ARMISTICE GIVEN

OFFICIAL SANCTION Mexico City, Mex., April 25,-Notwithstanding officials continue mute as to the formal acceptance of the armistice proposal today, news that the war department had issued orders ginia and Rainey Lake Lumber com-pany. to coase hostilities has practically of-

J. McNamara, J. B. Bryce or McNamara, and Ortie McManigal, in charge of eight vigilant detectives, to face trial on the charge of blowing up the office of the Los Angeles Times October 1, 1919, which explosion resulted in the death of twenty-one per-SODS.

The train arrived on time at 11:05 yesterday forenoon, and having been well advertised beforehand was greeted by a curious crowd of Albuquerqueans, who covered the station platform. Those who expected to gaze on the features of the men charged with the most dastardly outrage of decade, however, were disappointed. The three men were in separate compartments in the car Carizo, each accompanied by and two of them coast. shackled a detective. The to window blinds in these compartments were carefully puiled down before the train reached this city and they were not raised while the train was here: neither were the compartments unlocked.

Since the men were placed under arrest absolutely no man has communicated by word of mouth or othorwise with the prisoners save the officers. When the party arrived here yesterday J. B. McNamara and Mc-Manigal both wore the famous "Oreoners. gon boot," an effective preventative in case of attempt to leap from a car window, and in addition were chained to the officers. John J. McNamara wore no handouffs or shackles of any kind. and as far as could be learned all three men were taking their experience quietly and composedly.

NO ONE KNOWS OTHERS ARE ON THE SAME TRAIN

A peculiar thing about the situation is that not one of the three men is aware that any of the others are on the train and they will not be allowed to learn the fact until they are safely behind the bars in Los Angeles. At regular intervals at small stations the prisoners are taken out and exercised tion that would help much. separately and in such a manner as to prevent them learning each other's STORY OF INTERVIEW RANK presence on the train.

The confession, it is said, was se cured from McManigal while he was that Bryce or J. B. McNamara had being sweated for nearly a week in been interviewed by a reporter bejuil at Detroit, where he and "Bryce" tween Albuquerque and this city and were arrested by Sergeant of Police Bettinger of Chicago. The confession is said to be complete in every de-"Schmidt" and "Caplan" is believed evening when it reached Gallup. to be only a blind on the part of Mc-Manigal to protect himself. The concated with the prisoners aside from fession, it is said, will create a trethe officers since they were arrested," mendous sensation when it is presaid one man. "No telegram was tented in full at the trial, and its sent at Grants, no one got off and reading will undoubtedly mark the no message was dropped off as the most dramatic moment in one of the train was going about forty miles an most dramatic hearings in the history hour when it passed Grants, and as of California. Formal instructions were said to have been sent to all commanders in with a subpoena to produce the bank- the affected territory to observe the requirements of the armistice signed Sunday.

A new influence is to be brought to bear upon Francisco I. Madero, Jr., in the interest of peace through the TESTIMONY IS UNTRUE sending to San Antonio by the spiritualistic society of Mexico, of which Madero is a member, of an emissary in the person of Rogeli Fernandez Guell, Mexican consul in Baltimore. Guell has been here for some time

conferring with leaders of the soclety "Mr. Cook may have heard that I and studying with them means for a

A commission from its memb today called upon the minister of foreign relations and was given proper credentials to enable Guell to reach Madero. He departed for the north tonight. In spite of the meager information from governmental sources interest in the peace movement continues keen and every scrap of intelligence from without in eagerly read and discussed. While many persons appear skeptical, a general betief seems to prevail that the chances are even that a permanent peace

agreement will be reached. The interest in the exact terms of the proposed peace agreement is not nearly so keen as it was a few weeks ugo. Mexicans generally and especially those in the capital are begin-

ning to realize that the old order of things has passed and that they have been entrusted with the privilege of governing themselves.

Madero and his followers will claim, credit and the administration will insist that the changes were brought about because it was evident the peaceable portion of the public desired them, but the really important feature is that within the last few days Mexicans have awakened to the Charged With Brutal Attack On ract that they are to have a voice in

the conduct of their government. Miss Koebig at Los Angeles; Already the chamber of deputies Said to Have Made Con- has adopted that portion of

REPUBLICANS SHARPLY CRITICIZE PROPOSED LAW

Measure as Political Soothing Syrup, Drawn Inaccu-Disastrous Possibilities,

[By Morning Journal Special Leased Wire]

Washington, April 15 .- The democratic free list bill, characterized by the republicans, as "political soothing syrup," was roughly handlod in the house this afternoon by the republican side. Mr. Underwood, democratic chairman of the ways and means committee, introduced it in an hour's speech shortly after the session convened at noon. Then it was left to the mercles of Representative Mann of Illinois, leader of the republican side; and things Mr. Mann said about it in the two hours he held the floor gave both sides food for much debate, omment and criticism.

Mr. Mann said the free list bill introduced by the democrats as the first of their tariff measures was drawn inaccurately, indefinitely and with such general language that it might be stretched to include almost half the imports of which the United States now collects tariff revenues. The free list bill puts agricultural implements "of any kind and de- of Oregon. scription" on the free list.

Mr. Mann demanded to know what agricultural implements would come under the provision. He expressed the belief that it could be stretched to include the free entry of saws, axes, sin. forks, garden hose, hay knives and almost everything else that a farmer, horticulturist, gardener or tiller of the soil use

He said the bill was so drawn that it would admit free the leather from which the farmer's shoes were made but would exclude that from which his wife's shoes were made, It put a premium upon foreign labor. was offered appropriations, generally kinds of leather to come in free when they are partly made up.

In putting agricultural implements on the free, list, said Mr. Mann, the democrats would let the International Harvester company dump into the Rhode Island. United States the implements it made with foreign labor in France, Germany and Russia.

Chairman Underwood and other democrats did not attempt a reply to the attack upon the bill.

Mr. Gardener of Massachusetts attacked the measure and the democratic policy of promising to "reduce the cost of living without reducing wages paid in the United States." He asserted that in putting articles on the free list the democrats had dist the farmers and

manufacturers of the northern states,

while leaving protective duties on to-

intes.

was all right.

How research work and routine work are combined was also pointed out by the speaker, and yet he said that we have been somewhat slow in

applying what we know as is seen in the use of the thermos bottle which is an old principle just applied in the last few years for the great comfort of travelers and explorers. Professor Clark then took a shot a those who pooh pooh the work of college professors and said, "We have failed to apply much that has been taught simply because of this old prejudice against a college professor, many holding the opinion that such a man cannot be practicable." He told an instance of this prejudice in the case of certain turpentine men of South Carolina. But Professor Clark admitted that tore attention should be given by colleges to their laboratory work and to the kind of men who are to teach the fundamentals. He said that our colleges will eventually have two classes of instructors, one class that has done research work and the other class composed of mon able to teach how to do it. The difference between industrial chemistry and pure chemistry the speaker pointed out to be much the mme as the difference between poetry and prose. Certainly, a man to write good poetry must first of all master prosody and so to be a successful in-Try a Morning Journal Want Ad guna, N. M. the state officers are elected, on the dustrial chemist one must know pure chemistry. The lecturer described at length various processes used in the indus trial world beginning with the mak ing of steel. He told of the Bessemer process and how steel depends on MJP. chemistry for its purity, and that there must be no subhur in the ore or coke, for it renders steel brittle. The history of aluminum was briefly dwelt on and the audience was visibly startled to hear that al uminum in 1855 was worth \$95 a pound and now has dropped to 20 cents a pound. He dwelt on the value of aluminum and said that many housewives forget that course soat and salt attack it. The lecturer declared that in the future we are going to get most of ur metals by electro chemistry and pointed out the value of chemistry in reducing the price of aluminum which has proved its service not only in aiding man's digestion by cooking food without burning it but in stirring the imagination in its use in air ships BIBLE 300 YEARS OLD

Territories Declares Democrats Can't Change Statehood Situation.

(Special Dispatch to the Morning Journal) Washington, D. C., April 25.

"Statehood occupies a definite place on the house program," said Chairman Floyd of the house committee on territories today to the Morning Journal correspondent. "It will be taken up just as soon as the free list bill and reappointment bills are passed. These will not take over ten days. Then we will take up statchood. The only possible result of these hearings would affect the resolution reported to the house. If the democrats have their way a vote will be taken when proposition to change article 19 of

the constitution so as to make it more easily amendable." The house committee mot again to-

day. Judge Fall finished his remarks and Judge McGill was on the floor when adjournment was taken until Wednesday. George Curry presented a telegram from W. S. Hopewell asking what stand Fergusson, Hand and Jones were taking in the statehood fight. This led the chairman to remark that he believed all New Mexico delegations, democrat or republican, were seeking immediate statehood, the democrats seeking, if posa "more easily amendable conalble. stitution."

trinsic medicinal properties of its own, being a most valuable

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kin-dred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or other organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures even the

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on-coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages-no medicine will do that-but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

case, get the Common Sense Medical Adviser-the People's Schoolmaster in Medicine-revised and up-to-date book of 1000 pages-which treats of diseased conditions and the practical, successful treatment thereof. This leaves out of consideration targe class of telephone users who seemingly respect the telephone too much to approach it closely and appeart o think they can throw their words at the instrument from afar off, like pitching quoits, and still be ported French wines, heard. These persons are almost as exasperating as those who direct their office boys to summon you to your end of the line and then keep you etiquette of the telephone would demand a separate chapter.

WHICH IS BIGGER?

The Santa Fe New Mexican says: Washington dispatches inform the New Mexican that Senator Owen of Oklahoma persists that New Mezico before it is admitted shall change its constitution so as to permit o its amendment during the first five if the feative frijole was the farmer's years' existence of the state by a majority vote of each legislative house, ratified by a majority vote of the people. It remains to be seen whether Senator Owen is the people of the United States and is bigger than the president of the nation."

.

A RICH DISTRICT.

The magnificent scenery and the notable progress in the mining industry in the Mogollon mountain district of New Mexico are graphically pictured in "The Mogollon Mines." an elaborate and artistic publication telling about the Mogoilon district. The Morning Journal has just received a copy. It gives the reader some adequate idea of the large proportions attained by the mining industry in Grant county with numerous pictures of the various big modern plants now In operation in that section. To anyone who has not followed the rapid development of mining in the Mogoffens, this book is an eye-open-The preface contains the interer. esting fact that the mountain range. the district and the famous mining enmp are all named after Juan Lenacto Flores Mogolion, governor for Spain in the year 1712 of the vast empire new embracing Texas, California, Utah, Nevada, Colorado, Arigona and New Mexico.
