FLAT DENIAL FROM SIX LIVES LOST AND DOZEN HURT IN SKYSCRAPER HOLOCAUST

Never Paid Anything to Anybody to Further His Election Senator Tells Attorney For Inquisition.

RELATES HIS DEALINGS WITH GOVERNOR DENEEN

Became Candidate at Suggestion of Illinois Executive Who Was Bitterly Opposed to Election of Hopkins.

[By Morning Journal Special Leased Wire.] Washington, Jan. 9.—Senator William Lorimer today began testifying in his own defense. It was the Illinois senator's first appearance in the witness chair since the senate ordered an investigation of his election.

"The first question put to Lorimer after the latter had taken the stand was blunt and leading.

"Did you ever pay anything of value to anybody for your election?" was demanded.

"I never did," Senator Lorimer replied.

Then Judge Honey repeated the question in different forms, evidently framed to cover the same inquiry from every angle of construction and each time Senator Lorimer turned his face to the committee and replied:

"I never did."

Lorimer told how, when he was running for congress, in 1908, F. M. Flouret, campaign manager for Senator Hopkins, had sent him a campaign contribution of \$500 which he returned saying: "I have paid all my election expenses myself at both the primary and the polls without accepting a cent from anybody and therefore I cannot accept yours."

Most of Senator Lorimer's testimony was of conversations with Governor Deneen about the senatorial election in the Illinois legislature and he brought out the breach between Hopkins and Deneen.

"When I met Deneen by appointment in January, 1909," he said, "he felt that he had been treated harshly in the state committee meeting by Senator Hopkins, Mayor Busse and Postmaster Dan Campbell of Chicago. He felt the fair primary had originated with him and he did not want to return to the old soap box system. He was afraid Busse would use the Chicago police force to defeat his friends and he felt that if he and I cooperated we would have a majority in the convention and could force a fair primary. Deneen said it was to the best interests of the people that Hopkins should not be re-elected and he assured me that he would not help him. That was the first time I knew definitely that Deneen was opposed to Hopkins. My own opinion was that he would defeat Hopkins if he could, and we began discussing Deneen's own candidacy.

"I urged him to become a candidate. At first he indicated that he would like time to think it over. He did not encourage it and he did not reply to it. Later he said he did not see how he could, as he had only recently been elected governor and he did not think the people of the state would understand. It was suggested that we delay the election until Hopkins' seat became vacant with the idea that there might then be a popular demand to have the seat filled and Deneen might take it.

"Deneen did not think it consistent to take the senatorship after Hopkins had received a plurality in the primary. In the meantime he thought he could keep enough of his friends opposed to Hopkins to prevent his election."

"Did Governor Deneen ever suggest that you become a candidate?" "Frequently. He said I could be elected, but I never took him seriously until the other candidates had been exhausted. He made the suggestion every time we had a conference."

When Senator Lorimer's testimony reached that stage a recess was ordered and he will continue tomorrow.

Before Senator Lorimer testified Edward Hines, the Chicago lumberman and H. A. J. Upham of Milwaukee, a business partner of Senator Stephenson, told of the conference at the Union League Club in Chicago May 27, 1909, the day following Lorimer's election.

"His testimony was intended to prove that Hines had used the \$100,000 fund which was said to have been used in electing Senator Lorimer."

MARY LAW USED TO SIDETRACK CANDIDATE

Omaha, Neb., Jan. 9.—Charles E. Gault of Omaha will have his name placed on the democratic ballot primaries as candidate for vice president as the result of a petition today by twenty-seven Omaha South Omaha men. The movement is said to be intended merely to prevent Gault's candidacy as delegate to the state convention of the party. The secretary of state said that a name can appear on the ballot but once.

old one down would about balance the value of the structure.

Stored in a fire-proof vault over the main entrance on Broadway were between \$250,000 and \$300,000,000 of the securities of the company. Gage E. Terbell, a trustee, said tonight he believed the contents of the vault would be found safe.

Although the loss of the biography of E. H. Harriman, which was about to be printed, seems irreplaceable, records of the Harriman lines may be saved if their vaults on the third and fourth floors are found intact. The Harriman management transferred part of its records a week ago to new offices in the City Investing building.

The loss to the Lawyers club, on the fifth and sixth floors, will be irreparable. A new library of more than 40,000 volumes, many of which cannot be replaced, was destroyed. The flames consumed also the law and insurance library of the Equitable Society, said to be the most complete collection of insurance literature in the world.

Pioneer of the present day skyscraper construction in New York City, the Equitable building was begun shortly after the civil war and extended and enlarged until in 1888 it covered practically the entire block bounded by Broadway, Cedar, Pine and Nassau streets. Of granite exterior, the structure was not fire-proof. Windy corridors and wooden partitions made almost ideal conditions for a spread of flames.

One of the most dangerous ordeals the firemen had to face was the necessity of fighting the flames amid showers of granite chips, many of them large enough to crush a man to death, which pecked off the facade of the building when subjected to the intense heat on one side and icy cold on the other.

News of the fire was telephoned to Mrs. E. H. Harriman, who was informed that the records of the Harriman railway system had been destroyed.

"Well, let us be thankful the fire has not destroyed the railroad," Mrs. Harriman said.

Fire officials tonight made an inspection of the vaults of the Equitable Life Assurance Society, the Equitable Safe Deposit company and the Mercantile Trust company and found them intact as far as outward examination could determine.

State Superintendent of Insurance Hotchkiss said tonight as the Equitable's loss was not an actual loss, as the Equitable building was not carried as an asset either by the company or by the insurance department, the company's surplus therefore stood tonight, he said, substantially where it stood yesterday. The records of vital moment to the policy holders were safe in the company's annex building and those lost probably could be largely replaced.

The great structure, which, besides containing the main offices of the Equitable Life Assurance Society, was the home of the Mercantile Trust company, the banking house of Kowitz Brothers, August Belmont and company, the Harriman railroad lines, the Mercantile Safe Deposit company, the Lawyers club and many of the city's most prominent law firms, stands tonight a shell of ice-covered granite.

Intense cold caused a thick ice coating to form on the facades of the skyscrapers adjacent and on the pavements for blocks around. The bulk of modern fire-proof structures nearby, according to Fire Commissioner Johnson protected the entire financial district. The damage except by water, was confined to the Equitable structure.

Of those who lost their lives, three employees in the building were killed by jumping from the roof to which they were driven by flames.

Battalion Chief William J. Walsh disappeared in a whirl of smoke and flame when a cave-in occurred on the third floor. Two other men, William Campbell, captain of the watchmen in the Mercantile Safe Deposit vaults, and Frank J. Neider, a special officer, whose bodies have not been recovered, complete the list of dead, so far as known.

Several persons, watchmen and others, who were in the structure where the fire broke out, have not been accounted for but are believed to have escaped. The death toll, however, may not be fixed until the flames, which were still burning tonight, have been extinguished and the ruins covered.

Among the injured is President William J. Giblin of the Mercantile Safe Deposit company, whose rescue from the basement vaults, where he was imprisoned, after two hours work by firemen, was one of the most sensational episodes of the fire.

He had gone into a vault to save securities and accidentally locked himself in with an employee who accompanied him. Their cries were heard by firemen, who had to saw through the steel bars of a door leading to the street before they could rescue them. Mr. Giblin was taken to a hospital suffering from exhaustion and smoke.

One man in another vault of the Mercantile Safe Deposit company, believed to be Campbell, could be seen from the street with his legs pinned down by a mass of debris but could not be rescued because steel doors barred the way. Through the smashed windows of the doors he was given the last rites by Chaplain McGeen of the fire department just as he was swallowed from view by the dense smoke.

Spectators at the windows of nearby skyscrapers told of seeing the city disappear in the flames when the roof caved in, but the authorities believe the casualty list is not likely to be increased.

Some estimates of the loss run as high as \$15,000,000, but more conservative authorities tonight thought the damage would not run over \$5,000,000.

The property was assessed at \$12,000,000 by the city, a larger sum with all exceptions than that of any other building in the financial district but by far the greater part is based on the value of the ground.

An Equitable officer said the society's own loss probably would not amount to more than \$200,000 covered by its own contingent insurance fund, and that duplicates of every record destroyed were stored in subsidiary offices. The company had planned to erect a new building on the site and it is figured that expense of tearing the

DECISIONS UPHOLD FEDERAL CONTROL OF INTERSTATE COMMERCE

Series of Rulings By United States Supreme Court Materially Strengthens Hands of Commission.

TWILIGHT LEGISLATIVE ZONE BELONGS TO NATION

States Warned Against Attempting to Pass Laws Governing Interstate Shipments and "Hours of Service."

[By Morning Journal Special Leased Wire.] Washington, Jan. 9.—The grip of the interstate commerce commission over the commerce of the country was tightened today by a series of decisions by the supreme court.

The principle was laid down that shippers suffering from civil injuries from railroads must go to the commission before rushing to the courts for relief.

The paramount authority of the commission in reasonable rate making, was upheld by the court's decision that the federal district court of Minnesota was wrong in preventing the enforcement of the commission's reduced rates on lumber from the Pacific coast, Oregon and Montana points to St. Paul, Omaha and Chicago.

The legislative field touching the acceptance of goods by railroads for interstate shipment was marked forever as federal territory and states were warned to keep off.

The supremacy, over state laws of similar import, of the federal "hours of service" law, the enforcement of which is confined to the commission, was upheld.

The court laid down the principle that railroad dividends were not to be a sole basis for judging the reasonableness of rates, but that conditions as a whole were to be taken into consideration.

FALSE AFFIDAVITS CONSTITUTE PERJURY

Decision By Federal Judge Lewis Said to Interest Five Thousand Homesteaders in Colorado.

[By Morning Journal Special Leased Wire.] Denver, Jan. 9.—Five thousand persons who made filings on government lands in Colorado in 1911, are concerned in a decision rendered by United States District Judge Lewis today, that a false affidavit in contesting a homesteaded entry constitutes perjury. The decision was made in overruling a demurrer of William F. Larson of Denver, who was indicted recently by the federal grand jury on a charge of swearing falsely in a contest case.

Eleven thousand filings were made on government land in Colorado last year and 5,000 of them are being contested.

United States District Attorney Ward said today:

SUGAR BEET FARMS YIELD RICH RETURNS

Sugar Investigating Committee Hears Tales of Prosperity From Men Who Cultivate the Soil.

[By Morning Journal Special Leased Wire.] Washington, Jan. 9.—Thomas Doyle of Michigan, testifying before the house committee which is trying to fix the responsibility for last summer's high price of sugar, declared that he profited \$47 an acre from his sugar beet crop and that best cultivation enhanced the value of the land for other agricultural purposes.

E. G. East of Bay City, and Carl Vitz of Huron county, Michigan, told the same story and expressed satisfaction with the sugar refineries.

Combating testimony of Colorado beet growers regarding foreign born laborers, Mr. Doyle said he had an 18-year-old Austrian neighbor who has \$5,000 in a bank from beet sugar farming and that the foreign-born laborers in his section earned from \$1.75 to \$2.25 a day.

DEMOCRAT SUCCEEDS MADISON IN CONGRESS

Hutchinson, Kan., Jan. 9.—George A. Neeley, democrat, today was elected to the United States congress from the Seventy Kansas district to succeed the late E. H. Madison, republican.

John M. Kinkle, chairman of the republican district committee at 10 o'clock tonight conceded the election of Neeley over Frank L. Martin, republican, by 1,200 to 1,500 votes. John Graybill, chairman of the democratic committee claims the election of Neeley by 2,000.

Representative Madison was elected in 1910 over Mr. Neeley, who also was the democratic candidate at that time, by 5,000 votes. Today's election puts two democrats in the house of representatives from Kansas, Joseph T. Taggart having succeeded the late A. C. Mitchell, republican in the second district.

Judge Martin, republican, who opposed Mr. Neeley, was nominated upon a progressive republican platform after a spirited primary but in the election all republican factions supported him.

Mr. Neeley lives in Hutchinson. The convention that nominated him was presided over by Speaker Champ Clark, who spoke in favor of his candidacy.

A light vote was cast throughout the district. Of the fourteen counties that had reported up to 10:20 o'clock tonight Neeley had a majority of 1,425. The counties not heard from will not change the result.

The Seventh district derives some of its fame from the fact that it constitutes the major portion of the old district which the late Jerry Simpson represented in congress for six years. Simpson who was elected in 1890 as republican, turned a nominal republican majority of 14,000 into a populist victory of 8,900.

CRIPPLED TORPEDO BOAT LIMPS INTO PORT

Commander of Destroyer Terry Tells Thrilling Story of Battle With Wind and Waves Off Nova Scotia.

[By Morning Journal Special Leased Wire.] Norfolk, Va., Jan. 9.—Lattered and crippled as the result of her severe experiences at sea, the torpedo boat destroyer Terry, limped into port today with one engine working. A thrilling story of her battle with wind and wave was told by her crew, every member of which marvelled that they were alive to tell the tale.

The Terry had been assigned to scout at a distance of about three hundred miles to the northeast of New York in the war game maneuvers and while off Cape Sable, on the Nova Scotia coast, the storm struck her late Saturday. For forty-eight hours the little craft was almost at the mercy of the sea. The wind blew a hurricane, washing clean the decks of the destroyer and carrying away not only every life boat, but boxes containing tools, etc., which were fastened to the decks.

For two days nothing was cooked on board the vessel, the members of the crew having to live on canned goods while working incessantly at the pumps.

All bedding and clothing were soaked and when on Sunday night the Terry's steering gear was washed away, it looked as though the end had come. By heroic effort this was repaired, and the destroyer's commander, Lieutenant Commander John C. Fremont, himself kept the vessel's head to the storm and in this way kept her afloat.

DENVER TO VOTE ON CHANGES IN CHARTER

Denver, Jan. 9.—The board of supervisors tonight passed a resolution calling for a special election on February 10, in accordance with a petition signed by more than 12,000 persons, asking for the submission of three amendments to the city charter. The first provides for the so-called mayor form of government which centers the executive and legislative authority of the city in a mayor, treasurer, auditor, sheriff and assessor and seven councilmen, nominated by districts, but elected at large. Other amendments provide for the purchase and support of a mountain park for the city and for transferring from the fire and police board to the county court the power to punish saloon keepers for infractions of regulations.

STAGE TOPPLES INTO GULCH; NONE INJURED

Ouray, Colo., Jan. 9.—The stage on the line to Red Mountain toppled over a 200-foot cliff, three miles from here this afternoon. The driver and his lone passenger escaped by leaping as the vehicle fell. The horses were killed.

Blizzard Halts Railway Travel.

Detroit, Jan. 9.—Passenger and freight trains and interurban cars are stalled in many parts of Michigan tonight. The blizzard which has held the state in its grip for several days continued unabated today and grew perhaps worse tonight.

DEATH IN ELECTRIC CHAIR SENTENCE IMPOSED UPON RICHESON

Murderous Preacher Repeats Confession in Court and is Formally Condemned to Die During Week of May 19.

ATTORNEYS PLAN PLEA TO GOVERNOR FOR CLEMENCY

Hope Held Out That Client May Be Allowed to Expiate Crime By Life Time in State Penitentiary.

[By Morning Journal Special Leased Wire.] Boston, Jan. 9.—With the appearance of a man who had abandoned all hope of life, Rev. Clarence V. T. Richeson stood today at the bar of justice, declared his guilt of the premeditated murder of his former sweetheart, Miss Avis Lunell, and without a tremor heard Judge Sanderson sentence him to death in the electric chair during the week beginning May 19.

While displaying remarkable stoicism, the young Virginian appeared to those who crowded the little court room as if he were conducting his own funeral. Yet as he walked out of the court room there was a trace of the old time jauntness that seemed to many to indicate that his fight was not yet finished.

Richeson's counsel said after the proceedings that an appeal for executive clemency would be made and that every effort would be made to obtain life imprisonment instead of death as the punishment.

Some well-known attorneys remarked tonight that Judge Sanderson's action might have an echo in the supreme court, on the ground that a jury alone could accept such a plea.

As Richeson was called to the bar Clerk Manning said:

"Clarence V. T. Richeson, this indictment charges you with murder in the first degree, on November 14 you pleaded not guilty to it. Do you desire to retract that plea?"

"Yes, sir," replied Richeson.

"What say you to the indictment?" the clerk asked.

"Guilty," was the reply, without a change in tone.

"The only penalty provided by law," Judge Sanderson said, "for murder in the first degree is death. Have you pleaded guilty to murder in the first degree after due consideration and with the full knowledge and understanding of the nature and effect of such a plea?"

"Yes, sir."

"Is the plea made by you free and voluntary?" the judge continued.

"Yes, sir."

"Did you consult counsel with reference to the nature of the offense and the plea?"

"Yes."

"After the district attorney had read Richeson's confession, Judge Sanderson asked:

"Clarence V. T. Richeson, have you anything to say why sentence of death should not be passed upon you?"

The young man apparently swallowed a hard lump in his throat, but without even a shadow across his face replied:

COMPLICATION OF PNEUMONIA MAY CAUSE DEATH OF KNAPP

Inflammation Sets In Along Route Taken By Bullet Which Ploughed Way Through Left Lung.

WILL BE FATAL IF IT BECOMES SEPTIC

Dr. L. G. Rice, One of Surgeons Attending Wounded Officer, Regards Patient's Chances For Recovery Slight.

[By Morning Journal Special Leased Wire.] Boston, Jan. 9.—The foregoing bulletin issued at midnight by Dr. L. G. Rice, one of the surgeons attending Patrolman Alex Knapp who was shot last Saturday by Theodore Gould, alias Fred J. Watson, shows that Knapp's chance for recovery is slight. The statement was made by Dr. Rice at the request of the Morning Journal, which, because of the many conflicting rumors and reports concerning the wounded policeman's condition, wished to ascertain the exact status of his case.

Should this traumatic pneumonia become septic it would blast all hope of Officer Knapp's recovery and death would follow within a brief period. In addition to the development of this condition of pneumonia, Dr. Rice speaks of an accumulation of blood in the left chest.

Despite this, Knapp suffers little pain and again last night rested easy. Since he was shot he has suffered very little pain. His general condition, as the doctor states, is fair.

CHIEF McMILLIN AWARDS LETTER FROM MINNEAPOLIS

While the identification of Watson as Gould has practically been established, it is expected to be made complete today on the receipt by Chief of Police McMillin of a letter addressed to the prisoner, a letter and photograph of the prisoner. This letter was mailed Sunday and should reach here some time today. It is expected to give a Bertillon record of Gould alias Watson, so far as the Minneapolis police and Minnesota state prison authorities are informed, and will also likely state what crime Gould was serving a penitentiary sentence for at the time of his parole.

Yesterday Chief McMillin sent a large number of photographs of Gould to different sections of the county jail with a complete description of the man printed on the reverse side. Several copies were sent to the authorities of the Arizona towns in which Gould claims to have recently been and one was sent to the Minneapolis police department.

PRISONER BEING CLOSELY GUARDED IN COUNTY JAIL

Because of the serious condition of Officer Knapp, whose death would make his assassin a murderer, Sheriff Josiah Rogers and his deputy watch the county jail as keeping a strict watch on Gould. He is the sole occupant of the steel cage in the central corridor of the jail and a guard is constantly present. It is realized that the prisoner in a desperate man and will overlook no opportunity to regain his liberty at any cost.

Gould remains silent and non-communicative. He has not yet asked for a lawyer, though it is reported that Judge W. C. Henrick has been engaged by wife, by the man's relatives in Minneapolis to represent him. Henrick, called at the jail yesterday to see the prisoner but his efforts was unsuccessful. It is said he will institute habeas corpus proceedings before Judge Ira A. Abbott in the district court in order to get in talk with the would-be murderer, if he is not allowed to see him today.

Diplomatic Reception at White House.

Washington, Jan. 9.—President and Mrs. Taft gave the first big reception of the winter at the white house tonight in honor of the diplomatic corps. This reception with that of the army and navy are the most brilliant in color at least, of any during the season.

DEATH IN ELECTRIC CHAIR SENTENCE IMPOSED UPON RICHESON

Murderous Preacher Repeats Confession in Court and is Formally Condemned to Die During Week of May 19.

ATTORNEYS PLAN PLEA TO GOVERNOR FOR CLEMENCY

Hope Held Out That Client May Be Allowed to Expiate Crime By Life Time in State Penitentiary.

[By Morning Journal Special Leased Wire.] Boston, Jan. 9.—With the appearance of a man who had abandoned all hope of life, Rev. Clarence V. T. Richeson stood today at the bar of justice, declared his guilt of the premeditated murder of his former sweetheart, Miss Avis Lunell, and without a tremor heard Judge Sanderson sentence him to death in the electric chair during the week beginning May 19.

While displaying remarkable stoicism, the young Virginian appeared to those who crowded the little court room as if he were conducting his own funeral. Yet as he walked out of the court room there was a trace of the old time jauntness that seemed to many to indicate that his fight was not yet finished.

Richeson's counsel said after the proceedings that an appeal for executive clemency would be made and that every effort would be made to obtain life imprisonment instead of death as the punishment.

Some well-known attorneys remarked tonight that Judge Sanderson's action might have an echo in the supreme court, on the ground that a jury alone could accept such a plea.

As Richeson was called to the bar Clerk Manning said:

"Clarence V. T. Richeson, this indictment charges you with murder in the first degree, on November 14 you pleaded not guilty to it. Do you desire to retract that plea?"

"Yes, sir," replied Richeson.

"Clarence V. T. Richeson, have you anything to say why sentence of death should not be passed upon you?"

The young man apparently swallowed a hard lump in his throat, but without even a shadow across his face replied:

PICKPOCKET KICKS IN WITH BUNCH OF THRILLS

TELLS CHICAGO POLICE HE'S BOLD BAD CROOK

Theft of Half Million Dollars and Four Murders Some of the Stunts "Confessed" By Frank Holloway.

[By Morning Journal Special Leased Wire.] Chicago, Jan. 9.—Frank Holloway, in Canada and Panama, murders in Columbia, South America, in Panama, Tulsa, Okla., and St. Louis, Mo., and other crimes were "confessed" and admissions of a further criminal record were promised here today by Frank Holloway, 42 years old, who had been arrested as a pickpocket. He has many aliases.

His story is doubted by the police. Nearly half a million dollars is involved in the thefts he told the police he had taken part in, and he said if he "felt like it" he would give details of still other robberies later.

Following in the crime record which he claims:

Aided "many other persons" in robbing the Bank of Montreal at Westminster, B. C., last September, getting \$375,000 in gold and paper money. His share, nearly \$85,000.

Was one of a gang of six who "busted" the safe of the Panama City Banking company at Panama, in February, 1910, got \$84,000 all told.

In a fight with fellow robbers near Panama, shot and killed one Schuler in a quarrel over division of spoils from the bank.

Shot and killed Edward G. West when the latter "double crossed" him in a later division of proceeds of the same robbery. This was in Bogota, Colombia.

Killed a "notorious bank robber," Frank Starr, in Tulsa, Okla., five years ago when the latter "crowded him" for a "split" of the proceeds of a small robbery.

Shot "Bob" Reynolds and two men named McGivney and Smith, who were working for him in St. Louis during the world's fair, where he kept a saloon at 2216 Chestnut street.

Of this he said: "The three were trying to put me out in the cold and we had a row. I shot all three of them and later Reynolds died. I was 'pinched,' but worked out."

Enforced a bond at Fort Worth, Tex., where he had been arrested charged with a bank robbery at Harrold, Tex.

Was questioned by Burns detectives in Portland in connection with another matter, but eluded them.

He said he had \$74,000 in Canadian money in a Chicago hotel, and "boys more" hidden elsewhere, but said in would not disclose where it was. He refused to name others implicated in the crimes he enumerated.

After a talk with Holloway tonight local detective agencies described his story of participation in big bank robberies. They said he had nothing to do with the Canadian robbery and hinted that Holloway probably sought to be sent to Canada, where after he had established an alibi, he would be safe from the Texas authorities.

Holloway, after adding many details to the description of crimes he was relating, including a list of how many banks under the Panama bank took two months to dig and how, of the \$240,000 in gold they found only \$84,000 of it could be carried by them because of its weight, told the police of his family.

He said his home was in Vernon, Texas, where his mother, brothers and sisters still lived. His father, he said, was the late Captain Frank Holloway, the well known Texas "strutted" lawyer. He called himself the black sheep of the family. He said he served in the Spanish-American war in the Second Mississippi infantry and formerly had a hotel in Memphis. Telegrams confirming the story of the Harrold bank robbery were received today from a Texas sheriff.

DETECTIVES TRACING MEMBER OF ROBBER BAND Seattle, Jan. 9.—With John McNamee

For 30 Years the Standard Remedy for Diseases of Mucous Membranes

Experienced pharmacists will tell you Big G is the accepted standard remedy for diseases of mucous membranes—discharges from the nose, throat and urinary organs. Avoid substitutes. Toxepne is dangerous. Big G, used every where since 1880, has proved safe and reliable. Non-toxic, non-irritating and tonic in its properties, containing no silver nitrate, zinc sulphate, alcohol, cocaine, or any narcotic. It may be used with strength with out fear. Why not cure yourself? Sold by druggists or we ship express prepaid upon receipt of \$1. Full particulars enclosed with each bottle or mailed sealed in plain envelope on request.

man under arrest in New York and Charles Dean held at Los Angeles in connection with the robbery of the New Westminster branch of the Bank of Montreal last September, detectives are directing their efforts toward the capture of Albert Anderson alleged to have been the third member of the gang and to the recovery of the \$250,000 which was stolen.

HOLLOWAY WANTED IN TEXAS ON FELONY CHARGE Fort Worth, Texas, Jan. 9.—Frank Holloway under arrest in Chicago, for some years lived at Vernon, Texas, but nothing is known here as to his antecedents. He was under bond to answer to charges of false blowing and robbery at Harrold, Texas, but failed to appear for trial. Alton A. Pindglass, charged with having a part in the same robbery is now serving a prison term.

NEW YORK SUSPECT HELD UNDER HEAVY BOND New York, Jan. 9.—John McNamee, alias "Australian Mac," who was arrested here last night for alleged connection with the alleged dynamiting of the branch of the Bank of Montreal at New Westminster, B. C., and the theft of \$270,000, was held today in \$15,000 bail for examination on Thursday. He was remanded to the Tombs in default of bail.

COOK'S TESTIMONY AGAINST MRS. MORROW Chicago Club Woman Grows Angry at Hearing Herself Denounced as Slayer of Her Husband.

[By Morning Journal Special Leased Wire.] Chicago, Jan. 9.—Mrs. Rose Morrow, club woman and writer, today heard herself denounced in municipal court as the murderer of her husband, Charles B. Morrow, an inventor, and in addition heard a witness tell of alleged efforts on the part of the woman to conceal the crime.

During the preliminary hearing of the charge of murder against Mrs. Morrow, Mrs. Katherine Scanlon, cook in the Morrow home, testified that she heard a quarrel between the inventor and his wife who was twenty years his junior, a few hours before his death; that in rage Morrow called his wife a name and she retorted in a passion that Mrs. Morrow addressed for the night and that the witness went home. The witness said that the next morning she discovered Morrow's body on the rear porch and reported it to Mrs. Morrow; that the latter said: "I know about that. Remember you don't know anything about it. Just say he killed himself because of financial troubles."

"Mrs. Morrow told me to go down and get the gun lying near the body and I refused because I was afraid of the body."

At this point Mrs. Morrow arose and screamed at the witness:

"Oh, you liar, you liar, but was controlled by the court to be quiet."

"The revolver she mentioned," the witness went on, "was the one that formerly was under her pillow. When I first told her about the body she told me what to say and do."

"Then she went into Mr. Morrow's room, where she made him stay alone, and brought out a small tin box. This she carried to her room. She told me it contained an invention her husband was working on."

Mrs. Scanlon added that Mrs. Morrow devoted more attention to the comfort of Harry Gilmore, a roomer who earlier in the hearing admitted he usurped Morrow's position as husband, than to Morrow.

CLEVELAND SIGNED FIRST NATIONAL FOREST BILL

Incident Recalled By Election of Widow of Former President as Life Member of Forestry Association.

[By Morning Journal Special Leased Wire.] Washington, Jan. 9.—Mrs. Grover Cleveland, whose husband, the late President Cleveland, signed the original bill providing for the creation of national forests, was elected a life member of the American Forestry Association at the thirtieth annual convention of the organization here today.

Governor Robert P. Bass of New Hampshire, was re-elected president. A resolution was adopted recommending that the forest reservation be taken out of politics and placed upon a purely scientific basis. An other resolution urged congress to continue its appropriations for purchase of timberlands for the Appalachian and White Mountain forest reserves.

Chief Forester Graves declared that in spite of the great advance of the forestry movement, "the chief work of getting forestry into actual practice still lies before us."

As to the relation of forests to floods he said that "forests cannot under pronounced precipitation of other exceptional conditions, prevent large floods, but they tend to diminish both the number and the violence of floods."

Governor Park in his annual address, spoke of the good results from the co-operation of state with the national forest service.

CHAIRMAN STANLEY THREATENS TO RUN AMUCK

SCOLDS CONGRESSMEN WHO DISAGREE WITH HIM

Head of Steel Trust Committee Indulges in Personalities in Fight to Secure More Money For Inquiry.

[By Morning Journal Special Leased Wire.] Washington, Jan. 9.—Threats of Chairman Stanley of the "steel trust" investigation committee to issue subpoenas for everything he wanted from the United States Steel corporation and personalities in debate over his fight for \$9,000 additional appropriation for the inquiry, gave the house an exciting half-hour late today. The house finally voted the appropriation to supplement the original \$25,000.

Mr. Stanley said he had reached the end of courteous treatment of the so-called steel trust officers. Representative Levy of New York, a democrat who said he opposed the inquiry as an interference with business stability, was assured by Mr. Stanley that he "need not lose any sleep," even though Mr. Levy had "J. P. Morgan as one of his constituents."

Representative Bowman of Pennsylvania, questioned Mr. Stanley's statements that steel trusts had sold uniformly at \$28 a ton since the steel trust's formation. Mr. Stanley retorted with a threat to subpoena Mr. Bowman and demanded to know what he knew about steel trusts.

"The mining company I am interested in has been buying them in carloads every year for the last thirty years," Mr. Bowman retorted, "and I know the price has varied widely from \$28."

Representative Young of Michigan, a member of the committee, took issue with Chairman Stanley's statement that the committee's work had forced the steel corporation's rate raisers in Minnesota to lower the rate for carrying ore. Mr. Stanley paid him the compliment of "knowing nothing about the facts."

"The committee has been subjected to a scientific and tabulating system of delay," Mr. Stanley said, "I have been uniformly courteous to the officials of the steel corporation, but they in turn either do not let our experts see their records or delay us unreasonably. Tonight I intend to issue a subpoena for what I want, and I will get it or know the reason why."

Mr. Lloyd of Missouri, democrat charged that Mr. Levy wanted the government's action against the steel corporation set aside. Mr. Levy denied this, but said he objected "to this continued investigation in the face of that suit."

"How many men have lost their work because of this committee's investigation?" Mr. Stanley demanded. "At least 25,000," Mr. Levy said.

Mr. Stanley declared the steel corporation welcomed the government's suit for dissolution in the belief that it would stop the committee's inquiry.

Former Speaker Cannon charged Mr. Stanley with having judged the case against the steel corporation before all the evidence has been secured.

HARMON TAKES TROUBLE TO DENY CHILDISH TALE

Columbus, Ohio, Jan. 9.—Governor Harmon today denied printed statements that while Mr. Bryan's last campaign was in progress a young daughter of Governor Harmon wrote to a girl friend in Texas that "Papa hoped for Mr. Bryan's defeat because it would make his own presidential prospects brighter."

"My three daughters each married and left home long before the 1908 campaign. Not one of them ever had a girl friend in Texas. I have two granddaughters but one of them was ten months old and the other six years in 1908."

"Neither in the family circle or elsewhere did I ever make the statement mentioned."

SUNDAY BASEBALL IN DETROIT AND CLEVELAND

Chicago, Jan. 9.—American league members will meet here February 14 in the annual playing schedule meeting according to an announcement by President Johnson today.

Johnson went to Cincinnati to join other members of the National Commission in arranging the changes ordered at the recent meeting. He said that the American league schedule would be more satisfactory to owners this season because Sunday baseball would be allowed in the four western cities.

Johnson announced the membership of his new board, which will meet with a similar board of the National league. It consists of Umpire Tom Connolly, chairman; James Callahan and Joe Jackson.

Sailor Defeats Soldier

New York, Jan. 9.—Sailor Burke, weighing fully ten pounds, defeated "Soldier" Johnson, the heavyweight, in a ten-round bout in Brooklyn tonight.

Phil Brock Wins Decision

Cleveland, Jan. 9.—Phil Brock of Cleveland and the decision over Phil Ketchum of Kansas City tonight when the lads finished twelve rounds of hard fighting.

SPORTS PUBLIC CONSCIENCE AROUSED IN NEVADA

Prospect That Utah Will Get the Benefit and Sage Brush State the Odium of Prize Fight Responsible.

[By Morning Journal Special Leased Wire.] Salt Lake City, Jan. 9.—A spirit of bitter opposition to the proposed Johnson-Flynn fight has developed throughout Nevada, according to advices received here. Nevadans say that any benefits from a battle staged near the Nevada-Utah line will accrue to Salt Lake City, while any odium attached to the fight will remain with the state of Nevada.

A proposal to call a special session of the Nevada legislature to repeal the law under which unlimited ring battles are sanctioned, has been discussed freely among prominent men in politics in Nevada and there is small doubt that Governor Osie will be urged to do his utmost to prevent the battle.

Metropolis, Nevada, has notified Promoter Jack Curley that the offer of a site for the fight arena and other inducements to bring the battle to that town will probably be withdrawn. Wendover, mentioned by Curley as the site of the battle in Utah, but it is probable he intends to place the arena across the state line.

RACE RESULTS.

At Juarez.

Jan. 9, 1912. Yanket, at odds of 30 to 1, proved a big surprise when he won the third race in a drive from the second choice, Tourist, at Juarez today. Yanket came very close in the stretch, but closed fast and won by three-fourths of a length. M. Odum claimed Fredwell out of the third race for \$725, and Henderson and Hogan in turn claimed Odum's Tourist for \$625. Jockey Teddy Rice was set down for fifteen days by the stewards for rough riding in the last race. Results:

Weather clear; track fast.

First race, one mile; Wicket, 7 to 1, won; Pipe Vision, 6 to 1, second; Waymouth, 6 to 1, third. Time—1:41 2-5.

Second race, six furlongs; J. H. Reed, even; Rosano, 1 to 1, second; Miss Korn, 10 to 1, third. Time—1:14.

Third race, six furlongs; Yanket, 30 to 1, won; Tourist, 3 to 1, second; Royal Tea, 5 to 1, third. Time—1:15 4-5.

Fourth race, five and a half furlongs; Pride of Lismore, 7 to 2, won; Kootenay, 8 to 1, second; Chapultepec, 5 to 1, third. Time—1:06.

Fifth race, one mile; Setback, 7 to 5, won; Sona, 5 to 2, second; Mama, 8 to 1, third. Time—1:40 2-5.

Sixth race, one mile; Lotta Creed, 5 to 2, won; Zula, 8 to 1, second; The Monk, 3 to 1, third. Time—1:33 3-5.

CHANGES ANNOUNCED IN GRAND CIRCUIT

New York, Jan. 9.—Grand circuit harness racing will undergo important changes next summer as the result of action taken at the annual meeting of stewards held here today.

In the allocation of dates made public tonight New York city and Pittsburg are admitted to the circuit; Lexington, Ky., is invited to join; Columbus is reinstated while Indianapolis, Ind., is withdrawn and Grand Rapids, Michigan, and Goshen, N. Y., are out for the coming year of least.

The New York meet is said to be backed by United States Senator Joseph W. Bailey of Texas, president of the American Trotting association, who is interesting owners of the Gravesend track in the plan to hold a trotting meet there since that is little prospect of running races this year.

Conklin Still Leads Demarest.

Chicago, Jan. 9.—Fred Conklin, international amateur, 142 1/2 pound champion, tonight added 12 points to his 12 point lead over Calvin Demarest, professional champion, in the second block of their handicap match bets. Conklin made 261 in twenty-seven minutes; Demarest 258 in twenty-five minutes. Demarest is to make 2,660 to Conklin's 1,125.

Noted Bookmaker Dead.

Chicago, Jan. 9.—Marcus H. Christy, one of the most widely known bookmakers on the American turf, died here today of heart disease. At one time he was a banker but broke his trade for the racing game and was reported to have made a million dollars. He was 52 years old.

Billiard Player Suspended.

New York, Jan. 9.—Another suspension of a billiard player from the tournaments of the American Amateur association of billiard players was recorded today against Frank Decker of Denver. Charges of professionalism were lodged against him.

Roy Corhan May Manage Pueblo Baseball Team

Pueblo, Colo., Jan. 9.—J. G. Guthrie, former secretary of the Denver baseball team, today wired Frank Decker, owner of the Pueblo Western league team, who is now in Wichita, asking an option on the Pueblo team. The offer was said to be \$12,000. If Guthrie secured the Pueblo franchise it is said Decker would start stop of the Chicago American, which he made manager of the Pueblo team.

SCANDAL SCENTED SUPT. A. MONTOYA IN FRENCH CABINET

FOREIGN MINISTER RESIGNS IN HASTE

Conscience Wouldn't Allow Him to Confirm Statement Made Upon Word of Honor by Premier Cailleaux.

[By Morning Journal Special Leased Wire.] Paris, Jan. 9.—The Franco-German Moroccan treaty which ended the bitter crisis a few months ago, brought about this evening in a dramatic manner the resignation of the French foreign minister, Justin Desjardins. This threatens to be followed by a general parliamentary investigation and ministerial upheaval.

Charges that financiers of France and Germany were permitted to carry on secret negotiations relative to the Congo and Morocco, caused the rupture.

Premier Cailleaux, before the senate committee gave his word of honor that there had been no such negotiations, but the foreign minister declined to back the premier and refused to make a statement.

The crisis has been brewing ever since the treaty was signed. Due to repeated allegations that the Franco ambassador, Jules Cambon, did not have a free hand in the negotiations with Germany and that other negotiations of which the foreign office and the ambassador were ignorant, were being conducted secretly between the two countries, concerning railroad concessions in the Congo, Kamerun and Morocco.

The storm broke at the meeting of the senate committee with former Premier Clemenceau holding a great advantage. Premier Cailleaux denied there had ever been semi-official pour parlers before the interview at Kinsingen. He had, he said, repudiated a contract for railroad concessions alleged to have been made between a Frenchman named Fouldier and Dr. Sander, a member of the Reichstag.

He told of the negotiations relative to the proposed railroads in Morocco, and affirmed that he was happy to give his word of honor that there had been no negotiations except those of which the foreign office and M. Cambon were fully cognizant.

M. Clemenceau arose and looked fixedly at the foreign minister.

"Will you confirm the statement of the premier?" he asked.

M. Desjardins at first refused to answer but pressed by Senator Bourgeois, chairman of the committee, finally said:

"I cannot answer the question. I am tied between a double duty—to stick to the truth and tell all, and not to hurt the interests of the country by deserting the cabinet."

WENDOVER TO BE SCENE OF CHAMPIONSHIP FIGHT

Chicago, Jan. 9.—Wendover, not Windward, Nevada, is to be the scene of the Johnson-Flynn fight next July. Manager Jack Curley made this definite announcement today and until Curley spoke it was thought Metropolis, Nevada, might have a chance to get the pugilistic plum.

In addition Curley says Windward was Wendover spelled.

"I don't know how the mistake was made," said he, "Maybe I mispronounced the name of the town. Anyhow, Wendover is 121 miles west of Salt Lake City, and the altitude is 6,227 feet."

Referee Saves "Denver" Smith.

Dallas, Texas, Jan. 9.—To prevent unnecessary punishment to the Denver man, the referee stopped the bout between "Hub" Smith of Denver and Charles Pierce of Dallas, early in the fifth round tonight.

Pierce had the advantage almost from the start and after the thirteenth round when he staggered Smith with a left to the jaw, hampered his man about the ring as he phased. The bout was scheduled to go fifteen rounds.

Conklin Still Leads Demarest.

Chicago, Jan. 9.—Fred Conklin, international amateur, 142 1/2 pound champion, tonight added 12 points to his 12 point lead over Calvin Demarest, professional champion, in the second block of their handicap match bets. Conklin made 261 in twenty-seven minutes; Demarest 258 in twenty-five minutes. Demarest is to make 2,660 to Conklin's 1,125.

Noted Bookmaker Dead.

Chicago, Jan. 9.—Marcus H. Christy, one of the most widely known bookmakers on the American turf, died here today of heart disease. At one time he was a banker but broke his trade for the racing game and was reported to have made a million dollars. He was 52 years old.

Billiard Player Suspended.

New York, Jan. 9.—Another suspension of a billiard player from the tournaments of the American Amateur association of billiard players was recorded today against Frank Decker of Denver. Charges of professionalism were lodged against him.

Roy Corhan May Manage Pueblo Baseball Team

Pueblo, Colo., Jan. 9.—J. G. Guthrie, former secretary of the Denver baseball team, today wired Frank Decker, owner of the Pueblo Western league team, who is now in Wichita, asking an option on the Pueblo team. The offer was said to be \$12,000. If Guthrie secured the Pueblo franchise it is said Decker would start stop of the Chicago American, which he made manager of the Pueblo team.

INCORPORATE YOUR BUSINESS

New Head of County Schools Will Have Offices at 108 South Third Street; Examinations This Week.

[By Morning Journal Special Leased Wire.] Atanacio Montoya, superintendent of the Bernalillo county schools, Monday assumed charge of the office and will have his headquarters in his present offices at 108 South Third St. Supt. Montoya wishes the announcement already made repeated, to the effect that examinations for teachers will be held in the county court house Friday and Saturday of this week at 8 a. m. All special permits issued teachers expire with these examinations so that such teachers are expected to appear to take them.

Dalhart, Tex., Jan. 9.—Hope for the lives of thousands of starving cattle on the ranges was held out today by a sudden rise in temperature to forty degrees above zero. This is the first thaw in the Texas panhandle for three weeks.

FOLEY KIDNEY PILLS

Always give satisfaction because they always do the work. J. P. Schmitt, Bremen, Ga., says: "I have used Foley Kidney Pills with great satisfaction and found more relief from their use than from any other kidney medicine, and I've tried almost all kinds. I can cheerfully recommend them to all sufferers for kidney and bladder trouble."—J. H. O'Reilly.

LEGAL NOTICES.

NOTICE OF SPECIAL MASTER'S SALE.

In the District Court, No. 1965, Territory of New Mexico, County of Otero.

J. R. Gilbert, Plaintiff, vs. Aaron H. Garnett, Defendant.

Whereas, in the above entitled cause for foreclosure of a mortgage the plaintiff recovered judgment against the defendant on the 17th day of October, 1911, for the sum of \$293.82, with interest on the principal sum, \$290, at 10 per cent per annum till paid, and the said court on the said date decreed that the property of the defendant hereinafter described be sold to satisfy the said indebtedness.

And whereas, the said court on the 17th day of October, 1911, appointed the undersigned special master in chancery to make the said sale and otherwise carry the said decree into effect.

Now, therefore, notice is hereby given, that I will on the 24th day of January, 1912, at the hour of 10 o'clock a. m., at the front door of the court house at Alamogordo, New Mexico, expose and sell at public auction to the highest bidder for cash the property of the said defendant described as follows: (to-wit) NW 1-4 of Sec. 12, in Tp. 17 S, range 9 E, N. 31 P. M., to satisfy the said amount due the plaintiff and the costs of this sale.

S. M. PARKER, Special Master in chancery. J. L. Lawson, Atty. for Pl., Alamogordo, N. M. Jan. 10-17.

YOUNG BLOOD IN OLD BODIES

It may seem strange to talk of young blood in old bodies, but it is a fact that many old people are suffering from a lack of vitality.

BALTIMORE WINS  
THE DEMOCRATIC  
CONVENTION

HARMONY MARKS SESSION  
OF NATIONAL COMMITTEE

June 25 Fixed as Date When  
Party Will Meet to Nominate  
Candidate For President of  
United States.

(By Morning Journal Special Leased Wire.)  
Washington, Jan. 9. — The democratic national committee completed its work today with the selection of Baltimore as the convention city.

The democrats adopted a "permissive" primary resolution in connection with the calls for delegates and such states as have laws on the subject or desire to do so, can select their representatives in the national convention by direct vote.

William J. Bryan did not attend the meeting. He had not finished his speech at the Jackson Day banquet until well after 2 o'clock this morning.

The primary resolution adopted was a modification of one proposed by Senator Chamberlain of Oregon. It was framed by a subcommittee headed by Clark Howell of Georgia and others.

That in the choice of delegates and alternates to the national democratic convention in 1912, the democratic state or territorial committee may, if not otherwise directed by law of such state or territory, provide for the direct election of such delegates or alternates in the opinion of the respective committee it is deemed desirable and possible to do so with proper and sufficient safeguards.

Baltimore led in the fight for the convention from the first but two ballots were required before St. Louis was abandoned. Then the vote was made unanimous.

The date of the convention, June 25, suggested by E. H. Lynch of Minnesota, was fixed unanimously.

The Home Health Club  
Little Lectures On How to Take Care of Yourself

By Dr. David H. Reeder, La Porte, Indiana.

Pneumonia—This is the time of the year when pneumonia—commonly known as lung fever—prevails to the greatest extent and is most severe.

Always the best advice that can be given concerning any disease is to avoid having it, which can be done—everything else being equal—by standard precautions, which, for the most part, are common living, the avoidance of intemperance in all things, not only intemperance in the use of stimulants and narcotics, or the eating of foods that are notoriously hard on the stomach; to any sort of unnecessary over-exercising.

The crisis in pneumonia may appear either at the third, fifth, seventh or even as late as the ninth day, and this must be remembered when treating it. The greatest danger at this period is the liability of heart failure and nervous breakdown.

Previously, certain drugs derived from root-like herbs used as the means of reducing fever temperature. They were known as anti-febrile agents meaning "against fever."

When it comes to rest and home building, there are three things to be remembered: first, that the patient should be kept in a room where the temperature is kept at a normal level; second, that the patient should be kept in a room where the air is pure and fresh; and third, that the patient should be kept in a room where the humidity is maintained.

A highly important matter in this treatment is the ventilation of the sick room. Keep it well supplied with pure, fresh air, even at the expense of the room's temperature. It is a great mistake to think that patients suffering from pneumonia must not be allowed to breathe a particle of cold air, or that the room temperature should be kept at a high level.

The temperature may, at any time after the third day, be found very high, and the overburdened heart unequal to its task, unless relieved, and that upon the relief depends the patient's recovery. What to do under such circumstances, and before it is possible to obtain the services of a physician, is of vital importance.

Charles Burnham, Lovington, N. M., has succeeded in finding a positive cure for bed sores. "My little boy set the bed every night," as through on the floor. I tried several kinds of kidney medicine, and I was in the drug store looking for something different to help him when I heard of Peter Kidney Pills.

The patient will probably not take more than a few swallows at a time, but it should be repeated every two hours or so.

With the intention of interesting the farmers of the Rio Grande valley in the possibilities of irrigation by pumping, and of demonstrating to them how the bench and mesa lands of this valley, which are more productive than the bottom lands, can be turned into farms, orchards and vineyards, H. J. Buell, field representative of the Federal Light and Traction company arrived in the city yesterday.

Mr. Buell will immediately begin his reconnaissance work, and make his estimates as to what can be done in this valley in the light of the experienced in valleys similarly situated elsewhere.

A HOME BUILDING  
COMPANY

Frank Ackerman Now Organizing  
Concern to Take Advantage  
of Opportunity For City  
Growth.

That Albuquerque growth demands a "home building company" who, for the past three years, as is the opinion of Frank Ackerman, manager of the Home Realty company, has constructed and sold about twenty-five houses.

GUN CLUB WILL  
AFFILIATE

Local Organization to Join  
American Game Protection  
and Propagation Association.

Largely through the initiative of Secretary Raymond Starnes of the Rio Grande Gun club, that organization will likely affiliate with the American Game Protection and Propagation association, a national organization for the purpose of conserving the supply of wild game in the interest of sport and the perpetuation of the species. This organization is national in its scope and is doing an important work in preventing the extermination of game.

Charles Burnham, Lovington, N. M., has succeeded in finding a positive cure for bed sores. "My little boy set the bed every night," as through on the floor. I tried several kinds of kidney medicine, and I was in the drug store looking for something different to help him when I heard of Peter Kidney Pills.

NO FORTUNE SPENT  
IN ARIZONA ELECTION

Albino, Ariz., Jan. 8.—It cost Governor G. W. Hunt \$1,084 to be elected governor of the new state of Arizona, according to a statement which Mr. Hunt forwarded today to the territorial secretary at Phoenix. Contributions to the democratic campaign committee amounted for \$490; another \$1,000 went to hotels and restaurants. The balance received \$114 in fares and newspapers \$124 for subscriptions.

VAST POSSIBILITIES  
IN PROPOSED  
IRRIGATION  
SYSTEM

Representative of Great Electrical Concern Here to Look Into Central Power Plant Plan For Pumping.

WOULD TRANSFORM ARID  
MESA INTO RICH FARMS

Proposition Presented to Commercial Club Last Night Fraught With Vital Importance to City's Future.

With the intention of interesting the farmers of the Rio Grande valley in the possibilities of irrigation by pumping, and of demonstrating to them how the bench and mesa lands of this valley, which are more productive than the bottom lands, can be turned into farms, orchards and vineyards, H. J. Buell, field representative of the Federal Light and Traction company arrived in the city yesterday.

Mr. Buell will immediately begin his reconnaissance work, and make his estimates as to what can be done in this valley in the light of the experienced in valleys similarly situated elsewhere.

For a number of years Mr. Buell was employed by the Northern Colorado Power company and engaged in installing similar plants to the one proposed for Albuquerque in many of the northern valleys of Colorado. During this time he saw land, which without water pumping systems was supposed to be worthless and barren, produce bumper crops of wheat, and in places from 18 to 20 tons of sugar beets to the acre.

The establishment of a central power plant from which the heavily charged wires radiate in all directions to the farms in the region supplies the farmer at a moderate cost, in fact cheaper ordinarily than with the gravity system, with power where it is pumped the water from wells over the ground. The general cost of such a watering is \$1.50 per acre per season.

Neither is the first cost of this plant so great. A plant capable of pumping sufficient water of irrigation purposes for a farm of 160 acres costs about \$1,000. This generally can almost be paid for from the first year's crop. The cost of delivering the water for the entire year on the crop is \$25, a cost which pales into insignificance when it is remembered that under the pumping system crop failures are practically unknown.

It is possible to run power lines from the central station for a distance of 25 miles, and then stepping down process can be some five miles further. Every ten miles along the main power line distributing stations are installed sending out power for sections five miles distant from the station. The possibilities to Bernillo county under such a system can readily be seen.

"I expect to be in this section," said Mr. Buell yesterday, "for a month or more, looking into the proposition, and interesting the farmers in the pumping system of irrigation. I believe, and it has been demonstrated, that this is much cheaper than a gravity system can be more easily applied, is more economical, and gives the farmer the advantage of getting his water whenever he wants it, and not with the delays that often accompany a gravity system."

TRAFFIC ABOUT TO  
RESUME NORMAL  
CONDITIONS

Past Week's Demoralization of Train Schedules Due to Blizzards and Engine Failures is Believed Past.

With engine failures on the Coast lines and snow covered tracks to the east of Albuquerque, all Santa Fe trains due to reach the city have been badly delayed the past week. Matters were cleared up yesterday sufficiently to lead the railway officials to believe that in the course of a day or two the trouble will be remedied and the trains from the east, at least, running on their regular schedule.

The Santa Fe is much more fortunate than other roads running through the same section of the Kirtland snow belt. The Union Pacific has had a train through on its line in a week, the Rock Island was obliged to detain its trains over a portion of the Santa Fe track which had been cleared, in order to get their crack Golden State limited through.

The California Limited which carries a large quantity of punch mail missed its connection with the Rock Island at French yesterday and the mail was brought on to Albuquerque and taken to El Paso last night on the El Paso train. There was so much of this delayed mail that the transfer offices were filled and several trucks had to take care of the overflow.

TOWN OF TAIBAN IS A  
HUSTLER

Has Come Through Lean Years Better Than Any of Its Neighbors and Present Prospects Are Most Flattering.

(Special Correspondence to Morning Journal)  
Taiban, N. M., Jan. 8.—Taiban, one of the best little towns in New Mexico, is situated in the northwest part of Roosevelt county in the Pecos valley district 26 miles west of the Santa Fe. Taiban is in the most favored region of eastern New Mexico. The city has a savings bank, church, public school, a large dry goods store, a general merchandise store, three grocers, one drug store, two lumber and hardware establishments, one bakery, a barber shop, two real estate firms, two blacksmithing and boot-making establishments, and two saloons. The Santa Fe company has a big coal chute and the best watering station on the line at this place. Taiban is in the shallow water belt, where water can be had from 25 to 35 feet and while a number are obtaining it in ponds for irrigation this coming season.

TRESPASS CASE IS  
BEFORE DISTRICT  
COURT

Suit For \$7,000 Alleged Damages Brought By William McIntosh Against Eugenio Romero Now Being Heard.

The McIntosh-Romero trespass case will be taken up again before Judge Ira A. Abbott in chambers at the court house today, with Edward W. Dohson and Edward A. Mann representing the plaintiff, William McIntosh, and Charles A. Spiess of Las Vegas, representing the interests of Eugenio Romero, the defendant. It is quite likely that after the arguments of the attorneys further evidence will be called for.

In this case William McIntosh is suing Eugenio Romero for \$7,000 damages for an alleged trespass committed by employees of Romero in cutting timber from the Chilli grant. The defendant admits the trespass but claims that he did not cut more than \$500 worth of timber. As soon as it was discovered that his men were cutting timber that did not belong to him he ordered them to desist.

ORPHEUM COMEDY  
DRAWS ANOTHER  
BIG AUDIENCE

Popular Starland Company Puts On a "Day in College," and Scores Tremendous Hit.

With a classy little company composed of merry-makers, brightly costumed, and splendidly drilled, the Starland Musical comedy company gave their second night's performance at the Orpheum last night to a crowded house, which showed its appreciation of the class of work being done by the entertainers by recalling them time after time.

The particular vehicle chosen for the portrayal of the company's addition last night was "A Day at College," and while there was no studying done at the college and it boasted of but one German instructor, Professor Neversault, portrayed by Louis Miller, there was no dearth of fun. No complicated situations ran their dreary way through the till, but instead there was plenty of singing and dancing. Prigley Smith, the usual alighted millionaire (Ed Polville) and Billy Watts, the ubiquitous college boy (Clare McDermott) and Louis Bell, George, Robn were on hand to furnish the laughs.

PROSPERITY IS SURE FOR NEW STATE OF NEW MEXICO-- FISHER

Increase of Population Notable in Irrigated Valleys Says Secretary of Interior in His Report.

PERMANENT STABILITY FOR GREAT SOUTHWEST

Both Territories Have Developed Sufficiently to Justify Admission Into Union Declares Official Document.

The Morning Journal Bureau, 514 Murray Building, Washington, D. C., Jan. 7.

The last annual report of the affairs of the territories of New Mexico and Arizona have been written by Secretary Fisher of the interior department. This report was made public today. It is the shortest report covering the interests of these two great territories ever written by any cabinet officer at the head of the interior department having charge of the affairs of the territories.

In his annual report Secretary Fisher has this to say:

"The time draws near when the governmental affairs of Arizona and New Mexico will have no place in the annual report of the secretary of the interior. Under the enabling act of congress approved June 20, 1910 a convention was elected in each territory and framed a state constitution, which was approved by a vote of the people in January, 1911. On August 21, 1911, the president approved a joint resolution authorizing him to issue his proclamation admitting Arizona and New Mexico into the union on the following conditions:

"That there should be submitted to and adopted by the voters of Arizona a substitute for Article VIII of the pending constitution excepting the judiciary from the operation of repeal by popular vote. In that event the territory will be admitted to statehood upon the completion of the necessary formalities.

"That there should be submitted to the electors of New Mexico for adoption or rejection a substitute for Article XIX of the pending constitution providing for an easier method of amendment in the future. The governor reports that this substitute was adopted at an election held November 7, when state officers and representatives in congress were also voted for. The issuance of the President's proclamation awaits the certification of the results of this election.

"Both territories have developed sufficiently to fully justify their admission into the union.

"Arizona's population is estimated at 225,000, an increase of approximately 10 per cent since the census of 1910 was taken. That of New Mexico was 227,401 in 1910, and is now estimated at 440,000.

"The increase of population of New Mexico is especially notable in the irrigated valleys, and therefore indicates not only present but permanent stability and prosperity.

"The annual revenues of each territory slightly exceed \$1,000,000. The annual expenditures of Arizona are slightly in excess of, and those of New Mexico slightly less than, said sum.

"The assessed valuation of the taxable property of Arizona is \$38,632,785.64, and that of New Mexico \$50,958,880.75, an increase of \$11,906,482.29 and \$1,745,744.67, respectively, over 1910.

"The tax rate for each territory is 10 mills, and the debt of each slightly less than \$1,000,000."

THE DANGER OF LA GRIPPE

It is fatal tendency to pneumonia. To cure your la grippe coughs take Foley's Honey and Tar Compound. Dr. Fisher, Washington, Kan., says: "I was troubled with a severe attack of la grippe that threatened pneumonia. A friend advised Foley's Honey and Tar Compound and I got relief after taking the first few doses. I took three bottles and my la grippe was cured." Get the genuine, in the yellow package.—J. H. O'Reilly, A New Margarine.

With the new year has appeared "Cartoons," a magazine of reproductions of the funniest cartoons and brightest caricatures from all over the world on subjects of current interest. Such a publication is the newest of modern ideas, yet its coming has been certain for the ever increasing attention given cartoons in the daily papers and the public demand for more has indicated its field.

"Cartoons" has 64 pages of skillfully reproduced drawings by over one hundred cartoonists, is printed on heavy India paper with a handsome cover and is issued on the fifth of the month by H. H. Windsor of Chicago.

FOLEY'S HONEY AND TAR COMPOUND CURES IN EVERY CASE. Mr. Jas McCaffery, Mgr. of the Schlitz Hotel, Omaha, Neb., recommends Foley's Honey and Tar Compound because it cures in every case. "I have used it myself and I have recommended it to many others who have since told me of its great curative power in diseases of the throat and lungs. For all coughs and colds it is speedily effective."—J. H. O'Reilly.

The Protestant View of Catholic Virtues

From the Literary Digest.

How are American Protestants going to face the fact of the rapid increase in power of the Catholic church? What is to be their attitude toward "this universal neighbor?" Many Protestant journals are trying to answer these questions, now more insistent than ever since the elevation of three Americans to the cardinalate. Their editors have written in many cases in so bitter and caustic a vein that their words would be profitless to quote. Occasionally, however, we find an expression of opinion which, while voicing Protestant criticism of Catholic belief and practice, is free from those railing accusations which the Archangel Michael daunt not bring against his worst enemy. In this vein Dr. Frederick Lynch sets out to answer the queries put above. Is our attitude, he asks, "to be one of hostility and prejudice, such as our fathers entertained, or one of utmost cordiality and friendliness as to one of the same faith as ourselves?" "Are we going to waste our energies fighting a church which follows the same Master," he continues, "or unite with them against the common enemy of all good?"

In The Christian Work and Evangelist (New York), Dr. Lynch, who writes "The Optimist's" column, deals in the following broad-minded way with the question: "This is a very serious question and must speedily be answered by the American people for the Roman church is becoming a powerful factor in American life. Some of us who spent our youth in country towns remember well the feeling that existed, of almost bitter hatred. This feeling was further fanned into flame by weekly papers, which came from Boston, if we remember rightly, and were full of most scurrilous stuff about the church and its Irish adherents. Societies were formed of Protestants, and spent their sessions hearing fearful tales of their doings, and denouncing the Pope. The members of these societies, as we recall them, spent much more time attacking the Roman Catholic church than in assisting the Protestant church of the community. Feeling ran so high in my home town in Rhode Island that many actually believed and repeated the story that great armies had been excavated beneath the Cathedral in Providence, and stocked with thousands of rifles for the day when the Roman Catholics should rise to seize the government and install the Pope as king in a palace named James Gordon Bennett was to build on the Hudson river near New York, of course."

The writer is frank to admit that the Roman Catholic church has not been altogether above criticism in this country. For—

"She has said and done many foolish things, not the least foolish of which, and quite typical, was the remark of Archbishop Farley the other day, to the effect that he hoped New York would soon have a Catholic governor. This nation has nothing to do with Catholic governors, nor Protestants—simply with good men and capable men. But every once in a while this church does things and says things that mislead the Protestant section of the nation into believing the church plays politics for sectarian ends. And there is nothing this class hates more than any playing of politics by a church. The Roman Catholic church, or certain sections of it, has justly laid itself open to criticism by demanding state money for church schools. This was a grave mistake, for the American people will never consent to any recognition of a particular denomination as a dependent of the government. The other causes of fear are not as well founded. Of course, the descendant of the old Puritan stock hates any course that is not open, frank, and above board, and he no doubt has got the impression sometimes that the Catholic church practices more scheming and Jesuitism than is becoming in a democracy, and that she was more concerned in strengthening her own position than in forwarding the kingdom of God. But two priests, even two priests with a bishop added, do not represent the whole church. The criticism of the Catholic immigrant by many Protestants, that he puts allegiance to the Pope above allegiance to country, has been answered by Pope Leo XIII. himself. He says: "I might have appointed the vicar of the Roman race between two powers, the ecclesiastical and the civil: the one being set over divine, the other over human, things. Neither or abase the other within the limits to which each is restricted by its constitution. As a matter of fact, the history of the Roman Catholics in the United States has been one of loyalty to the nation and then—what? Christian does not put loyalty to the Kingdom of Christ first."

From this point the writer gives "his own position," speaking as "the optimist."

"When he sees the paganism in our great cities, the utter indifference to religion of thousands of men, the worship of pleasure and the frenzy of the masses over sports, the frivolity of our modern life, the growing evil of divorce, the lessening sense of sin, the craft and corruption in business, the heedlessness of law, amounting almost to anarchy, the demand on all sides of the sacrificial life as the true creed of humanity, he thanks God that the Roman Catholic church is strong for she is still like a giant against all these real enemies of our modern life. He had infinitely rather see her churches multiplying in Chicago than to see the low music hall, the gorgeous cafes, the balls of pleasure, and gilded halls of champagne and vice, and theaters, given over to heedlessness multiplying on every side. He had a thousand times rather see her preachers of judgment and of the righteousness God demands of men preaching on every corner than to

have Nietzsche, Bernard Shaw and Mrs. Glenn gaining increasing hold over our people. This is what we Protestants have got to remember. "We Christians have got a long, arduous and fierce task before us in this century of combating the all-prevalent materialism with idealism, the wide-spread Epicureanism with the gospel of service and of mission. Are we going to waste our energy and our feelings in hating that which, in spite of some doctrines and practices which we dislike, is with us, on our side, instead of welcoming any ally in the fight against the sin of the world? For, fundamentally, the Roman church believes as we do, God, righteousness, the sacrificial life, the forgiveness of sin, Christ the only Savior of humanity, the imparted life of God, eternity in our hearts, the immortality of the soul. For our part, we have no time to waste in hating another Christian church while we stand almost despairing before the thousand enemies of Christ. We count as our friend and fellow worker the great and good Cardinal Gibbons, when he says that the Roman Catholic church 'stands for law and order, for liberty for social justice, for purity, it works for the loyal observance of the constitution, and obedience to the government. It seeks to make better citizens, to destroy civic corruption, to spread the doctrines of right living and right thinking. It uses its vast influence to incorporate into the body politic the hordes of immigrants that come through our gates. By word and action it propagates the virtues of justice and charity. . . . Striving to maintain the home, that unit of a strong nation, she has vigorously condemned divorce, permitting only that kind which is known as separation from bed and board; and we count that man our enemy to be overcome who recently said: 'I am in this world simply to get out of it all I can for myself.'"

The farmers' meeting is going to necessitate the use of an interpreter, so Secretary Naylor was instructed to get an interpreter to work next Saturday at the farmers' meeting.

H. J. Huell of Denver, field representative of the Federal Light and Traction company of New York, who is in town looking over prospects for pumping plants, was present at the meeting and when asked to speak, urged the business men to take hold of every canning factory proposition they could. He has had much experience in seeing these industries started and was glad to say that most of them proved successful. They help the farmer, the merchant and the factory.

John Lee Clarke, who in the absence of President Stern, presided, called the attention of the club to the fact that term-tille county has no poor farm or poor house, and the indigent and paupers are thrown upon the charity of the Non-Sectarian Benevolent society, the Salvation Army, and one Jewish institution. This he believed to be unfair to each of the organizations mentioned. The county ought to provide for the care of its paupers. The matter, however, went over until the next meeting.

Former district attorney George S. Klock was asked about the Zimmerman survey of Bernhill county, Eastern Kansas, Western Kansas, Colorado and New Mexico. Walter Williams, dean of the newspaper school, University of Missouri, Columbia, Mo., historian and writer, who traced the Old Trail and the new trail summer, is vice president of the Missouri grand division. Mr. Twitchell has been asked to serve as vice president of the New Mexico grand division, which I trust is agreeable to yourself as executive of your great new state.

It is our purpose to hold, in late winter or early spring, a series of Trail meetings at important points between here and Santa Fe. In this I trust we shall have your co-operation and that of your state engineers.

The New Santa Fe Trail is officially recognized by the United States department of agriculture, through the office of good roads, by all the leading motor and highway organizations of the east; by publicists who have written columns and columns about the concerted movement; and is thoroughly organized up to the New Mexico line. It is in order to have your distinguished and appreciated help in this best organization that I now write you. May I have the honor of hearing from you?"

Yours for the Trail, B. H. FAXON, President The New Santa Fe Trail, Governor W. C. McDonald, Santa Fe, New Mexico.

MOTION TO RULE OUT RECORD IN PACKERS CASE

Chicago, Jan. 9.—United States District Judge Carpenter is expected to rule tomorrow morning on a motion made early today by counsel for the defense to exclude from the record of the packers' trial the documents identified by witness Jerome H. Pratt, including the letters alleged to contain perjury in the case of Arthur H. Becker and Thomas J. Connor, three of the defendants.

Nearly the entire day was taken up with argument on the legal points involved.

Stranded Vessel in No Danger. Provincetown, Mass., Jan. 9.—No fears were felt tonight for the safety of the New York steamer Wilhelmina, which went aground near the mouth of Panet river, off Truro, early today.

CANNING FACTORY SEEMS ASSURED FOR CITY

Commercial Club Invites Denver Representative to Come to Albuquerque to Discuss Proposition With Farmers.

With a two months' earlier start than was had last year, with \$2,500 to raise, and but 150 acres of tomatoes to guarantee to secure the long look-out for canning factory, the business men of Albuquerque have taken up the proposition this year with a will that means success. C. H. Green of Denver, who has been anxious for some time to install such a plant in this city, has been invited to come to Albuquerque, so as to be here on Saturday and talk to the farmers who will be on hand to meet the Santa Fe demonstration train. This is the outcome of the enthusiastic meeting of the Commercial club held last night.

Last year the proposition was dropped because of the lateness of the date when it was first broached, March 2, but this year the business men believe a sixty days' start will be sufficient to overcome what they lacked in time last year, and by the ripening season of tomatoes and such crops, the canning factory will be ready to receive the fruit of the Rio Grande valley in the neighborhood of Albuquerque, can it and place it on the market with advantage both to the factory and the farmers.

F. B. Schwentker in speaking about the factory at the meeting last night was of the opinion that more generous terms can be obtained from Mr. Green this year than he proposed last year. He therefore, suggested that Mr. Green be invited to come here next Saturday and look over conditions, and Secretary Naylor being instructed last night to send a telegram to Mr. Green and get him here to meet the farmers Saturday.

The farmers' meeting is going to necessitate the use of an interpreter, so Secretary Naylor was instructed to get an interpreter to work next Saturday at the farmers' meeting.

H. J. Huell of Denver, field representative of the Federal Light and Traction company of New York, who is in town looking over prospects for pumping plants, was present at the meeting and when asked to speak, urged the business men to take hold of every canning factory proposition they could. He has had much experience in seeing these industries started and was glad to say that most of them proved successful. They help the farmer, the merchant and the factory.

John Lee Clarke, who in the absence of President Stern, presided, called the attention of the club to the fact that term-tille county has no poor farm or poor house, and the indigent and paupers are thrown upon the charity of the Non-Sectarian Benevolent society, the Salvation Army, and one Jewish institution. This he believed to be unfair to each of the organizations mentioned. The county ought to provide for the care of its paupers. The matter, however, went over until the next meeting.

Former district attorney George S. Klock was asked about the Zimmerman survey of Bernhill county, Eastern Kansas, Western Kansas, Colorado and New Mexico. TRAIL MEETINGS FROM KANSAS TO SANTA FE

'NEW SANTA FE TRAIL' MAN WRITES GOVERNOR

Twitchell Vice-President For New Mexico Grand Division; Co-operation of Governor McDonald is Asked.

To spread the propaganda of the "New Santa Fe Trail" organization in the southwest, a number of good roads gatherings of "Trail Meetings" are to be held between Garden City, Kan., and Santa Fe. Among the co-operators of Governor McDonald and the people of the new state, President B. H. Faxon of the "New Santa Fe Trail" has sent the following letter to the New Mexico executive:

Garden City, Kan., Jan. 5, 1912.—My Dear Governor McDonald: Knowledge of your interest in the cause of good roads and a transcontinental highway, and at the suggestion of our mutual friend R. E. Twitchell of East Las Vegas, New Mexico, I am writing you relative to the extension of the jurisdiction of this, the earliest and greatest of good roads movements in the world.

The New Santa Fe Trail has extended its jurisdiction, as I said, and now starts at Old Franklin, Mo., and ends at Santa Fe, with the branch to Pueblo, which intercepts the so-called Rainbow Route. In this the New Santa Fe Trail largely follows the route of the Old Santa Fe Trail, which began at Old Franklin and ended at Santa Fe.

The New Santa Fe Trail now has five grand divisions—Missouri, Eastern Kansas, Western Kansas, Colorado and New Mexico. Walter Williams, dean of the newspaper school, University of Missouri, Columbia, Mo., historian and writer, who traced the Old Trail and the new trail summer, is vice president of the Missouri grand division. Mr. Twitchell has been asked to serve as vice president of the New Mexico grand division, which I trust is agreeable to yourself as executive of your great new state.

It is our purpose to hold, in late winter or early spring, a series of Trail meetings at important points between here and Santa Fe. In this I trust we shall have your co-operation and that of your state engineers.

The New Santa Fe Trail is officially recognized by the United States department of agriculture, through the office of good roads, by all the leading motor and highway organizations of the east; by publicists who have written columns and columns about the concerted movement; and is thoroughly organized up to the New Mexico line. It is in order to have your distinguished and appreciated help in this best organization that I now write you. May I have the honor of hearing from you?"

Yours for the Trail, B. H. FAXON, President The New Santa Fe Trail, Governor W. C. McDonald, Santa Fe, New Mexico.

to the advertising by fixing up the worst places in the road at once and making it possible then proceeding with a vigorous, uninterrupted and earnest campaign of road improvement all the time. To my mind it is especially important to keep the local interest awake along the line so that the various towns and counties to be benefited by this road to occur high way will keep on their feet, through the county commissioners and Commercial organizations and so forth. I repeat that it is my belief that no other one matter now before the citizen here is of as much importance right now as this road improvement campaign and the securing of the transcontinental route."

News Notes of the Two New States

A Bold Hold-up in Denning. It was in the full of day and on one of the main streets of Denning that the hold-up occurred, and the editor of the Herald tells the sensational tale. He was walking quickly though rapidly along the said thoroughfare on a peaceful mission bent. A party was seen approaching, and in a moment's time the aforementioned editor's pockets were searched and he was left with a few dollars and a few cents. The hold-up was a bold one, and the editor of the Herald tells the sensational tale. He was walking quickly though rapidly along the said thoroughfare on a peaceful mission bent. A party was seen approaching, and in a moment's time the aforementioned editor's pockets were searched and he was left with a few dollars and a few cents.

Passing of the Wild West. Sheriff Kendall of Santa County, has authorized the Hillsboro Advocate to announce that from now on any person or persons who indulge in the use of indecent language, or any person who indulges in fast riding on the streets, will be promptly arrested. The gun toter will also be a mark for the strong arm of the law. It is the duty of every good citizen to stop the use of indecent language, and to stop the use of the gun toter. Sheriff Kendall in his endeavor to stamp out such nuisances that in the past have been so numerous. At the Hillsboro Advocate says the gun toter has been a war on the gun toter and more than \$200 has been turned into the county in the way of fines lately. Let the good work go on.

Target Practice at the Reserve. An informal little shooting affair took place on the "Reserve," at Sierra county last Tuesday evening. Joe Barlow was the man behind the gun and Pedro Garcia was the first to report him. It was a very close affair, and a dispute over a shot, Garcia did not deny the debt, but told Barlow he had no money with which to liquidate, whereupon Barlow proceeded to collect with a gun, and shot at Garcia, who received a flesh wound in the cheek, considerably marring his facial pulchritude.

Another Good Roads Argument. There were only fifty-eight cars of ore shipped from Lordsburg during December, says the Lordsburg Liberty. This small shipment was caused not by lack of ore, but because it was impossible to get the ore from some of the mines to the railroad, on account of the heavy snows of last month. The chief sufferer was the Eighty-five company. The road from the Eighty-five mine out to the road, which is built to the north, is so bad that the ore could not be hauled, but a few hours a day, and the mine was good and plenty. A load of ore will be hauled to the mine, pulling down 110,000 lbs. of ore, and after a few hours a day, the mine was good and plenty. A load of ore will be hauled to the mine, pulling down 110,000 lbs. of ore, and after a few hours a day, the mine was good and plenty.

After Us. Arizona will not be very far behind New Mexico in taking her place among the sisterhood of states. The official election returns of New Mexico have been sent to President Taft and it is expected he will issue the stretched proclamation at once. It is thought the official canvass of Arizona's vote will be finished today and the returns on the way to Washington on Monday. The counting week. Arizona should be ready for the first of February.—Williams News.

A Native Fake. If Russia continues her present attitude, the population of "New" which she now has, will have to be changed to "Old"—Columbian Courier.

Insolvent. "Edo within," said the printer at his race to health the Sunday morning edition, then started for a drink, the spiritless. As he passed one of the two ladies present leaned towards their lady companion and whispered: "I know that man would have to confess."—Gallup Independent.

Yes. Colonel Brewster's conversation these days tends to consist mainly of declarations that he will not say anything.—Crescent Clipper.

Frozes With Horror. The "oldest inhabitant" was a little jaded last Saturday morning when he arose and found the thermometer at below zero.—Williams News.

Box Car Robbers. T. C. Leary, special agent for the Santa Fe, was at Wagon Mound last week in the interest of the road. Several boxes of bolts, struts and nuts were stolen and he went up to get a stop to it. The result of his trip was the arrest of two men and the recovery of the bolts and nuts. The men were allowed to go to work.

Another Enterprise for Gallup. Plans are under way for the erecting of a large planing and general wood working plant, to be established at Gallup in the immediate future.

Guay Testers and Theo Hanakle will be the proprietors, according to the Gallup Independent, which says that of these men are first-class mechanics and should do a thriving business in this line. The building will be a two-story structure located on Coal avenue, between Second and Third streets. A business establishment of this nature has been wished for by many in the past years, and there is no doubt but that it will do a thriving business. This plant will turn out all kinds of wood work in the line of doors, frames, sashes and every other line of material that such a plant generally deals in.

We'll Have Peace On Earth--Perhaps. Wu wants a republic and Yuan a monarchy for China. Whichever way the coin turns suits us.—Richmond Virginian.

Every time a bunch of soldiers in Portugal start celebrating too boisterously it is designated a monarchist uprising.—Butte Miner.

President Yuan peremptorily declined to accept a republic for China. Yuan is probably one of those last ditch stand-patters.—Rochester Herald.

If the Chinese revolutionists succeed in making Dr. Sun president, he ought to establish a reputation for himself as a shining political light.—Birmingham Ledger.

Gen. Pese in to preside at the court-martial of Gen. Reyes, which would seem to indicate that Bernardo will get only 37 on the roll's worth of justice.—Columbia State.

It looks like the Mexicans are tired of revolting for a while. Bernardo Reyes, a self-styled general, undertook to start a new one recently, but stopped where it was started.—Danville Register.

What the Editors Are Saying. Can You Guess the Reason? With the issue of December 20th the Baton Rouge suspended publication as a daily after an existence of a year and a half. This is a matter for regret looking at from any point of view. Baton should be able to support a daily paper and it is a matter of surprise that the Baton was not accorded a more hearty support. It is an unfortunate case for New Mexico that the only daily paper in one of the more populous counties and in one of the leading towns in the new state should be compelled to suspend publication on the very eve of its establishment. Brother Cutler has our best wishes for his success and it is to be hoped that before many months he will again see his way clear for a resumption of the daily publication of the Baton.—Townsend News.

Lovely Woman's Privileges. The constitution of Arizona generously permits women to vote at school elections. It is also noticed they are not forbidden to bear children, pay taxes, suffer for drink, run the household and take in washing. Who said anything about sex emancipation?—Phoenix Republican.

Not a Sheep. Former Senator George Turner of Washington was "Clim Apple" at the national apple show recently closed in Spokane. It is irrelevant to remark that George seems to be a good deal of a pippin.—Phoenix Republican.

After Us. Arizona will not be very far behind New Mexico in taking her place among the sisterhood of states. The official election returns of New Mexico have been sent to President Taft and it is expected he will issue the stretched proclamation at once. It is thought the official canvass of Arizona's vote will be finished today and the returns on the way to Washington on Monday. The counting week. Arizona should be ready for the first of February.—Williams News.

A Native Fake. If Russia continues her present attitude, the population of "New" which she now has, will have to be changed to "Old"—Columbian Courier.

Insolvent. "Edo within," said the printer at his race to health the Sunday morning edition, then started for a drink, the spiritless. As he passed one of the two ladies present leaned towards their lady companion and whispered: "I know that man would have to confess."—Gallup Independent.

ALBUQUERQUE NEW MEXICO

THE ELECTION OF SENATORS.

There is little likelihood that the popular election of senators will be made an integral part of the governmental machinery of the United States at the present session of congress or perhaps for some time to come.

One of the most important things which should be done by the first state legislature is the enactment of a law providing for an advisory vote upon United States senators.

Much making the senate has been for some years past a popular position which has undoubtedly gone to extremes.

There is no valid argument against the privilege of the people choosing their own senators. Legislative duties and legislative history and corruption in the senate of states furnish an unanswerable argument for the popular election of these senators.

The advance may plan has been shown to be impractical and satisfactory and no serious objection have been brought forward to the operating of such a law in the states where it is in force.

That Madisonian version reminds us of Louis XVI. He refused and would have perished in the guillotine and we were afraid that the same fate would befall the people of France.

There is no provision without its price. After all the years the country has experienced during the legislative process, containing in some states in the past.

THAT EXHIBIT BUILDING.

The proposition to erect a permanent New Mexico resources exhibit building near the local station is a genuine suggestion and the plan should be as soon as possible pushed.

With the Commercial club, the Immigration Bureau and the Santa Fe agricultural department co-operating, such an exhibit and information building would be of inestimable value not only to this city but to the whole state.

THE ONE HUNDRED AND FIRST.

The El Paso Times says: On January 11, then, the conditions that have prevailed in the territory of New Mexico since the acquisition of that territory by the United States government, will come to a summary close.

With the organization of the new state government in New Mexico will come the organization of the first state legislature, and with that event should the organization of the first state legislature be completed.

JUDICIAL WISDOM.

Indiana has a good pure food law and, more important still, it has efficient and active officers to enforce it. One of the valuable provisions of the Indiana act was designed to protect the public from the sale of impure milk.

TRUE GREATNESS.

Frank Harvey, with an Gilbert Parker, was a greater man than is usually credited. He was a man of high character and high ability.

THE MAINE'S FIGHTING TOP.

A dispatch from Pittsburgh says that it is expected there that the fighting top of the battleship Maine, transferred from Havana harbor, will be given to that city for erection over the grave of Lieut. Jenkins, who was lost with the ship.

SIGNS OF THE TIMES.

According to correspondents of the Morning Journal, the present year will see heavier construction of irrigation projects in San Juan county than ever before.

A CORRECTION.

A letter from Hon. J. W. Mullens, member of the house of representatives from Chavez county, calls attention to a typographical error in a recent issue of the Morning Journal.

The Colorado man who killed a striker with a blow of his fist is neglecting his opportunities and throwing away a possible fortune by wasting his blows on the poor bear.

Not Goodwin's announcement that he is going to allow a year to intervene before "trying it again" (the "trying it again" meaning another marriage) suggests the thought that he is waiting an unnecessary amount of time.

By Wiley's definition, of minerals, not less than 15 per cent of cooking comminuted meat, etc., has at least this merit about it, that it will lead the buying housekeeper to look up the dictionary for "comminuted" and so add to her working vocabulary.

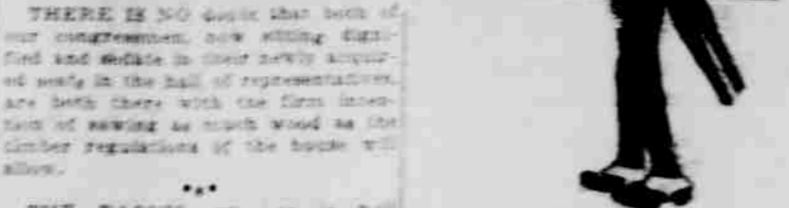

"Ready Reader" writes that as he hasn't any bad habits he wasn't able to make New Year's resolutions and would like to know what one might do in such circumstances.

General Li Yuan Hsing, commander of the Chinese revolutionary troops, has announced to the imperial authorities for the solution of the problem of the "Hankow" A. B. H. note of this sort of thing and the war in China will assume the politeness of a French duel.

STENOGRAPHER AND TYPEWRITER EXAMINATION.

(Male and Female) Field Service, Twelfth Civil Service District, January 25, 1912. The United States Civil Service Commission desires to call attention to the regular quarterly examination for stenographers and typewriters in all branches of the service.

SOLOS BY THE SECOND FIDDLE

THERE IS NO doubt that both of our congressmen, now sitting dignified and staid in their newly acquired seats in the hall of representatives, are both there with the firm intention of seeing to it that the lumber regulations of the house will allow.

THE TAQUER, who, as is well known, bary the hatless permanently every few days, now repudiates their treaty with Mexico and demands a vast area of land, including such towns as El Paso and El Paso.

RUSSIA DEMANDS that China recognize the independence of Mongolia. President Sun Yat-sen will not after you, my dear Bear.

THE BUSINESS men of the Cavalier Commercial club have started out with blood in their eyes to double the membership. Others are doing the same. Albuquerque doesn't want to rest on her laurels one inch.

THE WE HAN closed the pipes and St. Louis takes a water famine. This, however, doesn't bother St. Louis—all they say the water for is to squirt on fires and fill the brewery boilers.

BRYAN HAS BEEN again repudiated. This, however, is only a part of the regular order of business. If we remember rightly, control of the Democratic party has been wrested from Bryan about once a year for ten years.

PROFESSOR Frank Fisher declares that the high cost of living is caused by malaria, hookworm and alcohol. The professor certainly has hit upon a combination which ought to produce results in any one case.

THE "LAUGHTER" and applause editor of the Congressional Record is probably due for a case of nervous breakdown this week, unless he is given two or three assistants.

THE BURNING calendar is about twelve days slower than ours, but they are about two months ahead of any other power when it comes to the grabbing of territory.

AFTER A LENGTHY intermission we are now pleased to listen to a few brief remarks from Chas. H. Day and Richmond Pearson Hobson.

ARIZONA AND New Mexico are displaying exemplary modesty as new states in not coming to the front with favorite sons for the presidency.

RUSSIA is not on speaking terms with us, says an exchange. Probably things will remain thus until Republics become more fully developed.

IT WOULD HAVE been so much more fortunate for Mme. Curie had she devoted her studies exclusively to chemical affinities.

MR. J. PIERPONT MOHRAN at present volunteers his opinions only at the board meetings.

ATWOOD'S announcement that he will make a flight across the ocean shows that this cold plunge had to be carried to extremes.

WHILE TALKING for publication about airplanes, it is quite likely that Postmaster General Hitchcock will have a weather eye on the steam robot.

BE YOUR OWN MASTER

Don't Let The Liquor Habit Control You

After you have once acquired the drink habit, you should not be concerned because you cannot stop, without medical assistance, any more than if you had contracted a contagious disease.

Neal Institute

542 N. 2ND STREET ALBUQUERQUE, NEW MEXICO

Neal and his associates are as follows: Neal, M. W. Wainwright, P. M. Brill and C. E. Wainwright.

To operate and conduct a general placer mining business, to search for, prospect and explore for ore and minerals, and to locate, mine, develop and operate placer mines, claims or lodes in the United States of America.

FINANCE AND COMMERCE

The Journal Want Columns

IF YOU HAVE A WANT TELL IT THROUGH THE JOURNAL

Wall Street.

New York, Jan. 9.—Short, sharp bear raids depressed stocks today. At the opening and again just before the close, the market was attacked savagely. Both times prices gave way quickly and on the slump in the afternoon Union Pacific sank more than four points below yesterday's close.

The fire which burned all day long in the Equitable building, a hundred feet away from the stock exchange, was a substantial assistance to the bears.

Traders whose securities were in safe deposit vaults which were inaccessible on account of the fire, saw no way of making deliveries of stocks, which added to the confusion.

After the stock exchange governors ruled that deliveries need not be made today, the tone of the market became unsettled.

The continued weakness of Union Pacific was an unsettling factor.

The copper shares made no response to the December figures of the copper producers, although a decline in stocks of the metal on hand of 22,000,000 pounds, was revealed.

The effect of the report which was in line with expectations, appeared to have been discounted and the copper shares went off with the rest of the market at the close. Closing stocks:

Table listing various stocks and their prices, including American Agricultural, American Best Sugar, American Cotton, etc.

Boston Mining Stocks.

Table listing Boston Mining Stocks such as Allouez, Amalgamated Copper, Am. Zinc Lead & Sm., etc.

Boston Wool Market.

Boston, Jan. 9.—There has been a slight falling off in the trading in wool, although the values hold firm and some lines are becoming scarce.

The Metal Markets.

New York, Jan. 9.—Copper, standard, quiet; spot, \$14.05@14.25; January, \$14.07 1/2@14.25; February and March, \$14.10@14.25; April and May, \$14.10@14.30.

**M. B. KENDIS GOES EAST TO FINANCE UNIQUE INVENTION**  
M. B. Kendis, proprietor of the Crown Furniture company, left last night for Washington and New York where he goes to interest promoters in the financing of a unique machine for street advertising, which he terms an "advertisogram."  
Mr. Kendis has been at work on his invention for some time. It is a machine which bids fair to revolutionize the existing form of street advertising. It is an electrical apparatus which can flash a sign of large dimensions across, up or down the street. It works as does a searchlight in flashing the sign.  
Recently Mr. Kendis corresponded with an eastern concern which makes a business of promoting unique devices and he received so much encouragement from them that he decided to make a trip east and personally demonstrate his machine, which has been patented.  
Should his trip result in the financing of a proposition to manufacture and place the advertisement on the market it would undoubtedly mean a large industrial plant for Albuquerque and the making of a fortune for Mr. Kendis.

**ROSE COTTAGE WILL BE NUCLEUS OF SANITARIUM**  
Methodists Purchase Old Landmark On Mesa North of Reservoir Where Tubercular Institution Will Be Founded.  
The Harwood Methodist Hospital association yesterday purchased the old Solon E. Rose place on the mesa just north of the city water reservoir, consisting of a cottage and seven acres of land, as the site of the proposed tubercular sanitarium to be operated by the association under the direction of the Woman's Home Missionary society of the Methodist Episcopal church. It is understood that the society will be ready to receive patients in the very near future, possibly a few weeks, and the plan is to establish ultimately a large institution for the treatment of sufferers from the white plague.  
The Rose place is an old landmark, the house having been built many years ago by Mr. Rose, one of the pioneer merchants of Albuquerque. The site is a splendid one and the hospital association could not have secured a more advantageous location.  
The beginning of this work at the present time was made possible by the gift of Dr. Thomas Harwood of a piece of property north of the city which it was at first planned to use for hospital purposes, but later those having charge of the work decided that on account of the close proximity of this property to the Harwood boys school a change of location would be advisable. The Rose cottage east of the university was then favorably considered on account of the short distance from the city, the nearness of the city water supply, the beautiful view of the Jemez and the sandia and the Manzano mountain ranges which can all be plainly seen from this site, and the prospect of a street car line going to that vicinity in the near future. It was unanimously chosen by the hospital board.  
The cottage on the grounds will be thoroughly renovated and some tent houses or patients will be erected.  
A nurse from an eastern Methodist institution will be here to take charge when needed.

**NEW OWNER SOUGHT FOR LINCOLN BASEBALL TEAM**  
Lincoln, Neb., Jan. 9.—No definite action was taken at a special meeting of the Commercial club today looking to the financing of the Lincoln baseball club. The committee at six said it had nothing definite to report, but it was said negotiations were going on looking to a possible transfer of the franchise to a stock company headed by George F. Truman, who is the principal claimant against the present owners.  
In the district court the receivership suit brought by Truman was postponed until Friday.  
Beautiful hand painted calendar with each case of soda or coyote as long as they last. Get your order in early. Alvarado Bottling Co.  
We Sincerely Trust So.  
New Mexico will have statehood now within the next few days, as the proclamation of President Taft is expected to be issued now any day. An<sup>o</sup> of New Mexico means representative government under democratic administration. It is confidently expected that the new state will at once begin an era of great happiness and prosperity.—El Paso Times.

**HOW PROHIBITION HURTS KANSAS.**  
"Ninety-six counties of the 105 in Kansas have not inebriated. Thirty-nine counties did not send a prisoner to jail last year. There are only four men for every 1,000 of the population of Kansas in jail. There were 912 prisoners in the penitentiary last year out of 17 per cent of this number were Kansas born. Fifty-seven counties in Kansas have no use for poor-houses and last year did not send a person to them. Eighty-four counties last year did not report a case of insanity. The death rate in Kansas is less than in any other section in the world, seven per 1,000 of the inhabitants."—Speech of Gov. Stubbs, Kans.—Adv't.
