MINOR 'OUTLAW' LEAGUES WILL BE ORGANIZED TO PROVIDE 'FARMS', PRESIDENT GILMORE DECLARES

CHICAGO, March 14.—Baseball players who deserted the ranks of organized ball to join the Federals will be taken care of, even if they fall to win terms with the Federal teams. This was announced today by President Gilmore, who returned from a visit to the training camp of the Chicago Federals at Shreveport, La. He confirmed the report that two minor league leagues will be formed next year to provide Federal "farms."

"What will become of the players not strong enough to get regular jobs on your teams?" he was asked. "Every man who quit organized ball, from major or minor leagues, will be taken care of," Gilmore said. "Of course, there are a lot of youngsters who never played in organized ball whose training experience with us will not hurt them. There will be free to get places elsewhere."

MAJOR LEAGUES MUST PAY FOR RELEASES OF MINORS' UMPIRES

CHICAGO, March 14.—Holding that the reservation of umpires by minor league teams is not effective as regards the major leagues, the National baseball commission today recommended that umpires George H. Johnson and A. J. Cleary of the New York State league be permitted to advance to a higher league for a consideration for their releases, to be made by the president of the New York State league and the president of the league desiring their services. In case these parties cannot agree, the chairman of the commission agrees to act as arbitrator.

The two umpires named contended that as a result of the reservation by the New York State league for 1914 they were unable to accept offers from leagues of a higher classification at higher salaries.

CLEVELAND GETS FRANCHISE HELD BY TOLEDO CLUB

CHICAGO, March 14.—The transfer of the Toledo club to Cleveland was approved and a playing schedule of 145 games for 1914 was adopted in a special meeting of the American association of baseball clubs. It was decided that whenever a club at Cleveland interferes with an American league game, the game should be transferred to the city of the visiting team.

The season will open on April 11, with St. Paul at Milwaukee, Cleveland at Indianapolis, Minneapolis at Kansas City and Columbus at Louisville. The season closes September 27.

SACRAMENTO, Calif., March 14.—Sacramento are planning a 100-mile endurance contest for July 4 and 5. The run will be from Sacramento to Lake Tahoe and return, by way of Reno, Nev. The Sacramento club has offered an award to the first rider who makes the round trip to Lake Tahoe this season. Owing to the heavy snowfall the trip will probably not be accomplished before the first of June.

ENOUGH STARS. Throughout the season Daubert plays as steadily as a clock; The pitchers, Jackson daily, when they try to make him walk; King Jerry grabs them on the head; At second all the field; Nap Tucker, when he's on the mound; This letter's hearts with fear; Big Ed Knottley goes about; His task and hits the ball; The mighty Johnson strikes them out; From springtime till the fall; These stars are on the field each day; And give the best they've got; The season ends—they go away; To some secluded spot; For them no pennants are forfeited; Since Fate has done her worst; For them no series of the world; Their teams never finish first. —By C. T. Barry.

FIVE COLTS HOLD FIRST FIVE PLACES IN STANDING

A compilation of the standing to last night of all players of the hand-picked league, shows that five members of Palladino's Colts hold the first five positions with an average of 174.67 better.

The Colts' strong showing in the standing, however, is not indicative that the team will finish first at the close of the season, however. The handicaps have something to do with that.

GEORGE BAUMGARDNER AND GUS WILLIAMS ISSUE STATEMENT

ST. PETERSBURG, Fla., March 14.—George Baumgardner, pitcher, and Gus Williams, outfielder of the St. Louis American league team, replying to claims made by George Stovall, manager of the Kansas City Federal league club, issued a statement here tonight, saying they had not signed contracts with the Federals but had signed an agreement to sign a regular contract. They did not consider this legally binding, they said.

HAPPYS WILL PLAY BROWNS-APPRENTICE COMBINATION TODAY

The Happy's this afternoon will play a special team, made up of the Old Albuququerque Browns and the Santa Fe apprentices. The Browns were defeated last Sunday by the Haps, so they strengthened their lineup by the addition of the apprentices, who last season had one of the strongest local teams. Hartline and Chaves will form the pitched team's battery. Manager Tom Nayton had not chosen the Happy's lineup until last night.

Eddie Plank Is Crowding Walsh for Shutout Record

Ed Walsh, once called Coney's main of steel, will have to come back strong this year if he desires to retain his title of monarch of the American league's whitewash brigade. Another Eddie—Plank, of Philadelphia—is pressing the Sox sputter closely for the honor of having oftentimes used the whitewash brush on weak hitting opponents. The big right-hander now having fifty-six tabulating jobs to his credit, and the left-hander, fifty-five.

It would be well for Edward Armstrong also to keep an eye on Walter Johnson, for the Chalmers star winner is nearing the registration of his fifth shutout. Sir Walter wielded the brush twelve times during 1913, encompassing all his opponents, except Cleveland. Walsh had a dozen shutouts to his credit in 1908, the year he almost pitched the Sox to a third pennant, but John Wesley Coombs beat his mark, in 1910, when he distributed thirteen sets of ciphers.

The other leaders in shutouts in the American league from 1901 on were: Eddie Jones, of Cleveland, in 1901, with five; Cy Young, of Boston, in 1902, with seven; Cy Young, of Boston, 1904, with ten; Ed Killian, of Detroit, in 1905, with ten; Ed Walsh, of Chicago, in 1906, with ten; Eddie Plank, of Philadelphia, in 1907, with eight; Walter Johnson, of Washington, and Eddie Plank, of Philadelphia, in 1911, with six; Joe Wood, of Boston, in 1911, with ten. Walsh and Plank are the only American leaguers who have passed the half century post in whitewashes. Babe Waddell had forty-seven strikeouts to his credit when he was sent to the minors, and Harry White, who goes to the coast this year to manage Venice, retires from Ben Johnson's organization with a record of striking his opponents nine in forty-five contests. That also is Walter Johnson's record. Eddie Jones pitched forty-four shutouts for the Naps ere he passed over to the great majority, and Cy Young used the brush forty-three times before he retired to the National league, George

SPEAKING OF PITCHERS.

It is an ancient manager, who says to a pitcher, "The temperature gets high." And when the sun comes burning down, His pitchers all get out, And batsmen catch to the plate, And slay a ball about. The manager converses thus: "It is the heat has caught 'em. They've on the blink in summer-time. But watch 'em in the autumn." —George E. Phair.

Baseball Results in Training Camps

SAN FRANCISCO, March 14.—The Chicago Americans No. 1 defeated today the San Francisco Coast League team, 5 to 3. Ten innings were required to break up a 3-to-3 tie. Two home runs were made, in the fourth inning. Chicago's right fielder, drove his ball into the left field bleachers, scoring himself and Chase Schaller, left fielder for the Seals, knocked the ball over the fence, scoring himself and G. Leary.

U. S. DELEGATES TO THE OLYMPIC CONGRESS NAMED

NEW YORK, March 14.—The following United States Olympic committee delegates to the Olympic congress to be held in Paris in June have been appointed by Col. R. M. Thompson, president of the American committee: James R. Sullivan, New York; Alfred J. Lill, Jr., Boston; Justice Barlow S. Weeks, New York; Everett C. Brown, Chicago; Joseph B. McCabe, Boston; Dr. Gream M. Hammond, New York (treasurer); Dr. G. Randolph Manning, New York (secretary); Lieutenant Commander Harris Loring Princeton, (shooting); Colonel Robert M. Thompson, Washington, and two alternates to be appointed later.

The congress of 1914 has been convened by the International Olympic committee in response to the feeling expressed in most countries that the Olympic games of the future should be governed by a uniform code of regulations and a permanent program. Among the questions to be submitted to the congress, the decision of which will be final are the following: Should women be permitted to take part in the Olympic games; minimum age of competitors; questions of nationality and naturalization; should a competitor who has represented a nation in one Olympic be permitted to represent another nation in a later Olympiad; number of entries in each event; manner of counting points; table of results; if being established that an Olympic should include the following sports: Athletics, gymnastics, combative sports, water sports, equestrian sports, pentathlon—what are the indispensable items in each sport program?

SWIMMING QUARTET MAKES RECORD. Andover, Mass., March 14.—A world's indoor intercollegiate record for a 200-yard swim by a four-man relay was claimed tonight for the Phillips-Andover academy quartet. The Andover boys were credited with a performance of 1 minute, 45 seconds during a meet with Worcester academy today.

Johnson and Ford Lead in Allowing Four-base Hits

It possibly will surprise fans to learn that Russell Ford, who has gone over to the Federals, was in Walter Johnson's class in this respect last season, that respect being his permitting of home runs. The Yankee hurler allowed nine four-bag blows to be struck by his adversaries, and so did the man whom the Chalmers July of newspaper experts picked as the player most valuable to his team. Ford and Johnson were nicked for more circuit clouts than any other American league gunners.

Next to Johnson and Ford, Tom Hughes of the Nationals, allowed the greatest number of smashes for the full distance. He was fouled for eight drives of this character. Bobby Groom of Washington, had seven homers made off his delivery, and these men had six, Baumgardner and Mitchell of St. Louis, Blanning of Cleveland and Brown of Philadelphia. Five four-baggers were scored off Caldwell of New York, and Bush of Philadelphia, and four off Schute of New York, Pennock of Philadelphia, and Dams of Detroit. The veteran Eddie Plank, one of the heroes of the world's series of 1913, was nicked for three four-baggers and so were Joe Boshing of Washington, Earl Hamilton and Walter Laverenz of St. Louis, Willie Mitchell of Cleveland, and Ray Collins of Boston, who are among the American league's cleverest southpaws.

"Chief" Bender had only one home run made off his curves last season, and that four-bagger, manufactured by "Pink" Boie of the White Sox, added a deficit to the Indians' record. Other batters who allowed only one four-bagger were Wellman of St. Louis, Stein of Cleveland, Dulian of Detroit, Walsh of Chicago and the Red Sox, who even stranger than all these men previously named, for he refused to allow anyone to get a homer off his puzzling delivery.

OF THE 132 four-baggers made in the American league in 1913, 25 were obtained off Washington's pitchers; 21 off New York; 25 off Philadelphia; 29 off St. Louis; 19 off Cleveland; 13 off Detroit; 10 off Chicago, and 4 off Boston's.

Baseball Briefs

Edward H. Metzried, who wrote for the Buffalo Equivocal under the name of "Hotspur" and was one of the best known scribblers on the International league circuit, died unexpectedly in Buffalo on March 5, following an operation for a throat infection. He had been at his desk the day before at work. The argument between Arthur Lewin and Wilbur Robinson became so heated as to the outcome of the spring series between the New York Americans and the Brazilian Nationals that they have agreed to split the gate receipts on a basis of 50 per cent to the winner and 40 per cent to the loser. Jack Foutner is already beginning to make the rounds of positions on the Chicago White Sox. When Red Kuhn was hurt by a recent practice game Foutner went from first to back of the plate and let it be known that he was ready to pitch a few innings in case any lame areas developed among the regulars, while Vincent Campbell, who made his last previous appearance with Pittsburgh and then retired because he had too much money to play ball, has promised the Indianapolis Federal league club to do a come back for it, the consideration being more money than he imagined a ball player could ever draw for his services. In the absence of any recent news from Charley Carr's baseball college, it is presumed that the boys are "training" up for final examinations preparatory to graduating to the Athletics or Glans within a few weeks. Laporte Joins Federals. Indianapolis, Ind., March 14.—Frank Laporte, infielder and utility man with the Washington American league team, last season, has signed an Indianapolis Federal league contract. New Gallery Record Made. Washington, March 14.—Cleveland inter-club gallery shooting this week, scoring 995 out of a possible 1,000.

SAVINGS SERMONETTE. A learned judge in sentencing an old man, a college graduate, said: "Many of the sorrows which overtake people in their old age are due to the fact that in their younger and more prosperous days they failed to create the habit of systematic saving. If I had the judicial power I should compel every man, woman and child to keep a savings account with some good bank and make a monthly addition to it, even if the deposit were only a few dimes. Saving paves the way to a peaceful old age." If you are on the shady side of life, are you living in retirement and comfort, or are you struggling under a burden growing more difficult with each succeeding year? Remember, there is no friend like money, when we are old and helpless. An ample savings account will afford the protection needed.

RAY CHAPMAN WILL BE OUT OF GAME FOR ENTIRE 1914 SEASON. CUB SYNDICATE WILL INTERVIEW GOVERNOR TENER.

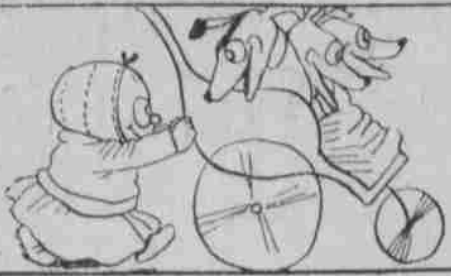

CHICAGO, March 14.—Shirley Ray Chapman of the Cleveland American league came here today from the training camp at Athens, Ga., and an X-ray examination of his injured leg was made at once. The photograph shows that both the tibia and fibula were broken just above the ankle. It will be five weeks before the injured player can walk and two months before he can get around easily.

CHICAGO, March 14.—Representatives of the syndicate which is negotiating for the purchase of the Chicago National League club left tonight for Harrisburg, Pa., for a conference with President Tener of the National league. Before the syndicate in over the stock of the Cubs may be in new hands. The men who will meet Governor Tener are John T. Canney, Frederick W. Block, M. J. Epting and P. D. Mayer, Conroy and Spang, who were at the head of the syndicate, agreed earlier in the week to combine and work harmoniously in the job's chase. Conroy said the price "left over" for the club is still higher than that which they will pay. Gerry Herrmann, chairman of the national commission, who was here a few days ago, said Ted had placed the negotiations in the hands of Tener who will endeavor to reach an agreement on the price. It has been reported that other club owners in the National league covet that the new ownership of the Cubs is necessary, "which makes" in the difference in price.

A ZEBRA and a burro were caught by the United States government of officials and the result was a prize. Then the strange new beasts were given into the keeping of the Sells-Floto circus and Buffalo Bill (shown) for exhibition. The illustration shows the head of one of the animals, detailing the picture of the zebra and the burro. Five of the animals, which have been trained even to do high school tricks, are to be shown with the circus when it reaches here March 25.

PROCLAMATION NAMES MARCH 27 AS ARBOR DAY

Governor McDonald Friday issued his proclamation naming March 27 as Arbor Day for New Mexico. More than usual interest attaches to the event this year, because it has been set aside for a vote by the school children of the state to express their preference as to what they will name as the state flower.

The governor's proclamation, which was received in Albuquerque yesterday, is as follows: In response to a universal call for the conservation of natural resources, in harmony with the movement to have agriculture taught in every school in the state, and with the desire of arousing in the youth of the land an intelligent appreciation of the dependence of all upon nature, it is important that our state have the opportunity of fittingly observing Arbor Day.

"Now, therefore, I, William C. McDonald, governor of the state of New Mexico, by virtue of the authority of law and in accord with the spirit of the times do hereby designate and proclaim Friday, March 27, as Arbor Day, to be formally recognized in all the schools of the state, and I urge that on this day, teachers, pupils and patrons unite in such appropriate tasks and exercises as will leave a permanent desire in the mind of each one to become an active agent in the conservation of all useful things, so that the spirit of the day may create a healthy influence in the lives of our boys and girls, leading them to devote not one or two special days in the year to the study of trees, birds, flowers, school gardens, good roads and nature study, but parts of every day, to the conserving, enriching of plant and animal life.

"Given under my hand and the great seal of the state of New Mexico at the capital in the city of Santa Fe, this 15th day of March, A. D. 1914.

WILLIAM C. McDONALD, Governor. "By the governor—ANTONIO LUCERO, Secretary of State."

OSBORNE PLEADS NOT GUILTY TO CHARGE OF ISSUING BOGUS DRAFT

J. M. Osborne, representative of a motor fire insurance company, yesterday morning before Justice George H. Craig, pleaded not guilty to the charge of issuing a worthless draft. The justice set his hearing for tomorrow morning. Tom Mitchell, proprietor of the Hotel Capito, is complained against Osborne. He charges the youth with giving him a draft for \$75, which he was unable to cash.

MR. P. NAUSCHUETZ Parana the Best Remedy I Ever Found for Coughs and Colds.

Mr. P. Nauschuetz, No. 221 Sharer St., San Antonio, Tex., writes: "About a year ago I was troubled with catarrh and could hardly find help until I took Parana, which soon brought me relief.

"Parana is the best remedy for colds I ever found. I recommend it to any one suffering with catarrh. The best thing to accomplish in the treatment of a cold is to eliminate the accumulated poisons in the system. The excretory ducts and glands should be stimulated. This the beautiful element of Parana will accomplish. The next thing is to raise the tone of the nerve centers, and assist the powers of Nature to resist the effects of the cold. The tonic element in Parana is intended to meet this demand. It gives the necessary temporary strength to throw off the depression that the cold brings.

A tonic laxative is a quick and efficient weapon to meet a cold in all its phases.

BURTON'S "ANATOMY OF MELANCHOLY." (St. William Oiler, in Yale Review.) No book of any language presents such a state of moving pictures—kines and queens in their greatness and in their despair; generals and conquerors with their ambitions and their activities; the princes of the church in their pride and in their shame; philosophers of all ages, now rejoicing in the power of intellect, and again groveling before the idols of the tribe; the heroes of the race who have fought the battle of the oppressed in all lands; criminals, small and great, from the petty thief to Nero with his unspeakable atrocities; the great navigators and explorers with whom Burton traveled so much in map and card, and whose stories were his delight; the martyrs with the virgins of all religions; the deluded and fanatics of all theologies; the possessed of devils and the possessed of God; the beautiful, frail and faithful, the Lucretias and the Helens, all are there. The lovers, old and young; the fools who were really fools; the madman of all history, to anatomize whom is the special object of the book; the world itself, against whom he brings a railing accusation—the motley procession of humanity sweeps before us on his stage, a fantastic but fascinating medley at which he does not know whether to weep or to laugh.

THE POTTER AND THE WHEEL. (Philadelphia Public Ledger.) It is one of the consolations of life that there is a second way of men. Failure does not always spell defeat. Out of defeats have come great victories. A prophet of the older time visited a potter, where he watched the potter shape the clay upon the wheel. Having completed the design he detected a flaw which marred the beauty of the vessel. Straightway he broke it, and replaced it, and made it another vessel. In this simple scene the prophet found a philosophy of life, based on the conviction that life is the wheel, we are the clay, and God the Potter. In his "In Memoriam" Tenneyson develops this doctrine, not less than Browning in all his verse. Says our own Lowell:

Right forever on the scaffold, Wrong forever on the throne. But that scaffold sways the future. And behind the dim unknown Standeth God within the shadow, Keeping watch above his own. It is the philosophy of Job. It is the doctrine of life by which most people live by and rest upon. Deism holds that the creator made the world and withdrew. Pantheism declares that "all is God, and God is all." Atheism denies and theism accepts God. Modern faith substitutes the supreme, intelligent Being for the potter. In this belief is the average man's philosophy of suffering.

Without defending or denying the personality of the divine Potter, who manipulated the two discs connected with a pivot, one one regulated by the feet, the other used to shape the plastic clay, let us think of the second use of men and things. History is the story of the success of empires, kings and nations. There is a divine optimism in the heart of history. Wars, tumults, chastisements, national crises and disasters can only be explained by a belief that "all things work together for good," but that they work according to law. Every nation on earth has been or will be remade. Read again your French Revolution, or the history of Europe, or China, or Mexico, and if you require an illustration nearer home, study the history of the United States. Herein is the only possible moral justification of war whose cannon balls remove the depot, whose fires burn out the dream.

As the nation is broken on the wheel and remade for its own good, so is the individual. The end of trouble is power. Suffering is strength. Sorrow is bread. Some men must strike the bottom of hell before they rise to the heights of heaven. John B. Gough, temperance orator, was picked up out of a New England gutter, broken like a vessel of clay, and he became the world's greatest temperance orator. Moore was a clerk in a Chicago shoe store, Billy Sunday a good baseball player, Gipsy Smith a member of a traveling band of zippers—they were all remade.

As there is a second use of ore and wheat and grapes and flowers and trees—so there is a second opportunity for men. Many a man started life with the determination to do a certain work. He has done a wholly different service. He had a flaw in the white marble of his manhood, and the chisel of trouble has chipped it away.

Mrs. Humphry Ward Opposes Suffrage (BY MORNING JOURNAL SPECIAL LEADER WIRE) Paris, March 14.—Mrs. Humphry Ward has written M. Albania Is Hard Nut for Prince of Wied (BY MORNING JOURNAL SPECIAL LEADER WIRE) Berlin, March 14.—Observers of Balkan politics see stormy days ahead for the prince of Wied, that former major of a German infantry regiment, who has been called to rule the Albanians. But thirty-eight years of age, his life heretofore has not touched upon affairs of state nor broadened beyond the daily routine of an army officer and the social privileges that attach themselves to members of the petty royalty of the lesser European principalities. He was no overlord of the house of Wied, but the second son.

He does not even know whether he is a real "royalty" in his new position, it is true the Albanian delegation that preferred him the throne of that torn and troubled country addressed him as "majesty" and "king," but the powers agreed only to recognize him as "Prince of Albania." Certainly he will find rude reality and personal danger in his new sovereignty.

Captain Von Zabovitz, who fought for the freedom of Albania against Montenegro thirty-four years ago and who knows the country and its people thoroughly, declares that the prince will face the problem of reconciling and uniting under one banner mortal enemies, Christians and Mohammedans, the Occident and the Orient; will have to spread civilization and order in a country where an alphabet for the mother tongue was introduced only three or four years ago and where there is still no grammar. The hinterland, after 100 years of Turkish rule is a wild waste.

The influence of the Albanian, says von Zabovitz, is another factor. For centuries he has done as little as he could because he knew that, soon or late, whatever he had accumulated or made would be taken away from him. He lets half his land be unutilized. Where he does cultivate, his plow goes only a couple inches deep. Furthermore, declares the captain, the London conference in a stepmotherly way included in the new order in a country where an alphabet for the mother tongue was introduced only three or four years ago and where there is still no grammar. The hinterland, after 100 years of Turkish rule is a wild waste.

So far from expecting to pay taxes, the average Albanian expects to receive money and cattle from the ruler. Von Zabovitz details conversations with different natives. All look forward gladly to the coming of the prince, who is to support the army, in which all men will be soldiers. He will also support all soldiers' parents, wives and children. The Albanians expect also that the ruler will give them 10,000 sheep, which they can slaughter as they please, being obliged only to return the pelts to the prince. This is to send their money to them, so that they will not have to go to Durazzo to get it. The prince will be confronted also with the problem of making order justice take the place of the vendetta, which is in full bloom.

CONCENTRATED NONSENSE, SAYS REPEAL LEADER

Representative Adamson Points Out Absurdity of Charge Made by Opponents of Tolls for American Ships.

Washington, March 14.—Statements that government vessels would be compelled to pay tolls if the repeal bill, repealing the exemption clause of the Panama canal act, were passed, were characterized today as "most serious perversion of the truth and the most foolishly fully expected since facts were discovered," by Representative Adamson, chairman of the House interstate commerce committee.

"Such vessels are not mentioned in the canal act, nor in the treaty and ought not to be," the statement continues. "They are owned by the same owner who owns the canal and passes its vessels by right of exemption, according to treaty, involving both vessels and canal. It could be said to nobody but itself, which would be concentrated nonsense."

AMERICANS HOLD THEIR OWN WELL AT OLD OXFORD

Oxford, March 14.—The annual report of the Rhodes trust shows that the American scholars during 1913 had a better scholarship record than in any year since the system was started.

The whole number of Rhodes scholars in residence during the year was 415. Only three Rhodes scholars are working merely for a degree. Most of them are out for honors, and on the whole they seem to be standing the test of Oxford standards well except in classics. Only one "first" was obtained in classics and this was by an American from the Pacific coast. In the other departments the scholars held their own. In jurisprudence they gained five firsts out of seven awarded.

The question of what became of the Rhodes scholars after their many years of study, is answered in the report. More than one-fourth of the 421 Rhodes men who have been graduated from Oxford since the system was started have kept on with education as their life work. About 100 have turned to law; nearly fifty have gone into the civil service of the British empire, the United States or Germany; twenty-five went into business; eighteen went into teaching; eighteen have turned to the church; and a small group is divided among journalism, agriculture and science.

GREAT LOSS OF LIFE IN RUSSIA BY TIDAL WAVE

Yokohama, Japan, March 14.—More than one thousand persons perished today in the inundation of the towns of Shimizu and Aoyama by a tidal wave, from the sea of Aso. The waves struck the towns during a violent hurricane which swept the province of Kanto.

More than one hundred and fifty persons were drowned in floods in Yokohama. A great collapse in the town of Tomiyama situated on the Tama river, inundated, about eight miles northwest of this city, flooding the greater part of the city and drowning many persons.

The sea washed away 250 buildings in Aoyama. Tomiyama is a historic town with a population of 15,000. It was the seat of the Turkish fortress Asozaka.

The towns of Shimizu, Aoyama, and Yamanaka do not appear on any available maps, and probably are small places bordering on the sea of Aso.

HUNGRY WOLVES IN ENVIRONS OF BELGRADE

Belgrade, March 14.—Packs of hungry wolves, driven out of the forests by the intense cold and loss of their usual food supply, have appeared in the environs of Belgrade. The animals have become a great menace even in the most thickly populated regions. A Hungarian manufacturer while driving recently from his factory near Terna, to his home, was pursued by a pack of five. The fierceness of his horse saved him from a horrible death. The beasts were evidently famished and when they caught the sleigh, they set out in pursuit with blood-thirsty howls, which so frightened the horse that his driver did not need to urge him forward.

VILLA READY TO MOVE AGAINST CITY OF TORREON

General Felipe Angeles, Expert Artillerist and Carranza's Secretary of War, May Take Part in Campaign.

El Paso, Tex., March 14.—Copied with the greatest haste today by General Felipe Angeles secretary of war in the Carranza cabinet, were persistent rumors that General Villa would leave Chihuahua next Monday night for the south and that the attack on Torreon might be expected to begin soon after.

Ankles is one of the most expert artillerists in Mexico and was especially requested by General Villa to forsake his political and administrative duties long enough to command the big gun arm of the service in the impending attack on the big federal stronghold at Torreon.

That General Villa purposes an early move received additional credence here when it became known that George C. Grothers, special agent for the state department, expected to leave for Chihuahua in a day or two. Carranza is an old friend of the rebel general's, and his particular, though unofficial, duty is to look to the interests of foreigners during the campaign in those places where there is no regular contact.

There are many stories afloat as to General Villa's strategic and tactical plans, but none of these have the official sanction of the commander. Those familiar with his methods say that he will not begin the actual attack until every last detail of preparation from the ammunition trains to the water supply, has been inspected personally and will be thoroughly surveyed the positions of his troops and the ground over which they must fight.

HUNGER PINCHES THOUSANDS OF DESTITUTE JAPS

Tokyo, March 14.—The famine district of Hokkaido, in the north of Japan, covers more than a million acres which are devoted to rice culture and general farming. The loss now amounted to about \$16,000,000, and 48,000 persons are in need of help, according to an official report. "I continue."

"For the past three years the farmers have had more crops and the harvests have been in a stable condition. "My wife, suffering in stress, the lack of rice, beans and buckwheat had wandered and made into graves. Mothers living on such food have been unable to feed their babies and have made a milk substitute out of the husk of rice which they beat into a powder and mix with boiling water. The young men have left home in search of work, while the aged and the children are left behind to freeze or starve, unless outside relief is brought them."

A sad story of the famine district is told by the Rev. Chikan Takahashi, a missionary. A young in Yokohama district whose wife was dying from starvation and illness, sent a box of potatoes from his landlord.

The wife was grateful for the kindness of her husband, but said: "I do not wish to live any longer if I cannot see my children. I will urge him to return the goods."

The husband, conscience stricken, was pressing back the potatoes which he met the tenderer. He consigned his stock and saved for her sake.

NEWBRO'S HERPICIDE SAVES THE HAIR

And Keeps You Looking Young. Don't look older than you are. It is just as easy to look younger. While lack of hair or thinning hair is not always an indication of age, it is frequently accepted as such.

A person well advanced in years possessing a good head of hair is always spoken of as "well-preserved." Newbro's Herpicide can retain beautiful, youthful hair if they make the effort. In almost every instance poor hair or the loss of hair may be traced to the activity of the glandular system. Newbro's Herpicide prevents the scale-like accumulation and puts the scalp in a perfectly healthy condition. With the elimination of the standard the hair no longer drops out. The following of the scalp alone almost at once. Newbro's Herpicide is the remedy for which there are many substitutes, preparations claimed to be "just as good." You don't have to accept a substitute. Insist upon having Newbro's Herpicide. It costs \$1.00 a bottle and is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be returned.

SUPERIOR COTTON CAN BE GROWN IN PANAMA COUNTRY

North Carolina Farmer Makes Entirely Successful Experiment With Plant and Seeks Concession.

Panama, March 14.—John H. Harrell, a cotton planter from North Carolina, has just demonstrated to the satisfaction of the Panama government that a long fibre cotton can be grown on Panama soil. Negotiations are pending for a concession of 25,000 acres in which to grow the staple on a large scale. For more than a year Mr. Harrell has been experimenting on a small plot of ground at LaBrea, the Pacific end of the Panama canal.

On his experimental farm he has grown cotton that has fibre from two and a half to four inches long, which is said to be longer than the cotton generally grown in the United States. The agricultural department of the Panama republic declares that the texture also is finer and more elastic than any other cotton.

The cotton here is the result of crossing the native wild cotton with that grown in North and South Carolina. According to a government test made recently the cotton tested 50 per cent lint. Mr. Harrell believes that as a result of hybridization he will be able to produce an ever-bearing variety which will produce one crop in December and another in July, just before the rainy season begins in earnest.

FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" Can't Harm Tender Stomach, Liver, Bowels.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without gripping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "Fruit Laxative." In the north of the food, constipated, sour bile and indigestible food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat mucus, stomach-ache, diarrhoea, indigestion, colic—remember, a good "cathartic" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

Chronic Stomach Trouble Cured. There is nothing more discouraging than a chronic disorder of the stomach. It is not surprising that many suffer for years with such an ailment when a permanent cure is within their reach and may be had for a trifle.

COMMITTEE TO RECOMMEND PLAN FOR A CLEAN-UP

Councilmen Appointed to Devise Method Reach Decision; Will Report to Council Tomorrow Night.

The committee charged with devising a plan for the annual spring clean-up will recommend tomorrow night that the campaign be started April 1 and continue for two weeks. The committee decided upon this after a meeting held last night in the office of John D. Lewis, city attorney, in the First National bank building. Besides the attorney, Councilman E. B. Coen, chairman, and George Thomas are members of the committee.

Teams will be hired by the city to haul rubbish cleaned from yards free, according to the committee's plan. However, the teams will make only one trip through each alley gathering all debris piled outside fences then persons who have not cleaned their yards by that time will be forced to clean them later and to pay for the hauling, according to the committee.

World Kennedy Fights. The committee believes this plan will remedy the cause of the clean-up scheme which last spring caused considerable complaint. Many persons put off cleaning until after the teams had passed through their alleys and then they would pile their trash outside their fences, causing a second trip. This year notices will be given of the section of the city the teams will work every day.

The Barbed wire committee held a meeting yesterday afternoon at the city attorney's office. Councilman Thomas Johnson, chairman, said after the session that the committee had not taken any important action.

FOREST OFFICIALS HOLDING A TIMBER CONFERENCE ON ZUNI

A number of officials of the Albuquerque office of the United States forest service are spending several days on the Zuni national forest to standardize timber sale field work. The conference will take place on the Metcalf company's cutting area. Here the officials will particularly discuss marking and scaling of timber.

To secure a second crop of timber by natural means, it is essential that seed trees be left on a cut-over area. For this reason it is the practice of the forest service to mark every tree which is to be cut. A great deal of judgment must be displayed in marking the correct kind and amount of timber in order that methods of inspection and instruction in marking may be uniform throughout the south-west. This conference has been called. All the timber sale inspectors for Arizona and New Mexico will be present to thrash out this problem thoroughly.

Methods of scaling timber will also be discussed and a number of defective logs will be scaled by each of the inspectors. These scales will then be compared and discussed and as a result a uniform method of scaling will be established.

Immediately after the conference the inspectors will disperse to inspect all the government timber sales in Arizona and New Mexico.

DAN CRAWFORD RANKS AS ONE OF WORLD'S NOTABLE CHARACTERS

Dan Crawford, who comes to Albuquerque Thursday under the auspices of the Women's Missionary union, deserves to be ranked as one of the world's notable characters. In addition are that the capacity of the Lead Avenue Methodist church, where he will deliver a lecture, will be taxed to accommodate those who will be out to hear him.

Crawford's career is not that of the ordinary missionary and his address will not be an ordinary address. The setting of this lecture for an address in Albuquerque comes in the face of a state of enterprise that cannot be too highly commended. Mr. Crawford is on his way to San Francisco, from which port he will sail in May for Africa. There he expects to remain, and, as he expresses it, to "think about" to the end of his days.

No admission will be charged to hear Mr. Crawford lecture. A collection will be taken to aid in the work that he is doing.

SANTA FE TRAINS ARE HELD HERE BY WRECK NEAR DALIES

Passenger trains No. 7 and No. 9 were held here last night on account of a freight wreck near Dalies, twenty-seven miles southwest of here, on the Santa Fe coast line. The Santa Fe expected to send the trains out of here between 2 and 3 o'clock this morning. It was postponed.

The wreck was not serious. An axle of an engine pulling a westbound freight train broke. A wreck train was sent out from Dalies.

DEATHS AND FUNERALS.

Funeral of John Bull. Funeral services for John Bull will be held at 2:30 o'clock this afternoon at Blackmore's chapel. The Rev. S. E. Allison, pastor of the Central Avenue Methodist Church, South, will officiate. Burial will be in Fairview cemetery. J. B. Culeath, of Los Angeles, stepson of Mr. Bull, arrived here yesterday morning to attend the funeral.

BIG EXPENDITURE FOR SHOPS HERE IS AUTHORIZED

Santa Fe Railway Ready to Use \$108,500 for Buildings and Tracks; Amount to Be Increased Soon.

The Santa Fe Magazine for March, which appeared here yesterday, contains the announcement of the authorization by the Santa Fe railway of the expenditure of \$108,500 for the first shops here. This amount is estimated and when the construction is completed the cost will be greater.

In addition to this the railway is expected to authorize the expenditure of \$22,000 for the new storehouse to take the place of the building recently destroyed by fire. This has not yet been authorized, but officials, it is believed, will take action upon this soon.

The \$108,500 already authorized will be apportioned as follows: Car repair shed, \$18,500; rearranging and extending transmission lines, \$4,900; construction of wood machinery and carpenter shops, \$11,000; track changes and additional tracks in connection with shop yards, \$60,000; two lumber sheds for storing material in connection with new wood machinery and carpenter shop, \$8,000; one-lid shop with concrete foundations and depressed pit for a wheel unloading track, building to have brick walls and composition roof, \$2,000.
