TWENTY-EIGHT MR. M'CALL MEET DEATH IN DEPTHS OF MINE FEELING TOO BAD TO TALK

BODIES OF SIX VICTIMS FOUND

Explosion Wrecks Big Colliery.

HUNGARIANS AND NEGROES SMOTHERED IN DEEP LEVELS

Gas Lets Go in West Virginia Diggings and of Thirty-Nine Men Only Eleven Escape Terrible Death.

Charleston, W. Va., Feb. 8.—At least twenty-eight men are supposed to have met death in a terrible mine explosion in the Parrall mine of the Stewart Collieries company, near Oakhill. Thirty-nine men were employed in the mine and only eleven have escaped alive. At midnight six bodies had been recovered near the mouth of the mine and it is certain that all the others in the mine are dead.

Among those known to be in the mine and supposed to be dead are: Mine Boss Miles Pratt and his son, White. Four negroes, David Wells, James Swan, George Jones and William Madison. Robert Featherhill.

DEPARTMENT TO TAKE A HAND. Sale of "Uno" in Indian Territory Will Be Investigated.

Muskogee, I. T., Feb. 8.—The department of justice at Washington has taken a hand in the crusade of the federal authorities to prevent the sale of "Uno" in the western district, and it is not unlikely that a federal investigation will be made in case the sale of this beverage is found to be a violation of the prohibitory laws by the courts in this district.

District Attorney Mellette today received a letter from the attorney general advising him to enforce the law against the sale of "Uno" and other beverages of a doubtful character. This is interpreted to mean that the department is back of the western district officials so long as the decision of the court of this district is not reversed from the federal bench.

London, Feb. 8.—The court of appeals rendered an interesting decision today that newspapers cannot be compelled by the courts to divulge their source of information except under very special circumstances.

Antwerp, Belgium, Feb. 8.—The port is crowded with American grain steamships, which are arriving in record numbers in order to unload their cargoes and dispatch them to Germany before the approaching imposition of higher grain duties there.

CHINESE HATE FAST DEEPENING

Month May See Violent Anti-Foreign Outbreak--Uncle Sam Alarmed.

Washington, Feb. 8.—Reports continue to pour into the department of state from diplomatic and consular agents in China regarding the rapid increase of feeling against Americans and things American, as expressed in edicts issued by local authorities in various parts of the empire. For six months the situation in China has been the subject of very genuine concern to the department, and Mr. Rockhill, the American minister at Peking, is under instructions to keep Washington thoroughly and frequently informed of the situation.

TEN THOUSAND COAL MINERS CALLED OUT IN A WALK

BIG MASS MEETING RESULTS IN DETERMINED ACTION Pennsylvania Men Will Lay Down Tools Until All Grievances Are Adjusted.

Punxsutawney, Pa., Feb. 8.—At a mass meeting here today of miners employed by the Buffalo, Rochester and Pittsburgh Coal and Iron company, the Jefferson and Clearfield Coal and Iron company and allied concerns with headquarters here, it was decided unanimously not to go to work again until all grievances between the men and the companies had been adjusted.

THE ANTHRACITE SCALE COMMITTEE IS IN SESSION

Wilkesbarre, Pa., Feb. 8.—The anthracite scale committee of the United Mine Workers went into session here this afternoon. Nothing was made public, but it is indicated that six requests are to be made when the miners' delegates and railroad and mine officials meet. They are as follows: An eight hour day for company hands. A trade agreement with the operators.

Pittsburg, Feb. 8.—An exciting scare was occasioned here today when an alarm was sounded for a supposed fire in the large department store of Kaufman Bros. A bursted steam pipe poured great volumes of what appeared to be smoke from the eighth floor windows and pedestrians turned in an alarm.

WEST VIRGINIA GRABBED BY THE RAILROADS

Governor Dawson Says State Is Throttled.

PENNSYLVANIA CONTROLS GRASPING COMBINATION

Old Perplexity Fails to Furnish Additional Excitement for Expectant Crowd in Senate Galleries.

Washington, Feb. 8.—There was a general expectation that today would witness a revival of yesterday's exciting occurrences in the senate over Mr. Patterson's caucus resolution, but it was not realized and the large crowd attracted to the galleries was compelled to leave in disappointment when at 3 p. m. the senate went into executive session, after a day devoted largely to ordinary bills on the calendar.

DAWSON SAYS RAILROADS HAVE HIS STATE GRABBED

Tillman opened the proceedings by referring to the petition vigorously presented by him for the Red Rock coal company of West Virginia, complaining that the Baltimore & Ohio company refused to permit that company to connect its tracks with those of the Baltimore & Ohio, thus as Tillman expressed it, "bottling up the company."

RAILROADS CAN CHARGE ONLY TWO CENTS IN OHIO

Columbus, Ohio, Feb. 8.—Governor Patterson late this afternoon signed the Freiner 2 cent fare bill, which was accepted by the senate today, and it is now a law. The law provides that two cents shall be the maximum rate charged in Ohio for transporting passengers on the railroads of Ohio for all distances in excess of 5 miles.

PAT CROWE'S TRIAL BEGINS

Omaha, Neb., Feb. 8.—A jury was secured today for the trial of Pat Crowe, charged with robbing Edward Cudahy of \$25,000 in connection with the kidnaping of the latter's son, December 19, 1906.

Home for Aged Burned.

Rennes, Feb. 8.—All the buildings of the Home for the Aged, in the Faubourg de Paris, kept by the Little Sisters of the Poor, were destroyed by fire tonight. Nine bodies have been found in the ruins. Three women died from fright. Chaplain Stenou, while attempting to save the inmates of the home, fell and was seriously injured.

King of Rumania Ill.

Vienna, Feb. 8.—King Charles of Rumania is seriously ill, but it is believed he is in no immediate danger. He is suffering from calcification of the arteries of the heart, and has been ordered to abstain from all business.

STATESMEN MUST PAY THEIR FARE

LaFollette Introduces His Anti-Pass Bill.

FEDERAL OFFICIALS MUST SHUN THE FREE PASTEBORD

Corporations Who Violate Law Will Go to the Rock Pile--Mail Clerks Exempt.

Washington, Feb. 8.—Senator LaFollette introduced a bill today prohibiting federal officials from asking for or accepting railroad or other passes and prohibiting railroads from granting them. It imposes penalties for violations of the law. The bill forbids all persons and corporations giving free passes or grants to any political committee or its employees; to any candidate for an office of the United States or to any holder of such an office.

WITNESSES SWORE TO AVENGE SEVERAL DEFUNCT PROPHETS

Washington, Feb. 8.—In an investigation of protests against Senator Smoot before the committee on privileges and elections, Prof. Walter M. Wolfe was subjected to a severe cross examination by counsel for the senator, who will call a large number of witnesses to discredit Wolfe.

Evangelical Ministers Shut Out Brethren of Cloth.

Seattle, Wash., Feb. 8.—The Seattle Evangelical Ministers' Federation met here today. When the committee on constitution and by-laws submitted its report it was the signal for a vigorous protest. When Moderator Fletcher Wharton announced that section of the constitution excluding Jews and Unitarians, Rev. Mr. Ligonier instantly arose and severely scolded his brethren for attempting to adopt such narrow views, and intimated that if the article was carried he would leave the association.

Aids London Poor.

London, Feb. 8.—Lady Strathcona and Mount Royal, wife of the Canadian high commissioner, has donated \$52,500 to Queen Alexandra's fund for the assistance of the unemployed. In accordance with the stipulation of the donor, \$17,500 of the amount will be expended in providing for the emigration to Canada of deserving workmen and their families.

Funeral of Kink Christian.

Copenhagen, Feb. 8.—Arrangements for the funeral of the late King Christian are published tonight. The body will be conveyed to Roskilde the morning of Friday, February 16, after a short service at the Sligskirke, from which the royal hearse will be escorted by troops followed by male members of the royal family in state coaches.

JOHN CONLEY WILL HANG FOR REDDING MURDER

Governor Hagerman Refuses to Commute Sentence of Condemned Man. Special to the Morning Journal. Santa Fe, N. M., Feb. 8.—John Conley, condemned to be hanged for the murder of James Redding at Questa, N. M., will be hanged at Taos Friday, February 16th, a week from today. He is now in jail, waiting the day of his execution, having been taken from the penitentiary here yesterday by Sheriff Salazar. Conley's last hope is gone. Governor Hagerman today declined to commute the death sentence or to interfere with the execution in any way. The governor made the following statement in regard to the case: "The Conley case was brought to my attention immediately after I assumed the duties of governor. Since then I have carefully listened to all those who came to me in regard to

TOOK OATH TO AVENGE BLOOD OF PROPHETS

Sensational Testimony in Hearing of Smoot Case.

PROTESTANTS' SIDE WILL CONCLUDE EVIDENCE TODAY

Witnesses Declare They Were Sworn in Endowment Ceremony To Be Revenged on Nation.

Washington, Feb. 8.—The Senator Smoot case, so far as the introduction of testimony of the protestants is concerned, probably will be closed tomorrow. An announcement to that effect was made by John G. Carlisle, who has been prosecuting the case at the present session of congress, at the close of the proceedings today. The defense has not announced the number of witnesses it expects to call nor when it will be ready to proceed. The hearing today dealt with alleged Mormon interference in business affairs and with the endowment ceremony. Three witnesses testified that they had taken the obligation administered and as they recalled it there was a variance in the form as it related to an agreement to avenge the blood of the prophets. Henry W. Lawrence, of Salt Lake, said he had been called upon to promise to avenge Joseph Smith, Hiram Smith, David Patten and Parley P. Pratt, all church leaders who met death at the hands of mobs. This witness declared that no Mormon could go through the endowment house without taking the oath.

SEATTLE PREACHERS EXCLUDE JEWS AND UNITARIANS

Seattle, Wash., Feb. 8.—The Seattle Evangelical Ministers' Federation met here today. When the committee on constitution and by-laws submitted its report it was the signal for a vigorous protest. When Moderator Fletcher Wharton announced that section of the constitution excluding Jews and Unitarians, Rev. Mr. Ligonier instantly arose and severely scolded his brethren for attempting to adopt such narrow views, and intimated that if the article was carried he would leave the association. In an instant a dozen ministers were on their feet, and during the hubbub a vote was taken and the report adopted.

GUNNING FOR CHINAMEN

San Francisco, Cal., Feb. 8.—Sailing under secret orders for some port near San Diego, the United States revenue cutter, McCullough, left the harbor this morning to arrest, if possible, about thirty Chinese who are said to have been illegally landed in the United States and are alleged to be on an island off the coast of southern California.

Suffocated in Hotel Fire.

Rowe, Kas., Feb. 8.—A. C. Richardson, a grain buyer for the Wellington Milling and Elevator company, was burned to death in a hotel fire here early this morning. The fire here early this morning. The fire here early this morning. The fire here early this morning.

Sheriff Burned the "Layons."

Salina, Kas., Feb. 8.—Sheriff Myer held a public bonfire in which he destroyed \$50 worth of paraphernalia captured in a raid on a gambling house recently. The keepers of the place pleaded guilty to the charge of maintaining a nuisance, and were fined \$100 and costs.

the matter whether they were those who desired the sentence commuted, or opposed to such action. "I have consulted with attorneys and men in whom I have the greatest confidence and who have absolutely no interest in the case, regarding the points of law involved; I have read the evidence as presented by both sides at the trial. As a result I have reached the conclusion that I would not be justified in interfering with the decrees of the court. The trial was eminently a fair one; the judge in every instance when there was any question as to the evidence submitted, decided the point in favor of the prisoner.

"In reaching a final conclusion in regard to the case, I have not allowed myself to be influenced one way or another by sectional feeling from any particular part of the territory. Therefore I must with reason refuse to commute Conley's sentence."

OLD-TIMER DISCOVERED DEAD IN HIS BED

Louis Kahn Accumulated a Small Fortune. Special to the Morning Journal. Las Vegas, N. M., Feb. 7.—Louis Kahn, an old-time resident of Mora, was found dead in his bed this morning. Mr. Kahn settled at Mora many years ago and by close application to business he accumulated a comfortable fortune.

The Fraternal Sanitarium. Word has been received from the National Fraternal Sanitarium association that the final general meeting of directors will be held February 17, that a call has been issued to the societies that are contributing for a hundred thousand dollars with which to begin work, and that very soon after the general meeting actual construction of the Fraternal City and repair of the Montezuma will begin. April 1 is the date set for opening.

New Day for the Race. The weather here remains warm, sunny and still, and though the weather bureau has several times reported rain, show or cold, all signs have failed. The winter thus far has proven one of the pleasantest ever known here.

Dry Farming. A large number of citizens are taking a lively interest in dry farming and last night held a largely attended meeting for the purpose of formulating a plan of procedure. They drew up a proposition which they will present to the Las Vegas grant asking for a quarter section of land on which to make experiments with a variety of crops.

All Weddings Postponed. Madrid, Feb. 8.—All marriage arrangements in this city and throughout Spain are being postponed in view of the fact that the king is to be married some time during the summer, as all wish their marriages to take place on the same day. The same thing occurred when his sister, the Infanta Maria Teresa, was to be married. All couples that had become engaged in the previous six months delayed their marriage until that day and the priests of Madrid were kept busy performing marriage ceremonies in every one of the chapels.

It is expected that several thousand marriages will take place in Spain on the day that the royal marriage is celebrated.

Paris, Feb. 8.—The Madrid correspondent of the Echo de Paris says that owing to the British court being in mourning for King Christian of Denmark, King Edward's official visit to Madrid will not take place in the spring and that for the same reason King Alfonso's marriage to Princess Ena of Battenberg has been postponed until June.

Big Boulder Hits Engine. Redding, Cal., Feb. 8.—Southbound freight No. 21 on the Southern Pacific was wrecked this morning two miles north of Mendocino. A huge boulder slid from a high bank on to the track just as the engine approached. The engine and seven cars of lumber were hurled from the rails. An unidentified man stealing a ride was killed.

Effort to Stop Earth EATING. Remarkable Evidence of Degeneracy in Natives of India. Calcutta, Feb. 8.—Efforts are being made to stamp out the habit of earth eating, which is prevalent among natives over almost all India.

In Northern India the favorite form of earth is a gray or drab-colored shale. This is excavated mostly at Meth, in Bihar, and is exported to the Punjab at the rate of 2,000 camel loads a year.

In different districts different varieties of clay are eaten, but if the natives have at any time a taste for a special kind of mud, as the habit increases the depraved appetite soon becomes satisfied with bricks and broken pots. White ant soil with the nest and ants themselves is a great delicacy.

The reasons given for indulging in the habit are classified under the following heads: 1. A peculiar fascinating odor and taste in the clay, rendering it a delicacy. 2. An unnatural craving due to disease. 3. To satisfy hunger. 4. Force of example. 5. Supposed medicinal virtues.

A university graduate confessed to a friend that the bland earthy odor was a great temptation to him, and the thought of it made his mouth water. He always enjoyed the odor, he said, when April showers fell upon previously parched earth.

The effects of the habit are disastrous. Those women addicted to it very soon complain, first of pain and weakness in the limbs, palpitation and difficulty of walking a little distance uphill. After some time all the other symptoms of anemia are fully established; mallow and pale complexion, tongue and gums bloodless, and general debility. Very often dropsy supervenes.

Windfall for Weaver. Providence, R. I., Feb. 8.—Through the death of an uncle in England G. A. Rayburn, a local weaver, has fallen heir to an immense estate covering property in England, Ireland, Scotland and Wales, and yielding \$200,000 annual income, carried with it an earldom. Rayburn is the direct heir to the title and the estate, his father having died sometime ago. He is forty-one years old and has worked for several years in Massachusetts mills as a weaver. He refuses to discuss the news, which came to him from a New York lawyer.

LONG EXPECTED DEADLOCK NEAR

Paris, Feb. 8.—Opinion concerning the progress and final outcome of the Algeiras conference has become rather more pessimistic here in consequence of semi-official declarations that neither France or Germany will reach regarding the question of the Moroccan police. It is considered that a point has been reached where further

BEAUTIFUL LUNAR ECLIPSE VIEWED BY MANY

BRILLIANTLY CLEAR AIR FAVORS LOCAL STAR GAZERS

One of the most beautiful eclipses of the moon ever witnessed by the people of Albuquerque, took place last night, the satellite leaving the earth's shadow about 2:23 o'clock this morning. An unusually clear atmosphere even for New Mexico favored those who were interested in closely observing the phenomenon and the sky was cloudless. A high wind sprang up almost exactly coincident with the beginning of the eclipse, the coolness of which made it rather uncomfortable for those who wished to remain outdoors to watch the spectacle.

At about 11:15 p. m. a little before the shadow of the earth first began to encroach upon the lower edge of the moon. As the shadow progressed across the lunar surface it lost its sharp outline and when the eclipse became total at about 12:45, the moon was obscured vaguely by an ill-defined glow which appeared rather dark in the center and shaded to a light pink at the circumference. The moon was described at this stage by some spectators as resembling a "toy balloon," and by others as displaying the reddish glowing appearance of a red hot metal ball. The sight was a strange and beautiful one and well repaid those who postponed their usual hour of retiring for a glimpse at it.

The change from the brilliant radiance of the full moon which made the city almost as bright as day from sunset on, to the darkness of the ordinary starlight night was a startling one, and one can readily sympathize with the superstitious terror which seizes the hearts of Pueblo and the Navajos, when this "black monster" appears to be devouring the luminary. The eclipse last night was watched closely by hundreds of people in this city, several "backlog watch parties" being held in honor of the occasion. As is seen from the timing of the phenomenon it lasted three hours and a half, approximately, and was plainly visible during all that time.

Charged With Petty Stealing. Donchuan Chavez was arrested this last night by officer William Wagner and held in the city jail to answer in police court this morning to a charge of petty larceny. Chavez is charged by Grand and company of North Third street with stealing groceries, a bottle of wine and a fifty-pound can of lard from their store. Chavez denies the charge.

Economy in Printing. Washington, Feb. 8.—In pursuance with the recent executive order calling for greater economy in government printing and publication, Secretary Taft has appointed an advisory committee on the subject, composed of the following named persons: Mr. John C. Sheffield, chief clerk of the war department; Captain Charles W. Kutz, department; Mr. Joseph W. Kieckhefer, chief of division, military secretary's division; Mr. Harry C. Surgen, chief of the office of the chief of ordinance; and Mr. Edgar E. Davis, chief of the office of the quartermaster general.

The committee is ordered to meet at once, and "after consideration of the matter committed to its charge will report at the earliest practicable moment its recommendations as to the best methods of procedure to accomplish in the most effective manner the results in war, department printing and publication, which are sought to be attained by this executive order."

Another Colombian Demand. Washington, Feb. 8.—Colombia has again asked the United States to admit that the latter violated the treaty of New Granada of 1846 when it aided Panama and recognized that republic. A petition for redress was presented sometime ago by the Colombian minister, and in the state department it is said that this is only a repetition of the representations made to this government when General Reyes prior to his election as president of Colombia was here on a special mission. The claim is based on the provisions of the treaty that the United States and New Granada should jointly act to preserve the neutrality of the isthmus and to preserve order thereon, and for the recognition by each power of the other's integrity as a nation.

Mexico Storing Gold. Washington, Feb. 8.—In addition to \$10,000,000 which she has ordered minted in Philadelphia, Mexico has \$20,000,000 more in her treasury which she will have minted soon. It is her purpose to continue the mintage until at least her entire reserve of \$100,000,000 shall be in gold.

Mexican banks also have in reserve about \$20,000,000, and in order that the market shall not be disturbed by these unusual purchases of gold the government and the banks have entered into an alliance and are making joint purchases.

Conspiracy Trial On. Joplin, Mo., Feb. 8.—In the trial here of Charles H. Blanton, charged with conspiracy in connection with the selection of postoffice sites in Missouri and Arkansas, M. M. Alexander, a jeweler of Batesville, Ark., testified

their confessions on the French side are impossible. The other powers have secured every point claimed thus far, including the integrity of Morocco and commercial equality, and now France's turn has come to claim her rights which were recognized in principle before the conference opened.

last evening that there was an agreement between himself and Dr. J. H. Vernon, whereby \$2,000 was to be paid for the selection of a certain site. Alexander was to receive \$500 and Vernon was to receive \$1,000 of the amount for his services. Dr. Vernon is under indictment on a charge similar to that which Blanton faces.

CANFIELD TO QUIT GAMBLING.

For the Sake of His Children He Is Selling Out. Providence, R. I., Feb. 8.—Richard A. Canfield denied emphatically tonight the story that he has to interest in any gambling place in Cuba. "The denial of any purpose on my part to have a gambling place in Cuba," said Mr. Canfield, "cannot be made too strong. For the sake of my children I am withdrawing from all such enterprises as rapidly as possible, and, with the exception of my estate at Saratoga, I have severed my connection with all activities of that sort."

"I am unable to understand how every little while some story or other crops out that I am interested in a gambling place in Cuba. I have never been in Cuba but once and that was a year ago last October. At that time I stopped over in Havana two or three days, but I am not now, never have been, and never intend to be interested in promoting any gambling place there."

"I now spend practically every summer in this city with my family and as much of the rest of the time as I find possible."

Lost in Mongolia. Washington, Feb. 8.—The whereabouts of B. W. Morley of Saginaw, Mich., who is supposed to be lost in Mongolia, is still a mystery. A cablegram reached the state department today from its agents in China, saying that the last seen of Morley was on September 19, when a companion named Seoberger left him near Jehol. At that time Morley declined to return to Tien-tsin, saying he proposed to continue his journey into Mongolia. The Chinese government is continuing its efforts to locate Morley, but thus far to no effect.

Increase in Jan Navy. Tokio, Feb. 8.—At a meeting of the national budget committee today a delegate representing the government said that Japan expected to increase the tonnage of her navy to 400,000 tons by the end of the fiscal year of 1907-8.

Hoch Must Hang. Springfield, Ill., Feb. 8.—The supreme court this morning denied a rehearing of the case of Johann Hoch, sentenced to hang in Chicago, February 23rd for wife murder.

Quick Justice for Negro. Mount Holly, N. J., Feb. 8.—Rufus Johnson, the negro who was arrested at Baltimore about a fortnight ago charged with killing Miss Florence W. Allison, near Montross, N. J., on January 18, was sentenced today by a jury, convicted of murder in the first degree tonight, and immediately sentenced to be hanged two weeks from tomorrow.

Preacher Attempts Suicide. Chicago, Feb. 8.—The Rev. Justin M. Wade, pastor of the First Congregational church at Waukegan, Ill., who was yesterday arrested by the police authorities for sending obscene letters through the mails, attempted to commit suicide today by throwing himself in front of a Chicago and Northwestern railroad train. His injuries did not prove immediately fatal. At noon it was announced the injuries received by Wade will probably cause death in a short time.

McCord Collector of Customs. Washington, Feb. 8.—The president today sent the following nomination to the senate: Collector of customs, Myron H. McCord, district of Arizona.

Horsewhips the Grocer. Seattle, Feb. 8.—Believing that he had talked too freely about the reputation of certain persons, Mrs. Blunkard of Garden City, horsewhipped A. Lemon, a groceryman, this afternoon in the presence of the entire population of the town. Mrs. Blunkard was accompanied by a man named Blankenship.

Dawson Faces Coal Famine. Tacoma, Feb. 8.—A Dawson special says that the city is facing a coal famine, but there is a glimmer of hope that arrangements may be made for relief. All the coal for sale has been bought by the consumers and is virtually exhausted. Unless relief is secured by next week acres of coal burners in Dawson will have to be replaced with wood stoves.

Charges Against Postoffice. Seattle, Feb. 8.—Serious charges against Postmaster George M. Stewart that incidentally implicate Robert B. Hunter, president of the American Improvement company, the concern asking for franchises to operate a gas plant in Seattle, have been filed with the president of the United States and the postmaster general by Dr. J. J. Chambers, a prominent physician of this city. Postoffice inspectors are now carefully investigating the charges and will make a report to Washington on the assertions filed by the local physician.

It is alleged Stewart is using his official position to promote a fraudulent stock company.

PRIZES! PRIZES! PRIZES!!! FOR THE BEST MASKERS AT THE MASQUE, FEBRUARY 14, AT COLOMBO HALL. If you need a carpenter, telephone Feussden. BASKET BALL. The fastest game of the season at the Casino tonight. Admission 35c. Game called at 8:15.

Southwest Snap Shots

Retailers Get Together. Phoenix retail merchants are preparing for the organization of an association.

Big Ice Crop. The Agua Fria company of Las Vegas, has had a very profitable ice season. Already 50,000 tons have been secured from the ponds and if one more cutting is harvested, as is quite likely, the amount will be increased to at least 65,000 tons.

Samuels on the Bum. The Optic has been informed that the George Samuels company, which has been headquartered at Las Vegas, has gone to pieces in Arizona. It appears that the magnificent distances have proven fatal to the southwestern circuit.—Las Vegas Optic.

Where the Money Melts. Yuma is to have a new bank, with a capital of \$100,000, subscribed for in Yuma and Los Angeles. E. P. Sanguinette, one of Yuma's pioneer merchants, will probably be president, and Wesley Hill, late territorial auditor, is to be cashier and manager.

Raising a Raquet. The Arizona Tennis association was organized last week at Tempe, where competing teams met from the University, the Arizona Normal school, the Phoenix Industrial school and the Phoenix High School. The High School won the doubles and the University the singles.

Robbed in a Mine. Charles J. Gliddens of Cincinnati had a curious and serious adventure Sunday in the tunnel of a mine in which he is interested, in the Whetstone mountains in Cochise county. After looking over work that had been done in the temporarily abandoned mine, Mr. Gliddens returned alone to look for his knife which he had dropped. While searching he was suddenly set upon by a man, who sprang from the dark recesses, and was knocked senseless. When he revived he was alone in the darkness and minus his money. With the aid of a few matches he managed to make his way to the open air, where, he said the sunlight "looked good to him."

Locked in the Vault. Practical jokers who lock people up in steel vaults should think twice before they penetrate their fun, says the Phoenix Republican. The other day Deputy Treasurer F. S. Widney in Tucson was locked in the treasurer's vault by a friend who closed the door on him, not realizing it locked with a spring. The door could only be opened with the combination and the treasurer, who was immediately hunted up, had misplaced his combination sheet. It took two or three hours to find it and figure out a combination that would open the big door, restoring Mr. Widney to liberty. In the meantime there was considerable anxiety on the part of all concerned, for the air in the small apartment was beginning to taste like second hand goods to Mr. Widney, who was beginning to fear that the men on the outside would be unable to find a combination that would open the door.

PRICE OF DIAMONDS TREMBLED. From the Milwaukee Free Press. "During the past eight years the price of diamonds has been multiplied by three," remarked M. Lipsett, of Chicago. "How do I account for it? I don't pretend to. People are buying freely even at the advanced price, many of them putting their money into the precious stones as an investment, and it has not the present time proven a good one. The value of the stone depends on the color. I have known them to sell for \$700 a carat—that is for the blue sparkler. Your commercial diamond which is white with a yellow tinge to it, will command \$150 a carat, while eight years ago I could have bought all I wanted of them for \$40 a carat. Many of my acquaintances have doubted their wisdom in buying the stones.

"We get our diamonds from London. They come originally from South Africa, of course, but as they are shipped out of that place they are not the beautiful article we see offered by the jeweler for sale. They are found in a soft rock, which is submitted to a crusher which grinds it to powder, but is not given sufficient pressure to break the diamond in the rough. The result of this grinding process is then placed in great tubs with seven at the bottom, and washed with running streams of water until the pulverized rock is carried away and the diamonds remain. The men who do this business are experts and they gather the little lumps up, place them in bags, label them according to their color and they are then shipped away to be cut and polished and prepared for market."

IT IS A PARASITE. That Causes Itching Scalp, Dandruff and Finally, Falling Hair. The itching scalp, the falling hair and the dandruff that annoys are the work of a parasite hidden in the scalp. That parasite must be killed to cure dandruff; and the only preparation that will do that is Newbro's Herpicide. "Destroy the cause, you remove the effect."

C. H. Reed, of Victor, Idaho, says: "Myself and wife had dandruff and falling hair several years. Two bottles of Newbro's Herpicide completely cured us, after several other preparations had failed to do good." Millions of people are suffering from dandruff and falling hair just as Mr. Reed. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. E. H. Briggs & Co., special agents.

To Prohibit Football. Cambridge, Mass., Feb. 8.—The announcement was made today that the faculty of Harvard has expressed the opinion to the committee on regulation of athletic sports that intercollegiate football should be prohibited in 1906 and until a reasonable game shall have been formulated. This attitude of the faculty was agreed to at its meeting on Tuesday, but the announcement was withheld.

NEW RAILROAD FROM FLAGSTAFF TO VERDE VALLEY

Believed To Be Project of Senator Clark.

WILPIERCE, WILD AND RICH ARIZONA DISTRICT

citizens of the Verde valley and Jerome are much elated over the prospect for the construction of a railroad, a route from which is now being surveyed from the terminus of the Arizona Lumber company's road over the rim of the Mogollon mountains...

Another significant fact, and one which inspires confidence that the line from Flagstaff will be built is that it is known to many that during the past six months an eastern attorney has been quietly purchasing much real estate in the Skylight City immediately to the south of the depot...

For the first time in nearly a year the Rio Grande will be running over its own tracks in and out of Trinidad, says the Trinidad Chronicle-News. A small army of men have been at work since last fall reconstructing the road bed from a point a short distance below the depot, east nearly a mile.

The track is now laid across Linden avenue and the remainder of the gap can be quickly filled. Two trains are hauling dirt and rock for the roadbed while another crew are laying the ties and rails.

The roadbed is constructed on the site of the old one, which was completely obliterated by the flood waters and runs through the new channel which was created by the floods. This will necessitate placing the river back in its original channel and the construction of an immense stone and cement wall to protect the roadbed.

WELLS DENIES SANTA FE IS IN ANY LAND DEAL

From General Manager Wells' office in the Santa Fe general offices an absolute denial was made yesterday that any Santa Fe officials, as such, are engaged in any land operations in Tulare valley, as were reported in a Sacramento dispatch to the "Examiner" of yesterday, to be under investigation by Governor Pardee, according to the Los Angeles Examiner.

Godfrey Holterhoff, treasurer of the company, frankly said that he, Freight Traffic Manager Edward Chambers and a few others outside of the company, including Dan Murphy, had engaged about four years ago, under the laws of the state, in an attempt at reclamation of swamp lands in that valley, but that it was an undertaking of private citizens, in which the Santa Fe company or its officials, as officials, had nothing whatever to do.

"We engaged in the enterprise," said Mr. Holterhoff last evening, "as an investment, actuated largely by the desire to make things grow where they had not grown. We went ahead under the law, and we thought he had satisfactorily settled any conflicting claims fairly and equitably."

"It seems that a dispute has arisen as to the points of law involved, and it is simply a question of law that is to be determined. I believe that the disturbance has not been caused by settlers at all, but by some disgruntled attorneys who wish to make some money by attacking us."

A New Jerkwater. There is talk of running a daily freight train from Roswell to Carlsbad with one passenger coach attached, leaving Roswell each morning at 8 o'clock. So far it is only "brakeman talk."

Close Shave for Cannon. Swept from the side of a boxcar by the yard scales at the San Bernardino switchman, came face to face with death, but the Grim Reaper did not call and Cannon is going about but little the worse for a few bruises. When he fell, Cannon alighted on the trucks and it was only by the rarest good fortune that he escaped going under the wheels.

Santa Fe Educating Dairymen. For the first time in the history of Kansas a special train is to be run through the district of the state where the dairy interests predominate for the purpose of disseminating information as to the best methods of getting the best returns from the operation of a dairy or a dairy farm. Men of national reputation as dairy experts will deliver lectures on all matters pertaining to the raising of a dairy, from the time the cows are milked until the butter or cheese is ready to be packed for the market, and on the train will

Fairbanks-Morse Jack-of-all-Trades Gasoline Engine will save more wood than any other 2 H. P. Gasoline Engine. It is sent all set up and ready to run. Other Engines up to 200 H. P. FAIRBANKS, MORSE & CO., DENVER, COLORADO

modern specimens of all sorts of modern machinery which is used in dairying. Plans for this trip of a unique character have been perfected by James M. Connell, general passenger agent of the Atchison, Topeka and Santa Fe, and I. D. Graham, secretary of the Kansas State Dairy association.

VINOL'S RELIABILITY

Countless physicians and druggists are now prescribing and endorsing Vinol as the most valuable cod liver preparation known to medicine, and it is fast superseding all other forms of cod liver oil.

A prominent physician writes: "I am satisfied that Vinol derives its wonderful life-giving and strength-creating power from the medicinal curative elements found in the cod's liver. It is the best strength creator and vitalizer for old people, weak women, children, and the convalescent that I ever saw."

Another physician writes: "I could cite many cases where health has been restored in a surprisingly short time by Vinol. I should be very sorry to have to do without Vinol in my practice. It has no equal for hard colds, throat and bronchial troubles."

Now, when we tell you that we have never sold in our store a remedy of such remarkable curative and strength-creating power as Vinol, for the weak, the sick and the aged, and that if it fails to accomplish what we say it will we will refund your money without question, no alling person should hesitate to try Vinol with such an understanding.

In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure." J. H. O'Reilly Co., Druggists.

There are people reading our For Rent column today who would make desirable tenants for that vacant house of yours. There will be tomorrow, too; and there is time enough for you to get your ad in that column tomorrow. It should have been in today.

For prompt and courteous treatment and the very choicest of meats you will make no mistake by calling on Emil Klewort, 112 North Third street, or telephoning your order in.

A New Line Of loose leaf binder metals has just been received and we can now make a binder any style or shape for loose leaf ledgers, statement systems, cost books, etc.

Don't forget we do special ruling and punching too. H. S. LITIGOW & CO., Binders. With the Morning Journal.

Partyism and Statehood

THE Norfolk Virginian-Pilot takes the Washington Star to task for supporting the joint statehood bill, and alleges that the reason for the Star's support of this cause is that the bill has been made a straight party measure. To this the Star replies: "The Star supports the statehood bill, not because the republican leaders have made it one of their party measures, but because, in the Star's opinion, it is a good measure in itself. It is the only safe solution of the difficulty. If Arizona and New Mexico were populous and prosperous territories, both showing a phenomenal growth of recent years, the Star would favor their admission as separate states. It does not consider what their politics as states might be. But, as a matter of fact, they are backward territories, and even when taken together are not entirely worthy of statehood. The republicans, as the Star believes, have the right of the contention, on the grounds of a broad, national policy."

The soundness of the Star's position on this issue as above defined cannot be questioned. It is true that the two territories cover a vast area, but it is equally true that the natural conditions which exist throughout both territories are of such a character as to forever preclude the possibility of the maintenance by them of a great population. The most that can be hoped for by their most optimistic friends is that the resources of the two territories, under proper development, will be sufficient to support the population of an average state.

But the Star might have gone further, and shown by the facts that so far as the people of the territories are concerned, there is no partyism in the movement at all. The most active friends of joint statehood in New Mexico are democrats, while the most active and pernicious opponents of the movement are republicans. As a matter of fact, it is, throughout the territories immediately affected, a movement purely of the people, by the people and for the people, as against the corporations and politicians, of all classes and all parties.

WILLIAM ALLEN WHITE'S letters from New Mexico will do much good in the way of disproving the villainous stories which the mining companies of Arizona have invented and circulated about this territory and its people.

NOTWITHSTANDING the fact that the caucus has worked our way quite recently, and is likely to do so again, Senator Patterson is right in the position he has taken, and he has the people of the country behind him.

WE trust we may be excused for again reminding the county commissioners that the present would be a good time to examine the duke, and see if it will hold water.

THE man who insists that the interests of the party demand the running of a strict party ticket in a municipal campaign, always has an ax to grind.

MR. TOM PATTERSON, of Colorado, has the advantage of his distinguished relative whose front name was Billy. Tom knows who hit him.

Sour Grapes

SOME months ago, when the Water Supply company asked for an extension of its franchise, the Evening Citizen opposed the proposition very violently, because it believed, or pretended to believe, that the city waterworks should be under municipal ownership. After a wrangle over the question which continued till the people of the town became sick and disgusted with the whole matter, the council yielded to the demand of the Citizen, and appointed an expert to make a thorough investigation of the water plant and its present condition, for the purpose of ascertaining its actual material value at this time, so that if the people should conclude to take the advice of the Citizen, and own their own waterworks, they would have reliable data upon which to base the price that should be paid for the present plant. One of the most competent men in the country was selected for this purpose, by the city council, not by the Water company, and the Citizen acquiesced in the selection by offering no objections to the person chosen.

It is possibly unnecessary to explain at this point, that the Evening Citizen is an annex of the Bank of Commerce, and that Mr. W. S. Strickler is the dominating spirit of both divisions of the institution, and is a gentleman who always has a prudent regard for No. 1. Perceiving that the Water Supply company had a "soft thing," he determined to "butt in." The company refused to be butted, and then the grapes turned sour. He discovered that it was a terribly bad thing for a community to be dependent on a private corporation for its water supply, and his paper began to shriek violently for municipal ownership. Then, as we have said above, the council yielded to the clamor, and proceeded, in the only practicable way, to ascertain the value of the present plant—and as Mr. Strickler made no objection to the expert chosen to do the work, his silence gave consent. But now that the work has been done, in pursuance of the demands of his own paper, he causes that sheet to flop to the other side, and become just as strenuous in its opposition to municipal ownership today as it was in favor of that policy a few months ago.

Why this sudden and radical change of policy on the part of that paper? The only apparent reason is the desire of its owner to "get even" with the waterworks people for their refusal to "let him in" on what he believed was a "good thing."

The Journal is not and never has been an advocate of municipal ownership. But if the people of the town desire to own and run their own waterworks, they certainly have a right to do so, and we propose to leave the matter entirely to their judgment, without any attempt on our part to influence or prejudice their minds one way or the other. They have discussed the matter, publicly and privately, enough to know what they want to do in the case, and now let them go ahead and do it. If they don't want municipal ownership, it is their high prerogative to say so at the polls, and there will be no appeal from their verdict. And if they do want it, they will never have an opportunity to get it on better terms than those now offered them by the Water company. The expert appointed by the city council, and to whom Mr. Strickler and his paper did not object, has told us that the present mechanical value of the plant, after making due allowance for depreciation from wear and tear, is eight thousand dollars more than the amount which the company offers to take, and that a new plant, as good but no better, would cost over \$50,000 more than the price at which the company offers to sell. If we decide to go into municipal ownership, there are just two ways open to us—first, to buy the present plant, for \$250,000, or second to put in a new plant, which, to be as good, but no better, would cost us \$100,000. Hence if the people believe the city should own the water plant, the main question to be decided now is just this: Can the taxpayers of Albuquerque afford to throw away fifty thousand dollars, in order to gratify the malice of Mr. Strickler, and enable that gentleman to get even with the Water company for refusing to take him in?

Solos

Who hit Tom Patterson?

It was real mean in Pitchfork Ben, Bill Bailey and Culbertson to put up that job on Old Perplexity.

There'll be an interesting gastronomical exhibition when France finally makes Castro eat his words.

Aprons of everything in general, it is well to remember that Mr. Roosevelt still has three years to serve.

On second thought Uncle Russell Sage believes if he had it to do over again he wouldn't wear any underwear at all.

Nothing is impossible in this day of mechanical marvels. A Connecticut man has invented an augur that will bore a square hole.

The kind of an elastic currency that would make a hit would be a dollar note that could be stretched to cover a ten dollar board bill.

Five insanity cases were received in two hours, not long since at the Bellevue hospital in New York. Only three of them came from Wall street.

While Jim Hill was doing all that moralizing about how we waste our money, he neglected to specify that a large part of it goes into freight rates.

John Lucas, a ranchman on the Missouri river, is making a fortune out of a skunk farm. But then he was reared in St. Louis in the good old days before Folk got busy.

The Chinese commissioners are now engaged in seeing little old New York. They are surprised at the way those no pushie no pullee automobiles run velly fast all same like helliee.

Colonel Mann in Town Topics is now gravely showing President and Mrs. Roosevelt where they made a break in the wording of the wedding invitations. For unparalleled gall the colonel takes the pie.

The bills are all in, and Alice's wedding layout will cost just an even \$1,400. That's not so bad, and Nick Longworth is reported to be highly optimistic about the grocery bills after the honeymoon.

A New York theosophist has lifted the veil from the dim hereafter and has startled a large constituency by picturing a Hades for the bibulous, where you are condemned to drink water through an unending eternity.

A woman was pulled out of New York harbor 'tother day with boat-hooks after she had made the seventh unsuccessful attempt to commit suicide. Most people would give it up as a bad job after the sixth attempt.

The bull fight craze has been carried too far. A farmer near Birmingham, New York, was found gored to death in his barn and it is believed he was trying a little private exhibition after reading about the combat in Algebras.

"I wuzent goin' nowhar in particular, boss," was the respectful reply of a wandering gentleman of color, to a Santa Fe officer yesterday. That is a concise summing up of the itinerary of most of the Great Unwashed now touring the southwest.

John D. Rockefeller, Jr., addressed his Bible Class very impressively last Sunday on the subject of "Joseph." John's choice of a subject is explained when it is recalled that Joseph is the man who got his act by cornering the corn supply in Egypt.

Philadelphia is now troubled with a "Jack the Snipper." He cuts young ladies' hair off suddenly on dark street corners. The police are undecided whether he is collecting stuffing for a mattress or is one of John D. Rockefeller's emissaries hunting material for a new wig.

Things are not always what they seem in the advertisements. A Butte man went all the way to San Francisco to claim a wife with whom he had made arrangements through a marriage agency. When he caught the first glimpse of her he bolted for the tail timber and they haven't been able to find even a footprint.

Household Hints.
To make biscuits light—drench with gasoline and ignite before serving.
How to keep servants—chloroform them and lock in the cellar.
How to remove fruit stains from linen—use sawdust.
To keep rats out of the pantry—place all food in the cellar.
To entertain women visitors—let them inspect all your private papers.
To entertain men visitors—feed the brutes.
To keep the children at home—lock up all their clothes.
To keep hubby at home—hide his toupee.
In order to prevent accidents in the kitchen—fill the kerosene can with water.
To stop leaks in pipes—send for the nearest plumber.
To propitiate the janitor—it can't be done.—Smart Set.

Not the Right One.
During the National Civic federation's convention in New York Samuel Gompers, apropos of a mistake, said: "It might have been embarrassing—an embarrassing as the position of a young man of Toledo whom I heard about the other day."
"He had been calling now and then on a young Toledo lady, and one night, as he sat in the parlor waiting for her to come down, her mother entered the room instead, and asked him, in a very grave, stern way, what his intentions were."
"He turned very red, and was about to stammer out some incoherent reply, when suddenly the young lady called down from the head of the stairs: "Mamma! mamma! that is not the one."—Chicago Inter Ocean.

Self Evident.
"Strange how a girl will marry a man she doesn't know."
"What makes you believe she didn't know him?"
"She married him."—Houston Post.

ONE COMMISSIONER MAKES DIRT FLY ON COUNTY ROADS

Pedroncelli Accomplishing Results in Los Griegos.

GETTING CROSS ROADS NORTH OF CITY IN FINE SHAPE

For many long moons the county roads of the county of Bernalillo have languished. When the rutts got more than waist deep, the patient teamster wandered off through the fields where fancy dictated and made a new road. Under the late lamented Hubbell regime, if a man was caught working on a county road, he was haled before the court and examined as to his sanity or cincted in his assessments. The roads of Bernalillo county at the end of the reign of Don Francisco were a holy fright. They were a hissing and a by-word in the mouths of the populace and the grief and despair of the traveler. When they weren't bottomless ooze or genuine rivers and lagoons, they were frozen mountainous wastes, or heavy sand deep enough to stall a buckboard.

But there is now reason to believe that in the course of time Bernalillo county will actually have some roads that are easier to travel over than the untrodden fields adjacent. One of the most encouraging signs of the times is the fact that at least one road commissioner outside of Albuquerque's hard-working Martin Tierney, is doing his duty and doing it manfully. Those who had occasion to drive out to Los Griegos yesterday witnessed the inspiring sight of Road Commissioner Pedroncelli with a force of between twenty-five and thirty men hard at work with picks and shovels on the road across from the Old Town road to Fourth street. Under Mr. Pedroncelli's efficient direction the men are digging out the ditches along side the thoroughfare and throwing the dirt up on the roadbed, making a level and well graded highway that will make driving a pleasure. After the work at Los Griegos is done Pedroncelli will take his men next week to Candelarias and get the cross-road there in shape so that one can drive from the Old Town road east to Fourth. This will make it possible to take a very pleasant drive north of the city through the native villages and back by way of Old Albuquerque, and the work is one that has excited the warmest praise for the road commissioner.

The good roads movement in Albuquerque, as well as elsewhere, is a popular one. The prospects for good well-graded hard level streets in the city are better than ever before, because the people are fully alive to the fact that the city must have them. The street commissioner is doing yeoman service with the force at his command, and there is no doubt that in the near future he will put in a position to do much more effective work. A few more men and a few more teams will work wonders.

North Fourth street outside the city limits contains the making of one of the finest drives in the territory at comparatively small expense and in time it is bound to be improved. The drive through the valley is a beautiful one, and with a good speedway the North Fourth street drive will be one of the most popular drives about Albuquerque. Already the Mesa Agricultural Park association has begun work on an excellent speedway from the University to the driving park, which is bound to bring in its train the improvement of the notorious University road. Those who are conversant with the road situation and who believe in the future of Albuquerque are confident that this city and county will before many years have one of the finest systems of roads in the country. But it naturally takes a long time to recover from the disastrous effects of the neglect and mismanagement of the county by a ring like that of the Hubbells and the improvements must come slowly. The present county commissioners are doing their very best, with the resources at their command and results are bound to show as time progresses.

The example of Pedroncelli is one most worthy of emulation, and shows what can be accomplished when even one man goes at the road proposition in a business like way. Pedroncelli is strictly enforcing the law which requires three dollars or three days work, or one day's work with a team, and the results speak for themselves.

KORBER GIVES A PLOW AS PRIZE FOR RED RIBBON CORN

County Superintendent A. B. Stroup returned yesterday evening from a trip in his official capacity to Los Griegos and Los Candelarias. As usual Mr. Stroup is quite encouraged over the progress being made in the district schools and says that he finds everything in excellent condition in the two precincts he visited yesterday, and where Misses Isabel and Dolores Arroyo and Mrs. Winston are engaged in instructing the young idea in marksmanship.

The students at the Griegos school are preparing for a big spelling contest with suitable prizes which will occur this afternoon.

Mr. Stroup says that J. Korber has offered a fine plow as a first prize in the district school corn growing contests inaugurated recently, and which the superintendent believes are to be a very successful departure. Among other contributions which the Morning Journal omitted to mention was S. E. Newcomer's donation of \$5.

The Korber plow is to be given to the student who raises the best corn in Bernalillo county. Since the prizes have been offered interest among pupils has been growing rapidly and the contest promises to be a lively one.

DR. PRICE'S BAKING POWDER

A pure, cream of tartar powder, free from alum and phosphates.

No acid but that of grapes—which is pure, pleasant and healthful—enters into Dr. Price's Baking Powder.

Fruit acids are accounted by hygienists the most important of the elements of the food of man, and of these the acid of the grape is most prominent.

Dr. Price's Cream Baking Powder is not only the most efficient and perfect of leavening agents, but owing to its constituents is likewise promotive of health.

PRICE BAKING POWDER CO., CHICAGO.

KANSANS TAKE UP 80,000 ACRES ON RIO PUERCO

MILLER AND GLEED LEAVE AFTER TRIP TO COAL LANDS

Frank C. Miller, vice president of the Pioneer Trust company of Kansas City, and Willis J. Gleed of Topeka, member of the law firm of Gleed, Ware & Gleed, who arrived in Albuquerque from El Paso a week ago, left last night for Kansas City. Mr. Gleed, who was at one time receiver for the Santa Fe Railway company, is one of the most prominent capitalists and lawyers of Kansas. While in New Mexico the gentlemen made a trip out to the Arisco land grant, over on the Rio Puerco and took up about 80,000 acres of sheep and cattle land. It is the intention of the Kansans who represent heavy capital to stock the land with sheep and cattle and otherwise develop the resources of the grant. It is understood they will also take a hand in developing the extensive deposits of coal in that vicinity.

GOOD BASKET BALL GAME SCHEDULED FOR THE CASINO TONIGHT

There will be one of the most exciting basket ball contests of the season at the Casino hall tonight when the teams from the University of New Mexico and the Central High school meet for a final tryout. There is a keen rivalry between these two organizations and both are out to win or break a few ribs. Both teams have been practicing hard since the last game and a pretty strenuous game is expected. It will commence promptly at 8:15 o'clock.

EXPERIMENT STATION ISSUES INTERESTING BULLETIN ON APPLE LICE

The College of Agriculture and Mechanic Arts at Mesilla Park has issued Press Bulletin, No. 110, on "Woolly aphid or apple lice," signed by Professor Fabian Garcia. It is as follows:

Many inquiries have been received during the past year in regard to an insect which has proven to be the root form of the woolly aphid. It is quite evident that this insect is getting to be more prevalent, and that its damaging effects on the apple trees are becoming more noticeable by the apple growers. In view of this, it seems advisable to give a few facts concerning this apple tree pest.

The woolly aphid is very small, usually not larger than a pin head. The winter is passed in the egg stage, but occasionally in warmer climates, adult insects live through the winter. During the spring the eggs hatch into wingless apterous female insects. These bring forth living apterous females, and their offspring is reproduced likewise. This method of reproduction is very rapid and it accounts for the large colonies of insects found on the trees. In the fall some wingless and mouthless males and females are produced. These pair off and each female lays a single fertilized egg and then dies.

The woolly aphid affects apple trees on the limbs and roots; thus the common terms, root and aerial forms. The aerial form, which is always found in colonies on the ends of the new succulent growth and on the scars produced from pruning, can be easily recognized by the dense bluish-white cottony looking substance covering the wingless insects. While the aerial form may cause abnormal growths, or even death, of the parts infested in this climate the injury from this form does not seem to be as yet serious enough to cause any alarm.

The root form of this insect, on removing the dirt away from the roots close to the trunk of the tree, can also be easily detected by the same bluish-white cottony substance and knobby or irregular growth of the roots. It is this form that causes serious trouble to the apple growers.

The woolly aphid is a sucking insect and gets its nourishment by piercing into the wood and sucking the sap therefrom. The roots affected become knobby and shortly they stop performing their function properly. Remedies—There are a number of

THE SUN RENOVATES AN OSTERMOOR MATTRESS

The Ostermoor is built (not stuffed) of elastic, fibrous Ostermoor sheets—germ-proof and vermin-proof. We know there is no mattress on earth "just-as-good" as the Ostermoor, and we are exclusive agents for your protection against worthless substitutes. Come to us for the genuine Ostermoor—a masterpiece of comfort. Order one.

WHICH?

Nothing but an occasional sun-bath is needed to keep an Ostermoor Mattress thoroughly renovated. It can't possibly get dirty inside. And if the tick gets soiled—soap and water and a brush cleans it. Why sleep on a mattress filled with dead animal hair? The very fact that it needs picking to pieces to clean it of dirt (and the germs stick!) should be enough to sicken one against it, for

CLEANING HAIR IS A DIRTY JOB.

remedies recommended for the woolly aphid by entomologists. One thing is well to keep in mind, and that is, that it is not always an easy matter to treat a root trouble, whether it is due to an insect or fungus. The aerial form of the woolly aphid will usually succumb to one or two thorough sprayings with the kerosene emulsion diluted three times. The root form is not so easily destroyed by the kerosene emulsion, though it is sometimes used for it. The two great remedies for the root form are tobacco dust, and carbon bisulphide. The use of the latter is advised for extreme cases only where the trees are badly infested and it is desired to destroy the insects immediately. The carbon bisulphide is injected by means of an injector into the soil six or more inches in depth, and on opposite sides of the trees. Great care must be exercised in the use of the carbon bisulphide, as it is very injurious to both animal and plant life. Do not allow the liquid to touch either the tree or root; if it does it is liable to injure them. It is also advised to inject the fluid while the soil is dry, as in wet soil the fumes from the carbon bisulphide will not be of much use.

ARRANGEMENTS COMPLETE FOR THE BANKERS' MEETING

Committees Gather to Hubbell Faction Contests Consummate Plans.

ORDER OF PROCEEDINGS AND ENTERTAINMENT DECIDED ON

All committees of the local bankers appointed to arrange for the first annual convention of the New Mexico Bankers' association to be held in this city February 15 and 16, met in joint session in the Commercial club last night and completed the order of proceedings of the convention, and the entertainment plans for the two days.

According to the plan agreed upon last night, the convention will open in the club on the morning of the 15th at 9 o'clock with prayer by one of the ministers of Albuquerque.

An address of welcome on the part of the city will then be tendered by Mayor Frank McKee, succeeded by brief addresses of welcome on behalf of the Commercial club by President W. S. Hopewell, and on behalf of the Albuquerque bankers, by O. N. Marston, president of the State bank.

The response will be by one of the visiting bankers not yet determined. A temporary organization will then be formed and committees on permanent organization, constitution, rules and by-laws will be appointed, after which the convention will adjourn until the afternoon. At the afternoon session reports will be heard from the committees, and it is expected that permanent organization will be effected at the meeting. The evening will be given over to the reception in the club to Governor Hagerman, at which all of the visiting bankers will be present.

On the morning of the 16th, the order of business will be resumed and the business of the first convention completed. The afternoon will be given to a drive about the city, during which the visiting bankers will be given an opportunity to see the city with plenty of time to take in all points of interest.

The convention will conclude with a banquet in the evening at the Alvarado hotel, to which Governor Hagerman will be invited and at which the social side of the meeting will have full sway. The committees in charge have made the most complete arrangements for the convention and the visiting bankers will be royally entertained. The convention is an assured success.

JEROME GAMBLER WILL PUT NEW ORDINANCE TO TEST

The severest test to which the famous anti-gambling ordinance recently passed by the council of Jerome, and which the authorities of the copper city have so rigidly enforced during the past few weeks, has yet been subjected will come tomorrow morning at 11 o'clock in the district court on a writ of habeas corpus, which commands the city marshal of Jerome to produce Jerome B. Hoover in court, and show cause for his arrest yesterday afternoon at 4 o'clock on the charge of running a crap game, says the Prescott Journal-Miner.

The basis of the petition upon which the writ was issued is that the ordinance is void. The result of the trial will, it is thought, decide whether gambling will be allowed to go on or whether it will be discontinued for good and all as the ordinance contemplates.

A similar case was tried in the justice court in Jerome on January 12, when Charles Hooker and Phil Pecharich were arrested for playing stud-horse poker and adjudged not guilty by a jury of twelve men, which verdict met with general satisfaction among a majority of the business people of the town.

It appears that Jerome B. Hoover, of the firm of Hoover and Cordier, started a crap game in his place of business, when City Marshal Hawkins immediately placed him under arrest, at the same time confiscating two sets of dice, all of the chips and the bank roll. The crap table was not taken along for the reason that it was said to be too large to be conveniently placed in the city hall.

Attorney Reuben M. Ling, who represents Mr. Hoover, was immediately communicated with, and he promptly filed the petition with the court for the issuance of the writ, which was granted. At a late hour last evening it was learned that Mr. Hoover was enjoying his liberty on his own recognizance until the validity of the ordinance would be tested next Thursday.

DONT FORGET That while our hobby runs to the loose leaf systems we still make special ruled and bound account books. A book made to suit your business saves time, patience energy and money.

H. S. LITHGOW & CO. Bookbinders at the Progressive Business Man. At the Journal Office.

MINIONS OF THE FALLEN FRANCISCO MAKE LAST STAND

Hubbell Faction Contests Ditch Election

TO DETERMINE WHO SHALL RUN ACEQUIA DE CHAMISAL

The minions of the fallen dynasty of Hubbell in Bernalillo county are making a last forlorn kick in the district court. In chambers yesterday Judge Abbott listened to the evidence in the acquia election contest regarding the control of the Chamisal ditch. At the election held in Los Ranchos de Albuquerque last October, Commissioners Francisco Lucero, Tomas Gonzalez, Diego Sanchez, and mayordomo Jose Garcia y Griego were elected on the face of the returns by majorities of about twenty votes. The Hubbell faction which was snuffed under as a result of the revolt against the fallen boss, contests the election on the ground that 18 illegal votes were cast, the defense denying this and alleging that the other side polled 17 illegal votes. The contestants are Promitimo Lucero, Tomas Candelaria, Maximo Chaves and Nicanor Martinez. They are represented by Attorneys E. W. Dobson and Modesto Ortiz, Summers Burkhardt looking after the interests of the defendants.

The hearing was produced in court and showed that the defendants received 109 votes, the plaintiffs getting 89. The case will be continued today. Quite a crowd of witnesses and spectators filled the Judge's apartment yesterday and the case has excited much interest among the people of the precinct. This is practically the last stand of the now almost extinct Hubbell faction in the county, as the boss' men have been turned down all along the line even into the old stamping ground of 'Slavo in Carelas.

Demurrer in Gambling Case. The court yesterday listened to argument on the demurrer submitted in the case of Newman against George K. Neher, a suit to collect an alleged gambling debt. E. L. Medler appears for plaintiff and W. B. Childers for defendant.

The following suits have been filed this week in the clerk's office: Eliza Garcia de Sandoval versus Rosendo Sandoval, W. C. Heacock, attorney for plaintiff; A. B. McMillen versus William Vaughan, H. F. Reynolds for plaintiff; E. Reynard versus Jack Meyer, A. J. Mitchell for defendant.

Cement Boss Hurt. R. H. Rawles, the exceptionally tall construction boss of the cement work being done on the Santa Fe near Springer, was the victim of a painful accident yesterday and was brought to the San Raphael hospital here today for treatment, says the Trinidad Chronicle-News. Mr. Rawles was attending to the unloading of twenty-eight cars of cement that had been backed into the temporary siding near the work. He was standing on top of one of the cars and did not know that had been disconnected from the engine. Nine of the cars got loose and started down the incline and the first that the construction boss knew of it was when the cars went off the track and went plunging through the dirt, stopping with such a jerk that he was thrown violently to the ground and his shoulder broken.

Will Soon Be Completed. "The factory has promised me that all the necessary appliances for equipping the wireless station in Trinidad will be here in ten days," said Charles R. Cooper, electrical engineer in charge of the work of installing the DeForest wireless station here, just before he left for Albuquerque, says the Trinidad Chronicle-News.

Mr. Cooper added that it will only take a day or two to adjust the parts after which the plant will be ready for business. He has repaired the pole and has the wires all adjusted so that when the necessary parts arrive he can connect them up without much delay.

The pole for the wireless station at Albuquerque is on the ground and he left for that city last night to erect the pole preparatory to installing the wireless station there. He will return to Trinidad within ten days and complete the station here.

PROVE IT ANYTIME. By the Evidence of Albuquerque People.

The daily evidence citizens right here at home supply is proof sufficient to satisfy the greatest skeptic. No better proof can be had. Here is a case. Read it: Mrs. J. Hall, of 519 South First st., says: "One of my daughters suffered from backache for about eight months or a year. Sometimes it was so bad that she was completely prostrated for a day or so at a time. I read about Doan's Kidney Pills in our Albuquerque newspaper and thought they might help my daughter and we purchased a box. In a remarkably short time the medicine took effect and a little longer stopped the backache. We are pleased to recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

A TRAIN BOOK COVER. Is just what you need. Mr. Conductor, to protect your train book. Made of the best Russian leather, lined with cloth, very durable. Better get one. You have no idea how pleasant it is to have a book that is not dog-eared and worn on the edges. Made by H. S. LITHGOW & CO., With the Journal.

Once more the Casino will contribute to the amusement of an Albuquerque audience in a Basket Ball game between the boys of the University and the High School. Clean snappy basket ball is promised. **GROCERIES! GROCERIES! GROCERIES!** THE FINEST LINE OF GROCERIES. PRATT & CO., 214 S. SECOND ST.

THE STORE OF RELIABILITY

- Men's Worsted Trousers, handsome patterns in both dark and light shades; nicely cut and well made; every pair a bargain at \$4.00 and\$3.50
- Men's All-Wool Trousers, brown, black and gray stripes; very handsome in fit and finish, pleasing patterns; per pair.....\$4.00
- Men's All-Wool Trousers, hard finish, striped in very handsome patterns; the very latest in cut and style; Our price per pair \$6.00 and\$5.00

While on the subject of Goods for Men's Wear allow us to call attention to our Furnishings in Shirts, Underwear, Collars, Neckties and Hosiery

There is money to be made in buying FURNISHINGS of us. The goods are right in every particular and the prices the very lowest that can be made. Our customers will substantiate the statement that we carry nothing but reliable goods and of the styles and patterns that meet the requirements of well dressed men.

By all means do not forget that we carry THE VERY BEST SHOES for every member of the family. DIAMOND BRAND SHOES have earned the reputation of being the best, while prices are no more than those asked by other dealers for inferior goods. We also carry the Case Shoes for Men, and the Burt Shoes for Ladies, both lines being the standard for really fine shoes.

During the week take a good look into the show windows under the

BIG GLOBE SIGN

On West Railroad Avenue. The prices marked on the goods displayed will certainly please and we know the quality will be above question.

The very best of Kansas City beer and nuton at Emil Kleinwort's, 112 North Third street.

ONE OF RICHEST COPPER STRIKES IN NEW MEXICO

Sensational Discovery Made Near Lordsburg.

WILL DEVELOP INTO PROPERTY OF ENORMOUS VALUE

A strike which bears indications of being one of the richest ever made in the history of Grant county has been made near Lordsburg, and the strangest part of the news is that it was made by two men engaged in the business of raising cattle, and who were not even prospecting when the find was made.

The Silver City Independent says of the strike: About the middle of December last V. P. Harrington purchased a ranch from John Robinson, of Lordsburg, the same being located about seven miles west of that town. Just before Christmas the brothers, V. P. and J. L. Harrington, went down to look over their newly acquired ranch property, when J. L. Harrington saw what looked like ore to him sticking up out of the ground.

They immediately secured the necessary tools to go down on the spot to see if they really had discovered anything. After going down some 12 feet on what they presumed to be the vein, they took an average sample from clear across the vein and brought the same to this city for the purpose of having it assayed. The sample was handed to Casper Brothers of the Union market, and they had a careful assay made, the result being the receipt of an assayer's official certificate that the samples of ore submitted ran 41 per cent copper.

Upon receipt of this information the Harrington brothers immediately repaired to the scene of the find and located ten claims in the names of V. P. Harrington and Casper Brothers, the locations being made only last week. The vein is approximately two feet wide at the surface, and at a depth of 12 feet attains a width of 40 inches. The trend of the vein appears to be from southwest to northeast, and it can be traced for some distance along the surface.

J. W. Allen, the well known rancher of White Signal, who has lived in Grant county for the past twenty-five years, and who, though no miner, is one of the best read men on mining and metallurgy in this section of New Mexico, pronounces the strike the best that has ever come to his knowledge during his long career in this section of the southwest.

If the strike holds out as well as the present showing would indicate, it will develop into a property of enormous value, located as it is only one mile from the Southern Pacific railroad tracks, which will give the operators only a short haul to get the ore on the cars for shipping; the fact that the ore lies in working quantities right at the surface makes the property still more valuable.

It is the intention of J. L. Harrington to leave in a few days with a couple of experienced miners when a considerable more development work will be done in order to determine more fully just how big a strike has been made.

ALBUQUERQUE STARS WILL FIGURE IN RAILROAD BASE BALL GAME

There is a big base ball game coming off out in San Bernardino, February 22, between a team representing the office force of the transportation department and an aggregation selected from the clerks in the offices of the master mechanic and the coast line storekeeper. The game is an annual affair and always proves one of the most exciting contests of the year on the San Bernardino diamond. This year both teams are relying for spectacular stunts upon Albuquerque talent. "Polly Auld," formerly of the Albuquerque High school team and one of the crack pitchers of the southwest will help out the transportation team and the fast battery of Albuquerque men who are clerks in the offices of coast lines Storekeeper I. J. Custer will take the leading roles for the storehouse team. A San Bernardino paper has the following to say about the game:

Their latest find of the transportation team is "Polly Auld," who was the star pitcher of the High school inter-scholastic league for a couple of seasons. He is now ralloading on the transportation side of the yards and will occupy the slab for that team. The man behind the bat will be Peris, than whom there is no better. Auld and Peris should make a very fast combination.

But the mechanical and store house team has a card up its sleeve, and this has just been discovered, and this adds interest. Within the next few days the office of Head Storekeeper Custer will have been removed here from Albuquerque. In that office force is a very fast battery. In Albuquerque they have been known as "Custer's battery." And they have been drafted to play with the mechanical and storehouse team.

Each side is confident it will win this year. Megatime excitement is running high and it is no one's game yet. The line-up will be arranged within a few days.

BINDERS FOR EVERYBODY. Made in every shape and style. To hold ledgers, order blanks, duplicate statement sheets and all matter used in loose leaf form. We do all the work in our own shop. Call us up and we will show you. H. S. LITGOW & CO. Bootbinders. With the Journal.

IT WILL DOUBLE ITSELF IN 3 YEARS

LIVELY INTEREST IN SAWMILL MAN IS RECEPTION TO GOVERNOR

RECEPTION COMMITTEE OF CLUB HAS ENTHUSIASTIC MEETING

That the Commercial club is going to exert itself to the limit for the entertainment of Governor Hagerman during his visit to Albuquerque next week, is apparent from the enthusiasm shown last night at the meeting of the club's reception committee. Every member of the committee was present and every member took a lively interest in discussing the plans for the forthcoming reception.

The plans for the reception were gone over in detail, and a number of matters suggested, some of which will be adopted by the committee for the entertainment of the distinguished guest. As has been announced, a committee will go to Santa Fe on the 14th to accompany Governor Hagerman to Albuquerque. The reception committee, accompanied by a band will meet the party on its arrival on the evening of the 14th.

Plans have not yet been completed for the entertainment of the governor on the 15th, but he will be invited to visit the University, and other points of interest which he may care to see. The wishes of the guest determining the course of the committee. In the evening there will be the reception by the club and on the following day it is expected that a good deal of the governor's time will be taken up by the bankers who will be in session during the day.

The membership of the club has never shown a more general interest in any event than in the entertainment of Governor Hagerman, and the event promises now to be the most successful in the history of that organization.

MASK BALL! MASK BALL! AT COLOMBO HALL, FEBRUARY 11. PRIZES FOR THE BEST MASCARADE. TICKETS 75 CENTS. ADMITTING LADIES.

COMING ITALIAN BALL. A grand concert and ball will be given by the Italian Mutual Protection society of Albuquerque, at their lodge rooms, Colombo hall on Tuesday evening, February 27, 1906, at 8 o'clock. The last day of the carnival, all use the same program.

CHARLES MELINI, Chairman. FRANK TOMEL, Treasurer. O. RACHECH, Secretary.

DON'T FORGET THE BASKET BALL GAME TONIGHT BETWEEN THE VAISITY AND A. H. S. A CLOSE, SNAPPY GAME.

SAWMILL MAN IS ROBBED OF TICKET TO ALBUQUERQUE

VICTIM OF THUGS WAS GOING TO WORK FOR HORABIN-M'GAFFEY

One John Goodwin, a saw mill man, late of Alamogordo, who expected to go to work for the Horabin-McGaffey company at Theban this week, is laid up at El Paso with a badly broken head, his ticket to Albuquerque is gone, he is shy the thirty dollars in cash which represented his savings and is also minus the checks to the baggage which contained most of his possessions. Goodwin was the victim of a gang of thugs in El Paso who assaulted him brutally and robbed him of everything he had about midnight Wednesday night. Goodwin is an Odd Fellow and a steady going man from all reports, who has been working for some time past in the Alamogordo mills. He had gone to the Santa Fe depot to take his train at 8:45 p. m. While waiting for the arrival of the train he walked over to the International saloon, across from the depot, and took a few drinks, and when he returned to the depot the train had left.

When he returned to town, he says, but later went back to the International saloon. While there he was accosted by two men, an American and a Mexican, and was asked to have a drink with them.

Decoyed From Saloon. After a few more drinks Goodwin was told by one of the men that a friend wanted to see him across the street, but Goodwin refused to go. Then they suggested to him that they go to the dance hall. Goodwin declares that he started with them under protest, and a few minutes after leaving the saloon they knocked him down.

He was unconscious for some minutes, but when he revived he found his money and ticket gone. He then reported to the police.

An ugly gash in the left cheek bone and a bump in the head show that he was dealt two vicious blows. The cut on the cheek looks as if knives had been used.

BASKET BALL TONIGHT AT THE CASINO. VAISITY VS. A. H. S. A. ADMISSION 50c. GAME CALLED AT 8:15.

Will Debate Statehood. There will be a debate at the Las Vegas public library building, Monday night, February 12, under the auspices of the Woman's Library association. The question to be discussed is as follows: "Resolved, That the public

interests of the country at large, and of the territories interested, require that New Mexico and Arizona shall be admitted into the union as separate states severally, and not jointly as one state."

Upon the invitation of the association, Messrs. Hayden, Larazola, Ward and Judge Long have consented to join in the debate. The discussion will be limited to one and a half hours in all. In arranging for this entertainment, the association is seeking to give the public the benefit of an impartial discussion of a great public question, and as well has in view the interests of the library, to which the proceeds of the evening will be given.

SHERLOCK HOLMES. Couldn't find the one man in this town who wants that saddle or driving horse of yours as surely and as quickly as a For Sale ad can do; and Sherlock's fee would be larger.

If you need a carpenter telephone McSpadden, the exchange man, 300 South Broadway.

The Harmless Business Competitor. The business man ever feared a competitor who did not advertise; it's the one who advertises a little more aggressively than yourself who induces your insomnia. Isn't this true?

PRIZES! PRIZES! PRIZES! FOR THE BEST MASCARADE AT THE MASK BALL, FEBRUARY 11, AT COLOMBO HALL.

FINANCE AND COMMERCE

Wall Street. New York, Feb. 8.—Speculation failed to show any initiative today. There was a falling off still in the volume of activity from the recent level, and the trading fell at times into a condition of semi-stagnation which is rarely seen in the market except at what is called the period of midsummer dullness. Closing quotations:

Table with 2 columns: Commodity and Price. Includes items like Amalgamated Copper, American Sugar, Anaconda Copper, etc.

St. Louis Wool. St. Louis, Feb. 8.—The wool market was steady and unchanged.

Chicago Board of Trade. Chicago, Feb. 8.—An official forecast of snow in Kansas and Nebraska was chiefly instrumental today in causing a weak tone in the wheat market here. Opening quotations on May were 85 1/2 to 85 3/4. The price advanced to 85 3/4 to 85 1/2. The low point for May was reached at 84 1/2 to 84 3/4 and the close was weak at 84 1/2.

May corn opened at 44 1/2 to 44 3/4 and 44 1/2, sold off to 43 1/2 and closed at 44. May oats opened at 28 1/2 to 29 1/2, sold off to 28 1/2 and closed at 29 1/2.

The Metals. New York, Feb. 8.—Copper had a sharp advance in London, closing at 17 1/2 for spot and 17 1/4 for futures. Locally conditions remain as previously quoted. Lake Superior and electrolytic copper are quoted at \$17.75 to \$18.25 and casting at \$17.50 to \$17.75, the outside prices being nominal. Lead was dull at \$5.60 to \$5.75 in the local market. The London market was 18 1/2 lower at £16 3/4 9d. Spelter advanced to 127 in London, but remained unchanged at \$6.67 1/2 locally. Bar silver was quoted at 65 1/2 and Mexican dollars at 30 1/2.

Chicago Live Stock. Chicago, Feb. 8.—Receipts—Receipts 5,500. The market was generally 10 to 15 higher. Common to prime steers were quoted at \$3.40 to \$3.55; cows, \$3 to \$3.40; heifers, \$2.25 to \$2.50; bulls, \$2.00 to \$2.40; calves, \$2.00 to \$2.40; stockers and feeders, \$2.40 to \$2.60. Sheep—Receipts, 14,000. The market was strong, sheep being quoted at \$3.50 to \$3.60; yearlings, \$5.00 to \$5.40; lambs, \$4.50 to \$4.75.

Kansas City Live Stock. Kansas City, Feb. 8.—Cattle receipts, 5,500, including 300 southern. The market was steady to 10 to 15 higher. Native steers being quoted at \$4.00 to \$4.50; southern steers, \$3.25 to \$3.75; southern cows, \$2.25 to \$2.62; native cows and heifers, \$2.25 to \$2.40; stockers and feeders, \$2.00 to \$2.40. Sheep receipts, 8,000. The market was steady. Muttons were quoted at \$4.50 to \$5.15; lambs, \$5.50 to \$7.75; range wethers, \$5.50 to \$6.25; fed ewes, \$2.40 to \$2.50.

LOCAL ITEMS OF INTEREST

THE WEATHER.

Washington, Feb. 8.—New Mexico—Partly cloudy Friday; rain or snow at night or Saturday.

Arizona—Cloudy Friday, snow in northeast, probably rain in southeast portion; Saturday fair.

Phil Jaegels, of Los Lunas, spent yesterday in Albuquerque.

C. W. Whitney, of Belen, was in the city on business matters yesterday.

R. A. Marble, of Estancia, arrived in the city on business yesterday.

R. A. Stutz, mining engineer, left last night on the limited for New York city.

P. Llanos, of Los Lunas, was a business visitor from the Valencia county town yesterday.

Seymour J. Lewinson, salesman for L. B. Putney, left last night on a business trip to Denver.

Miss Zella Rankin, daughter of County Surveyor Don J. Rankin, is quite ill with typhoid fever at her home.

A. Viviani is laying the foundation for a twenty-room house on Tijeras avenue, between Third and Fourth streets.

President W. S. Huff of the Albuquerque Electric Light company, arrived last night on delayed No. 16 from Tucson.

Probate Clerk James A. Summers, who is suffering with heart trouble, was reported to be dangerously ill again yesterday.

Mrs. W. W. McClellan has issued invitations for a card party at her residence on North Fourth street for Thursday afternoon February 22.

Regular services Friday evening at Temple Albert, at 7:45. Rabbi Alfred T. Godshaw, of Cincinnati, Ohio, will occupy the pulpit. Everyone is invited.

Mrs. McMillin, wife of City Marshal Thomas McMillin, is expected to return tomorrow, accompanied by her daughter from a trip to Osage City and other Kansas points.

Deputy Sheriff Minnie, Santa Fe prisoner in the lower yards, yesterday issued a commission to William Sisson as a special policeman, and Sisson was sworn in by Judge Crawford.

Sheriff Perfecto Armijo, who has been critically ill with pneumonia at St. Joseph's hospital, was pronounced out of danger yesterday and is now thought to be on the road to recovery.

G. E. Kennedy, of Brookfield, Missouri, arrived here yesterday to visit his brother, Assistant Marshal Kennedy. Mr. G. E. Kennedy, who is an expert bookkeeper, will probably locate in Albuquerque.

L. R. Crawford, of the Alvarado pharmacy, went up to Santa Fe yesterday morning to take the place temporarily of A. C. Ireland, the well known Santa Fe druggist, while the latter takes a trip of several weeks to the east.

The program for the Woman's club Friday afternoon will be in charge of the department of literature. The subjects are taken from the literature of the south and promise to be of unusual interest. The music for the day will follow the same lines.

Gus Mulholland, the well known well driller, who struck artesian water at Gallup the other day, has returned to the Carbon City after having a mangled finger treated by local surgeons.

A reception will be given by the Epworth League of the First Methodist church to all new members of the church and league tonight at 8 o'clock, in the church parlors. Everyone is invited to spend a social evening with the young people and get acquainted.

Prof. Miller, of the High school, took the chemistry class over to inspect the new gas plant yesterday and the students spent an instructive hour looking over the generating apparatus under the direction of Manager J. B. Downey, who explained the workings of the plant in detail.

Relatives in the east are looking for a man named Arthur Coolbaugh, a native of Pennsylvania, who ran away from home in October, 1895, and assumed the name of E. A. Brown. He is thought to be living somewhere in the southwest. He lived at that time in Pittston, Pa., and was fifteen years old when he left home. J. W. Shaw, of the Weekly Advertiser, Elmira, New York, whose wife is a sister of the runaway, is instrumental in the search and has notified the local authorities in the hope of finding a clue.

R. L. Howell, of Moline, Illinois, is in the city looking up the records in connection with some property supposed to have been owned here some time ago by his mother, Mrs. Nora Elizabeth Howell, who afterward went to Flagstaff, was later sent to the insane asylum in Phoenix, and who died June 1, 1899, in that institution. Mr. Howell has learned that his mother once owned a house and lot on West Copper avenue and is ascertaining the final disposition of the property.

The remains of the late James B. Johnson, who died early yesterday morning, were shipped last night to the old home of the deceased in Louisville, Kentucky, accompanied by a brother, George F. Johnson. The deceased who was a railway clerk in the employ of the Louisville and Nashville railroad, was 24 years old and came here a month ago.

Alec Stewart was fined ten dollars in police court yesterday morning for committing a nuisance. His fine was paid by a woman named Dorsey Wells, a relic of Old Town, who also paid a fine in her own right amounting to five dollars, for being drunk and disorderly.

Special convocation of Rio Grande Chapter, No. 4, Friday evening, February 9th, at 7:30 o'clock. Work in the M. E. Master's degree. By order of the H. P. J. C. Feger, secretary.

Trainmaster E. Payson Ripley, from San Marcel, arrived in the city last night from his headquarters.

W. J. Blackwell, of Kansas City, is in Albuquerque.

W. H. Howell, of Trinidad, is at the Alvarado for a few days.

Mr. and Mrs. Blaine P. Wilson, of Richmond, Va., are at the Alvarado.

Mr. and Mrs. G. L. Brooks left last night on the limited for a visit in Chicago and New York.

H. A. Chamberlain, of the claims department of the Santa Fe, arrived in Albuquerque from the east last night.

Deputy United States Marshal George A. Kaseman was in Las Vegas yesterday looking after official business.

C. L. McKenzie, superintendent of the Colorado-New Mexico division of the Wells-Fargo Express company, is in the city on a visit of inspection.

R. W. Hadden left last night for New York, where he will remain for several weeks in the interest of several mining properties in southern New Mexico.

Mrs. M. O. De Boge and Miss Peters, tourists from St. James, Maryland, arrived in Albuquerque last night on the Chicago Limited and will remain here for the day.

A small house last night greeted the Ethel Tucker Stock company in the performance of "Are You an Odd Fellow?" at the Elks' theater. The performance was a fairly good one and compares favorably with the other attractions of the Tucker Stock company.

Mrs. Matilda Cox Stevenson, of the Bureau of Ethnology of Washington, has arrived in Santa Fe on her way to the Taos pueblo, where she will make an exhaustive study of the Indians, their manners and customs, securing material for an extensive report on the tribe.

OFFICE THIEVES ARE NOW GETTING IN THEIR WORK IN EL PASO

El Paso professional men are now being victimized by a gang of sneak thieves, the same ones who recently operated in Albuquerque, or else whose methods of operations are very similar. As in this city, the dentists of the Pass City are the favorite subjects of these night marauders and gold fillings in profusion have been stolen from various offices. The El Paso Times says:

The sleuths of the police department are following up all clues which might lead to the apprehension of the burglars who made the raid on the doctor's offices in the Masonic temple during the early hours yesterday morning and carried off many articles of value, including a considerable quantity of pure gold, which was the property of the dentists of the building.

The offices of Dr. H. S. Smith, Dr. H. Bloomstein, Dr. J. W. Calhoun, Dr. H. Voorhees, Dr. E. L. Ramsey, and Dr. H. P. Brown were entered by the thieves and all of the offices were left in a great state of disorder. The burglars gained entrance into several of the offices by merely raising the windows which faced the hall. The window leading to the office of Dr. Bloomstein, dentist, and Dr. J. W. Calhoun, whose offices join, was broken just above the catch, and the window raised.

Dr. Bloomstein is the heaviest sufferer. The burglars opened his case and took a quantity of loose gold used in making teeth, fillings, etc. The desk of his office and that of Dr. Calhoun's, adjoining, were opened and papers scattered promiscuously about, showing that the thieves were in search of money.

Small articles were taken from the other offices and papers and letters were strewn from tables and desks over the floor. The offices of the New York Life Insurance company and W. H. Winter, an attorney, were also entered, but nothing of value was found by the thieves. No attempt was made to open any of the safes which were found in the rooms. The office of D. W. Barkhalter and S. B. Gillett, attorneys, which adjoins the New York Life office, was the only one on the second floor of the building which was not entered.
