretary Hoover before the Shoe and Leather gathering last week at Boston.

As a merchant we pledge ourselves now to do what we can in our small way to help restore conditions to normalcy.

"The Store of Service"

ADVERTISING DOESN'T PAY.

A firm in this country is spending thousands of dollars using full page colored ads in the Saturday Evening Post, advertising so common a thing as a shovel. Another firm has spent more thousands in popularizing a hairpin, until almost every woman has a handful of them.

Yet there are some dealers who, when approached on the subject, still maintain that advertising doesn't pay.

When the hardest business heads in the country are depending more and more on advertising to sell goods, there is only one conclusion to be drawn: POOR advertising, and NO advertising, is what does not pay.

Do you recall the time when Pearl and Sapallo were the only soap compounds you ever heard of and "Sunny Jim" Force was the only breakfast food you could remember to ask for when you went to the grocery? Where are they now?

They got so big that "they didn't need to advertise", and the public forgot that they ever existed.

If you have ever come to the conclusion that advertising doesn't pay, analyze the situation and see where the trouble lies, and whether you have given it a fair show, whether you have made your ads really say something, kept it up persistently, or possibly overestimated the results it would bring.

Once in a while a dealer has the idea that if he runs a single ad of any description, it has failed in its purpose if it doesn't fill his store with customers.

Only a limited class of advertising, of a highly specialized nature, is intended to do this.

In your line of business, it is well to remember that primarily, Advertising Doesn't Sell Goods; you are not running a mail order house. But if done right, it will make it easier for YOU to sell them.

THE DEAD LINE

The Mason Dixon line is practically a "dead line" for the mosquito that causes malaria, so prevalent in the South that it does millions of damage in lost earning power and decreased efficiency each year.

Yet 20 years ago malaria was almost as prevalent north of the Mason and Dixon line as elsewhere. The exile of the malarial mosquito from this section of the United States has been due to increased commercial activity, agricultural improvement, drainage, destruction of woods and rank vegetation that forms a harboring place for mosquitos, elimination of stagnant waters, and consistent screening of dwellings.

Malaria is contracted only and solely by the bite from a certain type of mosquito. Guard against mosquitos and you have guarded against the disease.

The mosquito bites a malaria victim drawing some of his blood containing the malaria germ into the mosquito's stomach where it remains for a period of incubation. Later in biting a well person the mosquito infects this person with the germ. Then follows a period of incubation in the bitten person's blood of about ten to fifteen days.

The malaria germ attacks a red blood cell and matures every three or four days, breaking up the red cell and sending out into the blood numberless little malaria germs which repeat the process. Chills and fever result. Malaria is not cured without help. Always consult your physician, who can tell you how temporarily to immunize yourself against the disease. Your state department of health or the local Red Cross can give you information on the subject.

DRINK MUCH WATER IS DOCTOR'S ADVICE.

Hot weather and digestive upsets go together. We call such upsets "summer complaint" with good reason.

Hot weather favors the growth of germs and the decay of milk and other foods. It also lowers the power of the body to digest food which it could thrive on in winter.

The most important rule for keeping well in summer is not to overtax the digestion.

Special care should be taken not to eat foods which have undergone decomposition. Such food is one of the commonest cause of summer diarrhea.

Do not overeat in the summer. If you take more food than the body needs the "excess ferments" in the intestine, and the products are absorbed and poison the body.

Do not eat or eat very lightly when overtired or very warm. Eat sparingly of meat in summer. Meat foods are particularly harmful when they ferment in the intestine. Meat should not be eaten more than once a day or may well be omitted entirely by those who are not doing hard physical work. Fish, too, should not be taken more than once a day. In the tropics men live largely on fruits and vegetables, and in this case, nature's way is the best way.

Simple and light meals should be the rule in July and August.

Drink freely of water between meals. Water drinking favors free perspiration and keeps the bowels in good condition. The temperature of the water should be cool but not too cold. Do not take cold drinks while you are very warm or in the middle of violent exercises. Thirst is often best quenched by something hot, such as hot tea.

Keep the bowels clear in hot weather. The fermentation of the food in the intestine is likely to cause serious disease when the system is weakened by hot weather. It is most important to clear the bowels every day. Free drinking of water helps in this.

THERE IS NEVER A TIME TO SAY DIE.

Carlsbad people have been much depressed one way and another, during the past few months, mostly on account of low prices for what we have to sell; but there is never a time to say die. Compared with the misfortunes of others our burdens are usually very light. Here are three stories taken from a recent issue of the Shreveport Times which prove that all obstacles may be overcome if the effort is great enough.

If you at the age of 50 should become an invalid, flat on your back, unable to move hand or foot or turn your head, would you give up?

All these happened to Jesse Tyler Dingle, of Brooklyn, N. Y. Despite his handicaps, Dingle carries on a business of a size seldom attained by great men in good health.

From his couch, with a telephone strapped to his head, he dictates letters and keeps office forces on the jump in the three business concerns in which he is interested.

Successful? After five years of invalidism, he has just bought a \$50,000 house.

"That's because I still have my head," says Dingle. I have full use of my mind--which has always been the only really important part of the human body."

Why be discouraged? Hal Ebrig, of Chicago, has been confined to bed for seven years. His left arm is the only part of his body he can move.

An automobile accident afflicted him with paralytic nerve shock. Most men would have become bitter--given up the fight.

But Ebrig laughed at his handicap. Right-handed, he trained his left hand to handle a brush. His paintings sell for \$150 and upward each. He also has produced several successful songs, and orchestra numbers which he picked out on the piano with one finger.

"I'm successful," says Ebrig, because I didn't lose interest, will power and ambition."

Why be discouraged? Harry K. Ronne, sightless and partly paralyzed, is known as "the wonder man" in Luskton, Neb.

Ronne went blind in 1903. Then came paralysis.

Handicapped, he trained himself to be a telephone operator. He makes connections rapidly. Says no two rings or buzzes sound exactly alike, hence he knows instantly what number is calling. Ronne is successful.

"That," says he, "is because there is no handicap so great that it cannot be overcome."

Why be discouraged? Sometimes the battle for a living makes you discouraged.

Sometimes it seems that no matter how hard you try, everything goes against you.

Sometimes it seems that you never will get ahead.

But Dingle, Ebrig and Ronne have proven that if you keep the right state of mind and grit your teeth, you can overcome handicaps compared with which your present ones are mere shadows.

Pick up your load, brother. Tomorrow's a new day.

CLIMBS TO LA MESA ENCANTADA

To be the first woman to scale the almost perpendicular walls of "La Mesa Encantada" is the distinction of Miss Erna Ferguson and her sister, Miss Lina Ferguson, who, accompanied by Richard P. Woodson Jr., and Spencer Browne of New York City, and two Acoma Indians, made the ascent last Sunday.

The trip up the 500 feet to the summit of the great rock was made in two and a half hours. Difficult in the extreme and perilous in many places, the ascent was made only with the use of ropes after the fashion of the Alpine climbers. Mr. Woodson went ahead of the others working his way up by picking footholds in the rock. He carried with him a heavy rope which he tied to a rock to form a ladder for the others of the party. On one stretch of perpendicular rock the women and the Indians climbed by the rope braced only by the bodies of the two men.

Excellent pictures were taken at each stage of the journey showing the apparently impassable obstacles which were encountered. The views of Acoma and the surrounding country taken from the summit of the rocks are excellent. The party left a mound of rocks as a cairn on one end of the mesa and carved their names in the soft rock with a geological pick.

The Enchanted Mesa has been climbed only twice before, according to the Indians. Charles Loomis made the trip about 20 years ago, and a party of archeologists from Harvard University have been up since. None of the Acoma Indians had ever before climbed the rock, believing it to be impossible. No indication that the mesa had ever been inhabited was found by the latest adventurers. --Albuquerque Journal.
