GETTING WELL.

President's Condition Is Favorable.

Alarming Stories Started from Rumors Denied.

President McKinley Cannot Leave Buffalo for Several Weeks.

ASSASSIN CONFESSES TO CONSPIRACY.

Buffalo, Sept. 11.—The following bulletin was issued by the president's physicians at 6 a. m.: "The president passed a very comfortable night, pulse, 120; temperature, 100.2; respiration, 26."
(Signed)
"P. M. RIXEY,
"EUGENE WARDIN,
"GEORGE B. CORTELYOU,
"Secretary to President."

ALARMING STORIES UNFOUNDED.

Buffalo, N. Y., Sept. 11.—The doctors arrived for the morning consultation at 8:30. Dr. Park said before he entered the Milburn residence that alarming stories had gone abroad as the result of last night's operation they were entirely unfounded. Everything, he declared, is going satisfactorily. Taking out a few stitches and redressing the wound, he said, constituted an unimportant incident and gave not the slightest ground for apprehending complications.

CONDITION EXCELLENT.

Buffalo, N. Y., Sept. 11.—The following bulletin was issued by the president's physicians at 9 a. m.: "The president rested comfortably during the night. Decided benefits followed the dressing of the wound made last night. His stomach took beef juice well and it is taken with great satisfaction. His condition this morning is excellent. Pulse, 116; temperature, 100.2."

FAVORABLE REPORTS.

Buffalo, Sept. 11.—The consultation was over at 9:25 and the doctors began coming from the house. Their reports were generally favorable. Dr. Mynter said all the news was favorable and that the action last night had proved beneficial. He felt more confident than at any time since the operation was performed. "But," said he, "the president will do well if he is able to leave Buffalo in six weeks."
Dr. Mynter said Dr. Mann had taken out the stitches in the wound last night. He described the necessity for the action, explaining that the irritation of the skin was unusual in such cases. He said the president was doing excellently. He was now taking three teaspoonfuls of beef juice every hour.

CONFESSIONS TO CONSPIRACY.

New York, Sept. 11.—A special to the Herald from Buffalo says: "Leon Czolgosz has confessed to the police that his attempt upon the life of President McKinley was the result of a conspiracy in which he himself had a part. So far as learned Czolgosz has refused to mention any names except Emma Goldman, but papers are in existence which, if they can be discovered, will lay bare the entire conspiracy and result in wholesale arrests. Czolgosz said that time did not permit him to burn his papers, so he threw them into a sewer. Inch by inch the sewers of this city are being searched. Emma Goldman has been in Buffalo three times since July 12, having left the city the last time four days before the attempted assassination. Emma Goldman, Countess Abraham Ibsak and Marie Ibsak were in consultation in Chicago on two occasions."

HELD FOR TRIAL.

Chicago, Ill., Sept. 11.—Emma Goldman spent a sleepless night in Harrison street police station. At 9:30 a. m. she was taken to Justice Prindle's court. None of her acquaintances were present. Assistant City Prosecutor Owens told the magistrate that Chief Bull of Buffalo had asked the Chicago police to help Miss Goldman pending an investigation they were making. Owens

Buffalo, N. Y., Sept. 11.—President McKinley continues to show the most favorable evidences of improvement and recovery and the physicians have authoritative information and circumstantial details of the president's condition, all showing the most satisfactory condition. Beef juice, which was fed by the mouth the first time, has been assimilated without the slightest indication that the sound in the stomach has retarded the processes of nature. The president showed many signs of improvement. He was so cheery that one of the doctors remarked that they would let him smoke a cigar before long.
Mrs. McKinley had her usual brief morning visit with him. The situation was so bright that all those about the president and many who came to inquire as to his condition were cheered with a confidence akin to absolute certainty that the president was now on the high road to recovery.

PROSECUTION OF THE ASSASSIN.

Buffalo, N. Y., Sept. 11.—District Attorney Henry C. Egan, in charge of the criminal branch of the attempt on the president's life, was in conference with Secretary of War Root today with reference to the case. It was stated afterwards that certain questions with regard to the prosecution were considered, but there was no announcement of any definite conclusion.

LATEST BULLETIN.

CHINESE PROTOCOL SIGNED.

Pittsburg, Pa., Sept. 11.—It is rumored that the steel strike has been settled, or is about to be, were again in circulation today, but Amalgamated officials positively denied that a settlement had been effected. President Shafer asserted that the reports that the executive committee had ordered the advisory board to arrange a settlement on the best terms possible at once were untrue. He also said there was no truth in the story that he was willing to resign or that the matter had been touched upon during the meeting of the committee concerning the trouble at McKeesport. Shafer said that any member of the association resorting to violence would be immediately dropped.

Grand Army Parade.

Cleveland, O., Sept. 11.—The grand parade of the thirty-fifth national encampment of the Grand Army of the Republic was viewed by almost the entire population of 400,000 people of this city and nearly as many visitors. Methodist English Missions.
The New Mexico English mission of the Methodist Episcopal church is nearing the close of a very successful year. Superintendent A. P. Morrison, who has just returned from an extended trip through central and northern part of the territory, reports one new church finished and paid for; one new parsonage bought; six new preaching places opened during the summer; 250 conversions; many accessions to the church and general prosperity attending the work. During the year two old debts of long standing have been paid and many substantial improvements made.
The annual session of the mission will be held in Santa Fe, on October 10. Bishop James N. Fitzgerald, D. D., presiding. The New Mexico Spanish mission of the Methodist Episcopal church will meet at the same time and place. Many general church officers are expected to be present.
Better Roads Needed.
Passengers who returned last night from Bland and Albuquerre report the roads as in a dangerous condition since the heavy rains in that district. The war in the ditches are from three to six feet deep. It is said three or four culverts are needed and that a few days' work by a small force of men filling in the low places and removing large boulders is all the repairs that need immediate attention. They estimate the cost of putting this road in passable condition at a nominal figure. A petition will be presented to the board of county commissioners, asking the members to appropriate a small sum of money for the necessary repairs on the county road between Thornton and Bland.

TERRITORIAL FIRE FIGHTERS.

An Effort Being Made to Secure Albuquerque Signatures.

H. Ruppe, chief of the Albuquerque fire department, who has served time as a volunteer fire fighter, is anxious to make the forthcoming New Mexico Volunteer Firemen's association, which convenes at Las Vegas next week, a big success and has placed the following petition at his drug store for signatures:
"I, _____, do hereby declare myself an active and ex-empt member of the present and former fire departments of Albuquerque, agree to join an association to be known as the New Mexico Firemen's association, charging not more than \$1 initiation fee, not less than \$1 per year dues and paying not less than 20¢ for any special service, and not less than 25 cents on assessment upon the death of a member."
Up to date the volunteer boys have signed with some degree of rapidity and only about ten names have been placed on the petition. Chief Ruppe, however, has not lost heart and intends to make a personal call on all volunteer and paid fire fighters for their signatures.

THE HEALTH EXAMINER.

Dr. Tascher Has So Far Examined Forty Teachers.
Dr. Tascher is the regularly appointed physician for this county to examine and issue certificates of good health to school teachers, city and county doctor was seen this morning by a Citizen representative and stated that about forty teachers have so far complied with the law, to whom certificates have been issued.
When asked if the teachers should have received certificates before the opening day of school, the doctor said that on September 2 Armenian and Kurds blew up the barracks at Sason, where 3,000 troops were stationed, and that a state of panic prevailed there in consequence. Such Turkish reports previously have been if alarming stories had gone abroad and it is generally apprehended by non-Muslims here that the massacres have already taken place.
Freaks of Lightning.
The house of Epitacio Gallegos near the court house was struck by lightning during the storm yesterday afternoon. The heavy shock which came about 2:30 was the one which struck the house. It was slightly damaged but luckily no one was hurt.

Boy and Girl Held in Captivity.

Madrid, Sept. 11.—The time fixed by Spain for the release of the Spanish boy and girl captured by Moorish tribes expired on September 12. It is stated that the sultan of Morocco wishes an extension, because the tribes are in rebellion, which the government is disposed to grant, demanding besides their release compensation of cash and punishment of the tribes. It is believed that other powers will support Spain's claim and that falling satisfaction, Spanish war vessels will be sent to Moorish waters.

BRIEF FAIR NOTES.

Exhibits from South Santa Fe County and from San Juan.
The advertising car of the fair left Corralles early this morning for Lamy and Santa Fe, after thoroughly billing the towns of Bernadillo, Thornton and Corralles yesterday.
The Las Vegas Record says: "The Albuquerque fair will have a midway direct from Buffalo, which will not be too naughty, but just naughty enough. It will be a bumper and every bald head in the territory will want to see it."
"The San Juan County Index says: "The vice presidents of the fair, San Juan county, C. H. McHenry and L. C. Grove, have arranged with the Hyde Expedition company to transport all exhibits from this county and the fruit-growers are invited to cooperate."
A few days ago N. S. Rose, editor of the Corralles Register, was here in conference with President Marron of the fair. Today he writes that south Santa Fe County would be represented at the fair by a fine ore exhibit and he asks for space in which to make the exhibit.

New Mexico demands Statehood from the Fifty-Seventh Congress.

The New Mexico Territorial Fair will be held in Albuquerque from October 15th to October 19th. Premium List will aggregate \$10,000.

ALBUQUERQUE, SEPT. 11, 1901.

To most people there appears to be a very thin division line between socialism and anarchy.

The publication of the proceedings of the commissioners of Taxation in a newspaper at Santa Fe would be illegal and would be sufficient cause for the removal of those officials.

"Don't let them lynch me," said the assassin to the officers taking him to police headquarters. Of all the cravens on earth, the anarchist murderers are the basest. The writer at Buffalo appealed for legal protection the moment his own safety was threatened.

It takes 37,663 locomotives to run the American roads—960 more than it did last year. There are 1,450,838 cars of all classes; just about a million more than a year ago, and 259,788 miles of track—the figures are from the interstate commerce commission's report.

In the four counties of western Massachusetts there are not less than 120 public libraries are in existence, containing 825,000 books. The towns where they are located have a population of 207,000. One of these libraries was started with money paid by dog tax and another was begun with dollar contributions.

DISGUSTING HABIT.
In the west it is almost the universal habit to "roast" visiting base ball clubs. The habit is grossly impolite. A visiting club should be treated with a very courteous by the home club and the people generally. They are invited to come and help furnish amusement for the people, and should be encouraged from the grand stand. A town that is so clamant that its people will not cheer a good play by a visiting base ball club does not deserve the presence of visiting clubs. Albuquerque has been generous in this respect, but it can improve on its past behavior. In the next few weeks the city will be visited by several base ball clubs from neighboring towns. Let's treat them so well that when the club from this city goes away from some it will cheer and receive courteous treatment.

THE TERRITORIAL FAIR.
The Las Vegas Record says that Albuquerque is displaying wonderful energy in preparing attractions for the great fair that will be held in that city at an early date. In variety and extent the interesting features will exceed those of any former years and visitors will be repaid amply for their time and small outlay of cash. The Santa Fe company has made a fair rate of \$4 from this city, which is very low. The weird ceremonies of the Mongol and other Indian tribes including the snake and other dances will be worth going hundreds of miles to see, to say nothing of other exhibits that will thrill the eye and delight the heart. The rich and varied resources of the territory ought to, and doubtless will, be seen at this fair and, by the way, it is about time for Las Vegas and San Miguel county to prepare their exhibits. The board of trade ought to attend to this matter.

LIBERTY OF SPEECH.
It is becoming more obvious every day that liberty of speech is a right as much subject of regulation as the right of private conduct. The declaration that man is possessed of certain inalienable rights was not put forth under the mistaken notion that these rights might not be interfered with at all. The declaration that among these inalienable rights are life, liberty and the pursuit of happiness is not the equivalent of declaring that they may not be interfered with if the good of society demands their direction or restriction. Hence the declaration relating to the right of the free expression of the conviction of the mind must not be misconstrued into a right conferred upon individuals to destroy society. All individual rights must be exercised within the limits of public safety. Life may be taken in the punishment of crime. The liberty of the individual may be restrained if the good of society may demand it, and the liberty of public advocacy is certainly not held by a tenure more sacred than that which protects the individual in his right to life, liberty and the pursuit of safety and happiness.

EXCLUSION OF ANARCHISTS.
The first bill to have consideration in the Fifty-seventh congress should be a measure providing for the rigid exclusion of objectionable foreigners from American soil. The infamous crime at Buffalo carries such a forcible lesson to this country that it is hardly possible that the fondest demagogue in congress will have the hardihood to argue against it. The most servile truckler to the "foreign vote" will not dare raise his voice against the stern demand which shall swell up from every state for some legislation at least in behalf of our own people. Prompted by foolish pride in the thought that we have established

Ladies' Walking Hats

Our millinery department with every year has more and more convinced us of its popularity. We need not look far for the reason. Being on the alert for all the latest novelties that are put on the market, we are always the leaders in style.

Our merchandise coming from headquarters places us in a position to sell at prices which others might pay. The advance styles of walking hats have just arrived. They are beautiful, ranging from 75 cents to \$3.25. Beaver hats are again in vogue, of which we have a large line on display. We also call your attention to our tailor made hats which are extremely chic and nobby productions of the milliner's skill.

Room will not permit us to detail any more of our most popular creations, for can we give due justice to same by so doing.

CALL AND SEE FOR YOURSELF.
