# MINOR REVOLUTION IS REPORTED IN MEXICO; FEDERAL TROOPS READY

## FORMER FOLLOWER OF VILLA IS HEAD OF REVOLT; FIRST CLASH EASILY WON BY GOVERNMENT

Three Small Bridges on Mexican Central Railroad Burned; Rodriguez, Rebel Leader, Under \$1,000 Bond to Appear in Federal Court at El Paso for Immigration Law Act.

(By The Associated Press.) El Paso, Tex., Feb. 9.—Thirty revolutionists under command of Nicolas Rodriguez were defeated in battle with federal troops at Sahmalyan, Mexico, thirty miles south of here at 3 p. m. today. Official report of the fight was received by Gen. J. J. Mowbray, commander of the troops, today. Rodriguez, who is a former follower of Francisco Villa, is reported to have crossed the border from Texas on Wednesday night at a point about thirty miles southeast of El Paso. Before being intercepted by federal troops the band managed to burn three small bridges on the Mexican Central railroad. A repair crew was sent out of Juarez early today and railroad officials announce that service will be restored within a few hours.

Rodriguez is under \$1,000 bond to appear in the federal court here to answer the charge of violating the immigration laws. He crossed the border last April near Presidio, Tex.

General Mowbray said he had an ample force in the field and that his men had instructions to keep on the trail of Rodriguez until every member of the band is killed or captured.

According to General Mowbray, Rodriguez received a sum of money from a revolutionary junta com-

# COMPLETE PROBE OF TAYLOR CASE IS LAUNCHED BY STATE ATTORNEY

Scattered Threads of Evidence Being Gathered for Weaving Into Pattern to Show Nature of Murder.

PACKET OF LETTERS OF MABEL NORMAND TAKEN

Contents Not Disclosed and Film Star Is Silent; Rumor That Revolver of Slayer Is Found.

(By The Associated Press.) Los Angeles, Calif., Feb. 9.—Arthur Hoyt, a screen actor, who said he had known William Desmond Taylor six years, and a Captain Robertson, who was an officer in the American army, declared he had met Taylor, an officer in the British army overseas, presented themselves at the district attorney's office tonight in response to summons from the district attorney.

Neither Hoyt nor Robertson has mentioned heretofore in connection with the case. They appeared at the district attorney's office for the first time since the investigation into Taylor's death and waited some time for him to return from dinner. Neither would indicate he knew anything further about the murder.

Two other witnesses, who declined to give their names, joined Hoyt and Robertson in waiting for the district attorney.

They were identified by newspaper reporters as Verne Dumas and one Harrington, said to be brokers and residents of the bungalow court where Taylor lived.

Mr. Watkins and his chief deputy, W. C. Doran, arrived shortly after 8 o'clock.

Captain Robertson was eloped with the officials for forty minutes. When he returned, his newspaper initials were "R. A." and that he had known Taylor intimately for several years. He added he had called at the Taylor apartment house on the morning the body was found "a friend." His call was after the discovery of the body, he said.

It was said later that the witness tonight was giving descriptions of the Taylor apartment, its furniture and the latter's arrangement.

**Complete Probe Planned.**

Los Angeles, Calif., Feb. 9.—A new and comprehensive investigation into the circumstances surrounding the slaying of William Desmond Taylor, noted film director, was under way here today, directed by the district attorney.

Yesterday and today the district attorney gathered into his hands the scattered threads of evidence that had been drawn out by the investigating officers and independent investigators, and tonight he was attempting to weave them into some sort of pattern that would disclose what transpired just before Taylor lost his life.

One item gathered for this prospective fabric of fact and foundation was a packet of letters written by Mabel Norman, a former picture actress, and which disappeared from Taylor's home after his death. These letters were discovered yesterday concealed among Taylor's effects. They contained names of several women, one of whom Taylor had known, and which disappeared from Taylor's home after his death. These letters were discovered yesterday concealed among Taylor's effects.

Witnesses questioned today in the investigation, which it was announced would be complete, and would take other inquiries into consideration only so far as facts learned by them might be helpful.

Charles Woodling, a general manager of the Famous Players-Lasky studio here, at which Taylor was employed as a director, Mr. Eyrton testified at the coroner's inquest that Taylor's death had been caused by a bullet that had entered the body and which he insisted that the body be examined for wounds, and it was his insistence, according to his statement at the inquest, that caused discovery of the fatal wound.

Mr. Eyrton had a conference today with the district attorney, Thomas Lee Woodling, and another one in which W. C. Doran, an assistant district attorney, as well as Mr. Woodling participated.

Others summoned to the district attorney's office today and questioned included Mr. and Mrs. Douglas MacLean, whose home adjoined that of Taylor, and who had given statements at the inquest that he was the neighbor, Henry Peavoy, Taylor's colored houseman, who has done little since the shooting but to submit to interrogation about what he knows of it. Howarth, chief chauffeur, and Harry Fellows, brother of the chauffeur, and an assistant driver, were also questioned fully. The district attorney declined to disclose the results of these interviews.

Another development today was a well defined rumor that some person had found a revolver, possibly the weapon with which Taylor was slain, shortly after the murder became known. This rumor was brought to the attention of the district attorney and the police, both officers disclaiming any knowledge of the purported discovery, but both saying that cognizance was being taken of the rumor and efforts made to prove or disprove it.

While these local developments kept the local officers engaged, word came that San Diego officials believed that the body of a suicide

# Only Posed Photo of Ex-Kaiser, Obtained After Months of Effort

Ex-Kaiser Wilhelm, the ex-kaiserin and Prince Joachim's boy, posing for the camera, and an enlarged photo of the ex-kaiser's face made from the same photo.

New York, Feb. 9.—(Special.)—The ex-kaiser, as newspaper readers know, was one of the most photographed men in the world before and during the war.

When his downfall came and he fled to Holland, his liking for that kind of publicity changed with other habits and from the role of poster he turned completely about face and fostered a positive hate for the lens.

As soon as newspaper men became aware of the condition of the former emperor, they started machinery in operation to secure photographs of him and the ex-kaiserin. This gave strict orders to his entourage to rid his house of all cameras and to take precautions against visitors carrying them in.

More than two years ago a Dutch photographer, hiding in a hay cart, was able to make a few long-distance snaps of him. The publication of these put the subject into a rage.

With this story are points of the former emperor's life, therefore, of the ex-kaiser, obtained since he went into exile. The effort to get the photo, as told by Bert Garal, London manager of the Keystone News company, who obtained it, is therefore, interesting and thrilling.

**Garal's Story of Efforts.**

Says Garal: "After the Kaiser took up his home at Doorn, his youngest

son, Prince Joachim, killed himself. This was a severe blow to the ex-king and to the Kaiserin, to whom Joachim was ever the baby of the family.

"So serious, in fact, was the condition of the Kaiserin that Joachim's little boy was brought to her, against the wishes of the child's mother, and the child did succeed in making them forget their loss.

"It was in April last (1921) that the Kaiserin one day turned to the former emperor, who was in the presence of her fifth son, and begged her permission to have a little smiling snapshot taken of Oscar, Joachim's boy, joined in the plea and the Kaiser finally consented. Prince Oscar making the snap with the exile's own camera. The film was developed in the Doorn house and a few prints were made for the Kaiserin only.

**Ludendorf Gets Print.**

"A few days later the Kaiserin was stricken with heart trouble and succumbed to it within the next week. After her burial her son, Prince Oscar, got a print of the last photograph of their mother and in this way about a dozen of the prints were distributed. General Ludendorf and Hindenburg were the only persons outside of the immediate family to receive copies of the picture and each recipient was required to give his name after the Kaiser took up the photograph for newspapers.

"This is the story as it was related to me by a member of the Doorn household. After hearing the story I thought it might be possible to secure a copy of the photograph through a servant, but after days of fruitless interviewing I decided to seek my prize elsewhere.

"Then I went to Wieringen, the exile home of the former crown prince. I tarried the same there. Seeing that my stay in Holland was fruitless, and still clinging to the idea that the photograph could be secured, I left to see Ludendorf in Munich.

**Asks \$200,000.**

"Immediately I entered his home I noticed on his desk in a rich mahogany frame the picture I was seeking. I approached him then on selling it to me and he was receptive, but he insisted on a price of 1,000,000 gold marks—approximately \$200,000—which was, of course, out of the question.

"Leaving Munich, I went to Berlin and interviewed there every other possessor of the coveted photograph, but met with flat failure.

"On the eve of my departure General Ludendorf's secretary visited me at my hotel and offered the general's copy for 1,000,000 paper marks—approximately \$470, at the present rate of exchange—and had his foot on the door to depart he held out for that price, and I gave it to him."

# CONGRESSMAN WHACKS DRY LAW ENFORCEMENT

(By The Associated Press.) Washington, Feb. 9.—The United States for two years has tried the experiment of enforcing prohibition on the people and the only appreciable development has been the increasing cost of enforcement.

Representative Gallivan, democrat, Massachusetts, declared in a speech put into the record of the house today.

Prohibition Commissioner Haynes "and the clergy to aid in enforcing the Volstead law by acting as informers of the members of their congregations," said Mr. Gallivan, and also "invited the public school teachers to take up the same work. I wish the clergy and the school teachers rejected the invitation of turning informers as one that would bring upon them the suspicion of playing the spy. These efforts are a confession of failure not just as its demands for more money is a confession of failure."

# IRISH SITUATION DEADLOCKED FROM KIDNAPINGS; CHURCHILL FEELS MATTER IS NOT SERIOUS

(By The Associated Press.) London, Feb. 9.—(By The Associated Press.)—Although it is believed that the few persons captured in Donegal have been released, the situation in Ireland as a result of kidnappings otherwise remain deadlocked today, the Sinn Feiners apparently having declined to liberate prisoners until the football players from Monaghan have been released by the Ulsterites. The Sinn Feiners today are declared to have captured several more Ulster specialists.

The northern government has placed 5,000 specialists along boundary to prevent new invasion from South; Arthur Griffith looks for Amicable Settlement of Trouble.

(By The Associated Press.)

# AMBASSADORS PICKED FOR CENTRAL POWERS RECEIVE ENDORSEMENT

(By The Associated Press.) Washington, Feb. 9.—President Harding's nomination of ambassadors to the former central powers today received the endorsement of the senate foreign relations committee.

The nominations of Representative Johnson B. Houghday, of New York, to be ambassador to Germany, Albert H. Washburn, of Massachusetts, to be minister to Austria, and Theodore Brentano, of Illinois, to be minister to Hungary, were reported favorably to the senate with confirmation declared assured.

# SENATE PEEVED OVER ITS PLACE IN ARMISTICE DAY

(By The Associated Press.) Washington, Feb. 9.—A blow to senatorial dignity is not soon forgotten. This was shown today in the midst of the grand debate on the Newberry election case several senators arose and denounced the war department for placing the senate far back, as they said, in the funeral procession of the unknown soldier last Armistice Day.

Senator Ashurst, democrat, Arizona, said that the senate had been relegated to the rear in the parade and that the war department through its management of the parade, had "insulted" the senate.

Senator Stanley, democrat, Kentucky, said "The speakers reached the point where bureau chiefs and department clerks were able to tell it 'to go way back and sit down.'"

Senator Stanley, democrat, Kentucky, said "The speakers reached the point where bureau chiefs and department clerks were able to tell it 'to go way back and sit down.'"

# MRS. OBENCHAIN HEARS EVIDENCE IN MURDER CASE

(By The Associated Press.) Los Angeles, Calif., Feb. 9.—Madalynne Obenchain, charged with the murder of her sweetheart, J. Belmont Kennedy, today heard the first testimony and saw the first evidence against her.

The testimony came from Dr. A. F. Wagner, county autopsy surgeon, and J. D. Kennedy, father of the slain man, both of whom testified as to his death from a gunshot wound, inflicted as he walked up the steps of his summer cottage in Beverly Glen, near here, the night of August 5, last.

Two photographs of Kennedy's body, showing the wound, were shown to the jury. The defendant averred her eyes while her counsel examined the exhibits.

Dr. Wagner, discussing the wound and the photograph, called upon Asa Keyes, deputy district attorney, to act as a model and illustrate for the benefit of the jury, the point in the neck where the charge of shot struck Kennedy, the curvature through which it ran and the size of the wound. Again Mrs. Obenchain looked the other way.

In the jury selection of which was completed until late in the court session, are nine men and three women. A thirteenth, or alternate juror, is a woman.

Late in the work of selecting a jury Charles Erickson, prosecuting counsel began posing questions calculated to fit into the state's psychology of the case.

"If the defendant smiles at you or teases in any way to irritate herself with you, will that influence you in your consideration of the evidence?" the prosecutor asked.

The prosecutor planned to introduce telegrams alleged to have been exchanged between Mrs. Obenchain and her codefendant Arthur Burch, now awaiting a second trial after one resulting in a hung jury, while she was in Los Angeles and he was in Chicago. The state contends these telegrams were the beginning of a conspiracy that resulted in the death of Kennedy.

# CHICAGO COACH SAYS FEELING 'HOW MUCH IS THERE IN IT FOR ME' IS BAD FOR STANDARDS OF GAME.

(By The Associated Press.) Chicago, Feb. 9.—Declaring he had turned down an offer of \$1,000 to become a professional while attending Yale on \$110 a week, Alonzo A. Stang, University of Chicago, today blamed betting for the furor of professionalism in college athletics and declared that "these frauds were the most demoralizing thing in the world to clean athletics."

"Nothing is more demoralizing than the feeling 'how much is in it for me' he said. "The athletic impulse starts in childhood and the stimulus changes as the boys grow older to that of emulation, of being a real part in a social group. Then, as he grows still older, he becomes a part of more organized groups and college athletics is one of these developments.

"At that time competition becomes keener and the group impulse becomes stronger, then as his skill develops there is a possibility that it may become capitalized. It is in that case, where competition becomes keen, that the temptation begins to tempt."

"This betting is the first step toward professionalism. It finally is induced to become a professional, and generally the idiom is the result of some betting plan."

"The temptation is strong but the American youth should be stronger. I know some of the boys need money, but the true American lad does not stoop to a sneaking violation of his college's regulations to obtain money."

# BRICK FIRM AT VEGAS TO MAKE PRODUCT IN ANY COLOR DESIRED

(Special Correspondence To The Journal.) Salt Lake City, Utah, Feb. 9.—Gilbert L. Brighton, arrested by the police and who confessed that he was one of two bandits who entered Charles A. Faus' home here last Friday night but was not the one who killed Faus, is believed by officers to have fired the fatal shot, they announced today.

They based their belief on the confession reported to have been made by Angeline Wacaster, 19 years old maid at the Faus home, who according to the police, said that she framed the "job" for Brighton and a companion to rob the Faus home.

# SYRACUSE BANKER IS HELD FOR SHORTAGE REPORTED AT \$75,000

(By The Associated Press.) Syracuse, N. Y., Feb. 9.—Robert R. Conroy, cashier of the Citizens National Bank of Hammond, N. Y., is being held today for following his arrest last night while federal and state bank examiners make a further examination of his books. Conroy's shortage was reported to be \$75,000.

# TESUQUE INDIAN TROUBLE ENDED, SAYS TWITCHELL

(By The Associated Press.) Santa Fe, Feb. 9.—Threatened trouble with the Tesuque Indians has been averted, for the present, at least. It was said this afternoon by Col. R. E. Twitchell, special assistant to the United States attorney general, in charge of Indian affairs.

The trouble that seemed to be imminent grew out of the action of the Indians in destroying fences on ranches near the Tesuque village. There is involved the question of boundaries and titles to land sold by the Indians generations ago. Colonel Twitchell said this question might be expected to recur near one pueblo or another, until the congress passes an act to settle the question of titles to land acquired from Indians.

The Tesuque Indian pueblo is near the Tesuque village, about seven miles from Santa Fe. Secundino Romero, United States marshal and Serafini Baca, under sheriff at Santa Fe, county, went to Tesuque today and had a conference with the Indians. They report the situation is well in hand.

# DISTURBANCE MAY BE EXPECTED TO RECUR UNTIL CONGRESS QUIETS TITLE TO LAND BOUGHT OF INDIANS.

Washington, Feb. 9.—The first effects of the government's new order was made public today after 1,300 of the 7,000 employees at the Washington yard upon a reporting for work, were given temporary "scrapping" without pay. Most of them were machinists. Captain A. L. Willard, director of navy yards, estimated that about 5,000 navy yards will be laid off. Approximately 600 each, it was said, would be affected at the New York, Philadelphia, Norfolk and Mare Island, and possibly Boston yards.

President Harding today received the report of the American arms delegation together with the conference minutes. After receiving these documents from Secretary Hughes, the president had the four delegates as luncheon guests.

Earlier in the day the president received the farewells of the last of the arms delegations, seeing Admiral Sir John K. Y. D. French and Admiral Sir John D. Jellicoe, two British delegates; Wellington Koo, minister to London; Chief Justice Wang, of the Chinese supreme court, and Minister Zeng, of the Chinese foreign office. Secretary Denby's suspension order was made public today after 1,300 of the 7,000 employees at the Washington yard upon a reporting for work, were given temporary "scrapping" without pay. Most of them were machinists. Captain A. L. Willard, director of navy yards, estimated that about 5,000 navy yards will be laid off. Approximately 600 each, it was said, would be affected at the New York, Philadelphia, Norfolk and Mare Island, and possibly Boston yards.

# LEAD FURNACES AT EL PASO TO RESUME OPERATIONS SHORTLY

(By The Associated Press.) El Paso, Texas, Feb. 9.—For the first time since 1918, all lead furnaces at El Paso Smelting Works promise to be in operation in a short time, according to officials of the American Smelting and Refining company. A crew of men is now at work making repairs on the old furnaces which, when put into operation, will give employment to several hundred men.

E. B. Newland, chairman of the board of directors, and H. A. Prosser, vice president of the American Smelting and Refining company, were here and made a tour of inspection of the six lead furnaces.

# 100-YEAR TERM OF FORD OFFER TO LEASE MUSCLE SHOALS HAS PARTIAL SUPPORT OF ARMY MAN

(By The Associated Press.) Washington, Feb. 5.—The desirability of reducing the time clause in Henry Ford's offer for the lease of the Muscle Shoals government-owned lands from 100 to 50 years was questioned indirectly today by Major General Lansing H. Beach, chief of army engineers, in testimony before the house military committee. Referring to the general policy of the government not to lease its properties for a period exceeding fifty years, General Beach in his testimony said "The lease of the Muscle Shoals lands and plants at Muscle Shoals said that 'it is not general law to apply only to general sale to things big and small, but to things big and small'."

Secretary Weeks, who was heard yesterday, declared repeatedly that in his opinion it would be unwise to permit the lease of public lands and properties to private interests for so long as 100 years. General Beach, however, said that it was a question in a big and important matter as to whether the fifty-year rule would not work a hardship.

It was his belief, the general continued, that in disposing of the properties at Muscle Shoals the paramount consideration should be the effect upon the nation's defense rather than the manufacture of fertilizer. The country, he said, should not be "caught again" without an adequate nitrate supply.

The engineer officer was precluded from answering questions of committee members who failed to have an opportunity today.

Secretary Weeks said today he had received the completed offer in connection with the Muscle Shoals plant from Frederick M. Enstrom, of Wilmington, N. C., and that the offer "looked better" as amended. Details of the amendments were not disclosed.

# THOUSANDS OF MECHANICS LOSE JOBS AS RESULT OF ARMS PARLEY

(By The Associated Press.) Washington, Feb. 9.—The first effects of the arms conference on the employment situation were felt today as thousands of mechanics and artificers in the navy yards were temporarily laid off after Secretary Denby's order of yesterday's suspension of work on vessels under construction affected by the treaty. Navy yards affected are those at Washington, New York, Philadelphia, Norfolk and Mare Island, and possibly Boston.

The ordinance plant at South Charleston, W. Va., also was affected.

President Harding today received the report of the American arms delegation together with the conference minutes. After receiving these documents from Secretary Hughes, the president had the four delegates as luncheon guests.

Earlier in the day the president received the farewells of the last of the arms delegations, seeing Admiral Sir John K. Y. D. French and Admiral Sir John D. Jellicoe, two British delegates; Wellington Koo, minister to London; Chief Justice Wang, of the Chinese supreme court, and Minister Zeng, of the Chinese foreign office. Secretary Denby's suspension order was made public today after 1,300 of the 7,000 employees at the Washington yard upon a reporting for work, were given temporary "scrapping" without pay. Most of them were machinists. Captain A. L. Willard, director of navy yards, estimated that about 5,000 navy yards will be laid off. Approximately 600 each, it was said, would be affected at the New York, Philadelphia, Norfolk and Mare Island, and possibly Boston yards.

# PRESIDENT ASKED TO SHOW HOUSE SAVINGS UNDER BUDGET SYSTEM

(By The Associated Press.) Washington, Feb. 9.—A resolution "respectfully" requesting President Harding to inform the house just what savings have been effected by the budget system, was offered today by Representative Brynns, Tennessee, democrat.

Mr. Brynns stated that according to press reports the president recently had announced that as a result of the work of the budget bureau a direct saving of \$22,000,000 and an indirect saving of \$194,000,000 had been effected in six months.

If such savings actually were made, Mr. Brynns said, there is no need for a deficiency appropriation bill. He called attention to the fact that the president had submitted to congress deficiency subsidies aggregating approximately \$180,000,000.

# NO ITALIAN CABINET, ROME, FEB. 9.—SIGNOR ORLANDO'S FAILURE TO FORM A CABINET INCREASES THE COMPLEXITY OF THE POLITICAL SITUATION.

A suggestion has been made that all former premiers unite in a coalition.

# WEATHER

FORECAST, Feb. 9.—New Mexico: Friday and Saturday, fair south, rain or snow north portion; colder Saturday.

Arizona: Friday, rain south, rain or snow north portion; cooler west portion; Saturday, unsettled.

LOCAL REPORT.

Poincare Says France Cannot Send Delegates to Genoa Conference if Treaties Are Discussed.

(By The Associated Press.) Paris, Feb. 9 (By The Associated Press.)—Premier Poincare in a note given out tonight addressed to the United States and France's allies in the late war, declared flatly that France will be unable to send delegates to the proposed Genoa economic conference if any of the invited governments let it be understood that they do not accept entirely conditions arranged at the supreme council meeting at Cannes in January, precluding any discussion of the existing peace treaties.

It is necessary, Mr. Poincare thinks, to see whether the Russian soviet government is disposed to accord commercial facilities and to give guarantees for the protection of industrial and personal property. He opposed any discussion that would infringe upon the province of the league of nations. His note concludes with the statement that time is required for the preparation for this conference and that this necessitates a postponement of the gathering three months.

The foreign affairs committee of the chamber of deputies today adopted a resolution approving Premier Poincare's attitude. The resolution draws attention to possible conflicting interpretations of the clauses of the supreme council's resolution providing for respect for treaties and "re-establishment of a solid peace basis."

"FLASHES IN ACTION" AT CRYSTAL THEATER VIVID WAR PICTURE

Actual war scenes taken on the battle front of the late war will be shown Saturday afternoon and night at the Crystal opera house in the film "Flashes in Action." Almost every phase of war activity is shown in the picture, beginning with the embarkation of the American soldiers for France, their trip across the sea, landing in France, and through the many scenes along the lines of battle. Scenes "over the top," tanks in action, balloon attacks and heavy artillery action are contained in the picture, said to be one of the most realistic war pictures ever produced.

USES MILK CAN FOR WHISKEY STILL AND AGENTS ARREST HIM

Charged with using a milk can for a still, Trinidad Portillos was arrested by prohibition agents yesterday at his ranch at the mouth of Tlora canyon, and was found in possession of whiskey. A quantity of mash, composed of corn meal, oranges and apples, was found in Portillos' possession, and the finished product is said to be enough kiel to throw a man in the next canyon off his horse. Portillos' arrested still was found in his ranch house, and the whiskey was found under the floor in his bedroom.

BENNY CORDOVA WINS TROUBADOUR WITH PHILADELPHIA FIGHTER

(SPECIAL DISPATCH TO MORNING JOURNAL.) Galveston, Tex., Feb. 9.—Benny Cordova of Albuquerque won a decision over Joe Marks of Philadelphia in their ten-round battle here tonight. Cordova carried the fight to Marks in every round of the go.

Washington, Feb. 9.—Co-operation of the American naval squadron in the Black sea has been obtained to assist in opening the Russian ports to the shipment of grain for famine relief, Secretary Hoover said today.

In proportion to its population Brazil shows the greatest consumption of coffee.

Custards are the best desserts for children, especially if made with pure rich Borden's Evaporated Milk

Most soaps and prepared shampoos contain too much alkali which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is Mulsified coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get Mulsified at any drug store, and a few ounces will last the whole family for months.

Alkali in Shampoos Bad for Washing Hair

Simply moisten the hair with water and rub it in, about a teaspoonful of Mulsified is all that is required. It makes an abundance of rich, creamy lather cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright fluffly wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure your druggist gives you Mulsified.

INTERESTING TALKS AND MUSIC AT Y. M. C. A. PROVES GREAT SUCCESS

(By The Associated Press.) Dubuque, Ia., Feb. 9.—Marquette University scored its field goals on long shots here tonight and defeated Columbia College, 21 to 11.

Santa Barbara, Calif., Feb. 9.—Jock Hutchinson and Jim Barnes finished all square with Joe Martin and Eddie Loos, California footballers, in an 18-hole golf match here today. Each team had a best ball score of 70 over the LaCumbre court, par for which is 67. Rain prevented the playing of the morning half of a scheduled 36-hole match.

Glasgow, Feb. 9.—Four more draws resulted in the play today in the international checkers championship match between Newton Banks of Detroit and Robert Stewart of Glasgow. Thus far in the series Stewart has won two games, Banks one game and thirty-one games have been drawn.

Cleveland, O., Feb. 9.—Gus Gardner of New York today won his first game of the national amateur pocket billiard tournament, defeating William J. Haworth of Cleveland, 125 to 105 in 36 innings. Haworth also lost to Carl A. Vaughn of Chicago in the other afternoon game, 125 to 114 in 68 innings.

Portland, Ore., Feb. 9.—Jim Thorpe, former Catholic Indian school star, was purchased today from the Toledo American association club by William Klepper, owner of the Portland Pacific coast league baseball team. The purchase price was not announced by Mr. Klepper. Thorpe, who played left field, batted .359 for Toledo last season.

FORMER SECRETARY OF COMMERCE LAUDS ARM PARLEY RESULT

(By The Associated Press.) New York, Feb. 9.—Asserting that the results of the armament conference call not for criticism or cynicism but for frank approval, William C. Redfield, former secretary of commerce, in an address before the National Institute of Social Sciences, tonight declared that "sooner or later this country will enter the armament league already in existence."

"When President Wilson returned from Versailles, he told his cabinet that Japan promised to surrender Shantung, and that he believed that Japan would keep its faith," Mr. Redfield said. "Japan has met Mr. Wilson's expectations. China is placed in a better position than she has ever occupied. A definite standard has been reached in regard to the national forces of the world." "The United States ought not to be absent from further international or economic congresses."

Charles Evans Hughes was elected honorary president of the institute. As a proof that "all retailers have not been profiteers," R. W. Reynolds, president of Lord and Taylor of New York, announced that in 1921 there were 15,692 business failures in the United States, of which 13,399 were retailers. In 1919 there were 4,742 failures of which 4,013 were retailers. He asserted that failures are due not particularly to lack of intelligence or industry or courage, but to the lack of a sound knowledge of financing.

SAYS CALOMEL SALIVATES AND LOOSENS TEETH THE VERY NEXT DOSE OF THIS TREACHEROUS DRUG MAY START TROUBLE

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crumbles into sour bile like dynamite, and sickening you. Calomel attacks the bones and should never be put into your system. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

WOMAN'S ILLS MAKE UNHAPPY HOMES.

There is no question but what the ills of women conspire against domestic harmony. The husband cannot understand these troubles and the physician finds it hard to cure them; therefore the overworked wife and mother continues to drag around day in and day out with headaches and backaches, fretful and nervous. Such women should be guided by the experience of women whose letters we are continually publishing in this paper. Many of them declare that they have been restored to health, strength and consequent happiness by Lydia E. Pinkham's Vegetable Compound after doctors and all other remedies had failed to help them. It will surely pay women who suffer from such ailments to try it.

HAD THAT TIRED, WORN-OUT FEELING?

Do you know that "awful tired feeling," languidness, lame or weak back, sore muscles, stiff or swollen joints, or rheumatic pain usually indicate kidney trouble? Foley Kidney Pills act promptly and effectively. Mrs. Robert Lilly, 719 Alton St., Allen, Ill., writes: "For three months I had a very worn-out feeling. Various treatments failed. I began to improve on the second dose of Foley Kidney Pills and today I feel like new." Sold everywhere.

MENTAL DISEASES IN EX-SERVICE MEN ARE STEADILY INCREASING

(By The Associated Press.) Washington, Feb. 9.—Specialists in mental diseases met here today at the request of Director Forbes of the veterans' bureau to discuss best methods for government treatment of this type of cases among former service men. There are more than 3,000 mental hospital cases under government care, but according to the bureau the number is steadily increasing and recommendations as to the most advanced methods of treatment are being sought.

WARRER SOUNDS ARM AGAINST LLOYD GEORGE

Says British Leader Has Fooled Irish People Before; Griffith Not Worried Over Situation.

(By The Associated Press.) Dublin, Feb. 9 (By The Associated Press.)—Eamon de Valera tonight issued a statement with reference to the republican demonstration which has been called for Sunday. As the newspapers are not warning the people of their danger, he says, no way is left but to address them by word of mouth. The statement recalls the history of Premier Lloyd George's dealings with Ireland and accuses him of following a policy of partitioning Ireland into two antagonistic and mutually destructive states. Mr. Lloyd George maneuvered Michael Collins and his colleagues into being the executive he required, and the next step was to provide this provisional government with a parliament.

Mr. de Valera says Mr. Lloyd George had fooled many of the Irish, and that the Plunkett convention, the members of which he himself had picked. Now he has confined the scope of the Irish assembly's deliberations within a narrow article or agreement, and crippled it from making any proposal that is likely to run counter to British interests. He also has provided for the veto of Sir James Craig, the chief of the protest, for final revision of the treaty by the British house of commons. Mr. de Valera recalls the conditions which Arthur Griffith laid down, when invited to enter the Plunkett convention, said was essential; that the personnel of the parliament should be regularly elected by the people, that there should be no limit to the scope of its authority, and that the decision of the majority should be final. All three conditions, Mr. de Valera says, clearly are still necessary, and the present proposal for the assembly is wholly contrary to the last two.

If Mr. Griffith and Mr. Collins are not prepared to advocate any of these proposals, he says "either in an immediate election on the basis of the referendum, suspended treaty before a definite constitution is submitted, or for elections to a constituent assembly, with the obvious fact that awaits his deliberations, it can only be that they are not in earnest of the Irish interests in an atmosphere of party feeling and party expediency; that they are prepared to bind Ireland and wholly free and to sacrifice all the vital interests of the Irish majority, while the minority and English make no sacrifice whatever." It is inferred in the last quarter of the foregoing that Mr. de Valera and his friends will refuse to participate in the assembly.

With reference to the statement issued Wednesday evening calling for the re-election of Lord and Taylor, Mr. de Valera said: "The proposal that portion saying that Premier Lloyd George would trick the Irish again, and deal with Arthur Griffith and Michael Collins as he formerly dealt with John Redmond and John Dillon, Mr. Collins said tonight: 'It is one thing how Mr. Lloyd George might wish to deal with us, but it is quite another matter how we might deal with him. Our position is not matter of fact like Redmond and Dillon. We make our own decisions and it is we who decide how we are to deal with Mr. Lloyd George.'"

The funeral services for Fred B. Russell, who died at St. Vincent hospital Wednesday morning, will be held this afternoon at 2:30 o'clock from French's chapel. Rev. F. E. McGuire will officiate at the chapel, and the Masses will be at the church of the Holy Spirit, 10th and Broadway streets, at 10 o'clock from the funeral home of the United States bureau of animal industry will act as pallbearers. Burial will be in Fairview cemetery.

WOODWARD—The remains of George Woodward, who died Wednesday morning at his home on South Fifth street, were shipped last night to Crestview, Florida, for burial, accompanied by his wife, who was here at the time of his death. C. T. French was in charge of arrangements.

ZANORA—The funeral services for Jose De La Luz Zanora, who died Wednesday morning at his residence on North 2nd street, will be held this morning at 9 o'clock from the funeral home of the United States bureau of animal industry will act as pallbearers. Burial will be in Fairview cemetery.

TRINIDAD—Mr. Tiburcio Trinidad, aged 65, died yesterday afternoon at his apartments on West Santa Fe avenue, after a short illness, of broncho pneumonia. The body was taken to Crockett's funeral parlors, pending funeral arrangements.

SOVIETS IN TREATY. Stockholm, Feb. 9.—Negotiations for a commercial treaty between Sweden and soviet Russia were completed today by Swedish and Russian delegates. They agreed to proposals for an agreement providing, as a safeguarding measure, for examination and adjustment of tariff agreements recently concluded in Russia by a German export trade commission.

LET'S HAVE A "DIP"—Thomas' Creme Dips, 10c. Drug stores.

CREATION OF HEALTH CENTER IN VEGAS TO BE PRESENTED SOON

(Special Correspondence to The Journal.) Las Vegas, N. M., Feb. 9.—The creation of a health center which can be used also as a community rest home is being urged by the county health nurse, Miss Louise White. A plan of this kind would be equipped for the comfort of country women and other visiting women to rest, or in a place where children could be left in safety. One of the features would be lectures and demonstrations for the instruction of those who might wish to know the best methods of caring for the sick. This service could be made timely by having the demonstrations given for the care of those suffering from any disease that might be prevalent. The plan will be first before the people of the city.

The health nurse has completed the examination of the children in all the public schools in the city and will begin at once the examination of the pupils in the parochial schools. In a recent examination of children in ten homes, fifteen boys and girls were found to be suffering from impetigo, which is a contagious skin disease that is more or less mild.

Neubros Herpicide for the hair and scalp. Beautifies the hair, eradicates all dandruff. All toilet goods counters sell Herpicide. Barbers apply it.

BOILS Boils, Pimple, Carbuncles, etc., quickly relieved by BOILENE of your nearest dealer. 50c at Druggists or by mail postpaid. THE BOILENE CO., Albuquerque, N. M.

Clear Baby's Skin With Cuticura Soap and Talcum

DEATHS AND FUNERALS McGrath—Miss Elizabeth McGrath died at her home on West Cooper avenue yesterday afternoon, age 69 years. She had made her home in Albuquerque since 1914. She leaves a sister, whose home is in Topeka, Kansas. The body was taken to Strong Brothers' mortuary.

Pimply Skin? Take MASTIN'S VITAMON TABLETS

Of what use are fine features with an oily, mottled skin, flabby, sunken cheeks, pouches under the eyes, or a careworn, sickly-looking face? Few men there are now who cannot astonishingly add to their energy and vigor, clear the skin of acne, and enjoy the splendid results from fresh "spots" of a well-built body. Since Science wrested from Nature those mysterious life-giving, health-building elements—the vitamins—thousands upon thousands can tell you of the amazing an almost miraculous results from their use. MASTIN'S VITAMON TABLETS contain not only yeast vitamins, but all three of the essential vitamins—A, B and C—specially concentrated and combined with true organic iron and the necessary lime salts, which your system needs to keep you strong and well.

If you want to quickly clear your skin and complexion, put some fresh, healthy flesh on your bones, increase your nerve force and power and look and feel far better, make this simple test: First weigh yourself and measure yourself. Next, take MASTIN'S VITAMON TABLETS—two a day, with every meal. Then weigh and measure yourself again each week and continue taking MASTIN'S VITAMON TABLETS regularly until you are satisfied with your gain in weight, "bep," energy and improved appearance. Insist upon the Original and Genuine Vitamin—MASTIN'S VITAMON TABLETS. Fully guaranteed in every respect. At all good druggists.

BEAUTY CHATS

By Edna Kent Forbes.

FACE PACKS.

A correspondent writes to me to find out why I do not talk more about face packs and the various types of astringent clay and medicated mud which some beauty parlor recommend. I have talked very little about face packs because I am not entirely convinced of their good. Of course I have tried them, various sorts in various places, and invariably came away feeling that I was lucky to have escaped. As these treatments are given now, they are usually expensive, they take a great deal of time and I think they are very drying to the skin. That, after all, is the whole point of these treatments. They are astringent, they are entirely too astringent. The complexion needs stimulation, but it does not need the heroic sort of treatment these face packs give it. These mud packs draw up the skin until it feels as though the face were held in a vise. They dry out so much oil from the skin that no amount of cold cream could ever make up for it.

They are stimulating, but in my opinion their stimulation does not count against their drying qualities. They will tighten up the skin and draw out wrinkles so they completely disappear while the mud is on the face, but the fact that they do dry up the skin so in my opinion will only make the wrinkles deeper in the end.

Briefly, I think these mud packs will do no more than to irritate a gentle means can be found to cleanse and stimulate the complexion. But many of my readers doubtless will not agree with me.

G. E. P.:—At 40 years with height 5 feet 2 your weight should be no more than 125 pounds.

Mrs. T. G.:—If your husband uses a powder on his feet that is astringent it will help this tendency to excessive perspiration. Your druggist will prepare you such a powder or you can take the ordinary talcum and add a small quantity of burnt alum to it. One part alum to 12 parts of starch or talcum will do this. He should bathe the feet every night or what would be better still, since you say there is such an offensive odor from his feet, he will aid by scrubbing them and using a soap in which there is salicylic acid.

L. B. F.:—As you did not give your age I cannot say whether or not your weight is correct. 125 pounds would be the weight for a woman of 45 years with a height of 5 feet 1. With a fair skin, hazel eyes and medium shade of brown hair, your most becoming color will be all shades of brown. Orange and rose and pronounced shades in blue will also suit your type.

Patches:—If you send me a letter with a stamped address envelope, I shall be glad to mail you the exercises.

Social Calendar

Woman's club will meet at 3 p. m. Valentine party at women's dormitory, U. N. M., 8 p. m. Good Time club dance at Colorado hall at 9 p. m. Student dance at Country club at 9 p. m.

DRESS FACTORY OPENS UP WITH H. S. STUDENTS

There's a new industry in the city. In a tiny basement room in the high school building where the workers have to take shifts the making of women's dresses on almost a wholesale scale is going on. Each member of the department of domestic science, which numbers over 100, is making herself a dress. The big cutting splash began this week under the direction of Miss Bess Gill, head of the domestic science department of the high school. Drafting, fitting, sewing and finishing is going on busily every day with the expectation of having every one of the dresses, 102, to be exact, completed by the end of next week. Each girl in the department is fashioning herself a dress according to her own tastes with the materials and style of her own choosing. The first year class is making summer dresses of crepe, organza and gingham and organza combination while the second year class is making frocks of organza, voiles and other sheer summer materials. A number of the senior girls will make their own commencement dresses.

The students are using commercial patterns which they adapt to fit each figure. Drafting of patterns is not taught in classes. "Drafting is highly impractical," says Miss Gill. "It is exceedingly technical and does not pay for the effort when the prepared patterns are so inexpensive."

Practicability seems to be the keynote of the entire sewing department. One of the valuable phases of the instruction is the course in textiles. Each girl in the sewing class learns during the course of the year the name, material, price, durability and use of 100 different fabrics. She makes a sample collection which contains fifty wools, thirty cottons, ten silks and ten linen goods for her own information. The first year girls have just completed the making of about twenty-five gowns, blouses, dresses and suits. The second year girls have been making shirt waist suits with white tailored skirt for summer wear. Sandwiched in between the more important garments the girls are busy with several styles of guest towels, darning, patching and other kinds of needlework.

comfort Hannah hurried off to her kitchen. Margaret went with disappointment. To think that Joan would not allow Hannah to help her do even the roughest work. It was dreadful—and then, too, it made her feel guilty. Here she was living in luxury, with Hannah to wait upon her and baby her while her daughter, her baby, had so much to do for independence and was living the life of a poor girl. Craig Forester, of course, knew that Margaret was fretting and kept reminding her that he loved her by sending her flowers, candy, and books or magazines at regular intervals.

"I'll catch her on the rebound," he said to himself. "She's a bit lonely and worried and perhaps it may make her think more kindly of my loneliness." Margaret took to dropping in on Joan at unexpected times. She knew Joan did not want her, that sooner or later she would probably say so. But until that time came Margaret could not keep her mind off her. She would take a book and read for an hour while Joan pounded the keys of her typewriter with a frenzy that threatened to ruin the machine, then she would quietly pick up some of the loose sheets from the floor where Joan always flung them when she drew them from the machine, and commenced to read. Then she reached over and took a pencil from the desk. Without a word she corrected the pages as she took them from the floor. A thesaurus lay on the desk, and she quietly looked up an occasional word to correct the spelling of or insert a synonym. That's real help—that article has got to go out tonight.

"Is it sold?" wide-eyed, Margaret inquired. She had been surprised at its excellence. "No—but I have 'opes."

BOBBED HAIR COMES INTO DISFAVOR ON CHICAGO "U" CAMPUS

(By The Associated Press.) Chicago, Feb. 9.—Bobbed hair has come into disfavor with University of Chicago co-eds. Members of two girls' clubs whose shorn tresses had been conspicuous on the campus lately expressed with the boys done up in hair nets. "The time for the bob is past," one explained. "The girl of today wants to look like she had plenty of pretty, long hair."

WOMAN'S CLUB WILL STUDY HOT LUNCHES

Child welfare, with particular emphasis on the hot school-lunch will be the subject of the program at the Woman's club on Friday afternoon. Every club member who has a child of school age should find this a most interesting subject. Mrs. Emily F. Labelle, the leader for the day, will demonstrate and serve a lunch, the cost of which will not exceed 3 cents. The program will be carried out according to the printed calendar. Mrs. Ella La Har, principal of the high school, will give a paper on "How one day in the school" and Miss Minnie Diehl one on "Are Hot Lunches Served at School a Success?" Should More Schools Supply Them?

Mrs. Dorothy Deimler, of Red Oak, Iowa, is member of the Iowa state conservation board.

FEATHER AND STRAW COMBINE TO MAKE PRETTY SPRING HAT

Feather strands drawn tightly over a rolling crown, and forming a veritable waterfall on either side are combined with straw to give this new spring bonnet a most unusual effect.

EFFICIENT HOUSEKEEPING

By LAURA A. KIRKMAN.

ARE YOU ALWAYS A "GOOD HOUSEKEEPER?" We house-keeping women all like to be known as "good housekeepers." Yet there are rare moments when we should put something else before our good house-keeping. What is this something else? It is the voice of the heart. For, when our housekeeping duties clash with our more human impulses, I have seen housekeepers who thought it their stern duty to sweep a room when an elderly step-mother wished ardently for yarn which she had not the strength to go out and buy for herself—but which would keep her happy and her fingers busy for hours. Of course our hearts should be swept; but they may be swept tomorrow as well as today, and we should feel justified in changing our working schedule, now and then, to do a little errand of love such as this. And I have seen mothers who have not their children's happiness cherished. "Let's go on a picnic, mother," by a regretful look at the summer sunshine and a reminder that "Mother must do her looking" of course we should do one looking—but perhaps the children would rather go without cake for once than miss brightness on their only two short childhood days with a popcorn party.

Yes, Reader, I believe the school boys' slogan, "Have a Heart!" is a phrase which the average house-keeper should heed more frequently than she does, because she has allowed her work to rule her. (This article was written at the request of a Reader who wrote me saying, "Please write some more of your nice timely articles; they do me good.")

RIPPLING RHYMES

By WALT MASON.

POOR SPORT. A bad game up—and then it drops. Its destiny pursuing; and friends who late were buying hops are tired of basement brewing. Last year the hop-and-raising stores all day and night were busy, the Tired Clerks jumped around the floors until their heads were dizzy. And patrons carried home the hops and straightway went to brewing, producing much unholy slops that threatened their undos. The home brewed stuff was sometimes pink, and sometimes green or yellow; what'er its hue, one good long drink would paralyze a fellow. Home brewers worried of their graft when it was fairly started, and from their basements quite a raft of brewing junk was carted. And now there's no demand for hops except for proper uses, no patrons buy them in the shops to make illicit juices. Thus

one great sport has petered out, for it was vain and hollow, and soon or late, no man can doubt, all kindred sports will follow. Just now smart alacks think it quite to knock the law to pieces, and buy pink gin from some rascal who packs it in valises. But when they see their neighbors die from drinking poisoned whiskey, they think it better to go dry and be alive and frisky. The ghost of Barleogora will wind around us for a season, but all the lawlessness will end as people think and reason.

Mrs. Ray W. Sundelov, who arrived in America twenty-eight years ago a friendless Russian immigrant, is now the New York manager of one of the largest life insurance companies in the United States.

The Average Woman possesses only about two-thirds of the physical strength of the average man.

FOR A CONSTIPATED CHILD

A small dose of Dr. Caldwell's Syrup Pepsin will bring quick relief.

MOTHER, when one of the children is constipated are you going to give the first laxative within reach? It is dangerous to do so. Some have been known to rupture the intestines of little children. Don't be beguiled by the outside sugary appearance. Look into the formula. Calomel is seldom necessary; salts, minerals, coal tar, never!

Unlike these, Dr. Caldwell's Syrup Pepsin is admirable for children, as it is for grown people, too. Mothers have been giving it to children for 30 years. They know it does not gripe, and is free from narcotics. The formula is on every package, and you can see it is vegetable, just a combination of Egyptian Senna and other laxative herbs with pepsin. Use it yourself and you will find it is not necessary to take it every day, nor to increase the dose, and that it is pleasant to the taste. Bottles can be had at all drug stores, and the cost is only about a cent a dose. Have no hesitancy giving it to a baby in arms. It is absolutely safe.

Half-Ounce Bottle Free

Few escape constipation, so even if you do not require a laxative at this moment let me send you a Half-Ounce Bottle of my Syrup Pepsin FREE OF CHARGE so that you will have it handy when needed. Simply send your name and address to Dr. W. D. Caldwell, 214 Washington St., Menominee, Ill. Write me today.

ARGENTINE HEAD PLANS TO KEEP SEAT OF POWER

(By The Associated Press.) Buenos Aires, Feb. 9.—(Charged that President Irigoyen is planning to keep himself in power by postponing the national elections, which would otherwise be held on April 2, are made by leaders of the opposition parties. There is a constitutional prohibition against a president succeeding himself in office but President Irigoyen's opponents allege that he intends to evade it by delaying the election by some manufactured excuse. They see proof of their charges in the fact that the radical party which now controls the government has failed to announce a date for its convention to nominate a presidential candidate. They openly say that the radical party plans to postpone the election and that no candidate will be nominated. Dr. Francisco J. Huelzer, chairman of the convention of the Concentracon Nacional, an opposition party, charged at the convention that party that Irigoyen intended to do everything in his power to retain control of the government. "There has even been talk," the speaker said, "of a general revolutionary strike prompted secretly by the executive power and stimulated and prolonged by its tolerance so as to afford a pretext for the postponement of the elections in April." Dr. Norberto Piñero, who was nominated for the presidency by the Concentracon Nacional, asserted in a speech that Irigoyen had "decided himself outside the usual order of government, investigated himself with a historic mission, a superior destiny and placed himself above our fundamental charters."

LEAHY WILL APPOINT RECEIVER FOR VEGAS INDEPENDENT PAPERS

(Special Correspondence in The Journal.) Las Vegas, N. M., Feb. 9.—(Editor David J. Leahy has decided on the appointment of a receiver for the Sentinel Publishing company, which is headed by Apollonia A. Bona, which controlled the Western Mount Sentinel, the daily of Las Vegas, and the Panhandle of New Mexico. The independence of the company is said to be \$125,000. The paper has been independent, republican, but the hearing of the case of Frank Lopez for \$15,000, alleged to be due him for salary and other items, held here Wednesday brought out the fact that the paper has received democratic support, through the state chairman of that party, Arthur Seligman, Fresno, Cal. Cutting independent republican of Santa Fe, is the signer of a note of the company for \$1,500 at a Santa Fe bank. The receiver has not been selected. Leo M. Zinton, attorney, has been named as receiver. E. P. Davies, of Santa Fe, appeared for Lopez and George H. Hunker, of Las Vegas, for Bona and this company. The policy of the court has been to attack the republicans party leadership in San Miguel and Mora counties. Practically all the work in Mexico is done by women.

DYED A SWEATER AND SKIRT WITH DIAMOND DYES

Every "Diamond Dyes" package tells how to dye or tint any worn, faded garment or drapery a new rich color that will not streak, spot, fade, or run. Perfect home dyeing is guaranteed, with Diamond Dyes even if you have never dyed before. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. For fifty-one years millions of women have been using "Diamond Dyes" to add years of wear to their old, shabby sweaters, stockings, draperies, hangings, everything!

EYES INFLAMED?

If your eyes are inflamed, weak, tired or overworked; if they ache; if tearing flows from them; if they are dry and irritated, get a bottle of Bon-Opto tablets from any druggist, dissolve one in a fourth of a glass of water and use as an eye bath as directed. Bon-Opto always inflames, invigorates, tones up the eyes. Note: Doctors say Bon-Opto strengthens weak eyes and gives them a more permanent and comfortable vision.

A Careless Habit

Don't buy a can of baking powder without knowing the exact weight of the contents—it's a careless habit and an expensive one.

Some baking powders are now put up in 12 oz. or 3/4 pound cans instead of 16 oz. or full pound cans as formerly. Your eye may not detect the difference in the size of the can—so always look at the label—know that you are getting 16 oz. or a full pound when you want it.

Remember when you buy Calumet Baking Powder you get 16 oz. — a full pound. The one pound size of Calumet has never been reduced.

That's one reason millions of housewives prefer and use Calumet. They also know that it produces pure, sweet and wholesome foods.

Calumet is the largest selling brand in the world — buy it — try it.

 THURSDAY, February 10, 1922.  
 NEARLY DUE.

Attorney General H. S. Bowman has sent a letter to the banks of the state calling attention to the fact that financial institutions designated as depositories for state money are not qualified to cover the amount of public monies to be deposited, and urging them to comply with the laws of the state.

There is nothing wrong with the suggestion. It is always gratifying to find a state officer who is willing to urge that banks should comply with the law regulating deposits.

Mr. Bowman should now address a letter to the newspapers of the state telling them why he is looking the barn after the horse is stolen. Surely he knows of the situation in the Santa Fe bank. It would be interesting to find whether Mr. Bowman considers himself as a specialist in autopsy diagnosis or whether he wishes to be a surgeon who will remove the cause before the patient dies.

It is always worth while to know the cause of death, but it is more valuable to preserve life. Mr. Bowman may now prevent overloading of favored banks with state deposits. Similar diligence a few months ago might have changed the condition of state funds in the Santa Fe bank.

Messrs. Lenin and Trotsky have fixed the Russian front so it doesn't need a napkin.

Too good to be true, so deep-seated have been the animosities at work. But to those who have observed the trend in Irish affairs the extraordinary developments which led to the creation of the Irish Free State present just such a conciliation in Ireland itself as is now promised by the co-operation of the Northern and Southern leaders. It would be a happy conclusion for all concerned if the British Parliament at its coming session should be able to pass an act for the establishment of a national government in Ireland instead of the temporary division that now exists.

Those debtor nations look to be much in the same I. O. U. boat.

"TELL-THE-TRUTH" WEEK.  
 Now something radical has been proposed: The observance of a special week in the year when everybody would be urged and asked, if not expected, to "tell the truth, the whole truth and nothing but the truth" in every expression used in business, in social intercourse, in even the solitary reminiscent or reflective monologue.

The theory of the proposal rings true. But in practice, in practical attempt—the operation might be something else! Perhaps everybody would not be as ingenious as some of the Georgia weekly papers which have been recently reprinting an editorial headed, "All Editors Are Liars"—and because they printed it, nobody proceeded to believe it! Speaking of the "visible silences," how still the world would sound if the restriction could be enforced upon the folks generally to tell nothing but the truth; what confusion and horror and embarrassment would ensue if, when they spoke everybody for a week "told the whole truth?"

What awkward pauses of indefinite and face-reddening intensity social life would record in that week? What mummers and pantomime would take the place of much of the business haggle? It is at least interesting and novel just to take a minute off and ponder consecutively for that space of time persistently upon the vision and the sound of the soundness of the proposal. Think of what it would mean. You get a thrill anyway. And that's the truth! Boy, page Charles Springer. Tell him the news.

Messrs. Lenin and Trotsky have fixed the Russian front so it doesn't need a napkin.

**VERSE OF TODAY**  
**MORNING PHOENIX.**  
 In my body lives a flame,  
 Flame that burns me all the day,  
 When a fierce sun does the same,  
 I am charred away.

Who could keep a smiling wit,  
 Routed so in heart and hide,  
 Turning on the sun's red spit,  
 Scorched by love inside?

Cavea I long for and cold rocks,  
 Minnow-peopled country brooks,  
 Hunderling gales of equinox,  
 Sunless valley-nooks.

Daily so I might restore  
 A morning phoenix with proud roar,  
 Kindled new within.  
 —Robert Graves.

**EDITORIAL OF THE DAY**  
**A WORD FOR FRANCE.**  
 (From Leslie's Weekly.)  
 Traditional American affection for France has had severe storms to weather. The nation which turned from wine and laughter to safeguard the world with invincible endurance seems to have abruptly reverted to a pre-war type, mercurial, unreliable, almost hysterical. Other delegates to the disarmament conference have not aghast while the French representatives wildly brandished one monkey-wrench after another above the smooth-running mechanism. But—the monkey-wrenches have not been hurled. The machinery continued to run, even though it jerked a bit as the unsteady engineers strove to adjust it to new conditions. France's bark at the conference has been worse than her bite, and there is more than a suspicion that its most formidable ululations have been for political effect at home rather than for international effect abroad.

The French have a phrase, clumsily translatable, "to put yourself under the skin of another." If we Americans could thus project our minds into an alien national personality and comprehend the French viewpoint we should not so readily give way to irritation. One does not judge too harshly the actions of a man suffering from an abnormal temperature. France is still fevered from the wounds of the war, wounds such as no other modern nation has ever endured. Give her time. If 1913-1917 proved anything in a world of chance and uncertainty, it is that, beneath the mutability of the Gallic temperament there is national character like a mighty and immovable rock.

**UNCLE WIGGLY'S NEW HAT.**  
 When Nurse Jane came back to the hollow stump bungalow one day, having been down to the five and six cent store to get a new pair of shoes, she found the face of the clock, the muskrat lady housekeeper saw Uncle Wiggly very earnestly gazing into a looking glass.

"Are you trying to be like Alice in Wonderland, and go through the looking glass?" asked Nurse Jane, "or is your pink nose trying to wander under my hat?"

"No, but I am not trying, now, to see if she is on the other side of the looking glass, for I know she isn't!"

"It is about your pink nose, then," asked Miss Furry Wuzzy. "No, it's about my hat," Uncle Wiggly said. And then Nurse Jane noticed that he was wearing his hat upside down.

"What's the matter with your hat?" asked Nurse Jane. "It is worn out—my hat is— I need a new one," said the bumpy gentleman. "This old one doesn't look well on me, and so I was just waiting until you came in to go down to the nineteen and twenty cent store to buy myself a new one."

"Well, when you buy your new hat," said Nurse Jane, "please bring home your old one." "What for?" Uncle Wiggly asked. "You don't want to wear it, do you?"

"Mercy, no!" laughed Miss Furry Wuzzy, "but I want to use it as a pot to put some dirt in it and start a few tomato plants. It will soon be spring—at least I hope so—and if I start some tomato plants in the house, in your old silk hat, when I set them out after warm weather comes, we'll have tomatoes so much sooner."

"I don't suppose," said Uncle Wiggly, slowly, "that there is any way of planting old silk hats and making new ones grow in their places?"

"I'm afraid not," laughed the muskrat lady. "Well, Wiggy, boy, bring your old hat home with you, buy yourself a new hat and bring back the old one."

"So Uncle Wiggly did this, not taking as long to buy himself a new tall silk hat as one might imagine. Uncle Wiggly was not too proud and fussy.

"As for your old hat," said the

beaver gentleman who waited on Uncle Wiggly. "I may as well throw that away," and he was going to do so. "No, indeed!" cried Uncle Wiggly, "Nurse Jane wants my old hat to start some spring tomato plants in. I'll carry it home under my paw."

And it was when Uncle Wiggly was going home, wearing his new hat and carrying his old one, that he had an exciting adventure. All of a sudden, as the bunny was hopping gladsomely past a hollow log, there was a snarl and a growl and out popped the bad old Bob Cat.

"Oh, ho!" howled the bad chap, when he saw Uncle Wiggly. "You can't fool me this time—making me think you are a chameleon man. You have no black on your face from the inside of a chimney, but

the Bob Cat's eyes, ears and nose. "Oh, wow! What are you doing?" howled the Bob Cat, for he could not see, he could hardly hear, talk or breathe with the hard black that jammed down over his face.

"I'm making you stylish!" laughed Uncle Wiggly. And then, before the Bob Cat could claw off the hat, Uncle Wiggly hopped safely away and home. Of course Nurse Jane had to use something else to start her tomato plants in, but that was better than having the bunny's ears nibbled. I think, don't you? Anyhow, if the molasses doesn't try to stick the eye of the needle on the face of the clock to watch the hands go round, I'll tell you next about Uncle Wiggly and the bark house.

**THE MARKETS**  
 (By The Associated Press.)  
 New York, Feb. 9.—Approach- ment stirred by soldier bonus legislation developments expected of the open market on stock market operators early in today's exchange session, but apparently was allayed, the market engaging in a bullish demonstration in the final hour. The United States Steel closed at a gain of almost three points, affiliated issues also rising one to three points.

Trading of low priced rails was another feature, the demand for Seaboard Air Line common and preferred, St. Louis & San Francisco common and preferred, St. Louis Southwestern preferred, Kansas City Southern, Colorado Southern, Rock Island and Pere Marquette common and preferred resulting in gross gains of one to four points.

People's Gas, food specialties, shippings and the oils and motors were again bid up against the shorts. The few backward features included tobacco and Columbia Graphophone common and preferred, the latter breaking sharply on announcement of receivership proceedings. Sales, 735,000 shares.

The open rate for call money held at 5 per cent, with the usual shading to 4 1/2 per cent in private loans on high grade collateral. Time funds were quoted at 4 1/2 to 5 per cent, the lower rate prevailing for thirty to ninety days accommodations.

After a further sharp rise in which demand sterling was carried to the new high of \$4.35 1/2, foreign exchanges reacted abruptly, the British rate falling to \$4.32 1/2. Continental rates reflect the sudden change, aside from Danish, Norwegian, Swedish and Greek remittances, which held at or above highest quotations of the previous day.

Foreign issues continued to lead the bond market to higher ground. United Kingdoms and French, Belgian and Chinese offerings were especially strong. Convertible rails

featured the domestic list, notably Seaboard Air Line 5s and 6s, Victory 3 1/2s were the only noteworthy exceptions to the better tone of U. S. war floatations, easing to below par. Total sales (par value) aggregated \$15,875,000.

**LIBERTY BONDS.**  
 New York, Feb. 9.—Liberty bonds closed: 3 1/2s, \$96.46; first 4s, \$96.20; second 4s, \$96.10; third 4s, \$97.25; fourth 4s, \$96.25; Victory 3 1/2s, \$95.95; Victory 4 1/2s, \$108.10.

**CHICAGO BOARD OF TRADE.**  
 Chicago, Feb. 9.—Although wheat today reached new high price records for the season, heavy profit taking sales led subsequently to a decline in price, based on adverse domestic crop reports was energetic at first but failed to last. The market closed weak, 1/2c to 5/8c net lower, with May \$1.33 1/2, to \$1.28 1/2, and July \$1.15 1/2 to \$1.10 1/2. Corn finished 3/8c to 1/2c to 1 1/4c down, and oats off 1/4c to 5/8c to 3/4c. In provisions the outcome varied from unchanged figures to 7c higher.

Many wheat traders showed from the start a disposition to realize profits on holdings, and to regard unfavorable crop reports as more or less anticipated. For a while, however, demand for July continued to be aggressive, inasmuch as the territory affected by reported crop failure—Nebraska, Kansas, Oklahoma and Texas—would embrace about one-half of the seeded area. On the other hand, the fact that call for immediate delivery of wheat was slow, and that the May delivery was in no urgent request brought about increased caution as to investment in July contracts. Notwithstanding late messenger told of dust storms again in Kansas the price decline which had set in

resolving the market from the price decline which had set in. Higher receipts of corn, together with talk of lack of available storage room here, tended to depress the value of corn and oats. Besides rural offerings increased and shipping demand here was slack.

Provisions were dull, but prices were firm in line with the hog market.  
 Closing prices:  
 Wheat—May, \$1.29 1/2; July, \$1.15 1/2.

 on any kind of building proposition you have in view. A. E. Palmer, Bangalore Builder, box 41, city, phone 1748-W.

**IRISH GETTING TOGETHER.**  
 The hopes entertained since the recognition of the Irish Free State by the British government that this would pave the way for the Northern and Southern Irish governments to get together seem in fair way of fulfillment. Premier Craig of Belfast and President Collins of Dublin have issued a joint announcement of agreement upon the disputed boundary between the territories of the two Parliaments, of a decision to call off the trade boycott of the North by the South and the permission of the North for the return of Catholic workers to the Belfast shipyards.  
 This is remarkable progress in itself, but it is capped by the news that the two governments are in consultation upon a plan for national union other than the Council of Ireland provided for in the scheme for dominion government approved by the British government. There can be no question that any plan for national union agreed upon by the Irish governments will be accepted by the British which will be only too glad to have that problem solved by those immediately concerned.  
 To the world at large, this news almost sounds

### CHARITY BUREAU TO CARE FOR DISABLED VETS LEAGUE CASES

The welfare bureau of the local post of the Disabled Soldiers' League has been discontinued and the funds in the amount of \$299 have been turned over to the League. The bureau of the League for distribution to needy ex-service men. The decision to discontinue the bureau was made at a recent meeting of the post and the money was deposited with the League yesterday.

The League bureau has handled in the past year of its activity over a hundred cases of needy ex-service men, many of whom suffering from wounds received in France, unable to provide for themselves and families. These men whose compensation awards were either denied or insufficient to supply the normal necessities of life were loaned money without interest to tide them over until their claims were satisfactorily adjusted.

Other cases handled were occasional "offshoots" going through the country seeking employment. These were given lodging and meals, and in some instances were maintained until the man had earned enough at a job to support himself. Although the organization has accomplished some excellent results in the operation of its own service bureau, it has decided that its interests can be best served through the charities bureau. The sum deposited will be augmented from time to time as payments on outstanding loans come in.

**DR. L. S. PETERS TO ADDRESS UNIVERSITY AT 11 A. M. TODAY**

Dr. Lewis S. Peters, medical director of St. Joseph's sanatorium, is to address the university assembly at 11 o'clock this morning. His subject will be "Problems of humanity."

At the same meeting, a schedule of university prizes will be announced and the conditions upon which they may be won will be outlined. The prizes include the Katherine Mather Stines prize in English, the George E. Breese prize in engineering, and the Charles E. French prize in general scholarship.

**HIGHWAY ENGINEER DISCUSSES COUNTY ROADS AND DITCHES**

L. A. Gillett, state highway engineer, was in the city yesterday afternoon conferring with County Agent Lee Reynolds and a number of ranchmen regarding proposed improvements in the southern part of Bernalillo county. Several subjects relating to ditch and road improvement were taken up and it is expected that the highway engineer will make an inspection down the valley this morning.

**IRISH ROW COSTLY.**

LONDON, Feb. 9.—Supplementary civil service estimates issued today show that nearly \$1,000,000 will be required on account of the royal Irish consubinary to be granted to the Irish provisional government for compensation for criminal injuries pending the settlement between the two governments.

### LEADING CATTLE MEN TO ATTEND LAS VEGAS MEET

#### President and Vice President of American National Livestock Association to Speak at Convention.

Fred H. Blesby of Long Beach, Calif., president of the American National Livestock association, will attend the annual meeting of the state cattle association at Las Vegas, March 20 and 21. Mr. Blesby will discuss the general conditions of the cattle business with the state cattle men.

C. M. O'Donel of Denver, owner of the Bell ranch in New Mexico and vice president of the national association, visited yesterday that he would accept the invitation to be on the state convention program. Mr. O'Donel will discuss the system of the year in their relation to the cattle industry.

### SCOUT NOTES

Meetings of Troop three are held every Friday night at the English Lutheran church.

Last Friday several scouts received their pin of rank. Arthur Taylor received a second class pin, and Wallace Leslie, Harry McWilliams and Ray Hogan received tenderfoot. After all our business was done the boys went to the basement and played games while some of the others went with our senior patrol leader to pass tests.

When he came back his coat pocket bulged out. Several scouts eyed it suspiciously but none inquired what it was. Just as the meeting began to break up our scoutmaster called attention; he told us to get in line and then he gave us each a handful of candy. So the mystery was solved.

The wireless "junk" has fallen on several scouts. Wirelesses are going up like hot cakes go down. They will be in order by another week.

**RAY HOGAN**  
Patrol Leader.

### 'SYSTEM' IS KEY NOTE OF TALKS BY FOREST MEN

#### Specific job requirements was the subject of the discussion led by District Forester Frank Pooler at the session of the forest supervisors yesterday at the federal court room.

The district forester dwelt particularly upon the job of ranger and the requirements. Many times a new ranger is started out on his job without knowing exactly what is expected of him. Mr. Pooler stressed, and suggested a course by which this defect could be readily remedied to the betterment of this important cog in the forest service operative machinery.

It was suggested by the district forester that the essential requirements for new men be definitely set down and explained before the man starts on his job.

A discussion on supervisors and rangers' work planing was then led by Supervisor O. F. Arthur of the Alamogordo forest. A plan for a closer co-operation was outlined. Supervisor H. W. Lovage of the Taos national forest discussed two methods of arranging the work of the district rangers in order that they might use their time to the best advantage. Field notes was the subject of an address by Aldo Leopold, assistant district forester, at the meetings yesterday.

There will be no regular session today as the various committees will consider the many plans suggested. The committees will report Saturday and the conference will close Saturday evening with a smoker at the Country club.

### EXTENSION OFFERED FOR REINSTATEMENT FOR U. S. INSURANCE

All the veterans of the world war who let their insurance lapse will undoubtedly be interested in the announcement that the time limit for reinstatement and conversion of said policies into United States government life insurance has been extended to March 4, 1922.

This reinstatement may be accomplished through the payment of two monthly premiums, provided that the applicant is in good health or in not good condition at the time of reinstatement. Even men disabled to a considerable extent may reinstate by paying all the back premiums plus 5 per cent, provided that their disabilities are of service origin.

The extension may be accomplished through the payment of two monthly premiums, provided that the applicant is in good health or in not good condition at the time of reinstatement. Even men disabled to a considerable extent may reinstate by paying all the back premiums plus 5 per cent, provided that their disabilities are of service origin.

### Good Furniture

—JUST THE DIFFERENCE BETWEEN A HOUSE AND A HOME.

What is it after all, that makes the home? Is it not the furniture? No matter how rich in hospitality the spirit may be, it cannot express itself in an empty room. Beauty, charm, comfort, "hominess," all find their best expression through the use of Good Furniture.

As to the style, your individual taste and the requirements of your home answer that question. We carry such a wide range of designs and finishes that with our help you will find the furnishing of your home an easy and enjoyable matter.

Furniture of course, should be GOOD. But it need not be expensive. Good furniture is built for the bungalow as well as for the mansion, and both styles are found at LIVINGSTON'S.

And with all the beauty, with all the superior quality, with all the great selection that you will find at LIVINGSTON'S, prices from the least expensive to the costliest have shown an appreciable decline.

**LIVINGSTON & CO.**  
HOME FURNISHERS

## B THEATRE

TODAY AND TOMORROW  
HIGHEST CLASS IN EVERY WAY

**HOW DOES A WOMAN KNOW?**  
A lonely man sat on a bench in a London park. Out of the fog crept the slender figure of a girl.  
Fearlessly she approached the bench, sat down, and began to speak to him.  
She had arrived only that morning from far-away Syria, a refugee from a Turkish harem. There was no one in all London whom she knew.  
And yet, one glance at this strange, tall man on the bench, and she KNEW—knew that she could trust him. How does a woman know?
