Silver City and El Paso Lead Baseball Tournament

ALBUQUERQUE IS EASY PICKING FOR EL PASO

In Listless Game That is One-Sided, White Sox Shut Out Leads Yesterday by Score of 11 to 0.

White Sox found Albuquerque easy pickings in the first game of yesterday's baseball double-header, beating the local club by the one-sided score of 11 to 0. It was the fourth record white Sox of the series. Because of the lull in the game, it was evident that Albuquerque was outclassed. The game was not so much as the fifth inning, for agreement. This rule will be enforced during the remainder of the season, none being called either in the fifth or the seventh inning when it is not either time has run out.

SILVER CITY FINDS SANTA RITA HARD TEAM TO BEAT

In Game Which is Interesting, All the Way, Miners Lose to Indians by Score of 4 to 3.

In a game that was interesting all the way, and which was not for several years, Silver City yesterday afternoon beat Santa Rita by a score of 4 to 3. It was the first clash between the two clubs in the tournament and it was anybody's game until the last man was out in the ninth inning.

REMINGTON-UMC

Steel Lined SHOT SHELLS

Cut down your lead—Get your bird with the center of the lead

In the making of shot shells, the greatest forward step since the invention of smokeless powder is the steel lining to give the powder and concentrate all the drive of the explosion back of the shot.

It's a Remington special invention—that steel lining. You find it in the Remington-UMC Arrow and Nitro Club. These steel lined shells get their shot to the target quicker than any other shell known to the shooting fraternity. They cut down the guess-work about lead and strikes. They put the center of the lead right on your bird.

The steel lining is moisture-proof—no dampness can get through. Jar-proof—no powder can get out. Waterproof—no water can get in.

Shun Remington-UMC Arrow and Nitro Club Steel Lined Cartridge Loaded Shells for Equal Plus Pattern in any make of shotgun.

Still another world-famous scientist

says light is harmful to beer. Read what he says, then order a case of Schlitz in Brown Bottles.

"It is a known fact that sunlight and daylight influence unfavorably the taste and flavor of the beer and care must be exercised in the selection of the bottles."

Dr. Robert Wahl, President of the Wahl-Henius Institute of Fermentology, quotes J. Brand in corroboration of his own opinion recommending the Brown Bottles.

See that every one you buy is branded "Schlitz."
