VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY, MAY 2, 1903.

NUMBER 89

## Territorial Topics

### SANTA FE.

From the New Mexican.

Charles Hartsough, of Colorado Springs, has arrived in town. He is a fine musician and will join the Capital City band. He is also a printer and will work at his trade here.

Forrest McKinney, special agent of the general land office, was in the city Saturday and while here made arrangements to occupy a house on the Fort Marcy reservation on Grant avenue with his family for the present summer.

A. E. Erwin, assistant superintendent of the city mail delivery division of the postoffice department, will be in Santa Fe on Thursday to arrange the preliminary for the establishment of the free delivery service in Santa Fe, providing that conditions are found satisfactory.

Miss Geneva Swinford, of Stillwater, Oklahoma; Miss Mary Lannon, of Alexandria, Va., and Mrs. J. M. Ireland, of Las Vegas, arrived in the city. They spent the day visiting the United States industrial school for Indians and other places of interest in and near Santa Fe.

The following marriage certificate has been recorded at the office of the probate clerk and ex-officio recorder of this county: Jack Russell and Miss Minnie Patridge, of Madrid. The ceremony was performed at Corralito on February 21 by the Rev. J. H. Messer, and was witnessed by James Keer and Miss Susie Russell.

Judge Laughlin received a dispatch announcing the sudden death of D. F. Morgan, general solicitor of the Bell Telephone company, with office at Minneapolis, Minn. Deceased was interested with Judge Laughlin, A. R. Manby, of Taos, and others, in certain tracts of land situated in Taos county, and also in other enterprises in the territory. He was a man of eminent ability, high character, and in every respect a gentleman. Judge Laughlin was greatly grieved to hear of the demise of his friend and business associate.

Upon the petition of Acequia de Rio del Pueblo de San Geronimo vs. The Pueblo de San Geronimo, a temporary injunction has been granted by Associate Justice John R. McFie, sitting as district judge for the county of Taos, enjoining the defendants from prosecuting work on a new acequia or ditch now being constructed by them to take water from the Rio Pueblo. The hearing is set in this city on May 4, at which time defendants are to show cause why the temporary injunction should not be made permanent.

Deputy Sheriff C. R. Huber went to Lamy in response to a message that there was a demented woman there who should be taken into custody. The telegram did not give the woman's name.

In a letter to friends in this city L. L. Chavez, clerk of the United States court of private land claims, who is in a hospital at Denver, where he is receiving treatment for an affliction of the ear, states that he is mending very slowly.

Mr. and Mrs. Will Spiegelberg, of New York City, arrived from the south. They are in return from a three weeks' sightseeing tour through the Republic of Mexico. Mr. and Mrs. Spiegelberg were for many years popular and respected residents of Santa Fe and removed to New York City about twelve years ago.

Mrs. Frances Seligman, of this city, and Mrs. Fannie Britton, of New York City, who have been visiting California during the past three weeks, returned to the city recently. They were in San Francisco and also paid a visit to Los Angeles and other towns and points of interest in the southern part of the state. They enjoyed the trip very much.

At the regular monthly convocation of Santa Fe Commandery No. 1, Knights Templar, on Monday evening, the officers elected at the March convocation for the ensuing year, 1903, were duly installed by Past Grand Commander Edward L. Bartlett. After the ceremonies a luncheon was served in the banquet hall. The following are the new officers of the commandery: F. S. Davis, eminent commander; W. R. Price, generalissimo; C. J. Crandall, captain general; W. A. Cooper, prelate; H. B. Cartwright, treasurer; W. E. Griffin, recorder; W. A. Bayer, senior warden; George E. Ellis, junior warden; S. G. Cartwright, standard bearer; Frederick Muller, sword bearer; Charles F. Easley, warder; W. T. Guyer, sentinel; W. H. Kennedy, first guard;

Samuel Eldott, second guard; J. H. Walker, third guard.

### LAS VEGAS.

From the Record.

Walt Benjamin was able to be out today for the first time in several days, having experienced quite a severe spell of sickness.

Pat Young returned Saturday night from the Pecos river country, where he has been mining for some time past. He reports everything booming.

Chief Justice W. J. Mills, Hon. Secundino Romero, clerk of the court; W. E. Gortner, stenographer, all left for Mora to open court there.

Mrs. J. H. Krutz and Miss Ruth Krutz, mother and daughter, of Chicago, are two charming ladies who will soon make their presence felt in musical circles in this city, as they are more than proficient in that sweet and tender art which not only soothes but also exalts the human heart. Last night the ladies favored the guests at La Pension with a few selections, which were greatly appreciated.

Miss Edith Kingsley celebrated her eleventh birthday by entertaining several of her young friends at a party.

Apollonio A. Sosa, the popular and affable probate clerk, and wife, are in return from a pleasant visit to relatives at Chaparrito. Mr. Sosa reports crop prospects excellent, while sheep men are lambing from 85 to 90 per cent of their flocks.

F. H. Pierce, the popular superintendent of the Agua Fria company is having the excavating done in Lincoln park preparatory to laying the water mains for watering the park this summer. A good move in the right direction.

Marshal Courtwright received a telegram recently from Sheriff Littrell, of Raton, inquiring if he had the man who recently robbed the Ruffner house up there. It is presumed that he means Henry B. Hill, who is in duress vile for burglarizing the Lewis residence here the other night. If it is he it is very likely that the young man will work for the territory for some time to come.

From the Optic.

T. B. McNair, the popular salesman for the Brown & Manzaneros, left on the flyer to attend the dedication exercises of the world's fair at St. Louis.

Mrs. Freda Walsen Renshaw, the attractive and accomplished daughter of Gen. Fred Walsen, left for her home in Walsen, Colo., after a pleasant visit to Miss Holzman.

Word from Rociada and other outside points is to the effect that the rain in that section was much heavier than in the city. The same tidings come from other outlying sections, but from up the road Springer way, word is brought that little rain fell.

Mr. and Mrs. L. D. Thatcher, of Chicago, Ill., are recent arrivals at La Pension. Mrs. Thatcher and Mrs. H. S. Van Petten, of the city, were school girl chums at the Chicago Irving Park school and met by chance last week on Sixth street for the first time since leaving school.

Miss Rose Ludeman is ill with the grip.

Malaquias Gallegos, a 2 year old girl, died recently of congestion of the lungs.

Dr. Woodruff, a graduate of the American School of Osteopathy, has located in Las Vegas for the practice of his profession.

W. M. Bell, who recently established an office as local manager of the New York Life Insurance company in the Crockett building, has identified himself still further with the interests of Las Vegas by enrolling as a member of the board of trade.

The Optic is informed that the strip of land which the officers of the government are trying to take from the Las Vegas grant to add to the Pecos reserve is thirty-eight miles long by a mile wide. On it are settled a hundred farmers who have had possession since 1858. According to careful estimates 24,240 acres are contained in the strip.

### HILLSBORO.

From the Advocate.

Miss Mabel Kennedy left for her home at Albuquerque.

Mrs. W. S. Hopewell and Mrs. Stauffer moved to the Hopewell summer residence on the Animas.

A very pleasant party was given in honor of Miss Mabel Kennedy at the

home of Mrs. C. C. Crews, Thursday evening of last week.

J. E. Liggett, the California millionaire, has purchased A. Shepard's ranch and cattle on Cave creek and also Peter March's ranch on North Percha.

Miss Mary Lynch came in from Flagstaff, Arizona, last Saturday. She is visiting her sister, Mrs. S. F. Keller. Miss Lynch has many warm friends who welcome her return.

### LORDSBURG.

From the Liberal.

Miss Ruth Taylor, who taught the primary department of our school this winter, left for her California home recently.

Mrs. J. A. Leahy gave a dinner party Sunday in honor of G. P. Hull's 27th birthday. Mr. Hull has been celebrating his 27th birthday so long that it has now got to be like an old friend to him.

The Lordsburg base ball enthusiasts, they have not played together enough to be called a team, went down to the Yellows Kids. The result was what was to be expected, the Kids got the best of the argument in the ratio of seventeen to nine. The Kids play a good game of ball, but the Lordsburg players think they could, without much trouble, do them up, after they have had a chance to do a little team practice.

### DEMING.

From the Graphic.

Volney Rector returned from an extended business trip to his ranch, where he has been looking after his stock.

Geo. W. Chesman, the beef buyer from Denver, is in town and will begin receiving cattle which he has purchased in this vicinity, about the first of next month.

W. J. Barrows, who is with the department of the interior, spent several days in town last week, examining the financial condition of the county. He spoke enthusiastically of the good showing this new county was able to make.

The new barber shop being built by Otto Smith, next to the Cabinet saloon, is nearly completed and the old shop which remained on the inside of the new one while the building was going on has been removed to allow the finishing, and it will only be a short time now until he will be in his fine new quarters.

### SILVER CITY.

From the Enterprise.

The Club House saloon has caught the spring improvement fever and is adding several costly sideboards which extend across the front of the resort.

C. W. Marriott has purchased the Warm Springs ranch near the Middle Gila, of Mike Fleming, and will use it as a station on his Mogollon stage line.

A baby girl was born to Mr. and Mrs. Wayne Whitehill on Wednesday morning at 9 o'clock. Wayne is the eldest son of Harvey Whitehill, who is rejoicing in the birth of his twentieth grandchild.

E. J. Franz, of the Azure Turquoise company, received 120 pair of homing pigeons last week from Massachusetts. The pigeons arrived by express in fine shape and were taken at once to Mr. Franz's home in the Burros.

A merry crowd of young people spent Saturday in Santa Rita, visiting the mines and having a good time generally. Those in the party were: Jas. Hugler, Roy Bayne, Warren Kiner, Gene Cosgrove, Earl Loffer, Misses Pearl Loffer, Lucy Thwaites, Ella Cosgrove, Rilla Weber and Viola Reed.

Mrs. Lydia Harper died at the Harper homestead on the Gila near Red-rock last Thursday of a paralytic stroke, the second she had suffered in three weeks. Deceased survived her husband, J. M. Harper, just two months, almost to a day. The funeral took place Saturday and was largely attended by friends from the surrounding country. Mrs. Harper came to Grant county with her husband over thirty years ago and standing staunchly by his side, helped him wrest a home from a hundred opposing elements. She was a true pioneer and to such as her, veneration and respect are due from the advancing hordes of easterners who are finding peace and plenty in a savage ridden west.

From the Independent.

Referee Colin Neblett has made his report in the ditch case of the Lyons & Campbell Ranch and Cattle compa-

ny vs. Mrs. E. J. Fuller and Charles Fuller, in which he finds for the plaintiff.

The contracts for extensive building operations at the Fort Bayard sanitarium will be let during the present week.

A very pleasant afternoon party was given at the home of Mrs. J. E. Sheridan. A large number of ladies were present and reported a most enjoyable time.

Laird & Matthews have a force of about twenty-six men at work on the construction of the large masonry dam at Fort Bayard and the work is progressing rapidly. The dam will have a sixteen foot base.

The city council will meet soon for the purpose of closing up the year's business. Inasmuch as the old body holds over under the act of the legislative assembly there will be no formal reorganization. It is understood that there will be a change in the city marshalship, James R. Brent retiring to accept a better position. W. H. Kilbur, and Charles Wedell are leading candidates to succeed him.

### TUCUMCARI.

From the Democrat.

Tucumcari needs water works, an electric light plant, an ice plant and a steam laundry.

J. Reid, a conductor on the Rock Island, is erecting a large two story building near the depot. It will be occupied by a saloon.

J. J. Harrison, of Clarendon, Texas, is in the city and will at once begin the erection of a two story building, 30x50, on the corner opposite the depot, to be used as a saloon and lodging house.

A game of base ball between the Tucumcari and Ogle Flat teams was the principal attraction Sunday. The result was that the Tucumcari team was victorious. The Ogle boys are nice fellows and Tucumcari invites them to come again.

### WHITE GARS.

From the Eagle.

Roy Gum is still confined to the house with his wounded leg. The wound is almost healed, but he has little use for the limb as yet.

H. Biggs has his saw mill in the Patos mountains about ready for business. The Lincoln forest reserve has driven him out of the Captain mountain timber belt.

There is another month of the public school. Mrs. John A. Hollars will join her husband in Los Angeles, Cal., as soon as the term is ended.

Dr. Dryden, surgeon for the Eagle Mining and Improvement company, came in with J. M. Rice, from Parsons.

Judge Hewitt did not go to Socorro as he expected to last week, owing to the fact that the hearing in the sheriff contest case, in which he represents the defense, was again put off.

### SANTA FE.

From the New Mexican.

Page B. Otero, territorial fish and game warden, will go to Las Vegas on business connected with his office.

E. L. Faison, of Salt Lake City, Utah, inspector of surveys, has been in the city the past few days. He left for the Tejon land grant, where he will inspect a number of surveys.

Forrest McKinley, special agent of the general land office, left for Tierra Amarilla, on official business. He expects to be back in the city in time to see President Roosevelt, May 5.

Adjutant General W. H. Whitman is in St. Louis as a member of the staff of Adjutant General H. C. Corbin, United States army, as representing the national guard of New Mexico. As such he participated in the parade and other exercises there.

Sister Lucia, superior of Loretto academy, and Sister Euphrosine of the faculty of that institution, returned home recently from an extended and most pleasant trip to the east. The principal visit was made to Loretto, Ky., where the mother house of their order is located. They also visited St. Louis, Kansas City, Louisville, Ky., and other points.

Judge John R. McFie has issued an injunction restraining the Defensive association of the settlers of the Rio de Castille from interfering with Samuel Jackson and Samuel Holman, in the pasturing or ranging of their sheep numbering some 4,000 head on land in the Sangre de Cristo land grant in Taos county, leased by them from the United States Freehold, Land and Immigration company. The injunction

was applied for by the company named by the Santa Fe law firm of Abbott & Abbott. The defendants are given thirty days' time in which to show cause why the injunction should not be made permanent.

### LAS VEGAS.

From the Record.

Anton Chico and Bado de Juan Pais were visited Sunday last by a destructive hail storm which did great damage, especially to fruit.

The cellar wall, where the excavating is being done for the new Duncan building adjoining the postoffice, caved in, carrying with it a four inch water main, with the result that the cellar was flooded with a goodly quantity of water before the flow was cut off.

Considerable complaint was heard from members of the Woman's Federation and others who had taken the trouble to clean up the streets, on account of the large quantity of waste paper which was being circulated on Center street by the wind. The person or persons responsible should be brought to task.

From the Optic.

The management of the Ladies' home expresses its appreciation of a gift of \$50 from J. S. Raynolds.

Phil Strobel, a youngster who had managed to overdraw his wage account considerably, took French leave of the Montezuma and has succeeded in getting clean away.

The east side committee to secure subscriptions to enable the city to carry out its part of the contract with Standish & Matt for the erection of a reduction works finished its labors this afternoon, having secured pledges for the required \$600. The committee consists of Messrs. Stearns, Dick and Pierce.

Max Nordhaus, a member of the firm of Charles Hfield, speaks in enthusiastic terms of the experiences undergone during his five months' trip to Europe. About half of the time he spent as the guest of his parents at the old home in Westphalia, in the German Fatherland. The remainder of his vacation he spent traveling about Europe.

### FROM EAR TO MOUTH.

The Chef at Montezuma Hotel, Las Vegas Hot Springs, Badly Cut.

What came near being a fatal cutting affray occurred at the hot springs yesterday, when Rinaldo Roybal slashed Louis Thyron, chef at the Montezuma, with a knife and laid his cheek open from lobe of the right ear to the corner of the mouth, says the Las Vegas Record.

It is hard to understand just what caused the trouble, but from deductions made from both sides of the story it seems that the Mexican was detected in the act of making away with several articles belonging to the hotel.

The facts as near as can be learned are that while Manager Talbot was out walking at the foot of the hill, Roybal passed him in a wagon and was stopped by Talbot, as the latter had noticed several pieces of carpet in that vehicle which he readily recognized as belonging to the hotel. He asked Roybal where he got them and the latter replied that he had found them out on the grounds surrounding the hotel.

As the man had no right to appropriate articles found on the hotel grounds the manager decided to search farther, which he did, and, among other articles in the wagon, unearthed several towels marked "Montezuma" and "Santa Fe Route," which to his mind was conclusive evidence that Roybal had not obtained them honestly.

While Manager Talbot was making the search Roybal rushed upon him, but was thrown off by the latter, who took no further notice of the fellow, but continued his search. Suddenly he was startled by a cry from Thyron, who was standing a short distance away, and who called to Mr. Talbot that the Mexican had drawn a knife. Mr. Thyron saw the man's intention and sought to interfere, whereupon the Mexican used the knife on him to such an extent that his right cheek was laid wide open with one slash of the wicked blade. The cut laid the flesh open from ear to mouth and penetrated the mouth, making a most serious, although not necessarily fatal, wound.

Roybal left the springs immediately after the trouble and was arrested at Bridge street on a telephone message from the management of the hotel and lodged in jail, where he remained until this morning, when Sheriff Cleofes Romero took him to the springs for a preliminary hearing, but on their ar-

## honestly made Levi Strauss & Co's Copper-riveted Overalls

rival there it was discovered that the serious condition of Thyron precluded all possibility of his being able to testify, so the hearing was set for the 9th of May, at which time it is hoped he will be able to talk, and Sheriff Romero returned to this city with his prisoner.

Louis Thyron, the wounded man, received medical attention immediately after the trouble and at last accounts was resting easy, although he had a very severe wound, which will likely disfigure him for life.

### NEW SCHOOL HOUSES.

Surplus in General School Funds Can Be Utilized for That Purpose.

Amended house bill No. 87, as passed by the house of representatives, February 24, 1903.

An act to provide for public school houses from the surplus in general school funds.

Be it enacted by the legislative assembly of the territory of New Mexico:

Section 1. That whenever there shall be a surplus in the general school fund in the county treasury to the credit of any school district in the territory, outside of incorporated towns and cities, to the amount of not less than \$200, after all the expenses of maintaining the schools in said district for teachers' salary, rent, and other expenses connected therewith, the said surplus or any part thereof, may be withdrawn by the directors of said school district and applied by them to the procuring of a suitable site and the erection thereon of proper school buildings or for the repairing of any school building or buildings for the use of such school district, in the manner following:

Sec. 2. That whenever a petition signed by one-half of the legal voters of such school district described in section 1 of this act, as shown by the number of votes cast in said district or precinct at the last general election, shall be presented to the county school superintendent, praying that such surplus money described in section 1 of this act may be turned over to the school directors of such school districts for the purpose of procuring a site and erecting school building or buildings, thereon, then it shall be the duty of said county school superintendent within ten days after the receipt of said petition, to forward the same to the county treasurer, who shall file the said petition and safely keep the same among the records and archives of his office, and it shall be the duty of said county treasurer to at once notify the school directors of such school of the amount of money then on hand, subject to be withdrawn for the purposes named; and thereafter the said treasurer shall honor and pay all warrants drawn by such school directors against such surplus fund for the purchase of site and erection of school houses thereon, when the same are accompanied by itemized and verified accounts and vouchers until the said surplus is exhausted, and it shall be the duty of the school directors to open proper books of account with the said fund, and enter therein all receipts and disbursements on account of such fund; and it shall be their further duty to take from persons to whom money may be due on this account, itemized and verified bills in duplicate, one of which shall be retained by said board of directors, and the other shall be transmitted with the warrant drawn in payment thereof to the county treasurer of the county in which said district is located. And the said school directors shall in no event and under no pretext contract for or incur obligations in such account beyond the amount of money available in the county treasury for such purposes, nor shall they under any circumstances incur any debt in the erection of such school house, or houses, or improvement or repair thereof except as provided in sections 1542 and 1543 of the compiled laws of 1897.

Sec. 3. In case there shall not be sufficient surplus moneys on hand to

purchase a site and complete the building or buildings contemplated by the school directors under this act they are hereby authorized to procure the site for school purposes and to commence the erection of such building or buildings as they may deem necessary and proper for the purposes herein named, and shall carry on the construction thereof, so far as the moneys on hand for that purpose will permit, as hereinbefore provided; and in case the term of office of any such directors or any member thereof shall expire, before the said buildings are completed, it shall be the duty of their successors or successors to proceed with the work in the manner herein provided until such work is completed.

Sec. 4. The board of directors of any school district is empowered to expend, from the funds in the treasury of said school district, any moneys necessary to properly insure any school building or buildings in such school district.

Sec. 5. Any failure of any of the officers mentioned in this act to carry out its provisions in the letter and the spirit of this act, shall subject such officers to removal and to a forfeiture of their official bond for the benefit of such school district so injured thereby, and any school director so offending, shall be disqualified to become his own successor in office either by election or by appointment for a period of one year from date of such removal.

Sec. 6. All acts or parts of acts in conflict herewith, are hereby repealed, and this act shall take effect and be in force thirty days after its passage.

### LOCAL PARAGRAPHS.

The First National bank building is being handsomely decorated this afternoon, with flags, bunting and miniature pictures of Roosevelt.

Mrs. Mary Scott, 605 South Second street, has as her guest Mrs. P. Cella, of Denver, Colo. She expects to be in the city for a couple of weeks.

Mr. and Mrs. Ben Bibb, of Los Lunas, were in the city yesterday and left for the west last evening. Mr. Bibb is the assessor of Valencia county.

"Life among the Hopi Indians" will be Miss Adella Williams' subject at the Baptist church next Tuesday evening. The Indian band will furnish music.

Miss Virginia Perea, of Santa Fe, who has been spending a week in Albuquerque visiting her cousin, Mrs. G. W. Harrison, returned home this morning.

A. J. Warren, the telegraph operator at Gonzales, out on the divide on the Santa Fe Pacific, is in the city to remain until after the President Roosevelt reception.

Conductor Barney, of the Santa Fe Pacific, has let the contract to John Hart for the erection of a two story frame residence on West Railroad avenue. It will be a handsome home, with all modern conveniences.

James Shuman, a business man of Eureka Springs, Ark., is in the city for a few months' recreation and to test the salubrious qualities of New Mexico's climate.

H. B. McNassar has returned to Senorito camp, in the Nacimiento mountains, where he will take charge of the blacksmithing of the Jura Trias Copper company.

Every citizen, rich or poor, great and small, residing along the parade line, is requested to decorate. Albuquerque is to do herself proud and everybody can help.

Decorators got to work today on Second street, and a few flags and some bunting now ornament the Farr meat market. Others on this popular street are getting in line.

The stand for the statehood tableau, at the north gate of the Alvarado hotel, is receiving the attention of the decorators this afternoon. Everything at this time looks bright for Roosevelt day—May 5—and everybody intends to look their best on that day.

### VOLTAIRE AND THE BIBLE.

In 1777 Voltaire predicted that in one hundred years, the Bible would be practically an unknown book.

The report of the American Bible society, recently issued, tells a much different story.

The number of volumes of the Bible which comes from the press now every twelve months is about 8,000,000, more than the total number that existed during the first eighteen centuries after Christ.

The Bible, which in Voltaire's day, existed in only thirty-eight tongues, is being read today, in whole or in part, in over 400. One hundred and fifty of these languages were for the first time reduced to writing by Bible translators.

For the first period of twenty-five years of its existence, the American Bible society issued a little over two million volumes. For the second period of twenty-five years, it issued over eighteen million. The third period saw the number of volumes issued reach thirty-two million. The fourth period is expected to reach over fifty million.

Voltaire is dead and gone. He is only a memory today. All that remains to call him to mind are a few epigrams, a few risqué stories and some plays that are no longer performed. Perhaps he is better remembered for his prediction concerning the Bible than for anything else.

### REFORMATORIES.

The discussion of reformatories at the national conference of Charities and Correction at Atlanta in May will be of special interest to southern delegates. The general secretary of the conference, Joseph P. Byers, is in charge of the Indiana reformatory, where felons from 15 to 30 years of age, convicted of a first offense, are sent to reform. The experience of the United States in such institutions has been that 75 to 80 per cent of first offense prisoners give no further trouble after being treated by this plan. Closely akin to this is the question of juvenile reformatories by which boys of tender age can be reclaimed instead of sending them to jails or penitentiaries with hardened criminals as at present in most southern states.

### RECEIVING THE PRESIDENT.

President Roosevelt will reach Albuquerque on the afternoon of Tuesday, May 5, and he will remain about two and a half hours. It will be a brief visit, but it will give a large number of the people ample opportunity to see him.

The reception should be marked by cordiality in every way. He is the president of the whole country, and his visit will not be of a partisan character. He should, therefore, be welcomed by all classes of the population, and without regard to partisan distinctions every citizen should endeavor to show the pleasure the people of Albuquerque derive from his visit.

Let us decorate the line of march from the depot and back to the station with flags and bunting, in order to give the city as much of a gala appearance as possible.

### THE ELKINS LAW.

The new Elkins law, recently passed by congress, seems to be rather an effective measure.

Acting under its authority, Judge Grosscup, of Chicago, last Saturday entered an order in the United States court of appeals enjoining six railroad companies from discriminating against small shippers.

Today, Judge Phillips, of the United States court at Kansas City, will enter a similar order concerning eight more railroads.

It seems that the small shipper is to have a change. And it is high time that he had it. If the Elkins law had been in effect some years ago, perhaps the Standard Oil company would not be the all powerful monopoly it is now and perhaps hundreds of small concerns that it crushed out of existence, might still be doing business.

As a general rule, the small dealer in anything does not stand very much of a chance at present. And it looks as though any law that will give him a better chance is a good law.

### DAIRY OF PRESIDENT POLK.

The Chicago Historical society is said to have secured a treasure in the diary and correspondence of Polk, which has been purchased from his heirs at Nashville, Tenn., for the comparatively small sum of \$3,000. The diary is reported to be contained in forty volumes and to include not only important data, but interesting comment on men and affairs of the time.

As president seems to have had a habit of jotting down in his diary his impressions of the members of his cabinet, leading senators and public men of the day as they revealed themselves to him in private conversation, conference and the cabinet meeting. The correspondence recently secured covers twenty years, some of them among the most important in our history, and includes letters from Andrew Jackson and Polk's replies, the negotiations regarding the Oregon boundary, the annexation of Texas, the Gadsden treaty, and all the diplomatic questions that arose during his administration.

President Polk has been one of the

least understood of the presidents. Few writers of history have assigned him the place he deserved, and many have placed him as a minor figure in the agitation that led up to the war with Mexico, the conduct of that war, and the subsequent acquisition of an immense and valuable territory. While not as strenuous as Jackson nor as resourceful as Lincoln, Polk met the emergency of the war with Mexico with ability and decision. He was an ardent patriot and would be known today as an "aggressive American."

One little known incident of the beginning of the war with Mexico is of interest. Polk sent a message to congress stating that Mexican troops had "shed the blood of American citizens on American soil," and calling for a declaration of war. The preamble to the bill appropriating \$10,000,000 for the prosecution of the war read: "Whereas, by the act of the republic of Mexico, a state of war exists between that government and the United States." The whigs protested bitterly against the war and offered what were known as the "spot resolutions," calling upon the president to "name the spot" of American territory whereon the outrage had been committed. The congressman who introduced these resolutions and denounced the war was Abraham Lincoln, who a few years later called upon congress and the country to support him in waging one of the greatest and costliest wars in history.

### LIKES THE WEST.

"When I get to the west, here, I feel thoroughly at home. I know you; I have been with you. I worked here on the plains in the old days. I believe in you with all my heart and I have taken the keenest pride in watching your growth, in seeing these states of the plains and Rocky mountains go steadily onward in their career of greatness. What I admire this great western country most for is its men and women, and as I believe in the stock I am mighty glad to see the children."—President Roosevelt.

### SCENE OF WAR.

Somaliand lies in the northeastern horn of Africa, between the Gulf of Aden and the Indian ocean. It is one of the most inhospitable sections of the continent, a vast desert poorly watered. The "red steppes country" is practically without water or vegetation. The water holes are about 150 miles apart, and the supply in them is scant and inferior at best. The Somalis are roving, warlike tribesmen, who, when at peace with themselves, are warring usually with their neighbors. They are of mixed blood, a trifle darker in color than the Arabs, with Grecian lips and nose, and woolly hair, the latter betraying negro admixture.

### LIFE EVERYWHERE.

Go to the great snow fields among the Alps and Sierra, or in Greenland; if you know how to look for it you will find plenty of life even there—plants growing in arctic cold and snow; insects living a happy life in drifting snow and driving sleet; birds and bears and fishes in the Arctic zones who love the frozen shores and icy depths; butterflies, even, of peculiar kind, living where it is too cold for man to dwell. A block of ice from an iceberg or from one of the great glaciers of Alaska, or water from the hot springs of Colorado, will reveal still other forms of life. Even the damp, dark caves under the earth are the abode of creatures who love their dismal depths and could not live elsewhere. So, wherever you may go, if your eye is trained to see it, you will find life in some form—above the earth, under the earth, at the tropics and at the poles—everywhere there is life.

### FUTURE OF CUBA.

Major General James H. Wilson, who was for a long time in command in Cuba, has recently returned from a visit to that island and has written his impressions on the changes that have taken place since he first visited it. The concluding paragraph is as follows:

"As matters now stand, much remains to be done to regain the lost ground, to place our relations with that beautiful and productive island on a permanent and mutually profitable basis, to make it profitable to Cubans and to Americans alike, and finally to bring it into the union as an equal and sovereign state. It is already within our sphere of influence and we must defend it from European aggression whether we will or not. It would seem to be the part of wisdom to bring it as soon and as fully as possible into our economic system. When that is done on broad and reciprocal principles it will be easy enough, if it is found desirable, to bring it into our political system, there to remain always, free, independent and prosperous."

### FOREST RESERVES.

The Denver Republican says that the department of the interior is doing its utmost to regulate the use of forest reserves in the western states and territories, so that they will provide grazing for as large a number of sheep and cattle as possible and at the same time achieve the main purpose of their organization.

It has been represented that in a number of cases these reservations are made to include space of no value for forest preservation, but that could be put to good use for sheep or cattle. It will be the aim of the department to exclude all land of this kind, and for this purpose agents will be sent to the different reservations to remark their boundaries.

The growth of the live stock indus-

try in the states in which reservations have been established has caused a demand for grazing lands not absolutely needed for forests, and even for the privilege for running cattle and sheep on a reservation. Experience has shown that sheep kill the young trees that are not yet higher than the grass, and that thus reforestation is greatly interfered with and in many cases prevented.

This recalls the old question of guarding and patrolling forest reservations by a force sufficiently strong to protect the trees from fire and unlawful cutting. A force of this kind could also exclude flocks and herds that otherwise might cross reservation lines. Unless something of this kind is done it will be difficult to prevent illegal grazing during part of the year.

### TRUSTS AGAINST ROOSEVELT.

The New York Sun represents the trusts and financial interests of Wall street, and it has published an editorial article attacking President Roosevelt for his opposition to the commercial combines against the people.

The most significant thing this editorial reveals is that the trust kings are alarmed. Now they know that Theodore Roosevelt and his administration are in dead earnest in their determination to check present abuses of the money power. It shows that the president has struck a blow at monopoly that has made the octopus squirm even in its almost inaccessible lair.

When these facts are appreciated by the people at large they can have but one effect and that is to strengthen his already strong position as a champion of their interests. In his faithful performance of duty, working for the best interests, not of the moneyed powers, but of all of the people, it is now plain that he has incurred strong enmities and ones that may possibly exert tremendous influences to bring to an untimely end his political career.

But the president has stood loyally and unflinchingly for the interests of the people and it is impossible to believe that when he needs the support of general public opinion he will find the people lacking in gratitude and appreciation. If he has made strong enemies he has made stronger friends and in spite of Wall street his political power is stronger today than ever before in his career.

### LAS CRUCES.

From the Progress.  
Las Cruces is a natural sanitarium for the suffering ones.

Plenty of foliage and flowers; gosh, but we are a pretty town.  
Ground has been broken for the new Presbyterian parsonage just east of the church.

The April term of the district court closed last Saturday, making it the shortest session in the history of the county.

Mr. and Mrs. Forrest McKinley went overland to Rincon last Sunday. On Friday they left for Santa Fe where they will remain for several months, perhaps permanently.

The valley is looking up. Not a day passes but that E. C. Wade, secretary of the Chamber of Commerce does not answer from four to ten inquiries concerning our advantages, and scarcely a day passes that some outsider is not here looking for a location.

Sunday evening Sheriff Lucero left for Santa Fe in charge of two prisoners who were sentenced to serve terms in the penitentiary. They were Jose Gomez, nineteen years old, to serve one year for larceny of a horse; Genaro Molina, twenty-five years old, to serve one year for larceny of a horse.

There will doubtless be a large number of our citizens emigrate to Santa Fe and Albuquerque on the fourth and fifth of May, on the occasion of President Roosevelt's visit to those cities. A one-fare rate has been made, and Dona Ana should send her full quota to assist in welcoming our nation's chief executive.

Col. John H. Riley, of Colorado Springs, was in town this week renewing old acquaintances and closing deals for cattle. W. W. Cox, St. Augustine, J. W. Mossman, Earlham, Clem Stover, Sam Andrews, Henry Summerford, Fort Selden, Jose Lucero, this city, and others agreed to deliver batches of cattle to Mr. Riley in this city, varying in number from one hundred to 250, on or before May 10.

### ALAMOGORDO.

From the News.  
Base ball fever has begun to affect the boys hereabouts.

Territorial Auditor Safford is due here soon to make a regular inspection of tax books and assessment records.

Fred Nymeyer, formerly of Alamogordo, aspired to the position of chief of police in El Paso on account of working for the Morehead ticket.

It is reported that Robert Lincoln, president of the Pullman car company, is one of the large investors in the Alamogordo sanitarium enterprise.

C. W. French, representing Wade & Guthrie, expert accountants, of New York, is in Alamogordo checking up some data from the several companies operating here, for use in the New York offices.

C. C. Hull, who was in the employ of the Santa Fe Pacific at Bellemont, Ariz., is now manager of the telegraph office at the local railway shops. Mrs. Hull and two children came in from Bellemont last night, and today they are looking up a residence here.

### EDITORIAL NOTES.

This city is preparing to give President Roosevelt a rousing western welcome.

The people of this city should not allow factional politics to injure business interests.

If men were as anxious to do right as they are to get their rights, things in general would soon be righted.

In a fight the other day the Mad Mullah of East Africa lost 2,000 men. That is enough to make any barbarian mad.

The Las Vegas Optic has also given its decision in the case of Boss Curran against the commissioners of this county.

A crank is a man who sees one fact so clearly that he is blind to all other facts which alone can explain the one he sees.

All who can should read President Roosevelt's speeches. They preach the gospel of true Americanism as it has never been preached before.

The Las Vegas Advertiser will be issued as a daily newspaper on and after May 1. There is room for a live morning paper in Las Vegas, and the Advertiser will deserve success.

The Declaration of Independence has been locked up in a glass case and will henceforth be kept from public view. Most of the text is still visible, but the signatures can not be read.

The district conference and Epworth league of the El Paso district New Mexico conference of the Methodist Episcopal church south will be held at Alamogordo, N. M., from May 6 to 10.

Uncle Sam's cage of live birds at the world's fair will be 300 feet long, 90 feet wide and 52 feet high. The collection of 2,000 birds from all parts of the world will completely distance all former shows of this kind.

Notwithstanding the fact that he has been having all kinds of bad luck, Sir Thomas Lipton cheerfully remarks that he will be at the post with his craft August 20. That's the kind of a sportsman Americans would like to see win.

Fifty thousand Americans have visited Cuba during the past six months. When the time comes for the Cubans to ask for annexation, the people of this country will be well informed concerning the details of Cuba's national resources.

Of the \$346,240,420 United States bonds held to secure national bank circulation, \$335,662,550 are the 2 per cent consols issued under the refunding act of March, 1900. Thus these bonds have almost entirely replaced others for bank note uses.

The suspended sentence law is now a fixed feature in the laws of Michigan, the legislature having passed the act empowering judges of courts to suspend sentence upon all first offenders, with the exception of those found guilty of murder or manslaughter.

Since the census was taken in June of the year 1900, 1,350,000 acres of New Mexico land has been filed upon for homestead and 1,074 miles of railway constructed within the territory, says the Las Cruces Republican. The territory is advancing steadily in all material interests.

To England the gates of the temple of Janus are always open. In 1902 the war with the Boers, which had lasted from 1899, ended. She has had several conflicts with savage or barbarous peoples since then. She has one now in Somaliand, over in East Africa. This one has broken out in a massacre of British troops.

The El Paso News has a statistical article showing that ninety-five gambling places in El Paso have 350 men on pay rolls who receive \$1,400 per day. Of course rents, monthly fines, and other expenses are heavy and the managers must receive much more than \$1,400, say \$3,000 per day, to make any profit on capital invested.

A long step toward arbitration of labor troubles was taken at Philadelphia recently, when all of the building trades unions and employers came to an agreement to settle all controversies in that way. It was agreed that strikes and lockouts are to be resorted to only in the event that the joint arbitration board cannot come to an agreement.

Mr. Carnegie has given \$600,000 toward the endowment of Tuskegee Institute, subject to the one condition that Booker T. Washington and family shall be properly provided for during his life and that of his wife. Mr. Carnegie desires that Mr. Washington shall be entirely free from pecuniary cares in order that he may devote himself wholly to his great work.

Those who remember James N. Tyner as he was long ago will sincerely regret the troubles that have come to him in his old age, and it will be hard for any of them to believe that he was cognizant of any of the disgraceful things that are charged against his department. He has been connected with the postoffice department for over a third of a century, filling many important positions, including that of postmaster general.

The newest navy of the United States consists of sixty warships. With the exception of the five battleships just authorized by congress, all are under construction. In less than four years all will be ready for service. Many of them will be ready within a few months. This newest navy means that a tonnage of 375,000 in round numbers, with a horse power of about 630,000, is being built. It means an expenditure of more than \$80,000,000.

General Miles says that the Filipinos are in a deplorable condition. Rome is 2,555 years old, and the people of the "Niobe of nations" are celebrating the anniversary in fine style. The story of a musician who has

tried to commit suicide forty times shows the strength of the encephalic habit.

The Postal Telegraph company has extended its line to Tombstone, Ariz., and opened an office in that growing town.

In far away Manchuria the European powers are rapidly coming together for what may be the opening move in the long predicted European war.

The last fool remedy for tuberculosis is stirring up Berlin, and consists of the fumes of the burning mixture of sulphur, charcoal and eucalyptus oil.

Russia denies that the czar is trying to carve a slice out of China. In the meantime that country is massing an immense army and fleet on the Chinese coast.

John D. Rockefeller is in good health and his physician says that he will live for thirty more years. He wants to be the first billionaire in the history of the world.

In one respect the Deming Headlight of last week was a remarkable paper. Its whole space was devoted to the evidence in a calf stealing case, which occupied two pages.

In the treasury of the United States there are more than a thousand tons of gold—enough to make a vast yellow cube over which a tall man could look without a stepladder. Its value is \$638,000,000.

Good roads pay. They are in line with truest economy. Their cost is considerable, but the money they save in wear and tear, improved facilities and time, is a big and perpetual income to the investment. Improved roads add to the opportunities for business, education and social enjoyment.

Official advice received at the navy department from the Philippines record the discovery of a number of valuable islands in the southern part of the archipelago, which are not on any of the charts in the possession of the government. They will be charted as the property of the United States.

The forests should be preserved to protect the water sources and the lumber supply of the future; the mining laws should be improved to give greater encouragement and protection for prospectors and mining operators and greater revenue to the reclamation fund; the grazing districts should be put under control in order that the remaining grasses may not be destroyed and that barren ranges may be restored. The present situation is a serious menace to the meat supply of the nation.

That program for the Roosevelt parade will need revision. As arranged it would take about half a day to make the tramp.

A writer in the Political Science Quarterly has been analyzing the growing burden of national expenditures, and finds out that the per capita cost of running the government in 1890 was \$4.75; in 1900 it had increased to \$6.39, and in 1902 it was \$5.96. The main cause of the increase is the Spanish war, which has largely increased our expenditures for military and naval purposes.

The lands owned by the Harmony Society of Celibates, at Economy, Pa., have just been sold to a Pittsburgh syndicate for \$2,500,000. Only half a dozen members of the original colony survive, and the proceeds of the sale are to be divided among them, as it is presumed that there can be no heirs in direct descent of the dead members, all of whom were bound to vows of celibacy when they entered the community.

Word comes from Golden, near Cerrillos, that the public school there has been closed for the season, and that the popular young teacher, Miss Elizabeth R. Cross, has returned to her home at Santa Fe. The young lady is the accomplished daughter of Mr. and Mrs. George H. Cross, and she held a very successful term of school at Golden.

### SPRINGER.

From the Stockman.  
The handsome \$35,000 residence of Chas. Springer just north of Cimarron, is almost completed the finishing touches being placed now. This palatial structure, the handsomest and most costly private residence in New Mexico, is being elaborately furnished and lately received several thousand dollars worth of new furniture. Mr. Springer expects soon to occupy it.

Frank Roy, of Roy, and one of the best citizens of all Mora county, spent a day in the city, returning the next day to his home. He, with his brothers own the townsite of Roy and are disposing of some of the lots already. There are about fifty people living there and Mr. Roy expresses great hope of it making quite a thriving little town in the not far distant future.

J. M. Jacobs and family, who for a number of years have so successfully conducted the Springer Hotel in this city, will sometime about the first of May leave for Tucson, Arizona, where they will make their home. Mr. Jacobs will conduct a curio store at Tucson, a business he considers more profitable than running a hotel. We desire his excellent family all manner of success and regret very much to lose them.

The Colorado Telephone company are putting up the poles for their new line through here and soon we will be in telephonic communication with all points in Colorado and Wagon Mound, Watrous and Las Vegas to the south. Later on we understand, the company proposes to extend its lines from here to Cimarron, Elizabethtown and Toas, and will be a great convenience to these places as well as others along the railroad.

### LAS VEGAS.

From the Optic.

Victoriano Caslos, a child of two years, succumbed to fever on the west side. Louise Gallegos was a victim of diphtheria.

The west side business men have already subscribed \$600 to the fund for building the mill for Standish & Matt. This is half the required amount.

Mrs. Cleofas Romero this morning received a letter from Mrs. L. W. Flynn, which conveyed the sad news of the death of the writer's husband at Davenport, Iowa. Mr. Flynn and his wife spent fifteen months in the city on account of the former's health.

Miss Hattie Morris, a sister of Mrs. C. V. Hedgecock, of this city, was recently married in Denver, Colo. Miss Morris will be remembered in this city as having been in the employ of the Gross, Blackwell & Co house several years ago.

District Clerk Sec. Romero is in from El Cuervo. He speaks of excellent conditions out there. No ranchman will get less than 85 per cent increase on lambs. Many will get more. The grass is thriving, there is plenty of water, the sheep are fat and the range is in prime condition.

The board of trade has received a communication from Roswell which says that United States Hydrographic Engineer Davis, who was expected in Las Vegas the first of the month to survey a reservoir on the Gallinas, was prevented from making connection with the Santa Rosa stage by a heavy wind storm. He was called to Arizona on urgent business immediately afterwards, but the writer says that either Engineer Davis or Engineer Reed will be in Las Vegas within thirty days to look over the grounds.

Grace Lewla dropped a package of diamonds, valued at \$1,000 on the west side. She told her troubles to the police, and a constable who heard the story this morning said he believed he could locate the package, as he had heard of something having been found. Whereupon Grace expressed her willingness to give him \$50 if he proved successful. The constable, following up his information, learned that Jose Golludre had picked up the precious package and had made no secret of the fact. The fair Grace got her diamonds back, but declined to part with more than \$30 in the way of reward to both men.

### From the Record.

The work of cleaning up the city is progressing nicely and the Woman's Federation is very enthusiastic over the results so far achieved. However, they feel that there is yet a great deal to do, so they urge the people to take the work in hand and see to it that all vacant lots, yards and alleys are thoroughly cleaned, and the refuse piled in a convenient spot for loading.

The handsome crazy quilt which was raffled at the ball given by Willow Grove, No. 5, Woodmen's Circle, Tuesday night, the winning number being owned by two different parties, was finally won by C. H. Morris. The ladies compromised the matter by appointing two ladies to draw lots, Mrs. Ellsworth drawing for Mr. Morris and Mrs. Martin for Mrs. Baasch, which resulted in Mrs. Ellsworth winning the quilt for Mr. Morris. He is now in search of some one to share its beautiful folds with him.

A base ball club has been organized on the west side, under the name of the Meadow City, with the following membership: Frank Guerin, captain; Harry and Louis Shupp, Feliciano Maros, Henry Sena, Ramon Sanchez, J. M. Larrazolo, Cristobal Betran, Frank C. Gonzales, Miguel Gallandere, Eloy Baca and William H. Booth. This same team was in existence last year and won all the games in which it participated.

Mary and Ruth Wright, aged 13 and 11 respectively, daughters of Mr. and Mrs. Paul Wright, who are staying at the Montezuma, were the victims of a painful accident as the result of a childish frolic. They had been visiting their little friend, Ruby Moore, at La Pension, and while waiting for a car to return home the children ran across the street to the rear of the Center Block pharmacy. Mary dashed through an open door, slamming it shut, and Ruth, unable to stop, crashed through the heavy glass. Both received painful, though not serious injuries, which were attended by Dr. Hinton, of the Montezuma.

### SANTA FE.

From the New Mexican.  
Mrs. J. D. Sena left via Tres Piedras for Toas where she will visit relatives until the close of the April term of the Second judicial district court for Rio Arriba county. Mr. Sena being away from home as an official of the court.

C. V. Stafford, traveling auditor of the territory, is on an official visit to the northwestern counties of New Mexico. He will endeavor to return to Santa Fe in time to be present here during the visit of President Roosevelt to this city on May 5 next.

Word received from Ireneo L. Chavez, clerk of the court of private land claims, who went to Denver two weeks ago to receive treatment for an affliction of the ear, indicates he will remain in that city two weeks longer on the advice of his physician.

Dr. Spurney and wife, of Cleveland, Ohio, left for their home on Thursday, after spending a month in this city. Dr. Spurney spent a few weeks in Santa Fe in the spring of 1902, and was so much benefited in health by the climate that he returned again this year, and states that it is his intention to do so every spring.

Mr. and Mrs. E. A. Fiske pleasantly entertained a few friends the other evening. The evening's diversion con-

For Drunkenness, Opium, Morphine and Other Drug Using, THE KEELY CURE INSTITUTE, Dwight, Ill.

Consisted of a series of selections on Mr. and Mrs. Fiske's graphophone. Those present were Messrs. and Mesdames W. S. Hopewell, John R. McFie, Geo. W. Knebel, N. B. Laughlin, A. M. Berger, Mrs. Amado Chavez, Miss Nina Otero and George A. Fleming.

Mrs. L. Bradford Prince, arrived from the Prince ranch in Rio Arriba county, where she has been for the past few days. Governor Prince, who has been in the east for the last month, will stop on his way home from New York City at St. Louis, where he will attend the dedication of the Louisiana Purchase exposition site. Governor Prince is one of the commissioners who went to Washington and aided to secure the appropriation for the exposition. The site will be dedicated April 30.

### TERRITORY IS LUCKY.

Will Get Plenty of Roads Without Incurring Bonds.

Indian Territory will not be burdened with railroad aid bonds when it becomes a state, says a telegram from Muskogee.

It will have the railroads and will owe nothing for having secured them. It doesn't take any bonds to get a railroad in this country. If it did, there would be no railroads, for there is no provision of law under which said bonds can be issued.

On the other hand, there is a law against it. But the railroads are coming in here just the same. In no state in the union is there such a rapid development of railroads at present as is going on in this country. All of the western roads have their eyes on the Indian country and many of them are getting in here with as many lines as possible.

At the present time Indian Territory has 2,841 miles of railroad built and in process of construction. Of this, about 2,600 miles are now in operation. Fully 2,000 miles of new line are now projected, which are reasonably certain to be built. In this calculation all "paper" railroads are eliminated.

In the make-up of the territorial reception committee of the Roosevelt reception, for Santa Fe, Maj. W. H. H. Llewellyn, chairman, inadvertently overlooked San Marcial. The New Mexican now mentions the following additional names to the list: San Marcial—H. H. Howard, Lee Leonsstein, Harry Bonem, Dr. C. G. Cruickshank, J. W. McCoach, Armstrong brothers, Superintendent McNally, Dr. W. Hitchcock, S. G. Hanna, J. B. Nichols, A. Lehey, W. G. Lane.

Notice of Suit.  
Territory of New Mexico, County of Bernalillo, in the District Court.

Minnie Moore Bachelier, plaintiff, vs. Roscoe M. Bachelier, defendant.—No. 6327.

Notice of Suit by Publication.  
Notice is hereby given to the defendant, Roscoe M. Bachelier, that the above entitled action is pending in the above mentioned court.

## A TIME OF DANGER!

Thousands in Peril From Blood Diseases and Nerve Troubles Developed During the Winter Months.

## Paine's Celery Compound

THE GREAT SPRING BLOOD PURIFIER, NERVE BRACER, AND HEALTH BUILDER.

Paine's Celery Compound is the wonder of the age! Its marvelous virtues are discussed amongst interested medical men, and its cures are talked of at every bedside.

As a spring health giver, Paine's Celery Compound stands far ahead of all other known remedies; it has no worthy competitor in the vast field of medicine.

To a large extent, the present popularity of Paine's Celery Compound is due to the fact that it has accomplished some of its most astonishing cures in the spring season—a time when men and women usually complain of ill health, loss of vitality, tired feelings—a time when people feel dull, listless, despondent, and ambitious.

Today, there are thousands of business men, mechanics, farmers, and dear wives and mothers, too, who, though able to walk around, are nevertheless, sadly "out of health."

At this season, Paine's Celery Compound is the great health restorer and strength giver for the "out of health" people—for those who are perilously nearing some organic disease. Paine's Celery Compound used at once, will quickly remove every trace of poison from the blood, brace up the weak nerves, build up the tissues, and tone the digestive organs.

If you, dear reader, feel that your health is not as robust and vigorous as it should be, let us honestly suggest the use of Paine's Celery Compound that has so wonderfully blessed your neighbors and friends. Be assured, "it makes sick people well."

### NEW COUNTY OFFICERS.

Governor Otero Names the Officers for Leonard Wood County.

Governor Otero has appointed the following officers of Leonard Wood county:

County commissioners—First district, Benigno Padilla; second district, J. C. Thomas; third district, Reynaldo Harrison.

Sheriff—Leandro Sasaas. Clerk—Manuel B. Baca. Assessor—Juan B. Giddings. Treasurer—Leopoldo Sanchez. Probate Judge—Florence Garcia. Superintendent of schools—Fred L. Braun.

The above named appointed for Leonard Wood county were elected on the democratic ticket on November 4, 1902, as officials of Guadalupe county, with the exception of Fred L. Braun, appointed county superintendent of schools, whose appointment was made to fill the vacancy caused by the fact that Minor Rudolph, elected superintendent of school of Guadalupe county at the November, 1902, election, was found to reside in the new county of Quay. Mr. Rudolph was appointed county superintendent of schools of that county at the time the officers there were filled by appointment by Governor Otero.

The governor took the action above detailed as he wished to name officials who had support of the people and as the above named, with the exception of Braun, were elected to the same offices in the old county of Guadalupe, out of which the new county of Leonard Wood was created, he acted in accordance with the desires of the people and upon the principle that it was just and proper that the officers of Leonard Wood county should be held until January 1, 1905, by the men who were entitled to them by election in the old county.

The fact that all these officials are democrats in politics, the governor thought should not militate in the premises. Many petitions from the people of Leonard Wood county for the reappointment of these men have been received at the executive office and the governor wished to and gave them full and due consideration, as his action proves.

### Incorporation.

Articles of Incorporation have been filed at the office of the territorial secretary by the Times Publishing company of Tucuman. The incorporators are: E. G. Cooper, J. A. Street, W. T. Buchanan, Harry R. Neal, A. B. Simpson, Donald Stewart and Theodore W. Heman. They also compose the first board of directors who have the business of the company in charge for the first three months of its existence. The company is authorized to own and conduct a newspaper and job printing establishment, to buy and sell real estate, to build houses, own and hold real estate, to issue a paper at least once a week and to a general printing business, to buy books, stationery and other materials necessary to conduct such business. The company is capitalized at \$2,500 to be divided into twenty-five shares of the par value of \$100 each. Its officers are to be a president, vice president, secretary and treasurer and the term of existence is to be fifty years.

### Notaries Public.

Governor Otero appointed the following notaries public: Antonio Joseph, Ojo Caliente, Taos county; James Bennett, Weed, Otero county; Henry

D. Meyers, Chamita, Rio Arriba county; Edward J. McWenle, Charles H. Sporleder, Las Vegas, San Miguel county.

### MICHAEL A. CLANCY.

Died in Washington at Advanced Age of 74 Years.

Michael A. Clancy died yesterday at his home, 1426 Carroll street northwest, after an illness of five days. He was seventy-four years old at the time of his death, having been born April 20, 1829.

Mr. Clancy for over a quarter of a century served as one of the assistant clerks in the supreme court of the district. He was married on Wednesday last to Miss Enrah Anderson. He was at the city hall the next day and complained of feeling badly. He, however, did not leave his desk. For his lunch that day he ate strawberry shortcake, which caused the illness which resulted in his death.

Mr. Clancy was married twice. His first wife was Miss Wiley, of New Hampshire. As the result of this union he leaves two sons, both of whom are lawyers, practicing their profession in New Mexico. They have been informed of the death of their father and no arrangements for the funeral will be perfected until an answer is received from them.—Washington Times, April 21.

### WANTS FORTY ACRES.

Santa Fe Asks a Bonus From Shawnee, O. T.

A concerted effort will be made by the citizens of Shawnee, Oklahoma, to induce the Santa Fe to locate round house and repair shops there. The company has asked that the town give a bonus of forty acres of ground south of the river. This land is valued at \$2,000 and it can be raised with very little trouble by popular subscription. The company will construct a sixteen stall round house, three stalls larger than the Choctaw, and such repair shops as may be needed to carry on the business between Shawnee and the nearest general shops. The location of the round houses and repair shops means employment for a greater number of laborers and a materially increased pay roll for Shawnee. Besides, it is understood that should this proposition materialize for Shawnee, the general passenger and freight division would also be established at Shawnee.

### RAILROAD NOTES.

The San Marcial Bee says: Tuesday, J. W. McCoach received a \$40 diamond ring from a jewelry firm in Chicago, ordered on the installment plan by a railroad man who recently chased himself to parts unknown without going through the form of a settlement with a few business men. The ring was intended as a present to his best girl. This is a situation with a moral. Almost any combination of words will fit it, if properly emphasized.

Engineer Lon Neal, of San Marcial, hastened to Topeka, Kansas, a few days since in response to a telegram that his son, Willie, aged 11 years who has been attending school and living with his grandmother there, was seriously ill.

Arthur W. Lindley, a well known engineer and Miss Merizza B. Walden, were united in marriage at Las Vegas last Friday night, the ceremony being performed by Rev. Ward, the pastor of the First Baptist church of that city.

One fare for round trip to all who desire to see President Roosevelt. The nation's chief magistrate will be here on the afternoon of May 5.

### BEGIN WORK JUNE 1.

Orient Will Start Construction of Line to Tampico, Mexico.

A message from Austin, Texas, says: It was stated by members of the engineering party who are locating the route for the proposed branch line of the Kansas City, Mexico & Orient railroad from San Angelo, Texas, to the port of Tampico, Mexico, that the work of constructing this part of the system will commence about June 1.

The distance between San Angelo and Tampico is about 800 miles. The proposed route is by way of Laredo, Texas, and down the valley of the Rio Grande for a distance of 225 miles to Brownville, at which point the river will be crossed into Mexico, and the route be thence down the gulf coast to Tampico.

### UP GO THE PROFITS.

Railroads Gain Money by the Increase in Freight Rates.

The official reports show that the gross earnings of all the important railroads in the United States in the first week of this month have been over 15 per cent greater than last year and 25 per cent more than those of two years ago. Business during the past year has been enormous. It is true, but some railroad men attribute a very large per centage of the increase to the advance in the freight rates generally. Rebates are no longer being paid to the big shippers and many of the roads are better off in the number of cars, but this latter item does not come in for much consideration, as there are roads which are not as well off as a year ago.

### MUDGE NOMINATED.

May Be an Officer of the American Railway Association.

The American Railway association's semi-annual meeting is being held in New York City at the Waldorf-Astoria. This is an important gathering of the operating officials of the country, and various reports prepared by committees since the last session on the per diem system and its operation, train rules, standard dimensions for box

## Beautiful Thoughts

The sweet, pure breath of the babe is suggestive of innocence and health. A mother's yearning for children is inseparable from a love of the beautiful, and it behooves every woman to bring the sweetest and best influence to bear on the subject of her maternity.

To relieve pain and make easy that period when life is born again.

## Mother's Friend

is popularly used. It is a liniment easily administered and for external use only. Pregnant women should try this remedy, it being undeniably a friend to her during nature's term of suspense and anticipation. Mother's Friend, if used throughout gestation, will soften the breasts, thereby preventing cracked and sore nipples. All muscles straining with the burden will relax, become supple and elastic from its continued application.

All fibres in the abdominal region will respond readily to the expanding cover containing the embryo if Mother's Friend is applied externally during pregnancy. Of all reliable druggists \$1.00 per bottle. Write for free book on "Motherhood." THE BRADFIELD REGULATOR CO., ATLANTA, GA.

cars, safety appliances and a cipher telegraph code, are to be presented and will provoke much discussion.

The report of the committee on nominations has always been kept under cover, but this year it has become public in advance of the meeting, the nominees being as follows:

For president—A. W. Sullivan, assistant second vice president Illinois Central; Joseph Ramsay, Jr., president Wabash; Theodore Voorhees, first vice president Reading.

For first vice president—George W. Stevens, president Chesapeake & Ohio; W. C. Brown, third vice president New York Central; H. I. Miller, general manager Terre Haute & Indianapolis.

For second vice president—C. G. Waldo, general manager Cincinnati, Hamilton & Dayton; Howard Elliott, second vice president Burlington; Geo. F. Evans, vice president and general manager Maine Central.

Members of executive committee—Theodore N. Ely, chief of motive power Pennsylvania; Theodore D. Kline, general superintendent Central of Georgia; C. D. Hammond, superintendent Delaware & Hudson; H. U. Mudge, general manager of Santa Fe; W. F. Potter, general superintendent Illinois Central.

For members committee on train rule—Canadian Pacific, Central Vermont, St. Paul, Frisco, Hocking Valley, Louisville & Nashville, Michigan Central, Pennsylvania & St. Louis Southwestern.

### TO SAVE CHILD'S LIFE.

Santa Fe Gave the Use of an Engine to a Surgeon.

Last Saturday a little child was lying wounded, dying, and the services of an experienced surgeon were needed at once to dress the wound, and, if possible, save the little one's life. Dr. Preist, of Concordia, was sent for, but the Santa Fe freight by which he would come was already an hour late. A special train was an impossibility. There seemed nothing to do but wait, when each moment seemed freighted with a life. How glad was everybody, how great the relief, when a Santa Fe engine with only the caboose attached came hurrying in, before any trains were due, with the surgeon aboard. How did it happen? Simple enough. The railroad authorities were informed, and the chief dispatcher at Newton ordered the freight engine to take the caboose and get Dr. Preist to Courtland in the shortest possible time. And this was done by a "souless corporation," not for money, for they got none; not for possible political influence, but just to help in trying to save the life of the child of a humble Republic county farmer. Oh, it is a mistake to call the railroads of Kansas soulless; they have a great soul, quick to hear and heed the cry of distress and suffering. The same railroads that in bygone years brought relief to the sufferers by drought and grasshoppers today have a sympathy that reaches out to even a little child.—Courtland, Kansas, Register.

A native named Sandoval was injured at the Alamogordo shops. He was crushed about the thighs, being caught between engine wheels.

George Simms, who is an employee of the local Santa Fe offices, returned last night from Topeka, where he went a week ago on the sad mission of accompanying the remains of his wife, who passed away here. Interment was made at Topeka, the former home of the deceased. Mr. Simms' child remained in Topeka with friends.

The San Bernardino Sun says: Engine No. 356, one of the two machines which are to haul President Roosevelt's special train over the southern California division of the Santa Fe, went into the back shop yesterday for a complete overhauling, preparatory to the "time of its life." The doctoring will include a new set of flues and a new coat of paint. No. 481, the other locomotive to be used, will receive its overhauling a little later in the month.

### CONVENTION SEASON BEGINS.

Many Meetings for Railroad Men Are at Hand.

The Transcontinental Passenger association is meeting at the Hotel Portland, at Portland, Oregon. Chairman James C. Charlton called the meeting to order and without delay the association set to work. The length of the docket and the importance of many of the subjects under consideration indicate that the general passenger agents will spend the remainder of the week in session. The general passenger agents of more than a dozen roads are in attendance and in all fifty lines are represented.

Railway and steamboat clerks from various cities in the United States met in Chicago recently and organized the International Association of Railway Clerks. Officers were elected as follows: President, Daniel W. Richmond, Chicago; secretary, A. W. Anderson, Blue Island; treasurer, E. H. Richter, Chicago; vice presidents, T. W. Driscoll, Joliet, Ill.; R. R. Clark, Racine, Wis., and J. L. Clifford, South Chicago, D. W. Richmond was elected delegate to the American federation meeting at Boston.

Among the other railroad conventions the following are scheduled for the next few months:

April 28—The Air Brake association, at Colorado Springs, Colo.

May 13—Association of Railway Telegraph Superintendents at New Orleans, La.

May 14—Eastern Association of Car Service Officers, at 24 Park Place, New York.

May 27—Association American Railway Accounting Officers, at Hot Springs, Va.

June 9—American Association of Local Freight Agents' associations, at Savannah, Ga.

June 16—Train Dispatchers' Association of America, at Nashville, Tennessee.

June 17—American Association of General Baggage Agents, at Royal Muskoka hotel, Lake Rosseau, Ontario.

June 17—Freight Claim association, at Detroit, Mich.

June 17—International Association of Car Accountants and Car Service Officers, at Quebec, Canada.

June 17—American Railway Master Mechanics' association, at Mackinac Island, Mich.

June 22—Master Car Builders' association, at Mackinac Island, Mich.

June 24—American Society Mechanical Engineers, at Saratoga Springs, N. Y.

July 14—National convention of railroad commissioners, at Portland, Me.

July 21—National Association of Railway Agents, national division, at Eureka Springs, Ark.

August 18—National Railroad Master Blacksmiths' association, at Buffalo, N. Y.

September—American Association of Traveling Passenger Agents, at New Orleans, La.

September 3—American Street Railway association, at Saratoga Springs, N. Y.

September 8—Master Car and Locomotive Painters' association, at Chicago.

October 13—Roadmasters' and Maintenance of Ways association, at Kansas City, Mo.

### FELL FROM CAR.

Santa Fe Engineer Meets With Serious Accident at Trinidad.

A special dispatch from Trinidad, dated April 26, says:

This afternoon, A. B. Apzar, an old-time and popular engineer on the Santa Fe road, met with a terrible accident in the freight yards. Mr. Apzar was standing in the yards talking with some friends, while the fireman was switching the engine. When the engine passed Mr. Apzar on the switch track he left his friends and attempted to board the engine. The wind was blowing a gale and blew the curtain of the cab window in the engineer's face. The blow from the curtain was so unexpected that the engineer lost his hold and fell from the step, his right foot going across the rail. One pair of trucks passed over this foot as it lay on the rail and crushed it so badly that it must be amputated above the ankle. The unfortunate man was taken immediately to the hospital at La Junta on a special train, accompanied by the Santa Fe physician. The operation will be performed tomorrow. While the shock was a severe one, it is not thought it will prove fatal.

American Lumber Company Engines.

Two light engines, Nos. 2 and 4, labeled Zuni Mountain, are standing quietly on a siding near L. B. Putney's wholesale house awaiting to be steamed. They are the property of the American Lumber company and will pull logging trains over their road in the timber lands of the Zuni mountains. The little road will be known as the Zuni Mountain railway. Officers of the company recently from Thoreau, the junction of the new road and the Santa Fe, state that forty cars of steel rails are on the siding at Thoreau and that the new road will be in operation before many months.

### GOOD ADVERTISING.

Novel Way That the Road is Booming California Seaside Resorts.

Albuquerque will on June 6 be treated to a demonstration, that is big and prosperous a corporation as the Atchison, Topeka & Santa Fe Railway company, believes in advertising. On the afternoon of that day a California train of two special cars will be in this city

Weiss will give a stereopticon lecture in charge of A. A. Weiss, city agent of the Santa Fe at Cincinnati, Ohio. Mr. Weiss will give a stereopticon lecture in charge of A. A. Weiss, city agent of the Santa Fe at Cincinnati, Ohio. Mr. Weiss will give a stereopticon lecture in charge of A. A. Weiss, city agent of the Santa Fe at Cincinnati, Ohio.

at the Alvarado, in which he will show superb views of San Diego, Coronado and other places in California. He will be accompanied by the Coronado Tent City Brass band of twenty pieces that will give a concert, before, during and after the lecture. This unique exhibit and concert will be given at a number of points along the Santa Fe lines and will undoubtedly attract considerable attention. Local Agent Myers and his efficient ticket agents are making arrangements to have the exhibit here a success in every particular.

From the Bee.

Mrs. C. G. Cruickshank left for a visit to her aged parents in Michigan.

Leo Loewenstein has sold his neat little dwelling in the lower part of town to Engineer W. D. Mossman.

J. A. Beal, who does the road act for Hughes & McCright's up-to-date Journal, the Albuquerque Daily Citizen, was here and received a kind reception from the reading public.

Thursday the contract for the new opera house was awarded to W. G. Lane, with the understanding that the building be ready for use by September 1.

Mrs. L. J. R. Nilson returned from Polomas accompanied by Mr. and Mrs. Cook of Magdalena. All have been greatly benefited by the free use of nature's best remedy for rheumatic ailments—the waters of Polomas Hot Springs.

Leon T. Wilson, the gentlemanly and able Santa Fe correspondent of the Las Vegas Optic during the recent legislative session, has become a member of the local news staff of the Albuquerque Citizen. Mr. Wilson's catchy and graceful style of writing is almost sure to lend attractiveness to the city news pages of the Citizen.

A pelt having about a four months' crop of wool was purchased by A. Schey this week, which weighed thirteen pounds. It was from the back of one of a flock of 24,000 sheep recently purchased by Sol Luna in Texas and driven through San Marcial to his ranches in western Socorro county for lambing. It was one of the few that died from the effects of having become stuck in the river bed. The wool was about an inch and a half in length only. This demonstrates that this purchase of high grade Merinos by Mr. Luna is just what is needed to bring his vast flocks up to a high standard in the breeding line. Mr. A. B. Baca weighed the pelt and vouches for the accuracy of the weight given.

From the New Mexican.

Dr. Charles A. Wheaton, the osteopath, who for the past year or more has enjoyed a splendid practice at Colorado Springs, Colo., has permanently located in the city.

Morgan O. Llewellyn, surveyor general, and N. L. King, chief draughtsman in the surveyor general's office, left for the Pecos forest reserve recently where they will spend a few days hunting.

Letters received from the Philippines by Santa Fe people have it that Judge W. H. Pope has resigned as judge of the court of the first instance, and will return to Santa Fe as the climate of the Philippines is too severe on his health, which has never been very robust.

Jacob Weltmer returned from a two weeks' sojourn at Ojo Caliente, where he took the baths at Antonio Joseph's hot springs. He feels much improved in health. Mr. Weltmer states that C. W. Dudrow, who is confined to his bed at that place with rheumatism, is suffering much pain, and is not improving very rapidly.

Mr. and Mrs. Chet Johnson, of Rockford, Minn., arrived in the city from California, where they have spent the

winter. Mr. Johnson and Prof. Clinton J. Randall, superintendent of the United States Indian industrial school at this place, are acquaintances, but their meeting was the first in many years.

Mrs. P. S. Phency will leave for Durango, Colorado, Mr. Phency, who is a conductor on the Denver & Rio Grande railroad, and formerly run out of this place, is now running out of Durango, and the family will live there. The property made vacant by them is owned by W. H. Kerr, and will be occupied by Mr. and Mrs. Kerr.

### SOCORRO.

From the Chieftain.

F. G. Bartlett has been away from home this week attending to his interests in Magdalena and vicinity.

Prof. P. A. Marcellino has just returned to Socorro from teaching a successful term of school at Monticello.

Attorney James G. Fitch is still confined in doors with an affection of the eyes. His condition continues without much change.

Attorney Kiehne came home from the Kiehne ranch to have a badly injured foot attended. He gashed the foot with an axe while chopping wood.

Mr. and Mrs. Jesus Maria Torres, of Durango, Mexico, will arrive in Socorro to visit their brother, County Superintendent A. C. Torres, and other relatives and friends.

A. Kiehne came in from his ranch on the Gila the first of the week to visit his family. He said that the snow fall on the ranges last winter was the heaviest for years. He looks for a prosperous summer for stockmen.

The cheering news comes to Socorro that Mrs. John E. Griffith, who recently underwent a severe surgical operation in El Paso, is doing exceedingly well. Mr. Griffith and daughter, Lena, and Dr. Swisher, will go down to El Paso to visit Mrs. Griffith.

Ross and Mert McMillan and Jim Berry started on horseback for the Bureau & McMillan sheep ranch east of San Antonio. There was a promise, express or implied, that they would regale their friends with bear meat on their return.

Max B. Fitch, of Magdalena, has purchased the former residence of Mrs. Lulu B. O'Brien in the south part of the city, and he and family will become residents of the city next week. The property is a very desirable one. In fact, it is one of the pleasantest and most comfortable homes in the city. Needless to say, Socorro is greatly to be congratulated on the addition of Mr. Fitch and family to the number of its residents.

### A BIG ENTERPRISE.

A Citizen representative journeyed up to the Rio Grande Woolen Mills company's plant yesterday afternoon, and had a pleasant chat with J. C. Fenger, vice president and superintendent of the company, and also took a look around the establishment.

The company is now making some extra good looking cassimeres, blankets and dress goods. They are also doing a tanning business and deal in pelts and make leather clothing. Angora and sheep skin rugs and moccasins. Sixty hands are now employed in and about the plant and the number will be raised to a hundred hands in a very short time.

If everything goes right the company will threefold their present plant in the next eighteen months, thus making it a mammoth establishment.

The Citizen representative found Superintendent Fenger busy with his various duties. He, however, found time to show the scribe around and tell him many interesting facts about the business, of which he is a thorough master.

Very few people in this section of the southwest have any idea of the process that is gone through with before the cloth is finished. The first thing done is the soaking of the pelts in vats outside of the building, which softens them up. They are then taken into the building and the composition is applied which loosens the wool, after which it is taken from the pelts and put into the scouring machine where it is thoroughly secured and made ready for the drier. This wool is then dried in eight minutes.

The wool drier is a machine ninety feet long and five feet wide. The interior is heated with coils of steam pipes and air circulation is kept up by four large Sturtevant exhaust fans. There is also on this drier a wire web or net in the shape of an apron, which is made endless. This web carries the wool from one end of the machine to the other and requires eight minutes in transit. The machine has a capacity of 10,000 pounds in ten hours. After the wool leaves the drier it is put in bags for shipping and for home consumption.

The wool to be colored is taken from the stock room and dyed and again dyed, after which it is taken to the picker house and put through the burr picker, which removes all burrs and shives and foreign matter from the wool. The wool after passing through this process is taken to the mixing or blending picker, where it is oiled and picked and made ready for carding.

From the picker house it is taken to the second floor, where they have two sets of sixty-inch cards of the latest pattern and all modern improvements. Here the wool is first put into attachments to the card, which is called a self-feed, and which feeds and weighs the wool automatically, thereby securing perfect yarn. From the feeder it passes to the first breaker, which is the first process of carding. It is taken off of the first breaker on small breakers and from these taken

## Kodol Dyspepsia Cure

Digests what you eat

This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. Is unequalled for the stomach. Children with weak stomachs thrive on it. First dose relieves. A diet unnecessary.

Cures all stomach troubles

Prepared only by E. C. DeWitt & Co., Chicago. The 41 bottle contains 50 times the 50c size.

J. H. O'Reilly & Co. and B. H. Briggs & Co.

to card spoolers, where it is spooled into large spools of seventy-two ends each. From here the stock is taken to the second breaker, where it is put through the same process as it is in the first breaker, which serves to blend and card out the stock and lay the fibers parallel with one another.

From the second breaker the wool is again wound on small spools and re-spooled upon large spools. The material is then taken to the finisher card where it is made in the form of roping for the spinning machine, or mules, as they are called in textile mills. After being taken to the mules the roping is spun into yarn of the required size and weight. The yarn then passes to the spoolers, where it is put upon large spools for the warping. After the yarn is taken to the warper on these spools it is dressed into patterns and made into large warps upon a large circular reel. From here it is beamed off into large beams for the weaving, after beaming, the warps have to be drawn into harnesses, which are the parts of the loom through which the threads pass while weaving.

After the cloth is woven it is taken to the burler girls, who mend all imperfections in the cloth. From here the cloth is taken to the lower floor, where it is fulled in length and breadth. The goods coming from the looms eighty inches wide, are shrunk to fifty-four inches in width. After being shrunk the required width, the cloth is put in the cloth washer, where it is washed perfectly clean, and from here put into the extractor, which is a small machine which runs centrifugally, and thereby the water is wrung from the cloth. The machine attains a speed of 1,500 revolutions per minute. From here the cloth is again removed to the second floor, where it is dried upon a large circular cloth drier.

After being dried the cloth is again taken to the burlers, who remove all knots or flocks from the back of the cloth, so that in passing over the shear there will be no holes cut in the cloth. After the second process of burling the cloth is then sheared and pressed. This pressing machine being a heavy iron cylinder, a long round body or roller, which is hollow and heated by steam. The cloth passing under this cylinder and over a heavy copper plate which gives it the luster and pressing. The cloth is then taken to the cloth perch and inspected. From here it is taken to the winding machine, which winds, folds and measures the cloth and makes it ready for market.

## BOARD OF EQUALIZATION.

They are Greatly Enlarged by New Act of Legislative Assembly.

BENEFICIAL TO THE PEOPLE.

Council bill No. 127, an act providing for the equalization of taxes among the counties of the territory of New Mexico.

Be it enacted by the legislative assembly of the territory of New Mexico:

Section 1. The territorial board of equalization, at its annual meeting on the first day of January, A. D. 1904, and once every year thereafter, shall ascertain and determine the value of the property, both real and personal subject to taxation in every county of the territory of New Mexico. In ascertaining and determining the value of such property said territorial board of equalization may have recourse to and may use the assessment rolls of said counties, returned for the year preceding the holding of their meeting, together with any other facts and information showing the true value of the real and personal property of said counties.

Sec. 2. The president of said territorial board of equalization may appoint members of said board to visit any of the counties in this territory, whose duty it shall be, when appointed, to visit the county or counties assigned to him by the president of said territorial board of equalization, and within four weeks of his appointment and assignment make a report to said board of equalization at its office in Santa Fe, New Mexico, showing the value of property, both real and personal, in the county or counties assigned to him, as the same has been determined and as ascertained by him. Provided that no member of said board shall be appointed to visit or be assigned the county in which he has his residence.

Sec. 3. The reports of the said members of said board of equalization, when returned to and filed with the territorial board of equalization, and the facts therein contained may be used for the purpose of finally ascertaining and determining the value of the property subject to taxation within the said counties of the territory of New Mexico.

Sec. 4. The territorial board of equalization may also, by an order, direct the traveling auditor and bank examiner to visit any county within the territory of New Mexico, whose duty it shall be so when directed, to visit any given county in the territory, to make thorough and exhaustive examination and investigation of said county with a view to and for the purpose of ascertaining and determining the value of the property, both real and personal, subject to taxation in such county, and shall report the result of such examination and investigation to the territorial board of equalization, and file the same in the office of said territorial board of equalization, and the facts therein contained may be used for the purpose of finally ascertaining and determining the value of the property, subject to taxation, within such county.

Sec. 5. The said territorial board of equalization, from the data hereinbefore provided for shall finally determine and fix the value of all property both real and personal in every county in the territory of New Mexico and shall prepare an abstract, alphabetically arranged by counties, showing the taxable value of every county in the territory, and certify the same to the territorial auditor, whose duty it shall be to file the same in his office.

Sec. 6. The territorial treasurer and the territorial auditor, shall between the first and third Mondays of February of each year, commencing with the year 1904, determine the amount of revenue directed to be raised by the legislative assembly for territorial purposes for the ensuing fiscal year, and whenever the said legislature has not directed a specific sum or amount to be raised for a designated purpose, or for the maintenance of a designated territorial institution, then it shall be the duty of said territorial treasurer and territorial auditor to ascertain and determine the product of said levy, taking and assuming for such purpose, that one mill on the dollar levied upon the taxable property of the territory will produce twenty-eight thousand dollars (\$28,000.00). And when said amount of revenue, so directed to be raised, as herein provided, has been ascertained and determined, the result thereof shall be compiled and reduced to writing and filed in the office of the territorial auditor.

Sec. 7. Hereafter the legislative assemblies of the territory of New Mexico, when providing revenue for territorial purposes shall make fixed and specific appropriations for the salary fund, for the different charitable institutions, for the different penal institutions, for the purpose of paying interest on the territorial debt, for the maintenance of the capital, for miscellaneous purposes, for deficiencies in

the territorial revenues and for any other purposes for which a territorial appropriation has been made.

Sec. 8. The territorial auditor shall between the first and second Mondays of April of each year, commencing with the year A. D. 1904, apportion the amount of revenue directed to be raised, by the legislative assembly, among the different counties of the territory in the ratio and proportion which the taxable value of each county bears to the taxable value of the entire territory of New Mexico, and said auditor shall, by an order, a copy of which shall remain in his office on file, direct the board of county commissioners of every county in New Mexico, to levy a tax upon all taxable property, in their respective counties, sufficient to raise the amount of revenue required by said order to be by that county raised and shall fix a minimum levy for each county for such purpose. The said auditor in apportioning the amount of revenue, to be raised by the different counties of the territory, shall refer to and use the data supplied to and furnished him by the territorial board of equalization in the abstract provided for in section 6 of this act, and shall refer to, and use no other data in making said apportionment.

Sec. 9. The boards of county commissioners of the several counties of the territory of New Mexico, shall annually, commencing with the year A. D. 1904, at the time they make levies and assess taxes for general county and other purposes, make a levy upon all the property subject to taxation in their respective counties, sufficient to raise the amount of revenue which they were respectively directed by the territorial auditor to raise, and when the same has been collected, it shall be paid into the territorial treasury, as now provided by law. The several boards of county commissioners, in making levies for the purpose aforesaid, shall allow 15 per cent for delinquencies in and costs of collection of taxes, and whenever it has been customary in any of the counties of this territory, that the delinquencies in the collection of taxes, has been greater than 15 per cent, then such greater amount shall be allowed. If at any time there is a surplus of revenue raised for territorial purposes in any of the counties of this territory, such surplus shall remain in said fund and shall not be diverted therefrom and the following year such surplus shall be deducted by said board of commissioners of the county, producing such surplus, from the sum to be raised for territorial purposes. If any county of the territory shall default in the raising of the revenue, or any part thereof, directed to be raised by the territorial auditor, and shall remain in default for a period of thirty days, after the end of the fiscal year for which it was directed to raise such revenue, then it shall be the duty of the territorial auditor to at once cause a new levy to be made upon the taxable property of such defaulting county, sufficient to make up the amount of taxes, and such levy made by the territorial auditor as herein provided shall be collected and paid over to the territorial treasurer as other taxes are collected and paid over; provided, that no person who has paid his taxes under the first levy made shall be required to again pay taxes for territorial purposes for the fiscal year during which default was made. And such county commissioners are hereby authorized, whenever the treasurer may be in default, to employ special counsel to appear in behalf of the county, for the protection of county interests.

Sec. 10. Nothing in this act shall be construed to in anywise amend or modify section 2635 of the compiled laws of 1897; but the said territorial board of equalization, when it, under the provisions of section 2635 of said compiled laws determines and fixes the value upon the property belonging to railroads, telegraph, telephone and sleeping car companies doing business in the territory of New Mexico, shall determine the value of such property as the same exists and is found in the different counties of the territory, and the value of such property shall be credited to the county wherein it exists and is found.

Sec. 11. This act shall take effect and be in force from and after its passage.

"Neglected colds make fat graveyards," Dr. Wood's Norway Pine Syrup helps men and women to a happy, vigorous old age.

### A Demented Woman.

Deputy Sheriff C. R. Ueber has returned to Santa Fe from Lamy with a strange woman in his custody, who is evidently demented. She was put off a Santa Fe railway train there and paraded at the junction wired for the sheriff to go down after the woman. She is not inclined to be hostile, but where she is from and her name she is not inclined to divulge. She states that she boarded a Santa Fe train at Denver, but does not know why she was put off at Lamy and seems to care a whole lot less. She amuses herself by talking in a rambling strain and sing-

ing alternately. She is in the county jail, but application will likely be made for a berth for her at the asylum at Las Vegas. The woman states that she is of French and Italian parentage, and is plainly dressed. When asked where she was going when put off the train, she made no reasonable reply.

### A Bad Attorney.

A dispatch from La Junta, Colo., under date of April 29, says: The trial of A. M. Nicholas, the Rocky Ford attorney, who two months ago was arrested charged with attempting criminal assault upon a 10 year old girl, and against whom an attempt at lynching was afterward made, was called in the district court here. It is said that no local attorney would accept the case and that a lawyer from outside has been engaged.

Had blood and indigestion are deadly enemies to good health. Burdock Blood Bitters destroys them.

### Cattle Shipments.

The W. C. McDonald company has during the last few days, shipped a thousand head of cattle to Kansas points for feeding. The cattle were loaded at Carrizosa and go via the El Paso & Northeastern railroad and Rock Island route. Friday or Saturday of this week it expects to ship another thousand head. The grass on the range in Lincoln county is coming up nicely and it looks as if stock in that county would be all right for some time to come.

A little life may be sacrificed to a sudden attack of croup, if you don't have Dr. Thomas' Electric Oil on hand for the emergency.

### Territorial Funds Received.

The following money has been received by the territorial treasurer, J. H. Vaughn: From Leopoldo Sanchez, collector and ex-officio treasurer of Guadalupe county, taxes for 1902, \$194.45.

### Too Great a Risk.

In almost every neighborhood someone has died from an attack of cholera or cholera morbus, often medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists.

### FOUND SMALLPOX GERM.

Important Discovery Made by Harvard Medical Professor.

Dr. William Thomas Counselman Shattuck professor of pathology anatomy in Harvard Medical school, announced on Saturday that he had discovered the germ that causes smallpox. The discovery is pronounced by physicians who have been made aware of Dr. Counselman's achievements as one of the really great ones in medical history, and the most important made in Boston, rivaling the discovery of ether as an anesthetic.

The details of the investigation, how each successive step was taken, together with valuable scientific information concerning the pox virus, which produces that highly contagious disease, will be furnished to the medical men by the discoverer, who refrains from making a public announcement until he has enlightened the scientific world.

### Spring Ailments.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needed toning up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c at J. H. O'Reilly & Co.

### Police Court.

One lone prisoner was before Judge Crawford this morning. Albert Crip-pen, who said he was on his way to Winslow, Arizona, was charged with committing a nuisance on the streets yesterday. Five days.

### The Best Liniment.

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelgans, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not be without it. I have recommended to many and they always speak very highly of it and declare its merits are wonderful." For sale by all druggists.

### B. M. MASSEY VERY ILL.

Former El Paso Newspaper Man Now at Fort Bayard, N. M.

News has been received at El Paso that B. M. Massey, who was secretary

of the carnival this winter, is very ill at Fort Bayard sanitarium, New Mexico, says the News.

Mr. Massey has many friends in El Paso, having been connected with the several daily papers as reporter for several years.

He spent nearly two years in Mexico City, where he now has an interest in the "Blue Book of Mexico." His health has been constantly failing since he left Yale, where he graduated in 1899.

His home is in Missouri, where his father now lives. In a message he sent here this week he states that he will remain at Fort Bayard in hopes of recovering his health.

### The Waste of the Blood.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of worn-out tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease set up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the whole-some food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures indigestion, dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by B. H. Briggs & Co., S. Vann & Son.

### SAYS ROADS DELAYED CATTLE

T. W. Boone, of New Mexico, Wants Damages for Dead Stock.

A suit was filed in the district court at El Paso, T. W. Boone vs. the Southern Pacific and Rock Island railroad companies, for damages. The case will be heard in Judge Gorman's court.

T. W. Boone is a New Mexico cattle man and alleges that November 10, 1902, he delivered to the defendants at Deming, forty-six head of bulls and seven calves. That due to unnecessary delay in transit seven head died, and that the whole lot shrank to the amount of \$443; he claimed that the roads held his stock on the way for over 134 hours, while sixty-five hours are all that are usually used in putting cattle on the Kansas City market.

Therefore he prays damages for \$443, with interest and costs of suit.

### A Farmer Straightened Out.

"A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely and if not satisfied after using it he need not pay a cent for it," says C. P. Rayder, of Patterson Mills, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar saying, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.'" For sale by all druggists.

### A BEAR FOR TEDDY.

If Acceptable to Him Mr. Roosevelt Will Receive Bruin as a Gift While Here.

Cleoro Weidner, of Espanola, formerly chief of police of Santa Fe, has inquired of Mayor I. Sparks, asking if the latter deemed the presentation of a bear to President Roosevelt would be out of place and if he thought the president would accept the gift. It is probable that a message of inquiry will be sent Mr. Roosevelt, and if he signifies his willingness to be incumbered with the pet for the rest of his trip, Weidner will bring a black bear, owned by him, here and present it to Colonel Roosevelt. The animal is a pet. As soon as he receives a reply, Mr. Weidner will immediately construct a nice, new cage for bruin, provided the gift is acceptable.—New Mexican.

### For over sixty years.

An old and well tried remedy. Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

### Card of Thanks.

We wish to extend our thanks to the public for the kindness shown us in our recent affliction in the death of Mary Reynolds.

MRS. FLORENCE REYNOLDS, MRS. C. E. LYON, MR. S. B. DRAKE, MRS. ALICE HYND, MR. JOHN LANE, MRS. LOTTIE LANE

When you want a pleasant physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. For sale by all druggists.

### Leatherman's Goat Ranch.

Roy E. Leatherman, deputy United States marshal for New Mexico, and his wife, passed through the city from Albuquerque this morning on their

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

### Announcement.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

way to Washington, D. C. Mrs. Leatherman will visit her parents, while her lesser half will organize a stock company for the purpose of stocking a range in the Manzanos with goats.—Optic.

So "Dr." R. E. Leatherman, the skipper, who skipped out after a scaly raffle transaction, is going into the goat business, and has gone back east to "organize a stock company for the purpose of stocking a range in the Manzanos with goats." The "doctor" will find it a hard matter to get men interested in any of his schemes, after they read what the Albuquerque papers have been saying about the "doctor" and some of his dishonest transactions hereabouts.

### For Those Who Live On Farms.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, as I am confident there is no better made. It is a dandy for burns." Those who live on farms are especially liable to many accidental cuts, burns and bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency. 25c, 50c and \$1.00 at J. H. O'Reilly & Co.

### CLOSED BUSINESS.

Managers of St. Louis World's Fair Meet and Wind Up Their Affairs.

Yesterday at Santa Fe the New Mexico commissioners of the St. Louis world's fair met and closed up their business of the past two years.

The meeting was called to order by Judge H. L. Waldo, president of the commission, and those present were: Henry L. Waldo, president; R. J. Pallen, treasurer; Thomas Hughes, secretary; W. B. Walton and Thomas S. Hubbell, members. The business before the board was the closing up of its affairs as its existence had been terminated by an act of the thirty-fifth legislative assembly, creating a new board. Expense accounts were attended to and allowed. The treasurer was directed to turn the funds pertaining to the board now in his possession into the territorial treasury.

The board legislated itself out of existence, desiring to turn the money accumulated into the school fund of the territory. Judge Waldo, president of the board, deserves credit for this action. He is earnest in his assertion that it would be much better to spend money on the education of the children of New Mexico than in squandering the money on expositions and parades.

The entire expenses of the commission in the two years of its existence amounted to \$572.45. This includes clerical help, printing, postage, meetings of board, sending M. W. Porter field to St. Louis to secure space for exhibit, and shows that the affairs of the board were economically managed.

### A Little Early Riser.

Now and then, at bedtime, will cure constipation, biliousness and liver trouble. DeWitt's Little Early Risers are famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by B. H. Briggs & Co., S. Vann & Son.

### Santa Fe Survey Party.

There arrived here Tuesday a party of seventeen men from Arizona comprising a survey party of the Santa Fe. They left here with supplies Wednesday for Parker, going overland by the country road. They will run a preliminary line from a point near Parker, connecting with the lines which have already been run from Congress and Wickenburg, intersecting the main line of the Santa Fe near Amboy, west of here. The line from Congress to the Colorado river is ninety-five miles long and the one from Wickenburg is 115 with a maximum grade of 1 per cent. It is expected that the line from the river crossing to its intersection with the main line in California will not exceed 1 per cent.—Needles Eye.

### A Revelation.

If you will make inquiry it will be a revelation to you how many succumb to kidney troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. Alvarado Pharmacy.

### LICENSE TO DO BUSINESS.

The following is a partial list of Al-

buerque merchants who have paid their occupation taxes:

W. H. McMillan, real estate agent, twelve months, extending from December 6, 1902, to December 6, 1903; county, \$5; school, \$5.

The Albuquerque Cycle and Arms company, merchandise dealers, twelve months, extending from January 1, 1903, to January 1, 1904; county, \$5; school, \$5.

A. Fleischer, real estate agent, six months, extending from January 1, 1903, to July 1, 1903; county, \$2.50; school, \$2.50.

A. Fleischer, insurance agent, six months, extending from January 1, 1903, to July 1, 1903; county, \$2.50; school, \$2.50.

Brad Jones, place of amusement, twelve months, extending from January 1, 1903; county, \$5; school, \$5.

D. H. Boatright, dealer in merchandise, twelve months, extending from January 1, 1903; county, \$10; school, \$10.

C. Colombo Society, hall keepers, twelve months, extending from January 1, 1903; county, \$5; school, \$5.

W. V. Futrelle & Co., dealers in furniture, twelve months, extending from January 1, 1903; county, \$5; school, \$5.

O. W. Strong & Sons, dealers in merchandise, twelve months, extending from January 1, 1903; county, \$10; school, \$10.

D. Weiller & Co., dealers in groceries, six months, extending from first of year; county, \$5; school, \$5.

H. H. Weiller & Co., dealers in merchandise, six months, extending from January 1, 1903; county \$2.50; school, \$2.50.

Eduardo Vigil, dealer in merchandise, six months, extending from January 1, 1903; county, \$2.50; school, \$2.50.

Greis, Kelly & Co., dealers in merchandise, doing wholesale business, twelve months, extending from first of year, 1903; county, \$75; school, \$75.

J. L. Bell & Co., dealers in groceries, six months, extending from January 1, 1903; county, \$5; school, \$5.

Los Angeles restaurant, six months, extending from October 1, 1902; county, \$10; school, \$10.

### A Startling Test.

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver trouble so I prescribed them. The patient gained from the first, and has not had an attack in fourteen months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. Try them. Only use at all druggists.

### YEOMANS-ELLIS.

H. Yeomans and Miss Maud Ellis Married Yesterday.

At the Ellis ranch, on the summit of the Sandia mountains, at high noon yesterday occurred the marriage of H. Yeomans and Miss Maud Ellis. The ceremony was performed by a minister from Gallup who is visiting at the Ellis home.

The bride is the daughter of the proprietor of the mountain resort and is quite well known in Albuquerque. The groom is from Arizona.

The young folks came down from the mountains yesterday evening and spent the night at the Alvarado. They are still at the hotel today, but have managed to keep away from the reporters, or else The Citizen would give a few more particulars about the affair.

Mr. and Mrs. Yeomans will make their home in Arizona.

Mr. Joseph Pominville, of Stillwater, Minn., after having spent over \$2,000 with the best doctors for stomach trouble, without relief, was advised by his druggist, Mr. Alex. Richard, to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man today. If troubled with indigestion, bad taste in the mouth, lack of appetite or constipation, give these Tablets on trial, and you are certain to be more than pleased with the result. For sale at 25 cents per box at all druggists.

H. M. Crane, representing the N. O. Nelson Manufacturing company, of St. Louis, is in the city, after a long business trip which took him to the Pacific coast and Mexico cities. He says he found business exceptionally good in all cities visited, and discovered that the government is expending an immense amount of money in enlarging the military forts of the west and southwest.

### Made Young Again.

"One of Dr. King's New Life Pills each night for two weeks has put me in my 'teens' again" writes Dr. H. Turner of Hempstead, Pa. They're the best in the world for liver, stomach and bowels. Purely vegetable. Never gripe. Only 25c at all druggists.

Hon. H. O. Bursum, the popular superintendent of the territorial penitentiary at Santa Fe, came in from the south this morning and continued on to the capital. For the past few weeks,

## HOSTETTER'S STOMACH BITTERS

is entitled to the highest praise as a family medicine if you judge it by its merit and record of cures during the past fifty years. No other remedy can take its place because it is the best that science can produce as a cure for Belching, Heartburn, Indigestion, Biliousness, Dyspepsia, Insomnia, and Nervousness. It is also an excellent tonic and blood purifier. Don't fail to try it. It has never been known to fail.

Mr. Bursum has been on his sheep ranch down in Socorro county, looking after the affairs of the ranch and making arrangements for the lambing and shearing of his flocks. He reports the country south of this city in a fine condition, and says he found all kinds of stock in better condition than for the past ten years.

### Traveling is Dangerous.

Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much, suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. E. Hausan, locomotive engineer, Lima, Ohio, writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." Alvarado Pharmacy.

### MARRIAGE RECORDS.

The following certificates of marriage have been filed in the office of County Clerk Summers since the first of the year. The number is not large and it is doubtful as to whether or not all the matrimonial occurrences of Bernalillo the past few months have been recorded. If all have been filed Bernalillo county ministers and justices of the peace have not taken very many duets from sales of matrimonial stock occurring this spring. Those recorded are:

February 5—William H. Barbee and Miss Mabel Morehead, both of Albuquerque.

February—Hugo Schulte and Anna Brown, both of Alameda, Bernalillo county.

February 5—Horace A. Dorsey and Bertha L. Jackson, both of Albuquerque.

February 16—Charles T. Nicholson and Elizabeth A. Menaul, both of Albuquerque.

February 27—Thomas Ruiz and Louisa Candelaria, both of Bernalillo.

April 4—Fred H. Lamson and Anna H. Ross, both of Bernalillo county.

April 20—H. L. Lowitzki and Maria Martinez, both of Bernalillo county.

April 25—T. H. McMahon and Dicy J. Hicks, both of Albuquerque.

### A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre of Shepherdstown, W. Va., says, "I had a severe case of bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for croup, whooping cough, grip, pneumonia and consumption. Try it. It's guaranteed by all druggists. Trial bottles free. Regular sizes 50c, \$1.00.

D. Bramer and daughter, Miss Erma, of Missouri Valley, Iowa, who have been spending a couple of months in Albuquerque with Mrs. Bramer, who is here in quest of health, left last night for their Iowa home. They will return here in a couple of months.

Foley's Honey and Tar contains no opiates and can safely be given to children. Alvarado Pharmacy.

Deputy Marshal Forbes, who has been in the Pecos valley, has returned to the city.

### NOTICE OF PUBLICATION.

Territory of New Mexico, County of Bernalillo. In the District Court.

George K. Neher, plaintiff, vs. E. J. Becker, defendant. No. 6319.

The said E. J. Becker is hereby notified that a suit by attachment has been commenced against him in the district court for the county of Bernalillo, Territory of New Mexico, by said plaintiff, George K. Neher, to recover the sum of \$679, being a balance due for money loaned defendant by plaintiff, and as evidenced by a certain draft, dated the 24th day of November, 1896, together with interest thereon, and costs of suit; that your property has been attached, and that unless you enter your appearance in said suit, within twenty days after the date of the last publication of this notice, to-wit, the 23rd day of May, 1903, judgment by default will be rendered against you, and your property sold to satisfy the same.

Witness the hand of the Clerk, and the seal of said District Court, this 31st day of March, 1903.

W. E. DAME, Clerk.

W. B. Childers, P. O. Address, Albuquerque, N. M., attorney for plaintiff.

First publication, April 4th, 1903; last publication, May 2nd, 1903.

# Railroad Topics

William Daze, road foreman of engines for the Santa Fe, was an Albuquerque visitor yesterday.

Fireman Homlett was taken out to the Las Vegas hospital suffering with severe injuries which he received by jumping off of an engine.

General Manager W. S. Hopewell, of the Santa Fe Central railway, left for Denver on business for the road. He will be absent several days.

Fireman Roland Hill, who was so badly burned by the explosion of an oil can at the Southern Pacific depot, El Paso, a few nights ago, was reported Monday as doing nicely. It is now thought he will recover.

W. J. Stackburger, a bridge builder employed at the Santa Fe stock yards, El Paso, was quite seriously injured while at work. He was engaged in unloading some piling when some of it fell down, catching him underneath it. Dr. W. N. Vilas was summoned and the injured man given medical attention. It was found that he was badly bruised about the groin, but not fatally hurt.

George T. Nicholson, general passenger traffic manager for the Santa Fe, who is piloting some fifteen or twenty passenger agents on a tour of the northwest and west, will probably return east by southern route and make a short visit to Albuquerque. The party left Chicago about a month ago going to Portland and Seattle over the Northern Pacific. They have toured the coast, stopping at all important cities and are now in southern California. Mr. Nicholson is the only member of the party who has ever visited the Duke City, and it is very likely that they will spend at least a day here.

A car load of gallopers, fast ones that have been wintering on the coast, passed through the city last night en route to St. Louis. The most prominent horses of the bunch were Virgil D'or, Dingley Bell, Muffoon, Mike Rice, Phil Archibald and Milas. They are the property of Dave Waldo, Joe McDowell and W. M. Rogers and were in charge of Joe's Farrer and Benson.

Dr. Matthew Gardner died in San Francisco Saturday, while being operated on for appendicitis. Dr. Gardner was the head of the hospital service of the Southern Pacific, and was known by every employee of the railroad who had ever been sick enough to be sent to the general hospital at San Francisco. Most of the employees of the road feel a personal loss in his death.

## THE NORTHEASTERN.

It is Doing a Good Business Through New Mexico.

The El Paso & Northeastern has an immense traffic coming in coal and coke, besides other local business and through freight routed from Mexico, California and Arizona, and from the Rock Island and its feeders, says the Alamogordo News. By the opening of the fall season in October the company will have all of its engines back into service, better than ever, and a number of engines ordered many months ago will be here. The only trouble the road now has is due to lack of engines for the big business at its disposal, but more and more is being handled as the overhauled equipment is brought back into service, that was put out of business in the winter. The coal output from Capitan is considerable, but the Dawson mines are making the railway hustle to get the product out of the way. Last Wednesday, for instance, the road handled thirty-four cars of coal and five of coke and Thursday the same quantity was moved. The company has a fine market for all it can produce of both coal and coke at an excellent price, the coal being the best in the territory and the coke unexcelled for smelter use. The lumber shipments are growing and the general local traffic increasing. In the fall the Santa Fe Central ought to be adding to the business of the El Paso & Northeastern if successful in getting any freight shipped for Albuquerque and Santa Fe markets, or from Colorado for El Paso, over a north and south route in competition with the Santa Fe. By the opening of winter the Rock Island-Choctaw line to Tucumcari will be finished and a volume of business will be added, from Memphis, Little Rock, Oklahoma and Texas to California via the Santa Rosa connection, coming via Alamogordo. President Eddy and General Manager Martin see what a big traffic is assured and are making every possible preparation to be equal to it.

## Destructive Fire in Santa Fe Railway Yards at Deming.

A fire took place at Deming in the yards of the Santa Fe at 11 o'clock Monday morning. As a result, the coal chute is in ruins and a car of coal and

more than forty tons of fuel have been consumed. The loss is quite heavy, but the exact figures cannot be secured at this time. The fire was very fierce and it was with the greatest difficulty that the flames were kept from spreading to the adjoining property. A spark from an engine caused the blaze.

## Succumbed to Injuries.

The injuries received by Joseph Salto while attempting to board the Santa Fe water train Saturday afternoon, proved fatal. The accident happened at 1 o'clock and three hours later the Italian boy passed away at the hospital.

At first it was thought that the victim's skull was fractured, but a closer examination proved otherwise. The scalp was partly torn off, however. When he fell his side struck against the end of a railroad tie with such force as to crush in his ribs so that they penetrated his lungs, causing internal hemorrhage.

Deceased was a bright and promising young man, and his parents are heartbroken over his untimely death.

The railroad company was in no way to blame and no inquest will be held. The funeral occurred from the Catholic church at 10:30 this morning and was largely attended.—Trinidad Advertiser.

## Era of Railway Strikes is Approaching An End.

"In my opinion the day of railroad strikes is about over. This is because general managers are more reasonable, and because the men in the labor organizations conduct themselves more conservatively. We find the officials of railway companies exceedingly fair throughout the country. I do not say this to pat them on the back, but because I believe it is true."

F. T. Hawley, of Buffalo, grand master of the Switchmen's Union of North America, spoke these words as he was about to depart from Denver for Kansas City, says the Denver Republican. Mr. Hawley arrived in this city Saturday night, and spent Sunday in Cheyenne, returning here yesterday. He said he was not in Denver on official business.

"I do not think the much-heralded labor troubles on the 1st of May will materialize as people expect," said he. "Many of the building trades have arranged for arbitration, and I believe the employers will arbitrate rather than run the risk of losses during a strike. In any event, I do not believe railroad men will take any hand in the trouble. I know the Switchmen's union will not. We do not believe in sympathetic strikes. We adjust all our difficulties by peace methods and argument. Of course, we reserve the right to strike, as any organization does. It would be a poor one that would not strike as a last resort. But there is not a man in our organization who does not deplore strikes."

"All is now at peace in our union all over the United States. The growth of the organization has been phenomenal. I never knew of a labor organization to increase so fast. We have now 19,000 members, and we expect to go into our convention at Indianapolis in May with 20,000."

## Wreck at Peach Springs.

A bad freight occurred near Peach Springs, on the Santa Fe Pacific, late Tuesday afternoon and caused considerable delay in traffic. Passengers arriving here this morning on passenger train No. 8, due here last night, but twelve hours late, stated that two light engines were pulling a freight train up a steep grade approaching Cajon Pass, when the tender of the second engine left the track. It jumped a long over the ties for a hundred yards tearing up the track and wrecking several cars. A wrecking crew from Needles, Cal., 140 miles distant, was summoned and cleared away the wreckage. Passenger train No. 8 arrived there about 12 o'clock that evening and was held nearly twelve hours. Passenger train No. 2 passed the wreck about on time, but arrived here this morning forty minutes late. Trains from the east are arriving on time.

## Hospitals on the Trains.

The number of railroad accidents and the appalling list of fatalities in the first two or three months of the present year have stirred public sentiment, and aroused railway officials to the necessity of adopting some means toward checking the frequency of these disasters, as well as providing a better system of taking care of the in-

jured. Several of the eastern roads are equipping their trains with a complete hospital service. This has been done in a degree by the Southern Pacific and may be followed up by a complete service in the near future. With regard to the way in which one eastern road has provided for emergency, a dispatch has the following:

"The Erie railroad company, besides having beds at the call of the railroad at hospitals in various cities along its route, has a private hospital car, which is supplied with cots, surgical instruments, bandages, antiseptics, etc., while there is always a good supply of hot water and an attendant who is a skilled nurse, who is always in the car. If word of an accident is received the car is sent either with the wrecking train or by special engine to the scene. A message is sent to the surgeon in charge of the district where the accident occurred and he meets the hospital car."

## LOCATION BEING SURVEYED.

Engineers of the Alamogordo-Deming Cut Off were in Deming.

Last Friday afternoon the engineers of the Alamogordo-Deming cut off drove in from a few miles east of town and spent a few hours purchasing supplies and taking in the town. They will soon be through with the permanent location of the line and it is confidently expected that work will begin very soon on the actual construction of the line.

Very little has been said about this road and for the short time since the first survey of the route was made the work has been pushed rapidly and quietly, showing that the company is in earnest about the work and that they intend to get the road in question as soon as possible.

The completion of this road will mean a great deal to Deming, as it will place us on another through line to the east and give us a direct route to Kansas City and Chicago over a single and without a change.—Deming Graphic.

## Die Preserving Plant at Alamogordo.

The extensive tie preserving works of the Alamogordo Lumber company, at Alamogordo, Otero county, are steadily at work, and very good results are being obtained. The works have a capacity of treating 1,000 ties per day, and this is done in a thorough manner, as the force employed understands everything connected with the process thoroughly. The plant is well worthy a visit, and is one of the industries that helped to make Alamogordo a thriving and growing town.

## THE HOSPITAL QUESTION.

Want Samples of San Bernardino Water.

The chances of San Bernardino securing the Santa Fe hospital are now in the scale, and before long it is probable that definite announcement will be made as to where the hospital will be located. That the matter is now being considered by the railroad officials was evidenced by a letter received from Chief Physician Morrison, in Los Angeles, asking for more samples of San Bernardino water. The letter was addressed to Hazlett & Baylis, the railroad physicians in this city.

In the letter Dr. Morrison stated that the samples of water which were sent to Los Angeles some time ago were old, and that an examination of them would not be fair to the city. For this reason he desired fresh samples, and he directed that the bottles of water be packed in ice.

The local physicians notified the hospital committee of the board of trade, F. W. Dunn, J. B. Gill and W. S. Hooper, and the desired samples were shipped.

Five different bottles of water were sent, and all were packed in ice. There were two bottles of hot mineral water, one bottle of the present city water and two bottles of water taken from the artesian wells east of the city which are to be the foundation of the municipal water system as soon as the system can be constructed.

With the samples of water a letter was sent, in which the hospital committee, on behalf of the board of trade, promised Dr. Morrison that if the hospital was located here, the institution would be furnished with any or all of the different kinds of water free of charge.—San Bernardino Sun.

Mrs. S. V. Harkness, a wealthy lady of New York, and son, Edward S. Harkness, and a party of friends, Mr. and Mrs. A. K. Macomber and Mrs. H. J. Macomber, of Pasadena, Cal., passed through the city today in a private Pullman car attached to passenger train No. 2, en route east. They have been spending the winter in California and are now going to New York to summer.

## COMING FROM KANSAS CITY.

Commercial Club of That City Will Visit Albuquerque.

On Friday morning, May 15, a big representation from the Kansas City Commercial club will arrive in the Duke City on a special vestibuled train with diner and all requisites, en route for the coast. They are to stop off from 9:35 until 11 o'clock and see the city and get acquainted as much as possible with our leading business men. The Kansas City club will have a brass band with them, and something will be doing when they arrive.

The following letter will explain, it being from the club's secretary: Agent A. T. & S. E. R. R. Co., Albuquerque, N. M.

Dear Sir:—It has been announced that the Commercial Club of Kansas City will take a trade extension trip beginning May 12 and a special train will be in your city from 9:35 a. m. to 11:00 a. m., Friday, May 15.

As this will be a very fine train it will be quite an interesting sight and will have on board of it a great number of the leading business men of Kansas City, and we think it will be an interesting occasion for the neighboring farmers, as well as for your city people. If you will send us the names of twenty-five or more of the representative farmers near Albuquerque, we will write each one a personal letter, notifying them of the arrival of the train and inviting them to come in. For all who come in we have a handsome souvenir to present, and in addition they can see the train, hear the music and get acquainted with the people who are helping to make Kansas City great.

As the time to prepare is very short, we would like to receive the list as early as possible for which we thank you in advance. We would be pleased to meet you at the baggage car when the train arrives and extend the usual courtesies. Your truly,

O. L. CLEASE.

Secretary McCanna of the Commercial club has sent some fifty or more names of prominent farmers here and in the vicinity, who will probably respond to the invitation. The Commercial club here has extended an invitation to the Kansas City clubmen to visit the club quarters. This is the third of the trade excursions of the Kansas City club. The other two were short trips into Kansas and Oklahoma.

## LETTER LIST.

Remaining in the post office at Albuquerque, N. M., May 1, 1903:

Persons calling for or sending for these letters please state where they had been receiving mail, also mention date of advertising.

Free delivery of letters at the residence of addressee may be secured by observing the following rules:

Direct letters plainly to street number.

Give writers name, and request answer to be directed accordingly.

Advertised matter is previously held one week awaiting delivery.

Advertised matter is held two weeks before it goes to the dead letter office at Washington D. C.

## Ladies' List.

Mathewson, Miss Baca, Mrs. Adelaide M. Helen Paxton, Miss MaryChaves, Miss Sabrahonote, Mrs. initia Searle, Mrs. C. M. Fenton, Miss Sanchez, Senorita rie E. RATHBURN'S SUCCESSOR.

Many Possible Candidates for Superin-

tendent at Atchison.

Speculation is rife among brakemen

as to who may succeed C. M. Rathburn as superintendent of the Missouri Pacific, says a dispatch from Atchison, Kan. Among those considered as possibilities are J. J. Skinner, chief dispatcher, who recently came to Atchison by E. A. Gould's appointment; W. E. Brooks, division superintendent at Osawatomie; R. K. Smith, superintendent at De Soto, Mo., and E. H. Holden, division superintendent of the Central Branch. These are mere guesses, and may all be a thousand miles off.

## GREATLY ALARMED.

By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Burbage, a student at law, in Greenville, S. C., had been troubled for four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Burbage, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured." Sold by all druggists.

## Addition to Hospital.

The addition building of the St. Joseph's hospital, now in course of construction, is nearing completion. The brick work was finished yesterday and the frame part of the building is under way.

The original hospital building is crowded beyond comfort and the new addition is badly needed. W. W. Strong has the contract and is pushing things with all haste. It will be ready for occupancy in a few weeks.

At first the new building will be used for patients coming from R. Lantry Sons railroad camps on the Santa Fe cut off. After these patients cease to come it is thought that the new building will become the consumptive ward.

## World Wide Reputation.

White's Cream Vermifuge has achieved a world wide reputation as being the best of all worm destroyers, and for its tonic influences on weak and unthrifty children, as it neutralizes the acidity or sourness of the stomach, improves their digestion, and assimilation of food, strengthens their nervous system and restores them to health, vigor and elasticity of spirits natural to childhood. 25c at J. H. O'Kelly & Co.

W. H. Greer, the well known local manager of the Victorio Land & Cattle company, came in from the south this morning, and will remain here a couple of days, after which he will proceed to Santa Fe. He will be at the capital when President Roosevelt and party reach that city, and will accompany the train to this city.

## Cures When Doctors Fail.

Mrs. Frank Chlassen, Patterson, La., writes June 28, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, found it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine, soc at J. H. O'Kelly & Co.

## Huning Moves to California.

Henry Huning came down from Show Low on Sunday evening and left for his new home in Santa Barbara, Cal., Tuesday morning. Mr. Huning sold his large ranch at Show Low to William Flake and others, who intend to build a village on the place. Mr. Huning has long been a resident of this county and has numerous friends throughout the county who regretted to see him leave and wish him happiness in his new home.—Holbrook Argus.

Mr. Huning is well known in Albuquerque and is a brother of Franz Huning of old town. The gentleman is the owner of some valuable real estate in this city.

## The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that catarrh of the stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How can I cure my indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure catarrh of the stomach. Kodol digests what you eat—makes the stomach sweet. Sold by B. H. Briggs & Co., S. Vann & Son.

The arches are up and the work of decorating in the city is well under way.

What is Foley's Kidney Cure? Answer: It is made from a prescription of a leading Chicago physician, and one of the most eminent in the country. The ingredients are the purest that money can buy, and are scientifically combined to get their utmost value. Alvarado Pharmacy.

Isidore Sanders, an ex-mayor of Trinidad, is in the city today on business.

## MOUNTAIN CLIMBER.

Prof. W. G. Tight Wants to Climb Mt. Sorata in Bolivia.

Miss Annie S. Peck, the celebrated mountain climber and lecturer, desires to represent the exposition in her proposed ascent of Mt. Sorata in Bolivia. Miss Peck is a graduate of the state university of Michigan; has been a teacher of Latin at Purdue university and Smith college, and was the first woman to study at the American School of Archaeology in Athens. She has lectured before the leading geographical societies of many countries and has climbed some of the highest peaks of the world. She writes as follows from Boston, Mass.:

"At the suggestion of George Grantham Bain I write to you in regard to my expedition to South America. I propose to climb Mt. Sorata in Bolivia, 25,000 feet high. It would be the loftiest height yet reached on the earth's surface, breaking the world's record in mountain climbing. The summit has never yet been reached, though attempted by Sir Martin Conway. Those who know me feel certain of my success, as I have never yet failed in anything I have undertaken. I shall be accompanied by three Swiss guides, one of whom was with Conway, and a scientific assistant, President W. G. Tight, of the University of New Mexico, who has agreed to accompany me. He was recommended by the geological survey in Washington as the best possible man for the expedition, and all around scientific man and a photographer. I propose to make observations geographical, geological and meteorological, to make barometers, aneroids, and other scientific instruments, cameras, special equipment tents, rifles, provisions, to experiment with bags of oxygen and Japanese stoves, etc. I shall have extraordinary shoes with three thicknesses of leather on the uppers, wear three pairs of stockings, as one of Conway's guides froze his feet so they turned black with a little less protection. But I expect the oxygen to help much, I shall also make archaic investigations on Mt. Chachini (20,000 feet), as advised by Prof. Pickering, of Harvard, where are said to be remains from before the time of the Incas and visit a pigmy city not far from Lima, besides studying the manners and customs of the native Indians, from whom I can procure many interesting things if I have the money, rugs or vicuna skin, blankets, reed musical instruments, models of boats, costumes, spindles and starters for spinning and many other things.

## BEHIND THE BARS.

Sheriff Romer Arrives at Las Vegas With Youthful Burglar.

Las Vegas Record, April 27:

W. Hill, as he registered in this city, or Henry B. Hill, as he gave his name in Albuquerque, was brought up from the Duke city on No. 8 yesterday morning by Sheriff Cleofes Romero and lodged in the county jail. Hill is charged with burglarizing the residence of Mrs. E. Lewis last Thursday night, securing \$8 in cash, two gold watches and four rings, the property of Mrs. Lewis and her daughter Kathryn.

Sheriff Romero says that the young man, who gives his age as 19, has made a complete confession of his crime, and that he will plead guilty and throw himself on the mercy of the court. When arrested he had on his person one of the watches and three rings. The other watch and ring were disposed of in this city the night of the burglary, and were recovered by Marshal Curtright the next day. The young man's speedy capture is due to the fact that Marshal Curtright promptly secured an accurate description of him and wired the officers along the line to be on the lookout.

When arrested Hill had in his possession, in addition to the articles stolen in this city, a few other jewelry trinkets, and a large bunch of assorted keys. He claims to have had an accomplice, who was the real instigator of the theft, but the officers place little credence in this part of his story.

The prisoner says his home is in Richmond, Va., which he left about two weeks ago, bound for Los Angeles, Cal., where he was going to enter the employ of an uncle, a plumbing contractor. He says he is a printer, and that this is the first time that he has ever been in trouble; that his father, formerly a Baptist minister, is about 80 years old, and will be heart-broken when he hears of his son's predicament.

Hill claims that he had about \$32 when he arrived in this city, but that he spent the money in bad company, drinking and gambling; that he formed the acquaintance of another young man, who was also broke, and together they went out and tried several back doors of houses. At the Lewis residence, he says, they found the rear door unlocked and he entered the place in search of valuables, while his companion watched on the porch.

On the way up from Albuquerque, Hill made an attempt to escape. The train took a sidetrack at Rowe, forty-five miles south of this city, to allow No. 7 to pass. The young man requested to be allowed to go into the lavatory, which was granted. As soon as

## Nasal CATARRH

In all its stages.

Ely's Cream Balm

cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.

ELY BROTHERS, 36 Warren Street, New York.

he entered he turned the key on the inside. Sheriff Romero, however, was not to be caught napping, as he was observing the situation through one of the windows of the ear, anticipating some such move. Sure enough, he soon saw the form of the prisoner going through the lavatory window. The officer dashed through the door and reached the ground only a few seconds behind the fugitive, and after a spirited chase of about fifty yards the latter was overhauled and taken back to the car.

After reaching this city, while on the way to the county jail, Sheriff Romero asked young Hill to designate the house he had entered. As they passed the place the youth unhesitatingly pointed out the Lewis residence.

Although Hill claims that he had an accomplice, and that they found the rear door unlocked, it is the present opinion of the officers that he did the job alone, and that he secured entrance with the aid of the bunch of keys twenty-five in number, found on his person when arrested.

Hill was arraigned before Justice Woolstar this afternoon and held to appear before the grand jury, which meets May 18, after which he will go before Judge Mills for sentence; at least, that will be the program in case he adheres to his present expressed intention of pleading guilty.

## Thoroughbred Bulls.

H. J. Ramer arrived in town yesterday from his ranch in New Mexico with a car of thoroughbred bulls, which he will take to Pleasant valley. The railroad company, it seems, did not take the proper care of them. D. R. Heard and Mr. Day, cattle buyers from Phoenix, will accompany him to his ranch in Pleasant valley, where they intend purchasing cattle.—Holbrook Argus.

## Quick Arrest.

J. A. Gullede of Verbeno, Ala., was twice in the hospital from a severe case of piles causing twenty-four tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 25c at all druggists.

Phil P. Hitchcock, general agent for the passenger department of the Washington & St. Louis railway, and S. M. Shattuck, traveling passenger agent for the Baltimore & Ohio railway, were Albuquerque visitors Tuesday. Both gentlemen have offices at Deaver.

Foley's Honey and Tar is peculiarly adapted for asthma, bronchitis and hoarseness. Alvarado Pharmacy.

Hon. Edmund Berke, an attorney of Los Angeles, who is interested in timber deals in New Mexico and Arizona, was a passenger en route to Washington, D. C., the other evening.

You never heard of any one using Foley's Honey and Tar and not being satisfied. Alvarado Pharmacy.

O. P. Hovey, the probate court clerk of Sandoval county, was here Tuesday on business.

## Will Cure Consumption.

A. A. Herren, of Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." Alvarado Pharmacy.

Dave Goldbaum, the well-known Las Dos Naciones cigar salesman, with headquarters at Nogales, Ariz., was in the city Tuesday and left for the north yesterday.

## From a Cat Scratch.

on the arm, to the worst sort of a burn, sore or boil, DeWitt's Witch Hazel Salve is a quick cure. In buying Witch Hazel Salve, be particular to get DeWitt's—this is the salve that heals without leaving a scar. A specific for blind, bleeding, itching and protruding piles. Sold by B. H. Briggs & Co., S. Vann & Son.

B. H. Ives, the south Albuquerque florist, did the decorating and furnishing of the beautiful flowers at the Mrs. B. S. Baker reception yesterday afternoon, which reflects no little credit on Mr. Ives.

## A Lesson in Health.

Healthy kidneys filter the impurities from the blood, and unless they do a good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder diseases. It strengthens the whole system. Alvarado Pharmacy.

Has every one cleaned up around their homes? Albuquerque should be clean as a whistle on Tuesday.

## Grove's Tasteless Chill Tonic

has stood the test 25 years. Average Annual Sales over One and a Half Million bottles. Does this record of merit appeal to you? No Cure, No Pay. 50c. Enclosed with every bottle is a Ten Cent package of Grove's Black Root Liver Pills.

## Early Times of Albuquerque

Contributed by an Old-Timer

As far back as mythology takes us upon the subject of Lynch law at A. D. 1526, it teaches that James Lynch, the mayor of Galway, Ireland, had occasion to pass the sentence of death upon his own son who had been convicted of murder. The friends of the son were numerous, and as is characteristic of the people of that nation, sympathetic. Particularly so with the unfortunate and who is more unfortunate than the poor devil who can see his immediate finish in a manner ignominious and violent. The neighbors of the Lynch boy massed for his rescue with the intention of aiding him to foreign terrestrial post, rather than to a celestial one. Knowledge of this coming to his father, he being beyond a doubt a righteous upholder as well as an expounder of the law, had his son brought home and saw that he was properly executed by hanging him from a window of his own castle.

We are also told that Lynch law is of American origin; that in the early days of our history there lived in the frontier of our colonies in Virginia a most upright man named Lynch, to whom, because of the distance to courts of law, was referred the settlement of all disputes and questions of right and wrong. His judgments were followed by immediate execution. In the one case we have the properly constituted court putting aside the law and as a civilian enforcing it. In the other, the civilian by common consent assuming judicial functions, and his judgments enforced by the people.

Whether the name Lynch law originated 377 years ago, in Ireland, or 118 years ago in this country, it is true that man has been subject to violent death at the hands of a mob of his fellow man since the time of Christ to the present.

In the history of Albuquerque, from its foundation twenty-three years ago, there has been but two lynchings, one in triplicate and one single, but both in punishment for the one crime. How it becomes known to a body of men that they are about to come together at a certain time, and within a limited time, for purposes of their own, can only be conjectured. All seem to know it, none speak of it, yet at that appointed time and without a variance of ten minutes between the first arrival and the last, eighty men were within the enclosure of an adobe corral on Main street in Old Albuquerque on the night of January 31, 1881. Few words were spoken, and those by but one. A column of two soon formed itself, and a light stepping march was being taken along Railroad avenue, passing Post's hotel through Shanker alley to the old town jail. This was an adobe building with massive porches in front and formed three sides of a square. Upon the east a large single room with grating inside and solid outside doors; this the jail proper. Upon the south was a court room and upon the west a living room of the jailor and his family.

Four men at the jailor's door when he appeared in response to a knock asked for the keys and went inside while procuring them. Leaving a guard they crossed the square, opened the jail and entered to return in a moment, leading at the end of a rope, with a noose around his neck, California Joe. Placed between two pillars of the porch he was questioned as to his knowledge of the murder of Colonel Potter. He knew nothing, the other men did it. His rope was thrown over the porch rafter and Joe wilted, going to the ground in a heap. A second visit to the jail room and Miguel Herrera appeared, he being placed between adjoining pillars, and replying to questions confessed his presence at the murder, but that Marino Leiba had committed it. Again to the jail and Escolasto Peres was between adjoining pillars and answering questions. Yes, they all fired at Potter, but Leiba killed him. California Joe was not there, but he furnished the guns for all but Leiba. Yes, they tried to burn the body of the dead man, and afterwards buried it. Over the porch rafter the ropes had been placed, and at the word all three were suspended. Joe from his collapsed position on the ground and the others from standing positions. Ropes ends were made secure to the pillars and three humans were suffering the judgment of the Lynch court. The bodies awayed slightly, but without any repulsive or convulsive movements. There was no contortion of the face; no evidences of pain or horror. After a few moments suspension there commenced a contraction of the muscles of the arms and legs. The forearms were gradually raised until the crossed hands reached the height of the shoulders. The legs were simultaneously drawn up, until they were as completely doubled as possible. Then came as gradual a relaxation, until the bodies hung limp. These movements lasted possibly two minutes. The eyes remained open, the mouth closed and the face retained its lifeless expression.

So passed three of the Potter murderers. They had taken months' freedom, and would have taken more had not the people decreed otherwise.

It is often a long legal step between the commission of a crime and execution, but in the court of Lynch there is but short shift between detection and execution. There is another difference. In one case you are given a six foot drop from the noosed end of a legal string; this gives a man a severe ja. Into eternity. In the other case

you go into eternity by being quietly and easily lifted in.

The last execution under Lynch law occurred February 24, 1881, the victim being Faustino Gutierrez. It was at the same place, under like circumstances, and for the same crime as the former lynching. Pinned upon the breast of the victim was this card: "Assassin Col. Potter; hanged by 601."

Santos Domingo was at that time county jailor and he resigned at once, giving as a reason that a mistake might be made some night, and he himself hung, and that he would take no more chances.

### DEATH OF MRS. SPERLING.

One Who Was of the Salt of the Earth Gone to Her Reward.

Mrs. Charles Sperling went to El Paso last Friday, underwent a severe operation for cancer Monday, and expired Wednesday evening, April 22, at 6:15 o'clock. The remains were brought to Socorro yesterday morning. Funeral services were conducted this afternoon by Rev. Renison, of Albuquerque, at Epiphany church in the presence of a large concourse of sorrowing relatives and friends, and all that was mortal of Mrs. Sperling was laid to rest in Socorro cemetery.

Mrs. Sperling's maiden name was Carrie Elizabeth Donberg. She was born in Cleveland, Ohio, thirty-nine years ago. She was married sixteen years ago to the husband who now mourns her loss. Five children were born of the union, the youngest being now 6 years of age. Such are a few of the facts of the life of one who endeared herself in a remarkable degree to all who knew her.—Socorro Chief.

### Talented McComas Girls.

Miss Alice Beach McComas, daughter of the veteran prosecutor, Deputy District Attorney C. C. McComas, has contributed an interesting illustrated article on Grand Canyon of the Colorado to Outdoor Life for April. Miss McComas is a pianist by profession, being well known on the vaudeville stage and she writes as well as she plays. The latest ridiculous story about Judge McComas' youngest daughter, Carroll, the white and courette, is published in the New York Journal, in which she is described as the daughter of an Illinois jurist. The story goes on to say that she went to Nebraska to be a "cow girl," and on witnessing a theatrical performance at Omaha, became stage struck and succeeded in convincing a theatrical manager that she could act. Carroll made her debut long before she ever saw Omaha, and her father was never an Illinois judge. She never punched cows; but such is fame.—Los Angeles Times.

Judge McComas and family, in the early days of Albuquerque, were well known throughout New Mexico. They resided in this city before going to southern California and taking up their residence in Los Angeles.

### POLICE COURT.

Charles Fields, a colored cook, was full of whiskey yesterday, and this morning he paid a fine of \$5.

Edward Glenn also was loaded Sunday and he had the choice of \$5 or five days.

R. Betty, an employee at the Red barn, was charged with disturbing the peace on Sunday by hitting a fellow employee on the top knot. He pleaded guilty and fished up \$5 for the pleasure.

### Here From the Pacific Coast.

Joseph Walker, who was general agent here and also chief clerk during two administrations to the general superintendent of the Atlantic & Pacific railroad, arrived here on Sunday evening on his private car from San Francisco. He was accompanied by his family and they will remain in Albuquerque for several days to visit and talk over old times. Mr. Walker is now superintendent of the terminals for the Santa Fe at San Francisco.

### STREET CAR RACKET.

Disgraceful Exhibition of Toughism on Sunday Afternoon.

It was fast and furious while it lasted, but fortunately neither of the combatants were seriously injured.

A city bound street car loaded with base ball fans who had attended the game at the fair grounds and a number of the usual old town Sunday visitors was quickly emptied near Twelfth street last evening in consequence of a tussle between the conductor and an indignant passenger. As in most every case where there is trouble all participating are more or less at fault. It appeared to the passengers that the conductor had indulged a little too freely in "watered" stock.

He had taken up the fares, but for some unknown reason had passed the "Kansas City Kid" without collecting. After a while the conductor noticed the boy having some tickets in his hand. The boy did not immediately pay up and the "con" attempted force. A struggle ensued and finally they came to blows. The passengers decamped like the car was on fire. The kid, who boasts of pugilistic science, knocked his aggressor through a car window and then broke away. Some passengers interfered and the kid got a good start. A chase around the block followed, the kid in the lead,

the "con" second and a straggling crowd of greatly amused passengers bringing up the rear. The kid was finally captured and deported to old town justice, where a friend furnished bond for his appearance this morning. It was fixed up out of court to the satisfaction of all concerned. The kid's name is Harry Altschuler, the young man who recently went snipe hunting in this city.

### TIGERS VICTORIOUS.

The Picked Nine of Players Badly Defeated.

The Old Town Tigers and a picked team of locals crossed bats in the face of a severe sand storm at the fair grounds yesterday afternoon. The score was 19 to 3 in favor of the Tigers.

The weather in the early part of the game was extremely bad and the fans turned out sparingly. Beginning with the third inning the wind died down and those who faced the storm were glad they were there.

The band played intermittently and frequently. It was a game of the locals chasing the ball. Most every Tiger chewed it and that hard. They were there with the willow, hit the ball hard and seemed fond of springing.

Rambs was in the box for the Tigers and did good work. Very few locals got to the first bag and many failed to make any connection at all.

Otero was on the rubber for the locals and was hit fairly hard. But no matter where the ball was hit no local was able to gather it in. There were high throws and low throws, and errors galore.

There will be a matched game with something at stake at the fair grounds next Sunday afternoon between the best local teams. The band will play.

### Sports at Village of Isleta.

Yesterday was a day of sports at the Indian pueblo of Isleta and quite a large number of city folks went down to see the doings. The races were held in the main thoroughfare of the village and the visitors were well entertained. The Indian braves participating were bared with the exception of a gee string and cloth, revealing their lithe and supple bodies and tanned and sunny muscles.

The adobe houselets were covered with squaws and old men decked in rich and fascinating colors. The wind blew like fury, but it hindered not with the pulling off of the feats. The visitors from the city returned here on a late train.

### JERRY MONAHAN.

Died from Pneumonia Last Saturday Evening.

Another old timer of Albuquerque has passed to his reward in the Great Beyond.

Early Saturday evening Jerry Monahan suddenly died of pneumonia at his home on South First street. He had only been ill a short time and his recovery was looked for.

The deceased was greatly respected by a large circle of friends who will greatly mourn his demise. He was near the 50 year mark and leaves a wife and five children, who will be left without a devoted and true husband and kind father.

His relatives in Colorado and his mother in Bisbee, Ariz., have been notified.

Mr. Monahan was a prominent contractor and for the past year has done grading for the Santa Fe. He has also carried out several large contracts for the city and he made a good record while he held the office of street commissioner. The city has lost a good citizen.

The funeral will be held Wednesday morning, commencing at 9:30 at his late residence, and at 10 o'clock in the Church of Immaculate Conception.

The pall bearers are: Messrs. John A. Beaven, Thomas Keleher, Richard Sweeney, William Truswell, James Boyce and Charles Conroy.

A dispatch was received from Timothy Monahan, of Victor, Colo., stating that he would arrive tomorrow evening, and the funeral will be held on Wednesday morning at 10 o'clock.

### A REAL COUNT.

He is From Italy and is Making a Trip Around the World.

Count Louis Primoli, a wealthy Italian from Rome, came in on the train from the south this morning and is at the Alvarado, where he will remain until tomorrow, when he will continue his journey.

The count is a middle-aged man and has been in this country about six months, studying the customs and manners of the people of the greatest nation on earth. He says he is well pleased with his sojourn, and when he was visited this afternoon by a citizen representative he was sitting on the porch at the Alvarado watching the dust fly up the streets. He is on a trip around the world and is a kodak fiend and has taken a car load of pictures since he has been in this country. The count was greatly disappointed in not finding more Indians around here, so he could take their pictures; he thought the Alvarado was a fine hotel and said it looked Spanish, too.

He will visit the Grand Canyon and other points of interest in Arizona, after which he will visit Los Angeles. After doing California he will sail from San Francisco for Japan. It is hardly necessary to add that the count is a bang up musician and this afternoon he made the piano talk in the hotel lobby, so that every one stopped to listen and inquire who the noted musician was. The count is not partial to newspaper men, for he said, the New York reporters bothered him to death.

### BACK TO SCHOOL.

Runaway Navajo Boys Overtaken and Returned to School.

The early part of last week twenty-eight Navajo lads, recent arrivals at the Albuquerque government school, took their departure from that institution and started on foot across country for the scene of their native environments. They succeeded admirably in covering ground and were out a couple of days before overtaken by officers from the school and brought back.

It has been some weeks since Indian Inspector Nessler, while visiting the Navajo reservation, inspired this magnificent body of copper-colored boys with a desire for education. These youths willingly enough accompanied the inspector and Dr. Wood, of the local school, who was with him, here to learn the ways of the paleface. They entered the school and were doing nicely, when three ugly ones, who did not take well to sleeping between snow white sheets and dining sitting in a straight back chair, were sullen and dissatisfied and quietly worked up this rebellious departure. The whole body quietly left the school and struck out for Laguna, sixty miles distant. Laguna was made and it is supposed that the Laguna Indians furnished them with food for another march. It was with much difficulty and after long and tedious trailing that they were overtaken. They were returned here on Friday.

Dr. Harle is Ordered Surrendered.

Francisco Mallen, the Mexican consul at El Paso, has received a warrant from the United States secretary of state authorizing the surrender of Dr. C. S. Harle to the Mexican government to be tried for murder at Chihuahua in connection with the New York Life Insurance frauds. Defendant C. T. Richardson and William Mason or Meredith are still being held for further extradition proceedings. Dr. Harle will be transferred to Mexico within a few days.

### GOT HER MONEY BACK.

Miss Benfy Secured \$50 Rebate on Her Special Train.

Miss Ida Benfy, who hired the Santa Fe special train to take her from Emporia to Eureka in time to fill her engagement there, states that the Santa Fe refunded \$50 of the \$75 that the special cost her. Miss Benfy, who is a reader, filled an engagement one night at Topeka and on the following night she had an engagement at Eureka. The Topeka agent told her that the train which leaves Topeka would certainly connect with the Howard train at Emporia, so she waited for it. The train was two hours late and when Miss Benfy arrived the Howard branch had left. She waited until 7 o'clock and then hired the special for \$75. In Topeka, Miss Benfy complained to the Santa Fe and asked the company to refund \$50 of the money she had paid for the train and the company gave her the cash immediately.

A kissing bee took place on the east side of the Alvarado hotel, under one of the archways, last Saturday night. Just as No. 1 passenger train rolled in, and the flaxen-haired young man and his brunette, white-aproned beauty were not at all backward in their embraces and the kisses they planted upon each other's lips.

### RUMOR OF RICH STRIKE.

Unsubstantiated Report Concerning Torpedo Mines.

Rumors reached this city last night of a rich strike in the Torpedo mines at Las Cruces which was made a few days ago.

P. B. Llewellyn, of Las Cruces, was caught by telephone, but he said that he had heard of nothing phenomenal in the way of a strike. He said that if it had been made, the fact was not generally known in Las Cruces.

He said that Manager George Fitzgerald had lately began moving the old dump and shipping it to El Paso. Some rich finds might have been made in that way, but he could not tell.—El Paso News.

I. N. Wheatley, foreman for B. Lantry Sons, railroad contractors, arrived last evening from the west. He says that the work being done on the Rio Puerco bridge by Lantry Sons will be finished up in a day or two and that the outfit there will be moved west of Gallup, where the Santa Fe contemplates making some improvements.

TWINING WILL ENJOY BOOM.

Frazer Mountain Mining Company's Smelter Will Open in Two Weeks.

William Frazer, manager of the Fraser Mountain Mining company, near Twining, Taos county, returned to that place after transacting business in Santa Fe for a few days. While at the capital he met O. W. Alexander, of Cerrillos, whom he employed to run the company's smelter at Twining. Mr. Alexander returned to Cerrillos, but will go to Twining in a few days. Mr. Frazer states that his company is now treating seventy-five tons of ore a day at the concentrator and that it contains about 60 per cent in copper and 10 per cent in gold. The smelter which the company built last summer will be put into operation in about two weeks when it is expected to treat 220 tons of ore a day.

Twinning gives promise of a boom during the present summer. The San Cristobal Copper company of that place is making preparations to build a cyanide mill and the Mamie Garco Mining company will put in a stamp mill this season. Two other companies composed of New York capitalists are working their properties

there and one of these will also build a mill this summer. These properties are all situated within a radius of six miles.

### THE COPPER KING.

Rich Copper Property of Red River to Be Vigorously Worked.

The law suit which has been pending involving the title to the Copper King mine at Red River has been decided.

The title to the property is now perfect and the company which owns it will immediately put in machinery and within a very short time fully 100 men will be employed in the mine and mills.

The property was at one time owned and worked by the Waterbury company of New York. It is rich in copper and intelligently worked will be a great producer. The settling of the lawsuit which has tied the mine up and the vigorous manner in which it will henceforth be worked mean much for the Red River and Elizabethtown mining districts.

Charles Hubbell accompanied his brother, Hon. F. A. Hubbell, to the latter's sheep ranch last Saturday night. The ranch is located in the Magdalena range of mountains, and both gentlemen will be absent from the city for a month or six weeks.

### KILLED UNDER THE CARS.

Tramp Meets a Horrible Fate at Raton Depot.

A man giving his name as John Harley was fatally injured at the Santa Fe depot last Saturday evening at 9 o'clock while attempting to steal a ride on the rods under a passenger coach. The wheels of the car passed over both legs, cutting off his feet at the ankle, and his right hand was crushed off at the wrist. The accident happened just as passenger train No. 2 began to move away from the depot. The screams of the unfortunate man attracted immediate attention and the train was promptly stopped. He was taken to the office of Drs. Shuler & Hart, where he died the next morning at 4 o'clock. He was about 35 years of age and the only articles found in his pockets were a pocket knife and a nickel.

Undertaker C. J. Burnam took charge of the body which was buried Sunday at the county's expense.—Raton Range.

C. B. Ward, the owner of many Angora goats ranging in the Mogollon country, arrived in Albuquerque yesterday and is spending a couple days at the Alvarado. He is en route east to dispose of several thousand pounds of Mohair.

### COMPARATIVELY CHEAP.

Freight Rates in America Compared With Other Countries.

It is worthy of note that the ton mile cost of operation in the United States is now lower than any other country. The following table shows the average amount paid by shippers in the various countries of the world in 1900 for moving one ton of freight a distance of 100 miles:

England	.....\$2.35
France	.....2.10
Austria	.....1.90
Germany	.....1.84
Russia	.....1.70
United States	......73

This remarkable difference in ton mile cost in the United States as compared with that of other countries was accomplished in the face of the fact that almost everything used in the operation of a railroad in this country is more expensive than in any other country in the world. Labor here costs more than twice as much as in Russia.

TO CURE A COLD IN ONE DAY.

Take Laxative Broom Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on the box; 25c.

### RATON.

From the Range.

Miss Susan B. Clark, probation officer, juvenile court, Chicago, arrived in Raton for a visit with her friend, Margaret Apper.

Miss May Bastian, assistant bookkeeper in Remesberg's store, will resign her position and return to her home in Aledo, Illinois.

Joe Israel has resigned his position in M. R. Mendelson's Golden Rule Cash Store and last week departed for Tucuman, where he will engage in business for himself.

Mrs. Colip, who has held the highest lady bowler's score in this territory for sometime past, has now raised her score from 179 to 189.

Mr. and Mrs. Farley and their daughter, Miss Jennie left for a visit to friends and relatives in Columbus and Indianapolis, Indiana. They will be gone from home about six weeks.

The second quarterly conference of the Methodist Episcopal church was held at the church Monday evening, Dr. A. P. Morrison presiding. The reports of the different departments showed the church to be in a highly prosperous condition.

Raton public schools will finish next month one of the most satisfactory years in the history of the place. The greatest harmony has prevailed throughout, the teachers have been untiring in their efforts to bring the work in every department up to a high standard, and it is not surprising that excellent work has, as a rule been done by the pupils. This condition of affairs is a great contrast to the inharmonious and confusion that prevailed last year and is without doubt due to the able management, tact and qualification as an educator of Prof. Wm. M. Heiney, the superintendent.

### ELKS' OPERA HOUSE.

Contract Let to W. W. Strong and Will Cost Over \$30,000.

The contract for the Elks' opera house has been awarded to W. W. Strong. The committee and Mr. Strong will meet tomorrow and sign the papers. There were two bids. Anson & Holman's bid was \$34,900 and Mr. Strong's \$30,600. This does not include lighting, heating or plumbing. It is estimated when the building is completed and furnished it will cost \$50,000, and it will contain the finest theater this side of Denver. It will also be a monument of enterprise for the growing city of Albuquerque.

It will be a handsome three story brick structure and the structure built around the theater on the first floor will contain bowling alleys, shops, cafe and bar, besides entrances to the theater.

The second floor will have a ball room and banquet hall, with toilet rooms and serving kitchen, while on the third floor there will be two lodge rooms with ante chambers for the members and the goats.

A portion of the building is now standing and there are foundations under most of the proposed walls, and these are to be used as far as possible for the new foundations. A cellar will only be built under the stage.

Work is to begin in a few days and will be pushed as rapidly as possible, so that when the territorial fair opens here in October the theater will be ready for dedication. The Elks are to be commended for this enterprise, which will allow the troupes in the country to play here.

The various committees who have this matter in charge are: Finance—Mayor Charles F. Myers, J. J. Sheridan, Frank A. Hubbell.

Supplies and furnishings—W. S. Strickler, F. A. Hubbell, T. H. Wilkerson.

In charge of work—D. J. Rankin, M. W. Flournoy, C. F. Myers.

Opening night, leases and rents—Frank McKee, J. J. Sheridan, W. S. Strickler.

Plans and specifications—M. W. Flournoy, Frank McKee, D. J. Rankin.

Law, bonds and contracts—T. N. Wilkerson, M. W. Flournoy.

### DISTRICT COURT.

In the district court, before Judge Baker this morning, the case of intervenor of the American Engineering works in the Cochiti Gold Mining company receivership case, the intervenor seeking to enforce a mechanic's lien for machinery furnished the mining company. The machinery company contended that the account was a running one, and that their lien being filed within sixty days of last item, they should have a lien for the full amount of the claim, \$1,100. The mining company, on the other hand, said the purchases were made from day to day; that each purchase was a separate contract and the lien was not filed in time except as to the items purchased within sixty days. Judge Baker held that there being no agreement shown of a contract of the machine company to furnish continuously supplies for repairs, each item of the account, under the pleadings, was a separate account, but the court decided the case upon the theory that the materials furnished being something temporary were not such as could not support a claim of lien, and refused the lien and allowing the claim generally against the bankrupt company for \$1,100.

The court rendered judgment for \$20 in favor of the plaintiff in the case of W. Moore Clayton, assignee, versus Augustin Lopez. This suit was an account for \$20.

In the quo warranto proceeding against Sheriff Alfredo Sandoval, of Sandoval county, the defendant had not yet filed an answer up to the time of going to press. Probably this will be done tomorrow.

You Know What You Are Taking.

When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure; no pay; 50c.

The Alamogordo News says: C. C. Hartwell, a grading contractor, has been taken from the White Oaks country to Belen on a charge that he stole a wagon and several horses. He alleges that the owner owed him money and authorized him to retain the property until payment could be made.

### FARMINGTON.

From the Hustler.

Louis P. Wilson, who married Miss Opal Ferguson last February, was accidentally run over by the cars and killed at Antonito, Colo.

A. E. Dastin returned from Durango, and reports the promoters of the big power plant to be erected at Rockwood will be there within a few days and that probably 300 men will be employed on the work.

The old adobe building located on the premises of Dr. Rosenthal will soon be only a memory, as workmen are now engaged pulling it down. This building was erected as a Masonic hall in 1885 and was the scene of many an animated goat ride, the greater number of our older Masons having taken their initiatory step within its confines.

Mrs. George A. Rudolph departed with her little daughter, Freda, for Greeley, Colo., to visit several months with her mother and son, Donald, who has been attending school at that place. She will be accompanied as far as San Luis valley by Miss Maggie Malne, who goes to visit with her parents.

## TWO KINDS OF CHILDREN

Children that grow too fast and those that seem hardly to grow at all, both need Scott's Emulsion.

It gives that rich vital nourishment which is the secret of all healthy growth. It rounds out the long limbs, and helps children to grow without using up all their strength in growing.

Mothers ought to know more about the wonderful help which Scott's Emulsion would give their children.

We'll send you a sample free upon request.

SCOTT & BOWNE, 405 Pearl Street, New York.

### DIED WITHIN TWO HOURS.

Internal Injuries to Francisco Griego Proved Fatal.

Francisco Griego, who fell to the bottom of the shaft of the Santa Fe Coal company, three miles northwest of Santa Fe about 2 o'clock Wednesday afternoon, died at St. Vincent's hospital of his injuries two hours later. The details of the accident reveal the fact that the convict who first brought the news to Santa Fe did not give a correct statement as to how the accident occurred.

The rope did not break as was at first reported and that is all that saved Griego from instant death. He was in the cage making the descent when the brake slipped off of the drum. Those at the top were thus unable to control the descent of the cage and Griego was let down at a terrific rate. The bottom of the cage was smashed to splinters when it came in contact with jagged rock at the bottom of the shaft.

The unfortunate occupant was dashed against the side of the cage with such force as to injure him internally. He was conscious, however, when removed from the shaft and was able to walk with assistance to the wagon in which he was conveyed to Santa Fe. He was taken to St. Vincent's hospital and wanted to help undress himself. When placed in a reclining position Griego soon passed away, the blood from his internal injuries flowing over his heart and suffocating him. While lying down hastened his death, he would have expired from the same cause in a half hour or an hour if placed in a sitting position.

Justice J. M. Garcia impaneled a jury and held an inquest over the remains of Griego Wednesday night. The verdict was that death was accidental.

Griego was about 38 years of age and leaves a wife and four children. Mrs. Griego was ill when the accident occurred and the shock of the news aggravated her condition. Griego had charge of the prisoners from the territorial penitentiary who were engaged in the work on the shaft. He was deputy sheriff of Santa Fe county under ex-Sheriff Marcelino Garcia for the term ending last fall.

He was a good man, respected and liked by those who knew him.

### MAKING SOLDIERS.

The Militia Boys at Agricultural College Are Drilling.

The two companies of militia, which form the military department of the New Mexico College of Agriculture and Mechanic Arts, were thrown into a fever of excitement and a two hours strenuous drilling Wednesday.

Major James Irons, of the United States army, detailed as military inspector of the department of Colorado, visited the college and sent the Agricultural and Mechanical college cadets through a series of maneuvers to see what the youngsters could do. The present military organization of the college only came into existence the first of January, but in these few months of active life and drill makes a good showing. The two companies have an enrollment of ninety with full quotas of officers. They are under the able direction of Col. Alfred S. Frost, late of the First South Dakota infantry.

Colonel Frost expressed himself well pleased with the progress the young men are making.

The college campus has been put in good shape for the field day sports, which will occur May 1. The contestants of the coming athletic feats are doing considerable hard work preparing for the approaching tests. Every evening the campus is the scene of many young men engaging in vigorous and muscle hardening exercises. The track team is represented with some excellent material, but as to whether or not they will acquit themselves admirably when the final comes, remains to be seen.

The program this year will not be as elaborate as was last year's, but containing some entertaining features. The usual field day ball will be given at Las Cruces on the evening following the sports.

S. H. Brown, the veteran Harvey eating house and dining car inspector and manager, for many moons in charge of all Harvey houses between Raton and El Paso and Needles, Cal., and who in the absence of Superintendent John Stein, while that gentleman and a young bride enjoyed a prolonged honeymoon, acted as superintendent, has been transferred east of Raton with headquarters at Newton. The hotel managers of the middle west division will miss his frequent pleasant visits.

RAILROAD NOTES.

Engine 636 is doing duty again after a long absence from the local shops. Several engines, running north and south out of Las Vegas, are taking lay off.

P. W. Zimmerman, the Santa Fe claim agent for the New Mexico division, was at Las Vegas on Saturday.

Richard Robinson is a new switchman in the local Santa Fe yards. He was formerly a brakeman running out of Las Vegas.

F. R. Frost, electrical inspector for the Santa Fe, with office at Topeka, was a recent visitor at the local Santa Fe Pacific shops.

The water supply of the Santa Fe railway has given out at Lamy and engines from the main line go to Santa Fe daily for water.

J. A. Peterson, who resigned as timekeeper of the local shops, has been succeeded by W. E. Hedger, recently of the storekeeper's department.

Geo. E. Roe, district freight and passenger agent for the Santa Fe at El Paso, was in the city between trains yesterday morning while en route north.

About forty laborers left Santa Fe Saturday for Watrous, where they will work in the stone quarries for Lantry & Sons, who have a contract for the Santa Fe railway.

The men, who were injured in the steam pipe explosion accident at the local shops the other day, are reported getting along nicely, and they will soon be up and ready for work again.

The force at the local shops is being increased almost daily. Arrivals of skilled workmen are announced from the west, as far as Los Angeles, and from the east as far as Fort Madison.

D. W. Hitchcock, of the San Marcial shops, who has been incapacitated for active service for several weeks, owing to an attack of rheumatism, went to Las Vegas to test the virtues of the mud baths.

The memorable exhibit of the Baltimore & Ohio railroad at the Chicago exposition in 1893 is to be repeated, and perhaps improved upon in the world's fair next year, under the charge, as before, of Major J. G. Pangborn. The company has secured 60,000 square feet of space.

Financial agents of the railways at Oklahoma City received a notice of a reduction in freight rates on car lots into that city from Kansas City ranging from 10 to 25 cents. This is the most important concession ever made to the local jobbers and is the source of much satisfaction to them.

At the San Marcial round house last Wednesday the news was being discussed of the sending by Engineer Taft for his family to go to Mineral Wells, Texas, from Silver City. This summons means the unexpected earthly separation of the husband from his family, Mr. Taft's illness having taken a very serious turn.

The Las Vegas railway shops is being improved. The Optic says: "A new boiler is being put in position outside the engine room. As soon as it is ready for business it will be given charge of all the machinery, while the boiler inside is being brought out and fixed in position adjacent. All the room inside is needed for the new air compressor and the engine."

The Santa Fe has placed an order with the Baldwin Locomotive works for seventy additional locomotives of the Mikado type. Fifteen of the same type of engines were just delivered to the Santa Fe a short time ago by the Baldwin works and are now doing freight service on the mountain divisions. Some of them are being used as helpers on the Raton mountain.

The contract for hauling federal troops is being held up for some unknown reason. The Southern and Union Pacific submitted the lowest bids for handling the business and the government was about to award the contract to this company. The other lines objected on the ground that the Southern Pacific was a bonded aided line indebted to the government and that the business would simply be credited to the line's account.

The San Marcial Bee says: Miss Mollie Maher came up from Deming this week, and indirectly left the impression with the reporter that she would return in a day or two to the Windmill city with the prefix Miss in its old place. Wednesday this popular young lady changed her surface plans, for she was joined in wedlock by the Rev. Father Pelzer to Edmund W. Moore, who is said to be an employee of the Albuquerque railway shops.

B. W. Robbins, general agent at Santa Fe, for the Denver & Rio Grande Railroad company, returned from a visit to Torrance. He made the trip overland and enjoyed the scenery along the route very much. The Santa Fe Central railway is pushing track laying out at Torrance at a rapid rate.

The road, Mr. Robbins says, has a good solid bed, having been settled by the winter snows. The company will have a splendid track. The ties used are good and the rails are heavy.

For some months Frank Eggleston worked at Lordsburg for the Southern Pacific company as yardmaster. Tuesday he disappeared. Where and why he went are not known. One or two of the railroad employees say he got on the east bound passenger train, but the conductor of the train does not remember seeing him. There is no known reason for his leaving, as he was not owing any amount of money, and had no trouble about his work, and his family relations were happy.

He left a wife, who is as mystified as any one.

R. C. McCance, of Santa Fe, was a visitor here over Sunday. He is the treasurer of the Santa Fe Central railroad, the office being located in the ancient.

E. Tiffin, of Moncton, N. B., traffic manager for the International railroad and the Prince Edward Island railroad, accompanied by Robert Jaffray, president of the Globe, a paper published at Toronto, Canada, passed through the city last evening in a private car attached to passenger No. 1, en route to the Pacific coast. They expressed themselves astonished at the grandeur of the Alvarado and its pleasing features. They were sorry on account of not being able to spend a day in this city.

Standing on the track in the railroad yards at Guthrie, Oklahoma, are forty acres of steel, which is to be used in the extension of the Choctaw. It is expected that the road will reach Chandler within a few weeks. Work was resumed this week and the road is being pushed toward Chandler at the rate of about two miles a day. Washouts may delay the work, but conservative estimates place the time of arrival at Chandler not more than thirty or forty days away. The citizens are preparing to hold a celebration on the day the tracklayers reach that city.

NEW INCORPORATIONS

**Baking Powder Gold Mining Company Ready for Business.**

Articles of incorporation have been filed at the office of the territorial secretary by the Baking Powder Gold Mining Company. The incorporators are: A. N. Edwards, of Palo Pinta county, Texas; W. R. Jackson, H. F. Ketter, of El Paso county, Texas, and W. W. Edwards, of Socorro, N. M. The company is capitalized at \$600,000, divided into that many shares of the par value of \$1 each and non-assessable. The company is authorized to acquire, lease and sell, own, possess, develop, mine, work, operate and exploit gold, copper, silver or other mines; also lands, such as mill sites, tunnel sites, buildings, machinery, plants, etc., to acquire water and ditch rights and other properties real and personal or mixed as may be deemed necessary or appropriate for the above stated business. To conduct, operate and maintain railways, rights of ways and essentials for the transfer of its minerals, and other property and the property of others. To conduct and maintain a reduction works, to buy, treat, sell and deal in ores of all kinds. The term of existence is to be fifty years. The debt of the organization shall not at any time aggregate more than \$100,000. The business and affairs of the company will be in the hands of a board of three directors and the board for the first year is to be composed of W. R. Jackson, A. N. Edwards, W. W. Edwards. The principal office will be located at El Paso, Texas, but the company is authorized to establish an office at Rosedale, this territory.

**Fire at Viaduct.**

At 2:30 o'clock this afternoon the fire department was called out by a still alarm for a second time today to extinguish a fire in the floor of the coal avenue viaduct. The timely arrival of the firemen prevented what might have been the total destruction of the viaduct. The wind was blowing a fierce gale, and had the flames gained any headway whatever the fire could not have been controlled before having consumed at least one-half of the big structure.

Two small holes were burned and the damage is only slight. The fire caught from sparks from a passing locomotive.

**DISTRICT COURT.**

The case of Grunsfeld Brothers vs. D. R. Brownell, was tried before Judge Baker this morning. The suit was brought under the territory insolvency law (before the United States bankruptcy law became effective) in which was alleged that Brownell was insolvent and had transferred his stock of goods to the value of \$5,000 to the firm of Gillette & Son, in fraud of his creditors.

**WHAT A BLESSING!**

Many People in Albuquerque Are Learning to Appreciate.

What a blessing it is. Sought after by thousands. Albuquerque is finding it out. Many a miserable man is happy now. Nights of unrest, days of trouble. Any itching skin disease means this. Itching piles mean it. Eczema just as bad and just as hard to cure. But Doan's Ointment relieves at once and cures all itching of the skin. A blessing to a suffering public. Here's Albuquerque proof to back our statement: John Torilla, capitalist, of 820 South Third street, says: "I know of a case where Doan's Ointment was successfully used for hemorrhoids, commonly called piles. If I did not know that the remedy acted exactly as represented and that the results obtained by others in Albuquerque are as positive as in the particular case referred to above I would be the last resident of this city to advise my friends and acquaintances to go to Alvarado Pharmacy for the preparation if they require it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

CATARRH A COMMON COMPLAINT.

Catarrh begins with a stubborn cold in the head, inflammation or soreness of the membrane or lining of the nose, discharge of mucus matter, headaches, neuralgia and difficult breathing, and even in this early stage is almost intolerable. But when the filthy secretions begin to drop back into the throat and stomach, and the blood becomes polluted and the system contaminated by the catarrhal poison, then the sufferer begins to realize what a disgusting and sickening disease Catarrh is. It affects the kidneys and stomach as well as other parts of the body. It is a constitutional disease and as inhaling mixtures, salves, ointments, etc., are never more than palliative or helpful, even in the beginning of Catarrh, what can you expect from such treatment when it becomes chronic and the whole system affected? Only such a remedy as S. S. S. can reach this obstinate, deep-seated disease and purge the blood of the catarrhal poison. S. S. S. purifies and builds up the diseased blood, and the inflamed membranes are healed and the excessive secretion of mucus ceases when new, rich blood is coming to the diseased parts, and a permanent cure is the result.

S. S. S. is guaranteed purely vegetable and a reliable remedy for Catarrh in all stages. Write if in need of medical advice; this will cost you nothing.

**THE SWIFT SPECIFIC CO., ATLANTA, GA.**

It is a constitutional disease and as inhaling mixtures, salves, ointments, etc., are never more than palliative or helpful, even in the beginning of Catarrh, what can you expect from such treatment when it becomes chronic and the whole system affected? Only such a remedy as S. S. S. can reach this obstinate, deep-seated disease and purge the blood of the catarrhal poison. S. S. S. purifies and builds up the diseased blood, and the inflamed membranes are healed and the excessive secretion of mucus ceases when new, rich blood is coming to the diseased parts, and a permanent cure is the result.

S. S. S. is guaranteed purely vegetable and a reliable remedy for Catarrh in all stages. Write if in need of medical advice; this will cost you nothing.

**THE SWIFT SPECIFIC CO., ATLANTA, GA.**

The court found issue for the plaintiff, and appointed a receiver to receive the property of Brownell in the hands of Gillette & Son, and directing the administration of the property under the territorial law. F. W. Clancy and B. F. Adams were for the plaintiff and S. B. Gillette for the defendant.

Charles A. Spiess, of Las Vegas, who is attorney for Sheriff Alfredo M. Sandoval, of Sandoval county, who has had quo warranto proceedings brought against him to oust him from the office, filed an answer in the district court this morning. The territory alleges that Sandoval was not of legal age when he was appointed to the office of sheriff, and did not own the necessary \$500 worth of real estate prescribed by law.

The defendant set up in his answer that he owned \$500 worth of real estate, and was of legal age, when he was appointed to the office.

The case is being tried this afternoon before Judge Baker as The Citizen is going to press. The territory has called the following witnesses: Perfecto Armijo, T. C. Gutierrez, H. R. Whiting, Jesus Romero, Doc W. F. Bledsoe, Mr. Matthews, Dr. G. W. Harrison, George H. Moore, Scott Knight, Nestor Montoya and Jesus Garcia.

**FOR THE RIO GRANDE.**

Hon. G. A. Richardson, a prominent New Mexico lawyer and politician, arrived in El Paso recently, en route from Santa Fe to his home at Roswell. He has been to the New Mexico capital for a week past in attendance on the meeting of the territorial commission on irrigation.

Mr. Richardson said to an El Paso News reporter: "I am on my way home from Santa Fe, where the irrigation commission has just closed a three days' session. This is the first meeting since the appointment of the new commission last month, and we effected a complete reorganization."

"The commission now comprises besides myself, George W. Knaebel, of Santa Fe; Hon. Frank Springer, of Las Vegas; Hon. Carl Dalles, of Belen, and C. E. Miller, of Anthony, Dona Ana county. I was re-elected chairman of the commission, and Mr. Knaebel secretary and treasurer."

"We were somewhat handicapped in our work from the lack of an adequate appropriation by the recent legislature and the failure to appoint a territorial engineer. However, we transacted a fair amount of very important business."

"The most important thing done by the session, and both of which directly rectify of great benefit to El Paso and section, was the setting aside of lands for development of artesian water in Dona Ana county, and to augment the surface flow of the Rio Grande."

"For the first purpose, 50,000 acres were recommended to be set aside out of the territorial public lands, the proceeds to be spent in sinking experimental artesian wells in Dona Ana county."

"For the second, a recommendation was made to the territorial land board to set aside and offer for sale to the highest bidder, 27,000 acres of the public lands, none to be sold for less than \$2 an acre. This money is to be spent in carefully going over the course of the Rio Grande below the Elephant Butte dam site, and in devising some means of increasing the surface flow (irrigation capacity) of the Rio Grande in southern New Mexico."

"We granted a number of other smaller locations to private individuals and corporations, and have got all our future work very well systematized."

"Irrigation development throughout New Mexico is making giant strides. Besides the works in the Rio Grande valley mentioned, the government will undoubtedly build and soon, the Hondo reservoir, west of Roswell. There is another big irrigation scheme now on foot to take water from the Pecos above Fort Sumner, and Chicago parties are actively building a canal system on the lower Pecos, between Carlsbad and Pecos City, Texas."

**GOV. RICHARDS.**

Death of This Well Known Wyoming Official.

Cheyenne, Wyo., April 28.—Gov. DeForest Richards passed away at his home here this morning at 8 o'clock of acute kidney disease.

THE PRESIDENT'S SPECIAL.

The Santa Fe is to be one of the several railroads over which President Roosevelt is to travel during his tour of the western states, and if orders are followed to the letter the manner in which that road will handle his special train will be a credit to it. All of the employees from the officials down to the section hands are to co-operate in making the president's trip over the Santa Fe a pleasant and successful one, devoid of wrecks or mishaps of any kind.

There is always an element of danger about a railroad trip which can only be overcome by the greatest possible care on the part of the employees, and for this reason the Santa Fe intends to take unusual precautions in guarding the president during the time he is traveling over the road. Special orders of an elaborate nature will be issued to all railroad employees and all depot agents will receive special instructions to see that these orders are obeyed. As it is now understood the company's secret service men will be brought into service and will always be in the vicinity of the train in order to see that no persons of a suspicious character are permitted near the train as long as it occupies a position on the Santa Fe right of way.

The special is to be given the right of way over all other trains. All trains will be held back as long as it is over, though so far it has been running on time to the second, really making a marvelous record. The best engines, handled by the best engineers, are being used to pull the train, and this is supposed to account for its always running according to the schedules.

The Santa Fe will take charge of the train at Trinidad, Colo., at 11 p. m. on Monday, May 4, and will be responsible for it between that point and Los Angeles, Cal. The train will arrive in Los Angeles at 1 p. m. on Friday, May 8, and will leave there at 6 o'clock the next morning via the Southern Pacific for the north.

The president will travel about 1,400 miles over the Santa Fe, which is the greatest number of miles he will travel over any single railroad. The next in line is the Union Pacific, over which road he will travel about 1,000 miles.

It was stated yesterday that one of the general officials of the Santa Fe is to accompany the president during his trip over the road. Who this official will be has not yet been decided, but it will probably be Paul Morton, third vice president. If Mr. Morton is not able to do so some other official of high rank will accompany the train.

One of the principal features of the president's trip over the Santa Fe is to be his visit to the Grand Canyon. He has expressed a wish to see this wonderful bit of scenery while en route to California and Santa Fe officials intend to see that he has every opportunity to do so. The Grand Canyon is one of the Santa Fe's strong cards, it being the only road that traverses the rim for any great distance, and the officials take great pride in the fact.

Several receptions are to figure in the president's trip over the Santa Fe, the principal ones being arranged at Albuquerque and Santa Fe, and will be attended by the citizens and territorial militia. All of the veterans of the Spanish-American war in New Mexico have been invited, especially the Rough Riders. Excursions will be run into Albuquerque and Santa Fe from all points in New Mexico.

One of the things concerning the president's tour of the west that is being remarked upon by railroad men is the excellence of the equipment of his special train. It consists of some of the finest cars turned out by the Pullman company and is thoroughly modern and up to date in every particular. The equipment of the train is as follows: Pullman baggage car, Pullman composite baggage and smoking car, Pullman dining car and Pullman sleepers "Senegal," "Texas" and "Elysian."

**TERRIBLE ACCIDENT.**

Burned beyond recognition, quivering with pain and crying with anguish, the once pretty 12-year-old Mary Reynolds, daughter of Mrs. Florence Reynolds, living at 515 West Coal avenue, now lies at her home at the point of death, the victim of using oil to start a fire. Mary Reynolds, although young in years, was a very dutiful child and a wonderful help to her mother, who works at a mangle in the Albuquerque Laundry, on South Second street. Mrs. Reynolds went to her work this morning as usual. Mary gets the meals for her mother, and put the dinner on the forenoon as of common. It was 11 o'clock and she was late. The fire in the kitchen stove was very low and little Mary was anxious that dinner should be ready for her mother promptly at noon. Although she had been cautioned about using kerosene, she thought this one time would do no harm. Taking a gallon can, the ordinary tin kind, about half full of oil, she began to pour the fluid on the few half dead coals in the stove. A deafening explosion, and the house was filled with flames. The girl's clothes took fire and in a mad attempt to get away from the flames, she fled from the house. This only fanned the flames, and they enveloped her. No one was about the house or premises, but the burning child's screams attracted Charles Quier, James Cosgrove and another young man and they rushed to the rescue. Messrs. Quier

ACCUMULATION OF TROUBLE.

Moreen W. Jurens, on conviction of violation of the Edmunds law, will serve out sentence of two years in the penitentiary at Santa Fe, and he is now wearing the stripes at that institution. Jurens came to this city from Denver, and the Republican, in commenting on his sentence, says:

Moreen W. Jurens, who was about Denver for a couple of years, was yesterday sentenced at Albuquerque by a United States judge to serve two years in the New Mexico penitentiary. As he is also sentenced to pay the costs of the prosecution, he will be called upon to serve an additional month, when he may obtain a temporary release by taking the poor debtor's oath. Even then he is not likely to enjoy any long freedom. An indictment was returned in Pueblo last week against him on the charge of using the United States mails to defraud. The fraud he attempted was on his wife's father.

Jurens met Miss Clara West in this city something like two years ago, and they were married shortly afterward. She was the daughter of a well-to-do couple in Soldier, Kas., and had come to Denver on a visit to friends. Soon after their wedding she discovered that her husband was not the most industrious man in the world, not the best provider. In relating her story to the postoffice authorities, she said that she had determined upon leaving him, but had been dissuaded by his mother, who wished her to try to reform him. On the 15th of last January, Jurens wrote to his wife's father in Kansas asking for \$150 at once. He had found, he wrote, an undoubted bargain in a house and lot. If he could get the money in Denver by the following Monday he could secure the bargain; otherwise he would lose it. He asked Mr. West to make the draft out in his name and to mail it to him at the general delivery in Denver. The old gentleman did not like the wording of the letter, but feared he might do the young people a wrong if he did not respond. He therefore had the draft made payable to Moreen W. and Clara A. Jurens, and sent it in a letter to Mrs. Jurens. When the young woman received the letter there was no draft in it, and the reading was that Mr. West "would send the draft," not that the draft was enclosed.

Mrs. Jurens went to her husband and upbraided him for applying to the old gentleman for funds, closing her lecture with the information that she would at once telegraph him not to send the money. She did not know that the draft was in the hands of the deceiving young hubby. The next day he cashed the draft at the First National bank and left Denver for Albuquerque. Then the wife says that she discovered that he had called at the general delivery, received her letter, taken the draft from it and replaced it in the office to be delivered to her. When she learned this she asked the postoffice authorities to arrest Jurens. The recent husband was discovered in Albuquerque in March.

He was then living with an Eva Cox as man and wife. When Jurens was arrested he admitted to living with the Cox woman. An indictment was, therefore, brought against him under the Edmunds law, which had been construed to operate against the Mormon polygamists in Utah, but was held to cover similar cases in all the territories.

Jurens has been sentenced for the violation of the Edmunds act, and when he emerges from the penitentiary in New Mexico is to be arrested under the indictment for using the mails to defraud.

**TAKING EVIDENCE.**

Springfield, Ill., April 28.—The boodle investigating committee did not make its report to the house this morning. Chairman Rinkner asked for further time and it was granted. The nature of Editor Hinman's testimony is causing much speculation. When the committee adjourned shortly before 2 o'clock this morning, no member would talk and will continue secretive. It is reported, however, that Mr. Hinman gave the committee a long list of names of persons who might have knowledge of bootlegging, actual or prospective. The committee will resume work at 8 o'clock this evening.

**Early Morning Speech.**

Shenandoah, Iowa, April 28.—The presidential train bearing the president and his party arrived here at 7 o'clock. Long before the train was scheduled to arrive people for miles around began to gather and nearly 10,000 greeted the president. Congressmen Hepburn met the president at this, his first stop in Iowa. The president mounted a large platform, erected for the purpose, and addressed the assemblage. The train left at 7:10.

Graham Brothers, doing business on Railroad avenue, are putting up a brick addition to the restaurant department of their resort.

Hon. Charles A. Spiess of Las Vegas, who has aspirations to represent New Mexico in Washington, is in the city today on legal business.

Mrs. Charles McDonald, who has been spending a couple of weeks in the city visiting friends, will leave this evening for her home at Roswell.

M. G. Garrity, until recently yardmaster for the Santa Fe at Winslow, arrived in the city this morning to renew old acquaintances. Mr. Garrity was at one time in the employ of the Santa Fe here.

THE PRESIDENT'S SPECIAL.

The Santa Fe is to be one of the several railroads over which President Roosevelt is to travel during his tour of the western states, and if orders are followed to the letter the manner in which that road will handle his special train will be a credit to it. All of the employees from the officials down to the section hands are to co-operate in making the president's trip over the Santa Fe a pleasant and successful one, devoid of wrecks or mishaps of any kind.

There is always an element of danger about a railroad trip which can only be overcome by the greatest possible care on the part of the employees, and for this reason the Santa Fe intends to take unusual precautions in guarding the president during the time he is traveling over the road. Special orders of an elaborate nature will be issued to all railroad employees and all depot agents will receive special instructions to see that these orders are obeyed. As it is now understood the company's secret service men will be brought into service and will always be in the vicinity of the train in order to see that no persons of a suspicious character are permitted near the train as long as it occupies a position on the Santa Fe right of way.

The special is to be given the right of way over all other trains. All trains will be held back as long as it is over, though so far it has been running on time to the second, really making a marvelous record. The best engines, handled by the best engineers, are being used to pull the train, and this is supposed to account for its always running according to the schedules.

The Santa Fe will take charge of the train at Trinidad, Colo., at 11 p. m. on Monday, May 4, and will be responsible for it between that point and Los Angeles, Cal. The train will arrive in Los Angeles at 1 p. m. on Friday, May 8, and will leave there at 6 o'clock the next morning via the Southern Pacific for the north.

The president will travel about 1,400 miles over the Santa Fe, which is the greatest number of miles he will travel over any single railroad. The next in line is the Union Pacific, over which road he will travel about 1,000 miles.

It was stated yesterday that one of the general officials of the Santa Fe is to accompany the president during his trip over the road. Who this official will be has not yet been decided, but it will probably be Paul Morton, third vice president. If Mr. Morton is not able to do so some other official of high rank will accompany the train.

One of the principal features of the president's trip over the Santa Fe is to be his visit to the Grand Canyon. He has expressed a wish to see this wonderful bit of scenery while en route to California and Santa Fe officials intend to see that he has every opportunity to do so. The Grand Canyon is one of the Santa Fe's strong cards, it being the only road that traverses the rim for any great distance, and the officials take great pride in the fact.

Several receptions are to figure in the president's trip over the Santa Fe, the principal ones being arranged at Albuquerque and Santa Fe, and will be attended by the citizens and territorial militia. All of the veterans of the Spanish-American war in New Mexico have been invited, especially the Rough Riders. Excursions will be run into Albuquerque and Santa Fe from all points in New Mexico.

One of the things concerning the president's tour of the west that is being remarked upon by railroad men is the excellence of the equipment of his special train. It consists of some of the finest cars turned out by the Pullman company and is thoroughly modern and up to date in every particular. The equipment of the train is as follows: Pullman baggage car, Pullman composite baggage and smoking car, Pullman dining car and Pullman sleepers "Senegal," "Texas" and "Elysian."

**TERRIBLE ACCIDENT.**

Burned beyond recognition, quivering with pain and crying with anguish, the once pretty 12-year-old Mary Reynolds, daughter of Mrs. Florence Reynolds, living at 515 West Coal avenue, now lies at her home at the point of death, the victim of using oil to start a fire. Mary Reynolds, although young in years, was a very dutiful child and a wonderful help to her mother, who works at a mangle in the Albuquerque Laundry, on South Second street. Mrs. Reynolds went to her work this morning as usual. Mary gets the meals for her mother, and put the dinner on the forenoon as of common. It was 11 o'clock and she was late. The fire in the kitchen stove was very low and little Mary was anxious that dinner should be ready for her mother promptly at noon. Although she had been cautioned about using kerosene, she thought this one time would do no harm. Taking a gallon can, the ordinary tin kind, about half full of oil, she began to pour the fluid on the few half dead coals in the stove. A deafening explosion, and the house was filled with flames. The girl's clothes took fire and in a mad attempt to get away from the flames, she fled from the house. This only fanned the flames, and they enveloped her. No one was about the house or premises, but the burning child's screams attracted Charles Quier, James Cosgrove and another young man and they rushed to the rescue. Messrs. Quier

### A DIAMOND DRILL EXPERT.

He Will Make 12,000 Feet of Borings to Test the Hagan Coal Deposits.

F. A. Plimley, of Los Angeles, Cal., was in Santa Fe Saturday and departed in the afternoon in company with General Manager W. S. Hopewell, of the New Mexico Fuel & Iron company for Hagan. Mr. Plimley is a diamond drill expert, and went to Hagan to do some testing for the company.

Mr. Plimley will spend five months in the Hagan coal fields and during that time holes will be bored aggregating 12,000 feet. The drill used brings to the surface a sample of everything it passes through. If it cuts a five foot vein of coal a sample of that coal is brought to the top and the core carried up by the drill is as thick as the vein.

Mr. Plimley has been prospecting for coal with a diamond drill for the past sixteen years and is in consequence a very expert and capable man in that line.

He has spent considerable time in the United States geological survey and superintended the placing of machinery used in constructing the dam sites on the Colorado river at Needles. He has for the past few months been at Los Angeles, in the employ of the state of California.

### Ornery People at Las Vegas.

According to the Optic there are some very mean, dirty people at Las Vegas. That paper says: There are some ornery people in the city to be sure. Imagine the feelings of those who had labored on an alley in the city until it was as clean as could be wished, to find a few hours later a choice assortment of bottles, rags, tin cans and such like littering the place. One of the ladies declared that for the first time in her life she felt like swearing.

### A SANITARIUM.

Two Eastern Physicians Seek a Location Here.

Yesterday's mail brought the information that Drs. McFee and Osborn of New Market, Iowa, were desirous of locating a modern sanitarium at Farmington, and would advertise throughout the east the many benefits of our health giving climate, if citizens saw fit to donate a suitable site for the building.

The facts are, there are many beautiful sites on the north and east borders of the town, that are now owned by some of our most public spirited citizens and could be secured for the purpose at a minimum cost. The gentlemen seeking the investment are thoroughly responsible and men of moderate means, who invite correspondence and are situated to carry out all they promise.—Farmington Hustler.

### The Five Stages.

From Life.

At 17 she said: "I want a man who is ardent in all of love's ways and whose passionate devotion may never flag. He must be tall and broad-shouldered and handsome, with dark, flashing, soulful eyes, and, if need be, go to the ends of the world for my sake."

At 20 she said: "I want a man who unites the tender sympathy of a woman with the bravery of a lion. I don't mind his being a little dissipated, because that always adds a charm. He must be, however, accomplished to the last degree, and capable of any sacrifice for my sake."

At 25 she said: "I want a man who unites with an engaging personality a complete knowledge of the world, and if, of necessity, he happens to have a past, he must also have a future; a man whom I can look up to, and with whom I can trust myself at all times without the slightest embarrassment."

At 30 she said: "I want a man with money. He can have any other attributes that a man ought to possess, but he must have the money, and the more he has the better I will like it."

At 35 she said: "I want a man."

### MORE WAR TAX.

Rumors That Papago Indian Chiefs Are Assembling Warriors to Invade Mexico.

A special to the Denver News from Phoenix, Ariz., says: Advice state that the Papago chiefs have sent runners in all directions to assemble fighting bucks at Ranchita Barrajito, preparatory to an uprising. Indians are holding their second recent powwow and are fasting on stolen cattle and drinking mesquite, a fiery Mexican tanglefoot. Their apparent intention is to invade Sonora, Mexico, and slaughter Mexicans against whom they have real and fancied grievances. The trouble grew out of a system of wholesale smuggling which has been conducted quietly for some time. Recently large quantities of mesquite were smuggled over the international line by Mexican outlaws and white renegades and sold to the Indians at fabulous prices. The reds had a big drunken brawl near the Gunsite mine, ending in a dance of fierce pantomime and much war talk. The smugglers

stole cattle which they drove over the line to exchange for liquor.

Five rangers commanded by Jack Foster, lieutenant, have reached the bad lands and are reconnoitering. Reinforcements will arrive unless the excitement subsides immediately. Cattlemen reported to the governor here today that the redskins have been unusually active and pernicious in crime rustling lately, and they prayed for greater protection.

United States Marshal McCord has arranged to press passes into immediate service for the government should they be required. C. H. Utting, deputy United States marshal, who was thought to be slain by the Indians, reached Phoenix today with one Indian prisoner. Accompanied by three Mexicans, he went to Ranchita Barrajito more than a week ago to arrest a band of smugglers. The renegades were surprised and a pitched battle in the dark ensued, in which two redskins were slain and one captured. Utting was separated from his party and had a series of narrow escapes for four days, herding redskins over ninety miles to the borders of civilization.

### FAYWOOD HOT SPRINGS.

Special Correspondence.

Paywood Hot Springs, April 23.—Among recent arrivals at this resort and sanitarium are: Ralph C. Ely, New York; W. E. Brock, Cook's; Mr. and Mrs. G. L. Hoyt, El Paso, Texas; P. R. Smith, Jr., Deming; F. T. Beck, Harry L. Craig, Claude Betson, San Marcial; Mr. and Mrs. A. J. Clark, Deming; Miss M. Raymond, Salt Lake; Miss Tillie Adams, Chicago; I. Holzman, R. V. Newsham, Silver City; Trafford E. Smith, Philadelphia; Wayne McV. Wilson, Diamond Bar, Calif.

Mr. Ely is president of the Faywood Concentrates company and Mr. Brock is resident manager of the company's plant at Cook's Peak.

Mr. Hoyt is a pioneer of El Paso and has an extensive furniture and carpet business in that lively city.

P. R. Smith, Sr., is well known promoter of Deming's interests who has recently succeeded in placing on a firm basis the proposed sanitarium at that promising little city.

Messrs. Beckett, Craig and Betson are civil engineers of the Santa Fe who are now laying out some changes and improvements on the track in the vicinity of Whitewater Junction.

Mr. Clark is a pioneer of Deming, owner of several fine properties and a leading dealer in groceries, provisions, hay and grain.

Mr. Holzman is chief clerk and Mr. Newsham is one of his assistants in the big mercantile house of Max Shutz.

On the Gila river, in a range of lofty, rugged mountains, is the Diamond Bar cattle ranch, of which Messrs. Smith and Wilson are co-owners with other eastern gentlemen.

DARNOC.

### OFFICIAL MATTERS.

A postoffice has been established at Hermanas, Luna county.

### Notaries Appointed.

Governor Otero appointed the following notaries public: Ernest Wirt, Lumberton, Rio Arriba county; Frank Hutchison, Alamogordo, Otero county; Alexander J. Nesbit, Roswell, Chaves county; Angus McGilbreay, Chilili, Valencia county.

### Agent Selected.

The San Andres Mining company of Colorado, with principal office at Colorado Springs, which has a capitalization of \$100,000, filed notice at the office of the territorial secretary of the appointment in this territory of an agent, H. M. Daugherty, whose office is at Socorro.

### Maps Filed.

The Eastern railway of New Mexico has filed maps at the office of the territorial secretary on the 11th, 12th and 13th sections and of the amended station yards at Belen.

### New Mexico School System.

The following extract from a letter received by Colonel J. Franco Chavez, territorial superintendent of public instruction, indicates that people in the states are alive to the forward strides New Mexico is taking. It is written by P. G. McWhinney, superintendent of the public schools at Hesperia, Mich., and refers to the last annual report of Colonel Chavez: "Please accept my thanks for the report which you sent me a few days ago. I have read it with much interest and have noticed strides along educational lines. Certainly your people have many things to be proud of."

### DEATH CLAIMS G. D. BOWMAN.

Prominent Citizen of Mesilla Park Joins the Silent Majority.

George D. Bowman, an aged and highly respected citizen of Mesilla Park, died there on Monday of old age. The funeral was held Tuesday. Deceased was the father of the prominent Las Cruces banker, H. D. Bowman.

Mr. Bowman was a very aged man, being over 80 years of age. He was a banker until he retired from that business a few years ago when his son, above mentioned, succeeded him. He had been a resident of Mesilla Park for over thirty years and was the first register of the United States land office at that place. He continued in that office when it was moved to Las Cruces and held the position for three consecutive terms. He was a model officer.

The Daily Citizen, 15 cents per week.

## OF LEGAL INTEREST.

Upon the application of the board of regents of the New Mexico College of Agriculture and Mechanic Arts an alternative writ of mandamus against the territorial treasurer has been granted by Judge Frank W. Parker, of the Third judicial district at Las Cruces. This writ is returnable and answer thereto is to be made before the judge in chambers of the Third judicial district at Las Cruces on May 2 next. In the alternative writ, J. H. Vaughn, territorial treasurer, is commanded to transfer the sum of \$25,000 from certain territorial sinking funds to the fund for the maintenance and support of the College of Agriculture and Mechanic Arts at Mesilla Park under the provisions of the appropriation law passed by the Thirty-fifth legislative assembly. Solicitor General E. L. Bartlett has prepared and filed a motion to quash the writ for the reasons, that application therefor was improperly made, existing statutes requiring that any and all actions against territorial officials be brought in the district court for the county wherein the territorial capital is located and for other reasons as set forth in the motion to quash. The solicitor general also holds that the legislative assembly had no power to divert sinking funds from the purpose for which they were originally collected.

### Modification of Injunction Denied.

Forest Superintendent I. B. Hanna attended a hearing before Judge Mills at Las Vegas upon the application of Margarito Romero for a modification of the present injunction proceedings against him, restraining him from further cutting of timber from within the Pecos river forest reserve. The application requested permission to saw logs heretofore cut and now at the saw mill in the reserve, pending the decision of the injunction case. The petition to modify the injunction was refused, and the final hearing of the injunction case set for May 12.

### A NARROW ESCAPE.

Was Tangled in Wreckage of Runaway Delivery Team.

After running away last Thursday and taking a spin of two miles out of town, the delivery team of the Silver City Mercantile company apparently decided the affair was quite an agreeable novelty and repeated the event last Saturday shortly after noon, says the Independent.

The team was being driven down Yankee street by Harry Bell and started to make things lively when near the Old Man corral. When in front of the independent office Mr. Bell tried to turn them into the fence opposite, but the horses turned so short that the wagon was all but upset. Bell started to jump out, but seeing the wagon wasn't going over, attempted to regain his position when the high seat tipped over. With his hand caught in the lines and one foot fast he hung head down for a moment in a very dangerous position. When he finally did get loose he fell with his entire weight on his left wrist, breaking the small bone and tearing the ligaments loose. As a result of his injury, Bell will be incapacitated for active duty for some time. After getting started the team ran about four blocks and were caught near the engine house. The most fractious of the two horses was sold within twenty minutes after the runaway.

### THE ODD FELLOWS.

They Celebrate the Eighty-fourth Anniversary Last Night.

Odd Fellows' hall on South Second street was filled last evening with Odd Fellows, with their wives, sisters, aunts and uncles, to celebrate the eighty-fourth anniversary of this wonderful order, whose membership is now over a million and a quarter. Of this number New Mexico contributes over a thousand and has twenty-five subordinate lodges.

The hall was filled, every seat being taken. The program was enjoyable; the refreshments excellent and every one had a good time. The exercises, which were under the direction of H. E. Fox, were commenced soon after 8 o'clock by a piano solo by Miss Bowers, after which Miss Maude Summers delighted the audience with a song. Miss Brearup then told about the little girl's notes and mits to the delight of all, and Miss Rose Huntzinger played the piano for the next number. John H. Stingle, gave an able and interesting talk on Odd Fellowship. In the early part of the Eighteenth century first mention is made of Odd Fellows and by 1788 the order had acquired considerable prominence for the motto of the order was then floated, which inspired the poet, James Montgomery, to write the first Odd Fellows' poem, entitled, "Friendship, Love and Truth." It was at Baltimore, April 26, 1819, just eighty-four years ago yesterday, that Thomas Wilkey associated with four others, organized Washington lodge, No. 1, Wilkey taking the obligation in the presence of the four others and then administering the obligation to them. This is considered the beginning of the I. O. O. F. of America. From that date to the present time the prosperity of the order has been phenomenal. Although of a humble origin it has become the greatest, wealthiest and most powerful fraternity in the world.

Its object is the elevation and improvement of mankind, morally, intellectually and socially. It opposes all forms of vice and immorality, and it

indicates virtue, philanthropy and brotherly love. Realizing the need of co-operation and mutual assistance in all the affairs of life, its members are required to aid and protect one another, to visit the sick, relieve the distressed, bury the dead and protect and educate the orphans. It endeavors to form in mankind a universal brotherhood, bound by the golden chain of "Friendship, Love and Truth," the motto of the order.

Duncan Bell sang a solo, then Miss Daisy Huntzinger recited about the bad girl, which pleased exceedingly. A duet followed by Mr. Bell and Miss Summers, and the program was closed by a short and witty recitation which was charmingly rendered by Mrs. Harry Strong, wife of the noble grand of No. 17. All in all, the program was fine and reflects no little credit on those who took part.

After the program the dining room was thrown open and over 150 participated in the refreshments, consisting of sandwiches, cake, ice cream and coffee. During the intermission and at the request of numerous friends, Miss Menaul, the brilliant pianist, favored the gathering with several selections which were encored. Dancing was enjoyed until the midnight hour, the music being furnished by Mrs. Rosa Berry.

The local organizations who had the affair in charge were Albuquerque encampment, No. 4, Albuquerque lodge, No. 1, and Harmony, No. 17.

### DISTRICT COURT.

The case of the territory vs. Sheriff Alfredo M. Sandoval of Sandoval county was continued before Judge Baker in the district court this morning. This case is a quo warranto proceeding against the sheriff, claiming that at the time he was appointed by the county commissioners he was not of lawful age, and he did not own \$500 worth of real estate, which the law orders under the statutes.

The defendant side of the case was commenced yesterday afternoon and continued all of this forenoon. County Commissioner Gutierrez of Sandoval county and Messrs. Armijo, Sandoval, Romero and Cordova, all of Sandoval, were witnesses for the defendant. All of their evidence was given in hopes to show that the sheriff was the owner of a tract of land that was valued at \$500.

The land in which the sheriff claims ownership is worth \$500 is known as a "Spanish suerte" and is only a few yards wide and seventeen miles in length. All of the testimony of the respondent's witnesses was introduced to show that he was the owner and the land worth \$500, but some of the testimony was weakened on cross-examination. The defense rested just before dinner. The territory then moved the court to enter judgment for the reason that the defense had failed to prove ownership to the property, and, even if ownership was proved, that the value of same was not \$500. The case is off this afternoon, and the question is down to this: Does he own the property in question, and is it worth \$500? If he does own it, and it is worth \$500, he holds the office.

### Ruled Against Sandoval.

A telephone message, received at 4 o'clock from the court house, gives the information that the court rendered its decision against Sandoval, ousting him from the office of sheriff of Sandoval county. The governor will now appoint a sheriff to fill the vacancy occasioned by the court's ruling.

### Case Postponed.

The quo warranto case against Messrs. Gutierrez and Sanchez, county commissioners of Bernalillo county, set for today, was postponed until Saturday, May 2.

### N. M. CLARK PASSED AWAY.

Death Due to Alcoholism—Had Lived in Santa Fe Many Years.

N. M. Clark expired in the lodging house conducted by H. B. Motley, on Galisteo street, Santa Fe, some time Tuesday night, while under the influence of liquor. Clark had been drinking heavily all day and went to the place mentioned some time before the midnight hour. He went to the room of Matt Breeden and fell on the floor where he was found by the occupant of the room at about 5 o'clock Wednesday morning. When Breeden awoke and saw the form of a man lying on the floor of his room he immediately investigated and found that it was Clark and that he was evidently dead. He spread the alarm and the proper officials were notified. Justice J. M. Garcia impaled a coroner's jury and held an inquest, the verdict being that death was due to alcoholism. The remains were turned over to Charles Wagner, the funeral director, who laid the remains away in Potter's field yesterday afternoon. Clark was about 60 or 65 years of age, had been a resident of Santa Fe for a score or more years and made his living by painting and doing odd jobs. Clark came to the capital from Illinois and it is said that he was at one time quite well to do in that state. He claimed to be a veteran of the civil war, but no papers of any kind were found on his person nor among his effects that would substantiate that claim.

The Citizen publishes elsewhere, in today's issue, the powers granted the territorial board of equalization by the new law passed by the recent territorial legislative assembly. The article should be carefully read by all taxpayers.

## TOWN OF LAS CRUCES.

Special Correspondence.

Las Cruces, N. M., April 25.—Las Cruces is not a bad place to live. In fact it is a real pleasant place to spend at least nine months of the year. With the exception of the months of June, July and August and possibly a part of May the weather is delightful. The growing number of winter guests who stop there, which increases year by year as the virtues of the climate and the fame of "The City of the Crosses" becomes known abroad as a health resort, the people of the little town are increasing their facilities of entertainment thus making the place attractive from a standpoint of pleasure as well as health. The latest move in this line is the beautifying of the city by a pretty little park and the setting out of shade trees. The ladies of Las Cruces are active in this good and worthy work and admirably are they succeeding.

The pretty little park, although only a few acres of shade trees, shrubbery, flowers, a neat little lattice work summer house and seats distributed conveniently about, is a pleasant greeting to the weary, travel worn tourist, who alights at the depot near by and wends his way up to the town. He may have come in quest of health and he may be only a commercial traveler, it matters not which; the flowers, the green things of the park by which he passes is cheering and the separation from eastern environments, if he comes from the east, is made more easy. The ladies are achieving much success. The park at present is resplendent with the green, the purple and the white of lilies. Every walk wending from every corner to the summer house in the center is bordered with lilies, now in full bloom. Money to defray the expenses of hiring a gardener and pay for water rights and other items is raised by the ladies in giving teas and socials and by private contributions.

The congregation of the Presbyterian church now attending services in a new and well appointed house of worship are soon to boast of a new paragon for their pastor. The new rectory is to be adobe and will contain four rooms. The foundation of stone has been laid and the adobe are being made, so that the new house will soon begin to take form.

Mrs. Louis Hostetter, wife of one of the most prominent merchants of Las Cruces, has gone to Omaha, Neb., to visit a sister, Mrs. Rosewater, wife of Dr. Charles Rosewater, a prominent physician of the Nebraska metropolis. Mrs. Hostetter expects to be absent from Las Cruces about two months.

Farmers of the vicinity of Las Cruces and the Mesilla valley are in exceptionally fine spirits this spring on account of the exceedingly flattering crop prospects. They feel assured that the Rio Grande will furnish sufficient water this summer for all purposes. With an abundance of water the Mesilla valley is no where excelled in productive proclivities. Its fertility of soil is adapted to almost every species of kind of verdure, whether tree, shrub, plant, vegetable or grain.

The weather so far this spring has been very favorable to fruit. The trees are now in full foliage and garnished with bloom and buds. Especially flattering are the prospects for a banner crop of peaches. The season of frosts is past and the only possible dread now is from insects. Wheat and oats are growing nicely. Alfalfa is making a wonderful growth. Some fields are now about a foot high and will soon be ready for the first cutting. Land in this part of the Rio Grande valley well set with alfalfa is worth \$200 per acre and some few transfers in real estate are taking place.

### FURIOUS FIRE NEAR HANOVER

B. T. Link's Milk Ranch Burned to the Ground—Narrow Escapes.

The dwelling house on B. T. Link's milk ranch just below Hanover was entirely destroyed by fire late Sunday night, together with all its contents, says the Silver City Independent.

The family occupying the house, which included the dairyman and his wife and their four children, narrowly escaped with their lives. It is highly probable that but for the courageous efforts of James Dickerson and Robert Bible, of the Hanover fire department, several fatalities might have ensued.

The fire started in the rear room of the dwelling. It is believed that the young man who occupies this room went to bed without extinguishing his candle, which was short and which soon burned very low, lighting a ball of straw which stood near. The flames spread with amazing rapidity. Dickerson and Bible happened to be passing by at the time and they at once entered the house and aroused the sleepers. There was no opportunity to save any of the belongings, not even clothing, and only by hard work was the fire confined to its starting point.

The inflammable nature of the contents of the house added greatly to the fury of the flames and in a very short time the house was like a blazing furnace, and the heavy, thick smoke made it all the more difficult to enter. Several of the children of the family are quite young and were unable to assist

themselves and they were the first to be cared for. When it was known beyond question that all occupants of the dwelling had been saved, an effort was made to save a portion of the furniture, but this effort came to nothing.

A great many people were attracted to the scene of the fire and the homeless ones were taken to Hanover and clothed and cared for.

### GRAPHIC MINES TO RESUME

This Well-Known Property Will Be Again Worked in a Short Time.

Extensive operations will soon be resumed on the Graphic group of mines in the Magdalena mining district, Socorro county. C. T. Brown, the well-known mining engineer and expert of Socorro, and Captain A. B. Fitch, who has been the lessee of the Graphic mines for many years, have made a combination and have had the ores of the mines thoroughly tested. A large mill for the treatment of the output of the Graphic mines will be erected soon. The ore in sight is enough to keep a mill of fifty tons capacity per day in operation for four years.

### J. M. Archuleta Sentenced.

During the term of the district court for the southern district of Colorado, held at Pueblo, last week, J. M. Archuleta, of Lumberton, Rio Arriba county, was tried and found guilty of illegally selling liquor to the Indians on the Jicarilla reservation and sentenced to a fine of \$100 and costs and sixty days' imprisonment in the county jail.

### DIDN'T WANT TO COME.

Accused of Perjury Refused to Listen to Reading of Warrant.

Last Monday a warrant for the arrest of Neil Gosnell for perjury was placed in the hands of Constable Robins. Gosnell is section foreman at Guadalupe and the constable, accompanied by Jack Lynch, went there to make the arrest. Gosnell was found near his house and the constable began the reading of the warrant. Gosnell, as soon as he learned what the officer was after, ran into the house, closed and locked the door. The officers were about to resort to force when Mrs. Gosnell advised her husband to surrender.

Gosnell was brought to town and appeared before Justice Morse for examination. It developed at the hearing that the prisoner had given an order to one of the Santa Rosa merchants and afterward denied his signature. Justice Morse bound him over to the grand jury in the sum of \$1,000. Bail was furnished.—Santa Rosa Sun.

### CAUSES UGLY TALK.

Leatherman Should Have Squared Himself Before His Departure.

Some ugly talk is being indulged in throughout the city on account of the departure of R. E. Leatherman, and quite a large number of bills are left unpaid. It is hinted that Leatherman is guilty of selling his horse, buggy and harness and securing money for the outfit from a Mr. Wolf, when he had previously sold tickets at \$1 each for a raffle drawing of the entire outfit. It is learned also that Jacob Korber does not intend to let go of the buggy, regardless of the purchase, for the reason that the buggy was purchased by Leatherman on the installment plan, and that he (Korber) holds a lease for the payment of the unpaid notes. Some of Leatherman's creditors, or rather some of those who got bit in the raffle scheme, was thinking seriously this morning of stopping the young man up the road by telegraph, but he was allowed to pursue on his way to Washington, D. C., without interruption. Matters are ripening for a good article on Leatherman's departure, and it is quite likely The Citizen will have something more to say on the subject, especially the raffle scheme, later on. Mr. and Mrs. Leatherman left for Washington, D. C., this morning, where their parents, who are influential people, reside.

### Later.

It is learned this afternoon that United States Marshal Foraker, under whom Leatherman acted as deputy marshal, wired Leatherman at Las Vegas regarding his seamy transactions asking if he intends to make good the people who purchased tickets in his horse raffle scheme. Leatherman, fearing arrest, wired back that he would "make good." Mr. Wolf says he acted in good faith in purchasing the horse and buggy from Leatherman and to bind the bargain he paid him (Leatherman) forfeit money, paying him the balance yesterday. It is also understood that Leatherman took from the United States marshal's office a Winchester rifle, which did not belong to him.

Although the ladies of the Episcopal church had chicken pies galore when they began serving supper in the Barnett building last night, the pie was all gone before the people, who came, were all fed. The room was too small to seat all the people and a great many stood up and waited only to be turned away without supper because it was all gone. The pie was fine, so was the salad, the coffee, the ice cream and many other good things. It was a great success and the ladies cleared more than \$100.

## LAND MATTERS.

A. Keen, commissioner of public lands, deposited with the territorial treasurer yesterday \$2,026.26, some having been received from the United States as 5 per cent of the net proceeds from the sales of public lands by the United States within the territory for the year ending June 30, 1902. This deposit is for the use of the public school permanent fund, the interest of which only is to be expended for the support of the public schools in the territory in accordance with section 4, act of congress, approved June 21, 1898, this being the fourth payment made by the United States to the territory for the use of the public school permanent fund in accordance with the above mentioned act of congress. There has been paid by the United States to the territory for use of this fund as follows: First payment for year ending June 30, 1899, \$894.38; second payment for the year ending June 30, 1900, \$1,291.12; 291.12; third payment for year ending June 30, 1901, \$2,530.45, thus making a total of \$6,742.21 to the credit of the public school permanent 5 per cent fund.

### School Land Lease Approved.

A. A. Keen, commissioner of public lands, has received from the department of the Interior 35 approved leases of school sections 16 and 36, representing 22,400 acres. Duplicate leases have been forwarded to the successful applicants.

### Entries Recorded.

Homestead—Thomas Brito, Chaves, 160 acres in San Miguel county; Joseph S. Byrd, Eastview, 160 acres in Valencia county; Eugenio Baros, Galisteo postoffice, 159 acres in Santa Fe county; Atanacio Chavez, Grants postoffice, 160 acres, Valencia county; Herman L. Salisbury, Raton postoffice, 160 acres, Colfax county; J. Vialpando, Jardin postoffice, 160 acres, Mora county; Modesto Padilla, Jardin postoffice, 159 acres, Mora county.

Mining—M. K. Long, 10 acres in the Edison land, situated in Taos county.

Desert Land—Frank Dibert, Santa Fe postoffice, 280 acres in Valencia county.

The following coal declaratory statement was filed Monday: Leonard Skinner, Golden postoffice, sw 1/4, sec. 14, twp. 10 north, range 5 east, Santa Fe county.

### Land Sale.

The following sale of land was made E. F. McCarty's Hall's Peak, 160 acres in Colfax county.

### Borden-Carstens.

Fulton Borden, of Albuquerque, and Miss Ella Carstens, of Manitowac, Wis., were united in marriage at the home of the Rev. C. F. Taylor, at Socorro, N. M., on Wednesday, April 29. Mr. Borden is the son of Mr. and Mrs. B. B. Borden, of Albuquerque, and is well and favorably known in Socorro circles. Miss Carstens is a niece of John Becker, of Belen. She was formerly a school teacher in the public school at that place. The hosts of friends of the young couple wish them every happiness in their wedded life. They will reside at Belen.

Regular Sabbath services will be held at Temple A.W. Friday evening, at 7:45. Miss Braithwaite and Mrs. Israel conduct the choir. Rabbi Jacob H. Kaplan will lecture on "Suspension and Reversion of Judgments." The public is welcome.

### Bazaar Receipts.

As every one knows, the bazaar which closed Monday evening, was a success. The Citizen gives below a partial report, almost complete, of W. J. Johnson, assistant cashier of the Bank of Commerce, who acted as treasurer.

The report is interesting and is as follows:

Treasurer's Statement, St. Joseph's Sanitarium Bazaar, April 20 to 27, inclusive.
