Steam Ship Oceanic Catches Fire in Steerage Day to Sail for New York--Fire Extinguished and Ship Sails.

CALIFORNIA TOWN LOSER BY FIRE IN LIFE AND PROPERTY

St. Louis, Mo., Aug. 23.—Dr. Wm. Rininger, a member of the faculty of the Marion-Sims Medical college, was killed by an explosion of benzine in his laboratory today.

The Oceanic was scheduled to sail for New York today. The fire was promptly extinguished by the crew and the damage was trifling.

CALIFORNIA FIRE BOTH FATAL AND DESTRUCTIVE

Oroville, Cal., Aug. 23.—A fire which threatened to wipe out the entire city, broke out here early this morning.

FIRE ATTACKS STEAMSHIP IN HER STEERAGE.

Liverpool, Aug. 23.—Fire broke out this afternoon in the steerage of the White Line steamer Oceanic.

ROYAL ARCANUM HAS DEMANDED REDUCTION

New York, Aug. 23.—At a twelve-hour secret session, attended by representatives of seven-eighths of the Royal Arcanum membership of the United States and Canada, resolutions were passed demanding of the supreme council of the order that it rescind at Put-in-Bay next week the action previously taken raising the dues from a dollar to two dollars.

The action previously taken raising the dues from a dollar to two dollars, which was done by the supreme council at its session of last May, Open charges of breach of trust were made against the supreme council.

BROOKLYN'S FATE AS BAD AS NEW ORLEANS

Brooklyn, N. Y., Aug. 23.—The desperate efforts of the health authorities to prevent the spreading of the typhoid fever epidemic prevalent in Brooklyn have not been successful so far, and the situation is beginning to be quite critical.

PROVIDING AGAINST FIRES IN FAR NORTH

Nome, Alaska, Aug. 23.—The people of Nome do not intend that their city shall suffer the fate of Dawson City, which was entirely destroyed a few years ago by fire, and so they have precluded the possibility of such a catastrophe by painting their houses and stores with a fire proof paint which is made from a substance called magnesium talc, found near at hand.

SENATOR CLARK SAILS FOR SUNNY FRANCE

New York, Aug. 23.—Senator W. A. Clark, of Montana, who is recovering from a surgical operation, sailed today on the Baltic for Paris, where he is expected to remain for several weeks.

TENNIS CHAMPIONS DEFEAT CHALLENGERS

Newport, Aug. 23.—Messrs Ward and Wright, tennis champions, defeated Alexander and Hackett, challengers, for the United States championship in doubles, today. The score was 6 to 2, 6 to 1 and 6 to 3.

ALBUQUERQUE HAS MANY PROMISING YOUNG MUSICIANS

The musical given at St. Mary's hall last night by the choir of the immaculate Conception church, was largely attended and a great success in every respect.

PORTRAIT OF LINCOLN IS FORMED IN STONE

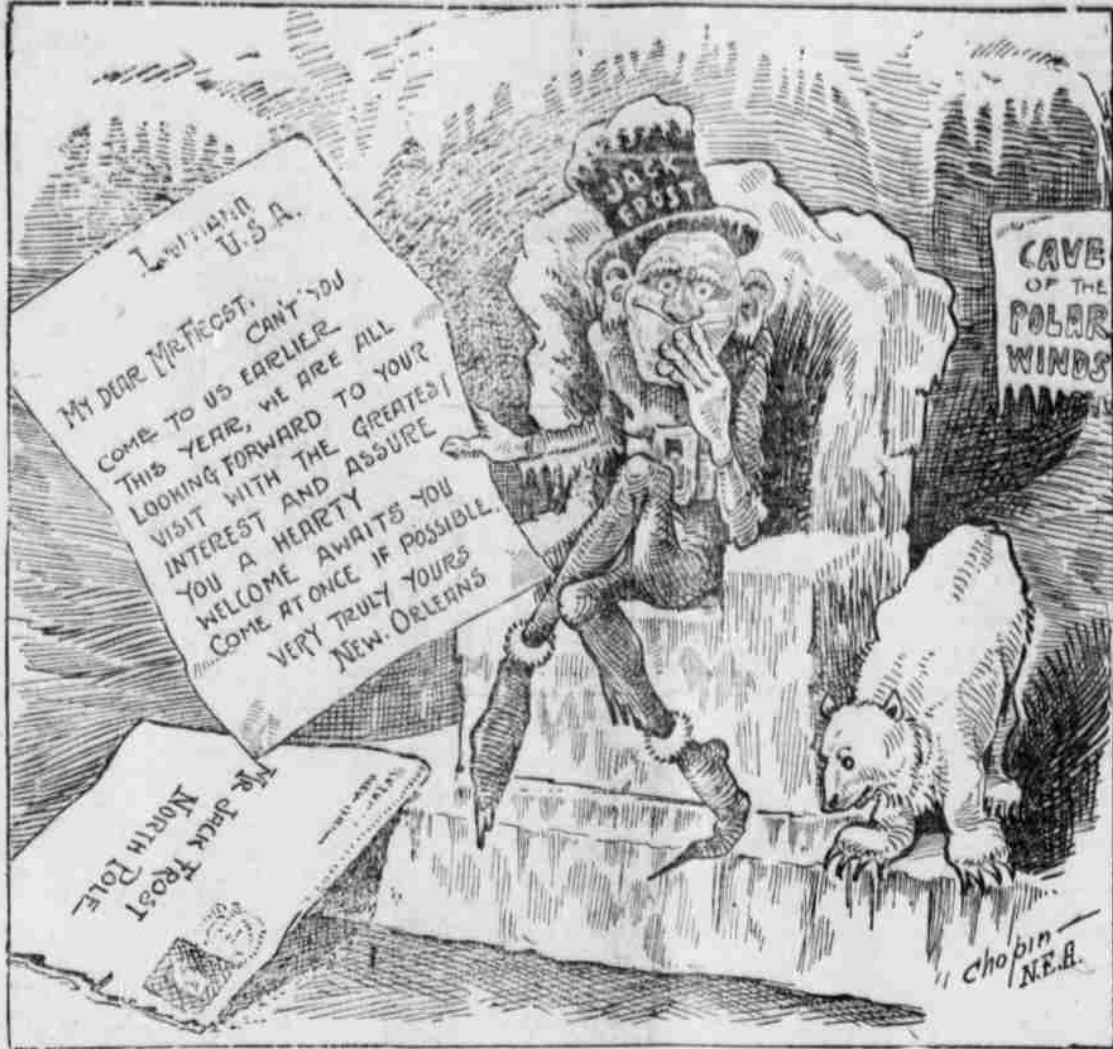

Portland, Ore., Aug. 23.—A very fine likeness of Abraham Lincoln, transferred to a limestone surface by natural process, is one of the most interesting curiosities at the Lewis and Clark Exposition. To make this picture as it is today, indelibly printed in the actual stone and permanently framed with a solid stone an inch thick, required two months.

JAILS FOR POLITICAL OFFENDERS ARE FULL

Warsaw, Aug. 23.—The strike in the factories is decreasing. Who-scale arrests have been made, including members of the Polish Socialist party.

Several persons have been conveyed to the fortress, because the jails set apart for political offenders are full.

CORDIALLY INVITED

IT IS GENERALLY ADMITTED THAT NOTHING BUT FROST CAN BRING TO AN END THE YELLOW FEVER EPIDEMIC--NEWS ITEM.

EASTERN WILL BE COMPLETED AT ONCE

Col. W. S. Hopewell, Just Back From New York, Brings Good News.

TORRANCE-ROSWELL EXTENSION AND RECOMMENDS LAWS FOR IT

Col. W. S. Hopewell, general manager of the Albuquerque Eastern railway, who has been in New York for the past six weeks, during which time he succeeded in raising funds for the completion of the Albuquerque Eastern, was in the city a short time last night on his way to his ranch at Hillsboro, Sierra county, where he goes to visit Mrs. Hopewell, who is suffering from a slight attack of illness.

AMERICAN BAR ASSOCIATION

Considers National Control of the Insurance Business

MUNICIPALITY OFFICIALS MEET

And Discuss Questions Pertaining to City Government.

PLEASURE ADDED TO BUSINESS

Toledo, Ohio, Aug. 23.—The annual convention of the League of American Municipalities was formally opened here today.

Mr. Hopewell stated that construction work on the Eastern from Morality to Albuquerque would be pushed to completion at once and that trains would be running into this city over the new road in a few months.

The new Matheson hall had been selected for the headquarters of the association.

One of the most important subjects that will come up for consideration will be the report of the committee on insurance, which will be submitted by Ralph W. Breckenridge, of Omaha, the chairman of that committee.

WESTERN PACIFIC INCREASING CAPITAL

San Francisco, Cal., Aug. 23.—The stockholders of the Western Pacific Railway company have been called together to meet here today for the purpose of authorizing an increase of the capital stock of the company from \$50,000,000 to \$75,000,000.

CAPT. KIMBALL TO FORT SNELLING

Captain A. W. Kimball, U. S. A., who was recently relieved from duty in the Philippine service, where for the past three years he has been connected with the quartermaster's department, and who has been spending a two months' furlough in this city on a visit to relatives, has received orders from the war department to report for duty at Fort Snelling, Minn., at the expiration of his furlough.

GEORGIA AGRICULTURAL SOCIETY MEETS

Albany, Ga., Aug. 23.—The Chautauqua auditorium was crowded this morning when the annual convention of the Georgia State Agricultural Society was opened there this morning.

President Hughes called the convention to order. He was followed by Mayor Lippitt, who welcomed the delegates on behalf of the city.

HANDFUL OF GOLD HELD JUST FOR A MOMENT

Portland, Ore., Aug. 23.—In the United States government building at the Lewis and Clark Exposition, there are three nuggets worth in the aggregate \$8,000. These are exhibited in a small wire cage, and a man who wears in his belt a revolver of the size common to melodramas and wild west shows stands guard over them.

The biggest nugget of the three which weighs 182 ounces, is worth \$3,275. There is a hole in one side of the cage. The guard is one to put his hand through it, but not large enough to enable him to take out the nugget.

"I have enjoyed my brief visit to my old home in Albuquerque very much indeed," said the captain, and now that I am back in the United States I hope to be able to visit my friends here more often.

PRESS REPORTERS ARE ALL AT SEA GUESSING

What News to Send Expectant Public About Peace Conference--Sessions Were Held Today.

BUT NOTHING IS GIVEN OUT FOR PUBLICATION

President Cables Ambassador Meyer Who Calls on the Czar and is at Once Accorded a Private Audience.

THIS REGARDED AT PORTSMOUTH AS MOST HOPEFUL

Oyster Bay, Aug. 23.—J. W. McGrew, one of the White House stenographers, who yesterday was at Portsmouth, on a mission from President Roosevelt in connection with the peace conference, returned to Oyster Bay today.

peace conference adjourned at 12:15 p. m. Mr. Witte and Baron Rosen at once left the navy yard for the Hotel Wentworth. The sitting was resumed this afternoon.

EXCESSIVE TENSION MARKED CONDITION OF ENVOYS TODAY

Portsmouth, N. H., Aug. 23.—Excessive tension are words that should be used to describe the situation before the peace envoys met this morning.

PRESIDENT SENDS LONG MESSAGE TO MEYER.

Oyster Bay, Aug. 23.—President Roosevelt sent a long message to Ambassador Meyer Monday evening.

AMBASSADOR MEYER CALLS ON THE EMPEROR.

St. Petersburg, Aug. 23.—Mr. Meyer, the American ambassador, went this afternoon to Peterhof, where he was received in audience by the emperor.

CONSIDERED MOST HOPEFUL SIGN SO FAR DEVELOPED.

Portsmouth, N. H., Aug. 23.—The Press cable from St. Petersburg announcing that Mr. Meyer, the American ambassador, held an audience with the emperor this morning at Peterhof, is considered here as one of the most hopeful signs thus far developed in connection with the president's efforts to bring the belligerents to a compromise.

That the president should ask Ambassador Meyer to make a personal appeal to the emperor in his name, for it could be little less than that, shows how much in earnest the president is in this matter.

RUSSIA PLACED IN BAD LIGHT.

But the cablegram from St. Petersburg was sent before Witte communicated to the emperor the contents of the communication from President Roosevelt, delivered to him yesterday afternoon at the navy yard.

It is not necessarily to be accepted as the emperor's last word, and Witte went to the conference prepared to "spar for time."

PEACE CONFERENCE ADJOURNED AT NOON.

Portsmouth, N. H., Aug. 23.—The peace conference adjourned at 12:15 p. m. Mr. Witte and Baron Rosen at once left the navy yard for the Hotel Wentworth. The sitting was resumed this afternoon.

CHARGED WITH ALTERING A SANTA FE PASS

E. R. Rowan, who for some weeks past has held the position as telegraph operator at Isleta Junction for the Santa Fe, is in the city jail charged with the serious offense of altering a railway pass.

Rowan was arrested late last evening by Depot Master G. H. Gray, on a warrant sworn out by Special Officer Charles Maine, of Isleta.

It seems that Rowan, while working at Isleta, made a request upon the company for a pass from Isleta to El Paso. After he secured the pass it is charged that he altered it so as to read, "E. R. Rowan and one, from Isleta to Emporia."

He was arraigned before Judge Crawford in police court this morning, but the hearing was postponed until Friday morning, when Conductor Griffith, to whom the altered pass was presented, will be in the city.

The prisoner does not appear to be a crook by any means. He is young and nice looking. His brother is in the city and has engaged Attorney W. C. Hancock to fight the case.

E. W. Dobson, local counsel for the Santa Fe railroad, is conducting the prosecution.

UNVEILING SOLDIERS' MONUMENT

Ogdenburg, N. Y., Aug. 23.—The monument erected in honor of the St. Lawrence county soldiers, who fell during the Civil war, was unveiled here today by Vice President Fairbanks. The celebration had a decidedly military character and was attended by the Twenty-second regiment of infantry, of Sackett's Harbor, the Forty-first battalion of Victoria rifles, of Canada and the Fourth battalion of New York National Guards.

The Twenty-second infantry arrived here this morning, after having marched the entire distance of eighty miles, from Sackett's Harbor.

YELLOW PLAGUE GROWS LESS IN NEW ORLEANS

But Is On Increase in Surrounding Territory Where Death and Suffering Are Now On the Increase

New Orleans, La., Aug. 23.—While the fever in New Orleans is subsiding, it is out of the state board of health and the marine hospital service have their hands full trying to send adequate assistance to outside settlements struggling with the disease.

Seriously a day passes without the report of some newly infected point. The worst news thus far discovered is at Leville, near the mouth of the Bayou La Poudre, where nearly a hundred of the settlement, three hundred people, are infected and a number of deaths have occurred.

Latest Reports of Cases. New cases at noon today since 6 p. m., 12. Total cases to date, 1,515. Deaths, one. Total deaths to date, 215.

PEACE AT LAST WITH THE YAQUIS

General Torres Reaches an Agreement With Rebels in Mexico.

INDIANS ARE GIVEN RICH TRACT

A special dispatch dated last Saturday from Mexico City, announces that General Luis Torres, commander of the Mexican military forces against the Yaqui Indians, who went to Torin, Sonora, about ten days ago for the purpose of meeting a delegation of chiefs to arrange terms of peace, has finally accomplished his purpose.

It is stated that the war department has received advices from General Torres that the preliminary articles of peace have been signed by the Indian chiefs on behalf of the tribe, and by him as the representative of the Mexican government.

DECREASE IN CATTLE RECEIPTS LAST WEEK

Kansas City, Mo., Monday, Aug. 21.—Cattle receipts last week 58,000 head, against 66,500 the week before. The decrease was in corn fed cattle and quarantines, while receipts of westerns and stockers and feeders was heavier, there were also plenty of cows and canners, which met a ready sale at stronger prices. The steers and stockers and feeders sold 19 to 29 cents lower during the week. The country demand has been a disappointment up to the last few days, but since prices have got down to the present basis, the movement has been very large. Six hundred cars went out last week, the largest week this season, against 376 cars the previous week. The supply of cattle today is 13,000 head, smallest Monday for three weeks, and not up to expectations, and indicating a smaller supply this week than last. Market tone is higher on everything except western grass steers, which are steady. These are mainly from Kansas and Nebraska pastures, and will sell better relatively from now on, as they are killing out better every week. They bring from \$3.40 to \$4.40, weighing from 1,000 to 1,250 pounds. Stockers and feeders sell from \$2.50 to \$3.75, mainly large numbers of panhandle cows today at \$2.35 to \$2.65, a few above this; canners \$1.75 to \$2.25, veal calves quarter higher today at \$4.00 to \$5.25, bulks \$2.15 to \$2.40. Packers ended last week with everything killed up, and with a better demand from both the killers and from country buyers, together with smaller receipts this week, the outlook is good for higher prices all around.

Sheep and lamb receipts were so small up to Friday last week that traders did not follow outside markets at all, so that salesmen secured advances regularly every day. A better run was received Friday, and receipts amount to 5,000 today, and buyers have made an effort to get back into line, but prices are still 15 to 25 cents above last Monday. Top lambs today \$6.75, although good lambs sold at \$7.00 on three different days last week. Yearlings range from \$5.35 to \$5.75, wethers around \$5.00, ewes \$4.40 to \$4.65, stock and feeding sheep \$3.50 to \$4.50. Supply last week 16,000 head, but twice that number could have been handled at the prices indicated above.

128 hrd. ewes, 80 pounds, \$4.10; 98 feeders, 65 pounds, \$4.35. Thursday, Aug. 16, 1905.—W. L. Booth, Holbrook, Arizona, 223 sheep and yearlings, 97 pounds, \$5.50. Haley & Saunders, Nampa, Idaho, 535 sheep and yearlings, 83 pounds, \$5.50; 221 ewes, 92 pounds, \$4.60. L. Finch, New Mexico, 190 yearlings, 67 pounds, \$5.85; 316 ewes, 90 pounds, \$4.75. Carnes & C., Colorado, 424 wethers, 97 pounds, \$5.00; 679 feeders, 91 pounds, \$4.25.

A Warning to Mothers. Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule, it is only necessary to give the child a dose of castor oil to correct any disorders of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to grip. It does not check the bowels, give Chamberlain's Colic, Cholera and Diarrhoea Remedy, and then a dose of castor oil, and the disease may be checked in its incipient and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use, as soon as the first indication of any bowel trouble appears. This is the most successful treatment known, and may be relied upon with implicit confidence, even in cases of cholera infantum. For sale by all druggists.

CATFISH CAUGHT IN THE SAN JUAN RIVER. It is an unusual thing for a catfish to be seen or caught in the streams of northern New Mexico, and this makes the fact of a recent catch in the San Juan river all the more interesting. Last week while fishing in the San Juan near Farmington, San Juan county, Edward Lewis caught a twenty-eight pound catfish with a hook and line and another smaller one was caught a little later with a net.

Public is Aroused. The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for such stomach, liver and kidney. Mary H. Walters of 56 St. Clair avenue, Columbus, Ohio, writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak from useless doctors' drugs that I could not eat. Soon after beginning to take Electric Bitters I obtained relief, and in a short time I was entirely cured." Guaranteed at all drug stores. Price 50c.

Peculiar Disappearance. J. D. Runyan, of Butlerville, Ohio, laid the peculiar disappearance of his painful symptoms of indigestion and biliousness, to Dr. King's New Life Pills. He says: "They are a perfect remedy for indigestion, sour stomach, headache, constipation, etc." Guaranteed at all drug stores. Price, 25c.

Postmaster Appointed. Peter L. Harrington has been appointed postmaster at Lynn, New Mexico. Notaries Public Appointed. The following notaries public have been appointed by Governor Otero: Encarnacion Sandoval, Gallegos, Union county; Anna T. Baker, Las Cruces; Dona Ana county; Samoil T. Bitling, Carlsbad, Eddy county; J. R. Barnell, Elida, Roosevelt county. Decision in Bernalillo County Cases. It is more than likely that Governor Otero will not announce his decision in the cases of the charges preferred by District Attorney Frank W. Clancy against Frank A. Hubbel, treasurer; Estavio Vigil, superintendent of schools; and Thomas S. Hubbel, sheriff of Bernalillo county, this week. District Attorney Frank W. Clancy, who is very busy with his official duties, has requested reasonable time for the preparation and submission of his brief in the Thomas S. Hubbel case. This, it is believed, will be done next Saturday, and will then be taken under consideration by the executive.

The Only Way. There is no way to maintain the health and strength of mind and body except by nourishment. There is no way to nourish except through the stomach. The stomach must be kept healthy, pure and sweet or the strength will let down and disease will set up. No appetite, loss of strength, nervousness, headache, constipation, bad breath, sour risings, rifting, indigestion, dyspepsia and all stomach troubles that are curable are quickly cured by the use of Kodol Dyspepsia Cure. Kodol digests what you eat and strengthens the whole digestive apparatus.

Superintendent of Santa Fe's Rio Grande Division May Transfer.

RUMOR NOT CONFIRMED, HOWEVER

The El Paso Herald, in its issue of last evening prints the following article, relative to the probable transfer of Superintendent L. U. Morris of the Rio Grande division of the Santa Fe with headquarters at San Marcial, to division superintendent of the El Paso & Southwestern railway.

ing order by giving rebates to the Hutchinson, Kan., Salt company, in collusion with the Hutchinson & Arkansas River railroad, which latter company is controlled and operated by the salt company.

The charges were filed by A. Van Valkenberg, United States district attorney for the western department of Missouri, at the instigation of M. D. Purdy, assistant attorney general of the United States.

Judge Phillips set September 18 as the date upon which the companies are ordered to make their plea to the charge of contempt.

H. J. Anderson, president of the First National bank of Alamogordo, who was injured in the Rock Island wreck a few days ago at Columbus Junction, Iowa, is rapidly recovering and will be back home in the course of a few days.

J. F. Kuckie, of Kansas City, manager of the Harvey system, arrived in the city from the east last night, and spent the day here on official business.

Storekeeper I. J. Custer, of the Santa Fe at this point, left last night for a business trip to Topeka. He will return the first of next week.

C. P. Jones, live stock agent for the Santa Fe Central railway, with headquarters at Santa Fe, will shortly remove his family to this city.

RICH STRIKE IN ORGAN MOUNTAINS

Parties in the city from Las Cruces report that the Modoc mine has again begun to make regular shipments of ore, says the El Paso Evening News.

The week a rich strike was made while new development work was being pushed and some kidneys encountered that furnish ore which assays from ten to twenty per cent lead and from ten to twenty ounces in silver per ton.

The regular body of ore runs about 10 per cent lead and five ounces of silver.

It is stated that there is an immense body of ore of this character already in sight and the present outlook justifies the employment of a large force of men.

The management is planning to install a number of machinery this winter and other big improvements are contemplated.

The Modoc, as well as other properties in the Organ mountains, has frequently changed hands, and this to a certain extent has interfered with the proper development of the mines.

WESTERN RAILROADS ARE CITED FOR CONTEMPT.

Contempt proceedings, charging violation of the order of District Judge John F. Phillips, issued in March, 1902, restraining the defendants from giving rebates in violation of the interstate commerce law, have been filed at Kansas City, Mo., in the United States district court against the Chicago & Alton, the Burlington, the Missouri Pacific, the Rock Island and the Santa Fe railways.

RAILROADS AND REBATE

According to the Kansas City Star, President E. P. Ripley, of the A. T. & S. F. company, when asked about the charges that the management of that railway had given rebates to the Hutchinson Salt company, is reported to have said: "It is a common thing, and the only excuse seems to be that they all do it."

"And yet the proceedings in question were not merely action under the Elkins anti-rebate law, but under an injunction brought against the railroads to give additional force to that law. If those charges are true, then the railway corporation is not only guilty of violating the law, but is also in contempt of court for disregarding the injunction. And yet the only comment of its president is that 'it is a common thing,' and the only excuse seems to be that 'they all do it.'"

"Now it is very hard to enforce a law that the public generally believes to be unjust, but it is a very different matter when merely the class to which legislation is intended to apply finds its burdensome or 'impracticable.' They may 'all do it,' meaning the railways, but they do not all 'stand for it,' meaning the public. It is an evidence of the lack of confidence among the railroads, one toward another, that they follow the rebate system, since the average profit of all would be larger if they all agreed not to give concessions, and lived up to such an agreement."

"But since railroads find it impossible, or undesirable, to enforce fair business methods among themselves, there is nothing left for the people injured by rebate discrimination except to appeal to the law. And it might as well be understood once for all that the law is valueless except in its criminal bearings. If the criminal clause of the Sherman act is enforced and the penalties for contempt of court imposed on railway officials, there will be some traffic managers who will not 'do it,' at least not all the time, for a part of the time they will be behind the bars. One thing the people hope to see as a result of the Roosevelt administration is that the action against railway abuses will result in the assessment of full penalties on those who persist in regarding the law as a joke."

According to the New York World, the railroad mileage of the United States, June 30, 1904, the end of the latest year of official computation, was 297,973. In all the rest of the world there is little more than 300,000 miles of track. There is another detail of railroad report not at all gratifying. In the fiscal year of current note there were 94,201 casualties of the rail, as against 93,393 in 1902-03. Of the 10,046 persons killed 441 were passengers. One passenger was killed in every 1,622,267 carried, as against one in 1,957,441 in 1902-03, and one in 2,153,461 for the year ending June 30, 1901. One grainman in every 120 was killed in the new year of record, one for every nine was injured. In the light of these figures, the fresh report from the interstate commerce commission carries an old lesson and warning. We are paying large attention to railroad promotion and actually falling away from the detail of railway safety.

Work has commenced on the new wing to be added to the Loretto academy at Las Cruces, and when completed this institution, it is said, will possess the finest educational edifices in the southwest. The new wing will be approximately 40x100 feet, running west from the main entrance with an L of the same dimensions extending east. The entire structure will be two stories high, and will be built in the ancient mission style, which is becoming so popular architecturally. The building will be modern throughout and no expense will be spared by the sisters in charge in the general equipment of the entire building, to make it first class in every respect, and in keeping with the high standard of excellence sustained by the faculty. Work will be pushed as rapidly as possible to make room for the new students who will soon be pouring in.

DESERT TO FRUITFULNESS

According to the New Mexican, five years ago the township in which Portales, the county seat of Roosevelt county, is situated, was considered scarcely fit for a cattle range, as it was estimated that it would take the grass from about the fifty acres to sustain one steer for twelve months. It was a part of arid America that was all arid in the true sense of the word.

How great a change man has wrought, may be gathered from the following, taken from a recent issue of the Portales Herald, which says:

"J. P. Hargis took the editor for a drive last Wednesday evening, and we saw some of the richest land and best crops in New Mexico. Mr. Hargis is at the section corner two miles south of Portales, and there he has Indian corn, Kaffir corn, milo maize, cane, pumpkins, melons of all kinds, and sweet and Irish potatoes, and other garden truck in a high state of perfection. He also has locust and cottonwood trees coming on, and a fine well of water sixteen feet deep, and a yard full of chickens. Crops out that way are all good, but this one especially showed the benefit of deep plowing in the spring. The ground was plowed twice very deep in the spring, and is now as soft and mellow as one could wish. His large field of Indian corn looks like it would make forty bushels of corn to the acre, and is about made, and the potatoes, melons, pumpkins, etc., were simply immense. His garden will now supply the Portales market and he will have plenty of fresh stuff coming until frost."

Similar examples of successes are springing up all over the territory. In the future they will multiply more rapidly than in the past.

A Saturday night's telegram from Breslau, Prussia, said that "a society called the Corvaria Sofia has been founded in western Russia and in Poland to advocate the persecution of the Jews. The society has begun work at Biala, where forty Jewish houses and ten others have been burned, making homeless 400 Jews and forty others. Jews in the small towns and villages are terrified." Yet this is the nation, the ignorance, superstition and barbarity of which renders it unable to cope with the little brown man, and which is looking to Europe and America to save it from being reduced to the position of a third rate power, where it so deservedly belongs.

State Insurance Commissioner Wolf has submitted to Governor Pardee of California, his annual report, and in it calls attention to several valuable lessons that have been learned from recent disclosures in the affairs of the Equitable. Chief among these lessons is mentioned that of federal supervision of insurance. The commissioner's report merely refers to the agitation now going on in the eastern states, but he introduces a subject that is destined to be of deep national concern.

More than 30,000 carloads of citrus fruits are shipped annually from California, the railways receiving about \$10,000,000 each year for freight. California therefore is greatly interested in the Interstate Commerce Commission's investigation into the question of private car lines.

Arizona this fall will hold its first territorial fair; New Mexico will hold her twenty-fifth; and yet New Mexico is so far behind Arizona in the elements and evidences of civilization, to hear the Arizonians tell it.

The sensible people, who have looked into the subject of jointure of New Mexico and Arizona, see the truth, that it would be a blessing and not an injury to either of the territories. It is splendid destiny.

Ex-Congressman Kern, now mayor of Belleville, says the officer is a fool who attempt to enforce all of the laws. The mayor of Belleville is no fool, and everybody knows it.—Globe-Democrat.

THE AUGUST DAYS ARE NOW FULL OF HAZE

Byron Williams in Western Publisher

The August days are full of haze, Of dancing sunbeams in a blaze, Of swimming boys and babbling brooks, Of ploasing, paper covered books, Of bees and trees and vasaicles, And fragrance facing with the breeze!

Oh, August days so filled with haze I love to dream beneath your gaze, Just lazy, languid and serene To bask beneath your golden sheen Your mood is food, your attitude With rare contentment is imbued!

Oh, August days replete with mazes Of light and shadow all a-gaze, You calm the fretful, striving song That in man's being runs along, And crown a time of rosy moon That dulls ambition with its tune.

Oh, August days, I hail your lays Of drowsy, droning, halcyon ways, I bask, I dream, I close my eyes And open them in Paradise! Such days, such ways should last always— The lazy, August days of haze!

LARGE SIZED OPERATIONS OF THE AMERICAN HEN

San Francisco Chronicle

According to the Chicago Chronicle, "there are more than twice as many eggs eaten in the United States now as there were ten years ago. The count of the year's laying for 1904 shows 1,335,728,779 dozen. And this is exclusive of eggs which are produced outside the farms—a crop which is conservatively estimated to be about 5 per cent of the total number, and would bring the aggregate in dozens to easily over 2,000,000,000. The value of the farm eggs alone at 30 cents a dozen is \$600,518,633.70. The increase, which is over 75 per cent for the decade, is estimated at a little over 600,000,000 dozen for the last five years. The greatest factor in this increase has been the greater facilities and efficiency of cold storage. Applied in transportation it has worked a great change in business methods. In the early applications of cold storage eggs were stored only as a last resort. There was no selection with cold storage in view and inferior goods were often stored, bringing the method under suspicion. Losses followed, and it was seen that the first consideration of successful cold storage was a judicious selection of products. When this was learned thoroughly cold storage made rapid bounds as a factor in egg raising."

"It is estimated that 4,000,000 cases, each containing thirty dozen eggs, were stored over last winter in the cold storage warehouses of the United States. The space for eggs was estimated at over 375,000,000 cubic feet and was 750 per cent greater than ten years ago. That these quantities are flooded upon the market when the supply of fresh eggs is cut off, and in such amounts that the price does not become exorbitant, is one of the steps in the regulation of prices in which the cold storage has lately proved a balance wheel. The other is that its demands relieve the producer at a time when he has the most trouble in disposing of his product, and consequently his prices are well sustained. As this has gradually become the situation the egg industry has been taken out of the hands of the wives and daughters of farmers, and has become one of the most important of the farm industries. The business has become systematized and organized so closely that under favorable conditions enormous profits, amounting sometimes to 75 and 80 per cent, are realized. The eggs are bargained for and picked up by wagons, which go around for the purpose; they are tested and selected, thus relieving the farmer of all difficulty, and, moreover, the payments are made in cash. The competition which arises also has the effect of keeping up the summer prices, so that the farmer finds it worth while to pay closer attention to the breeds of fowl which lay steadily, and is killing off the undesirable breeds. That this attention to the scientific side is becoming more general is shown by the fact that the last census reported the number of dozens of eggs per chicken, at a little more than five and one-half, while ten years ago the average United States hen produced but a little over three dozen annually."

"These conditions have also had results in a more steady demand during the year, which brings to light another reason for increasing consumption. This is the introduction of European cooking, which is not only applied to the American cuisine in general, but is noticeably used upon eggs in particular. Also is included the apparently irrelevant fact that the habit of making attractiveness a chief feature of dishes served upon American tables is more and more observed. It is not too much to say that the person who has in any sense a varied diet does not eat a meal in which eggs do not appear in some form or other. A decade or so ago, they were known as a breakfast dish only. Now they are put forth as entrees, entremets and pieces de resistance, in which form they appear at luncheon and even for dinner. The growth of vegetarianism has also raised the egg to a popular place as a dinner dish."

"In the United States little is taken into account except hens' eggs. The English habit of considering the plover's egg a delicacy has never been adopted by Americans. In Virginia gulls' eggs are commonly eaten, and in Texas the eggs of terns and herons are gathered along the coast. Turtles' eggs are highly prized in countries where they are abundant, and although once commonly eaten in America, they are now seldom offered. The scarcity of goose and duck eggs is becoming more and more marked. The number of turkeys, ducks and geese reported from all parts of the country has decreased on an average of 30 per cent, except in the west, where large ranges are the rule."

SELECTIONS MADE FROM PRESS OF SOUTHWEST

No Need for Incorporation.

Some of the strong arguments used why we should incorporate the town of Las Cruces, was that we would have electric lights, water works, an ice plant and many other improvements. Colonel Berkey has put in the electric light plant, the water works and will in due time put in the ice plant. Let's patronize him, and pretty soon we will have a street car line that will connect every town in the valley, which will increase every business man's business in Las Cruces one hundred per cent.—Las Cruces Citizen.

Enlargement of Ticket Office.

The Santa Fe office building, upon which work is to be begun at once, will prove of considerable advantage to Las Vegas as well as an enhancement to the depot grounds. The fact that the whole Castaneda will be utilized as a hotel will add considerably to the plan that Las Vegas are working out—namely, to make Las Vegas the most popular tourist section in the southwest.—Las Vegas Optic.

Socorro County's Prosperity.

What's the matter with Socorro county? Her mines are doing better than they ever did before, the prices of her thousands of cattle have an upward tendency and the prices of wool and sheep are still sky high. She's all right.—Socorro Chieftain.

New York Money Market.
New York, Aug. 23.—Money on call, 1 1/2% per cent; prime mercantile paper, 4 1/2% per cent. Bar silver, 61 1/2¢.

For a week at least patrons of the Albuquerque postoffice must be patient when they go for their mail, and those of the free delivery will have to enter the postoffice on Silver avenue on Sunday and assemble at a "pic counter" in the new addition to the old building. The carrier department has been moved back to the addition, which is of brick, 20x30 feet, and the place formerly occupied by them in the rear of the old building is now occupied by the mailing department. The general delivery case will also be moved toward the rear about eight feet, to give more room in the lobby, and the box partition on the left side will be moved eighteen inches toward the south wall.

Postmaster Hopkins said that morning that he hoped to have all the changes completed by Sunday, and the slight inconvenience incurred while they are taking place will then be over, and a better distributing system inaugurated. The local department has been cramped and handicapped in its work the past year by a large increase in business, and now with the increased floor space, Mr. Hopkins says that he hopes that this situation will be relieved.

TERRITORIAL FAIR PLANS MATERIALIZING

Railroad Rates, Advertising Scheme, Merchants Parade and Horse Racing

ARE FEATURES ON THE MOVE

Get on the trail that leads to Albuquerque. Big territorial fair September 18-23, 1905. We're getting down to the home stretch, but always have time to stop for your orders. If we don't hit a washout or develop a hot box, will be with you about representing Gross, Kelly & Co.

This is the card Dick Dillon, traveling salesman for the above popular firm, is sending out to the customers. It is a very clever advertising scheme, and would be a good example for other enterprising business houses of Albuquerque.

Secretary Sellers today received a letter from V. R. Styles, general passenger agent for the El Paso & Southwestern railroad, promising a rate of one and one-third fare for the territorial fair. Mr. Styles stated in his letter that this rate would be put on only between September 15 and 23, with return limit on the 20th. The fare on the Santa Fe Central during the territorial fair, which occurs in Albuquerque, will be one and one-third regular fare, which from Torrance, on the Rock Island, will be \$1.65.

Thomas Moran, office man for P. F. McCanna, who is now in Chicago, has a letter from Mr. McCanna, saying that he will return to New Mexico about September 1. Mr. McCanna has charge of the merchants' parade, which will be one of the features of the territorial fair, and is being boosted as soon as he returns. Liberal prizes have been offered for the best decorated floats, and this should help some to encourage every merchant to vie with his neighbors in producing the best float.

Etwood Albright and Willie McMillan have been appointed to conduct the information bureau during the fair. The lodge building to the east of the entrance of the Alvarado, near the station, will be used as headquarters for the boys. This will place the bureau convenient to the depot, where it cannot be missed by strangers. Messrs. Albright and McMillan had charge of this function of the fair last year and their experience on the previous occasion will assist them materially in attending to the wants of the people this year.

The racing this year will be equal to that of any previous fair. Although it is early yet, many letters from horsemen from every part of the country, have been received, inquiring about rules for the meet, and asking that stable room be saved for their animals. The 2:11 stake race, with a purse of \$1,000, has five entries so far, and the time for nominations does not close until September 1.

THE MARKETS

STOCK - MONEY - METAL - WOOL

Closing quotations received by Levy Bros., Correspondents for Logan & Bryan, Barnett Building.

New York, Aug. 23.—The stock market closed strong and higher. Not during the session was there any regularity or uncertainty in evidence. The improved prospects for peace was the bullish incentive which caused the complete change of front and a hasty short covering. Take the market as a whole, it was a great, big, broad affair.

An occasional stock, such as the Erie and Wisconsin Central, showed effects of profit taking, but only to a moderate extent.

Industrials today for the first time showed uniform strength. This was especially true of steels and kindred issues. Locomotive being the exception, which suffered from realizing sales. As was pointed out yesterday, there seems nothing in the situation aside from the possibility of the breaking off of peace negotiations, to cause any anxiety.

The action of the market would indicate more confidence than ever in early peace. It also seems to have the ear marks of a bull market.

Confidence in underlying conditions seems universal. A responsible authority says: "We feel that we would still buy on all set-backs." Following are today's quotations:

BLAME FIXED FOR BENNINGTON DISASTER

Officer Responsible for the Safety of Boilers Neglected His Duties.

EXPLOSION FROM HEAVY PRESSURE

Washington, D. C., Aug. 25.—Ensign Charles T. Wade, who had charge of the engineering department on the Bennington, is held responsible for the explosion, according to a report just made public. Instead of personally seeing that the safety valves were working perfectly, he accepted the reports of subordinates. The failure of these valves to work caused the explosion.

A court martial is recommended. Others are also blamed, but as they were all killed, the report says that nothing further can be done in their cases.

The court finds the explosion resulted from the closing of a valve, which converted the exploded boiler with its steam gauge, so that the pressure on the boiler may have been several hundred pounds to the square inch when the accident occurred.

The finding recites the arrival of the Bennington at San Diego, and says: "The ship was in an excellent state of discipline and in a good and efficient condition, with the exception of her boiler, which were in fair condition and efficient, considering their age, about fourteen years, and the use to which they had been subjected."

diately the steam gauge on boiler 'B' failed to register any pressure; that this was apparently not noticed by either the water tender or the fireman and no attention appears to have been paid to the fact that the steam gauge failed to register, but they kept on working the fires and firing heavily; that when the steam gauge on boiler 'A' showed 135 pounds there was no pressure showing on the steam gauge of boiler 'B.'

The finding goes on to state that about 10:30 o'clock a small leak was found in boiler 'B.' A request had been sent to the boilermaker to come and mend the leak, when the explosion occurred.

Catholic Young Men's Union.
Albany, N. Y., Aug. 23.—The thirty-first annual convention of the Catholic Young Men's National union was called to order here yesterday, with a large attendance. The delegates assembled at the Catholic union at 9 o'clock and marched in procession to the cathedral of the Immaculate Conception where they attended a solemn high mass. Immediately after mass the delegates returned to the Catholic union building and the opening session of the convention was called to order in the auditorium. The Rev. Walter J. Shanley, the president of the organization, occupied the chair and delivered the opening address.

The rest of the morning session was taken up by the reading of the reports of diocesan unions, individual societies, officers and committees. In the afternoon session addresses were delivered by Daniel P. Toomey, of Boston, on "The Press;" W. C. Sullivan, of Baltimore, on "The Young Men's Club," and William J. Toohy, of Newark, on "Literary Societies for Catholic Young Men."

There were about 400 delegates in attendance. The convention will conclude its business tomorrow morning. Tonight and tomorrow afternoon the delegates will be entertained with trapeze rides and other entertainment by the local members. There will also be several receptions and informal dinners in honor of the visiting delegates.

Foresters' Supreme Council Meets.
Buffalo, N. Y., Aug. 23.—Nearly four hundred delegates from all parts of the country were present when the annual convention of the Supreme Council of the Order of Foresters of America was called to order here yesterday. They represent a total membership of about 200,000, scattered all over the United States. The morning session was occupied with the annual address of the Supreme commander and other officials of the Supreme Council and reports of committees. The work of the convention will be continued another day.

The Knights of Sherwood Forest, which are the uniformed rank of the Order of Foresters, will meet this evening and will hold its annual convocation during the evenings and afternoons. The local Foresters have made elaborate preparations for the entertainment of the visiting delegates and have arranged for a dance and a vaudeville entertainment at Concert hall this evening.

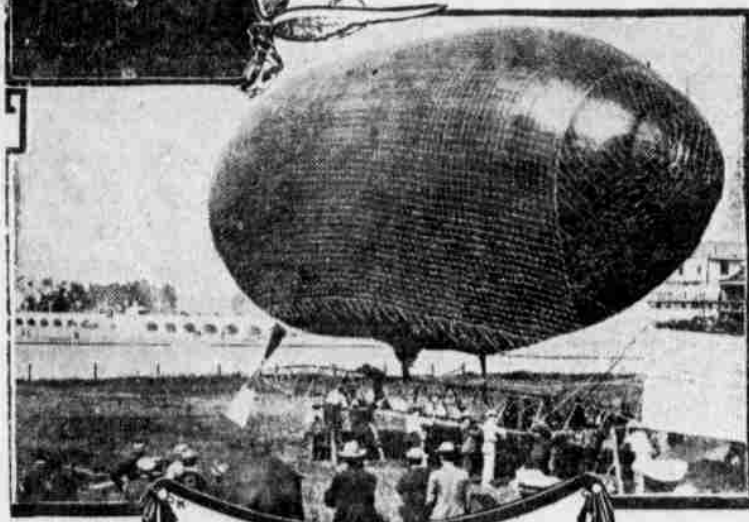

LINCOLN BEACHEY, A BOY AERONAUT

LAD OF 18 YEARS MAKES DARING FLIGHTS IN THE BIG BALDWIN AIR SHIP AT LEWIS AND CLARK EXPOSITION—HE TELLS HOW IT FEELS TO BE UP IN THE AIR A MILE.

Portland, Ore., Aug. 23.—Beachey, the Boy Aeronaut. That sounds something like the title of an old-fashioned

the employ of an air ship enthusiast, was bitten by the bug of aerial navigation, and has done nothing since except to work around air ship shops. For recreation two or three years ago, he built for himself a motor cycle, which was propelled by gasoline. Later he applied some of his motor cycle ideas to an air ship engine, and he is still experimenting in that line. Beachey knows every detail of air ship construction, and can talk learnedly of rudders, tiller ropes, guys, exhausts, and the other technicalities of the trade. For five years he has devoted his energies to mastering these details. He has ambitions to build an air ship of his own, and his experience at the exposition this summer, he says, will be of great benefit to him in that direction.

dime novel, doesn't it? But there is no fiction about the story of Lincoln Beachey, 18 years old, the boy aeronaut, who has made half a dozen daring flights in the big Baldwin air ship at Portland, and who declares that he will keep on going up in this craft or some other, until he proves to the world that it is possible and practicable for man—even for a boy—to navigate the air.

Lincoln Beachey is a blue-eyed lad of retiring disposition, so far as contact with the general public goes, but he is by no means retiring when it comes to going up into the air a mile or so, and cavorting around in the empyrean like a yearling colt in the freedom of a ten-acre lot. In that sort of thing young Beachey is a stayer, and he has proved his qualities.

Beachey lives in San Francisco, where he attended public school until he was 13 years old. Then he entered Baldwin's ship, in which Beachey has been sailing about the upper straits of Portland in called the "Arcton," and is much larger than the vessel in which Roy Knabenshue astonished the natives and others at St. Louis.

"How does it feel to be up in the air?" Oh, fine," says Beachey; "There's really nothing to it. It's just the same as being on the ground, so far as nervousness is concerned. I stand on this two-inch beam along the under side of the frame work, walk along it when I want to reach some other part of the ship, and think nothing whatever about being 2,000 feet up in the air; all my thoughts are centered on how to make the ship operate as we expect it to do. It's just as safe up there as it is down here if you ain't got scared, and scary people," adds the boy, "have no business in an air ship."

SEMI-ANNUAL MEETING OF BOARD OF PHARMACY.

The regular semi-annual meeting of the territorial board of pharmacy will be held in Albuquerque on Monday, September 18, 1905. All violations of the pharmacy and poison laws should be reported immediately to President B. Rappe, of Albuquerque, or to Secretary A. J. Fischer, of Santa Fe, so that they may be investigated before the meeting. Candidates for examination should report promptly upon the above date at 2 o'clock in the morning.

LARGEST PANTHER KILLED IN EDDY COUNTY.

W. F. Jones, who lives on Rocky Arroyo in Eddy county, has been losing a number of sheep, and last week the hounds trailed the slayer, a large panther, up the arroyo and toward the animal. Mr. Jones then easily dispatched the brute, which was one of the largest ever seen in that part of the country. The mate is supposed to be in the vicinity and plans are being made to kill it also.

OLD SORES ROOTED IN THE BLOOD

Old Sores are the result of a deeply polluted, foul blood supply. The blood is filled with poisons, and as it finds an outlet through the ulcer, the surrounding parts become diseased and the sore eats deeper into the tissues and flesh and becomes a permanent trouble.

Salves, powders, plasters, etc., do no good, and the sufferer gets disgusted and often despairs of curing an old sore. The trouble is in the blood and until the poison is driven out the place cannot heal.

WHO ARE THE KNIGHTS? FOR FINANCIAL FRUIT.

Albuquerque Has Found It Hard to Shake Off. Hard to bear, harder to get rid of, is any itching skin complaint, Eczema or Itching Piles.

Drying preparations simply develop catarrh.

They dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh.

ENCOUNTERED A BURGLAR IN HER APARTMENTS

MRS. E. C. WHITSON CONFRONTED BY BOLD INTRUDER WHEN SHE TURNED ON THE LIGHT.

It must be a strange sensation for a woman to turn the gas on at night and find a strange man in her private apartment. This was the experience of Mrs. E. C. Whitson, of the Whitson Music company, when she went to her home at 504 North Second street last evening at 8:45 o'clock, and the strange man was a burglar. He ran, however, and so did Mrs. Whitson, the former toward the rear of the house, where he had entered by tearing a screen from the window, and the latter through the door which she had just passed in entering the house from the street.

Mrs. Whitson had been accompanied home by some friends, Mrs. Mahaffey, who is stopping at the Whitson house, being one of them. She had gone on ahead of the party on hearing the house and had entered alone. On seeing the burglar she screamed and ran to her friends, who had approached the gate by that time. They immediately entered the house to find that the intruder had gone, making his escape over the back fence.

Some articles of more or less value piled in the dining room told the story of an attempted theft. The only clue Mrs. Whitson could give of the intruder was that he wore a black shirt and white suspenders, and as nothing was taken by which the thief might be traced, it is doubtful if he ever will be captured.
